Financial Profile, page 28

1. We have considered your response to comment 1. You indicate that your assumptions are adjusted to reflect factors specific to the underlying asset and the geography where it is located. In addition, we note your disclosures categorize these assumptions as Level 3 unobservable inputs. As a result, it appears that the inputs used to value the Company's investment properties and property, plant and equipment contain inherent uncertainty, as they are subject to managerial assumptions. Please revise future filings to provide a

sensitivity analysis of those assumptions based on reasonably likely changes. Within your response, please provide an example of your proposed disclosure.

Note 11. Investment Properties and Note 12. Property, Plant and Equipment, pages 122-132

2. We have considered your response to comment 1. Your response appears to imply that sensitivity has a nominal impact because of the mitigation resulting from the interrelationships among the various inputs and assumptions. Please revise financial statement footnote disclosures in future periodic filings to provide a description of those interrelationships and of how they might magnify or mitigate the effect of changes in the unobservable inputs utilized in your fair value measurement. Reference is made to paragraph 93(h)(i) of IFRS 13. Please provide an example of your proposed disclosure.

You may contact Wilson K. Lee at (202) 551 - 3468 or me at (202) 551 - 3295 if you have any questions.

Sincerely,

/s/ Jennifer Monick
