Part I -- Financial Information

Item 1: Financial Statements (Unaudited)

Essex Portfolio, L.P., a California limited partnership, (the “Operating Partnership”) effectively holds the assets and liabilities and conducts the operating activities of Essex Property Trust, Inc. (“Essex” or the “Company”). Essex Property Trust, Inc., a real estate investment trust incorporated in the State of Maryland, is the sole general partner of the Operating Partnership.

The information furnished in the accompanying consolidated unaudited balance sheets, statements of operations, partners’ capital and cash flows of the Operating Partnership reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of the aforementioned consolidated financial statements for the interim periods.

The accompanying unaudited consolidated financial statements should be read in conjunction with the notes to such consolidated financial statements and Management’s Discussion and Analysis of Financial Condition and Results of Operations.

ESSEX PORTFOLIO, L.P. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
June 30, 2003 and 2002
(Unaudited)

(Dollars in thousands, except per share and per unit amounts)

(1) Organization and Basis of Presentation

Essex Portfolio, L.P. (the "Operating Partnership") was formed in March 1994 and commenced operations on June 13, 1994, when Essex Property Trust, Inc. (the "Company"), the general partner of the Operating Partnership, completed its initial public offering (the "Offering") in which it issued 6,275,000 shares of common stock at \$19.50 per share. The net proceeds from the Offering of \$112,071 were used by the Company to acquire a 77.2% interest in the Operating Partnership. The Company has elected to be treated as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986 (the "Code"), as amended.

The unaudited consolidated financial statements of the Operating Partnership are prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the instructions to Form 10-Q. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented have been included and are normal and recurring in nature. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Operating Partnership's annual report on Form 10-K for the year ended December 31, 2002.

The Company is the sole general partner in the Operating Partnership, with a 90.1%, 90.0% and 89.0% general partnership interest as of June 30, 2003, December 31, 2002 and June 30, 2002, respectively.

As of June 30, 2003, the Operating Partnership operates and has ownership interests in 118 multifamily properties (containing 25,125 units), five recreational vehicle parks (comprising 1,717 spaces), four office buildings (with approximately 63,540 square feet) and two manufactured housing communities (containing 607 sites), (collectively, the "Properties"). The Properties are located in Southern California (Los Angeles, Ventura, Orange and San Diego counties), Northern California (the San Francisco Bay Area), the Pacific Northwest (the Seattle, Washington and Portland, Oregon metropolitan areas) and other areas (Houston, Texas, Las Vegas, Nevada and Hemet, California).

Essex Apartment Value Fund, L.P. (the "Fund"), is an investment fund organized by the Operating Partnership and will be, subject to specific exceptions, the Operating Partnership's exclusive investment vehicle for new investments until the Fund's committed capital has been invested or committed for investments, or if earlier, December 31, 2003. An affiliate of the Operating Partnership, Essex VFGP, L.P. ("VFGP"), is a 1% general partner and is a 20.4% limited partner. The Operating Partnership owns a 99% limited partnership interest in VFGP. The Fund has total capital commitments of \$250 million and is expected to utilize leverage of approximately 65% of the value of the underlying real estate portfolio. The Operating Partnership is committed to invest 21.4% of the aggregate capital committed to the Fund. In addition, Essex will be compensated by the Fund for its asset management, property management, development and redevelopment services and may receive incentive payments if the Fund exceeds certain financial return benchmarks. At June 30, 2003 the Fund was approximately 90% invested.

The Operating Partnership invests in joint ventures, which generally involve multifamily property acquisitions. For joint ventures entered into prior to January 31, 2003, the Operating Partnership accounts for these investments under the equity or consolidation methods of accounting based on the voting control it exercises through its ownership interests in these affiliates. For joint ventures entered into after January 31, 2003, the Operating Partnership follows the guidance provided by FASB Interpretation No 46 (FIN 46), "Consolidation of Variable Interest Entities." The Operating Partnership did not enter into any new joint ventures during the quarter ended June 30, 2003. Under the equity method of accounting, the investment is carried at the cost of assets contributed or distributed, plus the Operating Partnership's equity in undistributed earnings or losses since its initial investment. The individual assets, liabilities, revenues and expenses of the joint venture are not recorded in the Operating Partnership's consolidated financial statements.

Included in the Operating Partnership's investments accounted for under the equity method are limited partnership interests in 17 partnerships (Down REIT entities), which collectively own ten multifamily properties, comprised of 1,831 units. These investments were made under arrangements whereby Essex Management Corporation (EMC) became the general partner, the Operating Partnership became a special minority interest limited partner, and the other limited partners were granted rights of redemption for their interests. Such partners can request to be redeemed and the Operating Partnership can elect to redeem their rights for cash or by issuing shares of Essex's common stock on a one share per unit basis. Conversion values will be based on the market value of the Company's common stock at the time of redemption multiplied by the number of units stipulated under the above arrangements. The other limited partners receive distributions based on the Company's current dividend rate times the number of redemption shares. At June 30, 2003, the maximum number of shares that could be required to meet redemption of these Down REIT entities is 1,468,198. The equity in income or loss reported by the Operating Partnership under the equity method of accounting for these down REIT entities is the net income of these down REIT entities as reduced by the income allocated to the other limited partners which is equal to the distributions they received.

All significant intercompany balances and transactions have been eliminated in the consolidated financial statements.

The Operating Partnership's equity in income from investments accounted for using the equity method was \$1,809 and \$2,798 for the three months ended June 30, 2003 and 2002, respectively, and \$3,610 and \$5,300 for the six months ended June 30, 2003 and 2002, respectively, and is classified as "Interest and other income" in the accompanying consolidated statement of operations.

Certain prior year balances have been reclassified to conform to the current year presentation.

