UNITED STATES SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

**Form 10-Q**

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)  
OF THE SECURITIES EXCHANGE ACT OF 1934**

**FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2007**

Commission File Number 001-16407

**ZIMMER HOLDINGS, INC.**

*(Exact name of registrant as specified in its charter)*

**Delaware**

*(State or other jurisdiction of  
incorporation or organization)*

**13-4151777**

*(IRS Employer  
Identification No.)*

**345 East Main Street, Warsaw, IN 46580**

*(Address of principal executive offices)*

**Telephone: (574) 267-6131**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of July 26, 2007, 236,179,506 shares of the registrant's \$.01 par value common stock were outstanding.

The accompanying notes are an integral part of these consolidated financial statements.

**ZIMMER HOLDINGS, INC. AND SUBSIDIARIES**  
**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

**1. Basis of Presentation**

The financial data presented herein is unaudited and should be read in conjunction with the consolidated financial statements and accompanying notes included in the 2006 Annual Report on Form 10-K filed by Zimmer Holdings, Inc. In the opinion of management, the accompanying unaudited consolidated financial statements include all adjustments necessary for a fair statement of the financial position, results of operations and cash flows for the interim periods presented. The December 31, 2006 condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. Results for interim periods should not be considered indicative of results for the full year. Certain amounts in the three and six month periods ended June 30, 2006 have been reclassified to conform to the current year presentation.

Consolidated cash flows for the six months ended June 30, 2007 include the correction of an error in presentation of \$20.2 million, which had previously been reported in the three month period ended March 31, 2007, as a component of the change in receivables in operating cash flows and is now appropriately reported as proceeds from employee stock compensation in financing cash flows for the six month period ended June 30, 2007. Management does not consider this error in presentation to be material to the Consolidated Statement of Cash Flows for the three months ended March 31, 2007.

The words “we”, “us”, “our” and similar words refer to Zimmer Holdings, Inc. and its subsidiaries. Zimmer Holdings refers to the parent company only.

**2. Acquisitions**

We have made acquisitions that took place during the six month period ended June 30, 2007 which are described below. These acquisitions were accounted for under the purchase method of accounting pursuant to Statement of Financial Accounting Standards (SFAS) No. 141, “Business Combinations,” (SFAS No. 141). Accordingly, the results of operations of the acquired companies have been included in our consolidated results of operations subsequent to the transaction dates, and the respective assets and liabilities of the acquired companies have been recorded at their estimated fair values in our consolidated statement of financial position as of the transaction dates, with any excess purchase price being allocated to goodwill. Pro forma financial information has not been included as the acquisitions did not have a material impact upon our financial position or results of operations.

**Endius, Inc.**

On April 20, 2007, we acquired Endius, Inc. (Endius), a privately held spinal products company based in Massachusetts, for an initial aggregate value of approximately \$80 million in cash, before adjustments for debt repayment and other items. Endius develops and manufactures minimally invasive spine surgery products, implants and techniques to treat spine disease. The acquisition of Endius will expand our spine product portfolio to include innovative minimally invasive instruments and implants.

**Diadent, Srl.**

On April 27, 2007, we acquired Diadent, Srl. (Diadent), a privately held distributor of our dental products in Italy, in a cash transaction. The acquisition of Diadent will provide us with direct sales of dental implants in Italy.

**U.S. Distributor Network**

During the quarter, we made investments in our U.S. based distribution network, including the acquisition of certain orthopaedic implant distribution businesses. These investments and acquisitions are expected to increase future revenues by enhancing our U.S. sales and distribution infrastructure.

**ZIMMER HOLDINGS, INC. AND SUBSIDIARIES**

**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

**3. Comprehensive Income**

The reconciliation of net earnings to comprehensive income is as follows:

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>

Property, plant and equipment, net . . . . .	<u>\$ 865.9</u>	<u>\$ 807.1</u>

**6. Income Taxes**

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109, Accounting for Income Taxes (FIN 48). FIN 48 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax

## ZIMMER HOLDINGS, INC. AND SUBSIDIARIES

### NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

return should be recorded in the financial statements. Under FIN 48, we may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. FIN 48 also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

We adopted FIN 48 on January 1, 2007. Prior to the adoption of FIN 48 we had a long term tax liability for expected settlement of various federal, state and foreign income tax liabilities that was reflected net of the corollary tax impact of these expected settlements of \$102.1 million, as well as a separate accrued interest liability of \$1.7 million. As a result of the adoption of FIN 48, we are required to present the different components of such liability on a gross basis versus the historical net presentation. The adoption resulted in the financial statement liability for unrecognized tax benefits decreasing by \$6.4 million as of January 1, 2007. The adoption resulted in this decrease in the liability as well as a reduction to retained earnings of \$4.7 million, a reduction in goodwill of \$61.4 million, the establishment of a tax receivable of \$58.2 million, and an increase in an interest/penalty payable of \$7.9 million, all as of January 1, 2007. Therefore, after the adoption of FIN 48, the amount of unrecognized tax benefits is \$95.7 million as of January 1, 2007, of which \$28.6 million would impact our effective tax rate, if recognized. The amount of unrecognized tax benefits is \$103.9 million as of June 30, 2007. Of this amount, \$30.8 million would impact our effective tax rate, if recognized.

We recognize accrued interest and penalties related to unrecognized tax benefits in income tax expense in the Consolidated Statements of Earnings, which is consistent with the recognition of these items in prior reporting periods. As of January 1, 2007, we recorded a liability of \$9.6 million for accrued interest and penalties, of which \$7.5 million would impact our effective tax rate, if recognized. The amount of this liability is \$11.5 million as of June 30, 2007. Of this amount, \$8.6 million would impact our effective tax rate, if recognized.

We expect that the amount of tax liability for unrecognized tax benefits will change in the next twelve months; however, we do not expect these changes will have a significant impact on our results of operations or financial position.

The U.S. federal statute of limitations remains open for the year 2003 and onward with years 2003 and 2004 currently under examination by the IRS. It is reasonably possible that a resolution with the IRS for the years 2003 through 2004 will be reached within the next twelve months, but we do not anticipate this would result in any material impact on our financial position. In addition, for the 1999 tax year of Centerpulse, which we acquired in October 2003, one issue remains in dispute at the IRS appeals level. The resolution of this issue would not impact our effective tax rate as it would be recorded as an adjustment to goodwill.

State income tax returns are generally subject to examination for a period of 3 to 5 years after filing of the respective return. The state impact of any federal changes remains subject to examination by various states for a period of up to one year after formal notification to the states. We have various state income tax returns in the process of examination, administrative appeals or litigation. It is reasonably possible that such matters will be resolved in the next twelve months, but we do not anticipate that the resolution of these matters would result in any material impact on our results of operations or financial position.

Foreign jurisdictions have statutes of limitations generally ranging from 3 to 5 years. Years still open to examination by foreign tax authorities in major jurisdictions include Australia (2001 onward), Canada (1998 onward), France (2004 onward), Germany (2000 onward), Italy (2003 onward), Japan (2000 onward), Puerto Rico (2005 onward), Singapore (2002 onward), Switzerland (2004 onward), and the United Kingdom (2004 onward).

Our tax returns are currently under examination in various foreign jurisdictions, including Germany, Italy and Switzerland. It is reasonably possible that such audits will be resolved in the next twelve months, but we do not anticipate that the resolution of these audits would result in any material impact on our results of operations or financial position.

**ZIMMER HOLDINGS, INC. AND SUBSIDIARIES**

**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

**7. Retirement and Postretirement Benefit Plans**

We have defined benefit pension plans covering certain U.S. and Puerto Rico employees who were hired before September 2, 2002. Employees hired after September 2, 2002 are not part of the U.S. and Puerto Rico defined benefit plans, but do receive additional benefits under our defined contribution plans. Plan benefits are primarily based on years of credited service and the participant's compensation. In addition to the U.S. and Puerto Rico defined benefit pension plans, we sponsor various non-U.S. pension arrangements, including retirement and termination benefit plans required by local law or coordinated with government sponsored plans.

We also provide comprehensive medical and group life insurance benefits to certain U.S. and Puerto Rico retirees who elect to participate in our comprehensive medical and group life plans. The medical plan is contributory, and the life insurance plan is non-contributory. Employees hired after September 2, 2002 are not eligible for retiree medical and life insurance benefits. No similar plans exist for employees outside the U.S. and Puerto Rico.

The components of net pension expense for the three and six month periods ended June 30, 2007 and 2006, for our U.S. and non-U.S. defined benefit retirement plans are as follows (in millions):

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<u>2007</u>	<u>2006</u>	<u>2007</u>	<u>2006</u>
Service cost . . . . .	\$ 6.7	\$ 5.7	\$13.6	\$11.7
Interest cost . . . . .	3.4	3.1	7.0	6.1
Expected return on plan assets . . . . .	(4.4)	(3.6)	(8.9)	(7.2)
Amortization of unrecognized actuarial loss . . . . .	<u>0.8</u>	<u>0.8</u>	<u>1.5</u>	<u>1.9</u>
Net periodic benefit cost . . . . .	<u>\$ 6.5</u>	<u>\$ 6.0</u>	<u>\$13.2</u>	<u>\$12.5</u>

The components of net periodic benefit expense for the three and six month periods ended June 30, 2007 and 2006, for our U.S. and Puerto Rico postretirement benefit plans are as follows (in millions):

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<u>2007</u>	<u>2006</u>	<u>2007</u>	<u>2006</u>
Service cost . . . . .	\$ 0.4	\$ 0.4	\$ 0.8	\$ 0.9
Interest cost . . . . .	0.6	0.5	1.2	1.1
Amortization of unrecognized prior service cost . . . . .	(0.1)	(0.1)	(0.2)	(0.1)
Amortization of unrecognized actuarial loss . . . . .	<u>0.2</u>	<u>0.2</u>	<u>0.4</u>	<u>0.4</u>
Net periodic benefit cost . . . . .	<u>\$ 1.1</u>	<u>\$ 1.0</u>	<u>\$ 2.2</u>	<u>\$ 2.3</u>

We contributed \$26.6 million during the six month period ended June 30, 2007, to our U.S. and Puerto Rico defined benefit plans and may make additional contributions of \$1.4 million during 2007. We contributed \$4.4 million to our foreign-based defined benefit plans in the six month period ended June 30, 2007, and expect to contribute an additional \$3.8 million to these foreign-based plans during 2007. Contributions for the U.S. and Puerto Rico postretirement benefit plans are not expected to be significant.

**8. Share-Based Compensation**

Share-based compensation expense for the three and six month periods ended June 30, 2007 was \$20.2 million and \$41.1 million, or \$13.7 million and \$28.0 million net of the related tax benefits, respectively. Share-based

**ZIMMER HOLDINGS, INC. AND SUBSIDIARIES**

**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

compensation expense for the three and six month periods ended June 30, 2006 was \$20.8 million and \$39.0 million, or \$15.1 million and \$28.0 million net of the related tax benefits, respectively.

A summary of stock option activity for the six month period ended June 30, 2007 is as follows (options in thousands):

	<u>Stock Options</u>	<u>Weighted Average Exercise Price</u>
Outstanding at January 1, 2007 . . . . .	14,184	\$59.75
Options granted . . . . .	2,270	84.05
Options exercised . . . . .	(2,768)	45.19
Options cancelled . . . . .	<u>(291)</u>	73.61
Outstanding at June 30, 2007 . . . . .	<u>13,395</u>	66.53

The weighted-average fair value of the options granted in the six month period ended June 30, 2007 was \$24.71 per option. As of June 30, 2007, there was \$113.1 million of unrecognized share-based compensation expense related to nonvested stock options granted under our plans. That expense is expected to be recognized over a weighted average period of 3.3 years.

At June 30, 2007 there were 827,700 nonvested equity share units, with a grant date fair value of \$67.86. The unrecognized share-based payment expense as of June 30, 2007 was \$13 million, and is expected to be recognized over a period of 1.5 years.

**9. Stock Repurchase Program**

During the three and six months ended June 30, 2007, respectively, we purchased 1,520,456 shares of our common stock at an average price of \$86.69 per share for a total cash outlay of \$131.8 million, including commissions, and 3,604,256 shares of our common stock at an average price of \$84.66 per share for a total cash outlay of \$305.2 million, including commissions, under stock repurchase plans authorized by our Board of Directors in December 2005 and 2006. Purchases totaling an additional \$892.2 million may be made through December 31, 2008 under the plan authorized in 2006.

**10. Earnings Per Share**

The following is a reconciliation of weighted average shares for the basic and diluted shares computations (in millions):

	<u>Three Months Ended June 30,</u>		<u>Six Months Ended June 30,</u>	
	<u>2007</u>	<u>2006</u>	<u>2007</u>	<u>2006</u>
Weighted average shares outstanding for basic net earnings per share . . . . .	236.9	245.5	236.9	246.6
Effect of dilutive stock options . . . . .	<u>2.3</u>	<u>2.2</u>	<u>2.3</u>	<u>2.3</u>
Weighted average shares outstanding for diluted net earnings per share . . . . .	<u>239.2</u>	<u>247.7</u>	<u>239.2</u>	<u>248.9</u>

During the three and six month periods ended June 30, 2007, an average of 0.1 million options and 0.6 million options, respectively, to purchase shares of common stock were not included in the computation of diluted earnings per share as the exercise prices of these options were greater than the average market price of the common stock. During the three and six month periods ended June 30, 2006, an average of 8.6 million options and 8.7 million options, respectively, were not included.

**11. Segment Information**

We design, develop, manufacture and market reconstructive orthopaedic implants, including joint and dental, spinal implants, trauma products and related orthopaedic surgical products which include surgical supplies and instruments designed to aid in orthopaedic surgical procedures and post-operation rehabilitation. We also provide hospital-focused consulting services to help member institutions design, implement and manage successful orthopaedic programs. We manage operations through three major geographic segments — the Americas, which is comprised principally of the United States and includes other North, Central and South American markets; Europe, which is comprised principally of Europe and includes the Middle East and Africa; and Asia Pacific, which is comprised primarily of Japan and includes other Asian and Pacific markets. This structure is the basis for our reportable segment information discussed below. Management evaluates operating segment performance based upon segment operating profit exclusive of operating expenses pertaining to global operations and corporate expenses, share-based compensation, acquisition, integration and other expenses, inventory step-up, in-process research and development write-offs and intangible asset amortization expense. Global operations include research, development engineering, medical education, brand management, corporate legal, finance, and human resource functions, and U.S. and Puerto Rico based manufacturing operations and logistics. Intercompany transactions have been eliminated from segment operating profit.

**12. Recent Accounting Pronouncements**

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, “Fair Value Measurements,” (SFAS No. 157) which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The adoption of SFAS No. 157 is not expected to have a material impact on our financial position or results of operations.

In February 2007, the FASB issued SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities — Including an amendment of FASB Statement No. 115” (SFAS No. 159). SFAS No. 159 creates a “fair value option” under which an entity may elect to record certain financial assets or liabilities at fair value upon their initial recognition. Subsequent changes in fair value would be recognized in earnings as those changes occur. The election of the fair value option would be made on a contract-by-contract basis and would need to be supported by concurrent documentation or a preexisting documented policy. SFAS No. 159 requires an entity to separately disclose the fair value of these items on the balance sheet or in the footnotes to the financial statements and to provide information that would allow the financial statement user to understand the impact on earnings from the changes in the fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The adoption of SFAS No. 159 is not expected to have a material impact on our financial position or results of operations.

## ZIMMER HOLDINGS, INC. AND SUBSIDIARIES

### NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

#### 13. Commitments and Contingencies

As a result of the Centerpulse acquisition, we acquired the entity involved in Centerpulse's hip and knee implant litigation matter. The litigation was a result of a voluntary recall of certain hip and knee implants manufactured and sold by Centerpulse. On March 13, 2002, a U.S. Class Action Settlement Agreement ("Settlement Agreement") was entered into by Centerpulse that resolved U.S. claims related to the affected products and a settlement trust ("Settlement Trust") was established and funded for the most part by Centerpulse. The court approved the settlement arrangement on May 8, 2002. Under the terms of the Settlement Agreement, we will reimburse the Settlement Trust a specified amount for each revision surgery over 4,000 and revisions on reprocessed shells over 64. As of June 29, 2007, the claims administrator has received 4,133 likely valid claims for hips (cut-off date June 5, 2003) and knees (cut-off date November 17, 2003) and 200 claims for reprocessed shells (cut-off date September 8, 2004). We believe the litigation liability recorded as of June 30, 2007 is adequate to provide for any future claims regarding the hip and knee implant litigation.

On February 15, 2005, Howmedica Osteonics Corp. ("Howmedica") filed an action against us and an unrelated party in the United States District Court for the District of New Jersey alleging infringement of U.S. Patent Nos. 6,174,934; 6,372,814; 6,664,308; and 6,818,020. On June 13, 2007, the Court granted our motion for summary judgment on the invalidity of the asserted claims of U.S. Patent Nos. 6,174,934; 6,372,814; and 6,664,308 by ruling that all of the asserted claims are invalid for indefiniteness. Our motion for summary judgment on the invalidity of certain asserted claims of U.S. Patent No. 6,818,020 remains pending before the Court. We continue to believe that our defenses are valid and meritorious, and we intend to defend the Howmedica lawsuit vigorously.

We are also subject to product liability and other claims and lawsuits arising in the ordinary course of business, for which we maintain insurance, subject to self-insured retention limits. We establish accruals for product liability and other claims in conjunction with outside counsel based on current information and historical settlement information for open claims, related fees and for claims incurred but not reported. While it is not possible to predict with certainty the outcome of these cases, it is the opinion of management that, upon ultimate resolution, these cases will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

In July 2003, the Staff of the Securities and Exchange Commission informed Centerpulse that it was conducting an informal investigation of Centerpulse relating to certain accounting issues. We are continuing to fully cooperate with the Securities and Exchange Commission in this matter.

In March 2005, we received a subpoena and we have received supplemental requests since that time from the United States Department of Justice through the United States Attorney's Office in Newark, New Jersey, requesting that we produce documents and related information for the period beginning January 1998 pertaining to consulting contracts, professional service agreements and other agreements by which we may provide remuneration to orthopaedic surgeons, including research and other grant agreements. We understand that similar inquiries were directed to at least four other companies in the orthopaedics industry.

We continue to cooperate fully with federal authorities with regard to this matter. We recently began discussions, which are still in preliminary stages, with respect to a potential resolution of this matter. Given that these discussions are still preliminary, there can be no assurance that we will enter into a consensual resolution of this matter with federal authorities or what the terms of any such resolution may be.

In June 2006, we received a subpoena from the United States Department of Justice, Antitrust Division, requesting that we produce documents for the period beginning January 2001 through June 2006, pertaining to an investigation of possible violations of federal criminal law, including possible violations of the antitrust laws, involving the manufacture and sale of orthopaedic implant devices. We are cooperating fully with federal authorities with regard to this matter. We understand that similar inquiries were directed to at least four other companies in the orthopaedics industry.

## ZIMMER HOLDINGS, INC. AND SUBSIDIARIES

### NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Following the commencement of the Department of Justice, Antitrust Division's investigation, we and several other major orthopaedic manufacturers were named as defendants in five putative class action lawsuits as of January 1, 2007. These lawsuits were brought by direct and indirect purchasers of orthopaedic products alleging violations of Federal and state antitrust laws and certain state consumer protection statutes. In each of these lawsuits, the plaintiffs allege that the defendants engaged in a conspiracy to fix prices of orthopaedic implant devices. The direct purchaser cases, *South Central Surgical Center, LLC v. Zimmer Holdings, Inc. et al.* and *Chaiken DDS, P.C. v. Biomet, Inc. et al.*, were filed in the United States District Court for the Southern District of Indiana on July 13, 2006 and in the United States District Court for the Northern District of Indiana on July 26, 2006, respectively. The indirect purchaser cases, *Thomas v. Biomet, Inc. et al.*, *Kirschner v. Biomet, Inc. et al.* and *Williams v. Biomet, Inc. et al.*, were filed in the United States District Court for the Western District of Tennessee on July 18, 2006, July 24, 2006 and July 27, 2006, respectively.

On January 12, 2007, we and the other defendants in the five cases delivered a Motion for Transfer and Consolidation of Pretrial Proceedings under 28 U.S.C. § 1407 to the Judicial Panel on Multidistrict Litigation, requesting the court to transfer the cases to the United States District Court for the Southern District of Indiana for coordinated or consolidated pretrial proceedings. The motion was filed by the Panel on January 18, 2007. The plaintiffs did not oppose a stay of proceedings pending resolution of this motion. On January 15, 2007, the plaintiff in *Thomas v. Biomet, Inc. et al.* filed a Notice of Voluntary Dismissal Without Prejudice in the United States District Court for the Western District of Tennessee. On April 18, 2007, the Judicial Panel on Multidistrict Litigation issued a Transfer Order ordering that the three remaining actions pending outside the Southern District of Indiana be transferred to that district for coordinated or consolidated pretrial proceedings with the action already pending in that district. In each of these four remaining cases, the plaintiffs seek damages of unspecified amounts, in some cases to be trebled under applicable law, attorneys' fees and injunctive or other unspecified relief. We believe these lawsuits are without merit and we intend to defend them vigorously.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

### **Overview**

We are a global leader in the design, development, manufacture and marketing of reconstructive orthopaedic implants, including joint and dental, spinal implants, trauma products and related orthopaedic surgical products (sometimes referred to in this report as "OSP"). We also provide hospital-focused consulting services to help member institutions design, implement and manage successful orthopaedic programs, which account for less than one percent of sales. Reconstructive orthopaedic implants restore joint function lost due to disease or trauma in joints such as knees, hips, shoulders and elbows. Dental reconstructive implants restore function and aesthetics in patients that have lost teeth due to trauma or disease. Spinal implants are utilized by orthopaedic surgeons and neurosurgeons in the treatment of degenerative diseases, deformities and trauma in all regions of the spine. Trauma products are devices used primarily to reattach or stabilize damaged bone and tissue to support the body's natural healing process. OSP includes supplies and instruments designed to aid in orthopaedic surgical procedures and post-operation rehabilitation. Through our consulting services, we provide hospitals and other orthopaedic practices resource capabilities in the areas of business development, marketing, in/outpatient rehab practice, clinical pathways, care mapping and space design, community relations, customer service, delivery models, cost accounting, staff utilization and other areas. We have operations in more than 24 countries and market products in more than 100 countries. We manage operations through three reportable geographic segments — the Americas, Europe and Asia Pacific.

Certain percentages presented in Management's Discussion and Analysis are calculated from the underlying whole-dollar amounts and therefore may not recalculate from the rounded numbers used for disclosure purposes.

We believe the following developments or trends are important in understanding our financial condition, results of operations and cash flows for the three and six month periods ended June 30, 2007.

#### **Demand (Volume and Mix) Trends**

Increased volume and changes in the mix of product sales contributed 8 percentage points of sales growth during the three month period ended June 30, 2007, compared to 5 percentage points in the same 2006 period. We believe the market for orthopaedic procedure volume on a global basis continues to rise at mid single digit rates with the potential for high single digit growth driven by an aging global population, obesity, proven clinical benefits, new material technologies, advances in surgical techniques (such as our *Zimmer® Minimally Invasive Solutions™* (MIS) Procedures and Technologies), introduction of gender based devices and more active lifestyles, among other factors. In addition, the ongoing shift in demand to premium products, such as *Longevity®* and *Durasul®* Highly Crosslinked Polyethylenes, *Trabecular Metal™* Technology products, high-flex knees, knee revision products and porous hip stems, continues to positively affect sales growth. For example, during the three month period ended June 30, 2007, sales of products incorporating *Trabecular Metal* Technology were approximately \$53 million, an increase of over 25 percent compared to the same 2006 period.

We believe innovative products will continue to affect the orthopaedics industry. In the second half of 2006, we launched the *Zimmer Gender Solutions™* High-Flex Knee Femoral Implant, which was the result of five years of intensive research based on an analysis of 800 femurs and patella. High Flex Knees now make up over 40 percent of our knee revenue on a global basis, having grown from approximately 28 percent prior to the launch of the *Zimmer Gender Solutions* Knee.

#### **Pricing Trends**

Selling prices remained flat during the three month period ended June 30, 2007, which is similar to the same 2006 period. The Americas experienced a 1 percent increase in selling prices during the three month period ended June 30, 2007, which is similar to the same 2006 period. In Europe, selling prices for the three month period ended June 30, 2007 decreased 1 percent, which is similar to the same 2006 period. Within Europe, both Germany and Italy experienced 3 percent decreases in selling prices in the three month period ended June 30, 2007, as a result of reductions in government implant reimbursement rates and group purchasing arrangements while other European markets were flat or slightly positive. Germany and Italy combined currently represent approximately 11 percent of

our sales. Asia Pacific selling prices decreased 1 percent for the three month period ended June 30, 2007, compared to a 3 percent decrease in the same 2006 period. As anticipated, Japan reported a 5 percent decrease in average selling prices as a result of scheduled reductions in government controlled reimbursement prices, while other Asia Pacific markets were flat to positive. Japan currently represents approximately 7 percent of our sales. With the effect of governmental healthcare cost containment efforts and pressure from group purchasing organizations, we expect global selling prices will remain flat in 2007.

### Foreign Currency Exchange Rates

For the three month period ended June 30, 2007, foreign currency exchange rates had a positive 2 percent effect on sales. The positive effect of foreign currency exchange rates is expected to continue in the second half of the year. We estimate that an overall weaker U.S. Dollar will have a positive effect of approximately 2 percent on sales for the year ending December 31, 2007. We address currency risk through regular operating and financing activities, and under appropriate circumstances and subject to proper authorization, through the use of forward contracts solely for managing foreign currency volatility and risk. Changes to foreign currency exchange rates affect sales growth, but due to offsetting gains/losses on hedge contracts, which are recorded in cost of products sold, the effect on net earnings in the near term is expected to be minimal.

### New Product Sales

New products, which management defines as products or stock keeping units (SKU's) introduced within the prior 36-month period to a particular market, accounted for 24 percent, or \$238 million, of our sales during the three month period ended June 30, 2007. Adoption rates for new technologies are a key indicator of industry performance. Our sales have grown with the introduction of new products, such as *Trabecular Metal* Modular Acetabular Cups, certain SKU's of the *NexGen*® Complete Knee Solution including the *Gender Solutions* Knee Femoral Implant for the LPS-Flex, and CR-Flex Knees, the *Dynesys*®<sup>1</sup> Dynamic Stabilization System, the *Zimmer* M/L Taper Stem and *PALACOS*®<sup>2</sup> Bone Cement.

We believe new products in our current pipeline should continue to favorably affect our operating performance. Products we expect to contribute to new product sales in 2007 include the *Gender Solutions* Knee Femoral Implant; products incorporating *Trabecular Metal* Technology, including the *Trabecular Metal* Primary Hip Prosthesis, *Trabecular Metal* Acetabular Revision System and *Trabecular Metal* Spine Components; *Durom*® Acetabular Cups with *Metasul*® *LDH*® Large Diameter Heads; *Versys*® *Epoch*® Composite Hip Prosthesis; *Zimmer*® Reverse Shoulder System, *Anatomical Shoulder*™ Inverse/Reverse System; *Zimmer* MIS Femoral Nailing Solutions; *NCB*® Locking Plate System; and *CopiOs*® Bone Void Filler.<sup>3</sup>

### New Accounting Pronouncements

On January 1, 2007, we adopted FIN 48, which addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FIN 48, the tax benefits from an uncertain tax position may be recognized only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based on the technical merits of the position. FIN 48 also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

Prior to the adoption of FIN 48, we had a long term tax liability for expected settlement of various federal, state and foreign income tax liabilities that was reflected net of the corollary tax impacts of these expected settlements of \$102.1 million, as well as a separate accrued interest liability of \$1.7 million. As a result of the adoption of FIN 48, we are required to present the different components of such liability gross versus the historical net presentation. The adoption resulted in the tax liability for unrecognized tax benefits decreasing by \$6.4 million as of January 1, 2007.

<sup>1</sup> The *Dynesys* Dynamic Stabilization Spinal System is indicated for use as an adjunct to fusion in the U.S.

<sup>2</sup> *PALACOS*® is a trademark of Heraeus Kulzer GmbH. Under license from Heraeus Kulzer GmbH, Hanau, Germany.

<sup>3</sup> Manufactured by Kensey Nash Corporation.

This decrease in the liability resulted in a reduction to retained earnings of \$4.7 million, a reduction in goodwill of \$61.4 million, the establishment of a tax receivable of \$58.2 million, and the addition of an interest/penalty payable of \$7.9 million, all as of January 1, 2007.

### Acquisitions

We completed the acquisition of Endius on April 20, 2007. The acquisition did not have a material impact on our results of operations for the three and six month periods ended June 30, 2007. However, the acquisition costs of approximately \$73.0 million did have a significant impact on our cash flows for the six month period ended June 30, 2007.

Additionally during the three month period ended June 30, 2007, we completed acquisitions of Diadent Srl., a privately held distributor of our dental products in Italy, and certain U.S. based orthopaedic implant distribution businesses. These acquisitions did not have a material impact on our results of operations, balance sheet or cash flows for the three and six month periods ended June 30, 2007.

## Second Quarter Results of Operations

### *Net Sales by Operating Segment*

The following table presents net sales by operating segment and the components of the percentage changes (dollars in millions):

	Three Months Ended June 30,		% Inc (Dec)	Volume/ Mix	Price	Foreign Exchange
	2007	2006				
Americas . . . . .	\$568.1	\$520.9	9%	8%	1%	—%
Europe . . . . .	267.2	238.4	12	6	(1)	7
Asia Pacific . . . . .	<u>135.3</u>	<u>122.3</u>	11	11	(1)	1
	<u>\$970.6</u>	<u>\$881.6</u>	10	8	—	2

“Foreign Exchange” as used in the tables in this report represents the effect of changes in foreign exchange rates on sales growth.

### *Net Sales by Product Category*

The following table presents net sales by product category and the components of the percentage changes (dollars in millions):

	Three Months Ended June 30,		% Inc (Dec)	Volume/ Mix	Price	Foreign Exchange
	2007	2006				
Reconstructive						
Knees . . . . .	\$406.7	\$367.9	11%	8%	—%	3%
Hips . . . . .	324.1	299.8	8	7	(1)	2
Extremities . . . . .	26.3	19.5	35	31	2	2
Dental . . . . .	<u>56.5</u>	<u>46.4</u>	22	15	4	3
Total . . . . .	<u>813.6</u>	<u>733.6</u>	11	9	—	2
Trauma . . . . .	50.3	49.1	3	—	1	2
Spine . . . . .	49.0	46.0	7	6	(1)	2
OSP and other . . . . .	<u>57.7</u>	<u>52.9</u>	9	9	(1)	1
Total . . . . .	<u>\$970.6</u>	<u>\$881.6</u>	10	8	—	2

The *NexGen* Complete Knee Solution product line including *Gender Solutions* Knee Femoral Implants, the *NexGen* LPS-Flex Knee, *NexGen Trabecular Metal* Tibial Components, the *NexGen* CR-Flex Knee, the *NexGen* Rotating Hinge Knee and the *NexGen* LCCK Revision Knee led knee sales. In addition, strong growth in the *Zimmer* Unicompartmental High-Flex Knee and the *Innex*<sup>®</sup> Total Knee System were offset by declining sales of the *Natural Knee*<sup>®</sup> II System.

Growth in porous stems, including the *Zimmer* M/L Taper Stem, the *CLS*<sup>®</sup> *Spotorno*<sup>®</sup> Stem from the *CLS* Hip System, and the *Alloclassic*<sup>®</sup> *Zweymüller*<sup>®</sup> Hip Stem led hip stem sales, but was partially offset by weaker sales of cemented stems. Bone cement sales improved significantly, led by *PALACOS* Bone Cement. *Trabecular Metal* Acetabular Cups, *Durom* Hip Resurfacing System products internationally and *Longevity* and *Durasul* Highly Crosslinked Polyethylene Liners also had strong growth.

The *Bigliani/Flatow*<sup>®</sup> Complete Shoulder Solution and the *Trabecular Metal* Humeral Stem led extremities sales. Orthobiologicals and prosthetic implants, including strong growth of the *Tapered Screw-Vent*<sup>®</sup> Implant System, led dental sales. *Zimmer* Periarticular Locking Plates and *Zimmer* Plates and Screws led trauma sales, but were partially offset by declining sales of intramedullary nails and compression hip screws. The *Dynesys* Dynamic Stabilization System, the *Trinica*<sup>®</sup> Select cervical plate system, the *Optima*<sup>TM4</sup> ZS Spinal Fixation System and Spinal *Trabecular Metal* Spacers led spine sales as well as products acquired from Endius making a modest contribution to spine sales in the quarter. Extremity surgical products led OSP sales.

#### Americas Net Sales

The following table presents Americas net sales (dollars in millions):

	Three Months Ended June 30,		% Inc (Dec)
	2007	2006	
Reconstructive			
Knees . . . . .	\$256.0	\$235.4	9%
Hips . . . . .	157.8	146.4	8
Extremities . . . . .	18.5	13.5	38
Dental . . . . .	31.3	27.0	16
Total . . . . .	<u>463.6</u>	<u>422.3</u>	10
Trauma . . . . .	30.1	29.1	3
Spine . . . . .	40.2	38.0	6
OSP and other . . . . .	<u>34.2</u>	<u>31.5</u>	9
Total . . . . .	<u>\$568.1</u>	<u>\$520.9</u>	9

The *NexGen* Complete Knee Solution product line, including the *Gender Solutions* Knee Femoral Implants, *NexGen* LPS-Flex Knee, *NexGen Trabecular Metal* Tibial Components, the *NexGen* LCCK Revision Knee and the *NexGen* CR-Flex Knee led knee sales. The *Zimmer* Unicompartmental High-Flex Knee also made a strong contribution but was offset by declining sales of the *Natural Knee* II System.

Growth in porous stems, including growth of the *Zimmer* M/L Taper Stem and *Alloclassic* *Zweymüller* Hip Stem led hip stem sales, but were partially offset by weaker sales of cemented stems. *PALACOS* Bone Cement, and *Trabecular Metal* Acetabular Cups also exhibited strong growth.

The *Bigliani/Flatow* Shoulder Solution and the *Trabecular Metal* Humeral Stem led extremities sales. The *Tapered Screw-Vent* Implant System led dental sales. *Zimmer* Periarticular Plates, *Zimmer* Plates and Screws and the *I.T.S.T.*<sup>TM</sup> Intertrochanteric/Subtrochanteric Fixation System led trauma sales. The *Dynesys* Dynamic Stabilization

<sup>4</sup> Trademark of U&I Corporation.

System, *Trinica* Select Cervical Plate System, the *Optima* ZS Spinal Fixation System and Spinal *Trabecular Metal* Spacers led spine sales. Wound management products led OSP sales.

### *Europe Net Sales*

The following table presents Europe net sales (dollars in millions):

	<b>Three Months Ended June 30,</b>		<b>% Inc (Dec)</b>
	<b><u>2007</u></b>	<b><u>2006</u></b>

Spine .....	7.4	6.2	21
OSP and other .....	<u>9.2</u>	<u>8.5</u>	6
Total .....	<u><u>\$267.2</u></u>	<u><u>\$238.4</u></u>	12

Changes in foreign exchange rates positively affected knee and hip sales both by 7 percent. Excluding these foreign exchange rate effects, the following product categories experienced positive sales growth in our Europe region: the *NexGen* Complete Knee Solution product line, including the *NexGen* LPS-Flex Knee, *NexGen Trabecular Metal* Tibial Components and the *NexGen* CR-Flex Knee, and the *Innex* Total Knee System. Growth in porous stems, including the *CLS Spotorno* Stem led hip stem sales. *Longevity* and *Durasul* Highly Crosslinked Polyethylene Liners, the *Durom* Hip Resurfacing System, *Trabecular Metal* Acetabular Cups and the *Allofit<sup>TM</sup>* Hip Acetabular System also contributed to hip sales.

The *Anatomical Shoulder* System, the *Anatomical Shoulder* Inverse/Reverse System and the Coonrad/Morrey Total Elbow led extremities sales. The addition of a direct sales force in Italy as a result of the Diadent acquisition contributed to growth in dental sales and the *Tapered Screw-Vent* Implant System led dental sales. The *Cable-Ready*<sup>®</sup> Cable Grip System, *Zimmer* Periarticular Plates and the *NCB* Plating System led trauma sales, which were offset by weaker sales of our intramedullary fixation systems. The *Dynesys* Dynamic Stabilization System, the *Optima* ZS Spinal Fixation System and *Trabecular Metal* Spacers led spine sales. Wound management products led OSP sales.

### Asia Pacific Net Sales

The following table presents Asia Pacific net sales (dollars in millions):

	Three Months Ended June 30,		% Inc (Dec)
	2007	2006	
Reconstructive			
Knees . . . . .	\$ 49.8	\$ 42.3	18%
Hips . . . . .	50.7	47.4	7
Extremities . . . . .	1.7	1.4	23
Dental . . . . .	7.1	7.1	0
Total . . . . .	<u>109.3</u>	<u>98.2</u>	11
Trauma . . . . .	10.3	9.4	10
Spine . . . . .	1.4	1.8	(24)
OSP and other . . . . .	14.3	12.9	11
Total . . . . .	<u>\$135.3</u>	<u>\$122.3</u>	11

Changes in foreign exchange rates positively affected knee sales by 3 percent and had no effect on hip sales. Reported decreases in average selling prices negatively affected hip sales by 2 percent. The *NexGen Complete Knee Solution* product line, including *NexGen Trabecular Metal* Tibial Components, the *NexGen CR-Flex Knee* and the *NexGen LPS-Flex Knee* led knee sales. Launch of the *Gender Solutions Knee Femoral Implant* in Australia also contributed to strong knee sales for the period. The continued conversion to porous stems, including the *Fiber Metal Taper Stem* from the *VerSys Hip System*, the *Alloclassic Zweymüller Hip System* and the *CLS Spotorno Stem* led hip stem sales. Sales of *Longevity Highly Crosslinked Polyethylene Liners*, the *Durom Hip Resurfacing System* and *Trabecular Metal Acetabular Cups* also exhibited growth.

Extremities sales increased due to stronger sales of our shoulder products. The *Tapered Screw-Vent Implant System* led dental sales. Trauma sales were affected by a reported 5 percent decrease in average selling prices during the three months ended June 30, 2007. A temporary registration issue with the *ST360<sup>®</sup> Spinal Fixation System* in Japan resulted in a decrease in sales of this device, contributing to the negative growth in Spine sales for the period. Powered surgical instruments led OSP sales.

### Gross Profit

Gross profit as a percentage of net sales was 77.7 percent in the three month period ended June 30, 2007, compared to 77.3 percent in the same 2006 period and 78.3 percent in the three month period ended March 31, 2007. The improvement in gross profit margin over the same 2006 period reflects favorable changes in product and geographic sales mix while the decline from the period ended March 31, 2007 is driven principally by the effects of changes in foreign exchange rates combined with our hedging program. Under our hedging program, for derivatives which qualify as hedges of future cash flows, the effective portion of changes in fair value is temporarily recorded in other comprehensive income, and then recognized in cost of products sold when the hedged item affects earnings.

### Operating Expenses

R&D as a percentage of net sales was 5.5 percent for the three month period ended June 30, 2007, consistent with the same 2006 period. R&D increased to \$53.5 million for the three month period ended June 30, 2007, from \$48.6 million in the same 2006 period, reflecting increased spending on projects focused on areas of strategic significance, including orthobiologics. We target R&D spending to the high end of what management believes to be an average of 4-6 percent for our industry.

SG&A as a percentage of net sales was 38.6 percent for the three month period ended June 30, 2007, compared to 39.1 percent in the same 2006 period. SG&A increased to \$374.3 million for the three month period ended

June 30, 2007, from \$344.8 million in the same 2006 period. The improvement in SG&A as a percent of net sales from the prior year is due primarily to controlled spending.

Acquisition, integration and other expenses for the three month period ended June 30, 2007 were \$3.9 million compared to \$6.3 million in the same 2006 period. The expenses for the period reflect in-process research and development write-offs related to acquisitions, integration consulting fees and costs for integrating information technology systems.

***Operating Profit, Income Taxes and Net Earnings***

Operating profit for the three month period ended June 30, 2007 increased 14 percent to \$322.5 million, from \$281.9 million in the same 2006 period. Increased sales, improved gross profit margins and controlled operating expenses drove operating profit.

The effective tax rate on earnings before income taxes and minority interest decreased to 28.5 percent for the three month period ended June 30, 2007, from 28.9 percent in the same 2006 period. The decrease in the effective tax rate is primarily due to increased profitability in lower tax jurisdictions.

Net earnings increased 15 percent to \$231.5 million for the three month period ended June 30, 2007, compared to \$200.9 million in the same 2006 period. The increase was primarily due to higher operating profit and a lower effective tax rate. Basic and diluted earnings per share both increased 20 percent to \$0.98 and \$0.97, respectively, from \$0.82 and \$0.81, respectively, in the same 2006 period. The higher growth rate in earnings per share as compared with net earnings is attributed to the effect of 2006 and 2007 share repurchases.

***Operating Profit by Segment***

Management evaluates operating segment performance based upon segment operating profit exclusive of operating expenses pertaining to global operations and corporate expenses, share-based payment expense, acquisition, integration and other expenses, inventory step-up, in-process research and development write-offs and intangible asset amortization expense. Global operations include research, development engineering, medical education, brand management, corporate legal, finance, and human resource functions, and U.S. and Puerto Rico based operations and logistics. Intercompany transactions have been eliminated from segment operating profit. For more information regarding our segments, see Note 11 to the consolidated financial statements included elsewhere in this Form 10-Q.

The following table sets forth operating profit as a percentage of sales by segment for the three month periods ended June 30, 2007 and 2006:

***Percent of net sales***

	<b>Three Months Ended June 30,</b>	
	<b>2007</b>	<b>2006</b>
Americas . . . . .	52.2%	53.2%
Europe . . . . .	40.5	41.0
Asia Pacific . . . . .	48.2	47.9

In the Americas, operating profit as a percentage of sales decreased due to increases in spending for direct to patient advertising in the second quarter of this year.

European operating profit as a percentage of net sales decreased from prior year, reflecting lower gross margins as a result of decreases in average selling prices.

Asia Pacific operating profit as a percentage of net sales increased primarily due to increases in gross margins as compared to the prior year. Gross margins increased throughout most of the Asia Pacific markets, including Japan, despite decreases in average selling prices in Japan as a result of reductions in government controlled reimbursement prices.

## Six Months Results of Operations

### Net Sales by Operating Segment

The following table presents net sales by operating segment and the components of the percentage changes (dollars in millions):

	Six Months Ended June 30,		% Inc (Dec)	Volume/ Mix	Price	Foreign Exchange
	2007	2006				
Americas . . . . .	\$1,135.9	\$1,036.9	10%	9%	1%	—%
Europe . . . . .	526.0	467.1	13	6	(1)	8
Asia Pacific . . . . .	258.9	238.0	9	10	(2)	1
	<u>\$1,920.8</u>	<u>\$1,742.0</u>	10	8	—	2

“Foreign Exchange” as used in the tables in this report represents the effect of changes in foreign exchange rates on sales growth.

### Net Sales by Product Category

The following table presents net sales by product category and the components of the percentage changes (dollars in millions):

	Six Months Ended June 30,		% Inc (Dec)	Volume/ Mix	Price	Foreign Exchange
	2007	2006				
Reconstructive						
Knees . . . . .	\$ 814.2	\$ 734.2	11%	9%	—%	2%
Hips . . . . .	640.9	592.5	8	6	(1)	3
Extremities . . . . .	50.5	37.9	33	30	1	2
Dental . . . . .	105.5	86.5	22	16	4	2
Total . . . . .	<u>1,611.1</u>	<u>1,451.1</u>	11	9	—	2
Trauma . . . . .	100.4	95.8	5	3	1	1
Spine . . . . .	95.7	89.1	7	6	—	1
OSP and other . . . . .	113.6	106.0	7	6	—	1
Total . . . . .	<u>\$1,920.8</u>	<u>\$1,742.0</u>	10	8	—	2

The *NexGen Complete Knee Solution* product line including *Gender Solutions* Knee Femoral Implants, the *NexGen LPS-Flex Knee*, *NexGen Trabecular Metal* Tibial Components, the *NexGen CR-Flex Knee*, the *NexGen Rotating Hinge Knee* and the *NexGen LCCK Revision Knee* led knee sales. In addition, the *Zimmer Unicompartmental High-Flex Knee* and the *Innex Total Knee System* exhibited strong growth.

Growth in porous stems, including the *Zimmer M/L Taper Stem*, the *CLS Spotorno Stem* from the *CLS Hip System*, and the *Alloclassic Zweymüller Hip Stem* led hip stem sales, but was partially offset by weaker sales of cemented stems. Sales of bone cement improved significantly, led by *PALACOS Bone Cement*, *Trabecular Metal Acetabular Cups*, *Durom Hip Resurfacing System* products internationally, and *Longevity* and *Durasul Highly Crosslinked Polyethylene Liners* also had strong growth.

The *Bigliani/Flatow Complete Shoulder Solution* and the *Trabecular Metal Humeral Stem* led extremities sales. Orthobiologicals and prosthetic implants, including strong growth of the *Tapered Screw-Vent Implant System*, led dental sales. *Zimmer Periarticular Locking Plates* and *Zimmer Plates and Screws* led trauma sales. The *Dynesys Dynamic Stabilization System*, the *Trinica Select*, the *Optima ZS Spinal Fixation System* and *Spinal Trabecular Metal Spacers* led spine sales. Extremity Surgical Products led OSP sales.

### Americas Net Sales

The following table presents Americas net sales (dollars in millions):

	Six Months Ended June 30,		% Inc (Dec)
	2007	2006	
Reconstructive			
Knees . . . . .	\$ 518.7	\$ 475.3	9%
Hips . . . . .	314.1	288.3	9
Extremities . . . . .	36.2	26.4	37
Dental . . . . .	59.5	50.7	17
Total . . . . .	<u>928.5</u>	<u>840.7</u>	10
Trauma . . . . .	61.3	57.7	6
Spine . . . . .	78.5	74.1	6
OSP and other . . . . .	67.6	64.4	5
Total . . . . .	<u>\$1,135.9</u>	<u>\$1,036.9</u>	10

The *NexGen* Complete Knee Solution product line, including the *Gender Solutions* Knee Femoral Implants, *NexGen* LPS-Flex Knee, *NexGen Trabecular Metal* Tibial Components, the *NexGen* LCCK Revision Knee and the *NexGen* CR-Flex Knee led knee sales. The *Zimmer* Unicompartmental High-Flex Knee also made a strong contribution.

Growth in porous stems, including growth of the *Zimmer* M/L Taper Stem and *Alloclassic Zweymüller* Hip Stem led hip stem sales, but was partially offset by weaker sales of cemented stems. *PALACOS* Bone Cement and *Trabecular Metal* Acetabular Cups also exhibited strong growth.

The *Bigliani/Flatow* Shoulder Solution and the *Trabecular Metal* Humeral Stem led extremities sales. The *Tapered Screw-Vent* Implant System led dental sales. *Zimmer* Periarticular Plates, *Zimmer* Plates and Screws and the *I.T.S.T.* Intertrochanteric/Subtrochanteric Fixation System led trauma sales. The *Dynesys* Dynamic Stabilization System, the *Optima* ZS Spinal Fixation System and Spinal *Trabecular Metal* Spacers led spine sales. Extremity surgical products led OSP sales.

### Europe Net Sales

The following table presents Europe net sales (dollars in millions):

	Six Months Ended June 30,		% Inc
	2007	2006	
Reconstructive			
Knees . . . . .	\$202.9	\$178.7	14%
Hips . . . . .	229.0	209.3	9
Extremities . . . . .	11.1	8.8	26
Dental . . . . .	31.5	23.6	34
Total . . . . .	<u>474.5</u>	<u>420.4</u>	13
Trauma . . . . .	19.0	18.5	3
Spine . . . . .	14.4	11.7	23
OSP and other . . . . .	18.1	16.5	9
Total . . . . .	<u>\$526.0</u>	<u>\$467.1</u>	13

Changes in foreign exchange rates positively affected knee and hip sales both by 8 percent. Excluding these foreign exchange rate effects, these product categories experienced positive sales growth in our Europe region; the *NexGen* Complete Knee Solution product line, including the *NexGen* LPS-Flex Knee, *NexGen Trabecular Metal* Tibial Components and the *NexGen* CR-Flex Knee, and the *Innex* Total Knee System. Growth in porous stems, including the *CLS Spotorno* Stem led hip stem sales. *Longevity* and *Durasul* Highly Crosslinked Polyethylene Liners, the *Durom* Hip Resurfacing System, *Trabecular Metal* Acetabular Cups and the *Allofit* Hip Acetabular System also contributed to hip sales.

The *Anatomical Shoulder* System, the *Anatomical Shoulder Inverse/Reverse* System and the *Coonrad/Morrey* Total Elbow led extremities sales. The addition of a direct sales force in Italy as a result of the *Diadent* acquisition contributed to growth in dental sales and the *Tapered Screw-Vent* Implant System led dental sales. The *Cable-Ready* Cable Grip System, *Zimmer* Periarticular Plates and the *NCB* Plating System led trauma sales, which were offset by weaker sales of our intramedullary fixation systems. The *Dynesys* Dynamic Stabilization System, the *Optima* ZS Spinal Fixation System and *Trabecular Metal* Spacers led spine sales. Wound management products led OSP sales.

### **Asia Pacific Net Sales**

The following table presents Asia Pacific net sales (dollars in millions):

	Six Months Ended June 30,		% Inc (Dec)
	2007	2006	
Reconstructive			
Knees . . . . .	\$ 92.6	\$ 80.2	15%
Hips . . . . .	97.8	94.9	3
Extremities . . . . .	3.2	2.7	18
Dental . . . . .	14.5	12.2	19
Total . . . . .	<u>208.1</u>	<u>190.0</u>	10
Trauma . . . . .	20.1	19.6	2
Spine . . . . .	2.8	3.3	(15)
OSP and other . . . . .	27.9	25.1	12
Total . . . . .	<u>\$258.9</u>	<u>\$238.0</u>	9

Changes in foreign exchange rates positively affected knee sales by 3 percent and had no effect on hip sales. Reported decreases in average selling prices negatively affected hip sales by 4 percent. The *NexGen* Complete Knee Solution product line, including *NexGen Trabecular Metal* Tibial Components, the *NexGen* CR-Flex Knee and the *NexGen* LPS-Flex Knee led knee sales. Launch of the *Gender Solutions* Knee Femoral Implant in Australia also contributed to strong knee sales for the period. The continued conversion to porous stems, including the *Fiber Metal* Taper Stem from the *VerSys* Hip System, the *Alloclassic Zweymüller* Hip System and the *CLS Spotorno* Stem led hip stem sales. Sales of *Longevity* Highly Crosslinked Polyethylene Liners, the *Durom* Hip Resurfacing System and *Trabecular Metal* Acetabular Cups also exhibited growth.

Extremities sales increased due to stronger sales of our shoulder and elbow products. The *Tapered Screw-Vent* Implant System led dental sales. Trauma sales were affected by a reported 5 percent decrease in average selling prices during the six months ended June 30, 2007. A temporary registration issue with the *ST360°* Spinal Fixation System in Japan resulted in a decrease in sales of this device, contributing to the negative growth in Spine sales for the period. Powered surgical instruments led OSP sales.

### **Gross Profit**

Gross profit as a percentage of net sales was 78.0 percent in the six month period ended June 30, 2007, compared to 77.6 percent in the same 2006 period. Primary contributors to the improvement in gross profit margin were reductions in unit manufacturing cost for various products and the effects of changes in foreign exchange rates

combined with our hedging program. Under our hedging program, we temporarily record the effective portion of changes in fair value of derivatives which qualify as hedges of future cash flows in other comprehensive income, and then recognize the hedged item in cost of products sold when it affects earnings.

***Operating Expenses***

R&D as a percentage of net sales was 5.5 percent for the six month period ended June 30, 2007, consistent with the same 2006 period. R&D increased to \$105.8 million for the six month period ended June 30, 2007, from \$96.0 million in the same 2006 period, reflecting increased spending on projects focused on areas of strategic significance, including orthobiologics.

SG&A as a percentage of net sales was 38.3 percent for the six month period ended June 30, 2007, compared to 39.0 percent in the same 2006 period. SG&A increased to \$735.9 million for the six month period ended June 30, 2007, from \$679.7 million in the same 2006 period. SG&A expenses in the first quarter of 2007 were positively affected by the favorable settlement of a legal claim made against a third party for interference in a contractual relationship with a former distributor of our products.

Acquisition, integration and other expenses for the six month period ended June 30, 2007 were \$6.6 million compared to \$4.5 million in the same 2006 period. The expenses for the current period reflect in-process research and development write-offs related to acquisitions, estimated settlements for certain pre-acquisition product liability claims, integration consulting fees and costs for integrating information technology systems. The expenses in the prior year period were offset by a gain on the sale of our Austin, Texas facility and land and a favorable adjustment to acquired Centerpulse reserves related to product liabilities.

***Operating Profit, Income Taxes and Net Earnings***

Operating profit for the six month period ended June 30, 2007 increased 14 percent to \$649.7 million, from \$572.4 million in the same 2006 period. Increased sales, improved gross profit margins and controlled operating expenses drove operating profit.

The effective tax rate on earnings before income taxes and minority interest decreased to 28.5 percent for the six month period ended June 30, 2007, from 29.1 percent in the same 2006 period. The decrease in the effective tax rate is primarily due to increased profitability in lower tax jurisdictions.

Net earnings increased 14 percent to \$464.9 million for the six month period ended June 30, 2007, compared to \$406.5 million in the same 2006 period. The increase was primarily due to higher operating profit and a lower effective tax rate. Basic and diluted earnings per share each increased 19 percent, respectively, to \$1.96 and \$1.94, respectively, from \$1.65 and \$1.63, respectively, in the same 2006 period. The higher growth rate in earnings per share as compared with net earnings is attributed to the effect of 2006 and 2007 share repurchases.

***Operating Profit by Segment***

The following table sets forth operating profit as a percentage of sales by segment for the six month periods ended June 30, 2007 and 2006:

***Percent of net sales***

	<b>Six Months Ended June 30,</b>	
	<b>2007</b>	<b>2006</b>
Americas . . . . .	52.3%	52.6%
Europe . . . . .	41.9	42.2
Asia Pacific . . . . .	47.8	48.1

In the Americas, operating profit as a percentage of sales decreased due to increased spending for direct to patient advertising that occurred in the first half of this year.

European operating profit as a percentage of net sales decreased from the prior year, reflecting lower gross margins as a result of decreases in average selling prices.

Asia Pacific operating profit as a percentage of net sales decreased primarily due to increases in operating expenses as a percent of sales as compared to the prior year. Operating expenses grew at a faster rate than sales in Japan where average selling prices decreased by 5 percent as a result of reductions in government controlled reimbursement prices.

## **Liquidity and Capital Resources**

Cash flows provided by operating activities were \$495.7 million for the six month period ended June 30, 2007, compared to \$507.9 million in the same 2006 period. The principal source of cash was net earnings of \$464.9 million. The positive cash flow associated with the tax benefit from stock option exercises was \$12.3 million in the six month period ended June 30, 2007. Operating cash flows from working capital changes for the six month period ended June 30, 2007 decreased compared to the same 2006 period primarily due to increased pension funding and tax payments made during 2007.

We continue to focus on working capital management. At June 30, 2007, we had 58 days of sales outstanding in trade accounts receivable, which is favorable to June 30, 2006 and March 31, 2007 by 1 day. At June 30, 2007, we had 284 days of inventory on hand, unfavorable to June 30, 2006 by 11 days and favorable to March 31, 2007 by 3 days. Our inventory levels increased in 2007 due to preparation for new product launches and increased production.

Cash flows used in investing activities were \$255.3 million for the six month period ended June 30, 2007, compared to \$112.1 million used in investing in the same 2006 period. The biggest contributor to the increase in cash flows used in investing activities was the acquisition costs related to the acquisitions of Endius, Diadent and the additions to our U.S. distributor network. Cash payments related to acquisitions during the six month period ended June 30, 2007 were \$112.1 million compared to \$13.5 million in the same 2006 period. Additions to instruments increased during the six month period ended June 30, 2007 due to an increase in instrument deployments related to new product launches. Additions to other property, plant and equipment increased during the six month period ended June 30, 2007 as we continue to expand our manufacturing and research and development facilities.

Cash flows used in financing activities were \$147.5 million for the six month period ended June 30, 2007, compared to \$297.7 million used in financing activities in the same 2006 period. Proceeds from our stock compensation plans have increased in the six month period ended June 30, 2007, compared to the same 2006 period due to an increase in employee stock option exercises. For the six months ended June 30, 2007, we purchased 3.6 million common shares for a total of \$305.2 million under our stock repurchase programs, compared to \$316.4 million in the same 2006 period.

We have a five year \$1,350 million revolving, multi-currency, senior unsecured credit facility maturing March 31, 2010 (the "Senior Credit Facility"). We had \$95.2 million outstanding under the Senior Credit Facility at June 30, 2007, and therefore, our available borrowings were \$1,254.8 million. The \$95.2 million is owed by our Japan subsidiary and carries a low interest rate, which is why we have not repaid the debt. The Senior Credit Facility contains a provision whereby borrowings may be increased to \$1,750 million.

We and certain of our wholly owned foreign and domestic subsidiaries are the borrowers, and our wholly owned domestic subsidiaries are the guarantors, of the Senior Credit Facility. Borrowings under the Senior Credit Facility are used for general corporate purposes and bear interest at a LIBOR-based rate plus an applicable margin determined by reference to our senior unsecured long-term credit rating and the amounts drawn under the Senior Credit Facility, at an alternate base rate, or at a fixed rate determined through a competitive bid process. The Senior Credit Facility contains customary affirmative and negative covenants and events of default for an unsecured financing arrangement, including, among other things, limitations on consolidations, mergers and sales of assets. Financial covenants include a maximum leverage ratio of 3.0 to 1.0 and a minimum interest coverage ratio of 3.5 to 1.0. If we fall below an investment grade credit rating, additional restrictions would result, including restrictions on investments, payment of dividends and stock repurchases. We were in compliance with all covenants under the

Senior Credit Facility as of June 30, 2007. Commitments under the Senior Credit Facility are subject to certain fees, including a facility and a utilization fee. The Senior Credit Facility was upgraded to A- in April 2007 by Standard & Poor's Ratings Services. The Senior Credit Facility is not rated by Moody's Investors' Service, Inc.

We also have available uncommitted credit facilities totaling \$67.0 million.

In December 2005, our Board of Directors authorized a stock repurchase program of up to \$1 billion through December 31, 2007. In December 2006, our Board of Directors authorized an additional \$1 billion program through December 31, 2008. As of June 30, 2007, we had purchased shares of common stock with an aggregate purchase price of \$1.1 billion, including commissions, under these programs. We may use excess cash to purchase additional common stock under the program authorized in 2006.

Management believes that cash flows from operations, together with available borrowings under the Senior Credit Facility, are sufficient to meet our working capital, capital expenditure and debt service needs. Should investment opportunities arise, we believe that our earnings, balance sheet and cash flows will allow us to obtain additional capital, if necessary.

### Contractual Obligations

We have entered into contracts with various third parties in the normal course of business which will require future payments. The following table illustrates our contractual obligations as of June 30, 2007, including the adoption of FIN 48 (in millions):

	<u>Total</u>	<u>2007</u>	<u>2008 and 2009</u>	<u>2010 and 2011</u>	<u>2012 and Thereafter</u>
Long-term debt . . . . .	\$ 95.2	\$ —	\$ —	\$ 95.2	\$ —
Operating leases . . . . .	92.2	12.1	34.4	20.6	25.1
Purchase obligations . . . . .	30.8	29.2	1.6	—	—
Other current tax reserves . . . . .	11.5	11.5	—	—	—
Other long-term liabilities . . . . .	<u>296.8</u>	<u>—</u>	<u>99.8</u>	<u>46.2</u>	<u>150.8</u>
Total contractual obligations . . . . .	<u>\$526.5</u>	<u>\$52.8</u>	<u>\$135.8</u>	<u>\$162.0</u>	<u>\$175.9</u>

### Recent Accounting Pronouncements

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, "Fair Value Measurements," (SFAS No. 157) which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The adoption of SFAS No. 157 is not expected to have a material impact on our financial position or results of operations.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities — Including an amendment of FASB Statement No. 115" (SFAS No. 159). SFAS No. 159 creates a "fair value option" under which an entity may elect to record certain financial assets or liabilities at fair value upon their initial recognition. Subsequent changes in fair value would be recognized in earnings as those changes occur. The election of the fair value option would be made on a contract-by-contract basis and would need to be supported by concurrent documentation or a preexisting documented policy. SFAS No. 159 requires an entity to separately disclose the fair value of these items on the balance sheet or in the footnotes to the financial statements and to provide information that would allow the financial statement user to understand the impact on earnings from the changes in the fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The adoption of SFAS No. 159 is not expected to have a material impact on our financial position or results of operations.

## Critical Accounting Policies

Our financial results are affected by the selection and application of accounting policies and methods. On January 1, 2007 we adopted FIN 48. FIN 48 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FIN 48, the tax benefits from an uncertain tax position may be recognized only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based on the technical merits of the position. FIN 48 also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. FIN 48 requires significant judgment in determining what constitutes an individual tax position as well as assessing the outcome of each tax position.

There were no other changes in the six month period ended June 30, 2007 to the application of critical accounting estimates as described in our Annual Report on Form 10-K for the year ended December 31, 2006.

## Forward Looking Statements

This quarterly report contains certain statements that are forward-looking statements within the meaning of federal securities laws. When used in this report, the words “may,” “will,” “should,” “anticipate,” “estimate,” “expect,” “plan,” “believe,” “predict,” “potential,” “project,” “target,” “forecast,” “intend” and similar expressions are intended to identify forward-looking statements. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those projected. These risks and uncertainties include, but are not limited to:

- competition;
- pricing pressures;
- dependence on new product development, technological advances and innovation;
- reductions in reimbursement levels by third-party payors and cost containment efforts of health care purchasing organizations;
- the outcome of the pending U.S. Department of Justice investigations announced in March 2005 and June 2006;
- challenges relating to changes in and compliance with Federal, state and foreign governmental laws and regulations affecting our U.S. and international businesses, including tax obligations and risks;
- retention of our independent agents and distributors;
- changes in customer demand for our products and services caused by demographic changes or other factors;
- changes in general domestic and international economic conditions, including interest rate and currency exchange rate fluctuations;
- our ability to protect proprietary technology and other intellectual property and claims for infringement of the intellectual property rights of third parties;
- product liability claims;
- the possible disruptive effect of additional strategic acquisitions and our ability to successfully integrate acquired companies;
- our ability to form strategic alliances with other orthopaedic and biotechnology companies;
- changes in prices of raw materials and products and our ability to control costs and expenses;
- changes in general industry and market conditions, including domestic and international growth rates;
- our dependence on a limited number of suppliers for key raw materials and outsourced activities; and
- shifts in our product category sales mix or our regional sales mix away from products or geographic regions that generate higher operating margins.

We discuss these and other important risks and uncertainties that may affect our future operations in Part I, Item 1A — Risk Factors in our most recent Annual Report on Form 10-K and may update that discussion in Part II, Item 1A — Risk Factors in this or another Quarterly Report on Form 10-Q we file hereafter. Readers of this report are cautioned not to place undue reliance on these forward-looking statements. While we believe the assumptions on which the forward-looking statements are based are reasonable, there can be no assurance that these forward-looking statements will prove to be accurate. This cautionary statement is applicable to all forward-looking statements contained in this report.

**Item 3. *Quantitative and Qualitative Disclosures About Market Risk***

There have been no material changes from the information provided in our Annual Report on Form 10-K for the year ended December 31, 2006.

**Item 4. *Controls and Procedures***

We have established disclosure controls and procedures and internal controls over financial reporting to provide reasonable assurance that material information relating to us, including our consolidated subsidiaries, is made known on a timely basis to management and the Board of Directors. However, no control system, no matter how well designed and operated, can provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report are effective.

There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934) that occurred during the quarter ended June 30, 2007, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Part II — Other Information**

**Item 1. *Legal Proceedings***

Information pertaining to legal proceedings can be found in Note 13 to the interim consolidated financial statements included in Part I of this report.

**Item 1A. *Risk Factors***

Except as reported in any previously filed Quarterly Report on Form 10-Q, there have been no material changes from the risk factors disclosed in Part I — Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2006.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The following table summarizes repurchases of common stock settled during the three month period ended June 30, 2007:

	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs*</u>	<u>Approximate Dollar Value of Shares that May Yet Be Purchased Under Plans or Programs</u>
April 2007 . . . . .	—	\$ —	—	\$1,024,032,907
May 2007 . . . . .	272,356	88.24	14,502,000	1,000,000,077
June 2007 . . . . .	<u>1,248,100</u>	<u>86.36</u>	<u>15,750,100</u>	<u>892,218,836</u>
Total . . . . .	<u>1,520,456</u>	<u>\$86.69</u>	<u>15,750,100</u>	<u>\$ 892,218,836</u>

\* In December 2005, our Board of Directors authorized the repurchase of up to \$1 billion of common stock through December 31, 2007. In December 2006, our Board of Directors authorized the repurchase of an additional \$1 billion of common stock through December 31, 2008.

**Item 4. Submission of Matters to a Vote of Security Holders**

Our annual meeting of stockholders was held on May 7, 2007. The matters submitted to the stockholders for a vote included:

- the election of two directors to the Board of Directors;
- ratification of the selection of PricewaterhouseCoopers LLP (“PwC”) as our independent registered public accounting firm for 2007;
- approval of amendments to our Restated Certificate of Incorporation to require the annual election of all directors; and
- a stockholder proposal relating to “simple majority” voting.

<u>Matter</u>	<u>Number of Votes FOR</u>	<u>Number of Votes AGAINST</u>	<u>Number of ABSTENTIONS</u>	<u>Number of BROKER NON-VOTES</u>
Election of Larry C. Glasscock as director . . . . .	200,870,734	6,610,772	1,661,372	—
Election of John L. McGoldrick as director . . . . .	196,620,523	10,908,078	1,614,277	—
Ratification of PwC as our independent registered public accounting firm for 2007 . . . . .	207,286,489	434,177	1,422,212	—
Approval of amendments to Restated Certificate of Incorporation to require the annual election of all directors . . . . .	206,091,230	1,654,442	1,397,206	—
Approval of stockholder proposal relating to “simple majority” voting . . . . .	141,938,120	35,380,684	3,198,192	28,625,882

Following are the directors, other than the directors elected at the annual meeting, whose terms of office as directors continued after the annual meeting: J. Raymond Elliott, David C. Dvorak, Stuart M. Essig, Arthur J. Higgins and Augustus A. White, III, M.D., Ph.D.

**Item 5. Other Information**

During the period covered by this report, the Audit Committee of our Board of Directors was not asked to and did not approve the engagement of PwC to perform any non-audit services. This disclosure is made pursuant to Section 10A(i)(2) of the Securities Exchange Act of 1934, as added by Section 202 of the Sarbanes-Oxley Act of 2002.

**Item 6. Exhibits**

The following documents are filed as exhibits to this report:

- 3.1 Restated Certificate of Incorporation of Zimmer Holdings, Inc. dated July 28, 2001, together with Certificate of Amendment of Restated Certificate of Incorporation of Zimmer Holdings, Inc. dated May 9, 2007
- 10.1\* Form of Performance-Based Restricted Stock Unit Award Letter under the Zimmer Holdings, Inc. 2006 Stock Incentive Plan
- 31.1 Certification pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934 of the Chief Executive Officer, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934 of the Chief Financial Officer, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32 Certifications pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
