NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (dollars in thousands, except share data) (unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation:

The consolidated balance sheet at June 30, 2003, the consolidated statements of income for the three-month and six-month periods ended June 30, 2003 and 2002, and the consolidated statements of cash flows for the six-month periods ended June 30, 2003 and 2002, are unaudited. In the opinion of management, all adjustments necessary to present fairly the financial position, results of operations and cash flows for the interim periods were made. Certain items in the June 30, 2002 financial statements were reclassified to conform to the classification of the June 30, 2003 financial statement presentation. Due to seasonality and other factors, the results of operations for interim periods are not necessarily indicative of the results that would be realized for the entire year.

Certain information and footnote disclosures, normally included in financial statements prepared in accordance with generally accepted accounting principles, were omitted. Accordingly, these consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2002.

New Accounting Pronouncements:

In April 2003, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." SFAS No. 149 amends and clarifies the accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 149 is generally effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. The adoption of SFAS No. 149 on July 1, 2003, as required, had no impact on the Company's consolidated financial statements.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity." SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 requires that certain financial statements be classified as liabilities that were previously considered equity. The adoption of this standard on July 1, 2003, as required, had no impact on the Company's consolidated financial statements.

All significant intercompany balances and transactions have been eliminated in consolidation.

2. INVENTORIES:

Inventories consisted of the following:

	<u>June 30, 2003</u>	<u>December 31, 2002</u>
New vehicles	\$501,026	\$477,453
Used vehicles	99,858	86,392
Parts, accessories and other	41,491	40,946

6. EQUITY-BASED COMPENSATION:

The Company accounts for equity-based compensation issued to employees in accordance with Accounting Principles Board (“APB”) Opinion No. 25 “Accounting for Stock Issued to Employees.” APB No. 25 requires the use of the intrinsic value method, which measures compensation cost as the excess, if any, of the quoted market price of the stock at the measurement date over the amount an employee must pay to acquire the stock. The Company makes disclosures of pro forma net earnings and earnings per share as if the fair-value-based method of accounting had been applied as required by SFAS No. 123 “Accounting for Stock-Based Compensation” and as amended by SFAS No. 148 “Accounting for Stock-Based Compensation – Transition Disclosure.”

A reconciliation of the Company's net earnings to pro forma net earnings, and the related pro forma earnings per share amounts, is as follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2003	2002	2003	2002

Diluted – pro forma	<u>\$0.35</u>	<u>\$0.33</u>	<u>\$0.53</u>	<u>\$0.48</u>

7. DISCONTINUED OPERATIONS:

During the first six months of 2003, the Company classified as discontinued operations eight full-service dealership locations (nine franchises), 10 used-only dealership locations and one ancillary business. Three full service dealerships were divested during the first six months and five dealerships were held for sale as of June 30, 2003. Of the 10 used-only locations, six were closed during the quarter and four were subsequently closed in July. In addition, the Company closed one ancillary business in the second quarter. The results of operations of these entities are accounted for as discontinued operations in the consolidated statements of income. A summary statement of income information relating to the discontinued operations is as follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2003	2002	2003	2002

The assets and liabilities of dealerships held for sale as of June 30, 2003 and December 31, 2002 are included in the consolidated balance sheet. A summary of balance sheet information related to dealerships held for sale is as follows:

	<u>June 30, 2003</u>	<u>December 31, 2002</u>
Inventories	\$ 6,046	\$17,934
Total current assets	<u>6,046</u>	<u>17,934</u>

Total liabilities	<u>\$ 4,980</u>	<u>\$17,354</u>

8. PROPERTY AND EQUIPMENT:

During the first quarter of 2003, the Company sold, under four sale/leaseback agreements with an independent third party, certain land and buildings for \$16.9 million, recognizing a \$0.1 million loss on the sales. Under the agreements, the Company will leaseback the properties from the purchaser over a 20-year period. The Company is accounting for the leasebacks as operating leases. The estimated annual rental expense under these agreements will be approximately \$1.6 million.

During the second quarter of 2003, the Company sold, under a sale/leaseback agreement with an independent third party, certain land for \$8.5 million. Under the terms of the agreement, the Company will leaseback the property with the intent to construct a new dealership facility. The Company anticipates the facility to cost \$8.5 million and take 18 months to construct. When completed, the Company will sell the facility to the same third-party and amend the existing land lease to leaseback the entire facility for a 22-year period. The estimated annual rental expense under the agreement will be approximately \$742,000.

