1. We note the disclosures in your annual and quarterly filings related to litigation, including your determination that you “do not expect” lawsuits to individually, or in the aggregate, materially affect your business, results of operations or financial condition. Based on this determination it is not clear to us if you believe it is “reasonable possible” that a loss exceeding amounts recognized may have been incurred and the amount of that additional loss would be material to your financial statements. If you do not believe it is “reasonable possible” that a loss exceeding amounts recognized may have been incurred and the amount would be material to your financial statements, please provide that determination in future annual and quarterly filings. If you are unable to provide that determination, please revise future annual and quarterly filings to clarify that fact and to also address the following:
