**NOTES TO CONDENSEDFINANCIAL STATEMENTS**  
**(Unaudited)**

**NOTE 1. - BASIS OF PRESENTATION**

The accompanying unaudited interim financial statements of Riverdale Mining Inc., have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in Riverdale's Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which substantially duplicate the disclosure contained in the audited financial statements for fiscal 2010 as reported in the Form 10-K have been omitted.

**NOTE 2. - GOING CONCERN**

From March 30, 2007 (date of inception) to December 31, 2010, Riverdale Mining has not generated revenues and has accumulated losses since inception. The continuation of Riverdale Mining as a going concern is dependent upon the continued financial support from its shareholders, the ability of Riverdale Mining to obtain necessary equity financing to continue operations, and the attainment of profitable operations. There is no guarantee that Riverdale Mining will be able to complete any of the above objectives. These factors raise substantial doubt regarding the Riverdale Mining's ability to continue as a going concern.

**NOTE 3. – RELATED PARTY TRANSACTIONS**

As of the quarter ended December 31, 2010, Riverdale Mining Inc's President advanced the Company a total of \$9,980. The loan is unsecured, bears no interest and is due on demand.

**NOTE 4 – NOTE PAYABLE**

On November 1, 2010, Riverdale borrowed \$25,000 from CRG Finance. The note bears 10% interest and is due on demand.

**NOTE 5 - SUBSEQUENT EVENTS**

On January 31, 2011, the Company was unaware of its mineral title renew and inadvertently did not renew the Sheelagh Creek Gold mining claim in time. The claim was automatically forfeited and was re-staked by Speebo Inc. On February 15, 2011, Speebo Inc. agreed to resell the claim to the Company for \$2,500, which was paid on February 15, 2011. The Sheelagh Creek Gold mining claim is held in the name of the Company's president, Vladimir Vaskevich. A copy of the bill of sale is filed hereto as Exhibit 10.1.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS.**

This section of this quarterly report on Form 10-Q includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this annual report. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions.

### **Plan of Operation**

We are a start-up, exploration stage corporation and have not yet generated or realized any revenues from our business operations.

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills. This is because we have not generated any revenues and no revenues are anticipated until we begin removing and selling minerals. There is no assurance we will ever reach this point.

### ***Estimates and Assumptions***

In the preparation of our financial statements, no estimates have been used since there is insufficient historical information in which to base such estimates.

### ***Trends Affecting Our Business***

We do not recognize any trends which will affect our business. While it appears that we are in a world-wide recession, the demand for mineralized materials remains constant in good or bad economical cycles.

### ***Plan of Operation for the Next Twelve Months***

On July 15, 2010, we purchased the Sheelagh Creek Gold mining claim for \$5,000. The property is registered in our president's name.

On January 31, 2010, we were unaware that our mineral title needed to be renewed and inadvertently did not renew the Sheelagh Creek Gold mining claim in time. The claim was automatically forfeited and was re-staked by Speebo Inc. On February 15, 2011, Speebo Inc. agreed to resell the claim to us for \$2,500. The \$2,500 was paid on February 15, 2011 and the Sheelagh Creek Gold mining claim is held in the name of our president, Vladimir Vaskevich. A copy of the bill of sale is filed hereto as Exhibit 10.1.

## ***Geological Information:***

The Sheelagh Creek showing is located on the east wall of a small intermittent stream draining from the north into Sheelagh Creek within the Eskay Creek region of Northwestern British Columbia. The showing consists of a 2.5 (8.2 feet) to 3.5-metre (11.5 feet) wide quartz vein striking approximately 045 degrees and dipping about 75 degrees to the northwest. It is traceable over 8 metres (26.25 feet) before it disappears under the surrounding overburden.

Mineralization consists of disseminated to semi massive pods of pyrite. Three one-metre rock chip samples were taken across the face of vein and produced assay results of 15.77 grams per tonne gold and 41.83 grams per tonne silver over 3.0 meters. A selected grab sample returned values of 61.37 grams per tonne gold and 109.4 grams per tonne silver.

## ***Plan of Operations:***

A helicopter supported geological mapping and sampling program in combination with a micro-grid soil geochemical survey is recommended. The objective of this work is to locate and sample the exposed vein and locate the potential extensions of the vein (which are covered by overburden) utilizing the geochemical (soil sampling) survey. As helicopter support is required for this work the estimated cost of the program is \$10,000 to \$12,000.

