GOVERNANCE FRAMEWORK

As stated in our Corporate Governance Guidelines, the mission of the Board of Directors (the “Board”) is to represent the Company’s stockholders as a whole and seek to ensure the long-term well-being of the enterprise. In furtherance of this mission, Welbilt has adopted a comprehensive corporate governance framework designed to enable the Board to provide effective oversight of the business and affairs of the Company, allow the Board to make decisions independent of management, align the interests of our Board and management with those of our stockholders and maintain compliance with the requirements of the New York Stock Exchange (“NYSE”) and applicable law. This framework sets forth our practices with respect to Board composition, Board independence, Board and committee evaluations, CEO and executive compensation, stockholder engagement, risk oversight and more.

Copies of our current corporate governance documents and policies, including our Code of Conduct, Global Ethics Policy, Corporate Governance Guidelines, Director Independence Criteria, Bylaws and committee charters, are available on the Investor Relations section of our website at <http://ir.welbilt.com>. BOARD COMPOSITION

CRITERIA FOR EVALUATING DIRECTOR CANDIDATES. The Corporate Governance Committee of our Board is responsible for evaluating potential candidates for service on our Board, including evaluating the performance and suitability of incumbent directors before recommending them to the full Board for re-election, reviewing candidates recommended by certain qualified stockholders and identifying and recommending new candidates for nomination to fill existing or expected vacancies on the Board. Under our Corporate Governance Guidelines, qualified directors should generally meet certain specified expectations, including:

- Education, experience and insight necessary to understand the Company's business and give long-term direction and guidance for the success of the enterprise.
- Business or professional stature necessary to represent the Company before the public, its stockholders and other individuals and groups that affect the Company's business.
- Strong measures of independence (for outside directors) and strength of conviction while also leaving behind personal prejudice so as to be open to other points of view from fellow directors.
- Willingness and ability to objectively and constructively appraise management performance and recommend appropriate changes when necessary.
- Avoid any activity or interest that might conflict with a director's fiduciary responsibility to the Company and its stockholders.

DIVERSITY. In addition, the Board appreciates the value that can come from a diverse representation on the Board. In identifying candidates for the Board, the Corporate Governance Committee considers foremost the qualifications and experience that the committee believes would best suit the Board's needs created by each particular vacancy. As part of the process, the Corporate Governance Committee and the Board endeavor to have a Board comprised of individuals with diverse backgrounds, viewpoints, and life and professional experiences, provided such individuals should all have a high level of management and/or financial experience. In this process, the Board and the Corporate Governance Committee do not discriminate against any candidate on the basis of

race, color, national origin, gender, religion, disability, sexual orientation, or gender identity. While the Company has no formal diversity policy that applies to the consideration of director candidates, the Corporate Governance Committee believes that diversity includes not just race and gender but differences of viewpoint, experience, education, skill and other qualities or attributes.

BOARD LEADERSHIP STRUCTURE. Currently, the roles of Board Chairperson and Chief Executive Officer are held by two different individuals. The Board has determined that the interests of the Company and the Board are best served at this time by separating these roles. In light of the Company's recent spin-off in March 2016, the Board continues to believe that it is important to have a President and Chief Executive Officer focus on the day-to-day management of the business and execution of our strategic plan and have a separate independent Board Chairperson with a long-standing familiarity of the Company focus on leading the Board of Directors, providing advice and support to the President and CEO when needed, facilitating the Board's independent oversight of management and enabling the Board to fulfill its risk oversight responsibilities. The current leadership structure not only encourages the free and open dialogue of competing views but also provides for strong checks and balances. In the event that the Chairperson of the Board is also the Chief Executive Officer, the Corporate Governance Guidelines provide for the designation of a lead independent director to serve as a liaison between the Chairperson of the Board and the independent directors, among other things.

BOARD INDEPENDENCE. The Board affirmatively determined that all of our director nominees, except for Mr. Muehlhaeuser, our President and CEO, are independent according to our Corporate Governance Guidelines, the Director Independence Criteria adopted by the Board and applicable rules of the NYSE. For a director to be considered independent under the NYSE rules, the Board must affirmatively determine that a director does not have a material relationship with Welbilt (other than as a director). In determining whether a director has a material relationship with Welbilt, the Board will consider the nine criteria specified in the Company's Director Independence Criteria. Any director who meets all of the nine criteria will be presumed by the Board to have no material relationship with Welbilt.

The Corporate Governance Committee is responsible for periodically reviewing and making recommendations to the Board regarding director independence. Upon the committee's recommendation, the Board reviews and makes its independence determinations. These determinations are generally made on an annual basis at the same meeting at which the Board approves director nominees for election at the annual meeting of stockholders and at such other times as circumstances dictate, including if a director joins the Board in the interim or an individual director's circumstances should change in such a manner that would impact his or her independence from management.

DIRECTOR ORIENTATION AND ONGOING EDUCATION. All new directors elected to the Board participate in a new director orientation program, which is established and administered under the direction of the Corporate Governance Committee. Continuing directors who are not currently serving as officers of other public companies are encouraged to participate in a minimum of eight hours of seminars and educational opportunities per year in an area pertinent to the Company or such director's committee assignments. Educational opportunities may include attendance at relevant trade shows, tours of Company facilities and service as a director on other company boards.

ELECTION OF DIRECTORS. Under our Bylaws, in the event of an uncontested election of directors, each director nominee shall be elected to the Board by the vote of the majority of the votes cast. For purposes of the election of directors, a "majority of the votes cast" means that the number of shares voted "For" a director nominee must exceed the number of shares voted "Against" that director nominee. Abstentions and broker non-votes are not considered votes cast for this purpose and will have no effect on the election of director nominees.

BOARD CANDIDATES. The Corporate Governance Committee will consider candidates recommended by officers, Board members, stockholders and third-party professional search firms retained by the Corporate Governance Committee. In late 2016, as part of an initiative to refresh the skills, experience and perspectives represented on Board, the Corporate Governance Committee retained Korn Ferry to assist with identifying and recruiting independent, experienced and diverse directors to expand and augment the Board's collective and individual capabilities.

Stockholder Submissions. The Corporate Governance Committee will only review recommendations for director nominees from any stockholder beneficially owning, or group of stockholders beneficially owning in the aggregate, at least 5% of the issued and outstanding common stock of the Company for at least one year as of the date that the recommendation was made (a "Qualified Stockholder"). Qualified Stockholders who wish to recommend individuals to the Corporate Governance Committee for consideration as potential director candidates may do so by submitting their recommendation no later than the 120th calendar day before the anniversary date the Company's proxy statement was released to stockholders in connection with the previous year's annual meeting for the recommendation to be considered by the Corporate Governance Committee, together with appropriate

biographical and background information sufficient to allow the committee to review the individual's qualifications and a statement as to whether the Qualified Stockholder beneficially owned in the aggregate, at least 5% of the issued and outstanding common stock of the Company for at least one year as of the date that the recommendation was made. Any recommendation must be submitted in accordance with the procedures set forth in the Corporate Governance Guidelines under the heading "Communications to the Board of Directors." The Corporate Governance Committee will review any compliant and timely submitted recommendations and has sole discretion as to whether to nominate the recommended individual.

The Corporate Governance Committee did not receive any recommendations for director nominees from any Qualified Stockholder (as defined in the foregoing policy).

Incumbent Directors. Prior to the expiration of the term of a director desiring to stand for re-election, the Corporate Governance Committee will evaluate the performance and suitability of the particular director. The evaluation may include the opportunity for other sitting directors to provide input to the Corporate Governance Committee or its chairperson and may include an interview of the director being evaluated. If the director being evaluated is the chairperson of the Corporate Governance Committee, another member of the Corporate Governance Committee will be appointed to lead the evaluation. The Corporate Governance Committee will make a recommendation to the Board, and the Board will make a final determination as to which directors shall be nominated for re-election.

Board Vacancies. In the event of a vacancy on the Board, the Corporate Governance Committee will manage the process of searching for a suitable director. The Corporate Governance Committee will use its judgment in structuring and carrying out the search process based on the Corporate Governance Committee's and the Board's perception as to what qualifications would best suit the Board's needs for each vacancy. The process may include the consideration of candidates recommended by officers, Board members, stockholders, and/or a third party professional search firm retained by the Corporate Governance Committee. The Corporate Governance Committee has sole authority to retain (including to determine the fees and other retention terms) and terminate any third party to be used to identify director candidates and/or evaluate any director candidates. Any candidate should meet the expectations for directors set forth in the Company's Corporate Governance Guidelines. Strong preference should be given to candidates who are "independent," as that term is defined in the Company's Director Independence Criteria and the NYSE rules, and to candidates who are sitting or former executives of companies whose securities are listed on a national securities exchange and registered pursuant to the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The Corporate Governance Committee is not required to consider candidates recommended by a stockholder except in accordance with the section captioned, "Consideration of Candidates for the Board of Directors Submitted by Shareholders" set forth in the Corporate Governance Committee Charter. If the Corporate Governance Committee decides to consider a candidate recommended by a stockholder, the Corporate Governance Committee will be free to use its discretion and judgment as to what deference will be given in considering any such candidate.

COMMITTEES OF THE BOARD

Our Board has established three standing committees—Audit, Compensation and Corporate Governance—each of which operates under a written charter approved by the Board and available on the Investor Relations section of our website at <http://ir.welbilt.com>. Our Board delegates substantial responsibilities to the committees, which then report their activities and actions back to the full Board as appropriate or necessary. The Board, upon the recommendation of the Corporate Governance Committee, annually reviews committee composition and reassigns directors as needed so that the Board and each of its committees are best positioned to carry out their respective duties. The Board has determined that all of the members of the Audit, Compensation and the Corporate Governance Committees, including committee chairpersons, are independent in accordance with the standards set forth in our Corporate Governance Guidelines and Director Independence Criteria, including applicable SEC and NYSE rules.

COMPENSATION COMMITTEE

Meetings in 2017: 5

Members:

Joan K. Chow, Chair
Dino J. Bianco
Thomas D. Davis
Brian R. Gamache

All Independent: Yes

Heightened Requirements: Yes. The Board of Directors has determined that each member of the Compensation Committee meets the independence requirements of the SEC and NYSE applicable to Compensation Committee members.

Purpose: The purpose of the Welbilt Compensation Committee is to provide assistance to the Board of Directors in fulfilling its responsibility to achieve the Company's purpose of maximizing the long-term total return to shareholders by ensuring that officers, directors and employees are compensated in accordance with the Company's philosophy, objectives and policies. The Compensation Committee shall review and approve compensation and benefits policies, strategies, and pay levels necessary to support corporate objectives and shall provide an annual report on executive compensation for inclusion in the Company's proxy statement, in accordance with applicable rules and regulations.

