PHL VARIABLE INSURANCE COMPANY Notes to Unaudited Interim Condensed Consolidated Financial Statements Three Months Ended March 31, 2006 and 2005

1. Organization and Operations

PHL Variable Insurance Company is a life insurance company offering variable and fixed annuity and non-participating life insurance products. It is a wholly-owned subsidiary of PM Holdings, Inc. PM Holdings is a wholly-owned subsidiary of Phoenix Life Insurance Company (Phoenix Life), which is a wholly-owned subsidiary of The Phoenix Companies, Inc., a New York Stock Exchange listed company. We have reclassified certain 2005 amounts to conform with 2006 presentation.

We have prepared these financial statements in accordance with accounting principles generally accepted in the United States, or GAAP. In preparing these financial statements in conformity with GAAP, we are required to make estimates and assumptions that affect the reported amounts of assets and liabilities at reporting dates and the reported amounts of revenues and expenses during the reporting periods. Actual results will differ from these estimates and assumptions. We employ significant estimates and assumptions in the determination of: deferred policy acquisition costs; policyholder liabilities and accruals; the valuation of investments in debt and equity securities; the valuation of deferred tax liabilities and accruals for contingent liabilities. Our significant accounting policies are presented in the notes to our financial statements in our 2005 Annual Report on Form 10-K.

Our interim financial statements do not include all of the disclosures required by GAAP for annual financial statements. In our opinion, we have included all adjustments, consisting of normal, recurring adjustments, considered necessary for a fair statement of the results for the interim periods. Financial results for the three-month period in 2006 are not necessarily indicative of the results that may be expected for the year 2006. These unaudited financial statements should be read in conjunction with our financial statements in our 2005 Annual Report on Form 10-K.

Recently issued accounting standards

Deferred Acquisition Costs: In September 2005, the Accounting Standards Executive Committee, or AcSEC, of the American Institute of Certified Public Accountants, or AICPA, issued Statement of Position 05-1, Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection With Modifications or Exchanges of Insurance Contracts, or SOP 05-1. SOP 05-1 provides guidance on accounting by insurance enterprises for deferred acquisition costs on internal replacements of insurance and investment contracts other than those specifically described in Statement of Financial Accounting Standards No. 97, or SFAS No. 97. The SOP defines an internal replacement as a modification in product benefits, features, rights, or coverages that occurs by the exchange of a contract for a new contract, or by amendment, endorsement, or rider to a contract, or by the election of a feature or coverage within a contract. This SOP is effective for internal replacements occurring in fiscal years beginning after December 15, 2006. We will adopt SOP 05-1 on January 1, 2007. We are currently assessing the impact of SOP 05-1 on our financial position and results of operations.

Servicing of Financial Assets: In March 2006, the Financial Accounting Standards Board issued SFAS 156, Accounting for Servicing of Financial Servicing of Financial Assets, an amendment of FASB Statement No. 140, or SFAS 156. SFAS 156 provides guidance on recognition and disclosure of servicing assets and liabilities and is effective beginning January 1, 2007. We do not expect our adoption of SFAS 156 to have a material impact on our financial statements.

Accounting changes

Certain Hybrid Financial Instruments: Effective January 1, 2006, we adopted SFAS 155, Accounting for Certain Hybrid Financial Instruments, or SFAS 155. SFAS 155 resolves certain issues surrounding the accounting for beneficial interests in securitized financial assets. Our adoption of SFAS 155 did not have a material effect on our financial statements.

Other-Than-Temporary Impairments: Effective January 1, 2006, we adopted FASB Staff Position Nos. FAS 115-1 and FAS 124-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*, or FSP 115-1. FSP 115-1 provides guidance as to the determination of other-than-temporarily impaired securities and requires certain financial disclosures with respect to unrealized losses. These accounting and disclosure requirements largely codify our existing practices as to other-than-temporarily impaired securities and thus, our adoption did not have a material effect on our financial statements.

