

Investor Update
First Quarter 2011

BROWN SHOE

Safe Harbor Statement

Under the Private Securities Litigation Reform Act of 1995

This press release contains certain forward-looking statements and expectations regarding the Company's future performance and the future performance of its brands. Such statements are subject to various risks and uncertainties that could cause actual results to differ materially. These risks include (i) changing consumer demands, which may be influenced by consumers' disposable income, which in turn can be influenced by general economic conditions; (ii) potential disruption to Brown Shoe's business and operations as it integrates ASG into its business; (iii) potential disruption to Brown Shoe's business and operations as it implements its information technology initiatives; (iv) Brown Shoe's ability to utilize its new information technology system to successfully execute its strategies, including integrating ASG's business; (v) intense competition within the footwear industry; (vi) rapidly changing fashion trends and purchasing patterns; (vii) customer concentration and increased consolidation in the retail industry; (viii) political and economic conditions or other threats to the continued and uninterrupted flow of inventory from China, where ASG has manufacturing facilities and both ASG and Brown Shoe rely heavily on third-party manufacturing facilities for a significant amount of their inventory; (ix) the ability to recruit and retain senior management and other key associates; (x) the ability to attract and retain licensors and protect intellectual property rights; (xi) the ability to secure/exit leases on favorable terms; (xii) the ability to maintain relationships with current suppliers; (xiii) compliance with applicable laws and standards with respect to lead content in paint and other product safety issues; (xiv) the ability to source product at a pace consistent with increased demand for footwear; and (xv) the impact of rising prices in a potentially inflationary global environment. The Company's reports to the Securities and Exchange Commission contain detailed information relating to such factors, including, without limitation, the information under the caption Risk Factors in Item 1A of the Company's Annual Report on Form 10-K for the year ended January 29, 2011, which information is incorporated by reference herein and updated by the Company's Quarterly Reports on Form 10-Q. The Company does not undertake any obligation or plan to update these forward-looking statements, even though its situation may change.

* In this investor update, the Company's financial results are provided both in accordance with generally accepted accounting principles (GAAP) and using certain non-GAAP financial measures. In particular, the Company provides historic earnings per diluted share adjusted to exclude certain charges and recoveries, which is a non-GAAP financial measure. These results are included as a complement to results provided in accordance with GAAP because management believes this non-GAAP financial measure helps to identify underlying trends in the Company's business and provides useful information to both management and investors by excluding certain items that may not be indicative of the Company's core operating results. This measure should not be considered a substitute for or superior to GAAP results. Please see Schedule 4 to the Company's May 25, 2011, press release for a reconciliation of this non-GAAP measure to the GAAP measure.

DIANE SULLIVAN

PRESIDENT AND CHIEF OPERATING OFFICER

First Quarter

- Accomplishments
 - Refinanced debt
 - Closed ASG acquisition
 - Made great strides in SAP implementation
 - Delivered solid earnings

BROWN SHOE

Strategy Expectations

Focus on shareholder value creation

- Realign portfolio of businesses around strategy
- Grow topline in core businesses
- Increased productivity around SG&A, infrastructure costs and capital base

Terrific foundation to build upon
