# OPTIMAL GROUP INC.

Notes to Consolidated Financial Statements  
(Unaudited)

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per share amounts)

---

## 1. Interim financial information:

These consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles (“GAAP”). The unaudited consolidated balance sheet as at June 30, 2007, the unaudited consolidated statements of operations and cash flows for the periods ended June 30, 2007 and 2006 and the unaudited consolidated statement of shareholders' equity for the period ended June 30, 2007 reflect all adjustments which, in the opinion of management, are necessary to present a fair statement of the results of the interim periods. These interim consolidated financial statements follow the same accounting policies and methods of their application as described in note 3 to the annual audited consolidated financial statements for the year ended December 31, 2006, except as described in note 2 below. The interim consolidated financial statements do not include all disclosures required for annual financial statements and should be read in conjunction with the most recent annual audited consolidated financial statements of Optimal Group Inc. (the “Company”) as at and for the year ended December 31, 2006.

The Company's revenues and expenses are subject to seasonal variations. The results of operations and cash flows for any quarter are not necessarily indicative of the results or cash flows for an entire year.

All amounts in the attached notes are unaudited unless specifically identified.

## 2. Changes in accounting policies:

Effective January 1, 2007, the Company adopted the Canadian Institute of Chartered Accountants (CICA) Handbook Section 1530, *Comprehensive Income*, CICA Handbook Section 3251, *Equity*, CICA Handbook Section 3855, *Financial Instruments – Recognition and Measurement*, CICA Handbook Section 3861, *Financial Instruments – Disclosure and Presentation*, and CICA Handbook Section 3865, *Hedges*. These new Handbook Sections provide comprehensive requirements for the recognition and measurement of financial instruments, as well as standards on when and how hedge accounting may be applied. Handbook Section 1530 also establishes standards for reporting and displaying comprehensive income. Comprehensive income is defined as the change in equity from transactions and other events from non-owner sources. Other comprehensive income refers to items recognized in comprehensive income but that are excluded from net income calculated in accordance with GAAP.

Notes to Consolidated Financial Statements, Continued  
(Unaudited)

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per share amounts)

---

## **2. Changes in accounting policies (continued):**

Under these new standards, all financial instruments are classified into one of the following five categories: held for trading, held-to-maturity investments, loans and receivables, available-for-sale financial assets or other financial liabilities. Upon initial recognition, all financial assets and liabilities are recognized at fair value. Subsequent to initial recognition, all financial instruments, including derivatives, are included in the consolidated balance sheet and are measured at fair market value with the exception of loans and receivables, investments held to maturity and other financial liabilities, which will be measured at amortized cost. Subsequent measurement and recognition of changes in fair value of financial instruments depend on their initial classification. Held-for-trading financial investments are measured at fair value and all gains and losses are included in net income in the period in which they arise. Available-for-sale financial instruments are measured at fair value with revaluation gains and losses included in other comprehensive income until the asset is removed from the balance sheet.

The standards require derivative instruments to be recorded as either assets or liabilities measured at their fair value unless exempted from derivative treatment as a normal purchase and sale. Certain derivatives embedded in other contracts must also be measured at fair value. All changes in the fair value of derivatives are recognized in earnings unless specific hedge criteria are met, which requires that a company must formally document, designate and assess the effectiveness of transactions that receive hedge accounting.

As a result of the adoption of these standards, the Company has classified its cash and cash equivalents, short-term investments and cash and short-term investments held as reserves as available for sale. The Company has classified accounts receivable, settlement assets, and long-term receivables as loans and receivables, and accounts payable and accrued liabilities, and customer reserves and security deposits as other financial liabilities, all of which are measured at amortized cost. The adoption of these new standards also resulted in the reclassification of the amount of \$1,484 previously recorded in "Cumulative translation adjustment" to "Accumulated other comprehensive loss" on the consolidated balance sheets. The adoption of these standards had no impact on the consolidated statement of earnings.

## **3. Basis of presentation:**

As a result of the sale of the hardware maintenance and repair services business segment effective September 30, 2006 as described in note 4 (b), the results of this discontinued operation are presented separately under discontinued operations in the consolidated statements of operations for 2006.

# OPTIMAL GROUP INC.

Notes to Consolidated Financial Statements, Continued  
(Unaudited)

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per share amounts)

---

## 4. Business acquisition and disposal:

### (a) Acquisition:

On December 22, 2006, Optimal Acquisition Inc., a wholly-owned subsidiary of the Company, made an offer to acquire all the issued and to be issued ordinary shares of FireOne Group plc ("FireOne") held by non-controlling shareholders (approximately 25% of the total), at a price of £0.60 per share, representing a cash consideration of \$16,463. On February 23, 2007, Optimal Acquisition Inc. completed the acquisition of all of the outstanding shares of FireOne, which as of that date became a wholly-owned subsidiary of the Company. Effective February 23, 2007, a non-controlling interest is no longer recorded in the consolidated financial statements of the Company. Transaction costs in connection with this transaction were \$1,748. The transaction was accounted for using the purchase method. The Company recorded goodwill of \$1,603 in connection with this transaction.

### (b) Sale of hardware maintenance and repair services segment:

Effective September 30, 2006, the Company sold its Canadian hardware maintenance and repair services segment. The divestiture is in accordance with the Company's strategy of identifying opportunities that can generate superior returns while selling assets that do not generate acceptable returns.

The 2006 results of operations for this business segment are included in discontinued operations on the consolidated statement of operations. The results of operations include management assumptions and adjustments related to cost allocations which are inherently subjective.

# OPTIMAL GROUP INC.

Notes to Consolidated Financial Statements, Continued  
(Unaudited)

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per share amounts)

## 6. Share capital:

On November 6, 2006, the Board of Directors approved a stock buyback program which authorizes the Company to purchase up to 1,100,000 of its issued and outstanding Class "A" shares. The Company may purchase the Class "A" shares on the open market through the facilities of the Nasdaq Stock Market over the course of 12 months commencing November 21, 2006 and ending November 21, 2007. All shares purchased under the stock buyback program will be cancelled. During the six months ended June 30, 2007, no Class "A" shares were purchased.

## 7. Stock options and warrants:

### (a) Optimal Group Inc.:

The Company has a stock option plan that provides for the granting of options to employees and directors for the purchase of the Company's Class "A" shares to be issued from treasury. Options may be granted by the Board of Directors for terms of up to ten years. The Board of Directors establishes the exercise period, vesting terms and other conditions for each grant at the grant date. Options may be granted with exercise prices at the then current market price. Options currently outstanding under the plan expire five years after the date of grant.

Details of the outstanding stock options are as follows:

	Number of options		Weighted average exercise price per share
Options outstanding, December 31, 2006	3,933,171	\$	7.14
Expired/cancelled	(630)		7.10
Options outstanding, June 30, 2007	3,932,541	\$	7.14

There are 67,500 (June 30, 2006 - nil) stock options that could potentially dilute basic earnings per share in the future that were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive for the three and six-month periods ended June 30, 2007.