2. Operating Activities

Activity in Deferred Policy Acquisition Costs: (\$ in thousands)	 Three Mor	
	 2006	 2005

4. Income Taxes

For the three months ended March 31, 2006 and 2005, the effective income tax rates applicable to income from continuing operations differ from the 35.0% U.S. federal statutory tax rate. Items giving rise to the differences and the effects are as follows:

Net unrealized investment losses included in other comprehensive income

(4,399)

(7,227)

Analysis of Effective Income Tax Rates:	Three Mor	
	2006	 2005
Income taxes at statutory rate	\$ 35.0%	\$ 35.0%
Investment income not subject to tax	(11.5)%	(1.3)%
Effective income tax rates applicable to continuing operations	\$ 23.5%	\$ 33.7%

Our federal income tax returns are routinely audited by the IRS and estimated provisions are routinely provided in the financial statements in anticipation of the results of these audits. The current periods being audited by the IRS are the 2002 and 2003 tax years. While it is often difficult to predict the outcome of these audits, including the timing of any resolution of any particular tax matter, we believe that our reserves, as recorded on the balance sheet, are adequate for all open years. Unfavorable resolution of any particular issue could result in additional use of cash to pay liabilities that would be deemed owed to the IRS. Additionally, any unfavorable or favorable resolution of any particular issue could result in an increase or decrease, respectively, to our effective income tax rate to the extent that our estimates differ from the ultimate resolution.

5. Contingent Liabilities

We are regularly involved in litigation, both as a defendant and as a plaintiff. The litigation naming us as a defendant ordinarily involves our activities as an insurer, investor or taxpayer. Several current proceedings are discussed below. In addition, state regulatory bodies, the Securities and Exchange Commission, or SEC, the National Association of Securities Dealers, Inc., or NASD, and other regulatory bodies regularly make inquiries of us and, from time to time, conduct examinations or investigations concerning our compliance with, among other things, insurance laws and securities laws.

For example, during 2003 and 2004, the SEC conducted examinations of certain Company variable products and certain affiliated investment advisors and mutual funds. In 2004, the NASD also commenced examinations of two affiliated broker-dealers; the examinations were closed in April 2005 and November 2004, respectively. In February 2005, the NASD notified an affiliate of the Company that it was asserting violations of trade reporting rules by the affiliate of the Company. The affiliated company responded to the NASD allegations in May 2005 but has not received any further inquiries to date.

Federal and state regulatory authorities from time to time make inquiries and conduct examinations regarding compliance by the Company with securities and other laws and regulations affecting its registered products. The Company endeavors to respond to such inquiries in an appropriate way and to take corrective action if warranted. Recently, there has been a significant increase in federal and state regulatory activity relating to financial services companies, with a number of recent regulatory inquiries focusing on late-trading, market timing and valuation issues. Our products entitle us to impose restrictions on transfers between separate account sub-accounts associated with our variable products.

In 2004 and 2005, the Boston District Office of the SEC conducted a compliance examination of certain of the Company's affiliates that are registered under the Investment Company Act of 1940 or the Investment Advisers Act of 1940. Following the examination, the staff of the Boston District Office issued a deficiency letter primarily focused on perceived weaknesses in procedures for monitoring trading to prevent market timing activity. The staff requested the Company to conduct an analysis as to whether shareholders, policyholders and contract holders who invested in the funds that may have been affected by undetected market timing activity had suffered harm and to advise the staff whether the Company believes reimbursement is necessary or appropriate under the circumstances. A third party was retained to assist the Company in preparing the analysis. Based on the analysis, the Company advised the SEC that it does not believe that reimbursement is appropriate.

Over the past two years, a number of companies have announced settlements of enforcement actions with various regulatory agencies, primarily the SEC and the New York Attorney General's Office. While no such action has been initiated against us, it is possible that one or more regulatory agencies may pursue this type of action against us in the future.

Financial services companies have also been the subject of broad industry inquiries by state regulators and attorneys general which do not appear to be company-specific. In this regard, in 2004, we received a subpoena from the Connecticut Attorney General's office requesting information regarding certain distribution practices since 1998. Over 40 companies received such a subpoena. We are cooperating fully and have had no further inquiry since filing our response.

