**Filed August 23, 2019**  
**File No. 024-11064**

Dear Mr. Roberts:

We have reviewed your offering statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by amending your offering statement and providing the requested information. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response. After reviewing any amendment to your offering statement and the information you provide in response to these comments, we may have additional comments.

Offering Statement on Form 1-A filed August 23, 2019

General

1. In your Form 1-A filing, you state that you “expect to sell businesses [you] own from time to time when attractive opportunities arise.” You also state that your “decision to sell a business will be based on [your] belief that the sale will provide [your] shareholders with a more favorable return on the investment than continued ownership, and will be consistent with the disposition criteria to be established by [your] company’s board of directors from time to time.” Please provide an analysis as to why the company is not a “special situation investment company.” See *Certain Prima Facie Investment Companies*, Investment Company Act Release No. 10937 (Nov. 13, 1979).

Summary, page 1

2. With respect to your acquisition strategy, we note the statement on page 4 that you expect to acquire companies that "have been able to generate positive pro forma cash available

for distribution for a minimum of three years prior to acquisition." Please revise to disclose whether your current and previous acquisitions meet this and your other criteria described on page 4. We also note that your strategy includes possibly selling the companies you acquire. With respect to your Investment Company discussion on pages 14, 16 and elsewhere, please advise us of the time horizon for such sales after the date of acquisition.

3. We note the statements that the securities being offered rank senior to your allocation shares and, unless agreed to by a majority of the public holders, pari passu or senior to future designated series of preferred. Please reconcile with disclosure elsewhere that (1) the allocation shares are "entitled to all profit allocations" and (2) the series A preferred shares "effectively rank junior to all existing and future indebtedness."

Use of Proceeds, page 42

4. We note that you intend to use the proceeds to pay off certain debt. Please disclose the interest rate and maturity of the indebtedness being paid with the proceeds. See Instruction 4 to Item 504 of Regulation S-K.
5. We note your statement that "the anticipated use of proceeds is not binding on us and is merely description of our current intentions" and that you "reserve the right to change the above use of proceeds if management believes it is in the best interests of our company." You may reserve the right to change the use of proceeds, provided that such reservation is due to certain contingencies that are discussed specifically and the alternatives to such use in that event are indicated. Please revise your disclosure to discuss the contingencies to reserving the right to change the use of proceeds and the alternative uses. See Instruction 7 to Item 504 of Regulation S-K.

Management's Discussion and Analysis, page 45

6. Please revise to discuss management's plan to remedy the material deficiency in liquidity and the "contingency plans to reduce or defer expenses and cash outlays should operations not improve," as referenced on page F-47. Please clarify the approximate amount of funds management believes is necessary "to implement our strategy and stay in business." Additionally, it is unclear why you state that you have financed operations "primarily" through cash flow from operations when you appear to have negative cash flow from operations. Please revise to clarify.
7. Where you summarize the notes and loans beginning on page 53, please provide aggregate figures for total debt coming due in the short and long term.

Executive Compensation, page 104

8. We note that your Chief Executive Officer is employed and compensated by your manager. Item 402(m)(1) requires executive compensation disclosure even for transactions between the registrant and a third party where a purpose of the transaction is

to furnish compensation to any named executive officer. Please provide the disclosure required by Item 402(n) and (o) of Regulation S-K.

Transactions with Related Persons, page 106

9. Please revise to identify the parties and address the material terms of the agreements. For example, it is unclear what fees and other terms are associated with the license agreement with the manager for the use of "1847." As another non-exclusive example, please identify the "certain officers and related persons" who have advanced funds and the approximate timeframe when the advances were made and repaid.

If any were financial covenants, also disclose the actual covenant computations for each period as compared to the covenant requirement.
