Special Note Regarding Forward-Looking Statements

Certain disclosures and analysis in this Form 10-Q, including information incorporated by reference, may include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and the Private Securities Litigation Reform Act of 1995 that are subject to various risks and uncertainties. Opinions, forecasts, projections, guidance, or other statements other than statements of historical fact are considered forward-looking statements and reflect only current views about future events and financial performance. Some of these forward-looking statements include statements regarding:

- management's plans and objectives for future operations;
- existing cash flows being adequate to fund future operational needs;
- future plans related to budgets, future capital requirements, market share growth, and anticipated capital projects and obligations;
- the realization of net deferred tax assets;
- the ability to curtail operating expenditures;
- global statutory tax rates remaining unchanged;
- the impact of future market changes due to exposure to foreign currency translations;
- the possibility of certain policies, procedures, and internal processes minimizing exposure to market risk;
- the impact of new accounting pronouncements on financial condition, results of operations, or cash flows;
- the outcome of new or existing litigation matters;
- the outcome of new or existing regulatory inquiries or investigations; and
- other assumptions described in this report underlying such forward-looking statements.

Although we believe that the expectations included in these forward-looking statements are reasonable, these forward-looking statements are subject to certain events, risks, assumptions, and uncertainties, including those discussed below and in the "Risk Factors" section in Item 1A of this Form 10-Q, and elsewhere in this Form 10-Q and the documents incorporated by reference herein. If one or more of these risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results and developments could materially differ from those expressed in or implied by such forward-looking statements. For example, any of the following factors could cause actual results to vary materially from our projections:

- overall expected growth in the nutritional supplements industry;
- plans for expected future product development;
- changes in manufacturing costs;
- shifts in the mix of packs and products;
- the future impact of any changes to global associate career and compensation plans or incentives;
- the ability to attract and retain independent associates and members;
- new regulatory changes that could affect operations or products;
- any impact of competition, competitive products, and pricing;
- any impact related to media or publicity; and
- the political, social, and economic climate.

Forward-looking statements generally can be identified by use of phrases or terminology such as "may," "will," "should," "could," "would," "expects," "plans," "intends," "anticipates," "believes," "estimates," "approximates," "predicts," "projects," "potential," and "continues" or other similar words or the negative of such terms and other comparable terminology. Similarly, descriptions of our objectives, strategies, plans, goals, or targets contained herein are also considered forward-looking statements. Readers are cautioned when considering these forward-looking statements to keep in mind these risks, assumptions, and uncertainties and any other cautionary statements in this report, as all of the forward-looking statements contained herein speak only as of the date of this report.

Unless stated otherwise, all financial information throughout this report and in the Consolidated Financial Statements and related Notes include Mannatech, Incorporated and all of its subsidiaries on a consolidated basis and may be referred to herein as "Mannatech," "the Company," "its," "we," "our," or "us."

Our products are not intended to diagnose, cure, treat, or prevent any disease and any statements about our products contained in this report have not been evaluated by the Food and Drug Administration, also referred to herein as the FDA.

MANNATECH, INCORPORATED AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Mannatech, Incorporated, located in Coppell, Texas, was incorporated in the state of Texas on November 4, 1993 and is listed on the NASDAQ Global Select Market under the symbol “MTEX”. Mannatech, Incorporated (together with its subsidiaries, the “Company”) develops, markets, and sells high-quality, proprietary nutritional supplements, skin care and topical products, and weight-management products which are sold primarily to independent associates and members located in the United States, Canada, Australia, the United Kingdom, Japan, New Zealand, the Republic of Korea, Taiwan, Denmark, Germany, and South Africa. The Company will begin selling products in Singapore in the fourth quarter of 2008.

Independent associates (“associates”) purchase the Company’s products at published wholesale prices to either sell to retail customers or consume personally. Members (“members”) purchase the Company’s products at a discount from published retail prices primarily for personal consumption. The Company cannot distinguish its personal consumption sales from its other sales because it has no involvement in its products after delivery, other than usual and customary product warranties and returns. Only independent associates are eligible to earn commissions and incentives.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with instructions for Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the Company’s consolidated financial statements and footnotes contained herein do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (“GAAP”) to be considered “complete financial statements”. However, management believes the accompanying unaudited consolidated financial statements and footnotes contain all adjustments, including normal recurring adjustments, considered necessary for a fair presentation of the Company’s consolidated financial information as of, and for, the periods presented. The Company cautions that its consolidated results of operations for an interim period are not necessarily indicative of its consolidated results of operations to be expected for its fiscal year. The December 31, 2007 consolidated balance sheet was included in the audited consolidated financial statements in the Company’s annual report on Form 10-K for the year ended December 31, 2007 and filed with the United States Securities and Exchange Commission on March 17, 2008 (“2007 Annual Report”), which includes all disclosures required by GAAP. Therefore, these unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements of the Company included in the 2007 Annual Report.

Principles of Consolidation

The consolidated financial statements and footnotes include the accounts of the Company and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of the Company’s consolidated financial statements in accordance with accounting principles generally accepted in the United States requires the use of estimates that affect the reported value of assets, liabilities, revenues and expenses. These estimates are based on historical experience and various other factors. The Company continually evaluates the information used to make these estimates as the business and economic environment change. Historically, actual results have not varied materially from the Company’s estimates. The Company does not currently anticipate a significant change in its assumptions related to these estimates. Actual results may differ from these estimates under different assumptions or conditions.

The use of estimates is pervasive throughout the consolidated financial statements, but the accounting policies and estimates considered to be the most significant are described in this note to the consolidated financial statements, *Organization and Summary of Significant Accounting Policies*.

MANNATECH, INCORPORATED AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Cash and Cash Equivalents

The Company considers all highly liquid investments, including credit card receivables, with original maturities of three months or less to be cash equivalents. As of September 30, 2008 and December 31, 2007, the Company included in its cash and cash equivalents credit card receivables due from its credit card processor, as the cash proceeds from credit card receivables are generally received within 24 to 72 hours. As of September 30, 2008 and December 31, 2007, credit card receivables were \$2.7 million and \$2.6 million, respectively. Additionally, as of September 30, 2008 and December 31, 2007, cash and cash equivalents held in bank accounts in foreign countries totaled \$18.5 million and \$40.6 million, respectively.

Restricted Cash

The Company is required to restrict cash related to direct selling insurance premiums and credit card sales in the Republic of Korea, which, as of September 30, 2008 and December 31, 2007, was \$7.6 million and \$11.5 million, respectively. In addition, the Company is required to restrict cash related to its Canada operations, which, as of September 30, 2008 and December 31, 2007, was \$0.4 million and \$0.3 million, respectively. The Company also restricts cash in a term deposit in an Australian bank, amounting to \$0.2 million, as collateral for its Australian building lease. The restricted term deposit is expected to be held through August 2013, when the Australian building lease expires.

Accounts Receivable

Accounts receivable are carried at their estimated collectible amounts. Receivables are created upon shipment of an order if the credit card payment is rejected or does not match the order total. As of September 30, 2008 and December 31, 2007, accounts receivable consisted primarily of amounts due from members and associates. The Company periodically evaluates its receivables for collectability based on historical experience, recent account activities, and the length of time receivables are past due, and writes-off receivables when they become uncollectible. As of September 30, 2008 and December 31, 2007, the Company held an allowance for doubtful accounts of \$0.1 million and \$0.9 million, respectively.

Inventories

Inventories consist of raw materials, work in progress, finished goods, and promotional materials that are stated at the lower of cost (using standard costs that approximate average costs) or market. The Company periodically reviews inventories for obsolescence and any inventories identified as obsolete are reserved or written off.

Other Assets

As of September 30, 2008 and December 31, 2007, other assets primarily consisted of deposits for building leases in various locations totaling \$1.4 million and \$1.5 million, respectively.

Commissions and Incentives

Independent associates earn commissions and incentives based on their direct and indirect commissionable net sales over 13 business periods. Each business period equals 28 days. The Company accrues commissions and incentives when earned by independent associates and pays commissions on product sales three weeks following the business period end and pays commissions on its pack sales five weeks following the business period end.

Long-Term Royalty Liability

In August 2003, the Company entered into a Long-Term Post-Employment Royalty Agreement with Dr. Bill McAnalley, the Company's former Chief Science Officer, pursuant to which the Company is required to pay Dr. McAnalley, or his heirs, royalties for ten years beginning September 2005 through August 2015. Quarterly payments related to this Long-Term Post-Employment Royalty Agreement are based on certain applicable annual global product sales by the Company in excess of \$105.4 million. At the time the Company entered into this Long-Term Post-Employment Royalty Agreement, it was considered a post-employment benefit and the Company was required to measure and accrue the present value of the estimated future royalty payments related to the post-employment royalty benefit and

MANNATECH, INCORPORATED AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

recognize it over the life of Dr. McAnalley's employment agreement, which was two years. As of September 30, 2008, the Company's long-term liability related to this royalty agreement was \$2.5 million, of which \$0.4 million was currently due and included in accrued expenses. As of December 31, 2007, the Company's long-term liability related to this royalty agreement was \$2.9 million, of which \$0.5 million was currently due and included in accrued expenses.

Other Long-Term Liabilities

The Company maintains operating leases for its regional office facilities located in the United Kingdom, Japan, the Republic of Korea, and Taiwan. As of September 30, 2008 and December 31, 2007, accrued restoration costs related to these leases amounted to \$0.4 million. As of September 30, 2008 and December 31, 2007, the Company also recorded a long-term liability for an estimated defined benefit obligation related to a deferred benefit plan for its Japan operations of \$0.7 million and \$0.5 million, respectively.

Comprehensive Income

Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources and includes all changes in equity during a period except those resulting from investments by owners and distributions to owners. The Company's comprehensive income consists of the Company's net income and foreign currency translation adjustments from its Japan, the Republic of Korea, and Taiwan operations.

Revenue Recognition

The Company's revenue is derived from sales of its products, sales of its starter and renewal packs, and shipping fees. Substantially all of the Company's product sales are made to independent associates at published wholesale prices and to members at discounted published retail prices. The Company recognizes revenue upon receipt of packs and products by its customers. The Company records revenue net of any sales taxes and records a reserve for expected sales returns based on its historical experience.

The Company defers certain components of its revenue. Total deferred revenue consists of revenue received from: (i) sales of packs and products shipped but not received by customers by period end; (ii) one-year magazine subscriptions; (iii) pack sales when the pack sale price exceeds the wholesale value of all individual components within the pack; and (iv) prepaid registration fees from customers planning to attend a future corporate-sponsored event. The Company recognizes revenue from shipped packs and products upon receipt by the customer. Corporate-sponsored event revenue is recognized when the event is held. All other deferred revenue is recognized ratably over one year. Components of deferred revenue were as follows:

	September 30, 2008	December 31, 2007
	<i>(in thousands)</i>	
Revenue related to undelivered packs and products	\$ 3,712	\$ 4,406
Revenue related to a one-year magazine subscription and pack sales exceeding the wholesale value of individual components sold	95	141
Revenue related to future corporate-sponsored events	35	222
Total deferred revenue	\$ 3,842	\$ 4,769

Shipping and Handling Costs

The Company records freight and shipping fees collected from its customers as revenue. The Company records inbound freight as cost of sales and records shipping and handling costs associated with shipping products to its customers as selling and administrative expenses. Total shipping and handling costs included in selling and administrative expenses were approximately \$3.4 million and \$4.7 million for the three months ended September 30, 2008 and 2007, respectively, and \$11.2 million and \$14.5 million for the nine months ended September 30, 2008 and 2007, respectively.

MANNATECH, INCORPORATED AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Reclassifications

Certain reclassifications have been made to the financial statements for prior periods to conform to the current period presentation.

NOTE 2 INVESTMENTS

The Company classifies its investments as available-for-sale. As of September 30, 2008, the Company had no investments. As of December 31, 2007, the Company's investments consisted of the following:

	December 31, 2007		
	Amortized cost	Net unrealized gain (loss)	Fair value
	<i>(in thousands)</i>		
City, state, or federal agency backed obligations	\$ 12,950	\$ —	\$ 12,950
Total investments, classified as long-term	\$ 12,950	\$ —	\$ 12,950

NOTE 3 INVENTORIES

Inventories consist of raw materials, work in progress and finished goods, including promotional materials. The Company provides an allowance for any slow-moving or obsolete inventories. Inventories at September 30, 2008 and December 31, 2007, consisted of the following:

	September 30, 2008	December 31, 2007
	<i>(in thousands)</i>	
Raw materials	\$ 11,935	\$ 8,846
Work in progress	98	134
Finished goods	17,748	15,252
Inventory reserves for obsolescence	(825)	(526)
	\$ 28,956	\$ 23,706

NOTE 4 INCOME TAXES

For the three-months ended September 30, 2008 and 2007, the Company's effective tax rate was 39.5% and 18.5%, respectively. The increase is due to a release of \$1.3 million of taxes payable in the third quarter of 2008 related to uncertain income tax positions due to the closure of tax years by expiration of the statute of limitations and a change in management's estimates in the third quarter of 2007 concerning anticipated annual operating results, including the mix of income between tax jurisdictions. For the nine months ended September 30, 2008 and 2007, the Company's effective tax rate was 35.0% and 33.1%, respectively.

NOTE 5 EARNINGS PER SHARE

Basic Earnings Per Share ("EPS") calculations are based on the weighted-average number of the Company's common shares outstanding during the period. Diluted EPS calculations are based on the weighted-average number of common shares and dilutive common share equivalents outstanding during each period.