These types of regulatory actions may be difficult to assess or quantify, may seek recovery of indeterminate amounts, including punitive and treble damages, and the nature and magnitude of their outcomes may remain unknown for substantial periods of time. While it is not feasible to predict or determine the ultimate outcome of all pending investigations and legal proceedings or to provide reasonable ranges of potential losses, we believe that their outcomes are not likely, either individually or in the aggregate, to have a material adverse effect on our financial condition, or consideration of available insurance and reinsurance and the provision made in our financial statements. However, given the large or indeterminate amounts sought in certain of these matters and litigation's inherent unpredictability, it is possible that an adverse outcome in certain matters could, from time to time, have a material adverse effect on our results of operation or cash flows.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

The following discussion may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The Company intends these forward-looking statements to be covered by the safe harbor provisions of the federal securities laws relating to forward-looking statements. These include statements relating to trends in, or representing management's beliefs about, the Company's future strategies, operations and financial results, as well as other statements including words such as "anticipate," "believe," "plan." "estimate," "expect," "intend," "may," "should" and other similar expressions. Forward-looking statements are made based upon management's current expectations and beliefs concerning trends and future developments and their potential effects on the Company. They are not guarantees of future performance. Actual results may differ materially from those suggested by forward-looking statements as a result of risks and uncertainties which include, among others: (i) changes in general economic conditions, including changes in interest and currency exchange rates and the performance of financial markets; (ii) heightened competition, including with respect to pricing, entry of new competitors and the development of new products and services by new and existing competitors: (iii) regulatory, accounting or tax developments that may affect the Company or the cost of, or demand for, its products or services; (iv) downgrades in the financial strength ratings of the Company; (v) discrepancies between actual claims experience and assumptions used in setting prices for the Company's products and establishing the Company's liabilities for future policy benefits and claims relating to such products: (vi) movements in the equity markets that affect our investment results, the fees we earn from funds on deposit and the demand for our variable products; (vii) the relative success and timing of implementation of the Company's strategies: (viii) the effects of closing the Company's retail brokerage operations; and (ix) other risks and uncertainties described in any of the Company's filings with the SEC. The Company undertakes no obligation to update or revise publicly any forward-looking statement, whether as a result of new information. future events or otherwise.

MANAGEMENT'S NARRATIVE ANALYSIS OF THE RESULTS OF OPERATIONS

This section reviews our results of operations for the three months ended March 31, 2006 and 2005. This discussion should be read in conjunction with the unaudited interim condensed financial statements and notes contained in this filing as well as in conjunction with our financial statements for the year ended December 31, 2005 in our 2005 Annual Report on Form 10-K.

Overview

We are a manufacturer of insurance and annuity products for the accumulation, preservation and transfer of wealth. We provide products and services to affluent and high-net-worth individuals through their advisors and to institutions directly and through consultants. We offer a broad range of life insurance and annuity products, including universal, variable universal, term life insurance and a range of variable annuity offerings and services through a variety of distributors. These distributors include independent advisors and financial services firms who make our products and services available to their clients.

We derive our revenues principally from:

- premiums on life insurance;
- insurance and investment product fees on variable life and annuity products and universal life products;
 and
- net investment income and net realized investment gains.

Under generally accepted accounting principles, or GAAP, premium and deposit collections for variable life, universal life and annuity products are not recorded as revenues. These collections are reflected on our balance sheet as an increase in separate account liabilities for certain investment options of variable products. Collections for fixed annuities and certain investment options of variable annuities are reflected on our balance sheet as an increase in policyholder deposit funds. Collections for other products are reflected on our balance sheet as an

increase in policy liabilities and accruals.

Our expenses consist principally of:

- insurance policy benefits provided to policyholders, including interest credited on policies;
- · deferred policy acquisition costs amortization;
- other operating expenses; and
- income taxes.

Our profitability depends principally upon:

- the adequacy of our product pricing, which is primarily a function of our:
 - ability to select underwriting risks;
 - mortality experience;
 - ability to generate investment earnings;
 - ability to maintain expenses in accordance with our pricing assumptions; and
 - persistency on policies issued (the percentage of policies remaining in force from year to year as measured by premiums);
- the amount and composition of funds on deposit;
- the maintenance of our target spreads between the rate of earnings on our investments and interest rates credited to customers; and
- our ability to manage expenses.