Stock-based Compensation

The Operating Partnership applies APB Opinion No. 25 (APB 25) and related interpretations in accounting for its stock-based compensation plans granted to employees and directors of the Operating Partnership. Under APB 25, no compensation cost has been recognized for stock options granted to employees and directors of the Operating Partnership since all such stock options were granted with an exercise price equal to the fair market value of the underlying common stock. For the Operating Partnership's long-term incentive plan and phantom stock plan, no compensation expense recognized during the three months ended June 30, 2003 and 2002 and \$408 and \$911 and was recognized for the six months ended June 30, 2003 and 2002, respectively. Had compensation cost for these stock options and the Operating Partnership's other plans been determined based on the fair value at the grant dates consistent with the fair value method pursuant to FAS 123, the Operating Partnership's net income applicable to common units for the three and six months ended June 30, 2003 and 2002 would have been reduced to the pro forma amounts indicated below:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2003	2002	2003	2002
Net income available to common units:				
As reported	\$ 11,789	\$ 24,012	\$ 23,306	\$ 36,785
Pro forma	11,662	23,886	23,052	36,533
Basic earnings per common share:				
As reported	\$ 0.51	\$ 1.15	\$ 1.00	\$ 1.76
Pro forma	0.50	1.14	0.99	1.75
Diluted earnings per common share:				
As reported	\$ 0.50	\$ 1.14	\$ 0.99	\$ 1.75
Pro forma	0.50	1.13	0.98	1.74
Weighted-average fair value of stock options granted during the periods presented	\$ 3.86	\$ 4.69	\$ 3.86	\$ 4.69

The fair value of stock options granted each period was estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions used for grants:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2003	2002	2003	2002
Risk-free interest rates	2.58%-2.78%	3.08%-4.62%	2.17%-2.78%	3.08%-4.62%
Expected lives	6 years	6 years	6 years	6 years
Volatility	17.89%	18.92%	17.89%-17.91%	18.92%
Dividend yield	5.75%-5.91%	6.30%	5.75%-6.12%	6.30%

(2) **Significant Transactions for the Quarter ended June 30, 2003**

(A) Development Communities

The Operating Partnership defines development communities as new apartment properties that are being constructed or are newly constructed and in a phase of lease-up and have not yet reached stabilized operations. At June 30, 2003, the Operating Partnership (including the Fund's development communities) had ownership interests in six development communities, with an aggregate of 1,368 multifamily units and an estimated total cost of \$246,300 of which approximately \$107,700 remains to be expended and of which approximately \$49,300 is the Operating Partnership's commitment.

During the second quarter, the Operating Partnership neared construction completion and continued lease-up at The San Marcos (Phase I), a 312-unit apartment community located in Richmond, California. The Operating Partnership projects that The San Marcos (Phase I) will reach stabilized operations during the third quarter of 2003. During the quarter, the Operating Partnership committed to an additional 120 units at this project (Phase II) at an estimated cost of \$23,900. It is anticipated that construction of these additional units will be completed in the second quarter of 2004 and is expected to reach stabilized operations in the fourth quarter of 2004.

Also during the quarter the Operating Partnership continued construction of Hidden Valley, a 324-unit apartment community located in Simi Valley, California. The Operating Partnership expects initial occupancy to take place in the fourth quarter of 2003 and to reach stabilized operations in the third quarter of 2004. The Operating Partnership has a 75 percent ownership interest in this development project.

(B) Redevelopment Communities

The Operating Partnership defines redevelopment communities as existing properties owned or recently acquired which have been targeted for investment by the Operating Partnership with the expectation of increased financial returns through property improvement. Redevelopment communities typically have apartment units that are not available for rent and, as a result, may have less than stabilized operations. At June 30, 2003, the Operating Partnership (including the Fund's redevelopment communities) has ownership interests in two redevelopment communities, which contain an aggregate of 782 units and an estimated total cost of \$6,900 of which approximately \$5,200 remains to be expended and of which approximately \$3,500 is the Operating Partnership's commitment.

(C) Debt

Subsequent to the quarter end the Operating Partnership expanded its existing \$165,000 unsecured revolving credit facility to \$185,000. No other terms of this facility were revised.

(D) Other

In August 2000 an affiliate of the Operating Partnership sold a vacant 110,000 square foot office building located in Irvine, California to a third party for \$15,000. The Operating Partnership loaned the buyer \$15,000 as a secured first mortgage on the property. In addition, after the buyer expended \$500 for such items as tenant improvements, leasing commissions, and carrying costs, the Operating Partnership would lend an additional \$4,500 to the buyer for these related items. The current balance of the mezzanine loan is approximately \$3,800, of which \$1,700 is guaranteed by the principal shareholder. The Operating Partnership has evaluated the realization potential of the first and mezzanine loan and effective June 2002, ceased accruing interest income on these notes until it is clearer as to the cash flow that the office building will generate upon lease up. The loan matured in March 2003 and management is currently evaluating its course of action.

(E) Private Equity Fund

Acquisition Activities of the Essex Apartment Value Fund

On May 1, 2003 the Fund purchased Huntington Villas, a 400-unit apartment community located in Huntington Beach, California, for a contract price of \$58,200. In connection with this transaction the Fund obtained a non-recourse mortgage in the amount of \$38,514, with a 4.64% fixed interest rate, which matures in May 2010.

On May 1, 2003 the Fund purchased three multifamily properties comprised of 288 apartment homes located in San Dimas, California. The Villas at San Dimas Canyon, a 156-unit apartment community was purchased for a contract price of \$20,010. In connection with this transaction the Fund obtained a non-recourse mortgage in the amount of \$13,007, with a 4.67% fixed interest rate, which matures in May 2010. The Villas at San Bonita, a 102-unit apartment community was purchased for a contract price of \$12,730. In connection with this transaction the Fund obtained a non-recourse mortgage in the amount of \$8,275, with a 4.67% fixed interest rate, which matures in May 2010. The Villas, a 30-unit apartment community was purchased for a contract price of \$3,910. This property is not encumbered by any mortgage.

On May 29, 2003 the Fund purchased Villa Venetia Apartments, a 468-unit apartment community located in Costa Mesa, California, for a contract price of \$74,000. In connection with this transaction the Fund obtained a non-recourse mortgage in the amount of \$54,000, with a 4.58% fixed interest rate for a 9-year term, which matures in June 2012, with an option to extend the maturity for one year thereafter at a floating rate of 2.5% over Freddie Mac's Reference Bill. During the extension period, the loan may be paid in full with no prepayment penalty.

Development Communities of the Fund

At June 30, 2003 the Fund has three development communities with an aggregate of 612 multifamily units and an estimated total cost of \$124,100 of which \$74,300 remains to be expended and approximately \$15,900 is the Operating Partnership's commitment.

Debt Transactions of the Fund

On April 11, 2003, the Fund obtained a non-recourse mortgage on a previously unencumbered property in the amount of \$10,000, with a 5.42% fixed interest rate for a 9-year term, which matures in May 2013, with an option to extend the maturity for one year thereafter at a floating rate of 2.5% over Freddie Mac's Reference Bill. During the extension period, the loan may be paid in full with no prepayment penalty.

Subsequent Event

On July 11, 2003, the Fund acquired an ownership interest in Coronado North and South, located in Newport Beach, California, for approximately \$33,700 from an unrelated co-investment partner.

