This Quarterly Report on Form 10-Q includes forward-looking statements, which are statements that frequently use words such as “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “forecast,” “intend,” “may,” “plan,” “position,” “projection,” “should,” “strategy” “target,” “will” and similar words. Although we believe that such forward-looking statements are reasonable based on currently available information, such statements involve risks, uncertainties and assumptions and are not guarantees of performance. Future actions, conditions or events and future results of operations may differ materially from those expressed in these forward-looking statements. Our results of operations, financial position and cash flows are dependent on the results of operations, financial position and cash flows of the Partnership. Many of the factors that will determine these results are beyond the Partnership’s ability to control or predict. Specific factors that could cause actual results to differ from those in the forward-looking statements include those discussed in this Quarterly Report on Form 10-Q, our other reports filed with the Securities and Exchange Commission, and: (1) changes in the demand for or the supply of, forecast data for, and price trends related to crude oil, liquid petroleum, natural gas and NGLs, including the rate of development of the Alberta Oil Sands; (2) our ability to successfully complete and finance expansion projects; (3) the effects of competition, in particular, by other pipeline systems; (4) shut-downs or cutbacks at our facilities or refineries, petrochemical plants, utilities or other businesses for which we transport products or to whom we sell products; (5) hazards and operating risks that may not be covered fully by insurance, including those related to Lines 6A and 6B; (6) changes in or challenges to our tariff rates; and (7) changes in laws or regulations to which we are subject, including compliance with environmental and operational safety regulations that may increase costs of system integrity testing and maintenance.

The impact of any one risk, uncertainty or factor on a particular forward-looking statement is not determinable with certainty as these are interdependent and our future course of action depends on the assessment of all information available at the relevant time by those responsible for the management of our operations. Except to the extent required by law, we assume no obligation to publicly update or revise any forward-looking statements made herein whether as a result of new information, future events or otherwise. All subsequent forward-looking statements, whether written or oral, attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements, and, as such, may be updated in our future filings with the Securities and Exchange Commission. NOTES TO THE FINANCIAL STATEMENTS (unaudited)

1. BASIS OF PRESENTATION

We are a limited partner of Enbridge Energy Partners, L.P., which we refer to as the Partnership, through our ownership of i-units, a special class of the Partnership's limited partner interests. We have prepared the accompanying unaudited interim financial statements in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, they contain all adjustments, consisting only of normal recurring adjustments, which management considers necessary to present fairly our financial position at September 30, 2012, our results of operations for the three and nine month periods ended September 30, 2012 and 2011 and our cash flows for the nine month periods ended September 30, 2012 and 2011. We derived our statement of financial position as of December 31, 2011 from the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011. Our results of operations for the three and nine month periods ended September 30, 2012 should not be taken as indicative of the results to be expected for the full year. The interim financial statements should be read in conjunction with our financial statements and notes thereto presented in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011. Our results of operations, financial position and cash flows are dependent on the results of operations, financial position and cash flows of the Partnership. As a result, you should also read these interim financial statements in conjunction with the Partnership's consolidated financial statements and notes thereto presented in its Annual Report on Form 10-K for the fiscal year ended December 31, 2011, as well as the Partnership's interim consolidated financial statements presented in its Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2012.

3. CAPITAL ACCOUNT ADJUSTMENTS ON ISSUANCES OF COMMON UNITS BY ENBRIDGE ENERGY PARTNERS, L.P.

The Partnership records an adjustment to the carrying value of its book capital accounts when it issues additional common units and the new issuance price per unit is greater than or less than the average cost per unit for each class of units. We refer to these adjustments as capital account adjustments. We recognize any capital account adjustments recorded by the Partnership to the book capital account it maintains for our i-units by increasing or decreasing our investment in the Partnership and recording a corresponding capital account adjustment directly to "Shareholders' equity" on our statements of financial position in conjunction with our adoption of the authoritative accounting guidance for noncontrolling interests in consolidated financial statements.

