Summary Consolidated Financial Data, page 14

1. We have reviewed your response to our comment. If Synergy Adjusted EBITDA is the measure that is used in determining compliance with a covenant and that covenant is a material term of a credit agreement that you believe is a material agreement and that information about the covenant is material to an investor's understanding of the your financial condition and/or liquidity, then you may be required to disclose the measure as part of your MD&A. In disclosing the non-GAAP financial measure in this situation, you should consider also disclosing the following:
 - the material terms of the credit agreement including the covenant;
 - the amount or limit required for compliance with the covenant; and
 - the actual or reasonably likely effects of compliance or non-compliance with the covenant on the company's financial condition and liquidity.