# OPTIMAL GROUP INC.

Notes to Consolidated Financial Statements, Continued  
(Unaudited)

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per share amounts)

## 7. Stock options and warrants (continued):

### (a) Optimal Group Inc. (continued):

The following table summarizes information about the options outstanding and exercisable at June 30, 2007:

Exercise price/share	Weighted average remaining contractual life (years)	Options outstanding		Options exercisable	
		Number	Weighted average exercise price/share	Number	Weighted average exercise price/share
\$7.10	1.83	3,865,041	\$ 7.10	3,865,041	\$ 7.10
\$9.36	4.47	67,500	9.36	–	–
	1.88	3,932,541	\$ 7.14	3,865,041	\$ 7.10

### (b) Terra Payments Inc.:

Under the terms of the Combination Agreement with Terra, the Company assumed Terra's stock option plan and, as such, stock options governed by this plan will be exercisable for the Company's Class "A" shares. The exercise price and number of options outstanding on April 6, 2004, the effective date of the acquisition of Terra, were adjusted based on the exchange ratio of 0.4532 of the Company's Class "A" shares for each share of Terra.

Details of the outstanding stock options under the Terra plan are as follows:

	Options with a U.S. dollar exercise price		Options with a Canadian dollar exercise price	
	Number	Exercise price per share	Number	Weighted average exercise price per share
Options outstanding, December 31, 2006	134,113	\$ 7.43	181,758	\$ 8.19
Expired/cancelled	–	–	(19,414)	10.62
Exercised	–	–	(10,708)	5.31
Options outstanding, June 30, 2007	134,113	\$ 7.43	151,636	\$ 8.08

# OPTIMAL GROUP INC.

Notes to Consolidated Financial Statements, Continued  
(Unaudited)

(expressed in thousands of U.S. dollars, except share and per share amounts)

---

## 7. Stock options and warrants (continued):

### (b) Terra Payments Inc. (continued):

All of these options were fully vested at December 31, 2005. These options expire on various dates up to April 2009.

The weighted average remaining contractual life of the options at June 30, 2007 is approximately 1.5 years.

As at December 31, 2006 and June 30, 2007, there were 22,003 and 21,991 warrants outstanding, respectively, with a weighted average exercise price of CA\$0.01 and CA\$0.01, respectively, and expiring on dates up to March 2008.

There are 55,062 (June 30, 2006 - nil) Terra options that could potentially dilute basic earnings per share in the future that were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive for the three and six-month periods ended June 30, 2007.

### (c) FireOne Group plc:

FireOne established a restricted share unit plan whereby eligible individuals were awarded rights to receive ordinary shares in FireOne to be issued from treasury for a nominal consideration. The plan was administered by FireOne's remuneration committee. Awards were made to eligible individuals at the discretion of the remuneration committee, vested in accordance with a specified vesting schedule and terminate 7 years from date of award.

(expressed in thousands of U.S. dollars, except share and per share amounts)

## 7. Stock options and warrants (continued):

(c) FireOne Group plc (continued):

Changes in restricted share units were as follows:

	RSUs outstanding		Non-vested RSUs	
	Number	Weighted average fair value per unit	Number	Weighted average fair value per unit
Restricted share units, December 31, 2006	2,232,711	\$ 4.71	1,332,540	\$ 6.13
Exercised	(2,232,711)	4.71	(1,332,540)	6.13
Restricted share units, June 30, 2007	—	—	—	—

As a result of the Company's acquisition of all of the issued ordinary shares of FireOne held by non-controlling shareholders in February 2007, all of the unvested restricted share units became exercisable. All of the restricted share units were exercised by the holders in connection with this transaction. In addition, in the first quarter of 2007, the remaining unamortized compensation cost of \$5,967 related to unvested restricted share units was recognized by the Company. No restricted share units remain outstanding subsequent to this transaction.

## 8. Contingencies and other:

(a) The Company received a legal letter from a claimant in 1999, and again in February 2001, alleging infringement of a patent related to the *U-Scan*® self-checkout business, which the Company sold to Fujitsu on April 8, 2004. In March 2003, this claimant also sent a third demand letter alleging infringement of additional patents. The Company believes these claims to be without merit and intends to vigorously defend its position should this claimant initiate a civil action. No amounts have been specified in these claims. It is not possible at this time to make an estimate of the amount of damages, if any, that may result and, accordingly, no provision has been made in these financial statements with respect to such claims.

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per share amounts)

---

## 8. Contingencies and other (continued):

- (b) On March 11, 2005, and again on June 30, 2005, the Company received a letter from Fujitsu claiming recovery of expenses allegedly incurred and forecast by Fujitsu to be incurred in relation to the operation of the Company's former *U-Scan*® self-checkout business. In December 2005, the Company was notified by Fujitsu of its intention to arbitrate its claims. In February 2007, Fujitsu initiated arbitration proceedings. After consultation with counsel, the Company believes that there is no basis for these claims and intends to vigorously defend its position. Management is unable to determine the resolution of this matter or estimate the ultimate liability, if any, related thereto.
- (c) The Company was pursuing the recovery of funds withdrawn from a Terra bank account by one of its credit card suppliers for various service charges assessed pertaining to periods prior to December 31, 2001, on the belief that these charges were largely unsubstantiated. The Company's claim which was being pursued through legal recourse was settled and received in July 2007 for \$3,000 and is included in accounts receivable in the consolidated balance sheets at June 30, 2007. The Company recorded a gain of approximately \$1,600 as a result of the settlement, representing the difference between the settlement amount and the carrying amount of the receivable. The gain has been recorded in selling, general and administrative expenses in the consolidated statements of operations.
- (d) The Company is party to litigation arising in the normal course of operations. The Company does not expect the resolution of such matters to have a material adverse effect on its financial position or results of operations. However, the results of legal proceedings cannot be predicted with certainty. Should the Company fail to prevail in any of these legal matters or should several legal matters be resolved against the Company in the same reporting period, the consolidated operating results of a particular reporting period could be materially adversely affected.
- (e) In the sale or other disposition of assets out of the ordinary course of business, in addition to possible indemnification relating to failure to perform covenants and breach of representations and warranties, the Company might agree to indemnify the buyer against claims from its past conduct of its business. Typically, the term and amount of such indemnification will be limited by agreement. The nature of these indemnification agreements prevents the Company from estimating the maximum potential liability to indemnified parties. Accordingly, no provision has been made in these financial statements with respect to this item.

(expressed in thousands of U.S. dollars, except share and per share amounts)

---

## 8. Contingencies and other (continued):

- (f) As previously announced, immediately following the enactment of the Unlawful Internet Gambling Enforcement Act of 2006 (the "Act") on October 13, 2006, the Company's then majority-owned subsidiary, FireOne, ceased to process settlement transactions originating from United States consumers. This represented a substantial portion of revenues derived from processing transactions from online gambling. The Company is exposed to adverse consequences as a result of possible enforcement proceedings, governmental investigations or lawsuits initiated against it in jurisdictions where online gambling is or becomes restricted or prohibited.

Following announcements by the U.S. Attorney's office in the Southern District of New York relating to its investigation of the U.S. Internet gambling industry, the Company announced on May 8, 2007 that it has initiated discussions with the U.S. Attorney's office in the Southern District of New York and is in the process of responding to a voluntary request for information issued by the U.S. Attorney's office. In connection with such ongoing investigation, the Company announced on May 11, 2007 that it had received a copy of warrants of seizure issued by the U.S. Attorney's Office against funds of certain payment processors that were on deposit with two U.S. banks. These funds included monies that were on deposit to the credit of Company affiliates of \$19,182. The total amount seized of \$19,182 is presented as restricted cash on the consolidated balance sheets. No provision has been recorded by the Company for this matter because the outcome of these discussions and the amount of loss, if any, are not currently determinable.

While best estimates have been used for reporting financial statement items subject to measurement uncertainty, management considers that it is possible that changes in future conditions in the near term could require a material change in the recognized amounts of certain assets and liabilities. "Near term" is considered to be within one year from the date of the financial statements.

