Form 10-K for the Fiscal Year Ended December 31, 2009

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations
Critical Accounting Policies

Revenue Recognition, page 20

1. Refer to your response to Comment One. You state that typically the defendant in the accident case pays the patient's bill upon settlement or final judgment of the accident

case. In order to recognize revenue, please tell us how you concluded that 1) persuasive evidence of an arrangement existed between all of the parties and 2) collectability was reasonably assured.

2. Further, you have currently estimated the average discount on all current cases will be 45% based on historical case resolution experience. In addition you appear to have collected only \$32,006 of receivables in the Company's entire history. Please tell us what historical case resolution supported your 45% discount.
3. Refer to your proposed statement of operations presentation presented in Exhibit 2 of your response. Please tell us what gross revenue represents and why presenting it is meaningful to understanding your results of operations. Otherwise, please revise your presentation to only present net revenue, which was \$540,505 in 2009.

Please contact James Peklenk, Staff Accountant, at (202) 551-3661 or Joel Parker, Accounting Branch Chief, at (202) 551-3651 if you have any questions regarding the comments. In this regard, do not hesitate to contact me, at (202) 551-3679.

Sincerely,

Jim B. Rosenberg
