Plan Administrator
TIB Financial Corp. Employee Stock Ownership
Plan With 401(k) Provisions
Naples, Florida

We have audited the accompanying statements of net assets available for benefits of the TIB Financial Corp. Employee Stock Ownership Plan With 401(k) Provisions as of December 31, 2005 and 2004, and the related statement of changes in net assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the TIB Financial Corp. Employee Stock Ownership Plan With 401(k) Provisions as of December 31, 2005 and 2004, and the changes in net assets available for benefits for the year ended December 31, 2005 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. These supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic 2005 financial statements, and, in our opinion, are fairly stated in all material respects in relation to the basic 2005 financial statements taken as a whole.

TIB FINANCIAL CORP. EMPLOYEE STOCK OWNERSHIP
PLAN WITH 401(k) PROVISIONS
NOTES TO FINANCIAL STATEMENTS
December 31, 2005 and 2004

NOTE 1 - DESCRIPTION OF PLAN

The following description of the TIB Financial Corp. Employee Stock Ownership Plan With 401(k) Provisions provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is an Employee Stock Ownership Plan containing a 401(k) cash or deferred arrangement under Section 401(a) of the Internal Revenue Code (IRC) and is designed to be an employee stock ownership plan under Section 4975(e)(7) of the IRC. The Plan covers substantially all of the employees of TIB Financial Corp. (Company) and subsidiaries, and its provisions are governed by the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

During 2004, the Plan covered substantially all employees who had attained the age of eighteen and had completed at least 1,000 hours of service and twelve consecutive months of employment. Effective January 1, 2005, the Plan was amended to revise the eligibility requirements to 90 days after the employee's hire date.

Contributions

Each year, participants may contribute as pre-tax salary deductions the dollar limit by law, up to \$14,000 for the plan year ended December 31, 2005. Participants may also contribute amounts representing catch-up contributions as defined by law, or distributions from other qualified defined benefit or defined contribution plans. For 2005, the Company contributed 50 percent of the first 4 percent of base compensation that a participant contributed to the Plan, up to a maximum of \$1,000. The Company also may contribute an additional discretionary profit sharing contribution. No discretionary profit sharing contribution was made during 2005. Additional basic and discretionary amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of a) the Company's contribution, b) Plan earnings, c) forfeitures of terminated participants' non-vested accounts and d) administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan for the employee deferral and the employer matching contribution. The Plan currently offers fifteen mutual funds and Company stock as investment options for participants. Participants who have completed ten years of service and have attained the age of 55 are qualified to diversify their employer optional contribution.

PLAN WITH 401(k) PROVISIONS
NOTES TO FINANCIAL STATEMENTS
December 31, 2005 and 2004

Retirement, Death and Disability

A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting

Participants are immediately vested in their contributions and the Company's matching contribution, and actual earnings thereon. Vesting in the employer optional contribution of their account plus earnings thereon is based on years of continuous service. Participants are 20% vested after completion of three years of credited service and 20% for each subsequent year of credited service. A participant is 100% vested after seven years of credited service.

Loan Provisions

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid through payroll deductions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

Investments in mutual funds are stated at quoted market prices. The fair value of TIB Financial Corp. common stock is determined by a quoted market price. Purchases and sales of investments are accounted for on the trade date. Transaction fees for purchases and sales are included in the cost or sale price of the securities. Dividend income is recorded on the ex-dividend date. Participant loans are carried at their remaining balance, which approximates fair value.

Risks and Uncertainties

The Plan provides for investment options in various mutual funds and common stock. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

TIB FINANCIAL CORP. EMPLOYEE STOCK OWNERSHIP
PLAN WITH 401(k) PROVISIONS
NOTES TO FINANCIAL STATEMENTS
December 31, 2005 and 2004

The Plan has an investment in TIB Financial Corp. common stock amounting to \$4,873,726 as of December 31, 2005. This amount represents 57% of net assets available for benefits as of December 31, 2005.

Payment of Benefits

Benefit payments are recorded when paid.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, 100% of each participant's account becomes nonforfeitable as of the date of termination.

NOTE 4 - INVESTMENTS

The Plan's investments that represent 5 percent or more of the Plan's net assets are shown below.

	2005	2004
Investments at quoted market prices

TIB Financial Corp. common stock	\$ 985,000
Mutual funds	216,716
	<u>\$ 1,201,716</u>

NOTE 5 - TAX STATUS

The Internal Revenue Service has determined and informed the Company, by letter dated March 28, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