Notes to Consolidated Financial Statements, Continued  
(Unaudited)

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per share amounts)

## 9. Stock-based compensation:

Stock-based compensation expense in the consolidated statements of operations was comprised of:

	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Expense related to options granted in 2006	\$ 30	\$ –	\$ 60	\$ –
Expense related to FireOne restricted share unit plan	–	335	5,967	335
	\$ 30	\$ 335	\$ 6,027	\$ 335

## 10. Income taxes:

The income tax provision differs from the amount computed by applying the combined Canadian federal and Quebec provincial tax rates to earnings before income taxes. The reasons for the difference and the related tax effects are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Earnings (loss) from continuing operations before income tax provision and non-controlling interest	\$ 1,263	\$ 10,411	\$ (3,449)	\$ 22,061
Combined Canadian federal and provincial income taxes at 32 %	\$ 404	\$ 3,334	\$ (1,105)	\$ 7,064
Foreign exchange <sup>(1)</sup>	(1,152)	(1,248)	(1,290)	(1,145)
Change in valuation allowance	1,285	585	1,539	515
Stock-based compensation not deductible for tax	10	76	1,930	76
Permanent differences and other	(161)	750	(112)	953
Differences in tax rates	(280)	(1,645)	(311)	(3,140)
Amortization of other asset	–	–	236	–
Income tax provision for continuing operations	\$ 106	\$ 1,852	\$ 887	\$ 4,323

# OPTIMAL GROUP INC.

Notes to Consolidated Financial Statements, Continued  
(Unaudited)

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per share amounts)

## 10. Income taxes (continued):

<sup>(1)</sup> For purposes of calculating the income tax provision of the Company, a tax liability (recovery) is recognized on foreign exchange gains or losses which arise on the conversion into Canadian dollars of the net monetary assets denominated in U.S. dollars; such conversion is required for tax purposes. As these financial statements are presented in U.S. dollars, these foreign exchange gains or losses do not impact earnings (loss) before income taxes, even though the income tax provision would include a tax effect for these items. Future fluctuations in the foreign exchange rate between the Canadian and U.S. dollar will change the amount of the foreign exchange gains or losses and, thus, the provision for income or recovery taxes thereon.

The provision for income taxes for continuing operations is composed of the following:

	Three months ended		Six months ended	
	June 30,		June 30,	
	2007	2006	2007	2006
Current income taxes	\$ 527	\$ 3,840	\$ 1,884	\$ 6,864
Future income taxes	(421)	(1,988)	(997)	(2,541)
	\$ 106	\$ 1,852	\$ 887	\$ 4,323

## 11. Segmented information:

In 2006, the Company operated in two processing segments, namely gaming payment services and payment services. On October 13, 2006, the Company's then majority-owned subsidiary, FireOne, ceased processing settlement transactions originating from United States customers that may be viewed as related to on-line gaming, which represented approximately 81% of the Company's total gaming payment processing services revenue for the year ended December 31, 2006. On February 23, 2007, the Company completed the acquisition of the FireOne shares as discussed in note 4 (a) and reorganized its activities into one payment processing services segment beginning January 1, 2007.

(expressed in thousands of U.S. dollars, except share and per-share amounts)

## 13. Canadian/U.S. reporting differences (continued):

(a) Consolidated Balance Sheets (continued):

(ii) Additional paid-in capital:

	June 30, 2007	December 31, 2006
Additional paid-in capital in accordance with Canadian GAAP	\$ 29,141	\$ 23,169
Stock-based compensation costs <sup>(1)</sup> :		
Cumulative effect of prior years	68,757	68,757
Stock-based compensation costs on options exercised <sup>(1)</sup> :		
Cumulative effect of prior years	(39,868)	(39,868)
Change in reporting currency <sup>(2)</sup>	968	968
<b>Additional paid-in capital in accordance with U.S. GAAP</b>	<b>\$ 58,998</b>	<b>\$ 53,026</b>

(iii) Deficit:

	June 30, 2007	December 31, 2006
Deficit in accordance with Canadian GAAP	\$ (9,050)	\$ (4,555)
Stock-based compensation costs <sup>(1)</sup> :		
Cumulative effect of prior years	(68,757)	(68,757)
Stock-based compensation to non-employees <sup>(1)</sup>	(834)	(834)
Change in reporting currency <sup>(2)</sup>	(1,189)	(1,189)
<b>Deficit in accordance with US GAAP</b>	<b>\$ (79,830)</b>	<b>\$ (75,335)</b>

<sup>(1)</sup> Stock-based compensation:

For U.S. GAAP purposes, the Company adopted Statement of Financial Accounting Standards (SFAS) No-123R, *Share-based Payments*, on January 1, 2006, which requires the expensing of all options issued, modified or settled based on the grant date fair value over the period during which the employee is required to provide service. The Company adopted SFAS 123R using the modified prospective approach, which requires application of the standard to all awards granted, modified or cancelled after January 1, 2006 and to all awards for which the requisite service has not been rendered as at such date. Previously, effective January 1, 2003, the Company adopted the fair value recognition provisions of SFAS 123.

# OPTIMAL GROUP INC.

Notes to Consolidated Financial Statements, Continued  
(Unaudited)

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per-share amounts)

## 13. Canadian/U.S. reporting differences (continued):

(a) Consolidated Balance Sheets (continued):

(iii) Deficit (continued):

(1) Stock-based compensation (continued):

A description of the Company's stock option plans and FireOne's restricted share unit plan is presented in note 7.

Additional disclosures required under SFAS 123R are as follows:

	Stock option plan	Terra options and warrants	FireOne restricted share units
Aggregate intrinsic value:			
Options exercised during the period	\$ -	\$ 62	\$ 2,625
Options outstanding and exercisable	1,739	177	-

The aggregate intrinsic value for outstanding and exercisable options at June 30, 2007 represented the pre-tax intrinsic value based on the Company's closing stock price at June 30, 2007, which would have been received by option holders had they exercised their securities at that date.

(2) Change in reporting currency:

In 1998, the Company adopted the U.S. dollar as its reporting currency. Under Canadian GAAP, at the time of change in reporting currency, the historical financial statements were presented using a translation of convenience. Under U.S. GAAP, the financial statements, including prior years, are translated according to the current rate method. Accordingly, the cumulative translation account included as part of accumulated other comprehensive income in shareholders' equity under Canadian GAAP does not exist for U.S. GAAP purposes.

(b) Accumulated other comprehensive income (loss):

Under U.S. GAAP, SFAS No. 130, *Reporting Comprehensive Income* establishes standards for reporting and presentation of comprehensive income and its components in a full set of financial statements. Comprehensive income consists of net earnings (loss) and all other changes in shareholders' equity that do not result from transactions with shareholders. These changes include cumulative foreign currency translation adjustments. The statement requires only additional disclosures in the consolidated financial statements; it does not affect the Company's financial position or results of operations.

# OPTIMAL GROUP INC.

Notes to Consolidated Financial Statements, Continued  
(Unaudited)

Six-month periods ended June 30, 2007 and 2006  
(expressed in thousands of U.S. dollars, except share and per-share amounts)

---

## 13. Canadian/U.S. reporting differences (continued):

### (b) Accumulated other comprehensive income (loss) (continued):

Accumulated other comprehensive income (loss) under U.S. GAAP, which resulted solely from the translation of the financial statements up to June 30, 2000, the date the Company adopted the United States dollar as its measurement currency, in accordance with the current rate method, is \$(3,018) as at June 30, 2007 and December 31, 2006.

### (c) FIN 48 - Accounting for tax uncertainties:

For U.S. GAAP purposes, the Company adopted Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109 (FIN 48)*. FIN 48 clarifies the accounting for income taxes recognized in a company's financial statements in accordance with FASB statement No. 109. FIN 48 prescribes a more-likely-than-not recognition threshold for tax uncertainties. The adoption of FIN 48 resulted in no adjustment to the liability for unrecognized tax benefits. As of the date of adoption, the total amount of unrecognized tax benefits was \$11.5 million, of which \$5.8 million would impact the annual effective rate if realized. For U.S. GAAP tax purposes, unrecognized tax benefits would be classified as non-current other liabilities. The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. There have not been any material changes in the liability for unrecognized tax benefits, including interest and penalties, during the six months ended June 30, 2007.

The Company and its subsidiaries file income tax returns with federal and provincial tax authorities within Canada. The Company's foreign affiliates file income tax returns in various jurisdictions, the most significant of which are Ireland, the United Kingdom and the United States. In general, the Company is subject to examination by taxing authorities for years after 2000. The Canadian tax authorities have commenced examinations of tax returns for certain Canadian subsidiaries for the taxation years 2003 and 2004.

## 14. Comparative figures:

Certain of the comparative figures have been reclassified in order to conform with the current year's presentation.

**Item 2. MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion of the financial condition and results of operations of our Company describes our business, seasonality and trends within our business environment, the critical accounting policies of our Company that will help you understand our interim consolidated financial statements, and the principal factors affecting our results of operations, liquidity and capital resources. This discussion should be read in conjunction with our consolidated financial statements and management discussion and analysis for the year ended December 31, 2006, and the factors set forth below under “Cautionary Statements Regarding Forward-Looking Statements”. All dollar amounts are expressed in United States dollars (unless otherwise stated) and, other than those expressed in millions of dollars, have been rounded to the nearest thousand. We prepare our interim consolidated financial statements in accordance with generally accepted accounting principles (“GAAP”) in Canada, with reconciliation to U.S. GAAP, as disclosed in note 13 of the notes to our interim consolidated financial statements. Any reference in this report to uniform resource locator (URL) website locations are inactive textual references only and the contents of such websites do not form a part of this Form 10-Q.

**Cautionary Statements Regarding Forward-Looking Statements**

This Form 10-Q contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Words such as “expects”, “intends”, “anticipates”, “plans”, “believes”, “seeks”, “estimates”, or variations of such words and similar expressions are intended to identify such forward-looking statements. Forward-looking statements include, but are not limited to, statements about our current expectations with respect to our future growth strategies, opportunities and prospects, competitive position and industry environment. These forward-looking statements are subject to a number of risks, uncertainties and other factors that could cause our actual results, performance, prospects or opportunities, or those of the markets we serve, to differ materially from those expressed in, or implied by, these forward-looking statements, including:

- existing and future governmental regulations;
- general economic and business conditions in the markets we serve;
- consumer confidence in the security of financial information transmitted via the Internet;
- levels of consumer and merchant fraud, disputes between consumers and merchants and merchant insolvency;
- our ability to safeguard against breaches of privacy and security when processing electronic transactions;
- the imposition of and our compliance with rules and practice procedures implemented by credit card and check clearing associations;
- our ability to adapt to changes in technology, including technology relating to electronic payments systems;
- our ability to protect our intellectual property;
- our relationships with our suppliers and the banking associations that we rely upon to process our electronic transactions;
- disruptions in the function of our electronic payments systems and technological defects;
- the factors described under Item 1A “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2006; and
- our ability to complete, integrate and benefit from acquisitions, divestitures, joint ventures and strategic alliances.

There may be additional risks and uncertainties and other factors that we do not currently view as material or that are not presently known by us. The forward looking statements made in this document are only made as of the date of this document.

Except as required by applicable securities laws, we undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changes in circumstances or any other reason after the date of this quarterly report.

The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for forward-looking statements to encourage companies to provide prospective information about their companies without fear of litigation. We are relying on the “safe harbor” provisions of the Private Securities Litigation Reform Act in connection with the forward-looking statements included in this quarterly report.

## **Overview and Recent Developments**

Through our wholly owned subsidiary, Optimal Payments Inc, we operate a payments company with operations primarily in North America and the United Kingdom. We process credit card payments for small and medium-sized Internet businesses, mail-order/telephone-order (MOTO) merchants and retail point-of-sale merchants, and process electronic checks and direct debits online and by telephone, as well as through our stored-value, electronic wallet.

Following announcements by the U.S. Attorney’s office in the Southern District of New York relating to its investigation of the U.S. Internet gambling industry, we announced on May 8, 2007 that we had initiated discussions with the U.S. Attorney’s office in the Southern District of New York and are in the process of responding to a voluntary request for information issued by the U.S. Attorney’s office. In connection with such ongoing investigation, we announced on May 11, 2007 that we had received a copy of warrants of seizure issued by the U.S. Attorney’s Office against funds of certain payment processors that were on deposit with two U.S. banks. These funds included \$19.2 million that were on deposit to the credit of Company affiliates. The total amount seized of \$19.2 million is presented as restricted cash on the consolidated balance sheets. We have not recorded any provision for this matter in our financial statements because the outcome of these discussions and the amount of loss, if any, is not determinable.

In 2006, we operated in two processing segments, namely gaming payment services through our then majority-owned subsidiary, FireOne Group plc and payment services through Optimal Payments Inc. On October 13, 2006, the United States Unlawful Internet Gambling Enforcement Act of 2006 (the “Act”), was enacted. Upon the passage of the Act, FireOne Group plc immediately ceased processing settlement transactions originating from United States customers that may be viewed as related to online gaming, which accounted for approximately 81% of the revenues of the gaming payment services segment for the year ended December 31, 2006. On December 15, 2006, in order to repatriate and realign certain assets, we announced that Optimal Acquisition Inc., a wholly-owned subsidiary, would make an offer to acquire all of the issued and to be issued outstanding ordinary shares of FireOne Group plc it did not already own at a price of £0.60 per share, representing a cash consideration of \$18.2 million inclusive of transaction costs. As a result, effective January 1, 2007, we reorganized our activities and we now operate and report our payment processing business as a combined segment.

On February 23, 2007, Optimal Acquisition Inc. completed the acquisition of all of the issued and outstanding ordinary shares of FireOne Group plc, which as of that date became our wholly-owned subsidiary. Non-controlling interest is no longer recorded in our consolidated financial statements after this date.

Effective September 30, 2006, we sold our Canadian hardware maintenance and repair services segment. The divestiture was in accordance with our strategy of identifying opportunities that can generate superior returns while selling assets that do not generate acceptable returns. The results of operations for this business segment are included in discontinued operations on the consolidated statement of operations for the comparative period.

## **Payment Processing**

We provide technology and services that businesses require to accept credit card, electronic check and direct debit payments. We process credit card payments for card-not-present and card-present transactions, including Internet businesses, mail-order/telephone-order (MOTO) merchants and retail point-of-sale merchants, and process electronic checks and direct debits online and by telephone, as well as our stored-value, electronic wallet.

