Dear Ross DiMaggio:

We have reviewed your September 21, 2022 response to our comment letter and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to these comments within ten business days by providing the requested information or advise us as soon as possible when you will respond. If you do not believe our comments apply to your facts and circumstances, please tell us why in your response.

After reviewing your response to these comments, we may have additional comments. Unless we note otherwise, our references to prior comments are to comments in our September 9, 2022 letter.

Form 10-K for the Fiscal Year Ended December 31, 2021 and Form 10-Q for the Quarterly Period Ended June 30, 2022

Evaluation of Disclosure Controls and Procedures, page 54

1. We note your response to comment 1. Please be advised that the comment will remain open until your filing of the amended 10-K for the fiscal year ended December 31, 2021 that fully addresses the issue raised.

Index to Consolidated Financial Statements  
Consolidated Statements of Operations, page F-4

2. We note your response to comment 5. As we noted in the comment, page F-18 discloses that all outstanding preferred stock converted to common stock on December 21, 2021. We located no disclosure suggesting conversion occurred on November 22, 2021. This suggests 290,340 common shares outstanding from January 1, 2021 to December 21, 2021, followed by 15,764,425 common shares outstanding from December 22, 2021 to December 31, 2021. This would indicate that the weighted average number of common shares outstanding for fiscal year 2021 was considerably less than 1,943,735. Please advise.
3. Please provide us the revised weighted average number of common shares outstanding you expect to report in your amended June 30, 2022 Form 10-Q for the comparative 2021 periods, and how they were calculated.

Consolidated Statements of Stockholders' Equity (Deficit), page F-5

4. We note your response to comment 6 that the \$282,450 of recapitalization expenses should have been expensed during fiscal 2021 instead of charged to equity, since no gross proceeds were realized from your 2021 recapitalization. In conjunction with comment 5 below, please confirm that the audited comparative December 31, 2021 financial statements in your transitional 10-K will also include a restatement to correct for this error along with appropriate footnote disclosure of the nature of the restatement and its materiality to your fiscal 2021 financial statements as originally filed.

General

5. We note in your response that you expect to change your fiscal year from December 31<sup>st</sup> to September 30<sup>th</sup> effective October 1, 2022, and subsequently file a transitional Form 10-K for the nine months ended September 30, 2022 (transitional 10-K). Please address the following:
  - Please confirm your plan to furnish under Item 5.03 a Form 8-K explaining the fiscal year change.
  - Please confirm that your transitional 10-K will include audited comparative December 31, 2021 balance sheet and the related periodic financial statements for the year then ended that are restated to address comments 2, 3, 4 of our September 9, 2022 comment letter. Please also confirm that you will include appropriate footnote disclosure explaining the nature of the restatements and your evaluation both quantitatively and qualitatively of the materiality of each to your fiscal 2021 financial statements as originally filed.
6. We note your response to comment 3. Please be advised that this comment will remain open until your filing of the amended June 30, 2022 Form 10-Q that fully addresses the issue raised.

With respect to comment 10, please confirm that you will be including Exhibits 31.1, 31.2, and 32.1 as part of the amended June 30, 2022 10-Q.
