PicMii does not make investment recommendations and no communication through this website or in any other medium should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Cautionary Note Concerning Forward-Looking Statements

This Form C and any documents incorporated by reference herein contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C are forward-looking statements. Forward-looking statements give our current reasonable expectations and projections regarding our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "should," "can have," "likely," and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

The forward-looking statements contained in this Form C and any documents incorporated by reference herein are based on reasonable assumptions we have made in light of our industry experience, perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. As you read and consider this Form C, you should understand that these statements are not guarantees of performance or results. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual operating and financial performance and cause our performance to differ materially from the performance anticipated in the forward-looking statements. Should one or more of these risks or uncertainties materialize or should any of these assumptions prove incorrect or change, our actual operating and financial performance may vary in material respects from the performance projected in these forward-looking statements.

Investors are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements made in this Form C or any documents incorporated by reference herein is accurate only as of the date of those respective documents. Except as required by law, we undertake no obligation to publicly update any forward- looking statements for any reason after the date of this Form C or to conform these statements to actual results or to changes in our expectations.

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Company Overview

xCraft Enterprises, Inc. is a US drone company founded in September of 2014. Our mission is to develop powerful flying robots that change the world. We have a passion for technology, a passion for flight, and a passion for doing good in the world.

We believe there is a need for quality, American-made drones at cost-competitive prices. We

also believe there is a need for advanced technologies to support the upcoming Urban Air Mobility (UAM) space.

Business Model

We are heavily R&D-focused Our business model is two-fold: We develop new UAV solutions for customers on a contract basis, and we develop, license, and sell our own products.

Business Evolution

We have evolved from a strict product focus to an application focus. We let the market need drive our development. Broadly, we develop autonomous flight solutions for five different verticals:

- 1. Public Safety/Security**
- 2. Geo-Spatial/Agriculture**
- 3. Energy**
- 4. Government/Military**
- 5. Urban Air Mobility**

Sales and Distribution

We generate revenue through two channels - custom development and direct sales.

When we develop new technology for a contract customer, we seek to maintain our rights in the designs and other intellectual property so we can produce and sell the end product through other channels. Our primary sales strategy is B2B and B2G(Government) although some B2C still exists.

Products

Existing products:

- Shadow - Tethered UAS
- X2Q - Hybrid VTOL
- Maverick-Small tactical ducted-rotor UAS
- PANADRONE
- Matris SE
- Matrix Mapper RTK
- Nano One

Products in Development

KesTRL - Extended Range Hybrid VTOL

Intellectual Property

We hold United States trademarks for "xCraft," "X PlusOne" and "PhoneDrone Ethos," and have pending trademark applications for "Matrix", "Aspire" and "PANADRUNE".

We have been issued the following United States patents over various aspects of our technology:

1. High-Speed VTOL Multirotor Aircraft (Patent No. US 9,994,313)
2. UAV With Detachable Computing Device (Patent No. US 9,738,380)
3. UAV With Detachable Computing Device (Patent No. US 10,479,500)

We have a pending patent application for a UAV Vehicle Mounted Drone Port, Drone, and Integrated Communication System (Application No. 62/739,472).

Corporate History

We were formed as an Idaho limited liability company named Xcraft Enterprises, LLC, on September 23, 2014, and converted into a Delaware corporation on February 28, 2017.

Competitors and Industry

There are several companies that build and sell competing UAS products. Most notable among them is Chinese-based, DJI. DJI's products serve mostly the consumer market but also several key verticals in the commercial space including public safety and cinematography. DJI has recently struggled to overcome a broad distrust, especially in the US and (Non-Chinese) government markets over security and privacy issues. We see this as an opportunity to capitalize since our products are developed and manufactured in the USA.

Another, more direct US competitor is Skydio. Skydio builds UAS products with advanced obstacle avoidance and image tracking capability. These vehicles serve a target niche in the consumer and public safety space. Other competitors include France-based Parrot, AeroVironment, and Birds Eye View Robotics.

The global unmanned aerial vehicle (UAV) market was valued at USD 18,857.47 million in 2018 and is expected to reach USD 36,661.34 million in 2026, growing at a CAGR of 8.59% during the forecast period.

Current Stage and Roadmap

xCraft made tremendous leaps in 2021 and is continuing that momentum by bringing on new distributors, launching numerous new drones into the market, securing new partnerships, and even achieving a 198% increase in sale revenue over 2020. We are currently in the process of growing our team, expanding our space, and much more to fulfill these large orders and solidify our identity as America's Drone Company.

Coming up this year, we plan to branch out even further, combining our technology with other groundbreaking companies on land, water, and air! Flying cars are not too far out of our reach, and we are rapidly taking large strides to bring this to fruition.

The company plans to add several new key positions in Sales, Marketing, Customer Service, and Engineering in the coming year. We are also in the process of forming at least one Joint Venture (JV) partnership with a complementary technology company this year. We have been able to lay out a roadmap for our Urban Air Mobility strategy and plan to begin rolling that out in 2022.

Risk Factors

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters. The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises such as COVID-19 can have a significant effect on our business operations and revenue projections.

There is an ongoing outbreak of a novel and highly contagious form of coronavirus ("COVID-19"), which the World Health Organization declared a global pandemic on March 11, 2020. The outbreak of COVID-19 has caused a worldwide public health emergency with a substantial number of hospitalizations and deaths and has significantly adversely impacted global commercial activity and contributed to both volatility and material declines in equity and debt markets. The global impact of the outbreak is rapidly evolving, and many national, state, and local governments have reacted by instituting mandatory or voluntary quarantines, travel prohibitions and restrictions, closures or reductions of offices, businesses, schools, retail stores, restaurants, and other public venues and/or cancellations, suspensions and/or postponements of certain events and activities, including certain non-essential government and regulatory

activities. Businesses are also implementing their own precautionary measures, such as voluntary closures, temporary or permanent reductions in work force, remote working arrangements and emergency contingency plans.

Such measures, as well as the general uncertainty surrounding the dangers, duration, and impact of COVID-19, are creating significant disruption to supply chains and economic activity, impacting consumer confidence and contributing to significant market losses, including by having particularly adverse impacts on transportation, hospitality, healthcare, tourism, sports, entertainment and other industries dependent upon physical presence. Technological infrastructure has, and will likely continue to be, strained for so long as mandatory or voluntary quarantines are instituted, which will change, and potentially disrupt, the operations of the Company. As COVID-19 continues to spread, potential additional adverse impacts, including a global, regional or other economic recession of indeterminate duration, are increasingly likely and difficult to assess and, if the spread of COVID-19 is prolonged, it could adversely affect many economies, global financial markets and the Company even after COVID-19 is contained.