We generate revenues primarily from fees charged to merchants for processing services, as well as from fees charged to consumers who utilize our electronic wallet. Fees charged to merchants typically include a discount rate, based upon a percentage of the dollar amounts processed, and a variety of fixed transaction fees. Merchant fees charged are based upon the merchant's transaction volume and risk profile. Generally, higher discount rates are charged for card-not-present transactions than for card-present transactions in order to compensate for the increased risk of fraud associated with these transactions. Other fees are derived from a variety of fixed transaction fees, including set-up fees, fees for monthly minimum charge volume requirements, statement fees, annual fees and fees for other miscellaneous items, such as handling chargebacks. Fees charged to consumers who utilize our electronic wallet are based on a fixed amount per transaction. Revenue is recognized primarily at the time the transaction is performed. Where we are the primary party responsible for providing processing services, revenue is recorded on a gross basis and amounts paid to the acquiring processing supplier are recorded as part of our transaction processing expenses. Where we are not the primary party in providing a merchant with processing services, we record revenue net of amounts paid to the acquiring processing supplier.

Disputes between a customer and a merchant periodically arise as a result of, among other things, consumer dissatisfaction with merchandise quality or merchant services. Such disputes may not always be resolved in the merchant's favor. If a dispute is not resolved in the merchant's favor, the transaction is charged back to us and the purchase price is refunded to the merchant's customer. If we are unable to collect the disputed amount from the merchant, we bear the credit risk for the full amount of the transaction. As a result, our acquiring processing suppliers require us to maintain certain amounts with them as reserves. Amounts withheld from us by our acquiring processing suppliers as reserves are included as current assets on our balance sheet under "held as reserves". We retain a percentage of amounts owed to certain merchants based on processing dollar volume, typically for a six-month period, to absorb potential losses arising as a result of, among other things, disputes between consumers and merchants or credit card or check clearing association fines related to disputes. The aggregate amount withheld from our merchants is recorded under the line item "Customer reserves and security deposits" on the balance sheet contained in our interim consolidated financial statements.

### **Seasonality**

Our business is seasonal in nature, generating a high proportion of our revenues and operating cash flows during the fourth quarter, which includes the holiday season.

### **Critical Accounting Policies and Estimates**

The accompanying interim consolidated financial statements have been prepared in accordance with Canadian GAAP. In the preparation of our financial statements we are required to make numerous estimates and assumptions. Financial results as determined by actual events could differ from those estimates and assumptions, and therefore affect our reported results of operations and financial position. Our significant accounting policies are more fully described in note 3 of the notes to our annual audited consolidated financial statements included in our Form 10-K Annual Report for the year ended December 31, 2006. The critical accounting policies described here are those that are most important to the depiction of our financial condition and results of operations. The preparation of financial statements also involves significant management judgment in making estimates about the effect of matters that are inherently uncertain. While best estimates have been used for reporting financial statement items subject to measurement uncertainty, management considers that it is possible that changes in future conditions in the near term could affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities. "Near term" is considered to be within one year from the date of financial statements.

### **Stock-based Compensation**

We use the fair value-based method to account for stock-based compensation and other stock-based payments, such as stock options and restricted share units. Under the fair value-based method, compensation cost is measured at fair value at the date of grant and is expensed over the award's vesting period. The fair value of stock options granted is determined at the date of grant using the Black-Scholes option pricing model, which requires certain assumptions, including future stock price volatility, risk from interest rates, and expected time to exercise. Changes to any of these assumptions, or the use of a different option pricing model, would result in different fair values for stock-based compensation.

## Reserve for Losses on Merchant Accounts

When a consumer pays a merchant for goods or services online and the consumer subsequently disputes the online transaction, the amount of the disputed item gets charged back to us and the credit card or clearing bank association may levy a fee against us. In addition, if our chargeback rate becomes excessive, the associations can also require us to pay fines. In turn, we attempt to recover from the merchant the amount charged back and the amount of such fines. However, we may not always be successful in doing so, for reasons which could include merchant insolvency. We evaluate the risk associated with merchants and consumers and estimate our loss based primarily on historical experience and other relevant factors.

## Goodwill and Other Intangibles

Goodwill is not amortized but rather evaluated under an impairment approach on an annual basis using December 31<sup>st</sup> as the measurement date. Other intangible assets with finite lives continue to be amortized over their estimated useful lives. The amounts recorded as intangible assets at the date of acquisition represent the estimated fair value of these assets based on estimated future cash flows discounted at appropriate discount rates. In addition, in our assessment of impairment of goodwill, we are required to determine the fair value of the businesses acquired, on an annual basis, from which the goodwill and intangibles originated. For intangibles with finite lives, we make estimates of future cash flows to be generated from the related assets. No write-down of goodwill or other intangibles was recorded in the six-month period ended June 30, 2007.

## Income Taxes

We provide for income taxes using the asset and liability method of tax allocation. Under this method, future income tax assets and liabilities are determined based on deductible or taxable temporary differences between financial statement values and tax values of assets and liabilities using substantively enacted income tax rates expected to be in effect for the year in which the differences are expected to reverse. We establish a valuation allowance against future income tax assets if, based on available information, it is more likely than not that some or all of the future income tax assets will not be realized. In assessing the reliability of tax assets, we consider whether it is more likely than not that some portion or all of the tax assets will not be realized. The ultimate realization of the future tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. We considered the scheduled reversal of tax liabilities, projected future taxable income, and tax planning strategies in making this assessment.

## Contingent liabilities

Our gaming payment processing services segment derived a substantial portion of its revenue prior to October 13, 2006 from processing transactions from U.S. based gaming. Therefore, we may be exposed to adverse consequences as a result of enforcement proceedings, governmental investigations or lawsuits initiated against us in jurisdictions where gaming is or becomes restricted or prohibited. Following announcements by the U.S. Attorney's office in the Southern District of New York relating to its investigation of the U.S. Internet gambling industry, we announced on May 8, 2007 that we had initiated discussions with the U.S. Attorney's office in the Southern District of New York and are in the process of responding to a voluntary request for information issued by the U.S. Attorney's office. We have not recorded any provision for this matter because the outcome of these discussions and the amount of loss, if any, are not determinable. While best estimates have been used for reporting financial statement items subject to measurement uncertainty, management considers that it is possible that changes in future conditions in the near term could require a material change in the recognized amounts of certain assets and liabilities. "Near term" is considered to be within one year from the date of the financial statements.

## Recent Accounting Pronouncements

The following accounting standards have recently been issued by the Canadian Institute of Chartered Accountants (CICA), and the Financial Accounting Standard Board (FASB) that are relevant to our Company.

#### Financial Instruments:

Effective January 1, 2007, we adopted CICA Handbook section 1530, *Comprehensive income*, CICA Handbook section 3251, *Equity*, CICA Handbook section 3855, *Financial Instruments – Recognition and Measurement*, CICA Handbook section 3862, *Financial Instruments – Disclosures* and CICA Handbook 3865, *Hedges*. See note 2 of the notes to our interim consolidated financial statements.

As a result of the adoption of these standards, we have classified our cash and cash equivalents, short-term investments and cash and short-term investments held as reserves as available for sale. We have also classified our accounts receivable, settlement assets, and long-term receivables as loans and receivables, and our accounts payable and accrued liabilities, and customer reserves and security deposits as other financial liabilities, all of which are measured at amortized cost. The adoption of these new standards also resulted in the reclassification of the amount of \$1.5 million previously recorded in "Cumulative translation adjustment" to "Accumulated other comprehensive loss" on the consolidated balance sheets. The adoption of these standards had no impact on the consolidated statements of operations.