5. SUBSEQUENT EVENTS

Share Distribution

On October 31, 2012, our board of directors declared a share distribution payable on November 14, 2012, to shareholders of record as of November 7, 2012, based on the \$0.5435 per limited partner unit distribution declared by the Partnership. The Partnership's distribution increases the number of i-units we own. The amount of this increase is calculated by dividing the cash amount distributed by the Partnership per common unit by the average closing price of one of our listed shares, which we refer to as Listed Shares, on the New York Stock Exchange for the 10 trading day period immediately preceding the ex-dividend date for our shares, multiplied by the number of shares outstanding on the record date. We distribute additional Listed Shares to our Listed shareholders and additional voting shares to the General Partner in respect of these additional i-units.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

RESULTS OF OPERATIONS

Our results of operations consist of our share of earnings of Enbridge Energy Partners, L.P., or the Partnership, attributed to the i-units, a special class of the Partnership's limited partner interests, we own. At September 30, 2012 and 2011, through our ownership of i-units, we had an approximate 13.1% and 13.3%, respectively, limited partner interest in the Partnership. Our percentage ownership of the Partnership will change over time as the number of i-units we own becomes a different percentage of the total limited partner interests outstanding due to our ownership of additional i-units and other issuances of limited partner interests by the Partnership.

The information set forth under Part I, Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations* of the Partnership's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2012, is hereby incorporated by reference, as our results of operations, financial position and cash flows are dependent on the results of operations, financial position and cash flows of the Partnership.

The following table presents the Partnership's allocation of net income and loss to Enbridge Energy Company, Inc., the general partner of the Partnership, referred to as the General Partner, and limited partners for the periods presented.

	For the three month period ended September 30,		For the nine month period ended September 30,	
	2012	2011	2012	2011
	(unaudited; in millions)			
Net income attributable to general and limited partner ownership interests in Enbridge Energy Partners, L.P. . . .	\$215.2	\$122.6	\$438.8	\$396.6
Less: Net income allocated to General Partner	38.1	32.1	94.4	75.2
Net income allocated to limited partners	<u>\$177.1</u>	<u>\$ 90.5</u>	<u>\$344.4</u>	<u>\$321.4</u>

Our net income of \$15.4 million and \$29.9 million for the three and nine month periods ended September 30, 2012, respectively, and \$7.8 million and \$28.5 million for the three and nine month periods ended September 30, 2011, respectively, represents equity in earnings attributable to the i-units that we own decreased by deferred income tax expense. Deferred income tax expense is calculated based on the difference between the accounting and tax basis of our investment in the Partnership and the combined federal and state income tax rate of 37.0% for the three and nine month periods ended September 30, 2012 and 37.2% for the three and nine month periods ended September 30, 2011, applied to our share of the earnings of the Partnership for the respective periods.

For the three months ended September 30, 2012, our net income increased by \$7.6 million as compared to the same period in 2011. The increase is primarily attributable to the \$12.0 million increase in equity income from the Partnership resulting from the increase in its net income in relation to the same period in 2011. This increase was slightly offset by a \$4.4 million increase of income tax expense associated with the increase in our net income.

For the nine months ended September 30, 2012, our net income increased by \$1.4 million as compared to the same period in 2011. The components comprising our net income changed during the nine month period ended September 30, 2012 compared with the same period in 2011 for the same reasons as noted above in the three-month analysis.

The Partnership records an adjustment to the carrying value of its book capital accounts when it issues additional common units and the new issuance price per unit is greater than or less than the average cost per unit for each class of units. We refer to these adjustments as capital account adjustments. We recognize any capital account adjustments recorded by the Partnership to the book capital account it maintains for our i-units by increasing or

decreasing our investment in the Partnership and recording a corresponding capital account adjustment directly to “Shareholders’ equity” on our statements of financial position in conjunction with our adoption of the authoritative accounting guidance for noncontrolling interests in consolidated financial statements.

Partnership Issuances of Class A Common Units

The following table presents the issuances of additional Class A common units by the Partnership for the current year, excluding issuances under the Partnership’s Equity Distribution Agreement, or EDA, and the Amended and Restated Equity Distribution Agreement, or Amended EDA.

<u>2012 Issuance Date</u>	<u>Number of Class A Common units Issued</u>	<u>Average Offering Price per Class A common unit</u>	<u>Net Proceeds to the Partnership⁽¹⁾</u>	<u>Ownership Percentage in the Partnership Prior to the Issuance</u>	<u>Ownership Percentage in the Partnership After the Issuance</u>	<u>Increases in the Book Value of Investment⁽²⁾</u>
(in millions, except units and per unit amount)						
September	16,100,000	\$28.64	\$446.8	13.9 %	13.1 %	\$22.6

⁽¹⁾ Net of underwriters’ fees and discounts, commissions and issuance expenses if any.