The extent of the impact of COVID-19 on the Company's operational and financial performance will depend on many factors, all of which are highly uncertain and cannot be predicted. Those factors include the duration and scope of the resulting public health emergency; the extent of any related restrictions implemented; the impact of such public health emergency on overall supply and demand, goods and services, investor liquidity, consumer confidence and levels of economic activity; and the extent of its disruption to important global, regional and local supply chains and economic markets. The effects of the COVID-19 pandemic may materially and adversely impact the value, performance and liquidity of the Company.

In addition, COVID-19 and the resulting changes to global businesses and economies likely will adversely impact the business and operations of the Company and therefore the business and operations of the Company. Certain businesses and activities may be temporarily or permanently halted as a result of government or other quarantine measures, voluntary and precautionary restrictions on travel or meetings and other factors, including the potential adverse impact of COVID-19 on the health of key personnel.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations may require a significant pivot in strategy and execution, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenue, as well as the inherent business risks associated with our Company and present and future market conditions.

The Company's success depends on the experience and skill of its manager and other key personnel.

In particular, we are dependent on our managers. The loss of the Managers, the Principals or any other key personnel could harm the Company's business, financial condition, cash flow and performance. Accordingly, you should not invest in the Company unless you are willing to entrust all aspects of the management of the Company and the investment decisions we make on the behalf of the Company.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success and will be critical to our success as we form and advise new markets. Any incident that erodes confidence in our brand could significantly reduce the Company's value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correct.

Risks Related to the Offering

The U.S. Securities and exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered Offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering “ it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Although Investors will have no right to voluntarily withdraw capital from the Company or withdraw their Securities, in certain circumstances they may be forced to withdraw from the Company.

An Investor may be forced to withdraw from the Company if the Company reasonably determines that it is necessary or desirable to do so in order to comply with applicable law or

regulations, or to avoid a material adverse effect on the Company or the other holders of securities in the Company.

Investors will have no right to control the Company's operations.

The Investors will have no opportunity to control the day-to-day operations of the Company, including, without limitation, the investment and disposition decisions of the Portfolio Companies. In order to safeguard your limited liability for the liabilities and obligations of the Company, you must rely entirely on the Manager and Principals to conduct and manage the business affairs of the Company

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

The Company may never undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never undergo a liquidity event such as a repurchase of the Securities by the Company, a sale of the Company or an initial public or coin offering. If a liquidity event does not occur, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities have no voting rights or ability to direct the Company or its actions.

The Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company's equity securities will be subject to dilution. The Company may issue additional equity to third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's economic interests in the Company. The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional

financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

The Securities may be substantially different from other equity securities offered or issued by the Company.

The Securities may be materially different from the other equity securities of the Company in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. The Securities may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred membership interests, have been paid in full. Neither holders of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

xCraft Enterprises, Inc. ("Company") is offering securities under Regulation CF, through PicMii Crowdfunding LLC ("PicMii"). PicMii is a FINRA/SEC registered funding portal and will receive cash compensation equal to:

- \$1,500.00 payable to PicMii upon the commencement of each Campaign.
- Upon the successful completion of each Campaign:
 - 4.0% of the funding amount raised from \$0 - \$500,000 (to be deducted from your proceeds by the Escrow Holder and paid to PicMii),
 - 3.0% of the funding amount raised from \$500,001 - \$1,000,000 (to be deducted from your proceeds by the Escrow Holder and paid to PicMii),
 - 2.0% of the funding amount raised from \$1,000,001 - \$5,000,000 (to be deducted from your proceeds by the Escrow Holder and paid to PicMii)

Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$9,993.60 and \$4,930,387.2 through an offering under Regulation CF. Specifically, if we reach the Minimum Raise Amount of \$9,993.60, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated at the issuer's discretion. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have not yet to be closed.

In the event The Company fails to reach the minimum offering amount of 9,993.60, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

7. What is the purpose of this offering?

If the maximum offering amount is raised, our anticipated use of proceeds is as follows in Question 8.

8. How does the issuer intend to use the proceeds of this offering?

Add rows as necessary to account for all ways you intend to use the proceeds of this offering.

	% of Capital if Target Offering Amount Raised	Amount if Target Offering Amount Raised	% of Capital if Maximum Offering Amount Raised	Amount if Maximum Offering Amount Raised
PicMii Platform Fee	4.0%	\$399.74	2.3%	\$111,648.39

Working Capital	0%	0%	15.7%	\$774,070.79
Total	100%	9,993.60	100%	\$4,930,387.20

**We reserve the right to change the above use of proceeds if management believes it is in the best interest of the Company.*

9. How will the issuer complete the transaction and deliver securities to the investors?

Transfer Agent - In entering into an agreement on PicMii Crowdfunding's Funding Portal to purchase securities, both investors and the Company must agree that a transfer agent, which keeps records of our outstanding Common Stock (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed) or that the Company is capable of maintaining investment records on their own. In this case, the company will be utilizing a transfer agent.

10. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering PicMii will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change

that would require an extension of the offering and reconfirmation of the investment commitment). PicMii Crowdfunding will notify investors when the target offering amount has been met. If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled, and the committed funds will be returned.

11. Can the company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

12. Describe the terms of the securities being offered.

Terms:

Up to \$4,930,387.2 in Class B Non-Voting Common Stock at \$9.60 with a minimum target amount of \$9,993.60.

Offering Minimum: \$9,993.60 | 1,041 shares of Class B Non-Voting Common Stock

Offering Maximum: \$4,930,387.2 | 513,582 shares of Class B Non-Voting Common Stock

Type of Security Offered: Class B Non-Voting Common Stock

Purchase Price of Security Offered: \$9.60

Minimum Investment Amount (per investor): \$499.20

13. Do the securities offered have voting rights? Voting Rights and Proxy:

There are no voting rights associated with Class B Non-Voting Common Stock.

14. Are there any limitations on any voting or other rights identified above?

See Question 13.

15. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be cancelled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.
- The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person. The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

16. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Amount Authorized	Amount Outstanding	Reserved Options	Reserved Warrants	Voting Rights
Class A Voting Common Stock	5,000,000	4,146,668	413,418*	207,000*	Yes
Common B Non-Voting Common Stock	5,000,000	951,474	0	7,000*	No
Preferred	2,000,000	0	N/A	N/A	N/A

*Already included in value for “Amount Outstanding”.

Options, Warrants and Other Rights

17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due by the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

As a minority holder of Class B Non-Voting Common Stock of the company, you will have no voting rights in regard to the corporate actions of the company, including additional issuances of securities, company repurchases of securities, a sale of the company or its significant assets, or company transactions with related parties. Further, investors in this offering may have rights less than those of other investors and will have limited influence on the corporate actions of the company.

19. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or

make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

20. How are the securities being offered valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

Pre-Money Valuation: \$49,011,772.8

The securities being offered are valued at the issuer's discretion. The Company has released multiple new products, eliminating most debt, launching a concerted B2B sales strategy, and breaking ground in the design of eVTOL technology. The Company is even better positioned to take advantage of the potential in the Urban Air Mobility Market as well as capitalize on their new “bread and butter” drone division. The US drone Market has increased with new opportunities due to procurement restrictions put on Chinese companies due to security vulnerabilities. The market share of the largest Chinese companies dropped from 74% in 2018 to 54% in 2021 (Source: Bloomberg). The market is growing and DJI’s drop is opening up more potential. This opens yet another door for “America’s Drone Company” to capture significant market share. For example, even if xCraft is only able to capture 3% of DJI’s loss in 2022, there is a \$60M potential.

The Company has set its valuation internally without a formal-third party independent evaluation. The pre-money valuation has been calculated on a fully diluted basis. In making this calculation, we have assumed all outstanding options and warrants are exercised.

An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the company. When the company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your shares than earlier investors did for theirs.

There are several ways to value a company, and none of them is perfect and all of them involve a certain degree of guesswork. Any of these methods, plus others, may be used to determine valuation in the future:

Liquidation Value - The amount for which the assets of the company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early stage companies do not have many assets.

Book Value - This is based on analysis of the company's financial statements, usually looking at the company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach - This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically, liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based on many assumptions about the future, while liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the company) may value the company differently. They may use a different valuation method, or different assumptions about the company's business and its market. Different valuations may mean that the value assigned to your investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the company at a lower price than the initial investors did. If this happens, the value of the investment would go down.

21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The company's Certificate of Incorporation or Bylaws can be amended by the holders of a majority of the issued and outstanding shares of the Company. As minority owners, the crowdfunding investors are subject to the decisions made by the majority owners. The issued and outstanding shares of common stock give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as, among other things: (a) the liquidation, dissolution or winding up of the company, or effecting any merger or consolidation; (b) amendment of any provision of the Certificate of Incorporation or Bylaws; (c) creation and issuance of other securities having rights, preferences or privileges senior to the common stock sold to the crowdfunding investors, or increasing the authorized number of shares of stock of the company; or (d) creation of any debt security.

22. What are the risks to purchasers associated with corporate actions including:

- 1. Additional issuances of securities**
- 2. Issuer repurchases of securities**
- 3. A sale of the issuer or of assets of the issuer**
- 4. Transactions with related parties**

The authorization and issuance of additional shares of the company's common stock will dilute the ownership of the crowdfunding investors. As a result, if the company achieves profitable operations in the future, its net income per share will be reduced because of dilution, and the market price of the company's common stock, if there is a market price, could decline as a result of the additional issuances of securities. If the company repurchases securities, so that the above risk is mitigated, and there are fewer shares of common stock outstanding, the company may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our securities would decline. A sale of the company or of all of the assets of the company may result in an entire loss of your investment. We cannot predict the market value of the company or its assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms.

23. Describe the material terms of any indebtedness of the issuer:

Creditor(s)	Amount Outstanding	Interest Rate	Maturity Date
Innovate Washington	\$180,388.00	5.0%	January 30 th , 2022
PIFCU	\$41,339.00	3.99%	June 5 th , 2027

Financial Condition of the Issuer

26. Does the issuer have an operating history?

xCraft made tremendous leaps in 2021 and is continuing that momentum by bringing on new distributors, launching numerous new drones into the market, securing new partnerships, and even achieving a 198% increase in sale revenue over 2020. We are currently in the process of growing our team, expanding our space, and much more to fulfill these large orders and solidify our identity as America's Drone Company.

Coming up this year, we plan to branch out even further, combining our technology with other groundbreaking companies on land, water, and air! Flying cars are not too far out of our reach, and we are rapidly taking large strides to bring this to fruition.

The company plans to add several new key positions in Sales, Marketing, Customer Service, and Engineering in the coming year. We are also in the process of forming at least one Joint Venture (JV) partnership with a complementary technology company this year. We have been able to lay out a roadmap for our Urban Air Mobility strategy and plan to begin rolling that out in 2022.

27. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Revenue

Revenue for 2020 was \$75,302, compared to \$680,677 in 2019.

The decrease in revenues in 2020 over 2019 is due primarily to losing a primary development client in late 2019. After utilizing most of 2020 for product development, several new products were launched in 2021 and sales began to recover in mid to late 2021 creating a 198% improvement over the previous year.

Cost of Sales

The cost of sales in 2020 was \$88,255, an increase of approximately \$75k, from the costs of \$13,458 in 2019. The increase is due to a higher volume of products sold. Gross Margins Gross profit in 2020 was -\$12,953, compared with \$667,219 in 2019. This decrease was mostly caused by the loss of the primary development client but has recovered with an improved sales strategy and several new, higher-margin products being released in 2021.

Expenses

The Company's expenses consist of, among other things, compensation and benefits, marketing and sales expenses, fees for professional services and patents, research and development expenses, and expenses of xCraft Enterprises, Inc. Total operating expenses in 2020 decreased by \$260k in 2019, from \$1,414,509 to \$1,153,120. Some of this decrease was due to a reduction of staff and contracting services during the latter part of 2020.

Historical results and cash flows:

The Company is currently in the initial production stage and is revenue-generating. We are of the opinion the historical cash flows will not be indicative of the revenue and cash flows expected for the future because the company's products and systems are in place to allow revenue and cash flow, to begin to increase.

Cash was primarily generated through equity investments and sales. Our goal is to see similar percentage increases in cash flows will occur in each of the next 2-3 years.

From that point, we anticipate a 20-50% growth rate year over year. New products have recently been brought to market with high price points and high margins. We expect our new sales initiatives to drive these increased sales.