In addition, the Company sold, under three sale/leaseback agreements with the same third party, certain land and building assets for \$4.5 million. Under the terms of the agreements, the Company will leaseback the properties from the purchasers for 15 to 20 year periods. We will account for the leasebacks as operating leases. The estimated annual rental expense under these agreements will be approximately \$376,000.

9. ACQUISITIONS:

During the second quarter of 2003, the Company made two acquisitions (three franchises, one of which is held for sale) for \$39.5 million in cash, which was funded under the Company's existing credit facility. The acquisitions' purchase price will be allocated to the underlying assets and liabilities based upon their estimated fair values. The resulting preliminary estimate of goodwill and intangibles assets from these transactions is approximately \$34 million. The results of operations for these acquisitions are included in the Company's consolidated results from the dates of acquisition.

Subsequent to June 30, 2003, the Company completed the acquisition of one dealership location (five franchises) for \$8.4 million in cash, funded from the Company's Committed Credit Facility. The seller was the existing president of one of the Company's platforms. The purchase price will be allocated to the underlying assets and liabilities based on their estimated fair values, resulting in a preliminary estimate of goodwill and intangible assets of approximately \$7 million. The Company believes that this transaction involves terms that would be comparable to terms that would be obtained from an unaffiliated third party.

10. NON-CASH FINANCING ACTIVITY:

In connection with the sale/leaseback transactions mentioned in Note 8, \$26.2 million of the sales proceeds were paid directly to the Company's lenders. Of that amount, \$5.7 million related to proceeds for the sale of assets that were included in the Company's current period capital expenditures as shown on the consolidated statement of cash flows.

11. COMMITMENTS AND CONTINGENCIES:

A significant portion of the Company's vehicle business involves the sale of vehicles, parts or vehicles composed of parts that are manufactured outside the United States. As a result, the Company's operations are subject to customary risks of importing merchandise, including fluctuations in the relative values of currencies, import duties, exchange controls, trade restrictions, work stoppages and general political and socio-economic conditions in foreign countries. The United States or the countries from which the Company's products are imported may, from time to time, impose new quotas, duties, tariffs or other restrictions, or adjust presently prevailing quotas, duties or tariffs, which may affect our operations and our ability to purchase imported vehicles and/ or parts at reasonable prices.

Manufacturers may direct the Company to implement costly capital improvements to dealerships as a condition for renewing the Company's franchise agreements with them. Manufacturers also typically require that their franchises meet specific standards of appearance. These factors, either alone or in combination, could cause the Company to divert its financial resources to capital projects from uses that management believes may be of higher long-term value to the Company, such as acquisitions.

Substantially all of the Company's facilities are subject to federal, state and local provisions regarding the discharge of materials into the environment. Compliance with these provisions has not had, nor does the Company expect such compliance to have, any material effect upon the capital expenditures, net earnings, financial condition, liquidity or competitive position of the Company. Management believes that its current practices and procedures for the control and disposition of such materials comply with applicable federal, state and local requirements.

The Company is involved in legal proceedings and claims which arise in the ordinary course of its business and with respect to certain of these claims the sellers have indemnified the Company. In the opinion of management of the Company, the amount of ultimate liability with respect to these actions will not materially affect the financial condition, liquidity or the results of operations of the Company.

The dealerships operated by the Company hold franchise agreements with a number of vehicle manufacturers. In accordance with the individual franchise agreements, each dealership is subject to certain rights and restrictions typical of the industry. The ability of the manufacturers to influence the operations of the dealerships or the loss of a franchise agreement could have a negative impact on the Company's operating results.

INDEPENDENT ACCOUNTANTS' REPORT

To Asbury Automotive Group, Inc.:

We have reviewed the accompanying consolidated balance sheet of Asbury Automotive Group, Inc. and subsidiaries ("the Company") as of June 30, 2003, and the related consolidated statements of income for the three-month and six month periods ended June 30, 2003 and 2002, and of cash flows for the six-month periods ended June 30, 2003 and 2002. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of Asbury Automotive Group, Inc. and subsidiaries as of December 31, 2002, and the related consolidated statements of income, shareholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated February 25, 2003 (which includes an explanatory paragraph regarding the adoption of Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets"), we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2002 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the unaudited consolidated financial statements and notes thereto included in Item 1 of this report.