The following data shows the amounts used in computing the Company's EPS and their effect on the Company's weighted-average number of common shares and dilutive common share equivalents for the three months ended September 30, 2008 and 2007. As of September 30, 2008, approximately 1.5 million shares of the Company's common stock subject to options were excluded from diluted EPS calculations using an average close price of \$5.20 per share, as their effect was antidilutive. As of September 30, 2007, approximately 0.4 million shares of the Company's common stock subject to options were excluded from its diluted EPS calculations using an average close price of \$9.29 per share, as their effect was antidilutive. The amounts below are rounded to the nearest thousands, except for per share amounts, for the three-months ended September 30:

MANNATECH, INCORPORATED AND SUBSIDIARIES

The following data shows the amounts used in computing the Company's EPS and their effect on the Company's weighted-average number of common shares and dilutive common share equivalents for the nine months ended September 30, 2008 and 2007. As of September 30, 2008, approximately 1.4 million shares of the Company's common stock subject to options were excluded from diluted EPS calculations using an average close price of \$6.11 per share, as their effect was antidilutive. As of September 30, 2007, approximately 0.3 million shares of the Company's common stock subject to options were excluded from its diluted EPS calculations using an average close price of \$13.06 per share, as their effect was antidilutive. The amounts below are rounded to the nearest thousands, except for per share amounts, for the nine-months ended September 30:

	2008			2007		
	Net Loss (numerator)	Shares (denominator)	Per Share amount	Net Income (numerator)	Shares (denominator)	Per share amount
Basic EPS:						
Net income (loss) available to common shareholders	\$ (13,248)	26,461	\$ (0.50)	\$ 10,162	26,437	\$ 0.38
Effect of dilutive securities:						
Stock options	—	—	—	—	401	—
Warrants	—	—	—	—	102	—
Diluted EPS:						
Net income (loss) available to common shareholders plus assumed conversions	<u>\$ (13,248)</u>	<u>26,461</u>	<u>\$ (0.50)</u>	<u>\$ 10,162</u>	<u>26,940</u>	<u>\$ 0.38</u>

NOTE 6 STOCK-BASED COMPENSATION

In February 2008, the Company's Board of Directors approved its 2008 Stock Incentive Plan ("the 2008 Plan"), which reserves, for issuance of stock options and restricted stock to its employees, board members, and consultants, up to 1,000,000 shares of its common stock plus any shares reserved under the Company's existing, unexpired stock plans for which options have not been issued, and any shares underlying outstanding options under the existing stock option plans that terminate without having been exercised in full. The 2008 Plan was approved by the Company's shareholders at its 2008 Annual Shareholders' Meeting held on June 18, 2008.

The Company generally grants stock options to its employees and board members at the fair market value of its common stock on the date of grant, with a term no greater than ten years. The Company has not granted any stock options to non-employees other than its non-employee board members. The stock options generally vest over two or three years.

MANNATECH, INCORPORATED AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Shareholders who own 10% or more of the Company's outstanding stock may be granted incentive stock options at an exercise price that may not be less than 110% of the fair market value of the Company's common stock on the date of grant, have a term no greater than five years, and vest over four years.

The Company records stock-based compensation expense related to granting stock options in selling and administrative expenses. For the three months ended September 30, 2008 and 2007, the Company granted 30,000 and 117,000 stock options, respectively. For the nine months ended September 30, 2008 and 2007, the Company granted 376,095 and 173,000 stock options, respectively. The fair values of stock options granted during the nine months ended September 30, 2008 ranged from \$1.85 to \$2.81 per share. During the nine months ended September 30, 2007 the fair value ranged from \$3.07 to \$7.76 per share. The Company recognized compensation expense as follows for the three and nine months ended September 30:

	Three months		Nine months	
	2008	2007	2008	2007
	<i>(in thousands)</i>		<i>(in thousands)</i>	
Total gross compensation expense	\$ 163	\$ 184	\$ 576	\$ 777
Total tax benefit associated with compensation expense	31	69	116	291
Total net compensation expense	<u>\$ 132</u>	<u>\$ 115</u>	<u>\$ 460</u>	<u>\$ 486</u>

As of September 30, 2008, the Company expects to record compensation expense in the future as follows (in thousands):

	Three months ending December 31, 2008	Year ending December 31,		
	2008	2009	2010	2011
Total gross unrecognized compensation expense	\$ 159	\$ 447	\$ 217	\$ 53
Tax benefit associated with unrecognized compensation expense	30	64	20	6
Total net unrecognized compensation expense	<u>\$ 129</u>	<u>\$ 383</u>	<u>\$ 197</u>	<u>\$ 47</u>

NOTE 7 LITIGATION

Securities Class Action Lawsuits

The Company has been sued in the following three securities class action lawsuits, each of which remained pending at September 30, 2008:

- First, on August 1, 2005, Mr. Jonathan Crowell filed a putative class action lawsuit against the Company and Mr. Samuel L. Caster, the Company's Chief Executive Officer on such date, on behalf of himself and all others who purchased or otherwise acquired our common stock between August 10, 2004 and May 9, 2005, inclusive, and who were damaged thereby.
- Second, on August 30, 2005, Mr. Richard McMurry filed a class action lawsuit against the Company, Mr. Caster, Mr. Terry L. Persinger, the Company's President and Chief Operating Officer on such date, and Mr. Stephen D. Fenstermacher, the Company's Chief Financial Officer.
- Third, on September 5, 2005, Mr. Michael Bruce Zeller filed a class action lawsuit against the Company, Mr. Caster, Mr. Persinger, and Mr. Fenstermacher.

These three lawsuits were initially filed and consolidated in the United States District of New Mexico. On January 29, 2007, the consolidated action was transferred to the United States District Court for the Northern District of Texas, Dallas Division, and on March 29, 2007, upon joint motion of the parties, was transferred to the docket of United

MANNATECH, INCORPORATED AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

States District Judge Ed Kinkeade. The Mannatech Group, consisting of Mr. Austin Chang, Ms. Naomi Kuperman (f/k/a Naomi S. Miller), Mr. John Ogden, and the Plumbers and Pipefitters Local 51 Pension Fund, has been appointed as lead plaintiffs, Coughlin Stoia Geller Rudman & Robbins LLP has been appointed as lead counsel, and Provost Umphrey LLP has been appointed local counsel for the putative class.

On July 12, 2007, Lead Plaintiff for the putative class filed a Second Amended Consolidated Class Action Complaint, which is substantively similar to the Amended Consolidated Class Action Complaint filed on March 22, 2007, and reported in the Company's previous filings, but expands the class period to July 5, 2007, and adds references to an enforcement lawsuit discussed below, which was filed by the Texas Attorney General against the Company on July 5, 2007, and the subsequent drop in the Company's stock price.

The Company filed a motion to dismiss the Second Amended Consolidated Class Action Complaint on August 27, 2007, arguing that the complaint did not meet the heightened pleading standards of the Private Securities Litigation Reform Act. Lead Plaintiffs filed their Opposition Brief on December 20, 2007, and the Company filed its Reply Brief in Support of its Motion on January 22, 2008.

Formal mediation was conducted before Judge Daniel Weinstein in California on November 20, 2007, involving the Company, the individual Defendants in all pending securities and derivative lawsuits, and counsel for plaintiffs in both the securities class action and the various derivative actions. Informal discussions between the parties and Judge Weinstein continued thereafter.

On April 3, 2008, Lead Plaintiffs filed a Third Amended Consolidated Class Action Complaint, which is substantively similar to the Second Amended Complaint, and which expands the class period to July 30, 2007.

On March 20, 2008, the Company announced that it had reached a final settlement of the securities class action with the Lead Plaintiffs. This settlement, which is subject to among other things preliminary and final Court approval, would resolve all the claims in the litigation. Without admitting any liability or wrongdoing of any kind, the Company agreed to authorize payment to the plaintiff class of \$11.25 million. The Company will pay \$2.27 million in cash as part of the settlement, and the remainder will be funded by the Company's insurer. The Company and Lead Plaintiffs' counsel are continuing to negotiate final settlement terms and documents.

Because the litigation is a class action, the settlement is subject to the preliminary approval of the Court as well as the Court's final approval after notice of the terms of the settlement has been provided to all class members. Timing of the approval process is dependent on the Court's calendar. The settlement class consists of the purchasers of the Company's stock during the period August 10, 2004 through July 30, 2007. Relevant purchasers of Company stock have a right to opt out of the class, class members may object to the terms of the settlement, and final consummation of settlement must await the entry of final judgment approving the settlement as fair to all class members.

Shareholder Derivative Lawsuits

The Company has also been sued in the following five purported derivative actions, which remained pending at September 30, 2008:

- First, on October 18, 2005, a shareholder derivative lawsuit was filed by Norma Middleton, Derivatively and on Behalf of Nominal Defendant, Mannatech, Incorporated, against Samuel L. Caster, Terry L. Persinger, Donald A. Buchholz, J. Stanley Fredrick, Gerald E. Gilbert, Alan D. Kennedy, Marlin Ray Robbins, and Patricia A. Wier, in the United States District Court for the Northern District of Texas, Dallas Division.
- Second, on January 11, 2006, a shareholder derivative action was filed by Kelly Schrimpf, Derivatively and on Behalf of Nominal Defendant, Mannatech, Incorporated, against Samuel L. Caster, Terry L. Persinger, Steven W. Lemme, and Stephen D. Fenstermacher in the 162nd District Court of Dallas County, Texas.
- Third, on January 13, 2006, a shareholder derivative action was filed by Frances Nystrom, Derivatively and on Behalf of Nominal Defendant, Mannatech, Incorporated, against Samuel L. Caster, Terry L. Persinger, Stephen D. Fenstermacher, John Stuart Axford, J. Stanley Fredrick, Gerald E. Gilbert, Alan D. Kennedy,

MANNATECH, INCORPORATED AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Marlin Ray Robbins, Patricia A. Wier, and Donald A. Buchholz in the United States District Court for the Northern District of Texas.

- Fourth, on April 25, 2007, a shareholder derivative action was filed by Duncan Gardner, Derivatively and on Behalf of Nominal Defendant, Mannatech, Incorporated, against Samuel L. Caster, Terry L. Persinger, Stephen D. Fenstermacher, J. Stanley Fredrick, Patricia A. Wier, Alan D. Kennedy, Gerald E. Gilbert, John Stuart Axford, Marlin Ray Robbins, and Larry A. Jobe in the 162nd District Court of Dallas County, Texas.
- Fifth, on July 23, 2007, a shareholder derivative action was filed by Frances Nystrom, Derivatively and On Behalf of Mannatech, Incorporated against Samuel L. Caster, Terry L. Persinger, Stephen D. Fenstermacher, Stephen Boyd, John Stuart Axford, J. Stanley Fredrick, Gerald E. Gilbert, Alan D. Kennedy, Marlin Ray Robbins, Patricia A. Wier, Larry A. Jobe, Bill H. McAnalley and Donald A. Buchholz in the 44th District Court of Dallas County, Texas.

Shortly after the commencement of the class action litigation, the first three of these actions were filed. These three lawsuits make allegations similar to the allegations of the shareholder class action litigation described above. The Schrimpf state court lawsuit remains stayed, and administratively closed subject to being reopened, pending the outcome of the Middleton federal lawsuit, the first-filed derivative action.

The Special Litigation Committee appointed by the Company's independent directors to review the allegations made by Middleton, Schrimpf, and Nystrom determined that it is in the best interests of the Company to dismiss those derivative lawsuits. The Company filed motions to dismiss the Middleton and Nystrom complaints on March 12, 2007, seeking dismissal under Federal Rule 12(b)(6) and Texas Business Corporation Act article 5.14. The plaintiffs were required to file their responses by July 31, 2007, but the parties agreed to extend the response date until 60 days after the Court rules on the plaintiffs' pending motions to compel, and motions to that effect were filed on July 31, 2007 by each plaintiff. The motions to set a revised briefing schedule, and the motions to compel, remain pending before the Court. The Court administratively closed the Middleton and Nystrom cases on April 18, 2007.

The Gardner action, which was filed on April 25, 2007, and the second Nystrom action, which was filed July 23, 2007, make allegations with regard to the funding of various research projects by the Company. Both lawsuits are consistent with demand letters sent on behalf of both shareholders, and noted in the Company's previous filings. The Special Litigation Committee appointed to review these allegations made by Gardner and Nystrom has determined that continuation of the Gardner and Nystrom lawsuits is not in the best interests of the Company. A statement consistent with that determination was filed with the Court in each lawsuit on March 14, 2008.

On June 13, 2008 the Company announced that it had reached a final settlement with all derivative plaintiffs. This settlement, which is subject to among other things preliminary and final Court approval, would resolve all the claims in each of the five pending derivative lawsuits. Without admitting any liability or wrongdoing of any kind, the Company has implemented, or agreed to implement certain corporate governance changes. It also agreed to cover the derivative plaintiffs' counsels' fees and expenses up to a sum of \$0.9 million. This settlement payment would be funded by the Company's insurer.

On September 22, 2008, a Stipulation of Settlement was entered into between Mannatech, the individual defendants, and the derivative plaintiffs (Middleton, Nystrom, Schrimpf, and Gardner). Motions seeking preliminary approval of the settlement, along with the Stipulation of Settlement, were filed in the United States District Court for the Northern District of Texas in the Middleton and Nystrom cases on September 22, 2008. The Court signed an order preliminarily approving the settlement on October 2, 2008, which was entered by the Court on October 6, 2008. The Court set a hearing for final approval on January 13, 2009, at 10:00 a.m. The Special Litigation Committee approved the settlement as in the best interests of Mannatech and the shareholders on October 10, 2008.