Liquidity and Capital Resources

What capital resources are currently available to the Company? (Cash on hand, existing lines of credit, shareholder loans, etc...)

The company had approximately \$400,000 cash on hand as of January 20, 2022. The company currently has a revolving line of credit with US Bank, for a total amount available of \$41,000.

This line of credit currently has an outstanding balance of \$0. The company also has several credit cards with a total amount available of approximately \$130,000. These credit cards currently have an outstanding balance of approximately \$1,700.

How do the funds of this campaign factor into your financial resources? (Are these funds critical to your company operations? Or do you have other funds or capital resources available?)

These funds will allow the expansion of the company's operations, reach, and product offerings, but they are not critical to operations. The company has other funds and capital resources available.

Are the funds from this campaign necessary for the viability of the company? (Of the total funds that your company has, how much of that will be made up of funds raised from the crowdfunding campaign?)

Funds from this campaign are not necessary for the viability of the company but will greatly improve its financial standing. If the maximum funding goal of approximately \$5,000,000 is reached, which will equate to approximately \$4,200,000 in net proceeds, which is over 1,000% of the company's current cash on hand. This will have a tremendous positive impact on the company's ability to expand US production, boost sales and marketing, and increase R&D activities.

How long will you be able to operate the company if you raise your minimum? What expenses is this estimate based on?

If the company raises the minimum offering amount, it would be required to operate on the current cash on hand which would allow approximately 12 months of operations. This is based on the current cash on hand, monthly revenues, and average burn rate of \$102,700 for 2021.

How long will you be able to operate the company if you raise your maximum funding goal?

Last quarter's average monthly burn rate was \$166,500. The burn rate would increase with the hiring of new staff, increased R&D activities, marketing, and facilities improvements. A net increase in proceeds of approximately \$4,200,000 would allow operations for an additional 2-3 years.

Are there any additional future sources of capital available to your company? (Required capital contributions, lines of credit, contemplated future capital raises, etc...)

We have not contemplated any additional future sources of capital at this time.

28. Include the financial information specified by regulation, covering the two most recently completed fiscal years or the period(s) since inception if shorter.

See Exhibit A

29. With respect to the issuer, any predecessor of the issuer, any affiliated issuer, any director, officer, general partner or managing member of the issuer, any beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated in the same form as described in Question 6 of this Question and Answer format, any promoter

INDEPENDENT AUDITORS' REPORT

To the Shareholders of
XCraft Enterprises, Inc.

Report on the Financial Statements

We have audited the accompanying financial statements of XCraft Enterprises, Inc. which comprise of the balance sheets as of December 31, 2021 and 2020, and the related statements of income, shareholder's equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinion.

XCRAFT ENTERPRISES, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 1 –DESCRIPTION OF BUSINESS

XCraft Enterprises, Inc. was formed on September 23, 2014 ("Inception") as XCraft Enterprises, LLC. On February 28, 2017, the Company converted to a Delaware Corporation. The Company's headquarters are located in Coeur d'Alene, Idaho. The financial statements of XCraft Enterprises, Inc. (the Company).

The Company has developed uniquely designed Unmanned Aerial Vehicles ("UAV" or "Drones") which are specifically engineered to deliver vertical take-off and landing, and high efficiency and speed in their in flight performance.

NOTE 2 –SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

The Company's financial statements presented are prepared in accordance with the accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with the accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant items subject to estimates and assumptions include the carrying value of fixed asset and accounts receivables. Actual results could differ significantly from such estimates.

Cash and cash equivalents

Cash and cash equivalents consist of demand deposits at banks and highly liquid deposits at banks with an original maturity of three months or less.

Account receivables

Accounts receivable are recorded at invoiced amounts. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable balance. The Company historically has had substantially all of their accounts receivable paid in full.

XCRAFT ENTERPRISES, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fixed asset

Fixed assets are recorded as cost. Major improvements and betterments are capitalized while maintenance, repairs and minor renewals are charged to expense as incurred. Upon sale or retirement of depreciable property, the related cost and accumulated depreciation are removed from the accounts and resulting gains or losses are recognized in operations. Depreciation is computed on the straight line method.

Inventories

Inventories consist primarily of finished good products which consist primarily of Drones. Inventories are recorded at the lower of cost or market, using the first in first out method (FIFO). As of December 31, 2021 and 2020 inventories was \$95,043 and \$30,854, respectively.

Intangible Assets

Intangible assets are amortized over the respective estimated lives, unless the lives are determined to be indefinite and reviewed for impairment whenever events or other changes in circumstances indicate that the carrying amount may not be recoverable. Impairment testing companies compares carrying values to fair values and, when appropriate, the carrying value of these assets is reduced to fair value. Impairment charges, if any, are recorded in the period in which the impairment is determined.

XCRAFT ENTERPRISES, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Intangible Assets (Continued)

The Company capitalizes patent filing fees, and it expenses legal fees, in connection with internally developed pending patents. The Company also will capitalize patent defense costs to the extent these costs enhance the economic value of an existing patent. Patents are amortized over the expected period to be benefited, not to exceed the patent lives, which may be as long as 15 years. At December 31, 2021 and 2020, Intangible assets was \$80,646 and \$79,341, respectively. Amortization expense related to patent was \$6,390 and \$6,390, respectively.

Impairment of Long-Lived assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets might not be recoverable. Conditions that would necessitate an impairment assessment include a significant decline in the observable market value of an asset, a significant change in the extent or manner in which an asset is used, or a significant adverse change that would indicate that the carrying amount of an asset or group of assets is not recoverable.

For long-lived assets to be held and used, the Company recognizes an impairment loss only if its carrying amount is not recoverable through its undiscounted cash flows and measures the impairment loss based on the difference between the carrying amount and fair value.

Software

The Company applies the principle of ASC 985-20, Software Costs of Computer Software to Be Sold. ASC 985-20 requires that software development costs incurred in conjunction with product development be charged to research and development expense until technological feasibility is established. When the software is part of a product or process, not only does technological feasibility need to be established, but the associated hardware must also be out of the development stage. Software development costs include payments made to independent software developers under development agreements, as well as direct costs incurred internally. With our current technology, technological feasibility of the underlying software is not established until substantially all product development and testing is complete, which generally includes the development of a working model. Prior to a product's release, if and when we believe capitalized costs are not recoverable, we expense the amounts as part of cost of sales. To date, management has not capitalized any such costs.

