Item 7.01. Regulation FD Disclosure

On October 1, 2013, Ashland Inc. will include the information contained in exhibits 99.1-99.14, and graphic images thereof, on the “Investor Center” section of its website located at <http://investor.ashland.com>, or in employee communications.

Ashland is furnishing the information pursuant to the Securities and Exchange Commission’s (“SEC”) Regulation FD. The information contained in exhibits 99.1-99.14 is summary information concerning key metrics for Ashland’s operating segments. The information is intended to be considered in the context of Ashland’s SEC filings and other public announcements that Ashland may make from time to time.

Additional Information Regarding Ashland Specialty Ingredients

Due to lower than expected orders, sales for Ashland Specialty Ingredients during the fiscal fourth quarter of 2013 are now expected to be approximately \$595 million. Despite lower order volume, management expects operating income margin for the quarter to improve sequentially with an increase of roughly 100 basis points.

ERP issues experienced during the quarter are substantially resolved.

Additional Information Regarding Ashland Performance Materials

Due to falling Butadiene costs, and the subsequent effects to both elastomers product selling prices and inventory valuation, Ashland Performance Materials sales and operating income will be below prior expectations. Management now expects sales to be roughly flat with the prior year fourth quarter and operating income margin to be slightly lower than prior year.

Additional Information Regarding Book Tax Rate

Management reiterates prior guidance that the full year book tax rate is expected to be near the low end of the expected range of 25% to 27%.

By filing this report on Form 8-K, Ashland makes no admission as to the materiality of any information in this report. Ashland reserves the right to discontinue the availability of the data in the attached exhibits.

Forward-Looking Statements

This Current Report on Form 8-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Ashland has identified some of these forward-looking statements with words such as “anticipates,” “believes,” “expects,” “estimates,” “may,” “will,” “should” and “intends” and the negatives of these words or other comparable terminology. In addition, Ashland may from time to time make forward-looking statements in its other filings with the Securities and Exchange Commission (SEC), news releases and other written and oral communications. These forward-looking statements are based on Ashland’s expectations and assumptions, as of the date such statements are made, regarding Ashland’s future operating performance and financial condition, the economy and other future events or circumstances. Ashland’s expectations and assumptions include, without limitation, internal forecasts and analyses of current and future market conditions and trends, management plans and strategies, operating efficiencies and economic conditions (such as prices, supply and demand, cost of raw materials, and the ability to recover raw-material cost increases through price increases), and risks and uncertainties associated with the following: Ashland’s substantial indebtedness (including the possibility that such indebtedness and related restrictive covenants may adversely affect Ashland’s future cash flows, results of operations, financial condition and its ability to repay debt), the potential strategic transaction involving Ashland Water Technologies and the potential sale of the elastomers business (including, in each case, the possibility that a transaction may not occur or that, if a transaction does occur, Ashland may not realize the anticipated benefits from such transaction), Ashland’s ability to generate sufficient cash to finance its stock repurchase plans, severe weather, natural disasters, and legal proceedings and claims (including environmental and asbestos matters). Various risks and uncertainties may cause actual results to differ materially from those stated, projected or implied by any forward-looking statements, including, without limitation, risks and uncertainties affecting Ashland that are described in its most recent Form 10-K (including Item 1A Risk Factors) filed with the SEC, which is available on Ashland’s website at <http://investor.ashland.com> or on the SEC’s website at www.sec.gov. Ashland believes its expectations and assumptions are reasonable, but there can be no assurance that the expectations reflected herein will be achieved. Ashland undertakes no obligation to subsequently update any forward-looking statements made in this Current Report on Form 8-K or otherwise except as required by securities or other applicable law.

*NOTE: Information from June 2013 has been adjusted to exclude a \$17 million charge related to a lower of cost or market adjustment within the Elastomers line of business. On November 30, 2010, the Casting Solutions business was contributed into an expanded joint venture with Süd-Chemie and is no longer reflected in these numbers from December 2010 moving forward. All information presented subsequent to September 2011 includes activity related to ISP's Elastomers business that was acquired on August 23, 2011.