Because these are derivative lawsuits, purportedly brought in the best interests of the Company, the settlement is subject to the Court's final approval after notice of the terms of the settlement has been provided to all current shareholders, who include all shareholders holding Mannatech stock from August 10, 2004 through the present. Current shareholders will have the right to object to the settlement in writing to the court once the court has set a hearing for final

MANNATECH, INCORPORATED AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

approval. Additional information about the settlement is available in the Notice of Proposed Settlement of Shareholder Derivative Actions posted on the Company's website, www.mannatech.com.

In response to these actions, the Company continues to work with its experienced securities litigation counsel to vigorously defend itself and its officers and directors.

Texas Attorney General Lawsuit

The Company has also been sued in an enforcement action (referenced above) that was filed by the Texas Attorney General's Office on July 5, 2007. In that lawsuit, the State of Texas sued Mannatech, Incorporated, MannaRelief Ministries, Samuel L. Caster, the Fisher Institute, and Reginald McDaniel for alleged violations of the Texas Food, Drug, and Cosmetics Act and the Texas Deceptive Trade Practices Act. The allegations, consistent with the allegations made by the securities class action and derivative plaintiffs, primarily concern the marketing of the Company's products by its independent associates. The action seeks temporary and permanent injunctive relief, statutorily-prescribed civil monetary penalties, and the restoration of money or other property allegedly taken from persons by means of unlawful acts or practices, or alternatively, damages to compensate for such losses. The Company has continued discussions with representatives of the Attorney General's Office to attempt to resolve the concerns raised in the petition.

Potential SEC Enforcement Action

In a letter dated August 29, 2008, otherwise known as a "Wells Notice," the Staff of the Securities and Exchange Commission indicated to the Company that they intended to recommend that a civil injunctive action or cease and desist proceeding be commenced against Mannatech, as well as Stephen Fenstermacher, the Chief Financial Officer, and Larry Jobe, the Chairman of the Audit Committee of the Board of Directors. The Company's response to the Wells Notice, along with the responses of Mr. Fenstermacher and Mr. Jobe, were submitted to the Staff on October 3, 2008. In a letter dated October 31, 2008, the Staff informed the Company that it had completed its investigation of the Company and was not recommending enforcement action against the Company relating to the timing and completeness of the Company's October 2007 Form 8-K disclosure regarding its dismissal of Grant Thornton LLP as its independent registered public accountants. The Company was also informed that the Staff had terminated its investigation and was not recommending enforcement action against the Company's Chief Financial Officer and Chairman of the Audit Committee. The receipt of the Staff's notice was disclosed in a Form 8-K filed with the SEC on November 5, 2008.

Patent Infringement Litigation

Mannatech, Inc. v. Glycoproducts International, Inc. f/k/a Glycobiotics International, Inc.

The first of the Company's two patent infringement suits has successfully concluded with a jury trial and verdict in favor of the Company on all patent infringement claims, a permanent injunction against the continued manufacture, offer, and sale of the infringing glyconutritional product marketed under the brand name "Glycomannan" by Glycoproducts International, Inc. f/k/a Glycobiotics International, Inc. ("Glycobiotics"), and a finding that Glycobiotics committed trademark infringement against the Company's Ambrotose[®] trademark.

On March 16, 2006, the Company first filed a patent infringement lawsuit against Glycobiotics for infringement of its utility United States Patent No. 6,929,807 ("Compositions of Plant Carbohydrates as Dietary Supplements") in the United States District Court of the Northern District of Texas, Dallas Division. On February 9, 2007, the Company filed an Amended Complaint, which added patent infringement claims relating to its utility United States Patent No. 7,157,431 (also entitled "Compositions of Plant Carbohydrates as Dietary Supplements").

Glycobiotics answered the Company's Amended Complaint on February 20, 2007, asserting various affirmative defenses and three counterclaims alleging anticompetitive conduct under the Sherman Act in connection with the market for arabinogalactan. Following extensive discovery by the Company, and the disclosure of an expert refuting the allegations contained in the counterclaims, on August 6, 2007, Glycobiotics filed a stipulated motion to dismiss all of its counterclaims.

MANNATECH, INCORPORATED AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The one-week jury trial began on May 5, 2008, and the jury returned its verdict in favor of Mannatech on May 9, 2008. The Court then issued a memorandum opinion finding that Glycobiotics infringed both patents-at-issue and entered a broad permanent injunction against Glycobiotics. The injunction enjoins Glycobiotics and related parties from making, using, offering, selling, or otherwise distributing within the United States its infringing glyconutritional product Glycomannan or any substantially equivalent product that would infringe Mannatech's patents. The injunction also prohibits Glycobiotics from inducing others to infringe or assisting others in the infringement of Mannatech's patents. Glycobiotics must also take all Glycomannan in its control, and make every reasonable effort to re-acquire all Glycomannan from third parties, and deliver all such product to Mannatech for destruction. Finally, Glycobiotics is also prohibited from falsely advertising the nature, quality, characteristics, or qualities of Mannatech's glyconutritional products, including Ambrotose®.

Further, on October 16, 2008, the Court entered an order granting Mannatech \$0.8 million in reasonable attorney fees for its successful prosecution of its infringement claims. Mannatech will take every step to collect this amount from Glycobiotics and to ensure that Glycobiotics fully complies with the Court's final judgment, including collecting all Glycomannan and delivering it for destruction.

Mannatech, Inc. v. K.Y.C. Inc. d/b/a Techmedica Health Inc., Triton Nutra, Inc., Ionx Holdings, Inc., and John Does 1-30

The Company has also filed a patent infringement lawsuit in the United States District Court of the Northern District of Texas, Dallas Division, against K.Y.C. Inc. d/b/a Techmedica Health, Inc. ("Techmedica"), Triton Nutra, Inc., Ionx Holdings, Inc. ("Ionx"), and John Does 1-30 for alleged infringement of its utilities United States Patent Nos. 6,929,807, 7,157,431, 7,196,064, 7,199,104, and 7,202,220, all entitled "Compositions of Plant Carbohydrates as Dietary Supplements." The lawsuit seeks to stop the manufacture, offer, and sale of defendants' infringing glyconutritional products, including those marketed under the brand names "Nutralose" and "Activeive," as well as cessation of defendants' false advertising about the Company's products, including Ambrotose®.

On May 5, 2006, the Company first filed suit against Techmedica for alleged infringement of the '807 Patent. After Techmedica claimed that Triton Nutra manufactured its glyconutritional products, the Company amended its complaint on February 6, 2007 to add Triton Nutra as a defendant, as well as infringement claims related to the newly issued '431 Patent against both Techmedica and Triton Nutra. When Triton Nutra failed to answer the Amended Complaint, the Company requested, and the Clerk of Court entered, default against Triton Nutra on May 3, 2007.

On August 10, 2007, the Court stayed the case until after judgment issued in the Company's patent infringement suit against Glycoproducts International, Inc. f/k/a Glycobiotics International, Inc. ("Glycobiotics"). During the stay, on February 28, 2008, a federal grand jury indicted the presidents of Techmedica Health and Triton Nutra for violations of federal drug distribution laws, wire and mail fraud, and money laundering. The government is seeking any property derived from these activities, including over \$17 million in cash and various real estate and other property. After the indictment, Ionx purchased the remaining assets of Techmedica, including its glyconutritional products.

Following Mannatech's successful prosecution of its patent infringement suit against Glycobiotics, on July 30, 2008, the Court granted Mannatech's unopposed motion to lift the stay in this suit. Mannatech filed its Second Amended Complaint on September 18, 2008, adding Ionx and John Does 1-30 as defendants and infringement claims related to the '064, '104, and '220 Patents, and naming Activeive as an additional infringing glyconutritional product. On October 13, 2008, Techmedica and Ionx filed their identical answers and counterclaims, which seek to claim that Mannatech's patents-in-suit are invalid, unenforceable, or otherwise are not infringed by defendants.

Shortly after filing its Second Amended Complaint, Mannatech identified and disclosed to defendants seven additional infringing products: Candidol, Claritose, Lupazol, Respitrol, Rhumatol, Synaptol, and Viratrol. In its deposition on October 10, 2008, Techmedica testified that all nine identified products are comprised of the same encapsulated ingredients.

Mannatech will continue to vigorously prosecute this case. Given the precedence set by the Glycobiotics case, Mannatech continues to believe the likelihood of an unfavorable outcome is remote, and with no counterclaims seeking monetary damages, the Company's potential loss is limited to an award of the defendants' court costs.

MANNATECH, INCORPORATED AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Litigation in General

The Company also has several other pending claims incurred in the normal course of business. In the Company's opinion, such claims can be resolved without any material adverse effect on its consolidated financial position, results of operations, or cash flows.

The Company maintains certain liability insurance; however, certain costs of defending lawsuits, such as those below the insurance deductible amount, are not covered by or only partially covered by its insurance policies, or its insurance carriers could refuse to cover certain of these claims in whole or in part. The Company accrues costs to defend itself from litigation as they are incurred or as they become determinable.

The outcome of litigation may not be assured, and despite management's views of the merits of any litigation, or the reasonableness of our estimates and reserves, the Company's financial condition could nonetheless be materially affected by an adverse judgment. The Company believes it has adequately reserved for the contingencies arising from the above legal matters where an outcome was deemed to be probable and the loss amount could be reasonably estimated. While it is not possible to predict with certainty what liability or damages the Company might incur in connection with any of the above-described lawsuits, based on the advice of counsel and a management review of the existing facts and circumstances related to these lawsuits, the Company has accrued \$15.7 million as of September 30, 2008 for these matters, which is included in accrued expenses in its Consolidated Balance Sheet.

NOTE 8 RECENT ACCOUNTING PRONOUNCEMENTS

SFAS 157. In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* ("SFAS 157"). The provisions of SFAS 157 define fair value, establish a framework for measuring fair value in generally accepted accounting principles and expand disclosures about fair value measurements. The provisions of SFAS 157 are effective for fiscal years beginning after November 15, 2007, with the exception of nonfinancial assets and liabilities that are not currently recognized or disclosed at fair value in the financial statements on a recurring basis, for which SFAS 157 is effective for fiscal years beginning after November 15, 2008. The Company's adoption of SFAS 157 on January 1, 2008 did not have a significant effect on the Company's consolidated financial position, results of operations, or cash flows. See Note 9 ("Fair Value") for more information.

SFAS 141(R). In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), *Business Combinations*, ("SFAS 141(R)"). SFAS 141(R) replaces SFAS No. 141 and establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any non controlling interest in the acquiree, and the goodwill acquired in an acquisition. SFAS 141(R) also establishes disclosure requirements which will enable users to evaluate the nature and financial effects of the business combination. SFAS 141(R) is effective for acquisitions in fiscal years beginning after December 15, 2008. The Company will apply SFAS 141(R) prospectively to business combinations for which the acquisition date is on or after January 1, 2009.

From time to time, new accounting pronouncements are issued by the FASB or other standard setting bodies, which the Company evaluates and adopts as of the specified effective date. Unless otherwise discussed, the Company believes the impact of recently issued standards and pronouncements that are not yet effective will not have a material impact on its consolidated financial statements upon adoption.

NOTE 9 FAIR VALUE

The Company utilizes fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures.

SFAS 157 establishes a fair value hierarchy that requires the use of observable market data, when available, and prioritizes the inputs to valuation techniques used to measure fair value in the following categories:

- Level 1—Quoted unadjusted prices for identical instruments in active markets.

MANNATECH, INCORPORATED AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

- Level 2—Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations in which all observable inputs and significant value drivers are observable in active markets.
- Level 3—Model derived valuations in which one or more significant inputs or significant value drivers are unobservable, including assumptions developed by the Company.

The investment instruments held by the Company are money market funds and interest bearing deposits for which quoted market prices are readily available. The Company considers these highly liquid investments to be cash equivalents. These investments are classified within Level 1 of the fair value hierarchy because they are valued based on quoted market prices in active markets. The table below presents the recorded amount of financial assets measured at fair value on a recurring basis as of September 30, 2008. The Company does not have any material financial liabilities that were required to be measured at fair value on a recurring basis at September 30, 2008.

	Level 1	Level 2	Level 3	Total
Assets				
Money Market Funds – Fidelity, US	\$ 11,558	\$ —	\$ —	\$ 11,558

NOTE 10 SEGMENT INFORMATION

The Company conducts its business within one industry segment. No single independent associate has ever accounted for more than 10% of the Company’s consolidated net sales.

The Company aggregates all of its operating units because it operates as a single reportable segment as a seller of nutritional supplements and skin care products through its network-marketing distribution channels operating in eleven countries. In each country, the Company markets its products and pays commissions and incentives in similar market environments. The Company’s management reviews its financial information by country and focuses its internal reporting and analysis of revenues by packs and product sales. The Company sells its products through its independent associates and distributes its products through similar distribution channels in each country. Each of the Company’s operations sells similar packs and products and possesses similar economic characteristics, such as selling prices and gross margins.

The Company operates in seven physical locations and sells product in eleven different countries around the world. The seven physical locations are the United States, Switzerland, Australia, the United Kingdom, Japan, the Republic of Korea (South Korea), and Taiwan. Each of the Company’s physical locations services different geographic areas. The United States location processes orders for the United States, Canada, and South Africa. The Australian location processes orders for both Australia and New Zealand. The Company’s United Kingdom location processes orders for the United Kingdom, Denmark and Germany. The Company’s Switzerland office manages certain day to day business needs of non-North American markets and coordinates the Company’s continued global expansion.