(3) **Related Party Transactions**

All general and administrative expenses of the Operating Partnership and Essex Management Corporation, an unconsolidated preferred stock subsidiary of the Operating Partnership ("EMC"), are initially borne by the Operating Partnership, with a portion subsequently allocated to EMC. Expenses allocated to EMC for the three months ended June 30, 2003 and 2002 totaled \$692 and \$708, respectively, and \$1,292 and \$1,478 for the six months ended June 30, 2003 and 2002, respectively. The allocation is reflected as a reduction in general and administrative expenses in the accompanying consolidated statements of operations.

Interest and other income includes interest income earned on notes receivable from investees of \$79 and \$1,097 for the three months ended June 30, 2003 and 2002, respectively, and \$158 and \$2,158 for the six months ended June 30, 2003 and 2002, respectively. Other income also includes management fee income and investment income from the Operating Partnership's investees of \$2,761 and \$3,010 for the three months ended June 30, 2003 and 2002, respectively, and \$5,777 and \$5,589 for the six months ended June 30, 2003 and 2002, respectively.

Notes receivable from investees and other related party receivables as of June 30, 2003 and December 31, 2002 consist of the following:

	<u>June 30,</u> <u>2003</u>	<u>December 31,</u> <u>2002</u>
Notes receivable from joint venture investees:		
Note receivable from Highridge Apartments, secured, bearing interest at 10%, due on demand	\$ 2,950	\$ 2,950
Notes receivable from Essex Fidelity I Corp ("EFC"), secured, bearing interest at LIBOR + 2.5%, due 2004	15,069	14,979
Note receivable from EFC, unsecured, bearing interest at 7.5%, due 2011	390	726
Receivable from Newport Beach North, LLC and Newport Beach South, LLC, unsecured, non interest bearing, due on demand	1,361	376
Other related party receivables:		
Loans to officers prior to July 31, 2002, secured, bearing interest at 8%, due April 2006	633	633
Other related party receivables, substantially due on demand	5,587	4,417
	<u>\$ 25,990</u>	<u>\$ 24,081</u>

The Company's officers and directors do not have substantial economic interest in these joint venture investees.

Other related party receivables consist primarily of accrued interest income on notes receivable from joint venture investees and loans to officers, advances and accrued management fees from joint venture investees and unreimbursed expenses due from EMC.

(4) **New Accounting Pronouncements**

In January 2003, the FASB approved for issuance FASB Interpretation No. 46 (FIN 46), "Consolidation of Variable Interest Entities." FIN 46 clarifies the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements" to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN 46 applies immediately to variable interest entities created after January 31, 2003, and to variable interest entities in which an enterprise obtains an interest after that date. It applies in the first fiscal year or interim period beginning after June 15, 2003, to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. FIN 46 may be applied prospectively with a cumulative-effect adjustment as of the date on which it is first applied or by restating previously issued financial statements for one or more years with a cumulative-effect adjustment as of the beginning of the first year restated. The disclosure requirements of FIN 46 are effective for all financial statements initially issued after January 31, 2003. It is reasonably possible that certain of the entities through which and with which the Operating Partnership conducts business, including those described in Notes 3(b) and 5 of the Operating Partnership's December 31, 2002 consolidated financial statements will be deemed to be Variable Interest Entities (VIEs) under the provisions of FIN 46. The total assets and liabilities net of intercompany balances of such entities were estimated at \$77,216 and \$47,098 at June 30, 2003. The Operating Partnership's estimated maximum exposure to loss would be equal to its investments in these arrangements, which totaled \$30,485, as of June 30, 2003. The disclosures provided reflect management's understanding and analysis of FIN 46 based upon information currently available. The evaluation of the Operating Partnership's various arrangements is ongoing and is subject to change in the event additional interpretive guidance is provided by the Financial Accounting Standards Board or others.

In May 2003, the FASB issued Statement of Financial Accounting Standard No. 150 ("FAS 150"), "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity". FAS 150 requires issuers to classify as liabilities (or assets in some circumstances) three classes of freestanding financial instruments that embody obligations for the issuer. Previously, many such instruments had been classified as equity. A freestanding financial instrument is an instrument that is entered into separately and apart from any of the entity's other financial instruments or equity transactions, or that is entered into in conjunction with some other transaction and is legally detachable and separately exercisable, such as certain put and call options. These provisions are effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The Operating Partnership is currently evaluating the impact of adopting FAS 150.

(5) **Segment Information**

The Operating Partnership defines its reportable operating segments as the three geographical regions in which its properties are located: Southern California, Northern California and the Pacific Northwest. Excluded from segment revenues are properties outside of these regions and interest and other income. Nonsegment revenues and net operating income included in the following schedule also consists of revenue generated from the commercial properties, recreational vehicle parks, and manufactured housing communities. Other nonsegment assets include investments, real estate under development, cash, notes receivables, other assets and deferred charges. The revenues, net operating income, and assets for each of the reportable operating segments are summarized as follows for the periods presented.

	Three Months Ended	
	June 30,	
	2003	2002
Revenues:		
Southern California	\$ 26,669	\$ 18,018

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is based primarily on the consolidated unaudited financial statements of Essex Portfolio, L.P. (the "Operating Partnership") for the three and six months ended June 30, 2003 and 2002. This information should be read in conjunction with the accompanying consolidated unaudited financial statements and notes thereto. These consolidated financial statements include all adjustments which are, in the opinion of management, necessary to reflect a fair statement of the results and all such adjustments are of a normal recurring nature.

The Operating Partnership holds, directly or indirectly, all of the Company's interests in the Operating Partnership's properties and all of the Company's operations relating to the Company's properties are conducted through the Operating Partnership. The Company is the sole general partner of the Operating Partnership and, as of June 30, 2003, December 31, 2002 and June 30, 2002, with a 90.1%, 90.0% and 89.0% general partnership interest in the Operating Partnership, respectively

General Background

The Operating Partnership's property revenues are generated primarily from multifamily property operations, which accounted for greater than 95% of its property revenues for the three and six months ended June 30, 2003 and 2002. The Operating Partnership's multifamily properties (the "Properties") are located in Southern California (Los Angeles, Ventura, Orange and San Diego counties), Northern California (the San Francisco Bay Area), the Pacific Northwest (the Seattle, Washington and Portland, Oregon metropolitan areas) and other areas (Houston, Texas, Las Vegas, Nevada and Hemet, California).