RESULTS OF OPERATIONS

Three Months Ended June 30, 2003, Compared to Three Months Ended June 30, 2002

Net income for the second quarter of 2003 was \$12.3 million compared with \$12.8 million in the prior year period. Net income includes the results of discontinued operations, the majority of which consists of certain now closed non-core businesses, including our Price 1 pilot program (closed in July 2003) and six "Thomason Select" used car stores. Basic earnings per share, including discontinued operations, were \$0.38 in both periods, while diluted earnings per share were \$0.38 for the three months ended June 30, 2003 versus \$0.37 for the same period in 2002.

Net income from continuing operations for the second quarter of 2003 was \$14.3 million compared with \$14.9 million in the corresponding period a year ago. Basic and diluted earnings per share from continuing operations were \$0.44 per share in both periods.

Income from continuing operations before income taxes totaled \$23.7 million for the three months ended June 30, 2003, down 4% from \$24.7 million for the same period last year. The slight decrease can primarily be attributed to margin pressure on new vehicles, deterioration of our expense structure, and the continued poor performance of our Oregon platform offsetting strong finance and insurance ("F&I") and fixed operations performance, and the impact of acquisitions.

Revenues of \$1.2 billion for the three months ended June 30, 2003, represented a \$124.0 million or 11% increase over the three months ended June 30, 2002. Same store revenue grew \$80.5 million or 7% with the remaining increase of \$43.5 million derived from acquisitions. On a same store basis, our new retail units were up 4% compared to the three months ended June 30, 2002, despite the industry being down. New vehicle revenue growth continues to be a major focus. Used retail vehicle unit sales were up 1% versus the prior year period with improvements in our Tampa and Texas platforms offset by weaknesses in our Oregon platform. Fixed operations revenues were up 7% on a same store basis, primarily due to continued emphasis on customer retention and expanded product offerings, as well as strong warranty business. Same store finance and insurance revenues grew 16% and gross profit per vehicle retailed (“PVR”) increased 12%. Contributing to this success was strength in product sales, increased penetration rates (number of finance and insurance contracts sold to the combined total of new and used retail unit sales), maturing of our preferred provider programs and continued focus on underperforming stores.

(1) Same store amounts include the results of dealerships for the identical months for each period presented in the comparison, commencing with the first full month in which the dealership was owned by the Company.

Gross profit for the quarter ended June 30, 2003, increased \$13.5 million or 8% over the quarter ended June 30, 2002. Same store retail gross profit was up 4% for the same period. Consistent with our business model, we achieved significant same store growth in finance and insurance of 16% and steady increases in fixed operations of 6% during the period. This was offset by continued margin pressure on new and used vehicles.

Operating Expenses-

Selling, general and administrative (“SG&A”) expenses for the quarter ended June 30, 2003, increased \$12.9 million or 10% over the quarter ended June 30, 2002. Incremental expenses from acquisitions, rising insurance costs, \$1.2 million in severance expenses, \$1.0 million in increased legal fees, as well as typical variable (salesperson compensation and personnel) expense increases due to incremental gross profit, all contributed to the overall increase in SG&A. As a result, SG&A expenses as a percentage of gross profit increased to 77.4% from 76.0% for the quarter ended June 30, 2003, compared to the same period in 2002. SG&A expenses as a percent of revenue decreased due to a slight shift in the sales mix to new vehicles as we continue to focus on that element of our business.

Depreciation and Amortization-

Depreciation and amortization expense increased \$196,000 to \$5.1 million for the quarter ended June 30, 2003, as compared to the same period in 2002. The increase is almost entirely related to acquisitions.

Other Income (Expense)-

Floor plan interest expense increased to \$5.1 million from \$4.5 million for the three months ended June 30, 2003. This 13.8% increase was primarily due to higher inventory levels in the current quarter. Non-floor plan interest expense increased by \$1.1 million from the prior year's second quarter primarily from the increased interest rate on our Senior Subordinated Notes issued in June 2002.

Income Tax Provision-

Income tax expense was \$9.4 million for the three months ended June 30, 2003 versus \$9.8 million for the prior year quarter. Our tax rate for the three months ended June 30, 2003, was 39.8% and was based on the estimated effective tax rate for the year.

