SEC staff had to make judgments in some limited cases as to whether certain securities held in prime money market funds were issued by a specific bank. The banks were then grouped by country based on location of their global headquarters. In general, the calculations include Asset Backed CP sponsored by a bank and all repos with that bank as counterparty. If identifiable with a specific bank, money market tranches of ABS are included in the calculation. Securities guaranteed, but not issued by, bank-related entities are not included.

Euro-zone is a subset of Europe and Euro-zone values are also included in totals for Europe.

SEC staff had to make judgments in some limited cases as to whether certain securities held in prime money market funds were issued by a specific bank. The banks were then grouped by country based on location of their global headquarters. In general, the calculations include Asset Backed CP sponsored by a bank and all repos with that bank as counterparty. If identifiable with a specific bank, money market tranches of ABS are included in the calculation. Securities guaranteed, but not issued by, bank-related entities are not included.