Essex Apartment Value Fund, L.P. (the "Fund"), is an investment fund organized by the Operating Partnership in 2001. The Fund will be, subject to specific exceptions, the Operating Partnership's exclusive investment vehicle for new investments until the Fund's committed capital has been invested or committed for investments, or if earlier, December 31, 2003. The Fund has total capital commitments of \$250 million and is expected to utilize leverage of approximately 65% of the value of the underlying real estate portfolio. The Operating Partnership is committed to invest 21.4% of the aggregate capital committed to the Fund. In addition, the Operating Partnership will be compensated by the Fund for its asset management, property management, development and redevelopment services and may receive incentive payments if the Fund exceeds certain financial return benchmarks. Since its formation, the Fund has acquired fifteen multifamily residential properties, representing 3,479 apartment units with an aggregate purchase price of approximately \$413 million, excluding redevelopment expenses, and disposed of one multifamily residential property, consisting of 500 apartment units at a gross sales price of approximately \$69.0 million resulting in a net realized gain of approximately \$5.7 million. In addition, three development land parcels, where approximately 612 apartment units are planned for construction, have been purchased by the Fund with a total estimated cost for the projects of approximately \$124.1 million. As of June 30, 2003, the remaining commitments to fund these projects is approximately \$74.3 million of which approximately \$15.9 million is the Operating Partnership's commitment.

Since the Operating Partnership began operations in June 1994, the Operating Partnership has acquired ownership interests in 105 multifamily residential properties, its headquarters building, three Southern California office buildings, five recreational vehicle parks, and two manufactured housing communities. With respect to the multifamily residential properties that the Operating Partnership acquired, 14 are located in Northern California, 69 are located in Southern California, 15 are located in the Seattle Metropolitan Area, five are located in the Portland Metropolitan Area and two are located in other areas. In total, these acquisitions consist of 22,236 units with total capitalized acquisition costs of approximately \$2,012.7 million. Additionally, since its IPO, the Operating Partnership has developed and has ownership interests in ten multifamily properties that have reached stabilized operations. These development properties consist of 2,406 units with total capitalized development costs of \$309.5 million. As part of its active portfolio management strategy, the Operating Partnership has disposed of, since its IPO, twelve multifamily residential properties (six in Northern California, five in Southern California and one in the Pacific Northwest) consisting of a total of 2,014 units, six retail shopping centers in the Portland, Oregon metropolitan area and its former headquarters building located in Northern California at an aggregate gross sales price of approximately \$259.5 million resulting in a net realized gain of approximately \$53.8 million.

The Operating Partnership (excluding the Fund's development communities) has ownership interests in and is developing three multifamily residential communities, with an aggregate of 756 multifamily units. In connection with these development projects, the Operating Partnership has directly entered into contractual construction related commitments with unrelated third parties and the total projected estimated cost for these projects is approximately \$122.2 million. As of June 30, 2003, the remaining commitment to fund these projects is approximately \$33.4 million.

Results of Operations

Comparison of the Three Months Ended June 30, 2003 to the Three Months Ended June 30, 2002

Average financial occupancy rates of the Operating Partnership's multifamily Quarterly Same Store Properties (stabilized properties consolidated by the Operating Partnership for each of the three months ended June 30, 2003 and 2002) was 95.5% and 94.3%, for the three months ended June 30, 2003 and 2002, respectively. "Financial occupancy" is defined as the percentage resulting from dividing actual rental revenue by total possible rental revenue. Actual rental revenue represents contractual rental revenue pursuant to leases without considering delinquency and concessions. Total possible rental revenue represents the value of all apartment units, with occupied units valued at contractual rental rates pursuant to leases and vacant units valued at estimated market rents. We believe that financial occupancy is a meaningful measure of occupancy because it considers the value of each vacant unit at its estimated market rate. Financial occupancy rates disclosed by other REITs may not be comparable to our calculation of financial occupancy.

The regional breakdown of average financial occupancy for the multifamily Quarterly Same Store Properties for the three months ended June 30, 2003 and 2002 are as follows:

	Three months ended	
	June 30,	
	2003	2002
Southern California	95.9%	94.4%
Northern California	95.3%	95.1%
Pacific Northwest	95.2%	93.0%

Total Revenues increased by \$7,464,000 or 14.6% to \$58,447,000 in the second quarter of 2003 from \$50,983,000 in the second quarter of 2002. The following table sets forth a breakdown of these revenue amounts, including the revenues attributable to the Quarterly Same Store Properties.

	Number of Properties	Three Months Ended		Dollar Change	Percentage Change
		June 30,			
		2003	2002		
Revenues:					
Property revenues - quarterly					
Quarterly Same Store Properties					
Southern California	22	\$ 17,538	\$ 16,855	\$ 683	4.1 %
Northern California	16	12,841	13,938	(1,097)	(7.9)
Pacific Northwest	23	10,214	10,567	(353)	(3.3)
Properties	61	40,593	41,360	(767)	(1.9)
Property revenues - properties acquired subsequent to March 31, 2002 (1)		14,688	1,805	12,883	713.7
Total property revenues		55,281	43,165	12,116	28.1
Interest and other income		3,166	7,818	(4,652)	(59.5)
Total revenues		\$ 58,447	\$ 50,983	\$ 7,464	14.6 %

(1) Also includes four office buildings, five recreational vehicle parks, two manufactured housing communities, redevelopment communities, and development communities.

As set forth in the above table, the \$7,464,000 net increase in total revenues was mainly attributable to an increase of \$12,883,000 attributable to multifamily properties acquired subsequent to March 31, 2002, four office buildings, five recreational vehicle parks, two manufactured housing communities, redevelopment communities and development communities, which was offset in part by a decrease in interest and other income of \$4,652,000 and a decrease in revenues from the Quarterly Same Store Properties of \$767,000. Subsequent to March 31, 2002, the Operating Partnership acquired interests in 21 multifamily properties, two office buildings, five recreational vehicle parks, two manufactured housing communities and achieved stabilized operations in three redevelopment communities and one development community (the "Quarterly Acquisitions Properties").

Interest and other income decreased by \$4,652,000 or 59.5% to \$3,166,000 in the second quarter of 2003 from \$7,818,000 in the second quarter of 2002. The decrease primarily relates to the payoff or conversion to non-accrual of interest on notes receivable resulting in the decrease in interest income on notes receivables and the sale of co-investment assets resulting in the decrease in income earned on the Operating Partnership's co-investments.