MANNATECH, INCORPORATED AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Consolidated net sales shipped to customers in these locations, along with pack and product information for the three and nine months ended September 30, 2008 and 2007 are as follows:

	Three months				Nine months			
	2008		2007		2008		2007	
	<i>(in millions, except percentages)</i>							
United States	\$ 40.0	51.3 %	\$ 55.4	57.2 %	\$ 137.3	53.6 %	\$ 191.8	61.2 %

Consolidated total net sales	\$ 78.0	\$ 96.9	\$ 256.2	\$ 313.5

* In April 2007, the Company began operating its new Enterprise Resource Planning (“ERP”) System, which allowed it to separately quantify deferred revenue associated with sales of packs and products that were shipped but not yet received by customers. As a result, in April 2007, the Company began recording deferred revenue related to packs with pack sales and deferred revenue associated with products with product sales. For the three months ended March 31, 2007, other sales included \$1.9 million related to the change in deferred revenue for packs and products shipped but not yet received by customers, rather than in the applicable pack or product sales category.

Long-lived assets, which include property and equipment and construction in progress for the Company and its subsidiaries are as follows:

	September 30, 2008	December 31, 2007
	<i>(in millions)</i>	
Australia	\$ 0.3	\$ 0.3
Japan	0.2	0.2

Taiwan	0.1	0.1
United Kingdom	0.2	0.3
United States	37.2	42.5
Total long-lived assets	\$ 39.0	\$ 44.4

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to assist in the understanding of our consolidated financial position and results of operations for the three and nine months ended September 30, 2008 as compared to the same period in 2007. Unless stated otherwise, all financial information presented below, throughout this report, and in the consolidated financial statements and related notes includes Mannatech, Incorporated and all of our subsidiaries on a consolidated basis.

Company Overview

We develop innovative, high-quality, proprietary nutritional supplements, topical and skin care products, and weight-management products that are sold through a global network-marketing system operating in the United States, Canada, Australia, the United Kingdom, Japan, New Zealand, the Republic of Korea, Taiwan, Denmark, Germany and South Africa. We will begin selling product in Singapore in the fourth quarter of 2008. The United States location processes orders for the United States, Canada, and South Africa. The Australian location process orders for both Australia and New Zealand and will process orders for Singapore beginning in the fourth quarter of 2008. The United Kingdom location processes orders for the United Kingdom, Denmark and Germany. The Switzerland office was created to manage certain day to day business needs of non-North American markets and coordinates our continued global expansion.

We operate as a single business segment and primarily sell our products through a network of approximately 540,000 independent associates and members who have purchased our products or packs within the last 12 months, which we refer to as current independent associates and members. We operate as a seller of nutritional supplements through our network marketing distribution channels operating in eleven different countries. We review and analyze our net sales by geographical location and further analyze our net sales by packs and by products. Each of our subsidiaries sells the same types of products and possesses similar economic characteristics, such as selling prices and gross margins.

Net sales decreased by 19.5% and 18.3%, respectively, for the three and nine months ended September 30, 2008, as compared to the same periods in 2007. Our gross profit as a percentage of sales for the three and nine months ended September 30, 2008, was 44.2% and 40.2%, respectively.

Because we sell our products through network-marketing distribution channels, the opportunities and challenges that affect us most are: recruitment and retention of independent associates and members, entry into new markets and growth of existing markets, new product introduction, and investment in our infrastructure.

During 2007 and 2008, we were subject to certain negative publicity resulting from heightened litigation activities. See Note 7 ("Litigation") to the consolidated financial statements included in this report for a detailed discussion of such legal proceedings.

In order to reward our independent associates for their business building successes, we modified our global associate career and compensation plan by increasing opportunities for certain qualified independent associates to earn additional bonuses, including matching bonuses for enrollers. These changes became effective for all countries except Taiwan and Korea in the business period beginning March 22, 2008. The changes became effective for Taiwan in the business period beginning May 17, 2008 and for Korea in the business period beginning June 14, 2008. We reduced the payout on global automatic orders in order to fund the new bonus pools

In March 2008, we launched a new global sales platform in the United States designed to assist our independent associates in their business-building efforts. Also in March 2008, we launched Bounce-Back™, an all natural product that supports recovery after physical activity or over-exertion, in the United States.

In July 2008, we eliminated approximately 60 positions, or roughly 15% of our U.S. workforce in an effort to reduce expenses to reposition us for improved profitability. In connection with our reduction in workforce, we accrued approximately \$1.0 million of severance payments and outplacement fees for the period ended June 30, 2008, substantially all of which was paid at September 30, 2008.

In September 2008, the purity of Mannatech's PLUS™ and Ambrotose AO® glyconutritional supplements has been certified to show they meet their label claims for ingredients and purity by NSF International, an independent, accredited testing organization. In June, Mannatech received certifications from NSF for its Ambrotose® and Advanced Ambrotose™ products. The products were certified according to the NSF/ANSI 173 Dietary Supplement Standard—the only American national standard for dietary supplements.

In September 2008, we launched OsoLean™, a new fat-loss product. OsoLean™ whey protein supplement is an all-natural powder product that mixes with a variety of food and beverages allowing consumers to easily add it to any weight management and fitness program.

Results of Operations

The table below summarizes our consolidated operating results in dollars and as a percentage of net sales for the three months ended September 30, 2008 and 2007.

	2008		2007		Change from 2008 to 2007	
	Total dollars	% of net sales	Total dollars	% of net sales	Dollar	Percentage

South Africa	3.4	1.3 %	—	—
Totals	\$ 256.2	100 %	\$ 313.5	100 %

Net Sales

For the three and nine months ended September 30, 2008, our operations outside of the United States accounted for approximately 48.7% and 46.4%, respectively, of our consolidated net sales, whereas in the same period in 2007, our operations outside of the United States accounted for approximately 42.8% and 38.8%, respectively, of our consolidated net sales.

Consolidated net sales for the three months ended September 30, 2008 decreased by \$18.9 million, or 19.5%, as compared to the same period in 2007. The opening of business in South Africa in the second quarter of 2008 increased sales by \$2.0 million. This increase was offset by declines in international and domestic sales, caused by independent associate and member concerns about certain negative publicity, as well as economic conditions.

Consolidated net sales for the nine months ended September 30, 2008 decreased by \$57.2 million, or 18.3%, as compared to the same period in 2007. The opening of business in South Africa in the second quarter of 2008 increased sales by \$3.4 million. This increase was offset by declines in other international and domestic sales, caused by independent associate and member concerns related to certain negative publicity, as well as economic conditions.

Overall, the appreciation of foreign currencies had approximately a \$0.1 million favorable impact on net sales for the three months ended September 30, 2008 and a \$4.3 million favorable impact on net sales for the nine months ended September 30, 2008.

Our total sales and sales mix may be influenced by any of the following:

- changes in our sales prices;
- changes in consumer demand;
- changes in competitors' products;
- changes in economic conditions;
- changes in regulations;
- announcements of new scientific studies and breakthroughs;
- introduction of new products;
- discontinuation of existing products;
- adverse publicity; and
- changes in our commissions and incentives programs.

Our sales mix for the three and nine months ended September 30, was as follows (in millions, except percentages):

	Three Months				Nine Months			
	2008	2007	Change		2008	2007*	Change	
			Dollar	Percentage			Dollar	Percentage
Product sales	\$ 61.1	\$ 77.1	\$ (16.0)	(20.8)%	\$ 199.7	\$ 237.5	\$ (37.8)	(15.9)%
Pack sales	13.2	16.4	(3.2)	(19.5)%	45.5	61.9	(16.4)	(26.5)%
Other, including freight	3.7	3.4	0.3	8.8%	11.0	14.1	(3.1)	(22.0)%
Total net sales	\$ 78.0	\$ 96.9	\$ (18.9)	(19.5)%	\$ 256.2	\$ 313.5	\$ (57.3)	(18.3)%

* In April 2007, we began operating our new ERP System, which allowed us to separately quantify deferred revenue associated with sales of packs and products that were shipped but not yet received by customers. As a result, in April 2007, we began recording deferred revenue related to packs with pack sales and deferred revenue associated with products with product sales. For the three months ended March 31, 2007, other sales included \$1.9 million related to the change in deferred revenue for packs and products shipped but not yet received by customers, rather than in the applicable pack or product sales category.

The decrease in our consolidated net sales consisted of a decrease in the volume of products and packs sold and a change in the mix of packs and products sold. Pack sales generally correlate to the number of new independent associates and members who purchase starter packs and with the number of continuing independent associates who purchase upgrade or renewal packs. However, there is not a direct correlation between the number of new and continuing independent associates and members purchasing packs and the amount of product sales because independent associates and members may consume different products at different consumption levels.

Product Sales

Product sales for the three months ended September 30, 2008 decreased \$16.0 million, or 20.8%, as compared to the same period in 2007. The decrease of \$16.0 million was comprised of a decrease in existing product sales of \$20.3 million, which was partially offset by a \$4.3 million increase attributable to the introduction of new products. Product sales for the nine months ended September 30, 2008 decreased \$37.8 million, or 15.9%, as compared to the same period in 2007. The decrease of \$37.8 million was comprised of a decrease in existing product sales of \$47.7 million, which was partially offset by a \$9.9 million increase attributable to the introduction of new products. We believe existing product sales for the three and nine months ended September 30, 2008 decreased primarily due to independent associate and member concerns over certain negative publicity resulting from ongoing litigation activities.

We have introduced the following new products in the indicated markets since September 30, 2007:

- Optimal Skin Care in North America and certain international markets;
- A new sales kit in the United States;
- PhytoMatrix™ in Japan, Taiwan, United Kingdom, Denmark, Germany, and South Korea;
- Bounce Back™ in North America, Australia, and New Zealand;
- OsoLean™ in North America; and
- Various Optimal Health and Optimal Weight and Fitness products in South Africa.

Pack Sales

We sell packs to independent associates, which entitles them to purchase products at wholesale prices. Members may also purchase packs, which entitles them to purchase our products at a discount from published retail prices. Depending on the type of pack purchased, a pack may include certain products, promotional and educational information, and policies and procedures. Independent associates may also purchase upgrade packs, entitling the independent associate to additional promotional materials and additional commissions and incentives. Our continuing associates also purchase annual renewal packs.

The number of new and continuing independent associates and members who purchased our packs during the twelve months ended September 30, 2008 and 2007 were as follows:

	2008		2007	
New	140,000	25.9 %	196,000	34.1 %
Continuing	400,000	74.1 %	379,000	65.9 %
Total	540,000	100 %	575,000	100 %

For the twelve months ended September 30, 2008, the overall number of independent associates and members decreased by 35,000 or 6.1%, as compared to September 30, 2007. We experienced a decrease in the number of upgrade and renewal packs purchased by our continuing independent associates and a decrease in the number of new independent associates and members purchasing starter packs as compared to the same period in 2007. We believe the decrease in upgrade and renewal packs and starter packs purchased may relate to independent associate and member concerns over certain negative publicity resulting from ongoing litigation activities. We took the following actions to help increase the number of independent associates and members:

- registered our most popular products with the appropriate regulatory agencies in all countries of operations;
- focused on new product development;
- explored new international markets;
- launched a new, aggressive marketing and educational campaign;
- instituted a 100% satisfaction guarantee program;
- strengthened compliance initiatives;
- initiated additional incentives;
- explored new advertising and educational tools to broaden name recognition;
- implemented changes to our global associate career and compensation plan; and
- introduced new products.

Pack sales associated with the number of independent associates and members can be further analyzed as follows, for the three months and nine months ended September 30:

	Three months			
	2008	2007	Change	
			Dollar	Percentage
	<i>(in millions, except percentages)</i>			
New	\$ 6.8	\$ 7.9	\$ (1.1)	(13.9)%
Continuing	6.4	8.5	(2.1)	(24.7)%
Total	\$ 13.2	\$ 16.4	\$ (3.2)	(19.5)%

	Nine months			
	2008	2007	Change	
			Dollar	Percentage
	<i>(in millions, except percentages)</i>			
New	\$ 21.4	\$ 32.2	\$ (10.8)	(33.5)%
Continuing	24.1	29.7	(5.6)	(18.9)%
Total	\$ 45.5	\$ 61.9	\$ (16.4)	(26.5)%

Total pack sales for the three and nine months ended September 30, 2008 decreased by \$3.2 million, or 19.5% and \$16.4 million, or 26.5%, respectively, compared to the same periods in 2007. The decrease in total pack sales was composed of decreases of \$1.1 million and \$10.8 million, respectively, related to a decrease in the number of new independent associates and members purchasing starter packs and decreases of \$2.1 million and \$5.6 million, respectively, related to a decrease in the number of renewal and upgrade packs purchased by our continuing independent associates.

Other Sales

Other sales consisted of the following:

- sales of promotional materials;
- training and event registration fees;
- monthly fees collected for Success Tracker™, a customized electronic business-building and educational materials database for our independent associates that helps stimulate product sales and provide business management;
- freight revenue charged to our independent associates and members;
- a reserve for estimated sales refunds and returns; and
- for the three-months ended March 31, 2007, deferred revenue related to the timing of recognition of revenue for pack and product shipments.

Other sales for the three months ended September 30, 2008 increased by \$0.3 million to \$3.7 million as compared to \$3.4 million for the same period in 2007. The increase in other sales primarily consisted of a decrease in sales refunds and returns of \$0.5 million, which correlates with the decrease in product and pack sales, and an increase of \$0.4 million in income related to a transactional tax holiday for certain sales occurring in 2008 and 2009, which was partially offset by a decrease of \$0.6 million in freight fees. Despite the increase in freight charged per shipment, which was effective October 1, 2007, freight fees decreased due to the decrease in product and pack shipments.

Other sales for the nine months ended September 30, 2008 decreased by \$3.1 million to \$11.0 million as compared to \$14.1 million for the same period in 2007. The decrease in other sales primarily consisted of a decrease of \$1.7 million in freight fees, due to the decrease in product and pack shipments which more than offset the increase in freight charged per shipment, and the classification of deferred revenue of \$1.9 million to pack and product sales, which was partially offset by an increase in income related to a transactional tax holiday for certain sales occurring in 2008 and 2009.