Discontinued Operations-

During the second quarter of 2003, we decided to close our Price 1 pilot program (four stores), closed our "Thomason Select" used vehicle program (six stores), began actively pursuing the sale of four "full service" dealerships and sold one dealership. The \$2.0 million loss from discontinued operations in the three months ended June 30, 2003 includes the operating losses of the entities mentioned above as well as another dealership that was classified as discontinued operations during the first quarter of 2003, which is still held for sale. The Price 1 stores ceased operations in July 2003. Discontinued operations for the quarter ended June 30, 2002 were \$2.1 million, including the operating losses from the stores mentioned above as well as the operating losses and net loss on the sale of one dealership and the related real estate sold in the second quarter of 2002 and the operating losses of one dealership sold in the third quarter of 2002.

Six Months Ended June 30, 2003, Compared to Six Months Ended June 30, 2002

Net income for the six months ended June 30, 2003 was \$19.4 million or \$0.59 per basic and diluted share, including a \$3.0 million loss from discontinued operations. For the six months ended June 30, 2002, tax affected pro forma net income was \$23.9 million or \$0.74 per basic and diluted share. Pro forma net income from continuing operations for the six months ended June 30, 2003 was \$26.7 million or \$0.78 per diluted share. The pro forma results for the prior year exclude a nonrecurring deferred income tax provision required by SFAS 109 related to our change in tax status from a limited liability company to a "C" corporation in conjunction with our March 2002 initial public offering ("IPO"). In addition, the pro forma results from continuing operations also assume that we were a publicly traded "C" corporation for the entire period. A reconciliation of pro forma net income from continuing operations to GAAP net income from continuing operations follows – see "Reconciliation of Non-GAAP Financial Information".

Income from continuing operations before income taxes totaled \$37.1 million for the six months ended June 30, 2003, down 16% from \$44.4 million for the same period last year. The decrease can be attributed to continued vehicle margin pressure, deterioration of our expense structure in the first quarter and weak performance in the Oregon platform offset by second quarter improvement in expense controls and the improved performance of the Arkansas platform, which was underperforming during the first half of 2002.

(1) Same store amounts include the results of dealerships for the identical months for each period presented in the comparison, commencing with the first full month in which the dealership was owned by the Company.

Revenues of \$2.3 billion for the six months ended June 30, 2003, represented a \$162.0 million or 7% increase over the six months ended June 30, 2002. Same store revenue grew \$96.5 million or 4% with the remainder derived from acquisitions. On a same store basis our new retail units were up 2% while the industry was down 2.5%. Our relative success can be attributed to our advantageous brand mix and an increased focus on new vehicles sales in an effort to meet manufacturer sales requirements. Used retail vehicle unit sales were basically flat versus the prior year in a difficult used car market, as new vehicle incentives continue to have an adverse affect on the used vehicle

market. With ongoing focus on fixed operations and F&I, we achieved 6% and 13% same store growth, respectively, as we continue to benefit from the sharing of best practices between our platforms in these areas.

(1) Same store amounts include the results of dealerships for the identical months for each period presented in the comparison, commencing with the first full month in which the dealership was owned by the Company.

Gross profit for the quarter ended June 30, 2003, increased \$18.1 million or 5% over the same period ended June 30, 2002. Same store gross profit increased 2% year over year driven by significant growth in F&I of 13% and

moderate growth in fixed operations of 5%, offset by slight same store decreases in gross profit for new and used vehicles.

Operating Expenses-

Selling, general and administrative (“SG&A”) expenses for the six months ended June 30, 2003 were \$286.9 million, up 8.6% from \$264.1 million for the six months ended June 30, 2002. The majority of the increase was due to expense deterioration in several platforms in the first quarter. We saw significant improvement in the second quarter with the implementation of expense reduction initiatives.

Depreciation and Amortization-

Depreciation and amortization expense increased \$135,000 to \$9.7 million for the six months ended June 30, 2003, as compared to the same period in 2002.

Other Income (Expense)-

Floor plan interest expense increased to \$9.6 million for the six months ended June 30, 2003. This 10.8% increase was due to high inventory levels, primarily in our domestic brands. Non-floor plan interest expense increased by \$1.3 million from the prior year’s first six months mostly driven by the increased interest rate on our Senior Subordinated Notes issued in June 2002.