Responsibilities. The Compensation Committee's responsibilities include:

- annually reviewing and approving corporate goals and objectives relevant to CEO and executive compensation;
- evaluating the compensation levels and payouts for the CEO and other executive officers annually against an appropriate comparison group;
- reviewing and recommending to the Board for approval, the compensation levels of the CEO and other key executives;
- overseeing the Company's equity incentive plans;
- reviewing and recommending to the Board for approval non-employee director compensation;
- reviewing the Company's compensation programs and practices in light of tax, accounting, legal and regulatory requirements; and
- evaluating the results of each shareholder advisory vote on executive compensation.

Compensation Committee Interlocks and Insider Participation. During 2017, no member of our Compensation Committee was an employee or officer or former officer of the Company or had any relationships requiring disclosure under Item 404 of Regulation S-K. None of our executive officers has served on the Board of Directors or Compensation Committee of any other entity that has or has had one or more executive officers who served as a member of our Board of Directors or our Compensation Committee during 2017.

Compensation Consultant. The Compensation Committee engaged Willis Towers Watson ("WTW") as its independent compensation consultant to provide the committee with information regarding market trends and guidance on our 2017 executive pay programs. During 2017, WTW performed the following tasks:

- provided competitive market analyses and advice on general marketplace trends, developments and best practices with respect to executive compensation and director compensation;
- attended and participated in meetings of the Compensation Committee;
- assessed the competitiveness of our compensation program and whether it aligned stockholder interests with those of our named executive officers;
- provided advice and recommendations regarding the composition of our compensation peer group; and
- provided general advice and analysis relating to our executive and director compensation structure, plan designs and associated risks.

WTW was selected by, and reported directly to, the Compensation Committee. WTW and its affiliates did not provide any services to the Company or any of the Company's affiliates during 2017 other than (i) advising the Compensation Committee on director and executive compensation and related corporate governance matters and (ii) consulting on broad-based plans that do not discriminate in scope, terms, or operation, in favor of executive officers or directors of the Company. In April 2017, the Compensation Committee reviewed the independence of WTW in light of the factors set forth in the SEC and NYSE rules and determined that WTW remained an independent consultant for the Compensation Committee and that no conflicts of interest existed. Following such determination, the Compensation Committee determined to continue their retention of WTW as their independent compensation consultant.

CORPORATE GOVERNANCE COMMITTEE

Meetings in 2017: 5

Members:

Cynthia M. Egnotovitch, Chair
Joan K. Chow
Andrew Langham

All Independent: Yes

Heightened Requirements: No

Purpose: The purpose of the Welbilt Corporate Governance Committee is to assist the Board in its corporate governance responsibilities, including to identify individuals qualified to become Board members, consistent with criteria approved by the Board; to recommend to the Board, for the Board's selection, director nominees for the next annual meeting of the shareholders; to develop and to recommend to the Board a set of corporate governance principles and guidelines; and to oversee the evaluation of the Board and management.

Responsibilities. The Corporate Governance Committee's responsibilities include:

- considering candidates for serving as director nominees for election to the Board, including evaluating the performance and suitability of incumbent directors, searching for suitable candidates to fill any vacancies on the Board and reviewing recommendations for director nominees submitted by qualified shareholders;
- ensuring that new directors are provided with an orientation program and making recommendations to the Board with respect to continuing education of current directors;
- establishing and managing a process for Board and committee self-assessments;
- periodically reviewing the size, composition and independence of the Board and the number and structure of Board committees in light of the Company's evolving needs;
- facilitating executive sessions of the Board at each regularly scheduled Board meeting; and
- reviewing and making recommendations to the Board regarding governance practices including stock ownership guidelines and compulsory retirement age and term limits for directors.

BOARD OPERATIONS

RISK OVERSIGHT. Management is responsible for the day-to-day management of the risks we face, and the Board is responsible for the oversight of risk across the entire Company. This responsibility is administered more directly through the Audit Committee, as one of its stated purposes pursuant to its committee charter is to assist the Board in fulfilling its role in the oversight of the risk across the organization and the management and/or mitigation of those risks. To this end, the Audit Committee discusses guidelines and policies with respect to risk assessment and risk management, which includes a discussion of the Company's major risks and the steps that management has taken or is taking to monitor and manage those risks within acceptable levels.

Additionally, each committee reviews and evaluates the Company's process for managing and mitigating those Company risks assigned by the Board to such committee for review and evaluation, if any. The Board and its committees regularly receive information and reports from members of senior management on areas of material risk based on their respective areas of responsibility.

STOCKHOLDER ENGAGEMENT. Our Board and management focus on creating long-term, sustainable stockholder value. Key to this goal is regular stockholder engagement through meetings with stockholders at conferences and in one-on-one meetings to discuss our financial performance, corporate governance practices, executive compensation programs and other matters. Our conversations with stockholders allow us to better understand our stockholders' perspectives and provide us with useful feedback to calibrate our priorities. Stockholders and other interested parties who wish to communicate with the Board, the Board Chairperson, independent members of the Board as a group, or any committee chair may do so by following the procedures described in our Corporate Governance Guidelines under the heading "Communications to the Board of Directors."

MEETINGS AND EXECUTIVE SESSIONS. Directors are expected to commit to attend at least 75% of all scheduled meetings of the Board and committees of which the director is a member each year and are strongly encouraged to attend the annual meetings of stockholders. During 2017, our Board met a total of 6 times, each member of our Board attended at least 75% of the aggregate of the meetings of the Board and the committees on which he or she served, and each member of our Board attended our 2017 Annual Meeting, other than Timothy J. Fenton, who did not stand for re-election at such meeting. Additionally, our independent directors meet in separate executive sessions, without management, at each regularly scheduled Board and committee meeting. Our practice is for the Board Chairperson or the applicable committee chair to preside over executive sessions.

SUCCESSION PLANNING. On an annual basis, the Compensation Committee, the Board and our CEO review the Company's long-term plan for the development, retention and succession of senior management and also assess Board composition.

CODE OF CONDUCT AND GLOBAL ETHICS POLICY. We have adopted a written Code of Conduct and a Global Ethics Policy that apply to all of our employees and directors and reflect our commitment to operate our business in a manner that meets the highest ethical standards. These policies are posted on the Investor Relations section of our website at <http://ir.welbilt.com>. Any waiver of these policies granted to executive officers or directors may be made only by the Board or a board committee, and if required, any such waivers or amendments will be disclosed on the Corporate Governance section of our website on a timely basis.

DIRECTOR COMPENSATION

ELEMENTS OF NON-EMPLOYEE DIRECTOR COMPENSATION. The annual compensation package for non-employee directors is designed to attract and retain highly experienced and qualified individuals to serve on the Company's Board. The 2017 compensation package, which consisted of both cash and equity components, was established in consultation with WTW and was intended to be competitive relative to the Company's custom peer group and promote a strong alignment of interests between the Company's non-employee directors and its stockholders. The Compensation Committee approves the non-employee director compensation program annually and intends to review the market competitiveness of such program every two years. As our President and CEO, Mr. Muehlhaeuser does not receive additional compensation for his service as a director.

The following table summarizes the compensation elements provided to the Company's non-employee directors for 2017:

| Compensation Element | Amount |
|--|-----------|
| Annual Cash Retainers (paid quarterly): | |
| • Board Member | \$ 60,000 |
| • Audit Committee Chairperson | \$ 15,000 |
| • Compensation Committee Chairperson | \$ 12,000 |
| • Corporate Governance Committee Chairperson | \$ 12,000 |
| • Independent Chairperson | \$ 43,750 |
| Meeting Fees (per-meeting): | |
| • Board Meetings | \$ 1,500 |
| • Committee Meetings | \$ 1,500 |
| Annual Stock Awards: | |
| • Board members (5,753 Restricted Stock Units) | \$110,000 |
| • Independent Chairperson (4,254 shares of common stock) | \$ 81,250 |
| Miscellaneous: | |
| • Reimbursement for reasonable fees and expenses incurred in connection with Board-related activities | |
| • Provision of directors' and officers' liability insurance under Company's corporate insurance policies | |

The Independent Chairperson fees, which are in addition to the fees earned by all non-employee directors, consist of \$125,000, paid in common stock (65%) and cash (35%), and provide compensation for the additional time commitment attendant to this role, including managing meetings of the Board of Directors, setting the agenda for Board meetings, representing the Board at the annual stockholders meeting, consulting with committee chairpersons as needed and acting as a liaison between the Board and management on major developments and decisions that are likely to be of interest to the Board.

Restricted stock units ("RSUs") awarded to non-employee directors (other than Mr. Gamache) were granted on February 16, 2017, with the number of units awarded determined based upon a price of \$19.12, the average closing price of our common stock as reported on the NYSE during the 20-trading day period prior to and including the date of grant. Mr. Gamache was appointed to the Board on March 6, 2017 and received a grant of restricted stock units determined by prorating the number of units awarded to other non-employee directors for 2017 compensation. Restricted stock units granted to non-employee directors vest on the second anniversary of the grant date. Under the terms of the award, unless the Compensation Committee in its discretion determines otherwise, (i) the restricted stock units will be immediately forfeited if the director ceases to be a member of the Board prior to the vesting date for any reason other than the director's retirement (due to reaching the mandatory retirement age established by the Board), death, or disability; and (ii) the restricted stock units are subject to various transfer restrictions prior to the vesting date.

In addition, under the Company's Deferred Compensation Plan, each non-employee director may elect to defer all or any part of the director's annual retainer and meeting fees, as well as restricted stock unit awards, for future payment upon death, disability, termination of service as a director, a date specified by the participant, or the earlier of any such date to occur.

2017 NON-EMPLOYEE DIRECTOR COMPENSATION. Consistent with the compensation elements discussed above, the below table summarizes the 2017 compensation of all of our non-employee directors other than Mr. Muehlhaeuser, whose compensation is discussed under the section titled “Compensation Discussion and Analysis” and related tables. All amounts are calculated and presented in accordance with SEC disclosure rules.

| Name | Fees Earned or Paid in Cash ⁽¹⁾ | Stock Awards ⁽²⁾ | Option Awards ⁽³⁾ | Total |
|----------------------------------|--|-----------------------------|------------------------------|-----------|
| Cynthia M. Egnotovich | \$153,250 | \$185,805 | — | \$339,055 |
| Dino J. Bianco | \$105,000 | \$107,063 | — | \$212,063 |
| Joan K. Chow | \$109,500 | \$107,063 | — | \$216,563 |
| Thomas D. Davis | \$ 88,500 | \$107,063 | — | \$195,563 |
| Timothy J. Fenton ⁽⁴⁾ | \$ 42,000 | \$152,577 | — | \$194,577 |
| Brian R. Gamache ⁽⁵⁾ | \$ 71,815 | \$ 97,908 | — | \$169,723 |
| Andrew Langham | \$ 93,000 | \$107,063 | — | \$200,063 |

- (1) Reflects all applicable fees earned in 2017, whether paid in cash or deferred under the Deferred Compensation Plan, including annual retainers, committee chairperson retainers, Independent Chairperson fees and meeting fees.
- (2) Reflects the aggregate grant date fair value of RSUs awarded in 2017, computed in accordance with Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 718. At December 31, 2017, Mr. Fenton had no RSUs outstanding (as explained in footnote 4 below), Mr. Gamache had 4,776 RSUs outstanding and all other current non-employee directors had 13,895 RSUs outstanding.
- (3) No stock options were awarded to directors in 2017. At December 31, 2017, Ms. Egnotovich had outstanding options to purchase 2,000 shares of stock, and no other director had outstanding options.
- (4) Mr. Fenton served as a director until April 28, 2017. Upon his departure from the Board, 8,142 RSUs granted to Mr. Fenton in 2016 were accelerated and 5,753 RSUs granted to him in February 2017 were forfeited. Accordingly, amounts shown for Mr. Fenton reflect the aggregate grant date fair value of RSUs awarded in 2017 and the incremental fair value associated with the accelerated RSUs.
- (5) Mr. Gamache was appointed to the Board effective March 6, 2017, and his annual retainer and award of restricted stock units were prorated accordingly.

CHANGES TO 2018 NON-EMPLOYEE DIRECTOR COMPENSATION. Following a review of peer group data and market trends, the Board determined to eliminate the use of meeting fees and grant RSUs that vest on the first anniversary of the grant date, beginning in 2018. The non-employee director compensation program now consists of a retainer-based fee structure to create simplicity, enhance transparency and eliminate financial incentives to have additional meetings.

DIRECTOR STOCK OWNERSHIP GUIDELINES

Under our Corporate Governance Guidelines, each non-employee director should acquire and hold an amount of our common stock with a value equal to, at a minimum, five times the director's total annual cash retainer (excluding any additional retainer for committee or Board chair positions). For purposes of determining stock ownership under the guidelines, restricted stock units and shares held in the Deferred Compensation Plan will be included but unexercised options will be excluded.

Compliance is measured annually at the first regularly scheduled Board meeting of the calendar year, following an initial transition period to achieve compliance, and will be based on each director's stock ownership and the stock price as of the close of business on the last day of the preceding calendar year. For directors who were previously members of the Board of MTW, the requirement to comply with such stock ownership guidelines commences on the later of (a) the first Board meeting in the sixth full calendar year after the director was first elected a member of the Board of MTW or (b) the first Board meeting in the fourth full calendar year after the Spin-Off. For directors who were not previously members of the Board of MTW, the requirement to comply with such stock ownership requirements commences on the first Board meeting of the sixth full calendar year after the director was first elected to the Board.

As of December 31, 2017, each of the non-employee directors was expected to achieve compliance with the stock ownership guidelines within the required time period. The Corporate Governance Committee reviews these stock ownership guidelines as well as directors' progress toward achieving compliance with such guidelines on an annual basis.

PROPOSAL NO. 1—ELECTION OF DIRECTORS

The Board has nominated eight directors, each of whom, if elected, are expected to hold office for a one-year term expiring at the 2019 Annual Meeting of Stockholders until such director's successor is elected and qualified or until such director's earlier death, resignation or removal. Each nominee has indicated an intention to serve. In the event that any of the nominees should be unable or unwilling to serve, proxies may be voted for the election of some other person or for fixing the number of directors at a lesser number. Proxies cannot be voted for a greater number of persons than the number of nominees named.

COMPENSATION DISCUSSION AND ANALYSIS

EXECUTIVE SUMMARY

2017 COMPENSATION HIGHLIGHTS

2017 was an exciting year for Welbilt and our first full year as a standalone company. Our 2017 compensation programs were based on our prior year program designs but further refined to drive our overall business strategy. In particular, we modified the weighting of metrics under our annual incentive program to reflect our heightened focus on cash flow generation to fund future growth opportunities and our debt reduction efforts. In addition, our annual incentive program was revised to include the metric, Adjusted Operating EBITDA Margin (in lieu of Adjusted Operating EBITA Margin), to align with changes in our external reporting practices. We believe the performance measures selected under our long-term incentive plan continued to capture our key financial drivers of success and therefore no changes were made to those metrics.

Additionally, in 2017, we made certain significant changes to our executive leadership team and organizational structure, including: promoting Haresh Shah to Chief Financial Officer following the retirement of John O. Stewart; promoting Joel H. Horn to General Counsel following the retirement of Maurice D. Jones; recruiting Diana Sacchi to serve as Chief Human Resources Officer; and shifting the role of Andreas G. Weishaar to include oversight of Digital, IT and our M&A process.

For 2017, our named executive officers are:

2017 COMPENSATION DESIGN

The performance measures used in our 2017 compensation programs included a range of key financial metrics designed to promote achievement of our strategic goals while also driving long-term stockholder value. Our 2017 short-term incentive plan ("STIP") was based upon Free Cash Flow, Adjusted Operating EBITDA Margin and Organic

Net Sales Growth, all of which were key metrics of our 2017 annual budget. Our 2017 long-term incentive plan, which was aligned to our strategic plan, consisted of performance share units with a three-year performance period and stock options vesting ratably over a four-year period. Furthermore, all metrics were adjusted to exclude the impact of foreign currency fluctuations.

SAY-ON-PAY ADVISORY VOTE

The Compensation Committee considers the results of our annual say-on-pay advisory vote in determining executive compensation decisions and policies as it provides useful input to the committee in its work to design and oversee an executive compensation program that serves the long-term interests of our stockholders. At our 2017 Annual Meeting of Stockholders, approximately 98% of the votes cast were voted “FOR” approval of our executive compensation program as described and disclosed in the Compensation Discussion and Analysis section, compensation tables and narrative discussion in our accompanying proxy statement. The Compensation Committee believes such results affirm stockholders’ support of the Company’s approach to and structure of executive compensation.

COMPENSATION PHILOSOPHY AND PRACTICES

OBJECTIVES AND PHILOSOPHY.

Our executive compensation program is intended to align the interests of our executives with those of our stockholders and motivate our executives to maximize long-term total returns of our stockholders. Our Compensation Committee designs our executive compensation programs to be competitive and ensure alignment between executive pay and Company performance. An important element of our compensation program design is to provide incentive-based compensation that is directly tied to Company performance. Our Compensation Committee annually reviews the key elements of our program considering our business strategy and talent needs. Our executive compensation program seeks to provide competitive total compensation opportunities to attract, motivate and retain highly-qualified executives critical to the achievement our financial and strategic goals.

Key objectives and elements of our compensation philosophy include the following:

- **Pay-For-Performance.** The majority of the target compensation awarded to our named executive officers is incentive-based and “at risk,” meaning it is only earned if specific financial goals are achieved or, in the case of stock options, if our stock price appreciates over the next several years following the grant date.
- **Competitive.** Pay levels are generally targeted to be at or near market median levels based on individual factors (such as experience, length of service, and level of responsibility), internal structure and internal and external equity, business needs, Company performance, comparable positions at general industrial companies of similar size, and other factors.
- **Encourage Retention.** Long-term compensation awards make up a significant portion of each named executive officer’s overall target compensation. These awards include multi-year vesting terms thereby encouraging retention of our executives.
- **Promote Stock Ownership.** Long-term incentive awards to executives are solely equity-based, and executive officers are expected to comply with stock ownership guidelines to ensure meaningful ongoing alignment with stockholders’ interests.

BEST PRACTICES IN GOVERNANCE.

Our executive compensation program reflects a strong pay-for-performance design and incorporates many best practices in executive compensation governance.

| WHAT WE DO | WHAT WE DON'T DO |
|--|---|
| ✓ Engage independent compensation consultant to advise Compensation Committee | ✗ No pledging or hedging permitted |
| ✓ Adopt stock ownership guidelines for directors and executive officers | ✗ No change in control excise tax gross-ups |
| ✓ Use of multiple and balanced performance measures to reward key drivers of our business. | ✗ No single-trigger cash severance provisions |
| ✓ Provide majority of compensation in the form of “at risk” awards | ✗ No excessive perquisites |
| ✓ Communicate with stockholders regarding our pay practices | |

ADMINISTRATION AND OVERSIGHT.

Our Compensation Committee reviews and approves all elements of our executive compensation program that cover our named executive officers and also reviews the design of our annual and long-term incentive programs applicable to all employees. Our Compensation Committee's review of our executive compensation program includes an annual consideration of business strategy and talent needs and alignment of compensation to performance and stockholder interests. Our Compensation Committee has engaged Willis Towers Watson to assist with its duties, though the Compensation Committee retains the ultimate decision-making authority for all executive pay matters.

PEER GROUP.

Following the Spin-Off, our Compensation Committee, together with Willis Towers Watson, considered how to best use competitive market data to benchmark executive compensation practices and design our executive compensation programs. The Compensation Committee considered a multitude of factors, including how such data would be used, whether the data would be aligned with stockholder expectations, the breadth, consistency and reliability of the data and our ability to compete effectively for top executive talent. As a result of this review, our Compensation Committee determined to use third-party market data from two sources: published survey data reflecting a broader industry group ("Survey Data") and a customized peer group (the "Custom Peer Group"). Together, these sources enable the Compensation Committee to make informed decisions and achieve its compensation objectives.

Survey Data. The Survey Data is based on Willis Towers Watson's Executive Compensation Survey and reflects approximately 1,000 companies from general industry. The Survey Data is adjusted, generally through regression analysis, to fit Welbilt's revenue scope, and specific companies are not selected as the data reflects the broad general industry participants in the survey. The Survey Data serves as a reliable market reference and is used as the primary source for benchmarking pay levels for our executives.

Custom Peer Group. The Custom Peer Group is used for designing the overall executive compensation program, including design of the short-term incentive program and long-term incentive plan, and serves as a secondary source for benchmarking pay levels of the CEO, CFO and General Counsel positions and benchmarking benefits and perquisites. In developing the Custom Peer Group, the Compensation Committee considered both quantitative factors (*are the companies of a comparable size in terms of revenue, employee headcount, market capitalization and/or net income?*) and qualitative factors (*do the companies operate within a comparable or adjacent industry? do the companies compete globally? how mature is the company?*). Based upon this review, the Compensation Committee selected a group of 18 core companies and two non-core companies that would only be used for benchmarking pay practices but not pay levels given their relatively large revenue size and market capitalization.

| Chart Industries, Inc. | John Bean Technologies Corporation | The Timken Company |
| Dover Corporation* | Kennametal Inc. | |

* Included in the peer group for reviewing compensation program design, but not for benchmarking pay levels.

The Custom Peer Group was selected in 2016 and first used in connection with 2017 compensation decisions. During 2017, the Compensation Committee and Willis Towers Watson reviewed the peer group again and determined the same group, with the exception of 2 companies that had since been acquired, was appropriate with respect to 2018 compensation decisions. The Compensation Committee intends to continue its practice of reviewing and, if necessary, updating the peer group annually for use in designing the following year's executive compensation program.

Benchmarking Pay Levels. The Compensation Committee generally refers to the market median from the Survey Data and Custom Peer Group for base salary, target total cash compensation, target long-term incentive compensation and target total direct compensation as an initial point of reference, and then adjusts such amounts up or down to give effect to each individual's experience, number of years serving in the current role, level of responsibility, performance and such other factors the Compensation Committee deems important.

STOCK OWNERSHIP GUIDELINES.

The Compensation Committee has established stock ownership guidelines for executive officers as set forth below. Under the guidelines, executives are provided with a reasonable period of time to achieve compliance. If he or she does not satisfy the applicable requirement prior to the end of the calendar year of his or her respective compliance date, the guidelines provide that the executive will be required to retain all net shares from the exercise of stock options and from the vesting of restricted stock, restricted stock units and performance share units, until compliance is achieved. For purposes of these stock ownership guidelines, common stock, restricted stock, restricted stock units, performance share units (at target) and stock equivalents held in deferred compensation and/or retirement arrangements are counted towards the individual's ownership attainment level. Additionally, one-half of the guideline amount can be met by vested, in-the-money stock options held by the executive officer.

| Richard N. Caron | 3x | 2021 | In Compliance |
| Other Current Executive Officers | 3x | 5 Years after becoming an Executive Officer | In Compliance |

(1) Compliance date reflects 5 years from the date such individual became an executive officer of the Company or, if earlier, MTW.

(2) All current executive officers are in compliance with applicable holding requirements or expected to achieve compliance prior to their respective compliance date.

CLAWBACKS.

In addition to any right of recoupment against our CEO or CFO pursuant to Section 304 of the Sarbanes-Oxley Act of 2002, we intend to recoup executive officer compensation, or a portion thereof, to the extent required under rules to be adopted by the SEC and NYSE pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. To that end, our 2016 Omnibus Incentive Plan provides that any awards granted under such plan, and any shares issued or cash paid pursuant to an award, will be subject to any recoupment or clawback policy that we adopt from time to time, or any recoupment or similar requirement otherwise made applicable by law, regulation or listing standards. Furthermore, the administrator under the plan may terminate or cause a participant to forfeit an award, and require a participant to disgorge to us any gains attributable to an award, if the participant engages in any action constituting, as determined by the administrator in its discretion, cause for termination, or a breach of any agreement between the participant and us or one of our affiliates concerning non-competition, non-solicitation, confidentiality, trade secrets, intellectual property, non-disparagement or similar obligations.

COMPENSATION RISK ASSESSMENT.

In 2017, management and Willis Towers Watson each conducted separate risk assessments to provide the Compensation Committee with an internal and external view of our compensation programs and policies. Management reviewed the compensation programs applicable to both executives and non-executive employees, and WTW primarily focused their review on executive compensation plans and practices. In particular, management and/or WTW considered the following risk criteria:

| Compensation Risk Criteria | |
|--|---|
| Compensation Philosophy and Plan Design | Are the Company's compensation programs aligned with our near-term and long-term strategic goals and initiatives, effectively communicated to and understood by employees and motivating employees and executives to work collaboratively in the Company's best interest? |
| Oversight | Whether there is adequate and regular oversight by the Compensation Committee and management to allow for effective implementation and to the extent appropriate, discretion. |
| Pay Mix | Whether our compensation programs reflect an appropriate mix of fixed and variable compensation that both mitigates the incentive for excessive risk taking while also encouraging executives and employees to achieve our strategic goals. |
| Time Horizon | Do the performance periods and vesting periods of our long-term incentive plan awards encourage our employees to focus on sustained growth of our Company over the long term, rather than taking short-term risks? |
| Performance Goals | Do our performance-based compensation programs use multiple metrics that promote long-term enterprise value? Are the performance goals set at levels that are challenging but still reasonably achievable without taking inappropriate risks? |
| Stock Ownership Practices | Whether we have policies in place to align the interests of our executives and employees with those of our stockholders, such as stock ownership guidelines and prohibitions on hedging of Company securities. |

The results of both the internal and external assessments are that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company. We believe that our compensation program is aligned with current market practices and contains an appropriate balance of risk versus rewards. Furthermore, our compensation program incorporates appropriate risk mitigating factors, such as multi-year vesting periods, performance goals tied to both top-line and bottom-line financial metrics, executive stock ownership guidelines and strong operational oversight and audit processes.

TAX CONSIDERATIONS.

Section 162(m) of the Internal Revenue Code ("Section 162(m)") generally disallows a tax deduction to public corporations for compensation in excess of \$1.0 million in a calendar year to certain covered executives. For 2017, our covered executives for Section 162(m) purposes were Messrs. Muehlhaeuser, Matosevic, Weishaar and Caron. Starting with 2018, as a result of the changes made to Section 162(m) by the Tax Cuts and Jobs Act, our number of covered executives will increase to include: (i) those four covered executives listed above for 2017, (ii) any executive who serves as our Chief Executive Officer or Chief Financial Officer at any time on or after January 1, 2018, and (iii) any executive who is among our three most highly compensated executive officers for any calendar year beginning with 2018.

For compensation paid for 2017, the statute generally exempts qualifying performance-based compensation from the \$1.0 million annual deduction limit if certain conditions are met. Starting with 2018, only qualifying performance-based compensation that is paid pursuant to a written binding contract in effect on November 2, 2017 (and not subsequently materially modified) will be exempt from the deduction limit. Accordingly, any compensation paid in the future pursuant to compensation arrangements entered into after November 2, 2017, even if performance-based, will count towards the \$1.0 million fiscal year deduction limit if paid to a covered executive. Because of the many factors influencing a well-rounded, comprehensive executive compensation program as well as the changes made to Section 162(m) by the Tax Cuts and Jobs Act, some of the compensation we provide to our executive officers may not be deductible.

DESIGN OF 2017 COMPENSATION PROGRAM

The following section discusses the design of our 2017 compensation program for our named executive officers, other than Mr. Jones. Mr. Jones retired effective January 2, 2017, and therefore, nearly all of the compensation earned by Mr. Jones with respect to the year ended December 31, 2017 relates to compensation in connection with his retirement. For additional information, see the section titled "Potential Payments upon Termination or Change in Control."

- (1) Reflects aggregate value of long-term incentive plan awards granted to each named executive officer in 2017. As further described below, 25% of such value was awarded in the form of stock options and 75% was awarded in the form of PSUs.
- (2) Reflects Mr. Stewart's 2017 compensation in effect through the date of his retirement.
- (3) Reflects Mr. Shah's 2017 compensation following his promotion to Chief Financial Officer, effective May 1, 2017.
- (4) Mr. Weishaar is compensated in Swiss Francs (CHF). Amounts shown in the table have been translated into U.S. Dollars (USD) based upon an exchange rate of USD1 to CHF1.03, the exchange rate in effect at December 31, 2017.

BASE SALARY.

In reviewing 2017 base salaries, the Compensation Committee considered individual factors such as competencies, skills, experience, and performance, as well as internal equity and market data. Base salaries were generally reviewed and approved in December 2016 for the 2017 fiscal year or, if applicable, in connection with such individual's promotion.

SHORT-TERM INCENTIVE PLAN ("STIP").

Annual incentive awards to our named executive officers were made under the Welbilt 2016 Omnibus Incentive Plan and are referred to in this Proxy Statement as Short-Term Incentive Plan ("STIP") awards. The STIP rewards executives for the achievement of certain financial goals that are aligned to our strategic plan and budget.

For all of our named executive officers, the 2017 STIP was based upon the following financial metrics:

- **Free Cash Flow**, a liquidity measure relating to the Company's ability to generate cash internally to fund initiatives such as debt repayment, acquisitions, dividends and share repurchases;
- **Adjusted Operating EBITDA Margin**, a performance measure used by management to evaluate financial performance as a percentage of net sales and make resource allocation and other operating decisions; and
- **Organic Net Sales Growth**, which measures top-line growth over prior year results, disregarding acquisitions and dispositions.

All of the above metrics were compared against budget-rate currencies to remove the impact of foreign currency fluctuations during the year. Additionally, 2017 STIP awards were subject to a hurdle such that no awards would be paid to any named executive officer if the Company's Adjusted Operating EBITDA Margin for 2017 was less than 14.5%.

The target STIP award opportunity granted to our named executive officers for 2017 ranged from 50% to 100% of base salary, with actual payout potential ranging from 0% to 200% of each individual's target. Any STIP awards earned are generally paid during the first quarter of the following fiscal year.

Presented below are the specific performance levels adopted under the 2017 STIP, as well as 2017 actual Company results. Threshold performance would have resulted in a payout of 50% of target and maximum performance would have resulted in a payout of 200% of target, with the payout between specific performance levels calculated using straight line interpolation. The STIP opportunity and actual payout for each of the named executive officers are presented in the subsequent executive compensation tables named “Grants of Plan-Based Awards in 2017” and “Summary Compensation Table,” respectively.

| Performance Goal (\$ in millions) | Weight | Threshold | Target | Maximum | Actual ⁽⁴⁾ | Actual % ⁽⁵⁾ |
|---|-------------|-----------|---------|---------|-----------------------|-------------------------|
| Free Cash Flow ⁽¹⁾ | 35% | \$130.0 | \$154.0 | \$178.0 | \$111.6 | 0.0% |
| Adjusted Operating EBITDA Margin ⁽²⁾ | 35% | 18.0% | 19.0% | 20.7% | 18.9% | 92.6% |
| Organic Net Sales Growth ⁽³⁾ | 30% | -0.5% | 0.5% | 1.5% | (1.3)% | 0.0% |
| Total | 100% | | | | | 32.4% |

- (1) “Free Cash Flow” represents net cash provided by operating activities less capital expenditures.
- (2) “Adjusted Operating EBITDA Margin” represents (a) net earnings before interest, income taxes, other expense - net, depreciation and amortization, plus certain items such as gain or loss from the impairment or disposal of assets, restructuring, separation charges and loss on early extinguishment of debt, divided by (b) net sales.
- (3) “Organic Net Sales Growth” represents the percentage change in actual current year net sales adjusted for budgeted foreign currency rates compared to prior year Organic Net Sales. “Organic Net Sales” reflect net sales excluding the impact of divestitures.
- (4) Reflects actual results as adjusted to exclude the effects of fluctuations in foreign currency during fiscal year 2017 compared to budget rates in accordance with the STIP. See “Non-GAAP Financial Measures” appearing elsewhere in this Proxy Statement for important additional information.
- (5) Reflects percent of target payout to be applied to each executive officer.

LONG-TERM INCENTIVE PLAN.

Our long-term incentive plan (“LTIP”) awards are made under our 2016 Omnibus Incentive Plan. LTIP awards are intended to align the interests of executives and key employees with those of stockholders by allowing such individuals to share in the growth and financial success of the Company and motivating and rewarding achievement of specific longer-term financial goals. In addition, LTIP awards facilitate the attraction, retention and motivation of key members of management and employees. Our general practice is for all of our named executive officers’ LTIP awards to be “at risk”—requiring achievement of specific multi-year financial goals or stock price appreciation—rather than being solely time-based awards. In 2017, the Compensation Committee granted LTIP awards to each of the named executive officers that, in the aggregate, were within the 25th to 75th percentile of the industry survey data used for benchmarking pay levels. The aggregate value was then granted in the form of stock options, which accounted for 25% of the total LTIP award, and performance share units, which accounted for 75% of the total LTIP award.

Stock Options. Stock options align executives’ interest with those of stockholders, since options only have realizable value if the price of our stock increases relative to the exercise price, which is the closing price of our common stock on the date of grant. Stock options granted to the named executive officers under our 2017 LTIP vest annually in 25% increments beginning on the first anniversary of the grant date and continuing on each subsequent anniversary until the fourth anniversary and expire 10 years after the date of grant.

Performance Share Units. Performance share units were provided to the named executive officers in 2017 to directly align the shares earned, if any, to the achievement of certain multi-year goals. The Compensation Committee selected cumulative fully diluted Adjusted Earnings per Share (“Adjusted EPS”) and average return on invested capital (“ROIC”) over the three-year period, both weighted 50%, as the performance metrics for the 2017 performance share units, with a performance period of January 1, 2017 to December 31, 2019. Additionally, no awards will be paid to any named executive officer under the 2017 performance share units if the Company’s cumulative fully diluted Adjusted EPS for the performance period is less than a specified hurdle rate.

The target number of performance share units granted to each named executive officer was determined based upon a price of \$19.12, the average closing price of our common stock as reported on the NYSE during the 20-trading day period prior to and including the date of grant. At the end of the performance period, our named executive officers will receive shares of stock ranging from 0% to 200% of their target number of shares based upon the actual achievement of the performance goals.

The actual financial performance targets of the 2017 performance share units and achievement against those targets will be disclosed at the end of the three-year performance period.

Treatment of Equity-Based Awards in the Spin-Off. Each MTW stock option, restricted stock, restricted stock unit and performance share unit that was outstanding as of the date of the Spin-Off was deemed bifurcated into two separate awards: a modified award relating to MTW common stock; and a new equity award of the same type relating to Welbilt common stock. Following the Spin-Off, each of these awards remained subject to their original terms and conditions, except:

- with respect to stock option awards, the per-share exercise price for both the modified MTW award and the new Welbilt award was adjusted so that the two awards, together, would retain, in the aggregate, the same intrinsic value that the original MTW stock option award had immediately prior to the Spin-Off (subject to rounding);
- with respect to outstanding performance share units, the performance goals were deemed met at the target level and the number of performance share units was calculated with no proration, but the performance share units will remain outstanding and subject to continued time-based vesting until the end of the applicable performance period;
- with respect to any continuous employment requirement associated with any equity-based incentive awards of either us or MTW, such requirement will be satisfied after the Spin-Off by our employees based on their continuous employment with our Company;
- in the event a change in control (as defined in the applicable equity incentive plan or award agreement) occurs with respect to MTW, then any accelerated vesting and/or exercisability applicable to MTW equity-based incentive awards then held by our employees or former employees will apply; and
- in the event we experience a change in control (as defined in the applicable equity incentive plan or award agreement), then any accelerated vesting and/or exercisability applicable to our equity-based incentive awards held by our current or former employees will also apply to the MTW equity-based incentive awards then held by such individuals.

BENEFITS AND PERQUISITES.

401(k) Retirement Plan. All active, regular, full-time, non-union, U.S.-based employees, including each of our named executive officers (other than Mr. Weishaar, who is a non-U.S. resident), are eligible to participate in the Company's 401(k) Retirement Plan, which allows employees to build retirement savings on a tax-deferred basis. The plan has a tax-qualified defined contribution savings component (the 401(k) Savings feature) in which participating employees receive a matching contribution from the Company, subject to the terms set forth in the plan. In addition, all eligible employees may receive a performance-based contribution from the Company, in which the Company contributes up to 3% of eligible compensation each year, subject to satisfaction of certain specified performance goals, an initial vesting period and other terms set forth in the plan. The value of the employer contributions made on behalf of each of our named executive officers in 2017 is presented in the Summary Compensation Table.

Deferred Compensation Plan. Welbilt sponsors a non-qualified deferred compensation plan that allows our named executive officers and other key employees to defer a portion of their compensation and the taxation on such compensation to a specified date in the future. Welbilt may also, at its option, make employer contributions to participants' accounts. During 2017, none of our named executive officers made any contributions to the deferred compensation plan, and we did not make any contributions on their behalf.

Perquisites and Personal Benefits. To provide a market competitive total compensation package, we provide a limited amount of perquisites and supplemental benefits to our named executive officers. In 2017, we provided the following: supplemental life and long-term disability insurance, reimbursement for tax preparation, personal use of a company car, car allowance, spouse/guest travel, reimbursement for an executive physical, and limited personal use of a plane leased by the Company. We also made certain contributions to a Swiss governmental pension scheme on Mr. Weishaar's behalf and reimbursed him for financial planning fees. Any aggregate incremental cost to us of perquisites and supplemental benefits provided in 2017 is presented in the Summary Compensation Table and footnotes.

EMPLOYMENT AGREEMENTS AND CHANGE IN CONTROL BENEFITS

We have entered into agreements with our named executive officers to provide market-competitive severance protections and continuity of the leadership team leading up to and after a change in control.

Employment Agreements. During 2017, we entered into a new employment agreement with Mr. Shah, in connection with his promotion to Chief Financial Officer, and an amendment to Mr. Stewart's employment agreement as further described below. The employment agreements previously entered into with each of the other named executive officers remain in effect.

The employment agreements set forth the executive officers' title, compensation and benefits. The employment agreements provide that each executive officer is entitled to an annual base salary of a certain amount, subject to potential increase from time to time, and that each is eligible to participate in the STIP with target award amounts equal to a percentage of base salary, and to receive LTIP awards under our 2016 Omnibus Incentive Plan in an amount determined by our Compensation Committee each year. Each executive officer also receives a car allowance, vacation time and reimbursement for tax preparation and financial planning fees under the terms of the agreements.

For all named executive officers except Mr. Weishaar, the employment agreements also provide that the executive officer will be eligible to participate in our 401(k) Retirement Plan, Deferred Compensation Plan, our health, dental, and life insurance plans and for Mr. Jones only, the SERP. Because Mr. Weishaar is employed in Switzerland, his employment agreement provides that he will receive health, welfare, and other retirement benefits per the Swiss standard applicable for an equivalent position. To comply with this requirement, we made contributions to Swiss Social Security and pension programs and paid for 50% of the premium for Mr. Weishaar to receive local private health insurance comparable to the health insurance our other executives receive under our group health plan.

Each of the employment agreements provide that if we terminate the executive officer's employment without cause or the executive resigns with good reason (in each case, as described more fully in the contract), then the executive will be entitled to receive a severance payment and all outstanding equity awards granted prior to the year of termination shall be deemed fully vested, subject to the executive signing a release of any and all claims or potential claims against the Company. More details regarding the severance payments and equity acceleration is provided in the "Potential Payments upon Termination or Change in Control" section.

Additionally, as required by the terms of the employment agreements, we also maintain Director and Officer insurance coverage for each named executive officer and provide such officer with indemnification as permitted by law. In connection with entering into these employment agreements, each named executive officer also agreed to certain non-competition, non-solicitation and confidentiality provisions.

Amendment to Mr. Stewart's Employment Agreement. In connection with Mr. Stewart's retirement as Chief Financial Officer, the Company entered into an amendment to his employment agreement providing that his retirement will be deemed a termination without "Cause" and he will be entitled to receive the applicable severance payments, equity acceleration and other benefits outlined in his employment agreement. In addition to such benefits, the amendment provided that 35% of Mr. Stewart's performance share units and stock options granted in 2017 will be vested upon his retirement and the remaining equity awards granted in 2017 will be forfeited.

Change in Control Severance Arrangements. We have also entered into Contingency Employment Agreements, which govern change in control severance arrangements, with each of our named executive officers. These Contingency Employment Agreements provide for the executives' continued employment upon a change in control for a three-year period for Mr. Muehlhaeuser and a two-year period for the other executives. In addition, the arrangements provide for certain severance benefits in the event an executive is terminated without cause (as defined therein) prior to the end of the change in control employment period (as such, the agreements have a "double trigger"). The severance benefit would consist of base salary, annual incentive compensation (calculated at the target level), and other benefits that the executive otherwise would have been entitled to receive if his or her employment had not been terminated prior to the respective three- or two-year change in control employment period. Further detail regarding these agreements is presented below under the heading "Potential Payments upon Termination or Change in Control."

EXECUTIVE COMPENSATION TABLES

The following tables set forth certain information regarding the compensation of our named executive officers and have been prepared in accordance with applicable disclosure rules. These tables and the accompanying narratives should be read in conjunction with the “Compensation Discussion and Analysis” section above.

SUMMARY COMPENSATION TABLE

The table below sets forth the total compensation earned by our named executive officers during the fiscal years indicated. - (1) Amounts listed represent the aggregate grant date fair value of all stock awards computed in accordance with FASB ASC Topic 718, are based upon the probable outcome of any applicable performance conditions, exclude the impact of estimated forfeitures related to service-based vesting conditions and are consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718. Additional information about the assumptions used in valuing these stock awards is set forth in Note 16 Stock-Based Compensation of the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2017. For restricted stock awards and PSUs, fair value is computed by multiplying the total number of shares subject to the award (or target number or shares, if applicable) by the closing price per share of our common stock as reported on the NYSE on the date of grant. PSUs are earned based on our financial performance over a three-year period, and the shares earned are not restricted after completion of the performance period and settlement of the award. The maximum values of the 2017 stock awards as of the grant date, assuming the highest level of performance conditions are attained, are as follows: Mr. Muehlhaeuser \$3,650,091; Mr. Shah \$514,807; Mr. Matosevic \$832,239; Mr. Weishaar \$730,033 and Mr. Caron \$438,005.
- (2) Amounts listed reflect the aggregate grant date fair value of all stock option awards granted during the year in accordance with FASB ASC Topic 718. Additional information about the assumptions that we used when valuing option awards is set forth in Note 16 Stock-Based Compensation of the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2017. Amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions.
- (3) Consists of amounts earned pursuant to the STIP for performance during the year indicated and paid the following year.
- (4) This amount reflects the actuarial change in pension value from the preceding year as we did not provide above-market earnings on nonqualified deferred compensation. The amount consists entirely of the change in the actuarial present value of Mr. Jones's accumulated benefit under our and MTW's SERP (e.g., for 2016 this reflects the change from December 31, 2015 to December 31, 2016.). For 2017, the actuarial change in present value decreased by \$223,508 as Mr. Jones received a distribution from the SERP during the year ended December 31, 2017.

- (5) All other compensation for 2017 consists of the following:

PAY RATIO.

As calculated in accordance with applicable disclosure rules, the 2017 annual total compensation of Mr. Muehlhaeuser was \$3,704,480 and the 2017 annual total compensation of our median employee was \$40,836. As a result, we estimate that Mr. Muehlhaeuser's 2017 annual total compensation was approximately 91 times that of our median employee. We identified our median employee by comparing the compensation of all individuals that we employed on November 30, 2017 based upon the sum of: (i) base salary (annualized for any employees hired after January 1, 2017), (ii) overtime pay, (iii) short-term incentive awards, if any, and (iv) long-term incentive awards, if any, based on the grant date fair value of the target number of awards granted. After we identified our median employee, we calculated such employee's total annual compensation in the same way that we calculate the annual total compensation of our named executive officers in the Summary Compensation Table.

OUTSTANDING EQUITY AWARDS AT 2017 FISCAL YEAR END.

The following table sets forth details about each outstanding equity award held by our named executive officers as of December 31, 2017. As discussed above under "Treatment of Equity-Based Awards in the Spin-Off," each MTW equity award outstanding as of March 4, 2016, the effective date of the Spin-Off, was deemed bifurcated into two separate awards: a modified award relating to MTW common stock, and a new award relating to Welbilt common stock. Awards listed in the table below with a grant date prior to March 4, 2016 reflect the portion of the bifurcated awards that relate to our common stock and are outstanding under our 2016 Omnibus Incentive Plan.

(1) Unless otherwise noted in these footnotes, all stock options referenced in this table vest 25% per year beginning on the first anniversary of the grant date and continuing until the fourth anniversary of the grant date.

(2) Unless otherwise noted in these footnotes, all awards in this column relate to restricted stock units and vest 100% on the third anniversary of the grant date.

(3) Amounts reported are based on the closing price of our common stock as reported on the NYSE on December 29, 2017, the last trading day of the year, or \$23.51, multiplied by the number of shares underlying the award.

(4) All awards in this column relate to PSUs with a three-year performance period ending on December 31, 2018 or December 31, 2019. The number of shares appearing here reflects the number of shares that would be awarded assuming target performance is achieved. As of December 31, 2017, the performance trend was at or above the target level.

- (5) Includes various awards granted in 2015, including 2,000 restricted stock units that vest on 01/04/2018; 6,910 restricted stock units that vest on 02/17/2018; and 15,244 restricted stock awards that vest on 03/04/2018.
- (6) Vests 100% on the second anniversary of 02/01/2016.
- (7) Awards vested 25% per year beginning on the second anniversary of the grant date and continuing until the fifth anniversary of the grant date.

OPTION EXERCISES AND STOCK VESTED IN FISCAL 2017

The following table provides information about the number of shares of common stock acquired by our named executive officers in 2017 upon the exercise of stock options and as a result of the vesting of stock awards.

| Name | Option Awards | | Stock Awards | |
|--------------------------|---|--|---|---|
| | Number of Shares Acquired on Exercise (#) | Value Realized on Exercise (\$) ⁽¹⁾ | Number of Shares Acquired on Vesting (#) ⁽²⁾ | Value Realized on Vesting (\$) ⁽³⁾ |
| Hubertus M. Muehlhaeuser | | | | |
| John O. Stewart | | | 48,470 | \$1,018,839 |
| Haresh Shah | | | | |
| Josef Matosevic | | | 4,180 | \$ 80,340 |
| Andreas G. Weishaar | | | | |
| Richard N. Caron | | | 3,800 | \$ 73,036 |
| Maurice D. Jones | 155,800 | \$2,426,676 | 74,124 | \$1,432,817 |

- (1) Reflects the difference between the exercise price and the closing price of our common stock as reported on the NYSE on the date of exercise, multiplied by the number of shares acquired.
- (2) Reflects vesting of PSUs, restricted stock units or restricted stock awards. With respect to Mr. Stewart, includes 38,860 PSUs granted on March 17, 2016 and 9,610 PSUs granted on February 16, 2017, which awards vested on February 20, 2017, the date Mr. Stewart's employment agreement was amended in connection with his retirement. With respect to Mr. Matosevic and Mr. Caron, includes 4,180 PSUs and 3,800 PSUs, respectively, originally granted on February 14, 2014, which were subsequently converted into restricted stock units for the target number of performance share units subject to the award in connection with the Spin-Off and vested on February 14, 2017. With respect to Mr. Jones, includes restricted stock units, restricted stock awards and PSUs granted on various dates and accelerated in connection with his retirement.
- (3) Reflects the aggregate market value of shares vested on the applicable vesting date based on the closing price of a share of our common stock as reported on the NYSE on such date.

PENSION BENEFITS

The following table sets forth information with respect to our Supplemental Executive Retirement Plan ("SERP") as of December 31, 2017, in which only Mr. Jones was eligible to participate. In connection with the Spin-Off, we assumed responsibility for continuing to provide Mr. Jones with this benefit. Under the SERP, Mr. Jones is entitled to receive retirement benefits which are intended to fund an annuity based on a percentage of his five-year final average pay at the earlier of normal retirement (age 65) or the first of the month following the date on which his attained age plus combined years of service with MTW and our Company equals eighty (80) (the "SERP Retirement Date"). Mr. Jones' final five-year average pay is computed by averaging his base salary (including elective deferrals) and STIP-related awards payable for each year for the five consecutive calendar year period he receives his highest average compensation prior to the SERP Retirement Date. Benefits are computed using a straight-life annuity and are not reduced for social security or other offsets. Under the Plan, an account balance is maintained for Mr. Jones, which generally reflects the present value of that annuity, calculated using a 9% interest rate and the 1994 Uninsured Pension Mortality Table. Following Mr. Jones' retirement on January 2, 2017, he became eligible for a distribution from the SERP, and his account balance will be paid in annual installments over five (5) years. No other named executive officers were eligible to participate in the SERP.

| Name | Plan Name | Number of Years of Credited Service ⁽⁵⁾⁽¹⁾ | Present Value of Accumulated Benefit ⁽⁵⁾⁽²⁾ | Payments During Last Fiscal Year ⁽⁵⁾ |
|------------------|-----------|---|--|---|
| Maurice D. Jones | SERP | 12 | \$2,360,565 | \$527,524 |

- (1) Mr. Jones participated in the MTW SERP, and in connection with the Spin-Off, the Company agreed to assume responsibility for such benefit. Accordingly, the table above reflects the aggregate number of years in which Mr. Jones has participated in the SERP.
- (2) Represents the present value of the remaining four installment payments of Mr. Jones' account balance, calculated using a 3.67% discount rate.

NONQUALIFIED DEFERRED COMPENSATION

During 2017, none of our named executive officers made any contributions to the deferred compensation plan, and we did not make any contributions on their behalf. However, Mr. Caron and Mr. Jones have account balances in the plan in the amounts shown in the table below.

| Name | Executive Contributions in 2017 | Registrant Contributions in 2017 | Aggregate Earnings in 2017 | Aggregate Withdrawals/ Distributions | Aggregate Balance at December 31, 2017 ⁽¹⁾ |
|------------------|---------------------------------|----------------------------------|----------------------------|--------------------------------------|---|
| Richard N. Caron | — | — | \$ 22 | — | \$ 2,996 |
| Maurice D. Jones | — | — | \$89,625 | — | \$441,256 |

- (1) Of the amount reported in this column for Mr. Jones, \$41,818 has previously been disclosed in our Summary Compensation Table in prior years. No portion of the amount reported in this column for Mr. Caron has previously been disclosed in the Summary Compensation Table.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

The following table and related discussion describes the estimated potential payments and other benefits our named executive officers (other than Mr. Stewart) would have been eligible to receive in the event of a termination of employment or change in control, assuming a termination date of December 31, 2017. Because the disclosures in the table assume the occurrence of a termination of employment as of a particular date and under a particular set of circumstances, the actual amounts to be paid to our named executive officers upon a termination of employment or change in control may vary significantly from the amounts set forth below.

With respect to Mr. Stewart and Mr. Jones who separated from the Company effective May 5, 2017 and January 2, 2017, respectively, the amounts shown in the table reflect actual amounts and other benefits each executive has received or will be eligible to receive pursuant to the terms of their respective employment agreement, as discussed above under “Employment Agreements and Change in Control Benefits—Employment Agreements.”

- (1) Represents estimated payouts assuming a change in control and termination of employment without cause (as defined in the Contingency Employment Agreements) occurred on December 31, 2017 and outstanding equity awards of the Company are not assumed by the purchaser, successor or surviving entity.
- (2) Reflects a prorata STIP award for the year of termination, which amount, for termination by the Company without cause or by the employee for good reason, is calculated based upon actual performance and, for a termination upon a change in control, is calculated based upon the target STIP award.
- (3) Reflects amounts earned under outstanding and unvested restricted stock units and PSUs that accelerate upon the specified event. Restricted stock units and PSUs, whether or not delivery of the underlying shares is deferred, are valued at the aggregate market value of the underlying shares (or, with respect to PSUs, the underlying target number of shares) based on the closing market price per share of our common stock on December 29, 2017, the last trading day of the year, or \$23.51. In the event of a change in control, awards of PSUs would be valued at the greater of target or projected performance and prorated to reflect the portion of the performance period which has lapsed.
- (4) Reflects amounts earned under outstanding and unvested stock options that accelerate upon the specified event. Such options are valued at the aggregate market value of the underlying shares based on the closing market price per share of our common stock on December 29, 2017, the last trading day of the year, or \$23.51, less the aggregate cost to exercise the stock options.
- (5) Reflects life insurance benefits that the named executive officer's designated beneficiaries would receive upon his death under life insurance coverage provided by the Company and does not include any additional benefits which might be paid out under supplemental coverage purchased by the individual executive. Does not reflect amounts payable upon Disability or retirement.
- (6) Reflects maximum car allowance and tax and financial planning services permitted under such executive officer's contract in effect as of December 31, 2017.

Termination by the Company for Cause (a).

In the event of a termination of employment for cause (as defined in the employment agreement), the named executive officer will receive only accrued but unpaid compensation through the date of termination and no additional benefits. All outstanding equity awards (vested or otherwise) will also be terminated on the individual's effective date of termination.

Termination by the Company without Cause or by Employee for Good Reason (b).

In the event of a termination of employment by the Company without cause or by the employee for Good Reason (as defined in the employment agreement), the named executive officer may receive a severance payment

consisting of (i) 12 months' base salary (or 24 months with respect to Mr. Muehlhaeuser), (ii) 100% of his target STIP (or 200% with respect to Mr. Muehlhaeuser and 70% with respect to Mr. Caron), and (iii) a prorata annual incentive compensation payment based upon the number of days actually employed and the actual performance of the Company under the STIP in effect for the year of termination (collectively, the "Severance Payment"). Other than the prorata annual incentive payment, which is to be paid shortly after the Compensation Committee certifies the Company's performance under the STIP, the Severance Payments are to be paid over a 12-month period (or 2-year period with respect to Mr. Muehlhaeuser) in accordance with the Company's normal pay practices and otherwise subject to Section 409A of the Internal Revenue Code ("Section 409A") where applicable. Severance Payments are subject to offset by the amount of any cash compensation earned from any subsequent employer during the applicable payment period or from the Company under any Contingent Employment Agreement (discussed below under "Change in Control Severance Arrangements").

Additionally, all outstanding equity awards granted to the named executive officer prior to the year of termination will be deemed fully vested (subject to attainment of applicable performance goals) and all outstanding equity awards made in the year of termination will be forfeited (unless otherwise provided by the Company). The executive will have until the earlier of the expiration date or 24 months from the date of termination to exercise any outstanding options.

Death, Disability or Retirement (c).

In the event of death, the named executive officer's designated beneficiary will receive three times his base salary up to a maximum of \$1.0 million under the life insurance benefit provided by the Company. Payment of all compensation to the named executive officer will immediately cease, except for any compensation and benefits accrued but unpaid through the date of death. If a named executive officer is unable to perform his duties under his employment agreement due to a disability, his employment agreement will terminate. If his employment is terminated due to his disability prior to the one year anniversary of the effective date of the employment agreement, then he will continue to receive his standard compensation, reduced by any disability payment he is otherwise entitled, until the one year anniversary of the effective date of his employment agreement.

In the event of death, disability or retirement, all outstanding options will become fully vested and may be exercised until the earlier of (x) the option expiration date or (y) 12 months following the date of death or disability or 10 years following the retirement date, as applicable. Additionally, all outstanding restricted stock units will become fully vested and all outstanding performance share units will be vested, but prorated through the last date of employment and settled following completion of the performance period based upon actual achievement of performance goals.

Change in Control (d).

In the event we experience a "change in control" (as defined in the Contingent Employment Agreements), Mr. Muehlhaeuser will continue to be employed by the Company for three years and each other named executive officer will continue to be employed for two years (as applicable, the "Change in Control Employment Period"). Under the Contingent Employment Agreements, each executive would remain employed at the same position held as of the change in control date, and would receive a salary at least equal to the salary in effect as of such date, plus all bonuses, incentive compensation, and other benefits provided to the executive officers prior to the change in control, provided that the plans and bonus opportunity are no less favorable than those that were available prior to a change in control. After a change in control, the executive's compensation would be subject to upward adjustment at least annually based upon the executive's contributions and the level of increases provided to other officers and employees. Each Contingent Employment Agreement would terminate prior to the end of the Change in Control Employment Period if the executive voluntarily retired or was terminated "for cause," as defined in the Contingent Employment Agreement. In addition, the Contingent Employment Agreement is terminable by either party at any time prior to a change in control.

Additionally, the Contingent Employment Agreements provide the following benefits:

- In the event the named executive officer is terminated without cause following a change in control and prior to the end of the applicable Change in Control Employment Period, he would be entitled to receive a payment equal to the base salary, benefits and the annual incentive compensation the executive would have otherwise been paid but for the termination, calculated on the basis of his target bonus for the year of termination, through the Change in Control Employment Period.
- The named executive officer's equity-based awards would not automatically vest upon a change in control if his employment continued. However, if his employment is subsequently terminated by the surviving entity without cause, or by him for good reason, in either case within 24 months following a change of control, all of his equity-based awards that are in effect as of the date of such termination will be vested in full or deemed earned in full (assuming the maximum performance goals provided under

such award were met, if applicable) effective on the date of such termination (i.e., a “double trigger”). In addition, to the extent that equity-based awards are not assumed by the purchaser, successor or surviving entity in the change in control, or a more favorable outcome is not provided in the applicable plan or award agreement, upon a change of control: (1) stock options, stock-appreciation rights and time-based restricted stock (including restricted stock units) will vest and may be paid out in cash; (2) performance-based awards will be pro-rated and paid out in cash assuming the greater of target or projected actual performance (based on the assumption that the applicable performance goals continue to be achieved at the same rate through the end of the performance period as they are at the time of the change of control); and (3) each other type of equity-based award not mentioned above will be paid out in cash based on the value of the award as of the date of the change of control.

- In the event the executive is terminated for cause, the executive would be entitled only to the salary and benefits accrued and vested as of the effective date of the termination.

The cash amount (base salary, STIP and prorata annual incentive award for the year of termination) described above would be paid in a lump sum within 30 days of the termination, subject to the requirements of Section 409A. Benefits would be provided over the course of the remainder of the Change in Control Employment Period.

If a named executive officer is terminated without cause within six months prior to a change in control and it was reasonably demonstrated by the employee that the termination (i) was at the request of a third party who has taken steps reasonably calculated to effect a change in control or (ii) otherwise arose in connection with or in anticipation of a change in control, the employee would be entitled to the severance payment and benefits that he would have otherwise have received if he were terminated without cause following a change in control.

If any of the payments to a named executive officer would constitute an “excess parachute payment” under Section 280G of the Internal Revenue Code and would result in the imposition on the executive of an excise tax under Section 4999 of the Internal Revenue Code (the “Excise Tax”), the executive would not be entitled to any tax gross up amount; however, the executive would be entitled to receive the “best net” treatment. Under the “best net” treatment, if the after-tax amount (taking into account all federal, state and local excise, income and other taxes) that would be retained by the executive is less than the after- tax amount that would be retained by the executive if the executive were instead to be paid or provided (as the case may be) the maximum amount that the executive could receive without being subject to the Excise Tax (the “Reduced Amount”), then the executive would be entitled to receive the Reduced Amount instead of the full amount that would have been subject to the Excise Tax.

The Contingent Employment Agreements also provide that (i) if the executive was terminated without cause prior to the end of the Change in Control Employment Period, the executive will be prohibited from competing with us for the lesser of two years (three years, in the case of Mr. Muehlhaeuser) or the unexpired term of the Change in Control Employment Period, and (ii) if the executive was terminated within six months prior to a change in control in anticipation of a change in control as explained above, the executive will be prohibited from competing with us for two years (three years, in the case of Mr. Muehlhaeuser).

PROPOSAL NO. 2 — ADVISORY APPROVAL OF EXECUTIVE COMPENSATION

As required by Section 14A of the Securities Exchange Act, we are providing our stockholders with the opportunity to approve, on an advisory basis, the 2017 compensation of our named executive officers as described in this Proxy Statement. While this “say-on-pay” vote is a non-binding, advisory vote, the Compensation Committee carefully reviews and considers the voting results when making future decisions regarding our executive compensation programs. The Company currently holds advisory votes on the compensation of named executive officers annually, and the next such advisory vote is expected to be held at the 2019 Annual Meeting of Stockholders.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE **FOR THE APPROVAL, ON AN ADVISORY BASIS, OF THE 2017 COMPENSATION OF WELBILT'S NAMED EXECUTIVE OFFICERS**

AUDIT MATTERS

EVALUATION AND SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board is directly responsible for the appointment, retention, compensation and oversight of the independent registered public accounting firm retained to audit the Company's financial statements. The Audit Committee has selected PricewaterhouseCoopers LLP ("PwC") to serve as our independent registered public accounting firm for 2018.

Although ratification is not required by our Bylaws or otherwise, the Board is submitting the selection of PwC to our stockholders for ratification because we value our stockholders' views on the Company's independent registered public accounting firm. If our stockholders fail to ratify the selection, the Board and the Audit Committee may reconsider the selection of such firm. Even if the selection is ratified, the Audit Committee in its discretion may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and our stockholders.

PwC has served as the independent registered public accounting firm of the Company since 2015. The Audit Committee's decision to retain and recommend that stockholders ratify the selection of PwC involved the consideration of a number of factors, including:

- PwC's performance on prior audits and the quality and efficiency of the provided services;
- PwC's continued independence;
- PwC's global capabilities and technical expertise;
- PwC's significant institutional knowledge and understanding of the Company's business, generally and particularly with respect to the Spin-Off;
- The quality and depth of PwC's staff;
- PwC's effectiveness of communications and working relationship with the Audit Committee, management and internal auditor;
- the appropriateness of the fees paid to PwC; and
- external data on audit quality and performance, including recent Public Company Accounting Oversight Board reports on PwC and its peer firms.

As part of the evaluation of its independent registered public accounting firm, the Audit Committee periodically considers whether there should be a regular rotation of the independent registered public accounting firm. In addition, in conjunction with the mandated rotation of the independent registered public accounting firm's lead engagement partner, the Audit Committee and the Audit Committee Chairman are directly involved in the selection of PwC's lead engagement partner. The Audit Committee and the Board of Directors believe the continued retention of PwC to serve as the Company's independent registered public accounting firm is in the best interests of the Company and its stockholders.

Representatives of PwC are expected to be present at the Annual Meeting. They also will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions from stockholders.

PRE-APPROVAL POLICIES AND PROCEDURES

Welbilt's policy and procedures for pre-approval of non-audit services is set forth in the Audit Committee Charter. The policy provides that the Audit Committee will review annually with Company management and the Company's independent auditor, their plans for the scope of the activities to be undertaken by the Company's independent auditor, including any contemplated performance by the Company's independent auditor of any permissible non-audit services and fees anticipated to be incurred for those services. The policy also provides that the Audit Committee must pre-approve all auditing services and non-audit services (other than those that are prohibited by applicable law, rule or regulation) provided to the Company by the Company's independent auditors. The Audit Committee may delegate to one or more designated members of the Audit Committee the authority to grant pre-approvals, provided that such decisions must be presented to the full Audit Committee at each of its scheduled meetings. For 2016 and 2017, all audit and non-audit services provided by our independent registered public accounting firm were pre-approved by the Audit Committee directly.

AUDIT COMMITTEE REPORT

In connection with its function to oversee and monitor the financial reporting process of the Company, the Audit Committee has done the following:

- reviewed and discussed the Company's audited financial statements for the fiscal year ended December 31, 2017 with the Company's management;
- discussed with PricewaterhouseCoopers LLP, the Company's independent registered public accounting firm, those matters required to be discussed by Public Company Accounting Oversight Board Auditing Standard No. 1301 (Communications with Audit Committees), and SEC Regulation S-X, Rule 2-07 (Communication with Audit Committee); and
- received the written disclosures and the letter from PricewaterhouseCoopers LLP required by the applicable requirements of the Public Company Accounting Oversight Board, considered whether the provisions of non-audit services by PricewaterhouseCoopers LLP are compatible with maintaining PricewaterhouseCoopers LLP's independence, and discussed with PricewaterhouseCoopers LLP its independence.

Based on the foregoing, the Audit Committee recommended to the Board that our audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Section 16(a) of the Exchange Act requires our directors, executive officers and holders of more than 10% of our common stock to file reports of ownership of, and transactions in, our securities with the SEC. Such directors, executive officers and 10% holders are then required to furnish us with copies of all Section 16(a) reports they file. EQUITY COMPENSATION PLANS

The following table sets forth, as of December 31, 2017, certain information related to our compensation plans under which our common stock may be issued.

| Plan Category | Number of securities to be issued upon exercise of outstanding options, warrants and rights (A) | Weighted-average exercise price of outstanding options, warrants and rights (B) ⁽¹⁾ | Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (A)) (C) |
|---|---|--|---|
| Equity compensation plans approved by security holders | 4,034,695 ⁽²⁾ | \$15.95 | 6,751,606 ⁽³⁾ |
| Equity compensation plans not approved by security holders ⁽⁴⁾ | — | — | — |
| Total | 4,034,695 ⁽²⁾ | \$15.95 | 6,751,606 ⁽³⁾ |

- (1) Reflects the weighted-average exercise price of stock options outstanding as of December 31, 2017. Restricted stock units, restricted stock awards and performance shares issued under the Company's 2016 Omnibus Incentive Plan and common stock units issued under the Company's Deferred Compensation Plan are not included in this column as they have no exercise price.
- (2) Consists of (a) 2,750,722 stock options, (b) 699,718 restricted stock units and restricted stock awards and (c) 584,255 PSUs (assuming target payout), in each case outstanding as of December 31, 2017 under the Company's 2016 Omnibus Incentive Plan, of which 2,217,371 stock options and 322,784 restricted stock units and restricted stock awards are replacement awards issued in connection with the Spin-Off as substitution for awards previously granted by MTW and do not impact the share reserve under the 2016 Omnibus Incentive Plan.
- (3) Amounts reflect the number of shares available for future issuance under the 2016 Omnibus Incentive Plan, determined in accordance with such plan as follows: (a) grants of stock options reduce the total shares available by 1.0 for each share issuable upon exercise of the award; (b) restricted stock units and restricted stock awards reduce the total shares available by 1.5 for each share issuable upon vesting and settlement of the award; and (c) PSUs reduce the total shares available by 1.5 for each share issuable upon vesting and settlement of the award, assuming maximum payout.
- (4) Reflects the Company's Deferred Compensation Plan, which consisted of approximately 51,288 common stock units outstanding as of December 31, 2017. Each common stock unit under the Deferred Compensation Plan represents the right to receive one share of Company common stock following the participant's death, disability, termination of service as a director or employee, a date specified by the participant, or the earlier of any such events to occur. Since the common stock units are acquired by participants through a deferral of fees or compensation, there is no "exercise price" associated with the common stock units. The Deferred Compensation Plan requires the plan trustees to make available as and when needed a sufficient number of shares of Company common stock to meet the needs of the plan. As of December 31, 2017, all such shares were funded through the open market purchase of shares of Company common stock by the administrator.

OTHER MATTERS

CERTAIN RELATIONSHIPS AND TRANSACTIONS WITH RELATED PERSONS

Procedures for Approval of Related Person Transactions. Under the Company's Code of Ethics, (a) without the prior approval of the Chief Executive Officer, the Chief Financial Officer, the Chief Human Resources Officer or the General Counsel, no officer or employee will enter into any transaction for or on behalf of the Company with any other person or entity in which the employee or officer has a direct or indirect interest; (b) directors and officers of the Company are required to report annually any material interest that such director or officer has in any business enterprise with which the Company conducts business; and (c) any transactions or agreements relating to transactions between the Company and any such business enterprise must be approved by those members of the Company's Board of Directors who have no interest in the business enterprise, which approval may be a continuing approval.

Certain Related Person Transactions. Since January 1, 2017, there has not been, nor is there currently proposed as of the date of this Proxy Statement, any transaction, arrangement or relationship that would be required to be disclosed pursuant to Item 404(a) of Regulation S-K in which Welbilt was or is to be a participant, the amount involved exceeded or is expected to exceed \$120,000 and in which any "related person" of Welbilt had or will have a direct or indirect material interest.

Icahn Settlement Agreement. As discussed above, the Settlement Agreement provided the Icahn Shareholders with the option to cause MTW to appoint one designee of the Icahn Shareholders to our Board in connection with the Spin-Off. The Icahn Shareholders designated Mr. Langham to serve on our Board, and Mr. Langham has been nominated for re-election to the Board at the 2018 Annual Meeting of Stockholders in accordance with such Settlement Agreement. The Settlement Agreement also requires that we satisfy certain corporate governance requirements for the duration of a standstill period, which period will expire 25 days after the date that no Icahn designee serves on our Board.

STOCKHOLDER PROPOSALS AND NOMINATIONS

Rule 14a-8 Proposals. Stockholders may submit proposals for consideration at our 2019 Annual Meeting of Stockholders (the "2019 Annual Meeting"). To be considered for inclusion in the proxy statement and form of proxy relating to the 2019 Annual Meeting, your proposal must be submitted in accordance with Rule 14a-8 of the Exchange Act and must be received by our Corporate Secretary at our principal executive offices no later than November 14, 2018. Failure to deliver a proposal in accordance with applicable requirements may result in such proposal being deemed untimely. Furthermore, submission of a proposal does not guarantee it will be included in next year's proxy materials.

Proxy Access Nominations. In order to be properly brought before the 2019 Annual Meeting, a shareholder's notice of nomination of one or more director candidates to be included in the Company's proxy statement pursuant to Article II, Section 2.9 of our Bylaws (a "proxy access nomination") must be received by our Corporate Secretary at our principal executive offices no earlier than October 15, 2018 and no later than November 14, 2018. If the date of the 2019 Annual Meeting is more than 30 days before or 60 days after the anniversary of the 2018 Annual Meeting, notice by the shareholder must be so received not later than the later of the 180th day prior to such annual meeting or the 10th day following the day on which public disclosure of the date of such meeting is first made.

Advance Notice Requirements. Our Bylaws also establish an advance notice procedure for stockholders who wish to present a proposal, including the consideration of director nominees, before an annual meeting of stockholders, but do not intend for the proposal to be included in our proxy materials. Pursuant to our Bylaws, in order for business to be properly brought before an annual meeting by a stockholder, the stockholder must have complied with the notice procedures specified in our Bylaws and such business must be a proper matter for stockholder action under the General Corporation Law of the State of Delaware. To be timely for the 2019 Annual Meeting of Stockholders, our Corporate Secretary must receive the written notice no later than the close of business on January 27, 2019, nor earlier than December 28, 2018.

Any of the foregoing proposals or notices must be in writing, comply with the applicable requirements or conditions established by securities laws or our Bylaws and should be addressed to: Welbilt, Inc., Attn: Corporate Secretary, 2227 Welbilt Boulevard, New Port Richey, FL, 34655.

For holders in street name: Yes. You must follow the specific voting instructions provided to you by your broker, bank or other similar institution to change or revoke any instructions you have already provided to them.

HOW WILL MY SHARES BE VOTED IF I DO NOT PROVIDE SPECIFIC INSTRUCTIONS IN THE PROXY CARD OR VOTING INSTRUCTIONS FORM THAT I SUBMIT?

If you are a stockholder of record and if you sign, date and return your proxy card but do not provide specific voting instructions, your shares of common stock will be voted FOR the election of each of the director nominees named in this Proxy Statement, FOR the approval, on an advisory basis, of a resolution relating to the 2017 compensation of Welbilt's named executive officers and FOR the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2018. If any other matter properly comes before our Annual Meeting and any adjournments thereof, the proxy holders will vote your shares in their discretion.

If your shares are held in street name at a broker, your broker may under certain circumstances vote your shares on "discretionary" matters if you do not timely provide voting instructions in accordance with the instructions provided by them. However, if you do not provide timely instructions, your broker does not have the authority to vote on any "non-discretionary" proposals at the Annual Meeting and a "broker non-vote" would occur, as explained below.

WHAT IS "BROKER DISCRETIONARY VOTING"?

If you hold your shares in street name, your broker, bank or other similar institution may be able to vote your shares without your instructions depending on whether the matter being voted on is "discretionary" or

“non-discretionary.” The ratification of the selection of the independent registered public accounting firm is a discretionary matter and your broker is permitted to vote your shares of common stock if you have not given voting instructions. The election of directors and the advisory vote on a resolution relating to the 2017 compensation of Welbilt’s named executive officers are non-discretionary matters and your broker cannot vote your shares if you have not given voting instructions. A “broker non-vote” occurs when your broker submits a proxy for the Annual Meeting, but does not vote on non-discretionary matters because you did not provide voting instructions on these matters. Therefore, it is important that you provide specific voting instructions regarding non-discretionary matters to your broker, bank or similar institution.

I UNDERSTAND THAT A QUORUM IS REQUIRED IN ORDER TO CONDUCT BUSINESS AT THE ANNUAL MEETING. WHAT CONSTITUTES A QUORUM?

A majority of all of our outstanding shares of common stock entitled to vote at the Annual Meeting, represented in person or by proxy, constitutes a quorum at the Annual Meeting. In addition, abstentions and broker non-votes will be counted for purposes of establishing a quorum. If a quorum is not present, the Annual Meeting will be adjourned until a quorum is obtained.

As of February 28, 2018, the record date for the Annual Meeting, there were 139,861,580 shares of common stock outstanding and entitled to vote. If you submit a properly executed proxy by mail, telephone or the Internet, your shares will be considered represented for purpose of establishing a quorum.

WHAT IS REQUIRED TO APPROVE THE PROPOSALS SUBMITTED TO A VOTE AT THE ANNUAL MEETING?

The following table summarizes the voting requirements and the effects of broker non-votes and abstentions on each of the proposals to be voted upon at the Annual Meeting.

| Proposal | Required Approval | Broker Non-Votes | Abstentions |
|--|--|---|----------------------------|
| 1. Election of the eight director nominees named in this Proxy Statement to serve for one-year terms. | Majority of Votes Cast | No Effect | No Effect |
| 2. Approval, on an advisory basis, of the 2017 compensation of Welbilt’s named executive officers | Majority of Votes Present and Entitled to Vote | No Effect | Will Act as a Vote Against |
| 3. Ratification of the selection of PricewaterhouseCoopers LLP as Welbilt’s independent registered public accounting firm for the fiscal year ending December 31, 2018 | Majority of Votes Present and Entitled to Vote | N/A Discretionary Votes Permitted | Will Act as a Vote Against |