#### Accounting changes:

CICA Handbook section 1506, *Accounting changes*, modifies certain aspects of the standard it replaces. A reporting entity may not change its accounting method unless required by GAAP or to provide a more reliable and relevant presentation of the financial statements. In addition, change in accounting methods must be applied retroactively and additional information must be disclosed. Effective January 1, 2007 we adopted this section. We are not currently contemplating any voluntary changes in accounting policies.

#### Accounting for uncertainty in income taxes:

In June 2006, the FASB issued *FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109 (FIN 48)*, which clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements. The interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken on a tax return. This FASB interpretation was adopted effective January 1, 2007 for U.S. GAAP purposes. See note 13 of the notes to our interim consolidated financial statements for the impact of adoption of this standard on our U.S. GAAP disclosures.

#### Fair value measurements:

In September 2006, the FASB issued *Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements*. *SFAS No. 157* clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements would be separately disclosed by level within the fair value hierarchy. *SFAS No. 157* is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years, with early adoption permitted. We do not expect the adoption of *SFAS No. 157* to materially impact our consolidated financial statements.

#### Fair value option for financial assets and liabilities:

In February 2007, the FASB issued *Statement of Financial Accounting Standards (SFAS) No. 159, Fair Value Option for Financial Assets and Financial Liabilities- Including an amendment of FASB Statement No. 115*. *SFAS No. 159* permits entities the option to measure financial instruments at fair value ("fair value option") thereby achieving an offsetting effect for accounting purposes for certain changes in fair value of certain related assets and liabilities without having to apply hedge accounting. The fair value option is applied on an instrument by instrument basis to the entire instrument (not a portion of an instrument). Items eligible for the fair value option are measured at fair value at specified election dates. This statement is effective for financial instruments issued for fiscal years after November 15, 2007. We do not expect the adoption of *SFAS No. 159* to materially impact our financial statements.

## Financial Condition

As at June 30, 2007, cash and cash equivalents, short-term investments and settlement assets totaled \$142.6 million (including \$32.9 million held as reserves and restricted cash), compared to \$204.7 million as at December 31, 2006 (including \$22.1 million held as reserves). The decrease in cash and cash equivalents, restricted cash, short-term investments and settlement assets is primarily due to the acquisition of all the issued and outstanding ordinary shares of FireOne Group plc held by non-controlling shareholders, the repayment of bank indebtedness, and the reduction of customer reserves and security deposits. As described above, a significant portion of cash, cash equivalents, and short-term investments have a corresponding liability as these cash amounts are derived from reserves and security deposits which are due to merchants (see "Payment Processing"). Settlement assets result from timing differences in the settlement process of our payment processing business segment. Settlement assets are typically funded to us within days from the transaction processing date. As at June 30, 2007, our cash, short-term investments and settlement assets positions, net of bank indebtedness and customer reserves and security deposits, were as follows:

(U.S. dollars, in thousands)	<b>June 30, 2007</b>	<b>December 31, 2006</b>
Cash and cash equivalents	\$ 107,666	\$ 103,922
Restricted cash	19,182	-
Cash held as reserves	11,340	18,960
Short-term investments	-	71,621
Short-term investments held as reserves	2,410	3,110
Settlement assets	2,008	7,061
	<u>142,606</u>	<u>204,674</u>
Less:		
Bank indebtedness	-	(8,581)
Customer reserves and security deposits	(25,976)	(61,897)
Net	<u>\$ 116,630</u>	<u>\$ 134,196</u>

Our portfolio of liquid and investment grade short-term investments consists of U.S. dollar denominated discounted and undiscounted notes and bonds.

Working capital, excluding cash and short-term investments held as reserves and restricted cash, as at June 30, 2007 was \$72.9 million, as compared to \$94.3 million at December 31, 2006. The decrease in working capital is primarily due to cash used for the acquisition of all the issued and outstanding ordinary shares of FireOne Group plc held by non-controlling shareholders.

We were pursuing the recovery of funds withdrawn from our bank account by one of our credit card suppliers for various service charges assessed pertaining to periods prior to December 31, 2001, on the belief that these charges were largely unsubstantiated. Our claim, which was being pursued through legal recourse, was settled and received in July 2007 for \$3.0 million and is included in accounts receivable in the consolidated balance sheets at June 30, 2007. As a result of the settlement, we recorded a gain of \$1.6 million representing the difference between the settlement amount and the carrying amount of the receivable. The gain has been recorded as part of selling, general and administrative expenses in the consolidated statements of operations.

Accounts receivable as at June 30, 2007 were \$8.3 million compared to \$5.6 million at December 31, 2006. The increase of \$2.7 million resulted primarily from the settlement of a claim with one of our credit card suppliers for various service charges.

Goodwill and other intangible assets decreased by \$3.1 million, from \$106.0 million as at December 31, 2006 to \$102.9 million as at June 30, 2007. This decrease resulted primarily from goodwill of \$1.6 million recorded on the acquisition of all the issued and outstanding ordinary shares of FireOne Group plc held by non-controlling shareholders and the acquisition of \$1.3 million of intangible assets being offset by amortization for the period of \$6.3 million.

Customer reserves and security deposits as at June 30, 2007 were \$26.0 million compared to \$61.9 million as at December 31, 2006. The decrease of \$35.9 million was primarily due to a reduction in transaction processing volume in the gaming payment processing services segment, resulting from the enactment of the Act.

Shareholders' equity as at June 30, 2007 was \$221.0 million as compared to \$219.4 million as at December 31, 2006. The increase is attributable primarily to the results of operations net of stock-based compensation.

## **Results of Operations**

Upon the passage of the Act on October 13, 2006, FireOne Group plc immediately ceased processing settlement transactions originating from United States customers that may be viewed as related to online gaming, which accounted for approximately 81% of revenues of the gaming payment processing services segment for the year ended December 31, 2006. Since the passage of the Act, our revenues and profitability have been adversely affected and we expect that this will continue for at least the short-term.

### *Six-month period ended June 30, 2007 compared to the six-month period ended June 30, 2006*

Revenues decreased by \$46.6 million from \$104.7 million for the six-month period ended June 30, 2006 to \$58.1 million for the six-month period ended June 30, 2007. The decrease in revenues is due primarily to the cessation, in October 2006, of the U.S. based gaming portion of FireOne Group plc's processing business.

Transaction processing expenses decreased by \$13.3 million, from \$50.1 million for the six-month period ended June 30, 2006 to \$36.8 million for the six-month period ended June 30, 2007. The decrease in transaction processing expenses is due primarily to the cessation, in October 2006, of the U.S. based gaming portion of FireOne Group plc's processing business.

Selling, general and administrative expenses decreased by \$13.0 million, from \$26.5 million for the six-month period ended June 30, 2006 to \$13.5 million for the six-month period ended June 30, 2007. The net decrease is primarily caused by the cessation, in October 2006, of the U.S. based gaming portion of FireOne Group plc's processing business and a gain of approximately \$1.6 million resulting from the settlement of a claim with one of our former credit card processing suppliers.

Amortization of intangibles pertaining to transaction processing increased by \$0.2 million, from \$6.1 million for the six-month period ended June 30, 2006 to \$6.3 million for the six-month period ended June 30, 2007.

Stock-based compensation pertaining to selling, general and administrative expense is attributable to the accounting for the fair value of stock options and restricted share units granted. As a result of our acquisition of all of the issued and outstanding ordinary shares of FireOne Group plc held by non-controlling shareholders in February 2007, all of the unvested restricted share units became exercisable and the remaining unamortized compensation cost of \$6.0 million was recognized. Stock-based compensation expense for the six-month period ended June 30, 2006 was \$0.3 million.

