

Investor Update BROWN SHOE COMPANY, INC.

April 2008

EVERY PERSON, EVERY DAY, EVERY MOMENT

This investor update contains certain forward-looking statements and expectations regarding the Company's future performance and the future performance of its brands. Such statements are subject to various risks and uncertainties that could cause actual results to differ materially. These include (i) the preliminary nature of estimates of the costs and benefits of the Earnings Enhancement Plan, which are subject to change as the Company makes decisions and refines these estimates over time; (ii) potential disruption to the Company's business and operations as a result of the Company's decision to relocate positions from its Madison, Wisconsin office to its St. Louis, MO headquarters; (iii) intense competition within the footwear industry; (iv) rapidly changing consumer demands and fashion trends and purchasing patterns, which may be influenced by consumers' disposable income, which in turn can be influenced by general economic conditions; (v) customer concentration and increased consolidation in the retail industry; (vi) the Company's ability to successfully implement its Earnings Enhancement Plan, including the relocation of functions to St. Louis, MO and the Company's ability to attract and retain talent; (vii) political and economic conditions or other threats to continued and uninterrupted flow of inventory from China and Brazil, where the Company relies heavily on third-party manufacturing facilities for a significant amount of its inventory; (viii) the Company's ability to attract and retain licensors and protect its intellectual property; (ix) the Company's ability to secure leases on favorable terms; (x) the Company's ability to maintain relationships with current suppliers; (xi) the uncertainties of pending litigation; and (xii) the Company's ability to successfully execute its international growth strategy. The Company's reports to the Securities and Exchange Commission contain detailed information relating to such factors, including, without limitation, the information under the caption "Risk Factors

Non-GAAP Financial Measures

In the following pages, the Company's financial results and measures are provided both in accordance with generally accepted accounting principles (GAAP), and using certain non-GAAP financial measures. In particular, the Company provides historic and estimated future net earnings per diluted share excluding certain charges and recoveries, as well as Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA), which are non-GAAP financial measures. In addition, the Company provides financial data for certain of its Famous Footwear stores, including sales per square foot, total sales, operating earnings, EBITDA, cash investments, and return on investment, which are non-GAAP financial measures. These results and measures are included as a complement to results provided in accordance with GAAP because management believes these non-GAAP financial measures help indicate underlying trends in the Company's business and provide useful information to both management and investors by excluding certain items that are not indicative of the Company's core operating results. These results and measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results.

Recent Events

On April 10 2008, announced the relocation of Madison office to St. Louis

This move will create one greatly connected footwear company

• Will aid in achieving our vision of being a leading footwear marketer and doubling our rate of profitability while doubling sales, as it will foster collaboration, increase speed-to-market and strengthen our connection with consumers

The transition will begin during the second quarter and be substantially complete by the end of the third quarter of 2008

• All of the 270 Madison-based employees have been offered jobs and relocation assistance or severance and outplacement assistance

We expect to incur pre-tax expenses of \$25 to \$30 million (\$0.37 to \$0.44 per diluted share) to implement the transition. Cost breakdown is expected to be as follows:

Expense Category	Estimate of Pre-Tax Expenses
People-related costs, including relocation, retention incentives and severance	\$15 - \$16 million
Fixed asset write-offs (non-cash)	\$4 - \$5 million
Lease termination costs	\$4 - \$6 million
Other	\$2 - \$3 million
Total	\$25 - \$30 million

Under various state economic development programs, we will collaborate with public partners to avail ourselves of eligible incentives totaling more than \$43 million related to training and job creation and redevelopment of our Clayton site

- Our growth plan anticipates relocating or creating 500 700 new jobs over the next several years
- Intend to redevelop our 12-acre property over next few years to build a new international headquarters and multi-use retail and residential facilities. Working with our development partners, we anticipate a potential monetization of existing assets and an operating leaseback of the new facility or a portion of the existing property.

Earnings Enhancement Plan: Savings of \$26 million to date

Key Accomplishments in 2007:

Reorganization of Brown Shoe Retail and associated consolidation of key functions:

- Blended all retail field operations and store support functions, across all retail formats
- Created enterprise-wide D2C organization, including relocation of Shoes.com organization to St. Louis

Continued reorganization of key Wholesale operations:

Completed Brown New York reorganization and redevelopment of core merchandising functions

Consolidation of total corporate real estate and organizational locations:

• Needham office, Dover Distribution Center, LA office (in Shoes.com relocation), Satellite sourcing offices (Italian offices, Taiwan office, Brazil house)

Executed other key operating efficiency initiatives:

- Reorganized corporate and divisional finance functions
- Increased leverage of non-trade spend (e.g. indirect procurement)
- Achieved budgeted inventory turns due to retail inventory optimization initiative

Remaining key areas of focus:

- Distribution Network made decision to open west coast Retail DC, enabling improved operating efficiencies across our retail supply chain
- Headquarters consolidation decision to join Madison and St. Louis offices announced in April 2008
- Enterprise-wide information systems to support and leverage our sourcing, wholesale, retail, and corporate operations