Our sales and financial results over the last several years have been affected by demographic, industry and market trends. The baby boom generation has begun to enter its prime savings years. Americans generally have begun to rely less on defined benefit retirement plans, social security and other government programs to meet their postretirement financial needs. Product preferences have shifted between fixed and variable options depending on market and economic conditions. Our balanced product portfolio, including universal life, variable life and variable annuity products, is well positioned to meet this shifting demand.

Recently Issued Accounting Standards

Deferred Acquisition Costs: In September 2005, the Accounting Standards Executive Committee, or AcSEC, of the American Institute of Certified Public Accountants, or AICPA, issued Statement of Position 05-1, Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection With Modifications or Exchanges of Insurance Contracts, or SOP 05-1. SOP 05-1 provides guidance on accounting by insurance enterprises for deferred acquisition costs on internal replacements of insurance and investment contracts other than those specifically described in Statement of Financial Accounting Standards No. 97, or SFAS No. 97. The SOP defines an internal replacement as a modification in product benefits, features, rights, or coverages that occurs by the exchange of a contract for a new contract, or by amendment, endorsement, or rider to a contract, or by the election of a feature or coverage within a contract. This SOP is effective for internal replacements occurring in fiscal years beginning after December 15, 2006. We will adopt SOP 05-1 on January 1, 2007. We are currently assessing the impact of SOP 05-1 on our financial position and results of operations.

Servicing of Financial Assets: In March 2006, the Financial Accounting Standards Board issued SFAS 156, Accounting for Servicing of Financial Servicing of Financial Assets, an amendment of FASB Statement No. 140, or SFAS 156. SFAS 156 provides guidance on recognition and disclosure of servicing assets and liabilities and is effective beginning January 1, 2007. We do not expect our adoption of SFAS 156 to have a material impact on our financial statements.

Accounting changes

Certain Hybrid Financial Instruments: Effective January 1, 2006, we adopted SFAS 155, Accounting for Certain Hybrid Financial Instruments, or SFAS 155. SFAS 155 resolves certain issues surrounding the accounting for beneficial interests in securitized financial assets. Our adoption of SFAS 155 did not have a material effect on our financial statements.

Other-Than-Temporary Impairments: Effective January 1, 2006, we adopted FASB Staff Position Nos. FAS 115-1 and FAS 124-1, The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments, or FSP 115-1. FSP 115-1 provides guidance as to the determination of other-than-temporarily impaired securities and requires certain financial disclosures with respect to unrealized losses. These accounting and disclosure requirements largely codify our existing practices as to other-than-temporarily impaired securities and thus, our adoption did not have a material effect on our financial statements.

Critical Accounting Estimates

The discussion and analysis of our results of operations are based upon our financial statements, which have been prepared in accordance with GAAP. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Critical accounting estimates are reflective of significant judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. See our 2005 Annual Report on Form 10-K for a description of our critical accounting estimates.

Results of Operations

Summary Financial Data: (\$ in thousands)	Three Months Ended March 31,					
		2006		2005	(Change
REVENUES:			-			
Premiums	\$	2,475	\$	1,352	\$	1,123
Insurance and investment product fees		41,995		23,625		18,370
Investment income, net of expenses		35,060		37,788		(2,728)
Net realized investment losses		(4,083)		(590)		(3,493)
Total revenues		75,447		62,175		13,272
BENEFITS AND EXPENSES:						
Policy benefits		43,848		32,957		10,891
Policy acquisition cost amortization		13,057		14,822		(1,765)
Other operating expenses		19,512		7,344		12,168
Total benefits and expenses		76,417		55,123		21,294
Income (loss) before income taxes	-	(970)		7,052		(8,022)
Applicable income taxes (benefit)		(228)		2,376		(2,604)
Net income (loss)	\$	(742)	\$	4,676	\$	(5,418)

Three months ended March 31, 2006 vs. March 31, 2005

Premiums increased 83% in the first quarter of 2006 over the same period in 2005 due to higher sales of our term life insurance products.

Insurance and investment product fees increased 78% in the first quarter of 2006 over the same period in 2005 due to higher sales of universal life products, which continued to be dominated by our current assumption product, in 2006 and to higher underlying account balances during the first quarter of 2006. While we do not expect sales to continue at this level, we do expect overall trends to be positive in 2006.