Gross Profit

Gross profit for the three months ended September 30, 2008 decreased by \$4.3 million, or 11.1%, to \$34.5 million as compared to \$38.8 million for the same period in 2007. For the three months ended September 30, 2008, gross profit as a percentage of net sales increased to 44.2% as compared to 40.1% for the same period in 2007. The decrease in gross profit was primarily due to a 19.5% decrease in net sales, which was partially offset by a 25.3% decrease in cost of sales and a 25.1% decrease in commissions and incentives.

Gross profit for the nine months ended September 30, 2008 decreased by \$22.5 million, or 17.9%, to \$103.0 million as compared to \$125.4 million for the same period in 2007. For the nine months ended September 30, 2008, gross profit as a percentage of net sales increased to 40.2% as compared to 40.0% for the same period in 2007. The decrease in gross profit was primarily due to an 18.3% decrease in net sales, which was partially offset by an 18.8% decrease in cost of sales and an 18.4% decrease in commissions and incentives.

Cost of sales during the three months ended September 30, 2008 decreased by 25.3%, or \$3.8 million, to \$11.1 million as compared to \$14.9 million for the same period in 2007. The decrease in cost of sales was primarily due to a decrease in product costs of \$1.8 million, which was consistent with the decline in sales for the quarter, and a \$1.6 million decrease, primarily related to skin care inventory write-offs and complimentary products shipped in 2007 in connection with the recall of our North American Optimal Restoring Serum. Cost of sales as a percentage of net sales for the three months ended September 30, 2008 decreased to 14.2% as compared to 15.3% for the same period in 2007.

Cost of sales during the nine months ended September 30, 2008 decreased by 18.8%, or \$8.6 million, to \$37.0 million as compared to \$45.6 million for the same period in 2007. The decrease in cost of sales was primarily due to a decrease in product costs of \$7.1 million, which was consistent with the decline in sales for the period, and a \$1.3 million decrease, primarily related to skin care inventory write-offs and complimentary products shipped in 2007 in connection with the recall of our North American Optimal Restoring Serum. Cost of sales as a percentage of net sales for the nine months ended September 30, 2008 decreased slightly to 14.4% as compared to 14.5% for the same period in 2007.

Commission costs for the three months ended September 30, 2008 decreased by 23.0%, or \$9.4 million, to \$31.5 million as compared to \$40.9 million for the same period in 2007. The decrease in commissions primarily related to the decrease in commissionable net sales. For the three months ended September 30, 2008, commissions as a percentage of net sales decreased to 40.4% from 42.2% for the same period of 2007, which is due to the change in the sales mix between packs and products and between countries.

Commission costs for the nine months ended September 30, 2008 decreased by 17.7%, or \$23.8 million, to \$110.5 million as compared to \$134.3 million for the same period in 2007. The decrease in commissions primarily related to the decrease in commissionable net sales. For the nine months ended September 30, 2008, commissions as a percentage of net sales increased to 43.1% from 42.9% for the same period of 2007, which is due to the change in the sales mix between packs and products and between countries.

Incentive costs for the three months ended September 30, 2008 decreased by 60.9%, or \$1.4 million, to \$0.9 million as compared to \$2.3 million for the same period in 2007. For the three months ended September 30, 2008, the costs of incentives, as a percentage of net sales, decreased to 1.2% from 2.4%, for the same period of 2007, primarily due to reduced sales bonuses in Korea due to reduced sales for the period.

Incentive costs for the nine months ended September 30, 2008 decreased by 29.3%, or \$2.4 million, to \$5.8 million as compared to \$8.2 million for the same period in 2007. For the nine months ended September 30, 2008, the costs of incentives, as a percentage of net sales, decreased to 2.3% from 2.6% for the same period in 2007, primarily due to reduced sales bonuses in Korea due to reduced sales for the period.

Selling and Administrative Expenses

Selling and administrative expenses include a combination of both fixed and variable expenses. These expenses consist of compensation and benefits for employees, temporary and contract labor, outbound shipping and freight, and marketing-related expenses, such as monthly magazine development costs and costs related to hosting our corporate-sponsored events.

Selling and administrative expenses for the three months ended September 30, 2008 decreased by \$2.6 million, or 12.1%, to \$18.8 million as compared to \$21.3 million for the same period in 2007. As a percentage of net sales, selling and administrative expenses increased to 24.0% from 22.0% for the same period in 2007. The decrease in selling and administrative expenses consisted of a decrease in freight costs of \$1.3 million, due to the decrease in product and pack

shipments, and a decrease of \$1.1 million in total compensation and compensation-related costs. The decrease in compensation and compensation-related costs is due to a decrease in payroll and payroll-related costs of \$0.2 million, and a decrease in temporary and contract labor of \$0.9 million, both of which were due to decreased headcount due to the staff reduction in second quarter 2008, as well as reduced usage of contract labor.

Selling and administrative expenses for the nine months ended September 30, 2008 remained consistent with the same period of 2007 at \$63.3 million. As a percentage of net sales, selling and administrative expenses increased to 24.7% from 20.2% for the same period in 2007. Compensation and compensation-related costs increased by \$4.2 million, which was offset by a decrease in freight costs of \$3.3 million, due to the decrease in product and pack shipments, and a decrease in marketing costs of \$0.9 million, primarily related to a change in distribution of an internal publication to associates. The increase in compensation and compensation-related costs of \$4.2 million is due to an increase in payroll and payroll-related costs of \$6.0 million, offset by a decrease in temporary and contract labor of \$1.6 million and a decrease in stock option expense of \$0.2 million, all of which were due to the conversion of a number of temporary and contract labor positions to permanent employees, normal merit increases, decreased capitalization of salaries for the development of our new ERP system, and costs related to a staff reduction.

Depreciation and Amortization Expense

Depreciation and amortization expense for the three months ended September 30, 2008 increased by 7.4%, or \$0.2 million, to \$3.2 million as compared to \$3.0 million for the same period in 2007. As a percentage of net sales, depreciation and amortization expense increased to 4.1% from 3.1% for the same period in 2007.

Depreciation and amortization expense for the nine months ended September 30, 2008 increased by 26.7%, or \$1.9 million, to \$9.2 million as compared to \$7.3 million for the same period in 2007. As a percentage of net sales, depreciation and amortization expense increased to 3.6% from 2.3% for the same period in 2007. The increase in depreciation and amortization expense primarily related to placing into service our new ERP system, which cost an aggregate of approximately \$34 million and is being amortized over 5 years.

Other Operating Costs

Other operating costs generally include travel, accounting/legal/consulting fees, royalties, credit card processing fees, banking fees, off-site storage fees, utilities, and other miscellaneous operating expenses.

Other operating costs for the three months ended September 30, 2008 decreased by \$1.3 million, or 10.2%, to \$11.5 million as compared to \$12.8 million for the same period in 2007. For the three months ended September 30, 2008, other operating costs as a percentage of net sales increased to 14.7% from 13.2% for the same period in 2007. The decrease in other operating costs was primarily due to a decrease in travel costs of \$0.5 million and a decrease in credit card fees and royalties of \$0.9 million related to sales declines.

Other operating costs for the nine months ended September 30, 2008 increased by \$8.1 million, or 19.5%, to \$49.5 million as compared to \$41.4 million for the same period in 2007. For the nine months ended September 30, 2008, other operating costs as a percentage of net sales increased to 19.4% from 13.2% for the same period in 2007. The increase in other operating costs was primarily due to a \$12.7 million increase in legal, accounting, and consulting costs related to ongoing legal matters and global expansion activities and the write-off of capitalized consulting fees related to a sales software project, partially offset by a decrease in travel costs of \$1.4 million, a decrease in credit card fees and royalties of \$1.8 million related to sales declines, and a \$1.3 million decrease in various expenses due to changes in contracts and our new ERP system.

Other Income (Expense), Net

Other income (expense), net primarily consists of foreign currency transaction gains and losses related to translating our foreign subsidiaries' assets, liabilities, revenues, and expenses to the United States dollar and translating the United States parent's monetary accounts held in foreign locations using current and weighted-average currency exchange rates. Net foreign currency transaction gains and losses are the result of the United States dollar fluctuating in value against foreign currencies.

Other expense, net for the three and nine months ended September 30, 2008 was \$2.0 million and \$2.5 million, respectively, as compared to \$0.2 million and \$0.1 million for the same periods in 2007, respectively.

(Provision) Benefit for Income Taxes

(Provision) benefit for income taxes includes current and deferred income taxes for both our domestic and foreign operations. Our statutory income tax rates by jurisdiction are as follows, for the three and nine months ended September 30:

Country	2008	2007
United States	37.5 %	37.5 %
Australia	30 %	30 %
United Kingdom	28 %	30 %
Japan	42 %	42 %
Republic of Korea	27.5 %	27.5 %
Taiwan	25 %	25 %
Switzerland*	16.2 %	—

* The Company opened its Switzerland office in January 2008.

Income from our international operations is subject to taxation in the countries in which we operate. Although we may receive foreign income tax credits that would reduce the total amount of income taxes owed in the United States, we may not be able to fully utilize our foreign income tax credits in the United States.

We use the recognition and measurement provisions of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes", or SFAS 109, to account for income taxes. The provisions of SFAS 109 require a company to record a valuation allowance when the "more likely than not" criterion for realizing net deferred tax assets cannot be met. Furthermore, the weight given to the potential effect of such evidence should be commensurate with the extent to which it can be objectively verified. As a result, we review the operating results, as well as all of the positive and negative evidence related to realization of such deferred tax assets to evaluate the need for a valuation allowance in each tax jurisdiction. As of September 30, 2008 and December 31, 2007, we maintained our valuation allowance for deferred tax assets in Taiwan totaling \$0.7 million as we believe the "more likely than not" criterion for recognition and realization purposes, as defined in SFAS 109, cannot be met.

The dollar amount of the (provision) benefit for income taxes is directly impacted by our profitability and changes in taxable income among countries. For the three months ended September 30, 2008, our effective income tax rate increased to 39.5% from 18.5% for the same period in 2007. The increase is due to a release of \$1.3 million of taxes payable in the third quarter of 2008 related to uncertain income tax positions due to the closure of tax years by expiration of the statute of limitations and a change in management's estimates in the third quarter of 2007 concerning anticipated annual operating results, including the mix of income between tax jurisdictions. For the nine months ended September 30, 2008, our effective income tax rate increased to 35.0% from 33.1% for the same period in 2007.

Liquidity and Capital Resources

Our principal use of cash is to pay for operating expenses, including commissions and incentives, capital assets, inventory purchases, funding international expansion, and payment of quarterly cash dividends. We generally fund our business objectives, operations, and expansion of our operations through net cash flows from operations rather than incurring long-term debt. We plan to continue to fund our needs through net cash flows from operations. As of September 30, 2008, we had \$35.0 million in cash and cash equivalents which can be used along with our normal cash flows from operations to fund any unanticipated shortfalls in future cash flows.

Cash and Cash Equivalents and Investments

As of September 30, 2008, our cash and cash equivalents decreased by 25.7%, or \$12.1 million, to \$35.0 million from \$47.1 million at December 31, 2007. The decrease in cash and cash equivalents is related to the current period loss, adjusted for noncash items, the acquisition of additional inventory, purchases of property and equipment, increases of payables and accrued expenses due to the timing of payments, and the payment of dividends, which was offset by conversion of our long-term investments to cash and cash equivalents in 2008 and a decrease in prepaid expenses. As of September 30, 2008, our investments have all been converted to cash equivalents as compared to an investment balance of \$13.0 million as of December 31, 2007.

Working Capital

Working capital represents total current assets less total current liabilities. At September 30, 2008 our working capital increased by \$3.4 million, or 13.3%, to \$29.0 million from \$25.6 million at December 31, 2007. The increase in working capital primarily relates to changes in short-term tax accounts, an increase in inventory, and a decrease in deferred revenues, partially offset by a decrease in cash and prepaid expenses and an increase in operating liabilities.

Net Cash Flows

Our net consolidated cash flows consisted of the following, for the nine months ended September 30:

	<u>2008</u>	<u>2007</u>
Provided by (used in):	<i>(in millions)</i>	
Operating activities	\$ (18.0)	\$ 7.0
Investing activities	\$ 10.1	\$ (13.6)
Financing activities	\$ (5.4)	\$ (4.6)

Operating Activities

Cash used in operating activities was \$18.0 million for the nine months ended September 30, 2008 compared to cash provided by operating activities of \$7.0 million for the same period in 2007. The decrease in cash flows was primarily due to the net loss for the period as a result of a decrease in sales.

Investing Activities

For the nine months ended September 30, 2008, our net investing activities provided cash of \$10.1 million compared to using cash of \$13.6 million for the same period in 2007. During the first nine months of 2008, we sold investments for net proceeds of \$13.0 million. For the first nine months of 2008, we purchased \$4.5 million in capital assets compared to purchasing \$10.9 million in capital assets for the same period in 2007. In addition, in 2008, we reduced restricted cash by \$1.6 million related to operations in the Republic of Korea as compared to increasing restricted cash by \$2.7 million in 2007.

Financing Activities

For each of the nine months ended September 30, 2008 and 2007, we used cash of \$5.3 million and \$4.8 million, respectively, to fund payment of cash dividends to our shareholders.