Income Tax Provision-

Income tax expense was \$14.8 million for the six months ended June 30, 2003 versus \$23.6 million for the same period last year. For the time period from January 1, 2002 through the date of our IPO, we were structured as a limited liability company and only provided a tax provision in accordance with SFAS 109 for the nine “C” corporations that we owned directly or indirectly during that period. Effective with our IPO, which closed March 19, 2002, we converted to a corporation and became subject to federal, state and local income taxes. During the six months ended June 30, 2002, we recorded, in accordance with SFAS No. 109, a one-time non-recurring charge of \$11.6 million related to the establishment of a net deferred tax liability, in connection with our conversion. This liability represented the difference between the financial statement and tax basis of our assets and liabilities at the conversion date. Our tax rate for the six months ended June 30, 2003, was 39.8% and was based on the estimated effective tax rate for the year.

Discontinued Operations-

During the first six months of 2003, we completed the sale of three full service dealerships and closed six “Thomason Select” used-only lots in Oregon. In addition, we decided to close our four Price 1 pilot program used vehicle stores and began actively pursuing the sale of five full service dealerships. The \$3.0 million loss from discontinued operations includes the operating losses of the dealership mentioned above offset by net gain on the sales of the stores sold in the first half of the year. Discontinued operations for the six months ended June 30, 2002 was \$2.8 million, including the results and related real estate of operations of the dealerships mentioned above and the operating losses and net loss on the sale of three dealerships and related real estate assets, sold during the first half of 2002 and the operating losses of another dealership sold in the third quarter of 2002.

LIQUIDITY AND CAPITAL RESOURCES

We require cash to fund working capital needs, finance acquisitions of new dealerships and fund capital expenditures. These requirements are met principally from cash flow from operations, borrowings under the First Amended and Restated Credit Agreement and the Floor Plan Facility (as defined below), mortgage notes and proceeds from sale/leaseback transactions. As of June 30, 2003 we had cash and cash equivalents of \$24.6 million.

Credit Facilities-

On January 17, 2001, we entered into a committed financing agreement (the “Committed Credit Facility”) with Ford Motor Credit Company, General Motors Acceptance Corporation and DaimlerChrysler Services North America, LLC (the “Lenders”) with total availability of \$550 million. The Committed Credit Facility is used for acquisition financing and working capital purposes. On June 6, 2003, we signed the First Amended and Restated Credit Agreement (the “ARCA”) retaining all the essential provisions of the Committed Credit Facility, but reducing the

availability for borrowings to \$450 million and increasing our working capital borrowing capacity from \$25 million to \$75 million. Our decision to amend the existing credit facility was driven by our desire to reduce the commitment fee paid to the Lenders, which is based on the unused portion of the facility, and to extend the facility by one year through January 2006. At June 30, 2003, \$341.6 million was available for borrowings. All borrowings under the ARCA and the Committed Credit Facility (collectively the "Committed Credit Facility") bear (bore) interest at variable rates based on 1-month LIBOR plus a specified percentage that is dependent upon our adjusted level of debt leverage as of the end of each calendar quarter.

During the third quarter of 2002, we obtained consent from the Lenders for a cash management sublimit of \$75 million under our Committed Credit Facility. The cash management sublimit allows us to repay up to \$75 million of debt outstanding under our Committed Credit Facility using cash that has been centrally collected by our cash management system. This sublimit remains in place under the terms of the ARCA. The net amount repaid under the cash management sublimit may be borrowed by us on short-term notice for general corporate purposes. As of June 30, 2003, we had \$18 million available for borrowings under the cash management sublimit.

Floor Plan Financing-

We finance substantially all of our new vehicle inventory and a portion of our used vehicle inventory under the floor plan financing credit facilities (the "Floor Plan Facilities"). The Floor Plan Facilities also provide used vehicle financing up to a fixed percentage of the value of each financed used vehicle. In connection with the ARCA signed June 6, 2003, total availability under the floor plan facilities was reduced from \$750 million to \$695 million. Amounts financed under the floor plan arrangements bear interest at variable rates, which are typically tied to LIBOR or the prime rate. As of June 30, 2003, we had \$585.8 million outstanding under all of our floor plan financing agreements.