Net realized investment losses increased 592% in the first quarter of 2006 over the same period in 2005 due to the sell off of securities in the portfolio backing certain discontinued annuity products. We are intentionally selling securities in this portfolio for asset liability matching purposes.

Policy benefits increased 33% in the first quarter of 2006 over the same period in 2005 due to higher universal life claims. These represented a small number of large claims which we believe, based upon our review, are not indicative of a deterioration in overall experience.

Other operating expenses increased 166% in the first quarter of 2006 over the same period in 2005 as a result of higher non-deferred expenses, such as maintenance and indirect cost, associated with business growth, premium taxes driven by the increase in universal life new business and investment in product development.

Income tax expense decreased \$2.6 million in the first quarter of 2006 from same period in 2005 due primarily to a pre-tax loss of \$1.0 million in the 2006 quarter compared to a pre-tax gain of \$7.1 million in the 2005 quarter.

General Account

The invested assets in our general account are generally of high quality and broadly diversified across asset classes, sectors and individual credits and issuers. Our investment professionals manage these general account assets in investment segments that support specific product liabilities. These investment segments have distinct investment policies that are structured to support the financial characteristics of the related liabilities within them. Segmentation of assets allows us to manage the risks and measure returns on capital for our various products.

Separate Accounts

Separate account assets are managed in accordance with the specific investment contracts and guidelines relating to our variable products. We generally do not bear any investment risk on assets held in separate accounts. Rather, we receive investment management fees based on assets under management. Assets held in separate accounts are not available to satisfy general account obligations.

Debt and Equity Securities Held in Our General Account

Our general account debt securities portfolios consist primarily of investment-grade publicly traded and privately placed corporate bonds, residential mortgage-backed securities, commercial mortgage-backed securities and asset-backed securities. As of March 31, 2006, our general account held debt securities with a carrying value of \$2,462.7 million, representing 99.4% of total general account investments. Public debt securities represented 83.7% of total debt securities, with the remaining 16.3% represented by private debt securities.

Debt Securities by Type and Credit Quality:	As of March 31, 2006														
(\$ in thousands)	Investment Grade Below Investment G						nt Grade								
	Fair Value		Cost		Cost		Fair Value Cost		Cost		Fair Value			Cost	
United States government and agency	\$	114,875	\$	116,701	\$	_	\$	_							
State and political subdivision		22,427		22,841		_		_							
Foreign government		27,945		27,770		31,008		27,944							
Corporate	1	,197,623		1,225,090		168,727		171,731							
Mortgage-backed		526,328		533,276		7,868		7,849							
Other asset-backed		355,071		356,040		10,797		10,802							
Total debt securities	\$ 2	,244,269	\$	2,281,718	\$	218,400	\$	218,326							
Percentage of total debt securities		91.1%	_	91.3%	_	8.9%		8.7%							

We manage credit risk through industry and issuer diversification. Maximum exposure to an issuer is defined by quality ratings, with higher quality issuers having larger exposure limits. Our investment approach emphasizes a high level of industry diversification. The top five industry holdings as of March 31, 2006 in our debt securities portfolio are diversified financial services (6.5%), banking (4.9%), insurance (4.0%), telecommunications equipment (2.6%) and broker-dealers (2.5%).

Total net unrealized losses on debt securities were \$37.4 million (unrealized losses of \$54.1 million less unrealized gains of \$16.7 million).

At the end of each reporting period, we review our security holdings for potential recognition of an other-than-temporary impairment. We maintain a watch list of securities in default, near default or otherwise considered by our investment professionals as being distressed, potentially distressed or requiring a heightened level of scrutiny. We also identify securities whose carrying value has been below amortized cost on a continuous basis.

The following table presents certain information with respect to our gross unrealized losses related to our investments in general account debt securities. Applicable deferred acquisition costs and deferred income taxes reduce the effect of these losses on our comprehensive income.

