

EXHIBIT 15

Subject: The Reserve Primary Fund 6/26/09
+ The Bents.

RECEIVED
6/27/09

Dear Nancy Brown:

I applaud the SEC as pertains to their action against the Bents' and The Reserve Primary Fund^{AS} filed on 5/5/09.

I certainly hope that your action will bring about an orderly pro-rata distribution of the remaining \$4.553 (±) billion in assets held by the "Res" as soon as possible but no later than October, 2009.

I have an account with AMMTD, and I am yet owed \$133,800.00 by the "Res" --- I hope.

Please be aware of the fact that I agree with the SEC --- and I thank-you very much!

However, in my opinion, there are a few points that need to be addressed. --- at some time -- your call

(a) Shouldn't the shareholders be entitled to their pro-rata share of the income from the "Res" from the period 9/15/08 until final distribution. The income is never reflected on the "Res" schedule of instruments. A lot of ###.

(b) Is the \$6785 million in Lehman

debt really worthless? Almost all distressed debt has some FWMV. Let the market clear the value. For example, I sold my ^{Purple} FWMV.5 for \$.80 A share. For less than what I paid but still something.

(c) Over \$10 Billion was redeemed by the "Res" on 9/15/08 AT par - \$1.00. The "Res" redeemed AT \$1.00 when they know full well that the LEH was of negligible value. LEH had already filed for bankruptcy protection. Should not these investors have been fed out of the same spoon as everyone else?

(d) The Bents are not paragons of virtue. "You can't live in a glass house and throw rocks!" AT some point there follows need to be sanctioned heavily for their actions and attitude. I am positive the SEC is aware of these facts. Please go get them!!

I'm closing - Thanks for your efforts. If possible let me hear from the SEC.
