**Re: MobiVentures, Inc.  
Registration Statement on Form S-1  
Filed May 28, 2008  
File No. 333-151216**

**Form 10-Q for the quarter ended March 31, 2008  
Filed May 15, 2008  
File No. 000-51855**

Dear Mr. Nicholas:

We have limited our review of your filings to those issues we have addressed in our comments. Where indicated, we think you should revise your documents in response to these comments. If you disagree, we will consider your explanation as to why our comment is inapplicable or a revision is unnecessary. Please be as detailed as necessary in your explanation. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filings. We look forward to working with you in these respects. We welcome any questions you may have about our comments or any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

Form S-1

General

1. Please provide us, with a view toward disclosure in the prospectus, with the total dollar value of the securities underlying the convertible debentures that you have registered for resale (using the number of underlying securities that you have registered for resale and the

market price per share for those securities on the date of the sale of the convertible debenture).

2. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of the dollar amount of each payment (including the value of any payments to be made in common stock) in connection with the transaction that you have made or may be required to make to the selling shareholder, any affiliate of the selling shareholder, or any person with whom the selling shareholder has a contractual relationship regarding the transaction (including any interest payments, liquidated damages, payments made to “finders” or “placement agents,” and any other payments or potential payments). Please provide footdebenture disclosure of the terms of each such payment. Please do not include any repayment of principal on the convertible debentures in this disclosure.

Further, please provide us, with a view toward disclosure in the prospectus, with disclosure of the net proceeds to the issuer from the sale of the convertible debenture and the total possible payments to the selling shareholder and any of its affiliates in the first year following the sale of convertible debenture.

3. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of:
  - the total possible profit the selling shareholder could realize as a result of the conversion discount for the securities underlying the convertible debenture, presented in a table with the following information disclosed separately [in this comment, the reference to “securities underlying the convertible debenture” means the securities underlying the debenture that may be received by the person identified as the selling shareholder]:
    - the market price per share of the securities underlying the convertible debenture on the date of the sale of the convertible debenture;
    - the conversion price per share of the underlying securities on the date of the sale of the convertible debenture, calculated as follows:
      - if the conversion price per share is set at a fixed price, use the price per share established in the convertible debenture; and
      - if the conversion price per share is not set at a fixed price and, instead, is set at a floating rate in relationship to the market price of the underlying security, use the conversion discount rate and the market rate per share on the date of the sale of the convertible debenture and determine the conversion price per share as of that date;
  - the total possible shares underlying the convertible debenture (assuming no interest payments and complete conversion throughout the term of the debenture);

- the combined market price of the total number of shares underlying the convertible debenture, calculated by using the market price per share on the date of the sale of the convertible debenture and the total possible shares underlying the convertible debenture;
- the total possible shares the selling shareholder may receive and the combined conversion price of the total number of shares underlying the convertible debenture calculated by using the conversion price on the date of the sale of the convertible debenture and the total possible number of shares the selling shareholder may receive; and
- the total possible discount to the market price as of the date of the sale of the convertible debenture, calculated by subtracting the total conversion price on the date of the sale of the convertible debenture from the combined market price of the total number of shares underlying the convertible debenture on that date.

If there are provisions in the convertible debenture that could result in a change in the price per share upon the occurrence of certain events, please provide additional tabular disclosure as appropriate. For example, if the conversion price per share is fixed unless and until the market price falls below a stated price, at which point the conversion price per share drops to a lower price, please provide additional disclosure.

4. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of:
  - the total possible profit to be realized as a result of any conversion discounts for securities underlying any other warrants, options, notes, or other securities of the issuer that are held by the selling shareholder or any affiliates of the selling shareholder, presented in a table with the following information disclosed separately:
    - market price per share of the underlying securities on the date of the sale of that other security;
    - the conversion/exercise price per share as of the date of the sale of that other security, calculated as follows:
      - if the conversion/exercise price per share is set at a fixed price, use the price per share on the date of the sale of that other security; and
      - if the conversion/exercise price per share is not set at a fixed price and, instead, is set at a floating rate in relationship to the market price of the underlying security, use the conversion/exercise discount rate and the market rate per share on the date of the sale of that other security and determine the conversion price per share as of that date;