Sale/Leaseback Agreements-

During the first quarter of 2003, we sold, under four sale/leaseback agreements with an independent third party, certain land and buildings for \$16.9 million, recognizing an approximate \$100,000 loss on the sales. Under the agreements, we will leaseback the properties from the purchaser over a 20-year period. We are accounting for the leasebacks as operating leases. The estimated annual rental expense under these agreements will be approximately \$1.6 million.

During the second quarter of 2003, we sold, under a sale/leaseback agreement with an independent third party, certain land for \$8.5 million. Under the terms of the agreement, we will leaseback the property with the intent to construct a new dealership facility. We anticipate the facility to cost \$8.5 million and take 18 months to construct. When completed, we will sell the facility to the same third party and amend the existing land lease to leaseback the entire facility for a 22-year period. The estimated annual rental expense under the agreement will be approximately \$742,000.

In addition, we sold, under three sale/leaseback agreements with the same third party certain, land and building assets for \$4.5 million. Under the terms of the agreements we will leaseback the properties from the purchasers for 15 to 20 year periods. We will account for the leasebacks as operating leases. The estimated annual rental expense under these agreements will be approximately \$376,000.

Acquisitions and Acquisition Financing-

During the first half of 2003, we completed the acquisitions of two dealerships (three franchises, one of which is currently held for sale) for an aggregate purchase price of \$39.5 million, all funded through borrowings under our Committed Credit Facility.

Subsequent to June 30, 2003, we completed the acquisition of one dealership location (5 franchises) for \$8.4 million in cash, funded from our Committed Credit Facility. The seller was the existing president of one of our platforms. The purchase price will be allocated to the underlying assets and liabilities based on their estimated fair values, resulting in a preliminary estimate of goodwill and intangible assets of approximately \$7 million. We believe that this transaction involves terms that would be comparable to terms that would be obtained from an unaffiliated third party.

Capital Expenditure Financing

In addition, during the first six months of 2003, we used the proceeds from \$6.8 million of current period borrowings for current period capital spending.

Cash Flow

Operating Activities-

Net cash provided by operating activities totaled \$32.0 million for the six months ended June 30, 2003 consisting of net income of \$19.4 million, non-cash items of \$22.0 million (primarily depreciation and amortization and proceeds from the sale of accounts receivable) and a \$9.4 million net increase in operating assets and liabilities. Operating assets in the aggregate increased as incremental sales led to increases in accounts receivable and inventory partially offset by additional floor plan borrowings.

Net cash provided by operating activities totaled \$34.0 million for the six months ended June 30, 2002 as net income of \$17.9 million plus non-cash items of \$37.0 million (primarily depreciation and amortization, the proceeds from the sale of accounts receivable, and deferred income taxes) offset a \$20.9 million net increase in operating assets and liabilities. This net increase was primarily due to higher used vehicle inventories without the related increases in floor plan notes payable.

Investing Activities-

Net cash used in investing activities for the six months ended June 30, 2003 was \$58.2 million, as capital expenditures of \$24.6 million, dealership acquisitions of \$39.5 million and the net issuance of finance contracts of \$2.9 million was offset by proceeds from the sale of discontinued operations and fixed assets of \$7.9 million.

Net cash used in investing activities for the six months and June 30, 2002 was \$28.0 million, as capital expenditures of \$23.6 million and other investing activities of \$1.7 million were offset by the proceeds from the sale of discontinued operations and fixed assets of \$5.9 million.

Financing Activities-

Net cash provided by financing activities for the six months ended June 30, 2003 was \$28.2 million, as net proceeds from borrowings of \$63.2 million offset debt repayments of \$23.6 million, distributions to members and the repurchase of treasury stock. (We made our final L.L.C. distribution to our members in the first quarter of 2003).

Net cash provided by financing activities for the six months ended June 30, 2002 was \$680,000 as proceeds from our initial public offering of \$65.5 million and the net proceeds from borrowings of \$265.7 million (mainly the issuance of the Senior Subordinated Notes), were offset by repayments of debt of \$311.8 million (as we were required under our Committed Credit Facility to use the majority of IPO proceeds and all subordinated debt proceeds to repay existing debt), and distributions to members.

Capital Expenditures

Capital spending for the six months ended June 30, 2003 and 2002 was \$24.6 million and \$23.6 million, respectively. Capital spending other than from acquisitions is expected to be approximately \$50 million for the year ended December 31, 2003 and will be primarily related to operational improvements and manufacturer-required spending to upgrade existing dealership facilities.