Property revenues from the Quarterly Same Store Properties decreased by \$767,000 or 1.9% to \$40,593,000 in the second quarter of 2003 from \$41,360,000 in the second quarter of 2002. The majority of this decrease was attributable to the 16 Quarterly Same Store Properties located in Northern California and the 23 Quarterly Same Store Properties located in the Pacific Northwest. The property revenues of the Quarterly Same Store Properties in Northern California decreased by \$1,097,000 or 7.9% to \$12,841,000 in the second quarter of 2003 from \$13,938,000 in the second quarter of 2002. The decrease in Northern California is primarily attributable to rental rate decreases offset by an increase in financial occupancy to 95.3% in the second quarter of 2003 from 95.1% in the second quarter of 2002. The property revenues of the Quarterly Same Store Properties in the Pacific Northwest decreased by \$353,000 or 3.3% to \$10,214,000 in the second quarter of 2003 from \$10,567,000 in the second quarter of 2002. The \$353,000 decrease in the Pacific Northwest is primarily attributable to rental rate decreases offset by an increase in financial occupancy to 95.2% in the second quarter of 2003 from 93.0% in the second quarter of 2002. The 22 Quarterly Same Store Properties located in Southern California offset the net decrease in total property revenues from the other Quarterly Same Store Properties. The property revenues for these properties increased by \$683,000 or 4.1% to \$17,538,000 in the second quarter of 2003 from \$16,855,000 in the second quarter of 2002. The \$683,000 increase is primarily attributable to rental rate increases and an increase in financial occupancy to 95.9% in the second quarter of 2003 from 94.4% in the second quarter of 2002.

Total Expenses increased by \$10,578,000 or approximately 33.6% to \$42,051,000 in the second quarter of 2003 from \$31,473,000 in the second quarter of 2002. This increase was mainly due to an increase in interest expense of \$1,879,000 or 21.7% to \$10,531,000 in the second quarter of 2003 from \$8,652,000 in the second quarter of 2002. The increase in interest expense is due to increases in the mortgage notes payable and line of credit balances. Property operating expenses increased by \$8,401,000 or 39.8% to \$29,510,000 in the second quarter of 2003 from \$21,109,000 in the second quarter of 2002. Of such operating expense increase \$8,152,000 was attributable to the Quarterly Acquisition Properties.

Discontinued operations decreased by \$8,133,000 to \$0 in the second quarter of 2003 from \$8,133,000 in the second quarter in 2002. This decrease is due to the reduction of gain on sale of real estate and operating income from Tara Village, a 168-unit apartment community located in Tarzana, California, which was sold on June 18, 2002.

Net income decreased by \$12,223,000 or 50.9% to \$11,789,000 in the second quarter of 2003 from \$24,012,000 in the second quarter of 2002. The decrease in net income is mainly attributable to the factors noted above.

Comparison of the Six Months Ended June 30, 2003 to the Six Months Ended June 30, 2002

Average financial occupancy rates of the Operating Partnership's multifamily Same Store Properties (stabilized properties consolidated by the Operating Partnership for each of the six months ended June 30, 2003 and 2002) was 95.4% and 93.5%, for the six months ended June 30, 2003 and 2002, respectively.

The regional breakdown of average financial occupancy for the multifamily Same Store Properties for the six months ended June 30, 2003 and 2002 are as follows:

	Six Months Ended	
	June 30,	
	2003	2002
Southern California	95.5%	93.2%
Northern California	95.6%	95.1%
Pacific Northwest	94.8%	91.9%

Total Revenues increased by \$17,047,000 or 17.0% to \$117,442,000 in the six months ended June 30, 2003 from \$100,395,000 in the six months ended June 30, 2002. The following table sets forth a breakdown of these revenue amounts, including the revenues attributable to the Same Store Properties.

	Number of Properties	Six Months Ended		Dollar Change	Percentage Change
		June 30, 2003	June 30, 2002		
Revenues:					
Property revenues					
Same Store Properties					
Southern California	22	\$ 35,008	\$ 33,149	\$ 1,859	5.6 %
Northern California	16	25,992	28,576	(2,584)	(9.0)
Pacific Northwest	23	20,535	21,212	(677)	(3.2)
Properties	61	81,535	82,937	(1,402)	(1.7)
Property revenues - properties acquired subsequent to December 31, 2001 (1)		29,642	3,663	25,979	709.2
Total property revenues		111,177	86,600	24,577	28.4
Interest and other income		6,265	13,795	(7,530)	(54.6)
Total revenues		\$ 117,442	\$ 100,395	\$ 17,047	17.0 %

(1) Also includes four office buildings, five recreational vehicle parks, two manufactured housing communities, redevelopment communities, and development communities.

As set forth in the above table, the \$17,047,000 net increase in total revenues was mainly attributable to an increase of \$25,979,000 attributable to multifamily properties acquired subsequent to December 31, 2001, four office buildings, five recreational vehicle parks, two manufactured housing communities, redevelopment communities and development communities, which was offset in part by a decrease in interest and other income of \$7,530,000 and a decrease in revenue from the Same Store Properties of \$1,402,000. Subsequent to December 31, 2001, the Operating Partnership acquired interests in 21 multifamily properties, two office buildings, five recreational vehicle parks, two manufactured housing communities and achieved stabilized operations in three redevelopment communities and one development community (the "Acquisitions Properties").

Interest and other income decreased by \$7,530,000 or 54.6% to \$6,265,000 in the six months ended June 30, 2003 from \$13,795,000 in the six months ended June 30, 2002. The decrease primarily relates to the payoff or conversion to non-accrual of interest on notes receivable resulting in the decrease in interest income on notes receivables and the sale of co-investment assets resulting in the decrease in income earned on the Operating Partnership's co-investments.

Property revenues from the Same Store Properties decreased by \$1,402,000 or 1.7% to \$81,535,000 in the six months ended June 30, 2003 from \$82,937,000 in the six months ended June 30, 2002. The majority of this decrease was attributable to the 16 Same Store Properties located in Northern California and the 23 Same Store Properties located in the Pacific Northwest. The property revenues of the Same Store Properties in Northern California decreased by \$2,584,000 or 9.0% to \$25,992,000 in the six months ended June 30, 2003 from \$28,576,000 in the six months ended June 30, 2002. The decrease in Northern California is primarily attributable to rental rate decreases offset by an increase in financial occupancy to 95.6% in the six months ended June 30, 2003 from 95.1% in the six months ended June 30, 2002. The property revenues of the Same Store Properties in the Pacific Northwest decreased by \$677,000 or 3.2% to \$20,535,000 in the six months ended June 30, 2003 from \$21,212,000 in the six months ended June 30, 2002. The \$677,000 decrease in the Pacific Northwest is primarily attributable to rental rate decreases offset by an increase in financial occupancy to 94.8% in the six months ended June 30, 2003 from 91.9% in the six months ended June 30, 2002. The 22 multifamily residential properties located in Southern California offset the net decrease in total property revenues from the other Same Store Properties. The property revenues for these properties increased by \$1,859,000 or 5.6% to \$35,008,000 in the six months ended June 30, 2003 from \$33,149,000 in the six months ended June 30, 2002. The \$1,859,000 increase is primarily attributable to rental rate increases and an increase in financial occupancy to 95.5% in the six months ended June 30, 2003 from 93.2% in the six months ended June 30, 2002.