On August 4, 2010, we allowed our previous mining claims, Rainy Day #1, 2, and 3, (tenure numbers 403434, 403435, 533578) to be forfeited. We completed our exploration program and the sample evaluations indicated that there was minimal mineralized material on the property and it was not economically feasible to continue with the claims.

## **Results of Operations**

### ***Period Ended December 31, 2009 Compared to Period Ended December 31, 2010***

#### **1. Revenue and Operating Expenses**

We did not generate any revenue during the period ended December 31, 2010, which remained unchanged from the period ended December 31, 2009. The reason we have not generated any revenue is because we are still in the exploration stage.

Consulting fee decreased by \$1,536 or 24% from \$6,495 for the period ended December 31, 2009 to \$4,959 for the period ended December 31, 2010. The reason for the decrease was the result of decreased consultants needed for our OTCBB listing.

Other administrative and general expenses increased by \$2,238 or 33% from \$1,106 for the period ended December 31, 2009 to \$3,344 for the period ended December 31, 2010. The increase was primarily due to an increase in telephone and office supply expenses.

#### **2. Assets and Liabilities**

Cash and cash equivalents were \$5,358 at December 31, 2010 as compared to \$128 at March 31, 2010. The reason for the decrease was the result of pay consulting, legal and accounting fees needed to maintain our reporting requirements.

## **Limited Operating History; Need for Additional Capital**

There is no historical financial information about us upon which to base an evaluation of our performance. We are an exploration stage corporation and have not generated any revenues from operations. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources, possible delays in the exploration of our properties, and possible cost overruns due to price and cost increases in services.

We have no assurance that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Future equity financing could result in additional dilution to existing shareholders.

## **Liquidity and Capital Resources**

From March 30, 2007 (date of inception) to December 31, 2010, Riverdale Mining has not generated revenues and has accumulated losses since inception. The continuation of Riverdale Mining as a going concern is dependent upon the continued financial support from its shareholders, the ability of Riverdale Mining to obtain necessary equity financing to continue operations, and the attainment of profitable operations. There is no guarantee that Riverdale Mining will be able to complete any of the above objectives. These factors raise substantial doubt regarding the Riverdale Mining's ability to continue as a going concern

At the present time, we have not made any arrangements to raise additional cash. If we need additional cash and cannot raise it we will either have to suspend operations until we do raise the cash, or cease operations entirely.

We have the right to explore one property which consists of one claim comprising a total of 179 acres. The property is registered in our president's name.

On January 31, 2010, we were unaware that our mineral title needed to be renewed and inadvertently did not renew the Sheelagh Creek Gold mining claim in time. The claim was automatically forfeited and was re-staked by Speebo Inc. On February 15, 2011, Speebo Inc. agreed to resell the claim to us for \$2,500. The \$2,500 was paid on February 15, 2011 and the Sheelagh Creek Gold mining claim is held in the name of our president, Vladimir Vaskevich. A copy of the bill of sale is filed hereto as Exhibit 10.1.

On February 8, 2011, we entered into a loan agreement with CRG Finance AG whereby CRG Finance AG loaned us \$25,000. The loan is due upon demand and compounds interest at 10.0% per annum, based on a 365 day calendar year. As of February 15, 2011, we have received \$15,000 of the total \$25,000 loan. A copy of the loan agreement is filed hereto as Exhibit 10.2.

Since inception, we have issued 7,000,000 shares of our common stock and received \$200,050.

In March 2007, we issued 5,000,000 shares of common stock to our officers and directors pursuant to the exemption from registration contained in Regulation S of the Securities Act of 1933. The purchase price of the shares was \$50. This was accounted for as an acquisition of shares.

In December 2007, we completed our public offering by raising \$200,000 and issued 2,000,000 shares of common stock.

As of December 31, 2010, our total assets were \$5,358 consisting entirely of cash and our total liabilities were \$51,076.

During the quarter ended December 31, 2010, Riverdale Mining repaid its' president \$10,000 for loans he made to the Company for operating expenses.

### **Off Balance Sheet Arrangements**

We have no off balance sheet arrangements.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK**

There was not underwriter involved in our public offering. On December 3, 2007 we completed our public offering by issuing 2,000,000 shares of our common stock and raising \$200,000. As of the date of this report, we have used all of the funds raised through our public offering.