Our quarterly cash dividend was \$0.02 per share. The dividend is a reduction of \$0.07 per share from the dividend paid in the second quarter of 2008. During 2008 and 2007, we have declared and paid the following dividends:

Declared date	Date of record	Date paid	Total amount	Paid per common share
March 13, 2007	March 28, 2007	April 13, 2007	\$2.4 million	\$0.09
June 14, 2007	June 29, 2007	July 20, 2007	\$2.4 million	\$0.09
September 27, 2007	October 11, 2007	October 25, 2007	\$2.4 million	\$0.09
November 6, 2007	November 30, 2007	December 21, 2007	\$2.4 million	\$0.09
February 22, 2008	March 7, 2008	March 28, 2008	\$2.4 million	\$0.09
April 30, 2008	June 5, 2008	June 26, 2008	\$2.4 million	\$0.09
August 26, 2008	September 10, 2008	September 29, 2008	\$0.5 million	\$0.02

General Liquidity and Cash Flows

We expect that our net operating cash flows for the remainder of 2008, plus our current cash and cash equivalents, will be adequate to fund our normal expected future business operations, our estimated payments of cash dividends, repurchase of our common stock in the open market, and international expansion for the next 12 to 24 months. However, if our existing capital resources or cash flows become insufficient to meet current business plans, projections, and existing capital requirements, we would be required to modify our payment of future dividends and raise additional funds, which may not be available on favorable terms, if at all.

Off-Balance Sheet Arrangements

We do not have any special-purpose entity arrangements, nor do we have any off-balance sheet arrangements. However, we do maintain certain future commitments and obligations associated with various agreements and contracts. As of September 30, 2008, our future maturities of existing commitments and obligations were as follows:

	Remaining						
	2008	2009	2010	2011	2012	Thereafter	Total
Purchase obligations	\$ 3,463	\$ 9,090	\$ 7,715	\$4,956	\$2,535	\$ 3,150	\$30,909
Operating leases	733	2,059	1,539	1,128	1,088	3,517	10,064
Employment agreements	815	2,863	566	22	—	—	4,266
Post-employment royalty	75	492	492	492	492	1,354	3,397
Capital lease obligations	32	126	121	30	—	—	309
Total commitments and obligations	\$ 5,118	\$14,630	\$10,433	\$6,628	\$4,115	\$ 8,021	\$48,945

We have no present commitments or agreements with respect to acquisitions or purchases of any manufacturing facilities; however, management from time to time explores the possibility of the benefits of purchasing a raw material manufacturing facility to help control costs of our raw materials and help ensure quality control standards. We have maintained purchase commitments with certain of our raw material suppliers to purchase minimum quantities to ensure exclusivity of our raw materials and proprietorship of our products. Currently, we have six supply agreements that require minimum purchase commitments. We expect to meet our minimum monthly-required purchase commitments. We also maintain other supply agreements and manufacturing agreements to protect our products, regulate product costs, and help ensure quality control standards. These agreements do not require us to purchase any set minimums.

Critical Accounting Policies and Estimates

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). The application of GAAP requires us to make estimates and assumptions that affect the reported values of assets and liabilities at the date of our financial statements, the reported amounts of revenues and expenses during the reporting period, and the related disclosures of contingent assets and liabilities. We use estimates throughout our financial statements, which are influenced by management’s judgment and uncertainties. Our estimates are based on historical trends, industry standards, and various other assumptions that we believe are applicable and reasonable under the circumstances at the time the consolidated financial statements are prepared. Our Audit Committee reviews our critical accounting policies and estimates. We continually evaluate and review our policies related to the portrayal of our consolidated financial position and consolidated results of operations that require the application of significant judgment by our management. Historically, actual results have not materially deviated from our estimates. However, we caution readers that actual results could differ from our estimates and assumptions applied in the preparation of our consolidated financial statements. If circumstances change relating to the various assumptions or conditions used in our estimates, we could experience an adverse effect on our financial position, results of operations, and cash flows. We have identified the following applicable critical accounting policies and estimates as of September 30, 2008:

Allowance for Doubtful Accounts

Accounts receivable consists of receivables from manufacturers, independent associates and members, and are carried at their estimated collectible amounts. As of September 30, 2008, net accounts receivable totaled \$0.3 million. We simultaneously receive payment for an order when the order ships. If the payment is rejected or if it does not match the order total, a receivable is created. We periodically review receivables for realizability and base collectability upon assumptions, historical trends, and recent account activities. If our estimates regarding estimated collectability are inaccurate or consumer trends change in an unforeseen manner, we may be exposed to additional write-offs or bad debts. As of September 30, 2008, we recorded an allowance for doubtful accounts of \$0.1 million.

Inventory Reserves

Inventory consists of raw materials, work in progress, finished goods, and promotional materials that are stated at the lower of cost (using standard costs that approximate average costs) or market. We record the amounts charged by vendors as the cost of inventory. Typically, the net realizable value of our inventory is higher than the aggregate cost. Determination of net realizable value can be complex and, therefore, requires a high degree of judgment. In order for management to make the appropriate determination of net realizable value, the following items are considered: inventory turnover statistics, current selling prices, seasonality factors, consumer demand, regulatory changes, competitive pricing,

and performance of similar products. If we determine the carrying value of inventory is in excess of estimated net realizable value, we write down the value of inventory to the estimated net realizable value.

We also review inventory for obsolescence in a similar manner and any inventory identified as obsolete is reserved or written off. Our determination of obsolescence is based on assumptions about the demand for our products, product expiration dates, estimated future sales, and general future plans. We monitor actual sales compared to original projections, and if actual sales are less favorable than those originally projected by us, we record an additional inventory reserve or write-down. Historically, our estimates have been close to our actual reported amounts. However, if our estimates regarding fair market value or obsolescence are inaccurate or consumer demand for our products changes in an unforeseen manner, we may be exposed to additional material losses or gains in excess of our established estimated inventory reserves. As of September 30, 2008 and December 31, 2007, our inventory reserves were \$0.8 million and \$0.5 million, respectively. At September 30, 2008, the net carrying value of our inventory was \$29.0 million.

Long Lived Fixed Assets and Capitalization of Software Development Costs

In addition to capitalizing long lived fixed asset costs, we also capitalize costs associated with internally-developed software projects (collectively, “fixed assets”) and amortize such costs over the estimated useful lives of such fixed assets. Fixed assets are carried at cost, less accumulated depreciation computed using the straight-line method over the assets’ estimated useful lives. Leasehold improvements are amortized over the shorter of the remaining lease terms or the estimated useful lives of the improvements. Expenditures for maintenance and repairs are charged to operations as incurred. If a fixed asset is sold or otherwise retired or disposed of, the cost of the fixed asset and the related accumulated depreciation or amortization is written off and any resulting gain or loss is recorded in other operating costs in our consolidated statement of operations.

We review our fixed assets for impairment whenever an event or change in circumstances indicates the carrying amount of an asset or group of assets may not be recoverable, such as plans to dispose of an asset before the end of its previously estimated useful life. Our impairment review includes a comparison of future projected cash flows generated by the asset, or group of assets, with its associated net carrying value. If the net carrying value of the asset or group of assets exceeds expected cash flows (undiscounted and without interest charges), an impairment loss is recognized to the extent the carrying amount exceeds the fair value. The fair value is determined by calculating the discounted expected future cash flows using an estimated risk-free rate of interest. Any identified impairment losses are recorded in the period in which the impairment occurs. The carrying value of the fixed asset is adjusted to the new carrying value and any subsequent increases in fair value of the fixed asset are not recorded. In addition, if we determine the estimated remaining useful life of the asset should be reduced from our original estimate, the periodic depreciation expense is adjusted prospectively, based on the new remaining useful life of the fixed asset.

The impairment calculation requires us to apply estimates and assumptions concerning future cash flows, strategic plans, useful lives, and discount rates. If actual results are not consistent with our estimates and assumptions, we may be exposed to an additional impairment charge, which could be material to our results of operations. In addition, if accounting standards change, or if fixed assets become obsolete, we may be required to write off any unamortized costs of fixed assets; or if estimated useful lives change, we would be required to accelerate depreciation or amortization periods and recognize additional depreciation and amortization expense in our consolidated statement of operations.

Historically, our estimates and assumptions related to the carrying value and the estimated useful lives of our fixed assets have not materially deviated from actual results. As of September 30, 2008, the estimated useful lives and net carrying values of fixed assets were as follows:

	Estimated useful life	Net carrying value at September 30, 2008
Office furniture and equipment	5 to 7 years	\$ 3.2 million
Computer hardware and software	3 to 5 years	31.0 million
Automobiles	3 to 5 years	0.1 million
Leasehold improvements	2 to 10 years ⁽¹⁾	3.8 million
Construction in progress	2 to 10 years ⁽²⁾	0.9 million
Total net carrying value at September 30, 2008		\$ 39.0 million

(1) We amortize leasehold improvements over the shorter of the useful estimated life of the leased asset or the lease term.

(2) Construction in progress includes fixed assets, leasehold improvements and internally-developed software costs. Once placed in service, leasehold improvements will be amortized over the shorter of an asset’s useful life or the remaining lease term. Once the internally-developed software is placed in service, it will be amortized over five years.

The net carrying costs of fixed assets and construction in progress are exposed to impairment losses if our assumptions and estimates of their carrying values change, there is a change in estimated future cash flow, or there is a change in the estimated useful life of the fixed asset.

Uncertain Income Tax Positions and Tax Valuation Allowances

As of September 30, 2008, we recorded \$0.5 million in taxes payable and \$0.1 million in other long-term liabilities in our consolidated balance sheet related to uncertain income tax positions. As required by the FASB's Interpretation No. 48, or FIN 48, we use judgments and make estimates and assumptions related to evaluating the probability of uncertain income tax positions. We base our estimates and assumptions on the potential liability related to an assessment of whether the income tax position will "more likely than not" be sustained in an income tax audit. We are also subject to periodic audits from multiple domestic and foreign tax authorities related to income tax, sales and use tax, personal property tax, and other forms of taxation. These audits examine our tax positions, timing of income and deductions, and allocation procedures across multiple jurisdictions. As part of our evaluation of these tax issues, we establish reserves in our consolidated financial statements based on our estimate of current probable tax exposures. Depending on the nature of the tax issue, we could be subject to audit over several years. Therefore, our estimated reserve balances and liability related to uncertain income tax positions may exist for multiple years before the applicable statute of limitations expires or before an issue is resolved by the taxing authority. We believe our tax liabilities related to uncertain tax positions are based upon reasonable judgment and estimates; however, if actual results materially differ, our effective income tax rate and cash flows could be affected in the period of discovery or resolution.

We also review the estimates and assumptions used in evaluating the probability of realizing the future benefits of our deferred tax assets and record a valuation allowance when we believe that a portion or all of the deferred tax assets may not be realized. If we are unable to realize the expected future benefits of our deferred tax assets, we are required to provide a valuation allowance. We use our past history and experience, overall profitability, future management plans, and current economic information to evaluate the amount of valuation allowance to record. As of September 30, 2008, we maintained a valuation allowance for deferred tax assets arising from our operations in Taiwan because they did not meet the "more likely than not" criteria as defined by the recognition and measurement provisions of the FASB's Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes." In addition, as of September 30, 2008, we had deferred tax assets, after valuation allowance, totaling \$9.9 million, which may not be realized if our assumptions and estimates change, which would affect our effective income tax rate and cash flows in the period of discovery or resolution.

Revenue Recognition and Deferred Revenue

We derive revenue from sales of our products, sales of our starter and renewal packs and shipping fees. Substantially all of our product and pack sales are made to independent associates at published wholesale prices. We also sell products to independent members at discounted published retail prices. We record revenue net of any sales taxes. Total deferred revenue consists of revenue received from (i) sales of packs and products shipped but not received by the customers at period end; (ii) one-year magazine subscriptions; (iii) pack sales when the pack sale price exceeds the wholesale value of all individual components within the pack; and (iv) prepaid registration fees from customers planning to attend a future corporate-sponsored event. We recognize revenue from shipped packs and products upon receipt by the customer. We recognize revenue related to future corporate-sponsored events when the event is held. All other deferred revenue is recognized over one year. At September 30, 2008, total deferred revenue was \$3.8 million. Although we have no immediate plans to significantly change the contents of our packs or our shipping methods, any such change in the future could result in additional revenue deferrals or cause us to recognize deferred revenue over a longer period of time. For example, if we were to decrease the number of items included in our packs while keeping the sales price of the packs the same, we would have to defer additional revenue and recognize the additional deferred revenue over one year.

We have three different product return policies: (i) a policy for our retail customers, (ii) a policy for our independent members, and (iii) a policy for our independent associates. Retail customers may return any of our products, within 180 days of purchase, to the original independent associate who sold the product, and such associate is required to provide the retail customer with a full cash refund. The independent associate may receive a replacement product by forwarding proof of the refund to us. Independent members may return an order to us within 180 days of the purchase date without membership termination or restocking fees. After 180 days from the date of purchase, the independent member may not receive a refund and is allowed an exchange only, and may, if abuse of the return policy is found, have his or her membership terminated. Independent associates are allowed to return an order within one year of the purchase date upon terminating their associate accounts. If an independent associate returns a product unopened and in good salable condition, the independent associate returning the product may receive a full refund. We may also allow an independent associate to receive a full 100% refund for the first 180 days following a product's purchase. After 180 days from the purchase date, an

independent associate may not request a refund, and is allowed an exchange only; however, if abuse of the return policy is found, an independent associate may be terminated.