- the total possible shares to be received under the particular securities (assuming complete conversion/exercise);
  - the combined market price of the total number of underlying shares, calculated by using the market price per share on the date of the sale of that other security and the total possible shares to be received;
  - the total possible shares to be received and the combined conversion price of the total number of shares underlying that other security calculated by using the conversion price on the date of the sale of that other security and the total possible number of underlying shares; and
  - the total possible discount to the market price as of the date of the sale of that other security, calculated by subtracting the total conversion/exercise price on the date of the sale of that other security from the combined market price of the total number of underlying shares on that date.
5. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of:
- the gross proceeds paid or payable to the issuer in the convertible debenture transaction;
  - all payments that have been made or that may be required to be made by the issuer that are disclosed in response to Comment 2;
  - the resulting net proceeds to the issuer; and
  - the combined total possible profit to be realized as a result of any conversion discounts regarding the securities underlying the convertible debenture and any other warrants, options, notes, or other securities of the issuer that are held by the selling shareholder or any affiliates of the selling shareholder that is disclosed in response to Comment 3 or Comment 4.

Further, please provide us, with a view toward disclosure in the prospectus, with disclosure – as a percentage – of the total amount of all possible payments as disclosed in response to Comment 2 and the total possible discount to the market price of the shares underlying the convertible debenture as disclosed in response to Comment 3 divided by the net proceeds to the issuer from the sale of the convertible debenture, as well as the amount of that resulting percentage averaged over the term of the convertible debenture.

6. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of all prior securities transactions between the issuer (or any of its predecessors) and the selling shareholder, any affiliates of the selling shareholder, or any person with whom the selling shareholder has a contractual relationship regarding the transaction (or any

predecessors of those persons), with the table including the following information disclosed separately for each transaction:

- the date of the transaction;
  - the number of shares of the class of securities subject to the transaction that were outstanding prior to the transaction;
  - the number of shares of the class of securities subject to the transaction that were outstanding prior to the transaction and held by persons other than the selling shareholder, affiliates of the company, or affiliates of the selling shareholder;
  - the number of shares of the class of securities subject to the transaction that were issued or issuable in connection with the transaction;
  - the percentage of total issued and outstanding securities that were issued or issuable in the transaction (assuming full issuance), with the percentage calculated by taking the number of shares issued and outstanding prior to the applicable transaction and held by persons other than the selling shareholder, affiliates of the company, or affiliates of the selling shareholder, and dividing that number by the number of shares issued or issuable in connection with the applicable transaction;
  - the market price per share of the class of securities subject to the transaction immediately prior to the transaction (reverse split adjusted, if necessary); and
  - the current market price per share of the class of securities subject to the transaction (reverse split adjusted, if necessary).
7. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure comparing:
- the number of shares outstanding prior to the convertible debenture transaction that are held by persons other than the selling shareholder, affiliates of the company, and affiliates of the selling shareholder;
  - the number of shares registered for resale by the selling shareholder or affiliates of the selling shareholder in prior registration statements;
  - the number of shares registered for resale by the selling shareholder or affiliates of the selling shareholder that continue to be held by the selling shareholder or affiliates of the selling shareholder;
  - the number of shares that have been sold in registered resale transactions by the selling shareholder or affiliates of the selling shareholder; and

- the number of shares registered for resale on behalf of the selling shareholder or affiliates of the selling shareholder in the current transaction.

In this analysis, the calculation of the number of outstanding shares should not include any securities underlying any outstanding convertible securities, options, or warrants.

8. Please provide us, with a view toward disclosure in the prospectus, with the following information:

- whether the issuer has the intention, and a reasonable basis to believe that it will have the financial ability, to make all payments on the overlying securities; and
- whether – based on information obtained from the selling shareholder – the selling shareholder has an existing short position in the company’s common stock and, if the selling shareholder has an existing short position in the company’s stock, the following additional information:
  - the date on which the selling shareholder entered into that short position; and
  - the relationship of the date on which the selling shareholder entered into that short position to the date of the announcement of the convertible debenture transaction and the filing of the registration statement (*e.g.*, before or after the announcement of the convertible debenture transaction, before the filing or after the filing of the registration statement, etc.).

9. Please provide us, with a view toward disclosure in the prospectus, with:

- a materially complete description of the relationships and arrangements that have existed in the past three years or are to be performed in the future between the issuer (or any of its predecessors) and the selling shareholder, any affiliates of the selling shareholder, or any person with whom the selling shareholder has a contractual relationship regarding the transaction (or any predecessors of those persons) – the information provided should include, in reasonable detail, a complete description of the rights and obligations of the parties in connection with the sale of the convertible debentures; and
- copies of all agreements between the issuer (or any of its predecessors) and the selling shareholder, any affiliates of the selling shareholder, or any person with whom the selling shareholder has a contractual relationship regarding the transaction (or any predecessors of those persons) in connection with the sale of the convertible debenture.