Duration of Gross Unrealized Losses	As of March 31, 2006								
on General Account Securities:	·			0 - 6		6 – 12		Over 12	
(\$ in thousands)		Total		Months		Months		Months	
									
Debt securities			_		_		_		
Total fair value		,783,132	\$	942,906	\$	40,231	\$	799,996	
Total amortized cost	1	,837,260		968,483		41,598		827,180	
Unrealized losses	\$	(54,128)	\$	(25,577)	\$	(1,367)	\$	(27,184)	
Unrealized losses after offsets	\$	(7,016)	\$	(2,695)	\$	(184)	\$	(4,137)	
Unrealized losses over 20% of cost	\$		\$		\$		\$		
Unrealized losses over 20% of cost after offsets	\$		\$		\$		\$		
Investment grade:									
Unrealized losses	\$	(49,736)	\$	(25,128)	\$	(1,309)	\$	(23,299)	
Unrealized losses after offsets	\$	(6,264)	\$	(2,637)	\$	(177)	\$	(3,450)	
Unrealized losses over 20% of cost	\$	_	\$		\$		\$	_	
Unrealized losses over 20% of cost after offsets	\$		\$		\$		\$		
Below investment grade:									
Unrealized losses	\$	(4,392)	\$	(449)	\$	(58)	\$	(3,885)	
Unrealized losses after offsets	\$	(752)	\$	(58)	\$	(7)	\$	(687)	
Unrealized losses over 20% of cost	\$		\$		\$		\$		
Unrealized losses over 20% of cost after offsets	\$	_	\$		\$	_	\$	_	

For debt securities with gross unrealized losses, 89.3% of the unrealized losses after offsets pertain to investment grade securities and 10.7% of the unrealized losses after offsets pertain to below investment grade securities at March 31, 2006.

In determining that the securities giving rise to unrealized losses were not other-than-temporarily impaired, we considered many factors, including those cited previously. In making these evaluations, we must exercise considerable judgment. Accordingly, there can be no assurance that actual results will not differ from our judgments and that such differences may require the future recognition of other-than-temporary impairment charges that could have a material effect on our financial position and results of operations. In addition, the value of, and the realization of any loss on, a debt security or equity security is subject to numerous risks, including interest rate risk, market risk, credit risk and liquidity risk. The magnitude of any loss incurred by us may be affected by the relative concentration of our investments in any one issuer or industry. We have established specific policies limiting the concentration of our investments in any single issuer and industry and believe our investment portfolio is prudently diversified.

Liquidity and Capital Resources

In the normal course of business, we enter into transactions involving various types of financial instruments such as debt and equity securities. These instruments have credit risk and also may be subject to risk of loss due to interest rate and market fluctuations.

Our liquidity requirements principally relate to the liabilities associated with various life insurance and annuity products and operating expenses. Liabilities arising from life insurance and annuity products include the payment of benefits, as well as cash payments in connection with policy surrenders, withdrawals and loans.

Historically, we have used cash flow from operations and investment activities to fund liquidity requirements. Our principal cash inflows from life insurance and annuities activities come from premiums, annuity deposits and charges on insurance policies and annuity contracts. Principal cash inflows from investment activities result from repayments of principal, proceeds from maturities, sales of invested assets and investment income.

See our 2005 Annual Report on Form 10-K for additional information as to liquidity and capital resources.

Contractual Obligations and Commercial Commitments

As of March 31, 2006, there were no significant changes to our outstanding contractual obligations and commercial commitments as disclosed in our 2005 Annual Report on Form 10-K.

Off-Balance Sheet Arrangements

As of March 31, 2006 and December 31, 2005, we did not have any significant off-balance sheet arrangements as defined by Item 303(a)(4)(ii) of SEC Regulation S-K.

Reinsurance

We maintain life reinsurance programs designed to protect against large or unusual losses in our life insurance business. Based on our review of their financial statements and reputations in the reinsurance marketplace, we believe that these third-party reinsurers are financially sound and, therefore, that we have no material exposure to uncollectible life reinsurance.

Risk Based Capital

At March 31, 2006, our estimated Total Adjusted Capital level was in excess of 400% of Company Action Level.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have omitted this information from this report as we meet the conditions set forth in General Instruction H(1)(a) and (b) of Form 10-Q and are therefore filing this Form with the reduced disclosure format permitted by that General Instruction.