Historically, sales returns estimates have not materially deviated from actual sales returns. Based upon our return policies, we estimate a sales return reserve for expected sales refunds based on our historical experience over a rolling six-month period. If actual results differ from our estimated sales returns reserves due to various factors, the amount of revenue recorded each period could be materially affected. Historically, our sales returns have not materially changed through the years as the majority of our customers return their merchandise within the first 90 days after the original sale. Sales returns for the nine months ended September 30, 2008 were comprised of the following (in thousands):

Sales reserve as of December 31, 2007	\$ 572
Provision related to sales made in 2008	3,466
Provision related to sales made prior to 2008	264
Actual returns or credits in 2008 related to 2008	(2,778)
Actual returns or credits in 2008 related to prior periods	(837)
Sales reserve as of September 30, 2008	<u>\$ 687</u>

Accounting for Stock-Based Compensation

We grant stock options to our employees and board members. At the date of grant, we determine the fair value of a stock option award and recognize compensation expense over the requisite service period, which is generally the vesting period of such stock option award, which is two to four years. The fair value of the stock option award is calculated using the Black-Scholes option-pricing model. The Black-Scholes option-pricing model requires us to apply judgment and use highly subjective assumptions, including expected stock option life, expected volatility, expected average risk-free interest rates, and expected forfeiture rates. For the nine months ended September 30, 2008, our assumptions and estimates used for the calculated fair value of stock options granted in 2008 were as follows:

	January 2008 grant	February 2008 grant	March 2008 grant	June 2008 grant #1	June 2008 grant #2	August 2008 grant
Estimated fair value per share of options granted:	\$ 2.11	\$ 2.26	\$ 2.81	\$ 2.06	\$ 2.06	\$ 1.85
Assumptions:						
Annualized dividend yield	6.08 %	5.63 %	4.83 %	5.96 %	5.97 %	3.48 %
Risk-free rate of return	3.06 %	2.67 %	2.48 %	3.17 %	3.57 %	2.97 %
Common stock price volatility	63.80 %	61.90 %	62.70 %	60.40 %	59.80 %	60.10 %
Expected average life of stock options (in years)	4.5	4.5	4.5	4.5	4.5	4.5

Historically, the estimates for our assumptions have not materially deviated from our actual reported results and rates. However, the assumptions we use are based on our best estimates and involve inherent uncertainties based on market conditions that are outside of our control. If actual results are not consistent with the assumptions we use, the stock-based compensation expense reported in our consolidated financial statements may not be representative of the actual economic cost of stock-based compensation. For example, if actual employee forfeitures significantly differ from our estimated forfeitures, we may be required to make an adjustment to our consolidated financial statements in future periods. As of September 30, 2008, using our current assumptions and estimates, we anticipate recognizing \$0.9 million in gross compensation expense through 2011 related to unvested stock options outstanding.

If we grant additional stock options in the future, we would be required to recognize additional compensation expense over the vesting period of such stock options in our consolidated statement of operations. Gross compensation expense would equal the calculated fair value of such stock options, which is dependent on the assumptions used to calculate such fair value, multiplied by the number of stock options awarded. As of September 30, 2008, we had 765,224 shares available for grant under our 2008 Stock Incentive Plan, which was approved by our shareholders at the 2008 Annual Shareholders' Meeting held on June 18, 2008.

Contingencies and Litigation

Each quarter, we evaluate the need to establish a reserve for any legal claims or assessments. We base our evaluation on our best estimates of the potential liability in such matters. The legal reserve includes an estimated amount for any damages and the probability of losing any threatened legal claims or assessments. The legal reserve is developed in consultation with our general and outside counsel and is based upon a combination of litigation and settlement strategies. Although we believe that our legal reserves and accruals are based on reasonable judgments and estimates, actual results could differ, which may expose us to material gains or losses in future periods. If actual results differ, if circumstances change, or if we experience an unanticipated adverse outcome of any legal action, including any claim or assessment, we would be required to recognize the estimated amount which could reduce net income, earnings per share, and cash flows.

Recent Accounting Pronouncements

SFAS 157. In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements*, or SFAS 157. The provisions of SFAS 157 define fair value, establish a framework for measuring fair value in generally accepted accounting principles and expand disclosures about fair value measurements. The provisions of SFAS 157 are effective for fiscal years beginning after November 15, 2007, with the exception of nonfinancial assets and liabilities that are not currently recognized or disclosed at fair value in the financial statements on a recurring basis, for which SFAS 157 is effective for fiscal years beginning after November 15, 2008. Our adoption of SFAS 157 on January 1, 2008 did not have a significant effect on our consolidated financial position, results of operations, or cash flows. See Note 9 (“Fair Value”) to the consolidated financial statements included in this report for more information.

SFAS 141(R). In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), *Business Combinations*, or SFAS 141(R). SFAS 141(R) replaces SFAS No. 141 and establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any non controlling interest in the acquiree, and the goodwill acquired in an acquisition. SFAS 141(R) also establishes disclosure requirements which will enable users to evaluate the nature and financial effects of the business combination. SFAS 141(R) is effective for acquisitions in fiscal years beginning after December 15, 2008. We will apply SFAS 141(R) prospectively to business combinations for which the acquisition date is on or after January 1, 2009.

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board or other standard setting bodies, which we evaluate and adopt as of the specified effective date. Unless otherwise discussed, we believe the impact of recently issued standards and pronouncements that are not yet effective will not have a material impact on its consolidated financial statements upon adoption.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We do not engage in trading market risk sensitive instruments and do not purchase investments as hedges or for purposes “other than trading” that are likely to expose us to certain types of market risk, including interest rate, commodity price, or equity price risk. We have not issued any debt instruments, entered into any forward or futures contracts, purchased any options, or entered into any swap agreements.

We are exposed to other market risks, including changes in currency exchange rates as measured against the United States dollar. Because the change in value of the United States dollar measured against foreign currency may affect our consolidated financial results, changes in foreign currency exchange rates could positively or negatively affect our results as expressed in United States dollars. For example, when the United States dollar strengthens against foreign currencies in which our products are sold or weakens against foreign currencies in which we may incur costs, our consolidated net sales or related costs and expenses could be adversely affected.

We believe inflation has not had a material impact on our consolidated operations or profitability. We expanded into Canada in 1996, into Australia in 1998, into the United Kingdom in 1999, into Japan in 2000, into New Zealand in 2002, into the Republic of Korea in 2004, into Taiwan and Denmark in 2005, into Germany in 2006, and into South Africa in 2008. Our United States operation services shipments to Canada and South Africa. Our Australian operation services shipments to New Zealand, and our United Kingdom operation services shipments to Denmark and Germany. We translate our revenues and expenses in foreign markets using average rates. We translate assets and liabilities using current (spot) rates.

We maintain policies, procedures, and internal processes in an effort to help monitor any significant market risks and we do not use any financial instruments to manage our exposure to such risks. We assess the sensitivity of our earnings and cash flows to variability in currency exchange rates by applying an appropriate range of potential rate fluctuations to our assets, obligations, and projected transactions denominated in foreign currencies.

We caution that we cannot predict with any certainty our future exposure to such currency exchange rate fluctuations or the impact, if any, such fluctuations may have on our future business, product pricing, operating expenses, and on our consolidated financial position, results of operations, or cash flows. However, to combat such market risk we closely monitor our exposure to currency fluctuations. The foreign currencies in which we currently have exposure to foreign currency exchange rate risk include the currencies of Canada, Australia, the United Kingdom, Japan, New Zealand, the Republic of Korea, Taiwan, Denmark, Germany, and South Africa. In 2008, we began to have exposure to foreign currency exchange rate risk related to our corporate office in Switzerland. The current (spot) rate, average currency exchange rates, and the low and high of such currency exchange rates as compared to the United States dollar, for each of these countries as of and for the nine months ended September 30, 2008 were as follows:

Country (foreign currency name)	Low	High	Average	Spot
Australia (Dollar)	\$ 0.79380	\$ 0.97760	\$ 0.91337	\$ 0.82110
Canada (Dollar)	\$ 0.93010	\$ 1.02230	\$ 0.98280	\$ 0.96360
Denmark (Krone)	\$ 0.18700	\$ 0.21390	\$ 0.20414	\$ 0.19320
Germany (Euro)	\$ 1.39490	\$ 1.59520	\$ 1.52254	\$ 1.44490
Japan (Yen)	\$ 0.00893	\$ 0.01028	\$ 0.00946	\$ 0.00945
New Zealand (Dollar)	\$ 0.65060	\$ 0.81690	\$ 0.76026	\$ 0.68100
Republic of Korea (Won)	\$ 0.00085	\$ 0.00108	\$ 0.00099	\$ 0.00085
South Africa (Rand)	\$ 0.12150	\$ 0.14910	\$ 0.13062	\$ 0.12240
Switzerland (Franc)	\$ 0.87840	\$ 1.01670	\$ 0.94708	\$ 0.91180
Taiwan (Dollar)	\$ 0.03075	\$ 0.03332	\$ 0.03222	\$ 0.03111
United Kingdom (British Pound)	\$ 1.75150	\$ 2.03110	\$ 1.94894	\$ 1.81750

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our President and Chief Executive Officer (principal executive officer) and our Chief Financial Officer (principal financial officer) have concluded, based on their evaluations as of the end of the period covered by this report, that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports filed or submitted under the Securities Exchange Act of 1934, as amended (as defined in Exchange Act Rules 13(a) and 15(d)-15(e)), is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and include controls and procedures designed to ensure that information required to be disclosed by us in such reports is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

During the quarter ended September 30, 2008, there were no changes in our internal control over our financial reporting that we believe materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

Securities Class Action Lawsuits

We have been sued in the following three securities class action lawsuits, each of which remained pending at September 30, 2008:

- First, on August 1, 2005, Mr. Jonathan Crowell filed a putative class action lawsuit against us and Mr. Samuel L. Caster, our Chief Executive Officer on such date, on behalf of himself and all others who purchased or otherwise acquired our common stock between August 10, 2004 and May 9, 2005, inclusive, and who were damaged thereby.
- Second, on August 30, 2005, Mr. Richard McMurry filed a class action lawsuit against us, Mr. Caster, Mr. Terry L. Persinger, our President and Chief Operating Officer on such date, and Mr. Stephen D. Fenstermacher, our Chief Financial Officer.
- Third, on September 5, 2005, Mr. Michael Bruce Zeller filed a class action lawsuit against us, Mr. Caster, Mr. Persinger, and Mr. Fenstermacher.

These three lawsuits were initially filed and consolidated in the United States District of New Mexico. On January 29, 2007, the consolidated action was transferred to the United States District Court for the Northern District of Texas, Dallas Division, and on March 29, 2007, upon joint motion of the parties, was transferred to the docket of United States District Judge Ed Kinkeade. The Mannatech Group, consisting of Mr. Austin Chang, Ms. Naomi Kuperman (f/k/a Naomi S. Miller), Mr. John Ogden, and the Plumbers and Pipefitters Local 51 Pension Fund, has been appointed as lead plaintiffs, Coughlin Stoia Geller Rudman & Robbins LLP has been appointed as lead counsel, and Provost Umphrey LLP has been appointed local counsel for the putative class.

On July 12, 2007, Lead Plaintiff for the putative class filed a Second Amended Consolidated Class Action Complaint, which is substantively similar to the Amended Consolidated Class Action Complaint filed on March 22, 2007, and reported in our previous filings, but expands the class period to July 5, 2007, and adds references to an enforcement lawsuit discussed below, which was filed by the Texas Attorney General against the Company on July 5, 2007, and the subsequent drop in our stock price.

We filed a motion to dismiss the Second Amended Consolidated Class Action Complaint on August 27, 2007, arguing that the complaint did not meet the heightened pleading standards of the Private Securities Litigation Reform Act. Lead Plaintiffs filed their Opposition Brief on December 20, 2007, and we filed our Reply Brief in Support of our Motion on January 22, 2008.

Formal mediation was conducted before Judge Daniel Weinstein in California on November 20, 2007, involving us, the individual Defendants in all pending securities and derivative lawsuits, and counsel for plaintiffs in both the securities class action and the various derivative actions. Informal discussions between the parties and Judge Weinstein continued thereafter.

On April 3, 2008, Lead Plaintiffs filed a Third Amended Consolidated Class Action Complaint, which is substantively similar to the Second Amended Complaint, and which expands the class period to July 30, 2007.

On March 20, 2008, we announced that we had reached a final settlement of the securities class action with the Lead Plaintiffs. This settlement, which is subject to among other things preliminary and final Court approval, would resolve all the claims in the litigation. Without admitting any liability or wrongdoing of any kind, we agreed to authorize payment to the plaintiff class of \$11.25 million. We will pay \$2.27 million in cash as part of the settlement, and the remainder will be funded by our insurer. We and Lead Plaintiffs' counsel are continuing to negotiate final settlement terms and documents.

Because the litigation is a class action, the settlement is subject to the preliminary approval of the Court as well as the Court's final approval after notice of the terms of the settlement has been provided to all class members. Timing of the approval process is dependent on the Court's calendar. The settlement class consists of the purchasers of our stock during

the period August 10, 2004 through July 30, 2007. Relevant purchasers of our stock have a right to opt out of the class, class members may object to the terms of the settlement, and final consummation of settlement must await the entry of final judgment approving the settlement as fair to all class members.