Stock Repurchase

Pursuant to our Senior Subordinated Note indenture, we are permitted to repurchase shares subject to the following restrictions: (i) up to \$15 million under a "Restricted Payments" building basket, plus (ii) up to \$2 million per fiscal year under our "Stock Repurchase" basket. The Restricted Payments building basket equals the greater of \$15 million, or 50% of the consolidated net income beginning April 1, 2002 (less the cumulative amount of any Restricted Payments since the Senior Subordinated Notes' inception). During 2002, we repurchased 772,824 shares of our common stock for a purchase price of \$6.6 million. During the first six months of 2003, we repurchased an additional 817,189 shares for an aggregate purchase price of \$8.4 million. During the second quarter of 2003, we reached the \$15 million limit of the "Restricted Payments" building basket.

New Accounting Pronouncements

In April 2003, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“SFAS”) No. 149, “Amendment of Statement 133 on Derivative Instruments and Hedging Activities.” SFAS No. 149 amends and clarifies the accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activities.” SFAS No. 149 is generally effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. The adoption of SFAS No. 149 on July 1, 2003, as required, had no impact on the Company’s consolidated financial statements.

In May 2003, the FASB issued SFAS No. 150, “Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity.” SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 requires that certain financial statements be classified as liabilities that were previously considered equity. The adoption of this standard on July 1, 2003, as required, had no impact on the Company’s consolidated financial statements.

Reconciliation of “Non-GAAP” Financial Information

For analysis purposes, in Management’s Discussion and Analysis we discuss pro forma net income from continuing operations and related earnings per share for the six months ended June 30, 2002. The consolidated statement of income reconciles GAAP net income to tax affected pro forma net income by assuming that we were taxed as a “C” corporation for all twelve months of 2002 and excluding the one-time charge for our conversion from a limited liability company to a corporation. The following table assumes that all discontinued entities were sold prior to 2002 and all shares issued in our IPO were outstanding on January 1, 2002.

(in thousands, except for per share data)	<u>For the Six Months Ended June 30, 2002</u>
Tax affected pro forma net income	\$23,873
Discontinued operations	<u>2,837</u>
Pro forma net income from continuing operations	<u>\$26,710</u>
Pro forma earnings per share:	
Basic	<u>\$0.79</u>
Diluted	<u>\$0.78</u>
Pro forma common shares and share equivalents:	
Weighted average shares outstanding-	
Basic	32,210
Adjustment for 4,500 shares offered March 14, 2002 as if offered on January 1, 2002	<u>1,790</u>
Pro forma basic shares	34,000
Shares issuable with respect to additional common share equivalents (stock options)	<u>48</u>
Pro forma diluted shares	<u>34,048</u>

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We are exposed to market risk from changes in interest rates on a significant portion of our outstanding indebtedness. Given the total amount of variable rate indebtedness outstanding at June 30, 2003 (\$243.1 million), a 1% change in the LIBOR rate would result in a change of approximately \$2.4 million to our annual non-floor plan interest expense. Based on floor plan amounts outstanding at June 30, 2003, a 1% change in the LIBOR rate would result in a \$5.9 million change to annual floor plan interest expense.

Item 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

As of the end of the period covered by this report, the Company conducted an evaluation (under the supervision of and with the participation of the Company's management, including the chief executive officer and chief financial officer), of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15e and 15d-15e under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based on this evaluation, the Company's chief executive officer and chief financial officer concluded that as of the end of such period: such disclosure controls and procedures were reasonably designed to ensure that information required to be disclosed by the Company in reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

CHANGES IN INTERNAL CONTROLS

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

...

Forward Looking Information

This report contains "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995. The forward-looking statements include statements relating to goals, plans and projections regarding the Company's financial position, results of operations, market position, product development and business strategy. These statements are based on management's current expectations and involve significant risks and uncertainties that may cause results to differ materially from those set forth in the statements. These risks and uncertainties include, among other things,

- market factors,
- the Company's relationships with vehicle manufacturers and other suppliers,
- risks associated with the Company's substantial indebtedness,
- risks related to pending and potential future acquisitions, and
- general economic conditions both nationally and locally and governmental regulations and legislation.

There can be no guarantees the Company's plans for future operations will be successfully implemented or that they will prove to be commercially successful. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.