XCRAFT ENTERPRISES, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Product Warranty Costs

The Company provides 30 day warranties only to ensure its products are free from defects in material or workmanship and is subject to the Company's return policy. We also provide an optional 6-month extended warranty on the motor. In estimating its future warranty obligations, the Company considers various relevant factors, including the Company's stated warranty policies and practices, the historical frequency of the claims and the cost to replace or repair its products under warranty. Historically, extended warranty sales have been negotiable, warranty costs have been minimal and the related expense has been recorded at the time the warranty service is performed; accordingly, no warranty reserve has been recorded at December 31, 2021 and 2020.

Accounting for Convertible Notes and Securities with Beneficial Conversion Features

The Company reviews the terms of convertible debt and equity instruments it issues to determine whether there are derivative financial instruments, including an embedded conversion option that is required to be bifurcated and accounted for separately as a derivative financial instrument. In circumstances where a host instrument contains more than one embedded derivative instrument, including a conversion option, that is required to be bifurcated, the bifurcated derivative instruments are accounted for as a single, compound derivative instrument. The discount from the face value of the convertible debt, together with the stated interest on the instrument, is amortized over the life of the instrument through periodic charges to interest expense, using the effective interest method.

Revenue Recognition

The Company has adopted Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, which amended *Revenue from Contracts with Customers (Topic 606)* of the Accounting Standards Codification. As part of the adoption of the new standard, the Company elected the following transition practical expedients:

- (i) to apply the new standard only to contracts that are not completed as of January 1, 2020; and
- (ii) to reflect the aggregate effect of all contract modifications prior to January 1, 2020 in identifying satisfied and unsatisfied performance obligations, determining the transaction price, and allocating the transaction price. Because contract modifications are minimal, there is not a significant impact as a result of electing these practical expedients.

XCRAFT ENTERPRISES, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition (Continued)

The Company recognizes revenue related to sales of products (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been rendered to the customer, (iii) the fee is fixed or determinable, and (iv) collectability is reasonably assured. The Company typically records revenues when the product is shipped to the customer. Taxes collected from customers and remitted to governmental authorities are presented in the statements of operations on a net basis .

Revenue recognition is deferred in all instances where the earnings process is incomplete based on the criteria listed above. Management provides for sales returns and allowances in the same period as the related revenues are recognized. Management bases their estimates on historical experience.

The Company has undertaken various pre-sale crowd funding campaigns and pre-sales through the Company's website. The pre-sale of our products through a crowd funding campaign or our website are deferred until the related product is shipped. For the years ended December 31, 2021 and 2020, the Company deferred \$497,815 and \$523,943, respectively of such pre-sales and included this in deferred revenue in the accompanying balance sheets.

Shipping and Handling Costs

Costs incurred for shipping and handling are included in cost of sales at the time the related revenue is recognized. Amounts billed to a customer for shipping and handling are reported as an increase in revenue.

Advertising

The Company expenses the cost of advertising and promotions as incurred. Advertising expenses for the years ended December 31, 2021 and 2020 was \$54,387 and \$25,407.

Research and Development

We incur research and development costs during the process of researching and developing our technologies and future offerings. Our research and development costs consist primarily of third-party product design consultants. We expense these costs as incurred until the resulting product has been completed, tested, and made ready for commercial use.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Stock Based Compensation

The Company accounts for stock options issued to employees under ASC 718 Share-Based Payment. Under ASC 718, share-based compensation cost to employees is measured at the grant date, based on the estimated fair value of the award, and is recognized as expense over the employee's requisite vesting period. The fair value of each stock option or warrant award is estimated on the date of grant using the Black-Scholes option valuation model.

The Company measures compensation expense for its non-employee stock-based compensation under ASC 505 Equity. The fair value of the option issued or committed to be issued is used to measure the transaction, as this is more reliable than the fair value of the services received. The fair value is measured at the value of the Company's common stock, option, or warrant on the date that the commitment for performance by the counterparty has been reached or the counterparty's performance is complete. Stock-based compensation totaling \$0 and \$0 was included in general and administration expense for the years ended December 31, 2021 and 2020, respectively.

Income taxes

The Company will be taxed as a corporation. Accordingly, the Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities.

XCRAFT ENTERPRISES, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income taxes (continued)

ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely than not" that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to U.S. Federal, state and local income tax examinations by tax authorities for all periods since Inception. The Company currently is not under examination by any tax authority.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be credit worthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company maintains balances in excess of the federally insured limits. As of December 31, 2021 and 2020, there was \$0 and \$0 in excess of the FDIC limit respectively.

Risks and Uncertainties

In January 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Company, its performance, and its financial results.

XCRAFT ENTERPRISES, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases

The Company has adopted the provisions of Accounting Standards Codification (“ASC”) 842, “Leases,” and its amendments. In adopting the standard, the Company used the additional, optional transition method which allows entities to initially apply the new standard by recognizing a cumulative-effect adjustment to the opening balance of retained earnings at the date of adoption. ASC 842 establishes comprehensive accounting and financial reporting requirements for leasing arrangements, supersedes the existing requirements in ASC 840, “Leases”, and requires lessees to recognize substantially all lease assets and lease liabilities on the balance sheet. Prior period amounts and disclosures were not adjusted and continue to be reported under ASC 840. In applying the new standard, there was no material impact to the financial statements.

Fair Value Measurements

The Company reports its fair value measures using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by GAAP, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are as follows:

- Level 1. Quoted prices for identical assets or liabilities in active markets to which the organization has access at measurement date.
- Level 2. Inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:
 - I. quoted prices for similar assets or liabilities in active markets;
 - II. quoted prices for identical or similar assets in markets that are not active;
 - III. observable inputs other than quoted prices for asset or liability (for example, interest rates and yield curves); and
 - IV. inputs derived principally from, or corroborated by, observable market data by correlation or by other means.
- Level 3. Unobservable inputs for asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

When available the Company measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value. The primary use of fair value measures in the financial statements is the initial measurement of cash and cash equivalents.

NOTE 4 — DEBT

Promissory Note

On June 30, 2017, the Company entered into a promissory note with a bank with a principal amount of \$35,000 at 6.25% interest per annum with the balance and accrued interest due upon maturity of June 15, 2020. This loan was used to satisfy the balance on the line of credit for which was with the same bank. On June 12, 2020, the maturity date was extended to June 15, 2021 with monthly payments of \$913. As of December 31, 2021 and 2020, \$0 and \$14,483 of this note is classified as short and long-term, respectively.