Total Expenses increased by \$21,241,000 or approximately 33.4% to \$84,918,000 in the six months ended June 30, 2003 from \$63,677,000 in the six months ended June 30, 2002. This increase was mainly due to an increase in interest expense \$3,889,000 or 22.3% to \$21,330,000 in the six months ended June 30, 2003 from \$17,441,000 in the six months ended June 30, 2002. The increase in interest expense is due to increases in the mortgage notes payable and line of credit balances. Property operating expenses increased by \$16,890,000 or 39.6% to \$59,566,000 in the six months ended June 30, 2003 from \$42,676,000 in the six months ended June 30, 2002. Of such operating expense increase \$15,813,000 was attributable to the Acquisition Properties.

Discontinued operations decreased by \$8,286,000 to \$0 in the six months ended June 30, 2003 from \$8,286,000 in the six months ended June 30, 2002. This decrease is due to the reduction of gain on sale of real estate and operating income from Tara Village, a 168-unit apartment community located in Tarzana, California, which was sold on June 18, 2002.

Net income decreased by \$13,479,000 or 36.6% to \$23,306,000 in the six months ended June 30, 2003 from \$36,785,000 in six months ended June 30, 2002. The decrease in net income is mainly attributable to the factors noted above.

Liquidity and Capital Resources

At June 30, 2003, the Operating Partnership had \$8,854,000 of unrestricted cash and cash equivalents. The Operating Partnership expects to meet its short-term liquidity requirements by using its working capital, cash generated from operations, and amounts available under lines of credit or other financings. The Operating Partnership believes that its current net cash flows will be adequate to meet operating requirements and to provide for payment of dividends by the Company in accordance with REIT qualification requirements. The Operating Partnership expects to meet its long-term liquidity requirements relating to property acquisitions and development (beyond the next 12 months) and balloon debt maturities by using a combination of some or all of the following sources: working capital, amounts available on lines of credit, net proceeds from public and private debt and equity issuances, and proceeds from the disposition of properties that may be sold from time to time. There can, however, be no assurance that the Operating Partnership will have access to the debt and equity markets in a timely fashion to meet such future funding requirements or that future working capital and borrowings under the lines of credit will be available, or if available, will be sufficient to meet the Operating Partnership's requirements or that the Operating Partnership will be able to dispose of properties in a timely manner and under terms and conditions that the Operating Partnership deems acceptable.

The Operating Partnership has two outstanding unsecured lines of credit for an aggregate amount of \$195,000,000. The first line, in the amount of \$165,000,000, matures in May 2004, with an option to extend it for one year thereafter. Outstanding balances under this line of credit bear interest at a rate, which uses a tiered rate structure tied to the Company's corporate ratings, if any, and leverage rating, which has been priced at LIBOR plus 1.10%. At June 30, 2003 the Operating Partnership had \$135,000,000 outstanding on this line of credit. In July, 2003 the Operating Partnership expanded this line to \$185,000,000. No other terms of this facility were revised. A second line of credit in the amount of \$30,000,000 matures in December 2003. Outstanding balances, if any, on this second line bear interest based on a tiered rate structure currently at LIBOR plus 1.10%. At June 30, 2003 the Operating Partnership had \$30,000,000 outstanding on this line of credit. At June 30, 2003, these lines of credit bore interest rates of approximately 2.5%. The credit agreements contain debt covenants related to limitations on indebtedness and liabilities, maintenance of minimum levels of consolidated earnings before depreciation, interest and amortization and maintenance of minimum tangible net worth.

In addition, the Fund, the investment fund managed by the Operating Partnership, has an unsecured line of credit for an aggregate amount of \$125,000,000. This line matures in December 2003. The line bears interest at LIBOR plus 0.875%. As of June 30, 2003, the line had an outstanding balance of \$102,950,000. The line provides for debt covenants relating to limitations on mortgage indebtedness.

In addition to the Operating Partnership's unsecured lines of credit, the Operating Partnership had \$662,712,000 of secured indebtedness at June 30, 2003. Such indebtedness consisted of \$596,650,000 in fixed rate debt with interest rates varying from 5.5% to 8.2% and maturity dates ranging from 2005 to 2026. The indebtedness also includes \$66,062,000 of tax-exempt variable rate demand bonds with interest rates paid during the six months ended June 30, 2003 which averaged 2.7% and maturity dates ranging from 2020 to 2032. The tax-exempt variable rate demand bonds are capped at interest rates ranging from 7.1% to 7.3%.

The Operating Partnership's unrestricted cash balance increased by \$292,000 from \$8,562,000 as of December 31, 2002 to \$8,854,000 as of June 30, 2003. The Operating Partnership generated \$50,100,000 in cash from operating activities, used \$31,671,000 cash in investing activities and used \$18,137,000 cash in financing activities. The \$31,671,000 net cash used in investing activities was primarily a result of \$13,399,000 used to fund real estate under development, \$7,296,000 used to upgrade rental properties and \$5,962,000 used in additions to notes receivables from investees, other related parties and other receivables. The \$18,137,000 net cash used in financing activities was primarily a result of \$32,993,000 of distributions to the general partner, \$25,491,000 of repayments of mortgages and other notes payable and lines of credit, \$10,140,000 of distributions to limited partners and minority interest offset by \$49,140,000 of proceeds from mortgages and other notes and line of credit.

Non-revenue generating capital expenditures are improvements and upgrades that extend the useful life of the property and are not related to preparing a multifamily property unit to be rented to a tenant. The Operating Partnership expects to incur approximately \$375 per weighted average occupancy unit in non-revenue generating capital expenditures for the year ended December 31, 2003. These expenditures do not include the improvements required in connection with the origination of mortgage loans, expenditures for acquisition properties' renovations and improvements, which are expected to generate additional revenue, and renovation expenditures required pursuant to tax-exempt bond financings. The Operating Partnership expects that cash from operations and/or its lines of credit will fund such expenditures. However, there can be no assurance that the actual expenditures incurred during 2003 and/or the funding thereof will not be significantly different than the Operating Partnership's current expectations.

