Re: Global Income Builder Portfolio
Registration Statement on Form N-1A
File No. 811-23145

Dear Ms. Lee:

On March 10, 2016, you filed a registration statement on Form N-1A on behalf of Global Income Builder Portfolio (the "Portfolio"). We have reviewed the registration statement and have provided our comments below. Where a comment is made in one location, it is applicable to all similar disclosure appearing elsewhere in the registration statement. All capitalized terms not otherwise defined herein have the meaning given to them in the registration statement.

Facing Sheet

1. Please insert the facing sheet. *See* General Instruction B.2(b) of Form N-1A.

Part A

Page A-1 – Investment Adviser

2. Please disclose the name of the sub-adviser. *See* Item 5(a) of Form N-1A.

Page A-2 – Implementation of Investment Objective

3. Please specify what the "other hybrid securities" are.
4. You state that "An issuer will be considered to be located outside the United States if it is domiciled in and tied economically to one or more non-U.S. countries and may include securities trading in the form of depositary receipts." Please disclose how you determine whether an issuer is "tied economically" to one or more non-U.S. countries. Depending on your response, we may have additional comments.

5. If the Portfolio intends to sell or write credit default swaps, please confirm that the full notional value of the securities will be covered.

6. You state that the Portfolio may engage in total return swaps. When the Portfolio does engage in total return swaps, an appropriate amount of segregated assets must be set aside. *See* generally Investment Company Act Release No. 10666 (Apr. 18, 1979). Please note that the Commission issued a proposed rule and, prior to that, a concept release exploring issues relating to the use of derivatives by funds, including whether market practices involving derivatives are consistent with the leverage provisions of the 1940 Act. *See* Investment Company Act Release No. 31933 (Dec. 11, 2015) and Investment Company Act Release No. 29776 (Aug. 31, 2011). Accordingly, please be aware that the Commission or its staff could issue future guidance related to derivatives (such as total return swaps) and leverage, including guidance related to coverage requirements, which could impact the manner in which the Portfolio operates.

Page A-4 – Income Risk

7. The terms shareholder and interestholder are used throughout the registration statement. Please explain in what way these two terms differ.

Page A-4 – Risk of Senior and Junior Loans

8. You state, “It may take longer than seven days for transactions in loans to settle.” Please tell the staff how the Portfolio intends to meet short-term liquidity needs which may arise as a result of the potentially lengthy settlement period.

Page A-5 – Real Estate Risks

9. Please disclose that to the extent the Portfolio invests in REITs, its distributions are likely to be taxable as ordinary income (because they come from mortgage interest and rents), rather than being eligible for the 15% rate on qualified dividends.

Page A-6 – Hybrid Securities

10. Please confirm that, where a loan participation does not shift to the Portfolio the direct debtor-creditor relationship with the borrower, the Portfolio will treat both the interposed financial institution and the borrower as “issuers” for purposes of the Portfolio’s classification as a diversified company and the Portfolio’s fundamental investment restriction on industry concentration (Section 5(b)(1) and 8(b)(1)(E) of the Investment Company Act of 1940). *See Pilgrim Prime Rate Trust*, SEC Staff No-Action Letter (June 29, 1989).

11. Please disclose the following risks presented by investments in PIK securities. Please specifically disclose that:

a. the higher interest rates on PIK securities reflect the payment deferral and increased credit risk associated with such instruments and that such investments generally represent a significantly higher credit risk than coupon loans.

- b. even if accounting conditions were met, the borrower could still default when the Portfolio's actual collection is supposed to occur at the maturity of the obligation.
- c. PIK securities may have unreliable valuations because their continuing accruals require continuing judgments about the collectability of the deferred payments and the value of any associated collateral.
- d. PIK interest has the effect of generating investment income and increasing the incentive fees payable at a compounding rate. In addition, the deferral of PIK interest also reduces the loan-to-value ratio at a compounding rate.

12. Please state that a description of the Portfolio's policies and procedures with respect to the disclosure of the Portfolio's portfolio securities is available (i) in the Portfolio's SAI; and (ii) on the Portfolio's website, if applicable. *See* Item 9(d) of Form N-1A.

13. Please include a statement, adjacent to the disclosure required by paragraph (a)(1)(ii) of Item 10 of Form N-1A, that a discussion regarding the basis for the board of trustees approving any investment advisory contract of the Portfolio is available in the Portfolio's annual or semi-annual report to shareholders, as applicable, and providing the period covered by the relevant annual or semi-annual report. *See* Item 10(a)(1)(iii) of Form N-1A.

14. Please include a statement, adjacent to the disclosure regarding portfolio managers, that the SAI provides additional information about the Portfolio managers' compensation, other accounts managed by the Portfolio manager(s), and the Portfolio Managers' ownership of securities in the Portfolio. *See* Item 10(a)(2).

Part B

Page B-1 – Cover Page and Table of Contents

15. Please add a front cover page and include all relevant information. *See* Item 14(a) of Form N-1A.

Page B-5 – Temporary Defensive Positions