Revolving Loan Agreement

On December 28, 2017, the Company entered into a revolving loan agreement in which the lender agrees to lend a sum up to \$100,000 from time-to-time. The unpaid principal amount of an advance shall bear interest prior to its scheduled maturity date at the prevailing market rate as agreed upon between the Lender and Borrower at the time of the Advance, 6.5% at December 31, 2017. Interest prior to the scheduled maturity date shall accrue monthly on the last day of each calendar month commencing with the first of such dates to occur after the funding date and continuing until the scheduled maturity date. This agreement shall terminate on December 31, 2020. In June of 2020, the Company received its first funds of \$50,000 from this revolving loan. The revolving loan is secured by 200,000 of the Chief Executive Officers shares of Class A Common Stock common stock. NOTE 6 - STOCKHOLDERS' DEFICIT (CONTINUED)

Common Stock Issuance and Sale of LLC Units (continued)

The Company commenced a Regulation Crowdfunding offering through StartEngine, a funding portal registered with the US Securities and Exchange Commission (SEC) and a member of the Financial Industry Regulatory Authority (FINRA). The Company sold 179,279 and 265,038 of Class B Common Stock for gross proceeds of \$1,411,492 and \$ 447,738 for the years ended December 31, 2021 and 2020 respectively.

Equity Incentive Plan

On February 28, 2017, the Company authorized the 2017 Equity Incentive Plan (which may be referred to as the "Plan"). The Company reserved 600,000 shares of its Class A Common Stock pursuant to the Plan. which provides for the grant of shares of stock options, stock appreciation rights, and stock awards (performance shares) to employees, non-employee directors, and non-employee consultants. The option exercise price generally may not be less than the underlying stock's fair market value at the date of the grant and generally have a term of four years. The amounts granted each calendar year to an employee or nonemployee is limited depending on the type of award. As of December 31, 2021 and 2020, 107,500 shares are still available to be issued under the Plan.

Stock Options

The Company granted 272,000 stock options under the Plan to various employees with a total grant date fair value of approximately \$369,208. The granted options had an exercise price of \$1.70, expire in ten years, and ranged from 1 year vesting, to vesting over a five-year period. The stock options were valued using the Black-Scholes pricing model with a range of inputs indicated below:

	December 31, 2021	December 31, 2020

Stock Options

The risk free interest rate assumption for granted is based upon observed interest rates on the United States government securities appropriate for the expected term of the Company's employee stock options. The expected term of the employee stock options is calculated using the simplified method which takes into considered the contractual life and vesting terms of the options.

The Company determined the expected volatility assumption for options granted using the historical volatility of comparable public company's common stock. The Company will continue to monitor peer companies and other relevant factors used to measure expected volatility for future stock option grants, until such time that the Company's common stock has enough market history to use historical volatility.

The dividend yield assumption for options granted is based on the Company's history and expectation of dividend payouts. The Company has never declared or paid any cash dividends on its common stock. and the Company does not anticipate paying any cash dividends in the foreseeable future.

Management estimated the fair value of common stock based on recent sales to third parties. Forfeitures are recognized as incurred .

A summary of the Company's stock options activity and related information is as follows:

Report on the Financial Statements

We have audited the accompanying financial statements of XCraft Enterprises, Inc. which comprise of the balance sheets as of December 31, 2020 and 2019, and the related statements of income, shareholder's equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinion.

NOTE 1 –DESCRIPTION OF BUSINESS

XCraft Enterprises, Inc. was formed on September 23, 2014 ("Inception") as XCraft Enterprises, LLC. On February 28, 2017, the Company converted to a Delaware Corporation. The Company's headquarters are located in Coeur d'Alene, Idaho. The financial statements of XCraft Enterprises, Inc. (the Company).

The Company has developed uniquely designed Unmanned Aerial Vehicles ("UAV" or "Drones") which are specifically engineered to deliver vertical take-off and landing, and high efficiency and speed in their in flight performance.

NOTE 2 –SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

The Company's financial statements presented are prepared in accordance with the accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with the accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant items subject to estimates and assumptions include the carrying value of fixed asset and accounts receivables. Actual results could differ significantly from such estimates.

Cash and cash equivalents

Cash and cash equivalents consist of demand deposits at banks and highly liquid deposits at banks with an original maturity of three months or less.

Account receivables

Accounts receivable are recorded at invoiced amounts. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable balance. The Company historically has had substantially all of their accounts receivable paid in full.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fixed asset

Fixed assets are recorded as cost. Major improvements and betterments are capitalized while maintenance, repairs and minor renewals are charged to expense as incurred. Upon sale or retirement of depreciable property, the related cost and accumulated depreciation are removed from the accounts and resulting gains or losses are recognized in operations. Depreciation is computed on the straight line method.

Inventories

Inventories consist primarily of finished good products which consist primarily of Drones. Inventories are recorded at the lower of cost or market, using the first in first out method (FIFO). As of December 31, 2020 and 2019 inventories was \$30,854 and \$88,888, respectively.

The Company has expended \$285,800 for deposits on inventory which are included in other current assets in the accompanying balance sheets for 2019. The amount was written off in 2020.

Intangible Assets

Intangible assets are amortized over the respective estimated lives, unless the lives are determined to be indefinite and reviewed for impairment whenever events or other changes in circumstances indicate that the carrying amount may not be recoverable. Impairment testing compares carrying values to fair values and, when appropriate, the carrying value of these assets is reduced to fair value. Impairment charges, if any, are recorded in the period in which the impairment is determined.

FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Intangible Assets (Continued)

The Company capitalizes patent filing fees, and it expenses legal fees, in connection with internally developed pending patents. The Company also will capitalize patent defense costs to the extent these costs enhance the economic value of an existing patent. Patents are amortized over the expected period to be benefited, not to exceed the patent lives, which may be as long as 15 years. At December 31, 2020 and 2019, Intangible assets was \$79,341 and \$85,187, respectively. Amortization expense related to patent was \$6,390 and \$6,390, respectively.

Impairment of Long-Lived assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets might not be recoverable. Conditions that would necessitate an impairment assessment include a significant decline in the observable market value of an asset, a significant change in the extent or manner in which an asset is used, or a significant adverse change that would indicate that the carrying amount of an asset or group of assets is not recoverable.