Research and development expenses decreased by \$0.3 million, from \$1.6 million for the six-month period ended June 30, 2006 to \$1.3 million for the six-month period ended June 30, 2007.

Amortization of property and equipment remained constant at approximately \$0.7 million for the six-month periods ended June 30, 2006 and 2007.

The provision for income taxes was \$0.9 million for the six-month period ended June 30, 2007 compared to \$4.3 million for the six-month period ended June 30, 2006. The variance was primarily due to decreased earnings in 2007 compared to 2006. Excluding the effect of non-deductible stock-based compensation expense, the effective tax rate in 2007 was higher than the comparable 2006 period. In 2006, a greater portion of our income was taxable in Ireland at a lower effective tax rate than in Canada. As a result, differences in jurisdictional tax rates lowered our tax provision by \$0.3 million, compared to \$3.1 million in 2006. In addition, the 2007 tax provision includes the tax effect of non-deductible stock-based compensation expense in the amount of \$1.9 million as a result of the acceleration of vesting and exercise of restricted stock units in connection with the privatization of FireOne Group plc, as well as an increase to the valuation allowance of \$1.5 million for certain losses not likely to be realized.

Our tax provision also includes the effect of future taxes on unrealized foreign exchange gains and losses, which arise upon the conversion into Canadian dollars of net monetary assets and liabilities denominated in U.S. dollars for purposes of determining taxable income under Canadian income tax regulations. Since the U.S. dollar is our measurement currency and our consolidated financial statements are presented in U.S. dollars, these foreign exchange gains and losses do not affect earnings before income taxes. In 2007, our tax provision includes a future tax recovery of \$1.3 million related to foreign exchange compared to \$1.1 million for 2006.

We recorded non-controlling interest of \$0.2 million for the six-month period ended June 30, 2007 compared to \$4.2 million for the six-month period ended June 30, 2006. The decrease results primarily from our acquisition in February 2007 of all of the issued and outstanding ordinary shares of FireOne Group plc held by non-controlling shareholders. After this date, non-controlling interest is no longer recorded.

Our net loss for the six-month period ended June 30, 2007 was \$4.5 million (or \$0.19 per share – basic and diluted), compared to net earnings of \$8.1 million (or \$0.34 per share – basic and \$0.31 per share – diluted) for the six-month period ended June 30, 2006. The decrease is due primarily to the cessation in October 2006 of the U.S. based gaming portion of FireOne Group plc's payment processing business.

Adjusted earnings were \$7.7 million (or \$0.32 per share – basic and \$0.31 per share - diluted) for the six-month period ended June 30, 2007 compared to adjusted earnings of \$19.7 million (or \$0.84 per share – basic and \$0.76 per share – diluted) for the six-month period ended June 30, 2006.

A reconciliation of this non-GAAP financial information is presented in the table below. We supplement our reporting of net (loss) earnings determined in accordance with Canadian and U.S. GAAP by reporting "adjusted earnings" as a measure of earnings. In establishing this supplemental measure of (loss) earnings, we exclude from net (loss) earnings, foreign exchange gains and losses, discontinued operations, impairment losses, restructuring costs, stock-based compensation and amortization of intangibles pertaining to transaction processing, as management believes that foreign exchange gains and losses are largely uncontrollable by management and discontinued operations, impairment losses, restructuring costs, stock-based compensation and amortization of intangibles pertaining to transaction processing, are not reflective of our core operations. We did not record any impairment losses, restructuring costs or results from discontinued operations for the six-month period ended June 30, 2007. Foreign exchange losses were not significant in the six-month periods ended June 30, 2007 and 2006. Adjusted earnings for 2006 have been modified to exclude amortization of intangibles pertaining to transaction processing to be comparable with management's current definition.

Management believes that adjusted earnings is useful to investors as a measure of our earnings because, for management, it is a primary measure of our performance, and provides a more meaningful reflection of our earnings.

Adjusted earnings does not have a standardized meaning under Canadian or U.S. GAAP and therefore should be considered in addition to, and not as a substitute for, (loss) earnings or any other amount determined in accordance with Canadian and U.S. GAAP. Our measure of adjusted earnings reflects management's judgment in regard to the impact upon our core operations of foreign exchange gains and losses, discontinued operations, impairment losses, restructuring costs, stock-based compensation and amortization of intangibles pertaining to transaction processing, and may not be comparable to similarly titled measures reported by other companies.

Reconciliation of Non-GAAP Financial Information  
(expressed in thousands of U.S. dollars)

	<b>Six months ended</b>	
	<b>June 30,</b>	
	<b>2007</b>	<b>2006</b>
Net (loss) earnings	\$ (4,495)	\$ 8,080
Add:		
Amortization of intangibles pertaining to transaction processing, net of income tax recoveries of \$176 (2006 - \$296)	6,160	5,769
Stock-based compensation pertaining to selling, general and administrative expenses	6,027	335
Loss from discontinued operations	-	5,501
Adjusted earnings	<u>\$ 7,692</u>	<u>\$ 19,685</u>

*Three-month period ended June 30, 2007 compared to the three-month period ended June 30, 2006*

Revenues decreased by \$24.2 million from \$52.2 million for the three-month period ended June 30, 2006 to \$28.0 million for the three-month period ended June 30, 2007. The decrease in revenues is due primarily to the cessation, in October 2006, of the U.S. based gaming portion of FireOne Group plc's processing business.

Transaction processing expenses decreased by \$6.4 million, from \$24.5 million for the three-month period ended June 30, 2006 to \$18.1 million for the three-month period ended June 30, 2007. The decrease in transaction processing expenses is due primarily to the cessation, in October 2006, of the U.S. based gaming portion of FireOne Group plc's processing business.

Selling, general and administrative expenses decreased by \$8.8 million, from \$14.6 million for the three-month period ended June 30, 2006 to \$5.8 million for the three-month period ended June 30, 2007. The net decrease is primarily caused by the cessation, in October 2006, of the U.S. based gaming portion of FireOne Group plc's processing business, which resulted in restructuring activities in the third and fourth quarters of 2006 and a gain of approximately \$1.6 million resulting from the settlement of a claim with one of our former credit card processing suppliers.

Amortization of intangibles pertaining to transaction processing increased by \$0.1 million, from \$3.1 million for the three-month period ended June 30, 2006 to \$3.2 million for the three-month period ended June 30, 2007.

Research and development expenses decreased by \$0.2 million, from \$0.8 million for the three-month period ended June 30, 2006 to \$0.6 million for the three-month period ended June 30, 2007.

Amortization of property and equipment remained constant at approximately \$0.3 million for the three-month periods ended June 30, 2006 and 2007.

The provision for income taxes was \$0.1 million for the three-month period ended June 30, 2007 compared to \$1.9 million for the three-month period ended June 30, 2006. The variance was primarily due to decreased earnings in 2007 compared to 2006. The effective tax rate in 2007 was lower than the comparable 2006 period due to permanent differences and differences in tax rates of foreign jurisdictions.

Our tax provision also includes the effect of future taxes on unrealized foreign exchange gains and losses, which arise upon the conversion into Canadian dollars of net monetary assets and liabilities denominated in U.S. dollars for purposes of determining taxable income under Canadian income tax regulations. Since the U.S. dollar is our measurement currency and our consolidated financial statements are presented in U.S. dollars, these foreign exchange gains and losses do not affect earnings before income taxes. In 2007, our tax provision includes a future tax recovery of \$1.2 million related to foreign exchange compared to a charge of \$1.3 million for 2006.