⁽²⁾ Before the effect of income taxes.

For the three and nine month periods ended September 30, 2012, we recorded \$22.6 million and \$22.7 million, respectively, of capital account adjustments with respect to all the Partnership’s Class A common unit issuances. The after tax effect of these capital account adjustments to our Shareholders’ equity at September 30, 2012 was \$14.3 million.

LIQUIDITY AND CAPITAL RESOURCES

Our authorized capital structure consists of two classes of membership interests: (1) our listed shares, which we refer to as Listed Shares, are traded on the New York Stock Exchange, or NYSE, and represent limited liability company interests with limited voting rights and (2) our voting shares, which represent limited liability company interests with full voting rights. At September 30, 2012, our issued capitalization consisted of \$959.7 million associated with our 40,502,824 Listed Shares outstanding.

The number of our shares outstanding, including the voting shares owned by the General Partner, will at all times equal the number of i-units we own in the Partnership. Typically, the General Partner and owners of the Partnership’s Class A and B common units will receive distributions from the Partnership in cash. Instead of receiving cash distributions on the i-units we own, however, we receive additional i-units under the terms of the Partnership’s limited partnership agreement. The amount of additional i-units we receive is calculated by dividing the amount of the cash distribution paid by the Partnership on each of its Class A and B common units by the average closing price of one of our Listed Shares on the NYSE for the 10 trading day period immediately preceding the ex-dividend date for our shares, multiplied by the number of our shares outstanding on the record date. We make share distributions to our shareholders concurrently with the i-unit distributions we receive from the Partnership that increase the number of i-units we own. As a result of our share distributions, the number of shares outstanding is equal to the number of i-units that we own in the Partnership.

INCOME TAXES

Our income tax expense of \$9.2 million and \$17.6 million for the three and nine month periods ended September 30, 2012, respectively, is \$4.4 million and \$0.7 million more than the income tax expense we incurred for the corresponding periods in 2011. The increase in income tax expense for the three and nine month periods ended September 30, 2012 as compared to the same periods in 2011 was due to the increase in our net income primarily associated with increased amounts of equity income we recognized from the Partnership.

We computed our income tax expense for the three and nine month periods ended September 30, 2012 by applying a 37.0% effective income tax rate to our pre-tax income, which represents the federal statutory rate of 35.0% and the effective state income tax rate of 2.0%. For the three and nine month periods ended September 30, 2011, our income tax expense was computed by applying a 37.2% effective income tax rate to our pre-tax income, which represents the federal statutory rate of 35.0% and the effective state income tax rate of 2.2%.

SUBSEQUENT EVENTS

Share Distribution

On October 31, 2012, our board of directors declared a share distribution payable on November 14, 2012, to shareholders of record as of November 7, 2012, based on the \$0.5435 per limited partner unit distribution declared by the Partnership. The Partnership's distribution increases the number of i-units we own. The amount of this increase is calculated by dividing the cash amount distributed by the Partnership per common unit by the average closing price of one of our Listed Shares on the NYSE for the 10 trading day period immediately preceding the ex-dividend date for our shares, multiplied by the number of shares outstanding on the record date. We distribute additional Listed Shares to our Listed shareholders and additional voting shares to the General Partner in respect of these additional i-units.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The nature of our business and operations is such that we do not conduct activities or enter into transactions of the type requiring discussion under this item.

For a discussion of these matters as they pertain to the Partnership, please read the information set forth under Part I, Item 3. *Quantitative and Qualitative Disclosures about Market Risk* in the Partnership's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2012, which is hereby incorporated by reference, as activities of the Partnership have an impact on our results of operations and financial position.

Item 4. Controls and Procedures

Enbridge Management and Enbridge Inc., or Enbridge, maintain systems of disclosure controls and procedures designed to provide reasonable assurance that we are able to record, process, summarize and report the information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, or the Exchange Act, within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. Our management, with the participation of our principal executive and principal financial officers, has evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2012. Based upon that evaluation, our principal executive and principal financial officers concluded that our disclosure controls and procedures are effective to accomplish their purpose. In conducting this assessment, our management relied on similar evaluations conducted by employees of Enbridge affiliates who provide certain treasury, accounting and other services on our behalf. We have not made any changes that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the three month period ended September 30, 2012.