The Operating Partnership is currently developing six multifamily residential projects, with an aggregate of 1,368 multifamily units. Such projects involve certain risks inherent in real estate development. See "Other Matters/ Risk Factors--Risks that Development Activities Will be Delayed or Not Completed and/or Fail to Achieve Expected Results" in Item 1 of the Operating Partnership's Annual Report on Form 10-K for the year ended December 31, 2002. In connection with these development projects, the Operating Partnership has directly, or in some cases through its joint venture partners entered into contractual construction related commitments with unrelated third parties and the total projected estimated cost for these projects is approximately \$246,300,000. As of June 30, 2003, the remaining commitment to fund these development projects is approximately \$107,700,000, of which approximately \$49,300,000 is the Operating Partnership's commitment. The Operating Partnership expects to fund such commitments by using a combination of some or all of the following sources: its working capital, amounts available on its lines of credit, net proceeds from public and private equity and debt issuances, and proceeds from the disposition of properties, if any.

Pursuant to existing shelf registration statements, the Company has the capacity to issue up to \$342,000,000 of equity securities and the Operating Partnership has the capacity to issue up to \$250,000,000 of debt securities.

The Company pays quarterly dividends from cash available for distribution. Until it is distributed, cash available for distribution is invested by the Company primarily in short-term investment grade securities or is used by the Company to reduce balances outstanding under its line of credit.

Essex Apartment Value Fund, L.P. (the "Fund"), is an investment fund organized by the Operating Partnership in 2001. The Fund will be, subject to specific exceptions, the Operating Partnership's exclusive investment vehicle for new investments until the Fund's committed capital has been invested or committed for investments, or if earlier, December 31, 2003. The Fund has total capital commitments of \$250 million and is expected to utilize leverage of approximately 65% of the value of the underlying real estate portfolio. The Operating Partnership is committed to invest 21.4% of the aggregate capital committed to the Fund. In addition, Essex will be compensated by the Fund for its asset management, property management, development and redevelopment services and may receive incentive distributions if the Fund exceeds certain financial return benchmarks. At June 30, 2003 the Fund was approximately 90% invested.

Contractual Obligations and Commercial Commitments

The following table summarizes our contractual obligations and other commitments at June 30, 2003, and the effect such obligations could have on our liquidity and cash flow in future periods:

(In thousands)	Less Than 1 Year	2-3 Years	4-5 Years	Over 5 Years	Total
Mortgage notes payable	\$ 3,315	\$ 48,904	\$ 83,527	\$ 526,966	\$ 662,712
Lines of credit	30,000	135,000	--	--	165,000
Development commitments(1)	49,300	--	--	--	49,300
Redevelopment commitments(2)	3,500	--	--	--	3,500
Essex Apartment Value Fund, L.P. capital commitment	35,615	--	--	--	35,615
	<u>\$ 121,730</u>	<u>\$ 183,904</u>	<u>\$ 83,527</u>	<u>\$ 526,966</u>	<u>\$ 916,127</u>

(1) \$28,731 of these commitments relate to actual contracts as of June 30, 2003.

(2) \$1,016 of these commitments relate to actual contracts as of June 30, 2003.

New Accounting Pronouncements

In January 2003, the FASB approved for issuance FASB Interpretation No. 46 (FIN 46), "Consolidation of Variable Interest Entities." FIN 46 clarifies the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements" to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN 46 applies immediately to variable interest entities created after January 31, 2003, and to variable interest entities in which an enterprise obtains an interest after that date. It applies in the first fiscal year or interim period beginning after June 15, 2003, to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. FIN 46 may be applied prospectively with a cumulative-effect adjustment as of the date on which it is first applied or by restating previously issued financial statements for one or more years with a cumulative-effect adjustment as of the beginning of the first year restated. The disclosure requirements of FIN 46 are effective for all financial statements initially issued after January 31, 2003. It is reasonably possible that certain of the entities through which and with which the Operating Partnership conducts business, including those described in Notes 3(b) and 5 of the Operating Partnership's December 31, 2002 consolidated financial statements will be deemed to be Variable Interest Entities (VIEs) under the provisions of FIN 46. The total assets and liabilities net of intercompany balances of such entities were estimated at \$77,216 and \$47,098 at June 30, 2003. The Operating Partnership's estimated maximum exposure to loss would be equal to its investments in these arrangements, which totaled \$30,485, as of June 30, 2003. The disclosures provided reflect management's understanding and analysis of FIN 46 based upon information currently available. The evaluation of the Operating Partnership's various arrangements is ongoing and is subject to change in the event additional interpretive guidance is provided by the Financial Accounting Standards Board or others.

In May 2003, the FASB issued Statement of Financial Accounting Standard No. 150 ("FAS 150"), "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity." FAS 150 requires issuers to classify as liabilities (or assets in some circumstances) three classes of freestanding financial instruments that embody obligations for the issuer. Previously, many such instruments had been classified as equity. A freestanding financial instrument is an instrument that is entered into separately and apart from any of the entity's other financial instruments or equity transactions, or that is entered into in conjunction with some other transaction and is legally detachable and separately exercisable, such as certain put and call options. These provisions are effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The Operating Partnership is currently evaluating the impact of adopting FAS 150.