Shareholder Derivative Lawsuits

We have also been sued in the following five purported derivative actions, which remained pending at September 30, 2008:

- First, on October 18, 2005, a shareholder derivative lawsuit was filed by Norma Middleton, Derivatively and on Behalf of Nominal Defendant, Mannatech, Incorporated, against Samuel L. Caster, Terry L. Persinger, Donald A. Buchholz, J. Stanley Fredrick, Gerald E. Gilbert, Alan D. Kennedy, Marlin Ray Robbins, and Patricia A. Wier, in the United States District Court for the Northern District of Texas, Dallas Division.
- Second, on January 11, 2006, a shareholder derivative action was filed by Kelly Schrimpf, Derivatively and on Behalf of Nominal Defendant, Mannatech, Incorporated, against Samuel L. Caster, Terry L. Persinger, Steven W. Lemme, and Stephen D. Fenstermacher in the 162nd District Court of Dallas County, Texas.
- Third, on January 13, 2006, a shareholder derivative action was filed by Frances Nystrom, Derivatively and on Behalf of Nominal Defendant, Mannatech, Incorporated, against Samuel L. Caster, Terry L. Persinger, Stephen D. Fenstermacher, John Stuart Axford, J. Stanley Fredrick, Gerald E. Gilbert, Alan D. Kennedy, Marlin Ray Robbins, Patricia A. Wier, and Donald A. Buchholz in the United States District Court for the Northern District of Texas.
- Fourth, on April 25, 2007, a shareholder derivative action was filed by Duncan Gardner, Derivatively and on Behalf of Nominal Defendant, Mannatech, Incorporated, against Samuel L. Caster, Terry L. Persinger, Stephen D. Fenstermacher, J. Stanley Fredrick, Patricia A. Wier, Alan D. Kennedy, Gerald E. Gilbert, John Stuart Axford, Marlin Ray Robbins, and Larry A. Jobe in the 162nd District Court of Dallas County, Texas.
- Fifth, on July 23, 2007, a shareholder derivative action was filed by Frances Nystrom, Derivatively and On Behalf of Mannatech, Incorporated against Samuel L. Caster, Terry L. Persinger, Stephen D. Fenstermacher, Stephen Boyd, John Stuart Axford, J. Stanley Fredrick, Gerald E. Gilbert, Alan D. Kennedy, Marlin Ray Robbins, Patricia A. Wier, Larry A. Jobe, Bill H. McAnalley and Donald A. Buchholz in the 44th District Court of Dallas County, Texas.

Shortly after the commencement of the class action litigation, the first three of these actions were filed. These three lawsuits make allegations similar to the allegations of the shareholder class action litigation described above. The Schrimpf state court lawsuit remains stayed, and administratively closed subject to being reopened, pending the outcome of the Middleton federal lawsuit, the first-filed derivative action.

The Special Litigation Committee appointed by our independent directors to review the allegations made by Middleton, Schrimpf, and Nystrom determined that it is in our best interests to dismiss those derivative lawsuits. We filed motions to dismiss the Middleton and Nystrom complaints on March 12, 2007, seeking dismissal under Federal Rule 12(b)(6) and Texas Business Corporation Act article 5.14. The plaintiffs were required to file their responses by July 31, 2007, but the parties agreed to extend the response date until 60 days after the Court rules on the plaintiffs' pending motions to compel, and motions to that effect were filed on July 31, 2007 by each plaintiff. The motions to set a revised briefing schedule, and the motions to compel, remain pending before the Court. The Court administratively closed the Middleton and Nystrom cases on April 18, 2007.

The Gardner action, which was filed on April 25, 2007, and the second Nystrom action, which was filed July 23, 2007, make allegations with regard to our funding of various research projects. Both lawsuits are consistent with demand letters sent on behalf of both shareholders, and noted in our previous filings. The Special Litigation Committee appointed to review these allegations made by Gardner and Nystrom has determined that continuation of the Gardner and Nystrom lawsuits is not in our best interests. A statement consistent with that determination was filed with the Court in each lawsuit on March 14, 2008.

On June 13, 2008 we announced that we had reached a final settlement with all derivative plaintiffs. This settlement, which is subject to among other things preliminary and final Court approval, would resolve all the claims in each of the five pending derivative lawsuits. Without admitting any liability or wrongdoing of any kind, we have implemented, or

agreed to implement certain corporate governance changes. We also agreed to cover the derivative plaintiffs' counsels' fees and expenses up to a sum of \$0.9 million. This settlement payment would be funded by the Company's insurer.

On September 22, 2008, a Stipulation of Settlement was entered into between us, the individual defendants, and the derivative plaintiffs (Middleton, Nystrom, Schrimpf, and Gardner). Motions seeking preliminary approval of the settlement, along with the Stipulation of Settlement, were filed in the United States District Court for the Northern District of Texas in the Middleton and Nystrom cases on September 22, 2008. The Court signed an order preliminarily approving the settlement on October 2, 2008, which was entered by the Court on October 6, 2008. The Court set a hearing for final approval on January 13, 2009, at 10:00 a.m. The Special Litigation Committee approved the settlement as in our and our shareholders' best interests on October 10, 2008.

Because these are derivative lawsuits, purportedly brought in our best interests, the settlement is subject to the Court's final approval after notice of the terms of the settlement has been provided to all current shareholders, who include all shareholders holding our stock from August 10, 2004 through the present. Current shareholders will have the right to object to the settlement in writing to the court once the court has set a hearing for final approval. Additional information about the settlement is available in the Notice of Proposed Settlement of Shareholder Derivative Actions posted on our website, www.mannatech.com.

In response to these actions, we continue to work with our experienced securities litigation counsel to vigorously defend ourselves and our officers and directors.

Texas Attorney General Lawsuit

We have also been sued in an enforcement action (referenced above) that was filed by the Texas Attorney General's Office on July 5, 2007. In that lawsuit, the State of Texas sued Mannatech, Incorporated, MannaRelief Ministries, Samuel L. Caster, the Fisher Institute, and Reginald McDaniel for alleged violations of the Texas Food, Drug, and Cosmetics Act and the Texas Deceptive Trade Practices Act. The allegations, consistent with the allegations made by the securities class action and derivative plaintiffs, primarily concern the marketing of our products by our independent associates. The action seeks temporary and permanent injunctive relief, statutorily-prescribed civil monetary penalties, and the restoration of money or other property allegedly taken from persons by means of unlawful acts or practices, or alternatively, damages to compensate for such losses. We have continued discussions with representatives of the Attorney General's Office to attempt to resolve the concerns raised in the petition.

Potential SEC Enforcement Action

In a letter dated August 29, 2008, otherwise known as a "Wells Notice," the Staff of the Securities and Exchange Commission indicated to us that they intended to recommend that a civil injunctive action or cease and desist proceeding be commenced against us, as well as Stephen Fenstermacher, the Chief Financial Officer, and Larry Jobe, the Chairman of the Audit Committee of the Board of Directors. Our response to the Wells notice, along with the responses of Mr. Fenstermacher and Mr. Jobe, were submitted to the Staff on October 3, 2008. In a letter dated October 31, 2008, the Staff informed us that it had completed its investigation of Mannatech and was not recommending enforcement action against us relating to the timing and completeness of our October 2007 Form 8-K disclosure regarding our dismissal of Grant Thornton LLP as our independent registered public accountants. We were also informed that the Staff had terminated its investigation and was not recommending enforcement action against our Chief Financial Officer and Chairman of the Audit Committee. The receipt of the Staff's notice was disclosed in a Form 8-K filed with the SEC on November 5, 2008.

Patent Infringement Litigation

Mannatech, Inc. v. Glycoproducts International, Inc. f/k/a Glycobiotics International, Inc.

The first of our two patent infringement suits has successfully concluded with a jury trial and verdict in our favor on all patent infringement claims, a permanent injunction against the continued manufacture, offer, and sale of the infringing glyconutritional product marketed under the brand name "Glycomannan" by Glycoproducts International, Inc. f/k/a Glycobiotics International, Inc. ("Glycobiotics"), and a finding that Glycobiotics committed trademark infringement against our Ambrotose[®] trademark.

On March 16, 2006, we first filed a patent infringement lawsuit against Glycobiotics for infringement of our utility United States Patent No. 6,929,807 (“Compositions of Plant Carbohydrates as Dietary Supplements”) in the United States District Court of the Northern District of Texas, Dallas Division. On February 9, 2007, we filed an Amended Complaint, which added patent infringement claims relating to our utility United States Patent No. 7,157,431 (also entitled “Compositions of Plant Carbohydrates as Dietary Supplements”).

Glycobiotics answered our Amended Complaint on February 20, 2007, asserting various affirmative defenses and three counterclaims alleging anticompetitive conduct under the Sherman Act in connection with the market for arabinogalactan. Following extensive discovery by us, and the disclosure of an expert refuting the allegations contained in the counterclaims, on August 6, 2007, Glycobiotics filed a stipulated motion to dismiss all of its counterclaims.

The one-week jury trial began on May 5, 2008, and the jury returned its verdict in our favor on May 9, 2008. The Court then issued a memorandum opinion finding that Glycobiotics infringed both patents-at-issue and entered a broad permanent injunction against Glycobiotics. The injunction enjoins Glycobiotics and related parties from making, using, offering, selling, or otherwise distributing within the United States its infringing glyconutritional product Glycomannan or any substantially equivalent product that would infringe our patents. The injunction also prohibits Glycobiotics from inducing others to infringe or assisting others in the infringement of our patents. Glycobiotics must also take all Glycomannan in its control, and make every reasonable effort to re-acquire all Glycomannan from third parties, and deliver all such product to us for destruction. Finally, Glycobiotics is also prohibited from falsely advertising the nature, quality, characteristics, or qualities of our glyconutritional products, including Ambrotose®.

Further, on October 16, 2008, the Court entered an order granting us \$0.8 million in reasonable attorney fees for our successful prosecution of our infringement claims. We will take every step to collect this amount from Glycobiotics and to ensure that Glycobiotics fully complies with the Court’s final judgment, including collecting all Glycomannan and delivering it for destruction.

Mannatech, Inc. v. K.Y.C. Inc. d/b/a Techmedica Health Inc., Triton Nutra, Inc., Ionx Holdings, Inc., and John Does 1-30

We have also filed a patent infringement lawsuit in the United States District Court of the Northern District of Texas, Dallas Division, against K.Y.C. Inc. d/b/a Techmedica Health, Inc. (“Techmedica”), Triton Nutra, Inc., Ionx Holdings, Inc. (“Ionx”), and John Does 1-30 for alleged infringement of our utilities United States Patent Nos. 6,929,807, 7,157,431, 7,196,064, 7,199,104, and 7,202,220, all entitled “Compositions of Plant Carbohydrates as Dietary Supplements.” The lawsuit seeks to stop the manufacture, offer, and sale of defendants’ infringing glyconutritional products, including those marketed under the brand names “Nutratose” and “Activeive,” as well as cessation of defendants’ false advertising about our products, including Ambrotose®.

On May 5, 2006, we first filed suit against Techmedica for alleged infringement of the ‘807 Patent. After Techmedica claimed that Triton Nutra manufactured its glyconutritional products, we amended our complaint on February 6, 2007 to add Triton Nutra as a defendant, as well as infringement claims related to the newly issued ‘431 Patent against both Techmedica and Triton Nutra. When Triton Nutra failed to answer the Amended Complaint, we requested, and the Clerk of Court entered, default against Triton Nutra on May 3, 2007.

On August 10, 2007, the Court stayed the case until after judgment issued in our patent infringement suit against Glycoproducts International, Inc. f/k/a Glycobiotics International, Inc. (“Glycobiotics”). During the stay, on February 28, 2008, a federal grand jury indicted the presidents of Techmedica Health and Triton Nutra for violations of federal drug distribution laws, wire and mail fraud, and money laundering. The government is seeking any property derived from these activities, including over \$17 million in cash and various real estate and other property. After the indictment, Ionx purchased the remaining assets of Techmedica, including its glyconutritional products.

Following our successful prosecution of our patent infringement suit against Glycobiotics, on July 30, 2008, the Court granted our unopposed motion to lift the stay in this suit. We filed our Second Amended Complaint on September 18, 2008, adding Ionx and John Does 1-30 as defendants and infringement claims related to the ‘064, ‘104, and ‘220 Patents, and naming Activeive as an additional infringing glyconutritional product. On October 13, 2008, Techmedica and Ionx filed their identical answers and counterclaims, which seek to claim that our patents-in-suit are invalid, unenforceable, or otherwise are not infringed by defendants.

Shortly after filing our Second Amended Complaint, we identified and disclosed to defendants seven additional infringing products: Candidol, Claritose, Lupazol, Respitrol, Rhumatol, Synaptol, and Viratrol. In its deposition on

October 10, 2008, Techmedica testified that all nine identified products are comprised of the same encapsulated ingredients.

We will continue to vigorously prosecute this case. Given the precedence set by the Glycobiotics case, we continue to believe the likelihood of an unfavorable outcome is remote, and with no counterclaims seeking monetary damages, our potential loss is limited to an award of the defendants' court costs.

Litigation in General

We also have several other pending claims incurred in the normal course of business. In our opinion, such claims can be resolved without any material adverse effect on our consolidated financial position, results of operations, or cash flows.

We maintain certain liability insurance; however, certain costs of defending lawsuits, such as those below the insurance deductible amount, are not covered by or only partially covered by our insurance policies, or our insurance carriers could refuse to cover certain of these claims in whole or in part. We accrue costs to defend ourselves from litigation as they are incurred or as they become determinable.

The outcome of litigation may not be assured, and despite management's views of the merits of any litigation, or the reasonableness of our estimates and reserves, our financial condition could nonetheless be materially affected by an adverse judgment. We believe we have adequately reserved for the contingencies arising from the above legal matters where an outcome was deemed to be probable and the loss amount could be reasonably estimated. While it is not possible to predict with certainty what liability or damages we might incur in connection with any of the above-described lawsuits, based on the advice of counsel and a management review of the existing facts and circumstances related to these lawsuits, we have accrued \$15.7 million as of September 30, 2008 for these matters, which is included in accrued expenses in our Consolidated Balance Sheet.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2007, which could materially affect our business or our consolidated financial position, results of operations, and cash flows. The risks described in our Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be insignificant also may become materially adverse or may affect our business in the future or our consolidated financial position, results of operations, or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

None.

Item 6. Exhibits
