Active2Tec and Royal Caridea

Active2Tec (www.active2tec.com) fresh packaging makes e-commerce and consumer-direct business models viable for perishable foods. ***Active2Tec is the only modified atmosphere packaging system which permits recovery from temperature abuse and solves condensation & moisture problems.***

Active2Tec extends food product lifespan for efficient supply chain management, reduction of logistical costs, and smaller carbon footprints.

Active2Tec provides full-service solutions, including direct access to clients and customers in Dubai, Hong Kong, and the E.U.

Active2Tec plans to purchase premium fresh never frozen shrimp from Royal Caridea, when available from its GEN-2 system, the shrimp will be packaged in our Active2Tec fresh packaging, for resale, and distribution in key foreign destinations worldwide.

Regards,

Active2Tec, LLC