Forward Looking Statements

Certain statements in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and elsewhere in this quarterly report on Form 10-Q which are not historical facts may be considered forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, including statements regarding the Operating Partnership’s expectations, hopes, intentions, beliefs and strategies regarding the future. Forward looking statements include statements regarding the Operating Partnership’s expectations as to the timing of completion of current development projects and the stabilization dates of such projects, expectation as to the total projected costs and rental rates of current development projects, beliefs as to the adequacy of future cash flows to meet operating requirements and to provide for dividend payments in accordance with REIT requirements, expectations as to the amount of capital expenditures, expectations as to the amount of non-revenue generating capital expenditures, future acquisitions and developments, the anticipated performance of the Essex Apartment Value Fund, L.P., the anticipated performance of existing properties, and statements regarding the Operating Partnership’s financing activities. Such forward-looking statements involve known and unknown risks, uncertainties and other factors including, but not limited to, that the Operating Partnership will fail to achieve its business objectives, that the actual completion of development projects will be subject to delays, that the stabilization dates of such projects will be delayed, that the total projected costs of current development projects will exceed expectations, that such development projects will not be completed, that development projects and acquisitions will fail to meet expectations, that estimates of future income from an acquired property may prove to be inaccurate, that future cash flows will be inadequate to meet operating requirements and/or will be insufficient to provide for dividend payments in accordance with REIT requirements, that the actual non-revenue generating capital expenditures will exceed the Operating Partnership’s current expectations, that the Essex Apartment Value Fund will fail to perform as anticipated, that the Operating Partnership’s partners in this Fund fail to fund capital commitments as contractually required, that there may be a downturn in the markets in which the Operating Partnership’s properties are located, and that the terms of any refinancing may not be as favorable as the terms of existing indebtedness, as well as those risks, special considerations, and other factors discussed under the caption “Potential Factors Affecting Operating Results” below and those discussed under the caption “Other Matters/Risk Factors” in Item 1 of the Operating Partnership’s Annual Report on Form 10-K for the year ended December 31, 2002, and those other risk factors and special considerations set forth in the Operating Partnership’s other filings with the Securities and Exchange Commission (the “SEC”) which may cause the actual results, performance or achievements of the Operating Partnership to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Potential Factors Affecting Future Operating Results

Many factors affect the Operating Partnership’s actual financial performance and may cause the Operating Partnership’s future results to be different from past performance or trends. These factors include those factors discussed under the caption “Other Matters/Risk Factors” in Item 1 of the Operating Partnership’s Annual Report on Form 10-K for the year ended December 31, 2002 and the following:

Economic Environment and Impact on Operating Results

Both the national economy and the economies of the western states in which the Operating Partnership owns, manages and develops properties, some of which are concentrated in high-tech sectors, have been and may continue to be in a recession. The impacts of such recession on operating results can include, and are not limited to, reduction in rental rates, occupancy levels, property valuations and increases in operating costs such as advertising, turnover and repair and maintenance expense.

The Operating Partnership’s property type and diverse geographic locations provide some degree of risk moderation but are not immune to a prolonged down cycle in the real estate markets in which the Operating Partnership operates. Although the Operating Partnership believes it is well positioned to meet the challenges ahead, it is possible that further reductions in occupancy and market rental rates will result in reduction of rental revenues, operating income, cash flows, and market value of the Company’s shares. Prolonged recession could also affect the Operating Partnership’s ability to obtain financing at acceptable rates of interest and to access funds from the disposition of properties at acceptable prices.

Development and Redevelopment Activities

The Operating Partnership pursues multifamily residential properties and development and redevelopment projects from time to time. Development projects generally require various government and other approvals, the receipt of which cannot be assured. The Operating Partnership's development and redevelopment activities generally entail certain risks, including the following:

- funds may be expended and management's time devoted to projects that may not be completed;
- construction costs of a project may exceed original estimates possibly making the project economically unfeasible;
- projects may be delayed due to, among other things, adverse weather conditions;
- occupancy rates and rents at a completed project may be less than anticipated; and
- expenses at a completed development project may be higher than anticipated.

These risks may reduce the funds available for distribution to the Company's stockholders. Further, the development and redevelopment of properties is also subject to the general risks associated with real estate investments.

Interest Rate Fluctuations

The Operating Partnership monitors changes in interest rates and believes that it is well positioned from both a liquidity and interest rate risk perspective. However, current interest rates are at historic lows and potentially could increase rapidly to levels more in line with recent levels. The immediate effect of significant and rapid interest rate increases would result in higher interest expense on the Operating Partnership's variable interest rate debt. The effect of prolonged interest rate increases could negatively impact the Operating Partnership's ability to make acquisitions and develop properties at economic returns on investment and the Operating Partnership's ability to refinance existing borrowings at acceptable rates.

Inflation /Deflation

Substantial inflationary or deflationary pressures would likely have a negative effect on rental rates and property operating expenses. The Operating Partnership believes it effectively manages its property and other expenses but understands that substantial annual rates of inflation or deflation could adversely impact operating results.

Item 3: Quantitative and Qualitative Disclosures About Market Risk

The Operating Partnership is exposed to interest rate changes primarily as a result of its line of credit and long-term debt used to maintain liquidity and fund capital expenditures and expansion of the Operating Partnership's real estate investment portfolio and operations. The Operating Partnership's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives the Operating Partnership borrows primarily at fixed rates and may enter into derivative financial instruments such as interest rate swaps, caps and treasury locks in order to mitigate its interest rate risk on a related financial instrument. The Operating Partnership does not enter into derivative or interest rate transactions for speculative purposes.

The Operating Partnership's interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts and weighted average interest rates by year of expected maturity to evaluate the expected cash flows and sensitivity to interest rate changes.

For the Years Ended	2003	2004	2005	2006	2007	Thereafter	Total	Fair value
Fixed rate debt								
(In thousands)								
Amount	\$ 3,315	\$ 7,901	\$ 41,003	\$ 20,397	\$ 63,130	\$ 460,904	\$ 596,650	\$ 576,894
Average interest rate	6.9%	6.9%	6.9%	6.9%	6.9%	6.8%		
Variable rate debt								
(In thousands)								
Amount	\$ 30,000	\$ 135,000	\$ --	\$ --	\$ --	\$ 66,062 (1)	\$ 231,062	\$ 231,062
Average interest	2.7%	2.5%	--	--	--	3.0%		

(1) Capped at interest rates ranging from 7.1% to 7.3%.

The table incorporates only those exposures that exist as of June 30, 2003; it does not consider those exposures or positions that could arise after that date. As a result, our ultimate realized gain or loss, with respect to interest rate fluctuations, would depend on the exposures that arise during the period, our hedging strategies at the time, and interest rates.

Item 4: Controls and Procedures

As of June 30, 2003, we carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer of Essex Property Trust, Inc., our general partner, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 of the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting management to material information relating to the Operating Partnership that is required to be included in our periodic filings with the Securities and Exchange Commission. There were no changes in the Operating Partnership's internal control over financial reporting, that occurred during the quarter ended June 30, 2003, that have materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

Part II -- Other Information

Item 6: Exhibits and Reports on Form 8-K

A. Exhibits

- 10.1 Seventh Amendment to the First Amended and Restated Agreement of Limited Partnership of Essex Portfolio, L.P. *
- 31.1 Certification of Keith R. Guericke, Chief Executive Officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Michael J. Schall, Chief Financial Officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Keith R. Guericke, Chief Executive Officer, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Michael J. Schall, Chief Financial Officer, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

* Management contract or compensatory plan or arrangement.