If it is your view that such a description of the relationships and arrangements between and among those parties already is presented in the prospectus and that all agreements between

and/or among those parties are included as exhibits to the registration statement, please provide us with confirmation of your view in this regard.

10. Please provide us, with a view toward disclosure in the prospectus, with a description of the method by which the company determined the number of shares it seeks to register in connection with this registration statement. In this regard, please ensure that the number of shares registered in the fee table is consistent with the shares listed in the "Selling Stockholder" section of the prospectus.
11. With respect to the shares to be offered for resale by Trafalgar, please disclose in a footnote to the selling securityholder table the natural person or persons who exercise the sole or shared voting and/or dispositive powers with respect to the shares to be offered by that shareholder.

## Part II

### Item 17. Undertakings, page II-7

12. It appears that you have omitted the undertakings called for by Item 512(a)(5) of Regulation S-K. Please revise your filing to include the appropriate Item 512(a)(5) undertakings.

### Signatures, page II-9

13. We note the filing does not include the signature of your controller or principal accounting officer, or someone so designated. Please include this signature in your amended Form S-1. If Peter Ahman, the Chief Financial Officer, also serves as the controller or principal accounting officer, his signature should be captioned as such in the amended filing. See Instructions 1 and 2 to the Signatures section of Form S-1.

### Form 10-Q for quarter ended March 31, 2008

#### Item 4. Controls and Procedures, page 17

14. We note the following disclosure regarding management's evaluation of your disclosure controls and procedures: "Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission (the "SEC")." These effectiveness conclusions are stated in terms that are more limited in scope than the definition of "disclosure controls and procedures" as defined in Exchange Act Rule 13a-15(e). In your response letter, please tell us whether the effectiveness conclusions of the CEO and CFO were made with respect to the company's controls and procedures as that term is defined in Rule 13a-15. In addition, in future reports, please clarify, if true, that

your officers concluded that your disclosure controls and procedures are also effective to ensure that information required to be disclosed in the reports that you file or submit under the Exchange Act is accumulated and communicated to your management, including your chief executive officer and chief financial officer, to allow timely decisions regarding required disclosure.

\*\*\*\*\*

As appropriate, please amend your filings in response to these comments. Each responsive amendment should also include a marked copy of the amended filing that conforms with the provisions of Rule 310 of Regulation S-T. Marked copies such as those in HTML format that show changes within paragraphs help us to expedite our review. Please furnish a cover letter with each amendment that keys your responses to our comments and provides any requested information. Detailed cover letters greatly facilitate our review. Please understand that we may have additional comments after reviewing your amendment and responses to our comments.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filings to be certain that the filings include all information required under the Securities Act of 1933 and the Securities Exchange Act of 1934 and that they have provided all information investors require for an informed investment decision. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

Notwithstanding our comments, in the event the company requests acceleration of the effective date of the registration statement, it should furnish a letter, at the time of such request, acknowledging that:

- should the Commission or the staff, acting pursuant to delegated authority, declare the filing effective, it does not foreclose the Commission from taking any action with respect to the filing;
- the action of the Commission or the staff, acting pursuant to delegated authority, in declaring the filing effective, does not relieve the company from its full responsibility for the adequacy and accuracy of the disclosure in the filing; and
- the company may not assert staff comments and the declaration of effectiveness as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.

In addition, please be advised that the Division of Enforcement has access to all information you provide to the staff of the Division of Corporation Finance in connection with our review of your filings or in response to our comments on your filings.

We will consider a written request for acceleration of the effective date of the registration statement as confirmation of the fact that those requesting acceleration are aware of their respective responsibilities under the Securities Act of 1933 and the Securities Exchange Act of 1934 as they relate to the proposed public offering of the securities specified in the above registration statement. We will act on the request and, pursuant to delegated authority, grant acceleration of the effective date.

We direct your attention to Rule 461 regarding requesting acceleration of a registration statement. Please allow adequate time after the filing of any amendment for further review before submitting a request for acceleration. Please provide this request at least two business days in advance of the requested effective date.

Please contact Katherine Wray at (202) 551-3483 with any questions. If you require further assistance you may contact Jay Ingram at (202) 551-3397. You may contact me at (202) 551-3462 if you thereafter require assistance.

Sincerely,

Mark P. Shuman