For long-lived assets to be held and used, the Company recognizes an impairment loss only if its carrying amount is not recoverable through its undiscounted cash flows and measures the impairment loss based on the difference between the carrying amount and fair value.

Software

The Company applies the principle of ASC 985-20, Software Costs of Computer Software to Be Sold. ASC 985-20 requires that software development costs incurred in conjunction with product development be charged to research and development expense until technological feasibility is established. When the software is part of a product or process, not only does technological feasibility need to be established, but the associated hardware must also be out of the development stage. Software development costs include payments made to independent software developers under development agreements, as well as direct costs incurred internally. With our current technology, technological feasibility of the underlying software is not established until substantially all product development and testing is complete, which generally includes the development of a working model. Prior to a product's release, if and when we believe capitalized costs are not recoverable, we expense the amounts as part of cost of sales. To date, management has not capitalized any such costs.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Product Warranty Costs

The Company provides 30 day warranties only to ensure its products are free from defects in material or workmanship and is subject to the Company's return policy. We also provide an optional 6-month extended warranty on the motor. In estimating its future warranty obligations, the Company considers various relevant factors, including the Company's stated warranty policies and practices, the historical frequency of the claims and the cost to replace or repair its products under warranty. Historically, extended warranty sales have been negotiable, warranty costs have been minimal and the related expense has been recorded at the time the warranty service is performed; accordingly, no warranty reserve has been recorded at December 31, 2020 and 2019.

Accounting for Convertible Notes and Securities with Beneficial Conversion Features

The Company reviews the terms of convertible debt and equity instruments it issues to determine whether there are derivative financial instruments, including an embedded conversion option that is required to be bifurcated and accounted for separately as a derivative financial instrument. In circumstances where a host instrument contains more than one embedded derivative instrument, including a conversion option, that is required to be bifurcated, the bifurcated derivative instruments are accounted for as a single, compound derivative instrument. The discount from the face value of the convertible debt, together with the stated interest on the instrument, is amortized over the life of the instrument through periodic charges to interest expense, using the effective interest method.

Revenue Recognition

The Company has adopted Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, which amended *Revenue from Contracts with Customers (Topic 606)* of the Accounting Standards Codification. As part of the adoption of the new standard, the Company elected the following transition practical expedients:

- (i) to apply the new standard only to contracts that are not completed as of January 1, 2019; and
- (ii) to reflect the aggregate effect of all contract modifications prior to January 1, 2019 in identifying satisfied and unsatisfied performance obligations, determining the transaction price, and allocating the transaction price. Because contract modifications are minimal, there is not a significant impact as a result of electing these practical expedients.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition (Continued)

The Company recognizes revenue related to sales of products (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been rendered to the customer, (iii) the fee is fixed or determinable, and (iv) collectability is reasonably assured. The Company typically records revenues when the product is shipped to the customer. Taxes collected from customers and remitted to governmental authorities are presented in the statements of operations on a net basis.

Revenue recognition is deferred in all instances where the earnings process is incomplete based on the criteria listed above. Management provides for sales returns and allowances in the same period as the related revenues are recognized. Management bases their estimates on historical experience.

The Company has undertaken various pre-sale crowd funding campaigns and pre-sales through the Company's website. The pre-sale of our products through a crowd funding campaign or our website are deferred until the related product is shipped. For the years ended December 31, 2020 and 2019, the Company deferred \$523,943 and \$536,722, respectively of such pre-sales and included this in deferred revenue in the accompanying balance sheets.

Shipping and Handling Costs

Costs incurred for shipping and handling are included in cost of sales at the time the related revenue is recognized. Amounts billed to a customer for shipping and handling are reported as an increase in revenue.

Advertising

The Company expenses the cost of advertising and promotions as incurred. Advertising expenses for the years ended December 31, 2020 and 2019 was \$25,407 and \$20,412.

Research and Development

We incur research and development costs during the process of researching and developing our technologies and future offerings. Our research and development costs consist primarily of third-party product design consultants. We expense these costs as incurred until the resulting product has been completed, tested, and made ready for commercial use.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Stock Based Compensation

The Company accounts for stock options issued to employees under ASC 718 Share-Based Payment. Under ASC 718, share-based compensation cost to employees is measured at the grant date, based on the estimated fair value of the award, and is recognized as expense over the employee's requisite vesting period. The fair value of each stock option or warrant award is estimated on the date of grant using the Black-Scholes option valuation model.

The Company measures compensation expense for its non-employee stock-based compensation under ASC 505 Equity. The fair value of the option issued or committed to be issued is used to measure the transaction, as this is more reliable than the fair value of the services received. The fair value is measured at the value of the value of the Company's common stock, option, or warrant on the date that the commitment for performance by the counterparty has been reached or the counterparty's performance is complete. Stock-based compensation totaling \$0 and \$0 was included in general and administration expense for the years ended December 31, 2020 and 2019, respectively.

Income taxes

The Company will be taxed as a corporation. Accordingly, the Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities.

FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income taxes (continued)

ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely than not" that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to U.S. Federal, state and local income tax examinations by tax authorities for all periods since Inception. The Company currently is not under examination by any tax authority.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be credit worthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company maintains balances in excess of the federally insured limits. As of December 31, 2020 and 2019, there was \$0 and \$0 in excess of the FDIC limit respectively.

Risks and Uncertainties

In January 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Company, its performance, and its financial results.

Leases

The Company has adopted the provisions of Accounting Standards Codification (“ASC”) 842, “Leases,” and its amendments. In adopting the standard, the Company used the additional, optional transition method which allows entities to initially apply the new standard by recognizing a cumulative-effect adjustment to the opening balance of retained earnings at the date of adoption. ASC 842 establishes comprehensive accounting and financial reporting requirements for leasing arrangements, supersedes the existing requirements in ASC 840, “Leases”, and requires lessees to recognize substantially all lease assets and lease liabilities on the balance sheet. Prior period amounts and disclosures were not adjusted and continue to be reported under ASC 840. In applying the new standard, there was no material impact to the financial statements.

Recent Pronouncements Not Yet Adopted

In December 2019, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2019-12, “Simplifying the Accounting for Income Taxes.” The ASU intends to enhance and simplify aspects of the income tax accounting guidance in ASC 740, “Income Taxes” as part of the FASB’s simplification initiative. This guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2020 with early adoption permitted. The Company is currently evaluating the impact this guidance may have on our the Financial Statements.