ITEM 4. CONTROLS AND PROCEDURES

<u>Evaluation of Disclosure Controls and Procedures</u>. We have carried out an evaluation under the supervision and with the participation of our management, including our Principal Executive Officer and our Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, these officers have concluded that, as of March 31, 2006, the disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the reports we file and submit under the Securities and Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms.

<u>Changes in Internal Control over Financial Reporting</u>. During the three months ended on March 31, 2006, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are regularly involved in litigation, both as a defendant and as a plaintiff. The litigation naming us as a defendant ordinarily involves our activities as an insurer, investor or taxpayer. Several current proceedings are discussed below. In addition, state regulatory bodies, the Securities and Exchange Commission, or SEC, the National Association of Securities Dealers, Inc., or NASD, and other regulatory bodies regularly make inquiries of us and, from time to time, conduct examinations or investigations concerning our compliance with, among other things, insurance laws and securities laws.

For example, during 2003 and 2004, the SEC conducted examinations of certain Company variable products and certain affiliated investment advisors and mutual funds. In 2004, the NASD also commenced examinations of two affiliated broker-dealers; the examinations were closed in April 2005 and November 2004, respectively. In February 2005, the NASD notified an affiliate of the Company that it was asserting violations of trade reporting rules by the affiliate of the Company. The affiliated company responded to the NASD allegations in May 2005 but has not received any further inquiries to date.

Federal and state regulatory authorities from time to time make inquiries and conduct examinations regarding compliance by the Company with securities and other laws and regulations affecting its registered products. The Company endeavors to respond to such inquiries in an appropriate way and to take corrective action if warranted. Recently, there has been a significant increase in federal and state regulatory activity relating to financial services companies, with a number of recent regulatory inquiries focusing on late-trading, market timing and valuation issues. Our products entitle us to impose restrictions on transfers between separate account sub-accounts associated with our variable products.

In 2004 and 2005, the Boston District Office of the SEC conducted a compliance examination of certain of the Company's affiliates that are registered under the Investment Company Act of 1940 or the Investment Advisers Act of 1940. Following the examination, the staff of the Boston District Office issued a deficiency letter primarily focused on perceived weaknesses in procedures for monitoring trading to prevent market timing activity. The staff requested the Company to conduct an analysis as to whether shareholders, policyholders and contract holders who invested in the funds that may have been affected by undetected market timing activity had suffered harm and to advise the staff whether the Company believes reimbursement is necessary or appropriate under the circumstances. A third party was retained to assist the Company in preparing the analysis. Based on the analysis, the Company advised the SEC that it does not believe that reimbursement is appropriate.

Over the past two years, a number of companies have announced settlements of enforcement actions with various regulatory agencies, primarily the SEC and the New York Attorney General's Office. While no such action has been initiated against us, it is possible that one or more regulatory agencies may pursue this type of action against us in the future.

Financial services companies have also been the subject of broad industry inquiries by state regulators and attorneys general which do not appear to be company-specific. In this regard, in 2004, we received a subpoena from the Connecticut Attorney General's office requesting information regarding certain distribution practices since 1998. Over 40 companies received such a subpoena. We are cooperating fully and have had no further inquiry since filing our response.

These types of regulatory actions may be difficult to assess or quantify, may seek recovery of indeterminate amounts, including punitive and treble damages, and the nature and magnitude of their outcomes may remain unknown for substantial periods of time. While it is not feasible to predict or determine the ultimate outcome of all pending investigations and legal proceedings or to provide reasonable ranges of potential losses, we believe that their outcomes are not likely, either individually or in the aggregate, to have a material adverse effect on our financial condition, or consideration of available insurance and reinsurance and the provision made in our financial statements. However, given the large or indeterminate amounts sought in certain of these matters and litigation's inherent unpredictability, it is possible that an adverse outcome in certain matters could, from time to time, have a material adverse effect on our results of operation or cash flows.

ITEM 1A. RISK FACTORS

During the three months ended March 31, 2006, there were no material changes to our Risk Factors as described in our 2005 Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We have omitted this information from this report as we meet the conditions set forth in General Instruction H(1)(a) and (b) of Form 10-Q and are therefore filing this Form with the reduced disclosure format permitted by that General Instruction.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES
