#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### General

The interim financial statements of Interlink-US-Network, Ltd. are condensed and do not include some of the information necessary to obtain a complete understanding of the financial data. Management believes that all adjustments necessary for a fair presentation of results have been included in the unaudited financial statements for the interim period presented. Operating results for the six months ended June 30, 2009 are not necessarily indicative of the results that may be expected for the year ended December 31, 2009. Accordingly, your attention is directed to footnote disclosures found in December 31, 2008 Annual Report and particularly to Note 1, which includes a summary of significant accounting policies.

#### **Nature of Business**

On August 22, 2007, Interlink-US-Network, Ltd. changed its business operations to the marketing and sale of its exclusive line of devices and services for the distribution of entertainment video, 2WayTV (videophone) and internet access. Also among the Company's hardware products is the FRED, a set top unit that enables all of the Company's services in the home and at the office. The Company continues to use its previously developed technology for the distribution of Video on Demand. This service is being integrated into the new line of equipment as well, using existing servers that provide on-line purchasing interfaces with major credit card services and real time delivery of video.

On September 4, 2008, the Company filed a Certificate of Amendment to their articles of incorporation with the Secretary of State of the State of California, changing its name to Interlink-US-Network, Ltd. The name change was declared effective on October 10, 2008. The Company has begun trading under the new name and the new symbol, IUSN.OB.

#### Basis of Presentation - Going Concern

The Company's financial statements have been prepared on an accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America. - B. The Company has a working capital deficit of \$2,393,283.
- C. The Company continues to incur operating losses.
- D. The Company is delinquent in its loan payments to SBA Comerica.

Management's plans to eliminate the going concern situation include, but are not limited to:

- A. Develop its newly licensed products and technology.
- B. Obtain investors to fund the working capital needs of the company.
- C. Reduce operating expenses.
- D. Negotiate the payment of old outstanding payables.

#### **Forward-Looking Statements**

In addition to historical information, this Quarterly Report on Form 10-Q contains forward-looking statements. Forward-looking statements involve risks and uncertainties that could and in all likelihood will cause actual results to differ materially. Factors that might cause or contribute to such differences include, but are not limited to, whether the Company can obtain financing as and when needed, competitive pressures, changes in consumer tastes away from the type of products the Company offers, changes in the economy that would leave less disposable income to be allocated to entertainment, the loss of any member of the Company's management team and other factors over which the Company has no control. When used in this report, the words "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," and similar expressions are generally intended to identify forward-looking statements. You should not place undue reliance on these forward-looking statements, which reflect the opinion of the Company's management as of the date of this Quarterly Report. The Company undertakes no obligation to publicly release any revisions to the forward-looking statements after the date of this document. You should carefully review the documents the Company files from time to time with the Securities and Exchange Commission. Throughout the Quarterly Report, the terms, the "Company," "Interlink," and words of similar meaning refer to Interlink-US-Network, Ltd., formerly known as NuTech Digital, Inc.

Management's discussion and analysis of results of operations and financial condition are based upon the Company's financial statements. These statements have been prepared in accordance with accounting principles generally accepted in the United States of America. These principles require management to make certain estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates based on historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

#### **Products and Services Offered by the Company**

The products and networking technology licensed to or acquired by the Company enable the Company to deliver telecommunication, television, and data services in the form of broadcast quality, bi-directional videophones; unlimited television and internet channels (including video on demand, high definition [1080P HD], and super high definition resolutions; voice over internet protocol (VoIP); and internet access to a broad range of vertical markets.

All of these services are to be made available through a single, inexpensive, user friendly, set top box ("STB") to be

manufactured by the Company under its license that acts as the gateway to virtually all currently available communications, entertainment and data services, and "off-the-shelf" equipment (cameras, TVs, microphones and computers) over wired or wireless links (including Digital Subscriber Lines [DSL], cable modem, and private or public networking infrastructure). The STB has been named the "Fred." The Company will manufacture and sell the Fred in a variety of configurations and price points suitable for the full range of today's markets, including corporate, government, small business and the consumer.

The Fred works seamlessly with all network infrastructures and protocols to provide comprehensive services, simplifying operations, and reducing the costs for users. In addition to viewing an unlimited number of entertainment channels, accessing the public internet, and connecting via VoIP, users will be able to hear and see each other in real time on their TV sets or PC's with the same quality that TV programming comes to them, using the low cost Fred and inexpensive broadband connectivity. In providing this simple, inexpensive, bi-directional broadcast quality video, the Company distinguishes its product and service offerings from all others. The Company's service offering further differentiates itself from competitive offerings by empowering each end point on a network to be a video broadcast origination point.

The Fred, and linkage of multiple Fred's (the "Network") through interconnection to public and private networks, makes available a variety of network oriented services that augment and improve services available on the public internet. For instance, the Company's management and billing systems incorporated into the Network enable on demand, "point-to-point" 2WayTV, credit card approvals, VOD, billing for services and events, selection of services and account management. No special connection is needed to connect to the Network; a basic internet connection is sufficient. The interconnection between the Network to both the public internet and the existing national telephone communications switching infrastructure creates a virtually universal system of access for all.

The Company believes that focusing on its newly licensed products and technology will enable the Company to become a supplier of multi-media products and technology under an integrated, cohesive delivery platform across a broad range of market applications and client sets.

#### Historical Information relating to the Asset Acquisition Agreement

Jump was organized under the laws of the State of Nevada on July 6, 2006 and registered to conduct business in the State of California on July 25, 2006 with an authorized share capital of five hundred (500) million common shares at \$0.001 par value. A. Frederick Greenberg was the sole director, President and Secretary/Treasurer.

Since the Company's authorized stock was not sufficient to permit the issuance of common stock as consideration for the Acquired Assets, Jump consented to the issuance of the Preferred Stock. In a Pre14C filing to the Commission on October 2, 2007 and the subsequent Definitive 14C filing dated October 31, 2007, the Company announced that it had "received written consent (the "Written Consent") from Jump, holding the "Preferred Stock", representing the right to vote approximately 96.4% (corrected herein to 97.17%) as of December 31, 2007.

On September 25, 2007, the shareholders approved and the board of directors authorized a reverse stock split on common stock at a rate of one-for-sixty and a name change for the Company to be done at the Company's discretion at some time within the following twelve months. This reverse stock split was implemented on May 12, 2008.

In connection with the transaction as of the date of closing of the Agreement, two (2) of the Company's three (3) Directors resigned and the vacancies filled with two (2) directors appointed by Jump, and Lee Kasper, the Company's former Chief Executive Officer and Director continuing as the third Director. On November 6, 2007, Lee Kasper was removed as a director of the Company and terminated for cause from all offices held by him in the Company and its subsidiaries by written consent of a majority of the Company's shareholders. This consent was ratified by the remaining directors of the Company. The Company determined that while he was President and a director of the Company, Mr. Kasper operated several off-shore entities through which he did business. In addition, he distributed Company shares to these entities. Mr. Kasper did not disclose his ownership or dealings with these off-shore entities and did not file the requisite disclosure reports. A copy of the 8K filing was forwarded to Mr. Kasper, and we have received no reply as of the date of this filing.

#### **Equity Incentive Plan**

On February 10, 2009, the Company adopted the Interlink-U.S.-Network, Ltd. 2009 Equity Incentive Plan ("The Plan"). The Plan gives the Company the authority to grant and issue up to 2,000,000 shares of common stock to eligible employees and consultants. The grants may come in the form of options to purchase common stock,

restricted stock awards or registered stock awards, in the discretion of the Company's board of directors. There were no options or stock granted at June 30, 2009.

#### **Pending Litigation**

In February of 2008, Mr. Lee Kasper, a former officer and Director, filed suit against the Company, directors of the Company, and Jump Communications. Management feels that the suit is unwarranted and plans to defend itself to the fullest extent. No adjustments have been made to the financial statements at June 30, 2009 for this contingency.

In March of 2008, Sony ATV filed suit against the Company, its former President and Director Lee Kasper and unrelated third parties claiming copyright violations in connection with the Company's karaoke business, which was discontinued during the previous years. Management feels that the Company did not engage in the conduct complained of and plans to defend itself to the fullest extent. No adjustments have been made to the financial statements at June 30, 2009 for this contingency.

#### **Critical Accounting Policies and Estimates**

In consultation with the Company's Board of Directors, the Company identified various accounting principles that it believes are key to understanding the Company's financial statements. These important accounting policies require management's subjective judgments.

*Discontinued Operations*. On August 22, 2007, the Company discontinued its distribution of general entertainment products, most of which were made available through digital versatile discs, commonly known as DVDs.

Accounting Estimates. Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. However, these judgments require significant estimates from management and actual results could vary from the estimates that were used. Each quarter, management reviews the estimated future revenue to be received in order to determine the fair value of its assets and potential asset impairment.

Income Taxes. The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109 (SFAS109), which is an asset and liability method of accounting requiring the recognition of deferred tax liabilities and assets for the expected future tax consequences of temporary differences between tax bases and financial reporting bases of accounting. In assessing whether deferred tax assets will be realized, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment.

Common Stock Issued for Non-Cash Transactions. It is the Company's policy to value stock issued for non-cash transactions, such as services, at the fair market value of the goods or services received or the consideration granted, whichever is more readily determinable, at the date the transaction is negotiated.

Stock based Compensation. Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123(R), "Share-Based Payment: An Amendment of FASB Statements No. 123 and 95" using the modified prospective method. Under this method, compensation cost is recognized on or after the effective date for the portion of outstanding awards, for which the requisite service has not yet been rendered, based on the grant date fair value of those awards.

The Black-Scholes option-pricing model was developed for the use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's stock options and warrants have characteristics different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of such stock options.

#### **Results of Operations**

#### **Liquidity and Capital Resources**

To date, we have financed our operations with cash from our operating activities, a bank line of credit, a Small Business Administration loan, various loans from individuals, cash raised through the sale of our securities or the exercise of options or warrants, and the issuance of our securities to various consultants in payment for the provision of their services or to other creditors in satisfaction of our indebtedness to them.

In July 2000, we received a \$900,000 Small Business Administration loan with Comerica Bank participation. The interest rate per annum is 2% over prime, and the loan is scheduled to be paid over an 18 year period. As of September 30, 2008, we were ninety days behind in our payments.

In the past, Mr. Lee Kasper, a director and stockholder of the company advanced funds to the Company as follows:

- A. On August 1, 2005, Mr. Kasper advanced funds to produce live music concerts, in the amount of \$350,000. The interest rate on the loan is 8% per annum, and the loan is scheduled to be repaid over a 36 month period.
- B. In May of 2006, Mr. Kasper advanced the amount of \$22,000. There is no interest on the loan, and the loan was due in December 2007.

Each of these transactions is subject to review and scrutiny in connection with counter-claims and cross claims in the lawsuit initiated by Mr. Kasper and independent claims that the Company may choose to litigate in separate actions.

On December 26, 2008, we received a loan from Jump Communications in the amount of \$100,000. During the six months ended June 30, 2009, we received additional loans from Jump Communications in the amount of \$186,311, for a balance of \$286,311 at June 30, 2009. No due date has been established, the loan is unsecured, and bears interest at a rate of 3% per annum.

#### Commitments For Capital Expenditures

At June 30, 2009, we had no commitments for capital expenditures.

#### Going Concern

The financial statements included in this report are presented on the basis that the Company is a "going concern." Going concern contemplates the realization of assets and the satisfaction of liabilities in the normal course of business over a reasonable length of time. Our auditors have indicated that the following factors raise substantial doubt as to our ability to continue as a going concern:

• we have an accumulated a deficit of \$10,335,177 since inception;

- we have a working capital deficit of \$2,393,283;
- we continue to incur operating losses; and
- we are delinquent in our payments on the SBA Comerica loan.

We believe that the following will help to eliminate this qualification:

- Develop our newly licensed products and technology;
- Obtain investors to fund the working capital needs of the company;
- Reduce operating expenses; and
- We are negotiating the payment of old outstanding payables.

#### Past Due Accounts Payable

Approximately \$789,000 of accounts payable are over 90 days old and could hamper our acquisition of inventory in future periods.

#### Off-Balance Sheet Arrangements

There are no guarantees, commitments, lease and debt agreements or other agreements that could trigger an adverse change in our credit rating, earnings, cash flows or stock price, including requirements to perform under standby agreements.

#### Capital Requirements And Available Capital Resources

Our capital requirements will continue to be significant. However, since we have ceased focusing our business on the production of popular music concerts, the Company's need for cash for that purpose has ended. Our current business focus is on the manufacturing, marketing and sales of our equipment and telecommunications services. Our future cash requirements and the adequacy of available funds will depend on many factors, including the pace at which we expand our manufacturing and sales, our ability to negotiate favorable manufacturing agreements, and whether our sales keep pace with our manufacture of product and network expansion, and the general state of the economy, which impacts the amount of money that may be spent for telecommunications and entertainment.