We did not record non-controlling interest for the three-month period ended June 30, 2007 as compared to \$2.0 million for the three-month period ended June 30, 2006, a result of our acquisition of all of the issued and outstanding ordinary shares of FireOne Group plc held by non-controlling shareholders in February 2007.

Our net earnings for the three-month period ended June 30, 2007 were \$1.2 million (or \$0.05 per share – basic and diluted), compared to net earnings of \$3.7 million (or \$0.16 per share – basic and \$0.14 per share – diluted) for the three-month period ended June 30, 2006. The decrease is due primarily to the cessation in October 2006 of the U.S. based gaming portion of FireOne Group plc's payment processing business.

Adjusted earnings were \$4.3 million (or \$0.18 per share – basic and diluted) for the three-month period ended June 30, 2007 compared to adjusted earnings of \$9.8 million (or \$0.41 per share – basic and \$0.38 per share – diluted) for the three-month period ended June 30, 2006.

A reconciliation of this non-GAAP financial information is presented in the table below. We supplement our reporting of net earnings determined in accordance with Canadian and U.S. GAAP by reporting "adjusted earnings" as a measure of earnings. In establishing this supplemental measure of earnings, we exclude from net earnings, foreign exchange gains and losses, discontinued operations, impairment losses, restructuring costs, stock-based compensation and amortization of intangibles pertaining to transaction processing, as management believes that foreign exchange gains and losses are largely uncontrollable by management and discontinued operations, impairment losses, restructuring costs and stock-based compensation, amortization of intangibles pertaining to transaction processing, are not reflective of our core operations. We did not record any impairment losses, restructuring costs or results from discontinued operations for the three-month period ended June 30, 2007. Foreign exchange losses were not significant in the three-month periods ended June 30, 2007 and 2006. Adjusted earnings for 2006 have been modified to exclude amortization of intangibles pertaining to transaction processing to be comparable with management's current definition.

Management believes that adjusted earnings is useful to investors as a measure of our earnings because, for management, it is a primary measure of our performance and provides a more meaningful reflection of our earnings.

Adjusted earnings does not have a standardized meaning under Canadian or U.S. GAAP and therefore should be considered in addition to, and not as a substitute for, (loss) earnings or any other amount determined in accordance with Canadian and U.S. GAAP. Our measure of adjusted earnings reflects management's judgment in regard to the impact upon our core operations of foreign exchange gains and losses, discontinued operations, impairment losses, restructuring costs, stock-based compensation and amortization of intangibles pertaining to transaction processing, and may not be comparable to similarly titled measures reported by other companies.

Reconciliation of Non-GAAP Financial Information  
(expressed in thousands of U.S. dollars)

	<b>Three months ended</b>	
	<b>June 30,</b>	
	<b>2007</b>	<b>2006</b>
Net earnings	\$ 1,157	\$ 3,691
Add:		
Amortization of intangibles pertaining to transaction processing, net of income tax recoveries of \$88 (2006 - \$146)	3,139	2,904
Stock-based compensation pertaining to selling, general and administrative expenses	30	335
Loss from discontinued operations	-	2,831
Adjusted earnings	<u>\$ 4,326</u>	<u>\$ 9,761</u>

**Liquidity and Capital Resources**

As at June 30, 2007, cash and cash equivalents, short-term investments and settlement assets totaled \$142.6 million (including \$32.9 million held as reserves and restricted cash), compared to \$204.7 million as at December 31, 2006 (including \$22.1 million held as reserves). Working capital, excluding cash and short-term investments held as reserves and restricted cash, as at June 30, 2007 was \$72.9 million (December 31, 2006 — \$94.3 million). As described, a significant portion of cash and cash equivalents, and short-term investments have a corresponding liability as these amounts are derived from reserves and security deposits which are due to merchants (see "Payment Processing").

Settlement assets result from timing differences in the settlement process of our payment processing business. Settlement assets are typically funded to us within days from the transaction processing date.

As at June 30, 2007, our cash, restricted cash, short-term investments, reserves and settlement assets positions, net of bank indebtedness and customer reserves and security deposits, were \$116.6 million (see "*Financial Condition*" above).

Operating activities used \$19.7 million of cash and cash equivalents in the three-month period ended June 30, 2007, as compared to \$7.6 million of cash generated for the three-month period ended June 30, 2006. The decrease in cash generated in the current period is primarily as a result of decreased earnings from continuing operations as well as a reduction of customer reserves, security deposits and restricted cash.

Financing activities generated a nominal amount of cash for the three-month period ended June 30, 2007 compared to using \$1.7 million for the three-month period ended June 30, 2006 which included the payment of a dividend by FireOne Group plc and the repurchase of common shares offset by the increase in bank indebtedness.

Investing activities generated \$4.2 million of cash for the three-month period ended June 30, 2007 compared to \$13.6 million of cash generated for the three-month period ended June 30, 2006. The decreased amount represents primarily proceeds from the maturity of short-term investments in the amount of \$5.1 million for the three-month period ended June 30, 2007 as compared to \$14.4 million for the three-month period ended June 30, 2006.

We believe that our cash, cash equivalents and short-term investments will be adequate to meet our needs for at least the next 12 months.

We have no financial obligations of significance, including any off-balance sheet arrangements, other than long-term lease commitments for our premises in the United States, United Kingdom and Canada.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes to the disclosures about market risk contained in our Annual Report on Form 10-K for the year ended December 31, 2006.

### **Item 4. Controls and Procedures**

As of June 30, 2007 (the "Evaluation Date"), under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon this evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Additionally, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, we concluded that there have been no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

There were no material changes to the disclosure of legal proceedings contained in our Annual Report on Form 10-K for the year ended December 31, 2006 other than those disclosed in this Form 10-Q.

**Item 1A. Risk Factors**

There were no material changes to the disclosure of risk factors contained in our Annual Report on Form 10-K for the year ended December 31, 2006.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The registrant has nothing to report under this item.

**Item 3. Defaults Upon Senior Securities**

The registrant has nothing to report under this item.

**Item 4. Submission of Matters to a Vote of Security Holders**

We held our annual and special meeting of shareholders on June 26, 2007. The following resolutions were adopted:

<b>Resolution</b>	<b>Votes For</b>	<b>Votes Against</b>	<b>Withheld</b>	<b>Spoiled</b>	<b>Non-Voted</b>
Election of Henry M. Karp as Director <sup>(1)</sup>	16,598,942	0	135,685	477	0
Election of Jonathan J. Ginns as Director <sup>(1)</sup>	16,598,942	0	135,685	477	0
Election of Sydney Sweibel as Director <sup>(1)</sup>	16,260,068	0	474,559	477	0
Appointment of KPMG LLP as Auditors	16,724,540	0	10,419	0	145

(1) Henry M. Karp, Jonathan J. Ginns and Sydney Sweibel were elected to hold office until the close of the 2010 annual meeting of shareholders. The following directors did not stand for election and continue in office for the following respective periods:

Neil S. Wechsler, James S. Gertler and Thomas D. Murphy each to hold office until the close of the 2009 annual meeting of shareholders, and Holden L. Ostrin, Tommy Boman and Stephen J. Shaper each to hold office until the close of the 2008 annual meeting of shareholders.

**Item 5. Other Information**