Fair Value Measurements

The Company reports its fair value measures using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by GAAP, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are as follows:

- Level 1. Quoted prices for identical assets or liabilities in active markets to which the organization has access at measurement date.
- Level 2. Inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:
 - I. quoted prices for similar assets or liabilities in active markets;
 - II. quoted prices for identical or similar assets in markets that are not active;
 - III. observable inputs other than quoted prices for asset or liability (for example, interest rates and yield curves); and
 - IV. inputs derived principally from, or corroborated by, observable market data by correlation or by other means.
- Level 3. Unobservable inputs for asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

When available the Company measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value. The primary use of fair value measures in the financial statements is the initial measurement of cash and cash equivalents.

The Company sold 265,038 and 32,097 of Class B Common Stock for gross proceeds of \$447,738 and \$294,831 for the years ended December 31, 2020 and 2019 respectively.

Equity Incentive Plan

On February 28, 2017, the Company authorized the 2017 Equity Incentive Plan (which may be referred to as the "Plan"). The Company reserved 600,000 shares of its Class A Common Stock pursuant to the Plan, which provides for the grant of shares of stock options, stock appreciation rights, and stock awards (performance shares) to employees, non-employee directors, and non-employee consultants. The option exercise price generally may not be less than the underlying stock's fair market value at the date of the grant and generally have a term of four years. The amounts granted each calendar year to an employee or nonemployee is limited depending on the type of award. As of December 31, 2020 and 2019, 107,500 shares are still available to be issued under the Plan.

Stock Options

The Company granted 272,000 stock options under the Plan to various employees with a total grant date fair value of approximately \$369,208. The granted options had an exercise price of \$1.70, expire in ten years, and ranged from 1 year vesting, to vesting over a five-year period. Stock Options

The risk free interest rate assumption for granted is based upon observed interest rates on the United States government securities appropriate for the expected term of the Company's employee stock options. The expected term of the employee stock options is calculated using the simplified method which takes into considered the contractual life and vesting terms of the options.

The Company determined the expected volatility assumption for options granted using the historical volatility of comparable public company's common stock. The Company will continue to monitor peer companies and other relevant factors used to measure expected volatility for future stock option grants, until such time that the Company's common stock has enough market history to use historical volatility.

The dividend yield assumption for options granted is based on the Company's history and expectation of dividend payouts. The Company has never declared or paid any cash dividends on its common stock, and the Company does not anticipate paying any cash dividends in the foreseeable future.

Management estimated the fair value of common stock based on recent sales to third parties. Forfeitures are recognized as incurred.

A summary of the Company's stock options activity and related information is as follows:

NOTE 6 - STOCKHOLDERS' DEFICIT (CONTINUED)

Warrants (Continued)

In 2017, the Company granted 207,000 warrants to various advisors exercisable into 207,000 shares of common stock. The granted warrants had an exercise price of \$0.01 to \$1.70 and expire in ten years. Of the warrants issued, 7,000 vest immediately, and 200,000 vest upon options being exercised under the 2017 Equity Incentive Plan at a ratio of one (1) warrant for every four (4) shares being issued. As of December 31, 2020 and 2019, it is not probable the warrants will vest and therefore no compensation expense has been recognized. The 7,000 warrant were valued using the Black-Scholes pricing model as indicated below:

	December 31, 2020	December 31, 2019
Expected Life (years)	10	10
Risk-free interest rate	0.95%	0.95%
Expected volatility	75%	75%
Annual dividend yield	0%	0%

The warrants were valued similar to the stock options disclosed above. During the years ended December 31, 2020 and 2019, the Company expensed \$0 and \$0 related to these warrants respectively.

Business Description

OVERVIEW:

xCraft develops technology that powers the future of autonomous flight. With a launch on ABC's Shark Tank, xCraft has become "America's Drone Company" creating an arsenal of innovative, patented drone systems that have forever changed the UAV landscape. Now our products are launching into a marketplace full of demand for the solutions we've crafted.

xCraft appeared on Shark Tank and was approved by all five celebrity investors. Following our debut on the show, we were featured in multiple major press outlets including VentureBeat, Inc.com, Fortune, Business Insider, MarketWatch, UAS Magazine, Fast Company, and TechCrunch.

At xCraft, we are on a mission to develop powerful flying robots that change the world. Our vision is to better the planet and bring value to people's lives by cultivating love, personal fulfillment, and innovation. We take pride in being leaders in American technological innovation, as we strive to surpass our customers' expectations while delivering undeniable value. We expect excellence, the measure by results, and value character as a core trait in each of our team members.

xCraft has proven its staying power, after nearly 8 years of disrupting the drone industry. Our innovative, patented drone technology is outperforming our competitors and solving some of the world's biggest challenges.

At xCraft, we are on a mission to develop powerful flying robots that change the world. Our vision is to better the planet and bring value to people's lives by cultivating love, personal fulfillment, and innovation. We take pride in being leaders in American technological innovation, as we strive to surpass our customers' expectations while delivering undeniable value. We expect excellence, the measure by results, and value character as a core trait in each of our team members.

xCraft has proven its staying power, after nearly 8 years of disrupting the drone industry. Our innovative, patented drone technology is outperforming our competitors and solving some of the world's biggest challenges.

As "America's Drone Company", we see it as our mission to bring better, more efficient, life-saving solutions to the drone industry. Over our last Reg A+ campaigns and two Reg CF campaigns, we raised approximately \$4.3M which enabled us to develop three new game-changing drone systems. Our company's investors include over 5,000 shareholders. We hope you'll join us, too, as we move into our next phase of innovation and continue to bring life-changing technology to the market.

XCRAFT PARTNERS WITH T-MOBILE: THE SKY IS THE LIMIT!

xCraft Enterprises, "America's Drone Company", has entered into a partnership with T-Mobile as part of T-Mobile's Business Partner Program. As a result of this partnership, xCraft is broadening its offerings to include 5G services for enterprise, public safety, government and other key business segments. xCraft believes that its UAS solutions combined with T-Mobile's nationwide 5G network will create manifold broadband opportunities for businesses around the country and around the world.

5G technology really ups the ante for drone capabilities. Under less robust communications technologies, drones have to rely upon point-to-point communication links, which can occasionally result in signals being lost—which means that drone pilots cannot operate their drones optimally.

But with 5G's reliability and reach, communication between drones and ground pilots will be seamless, critical for real-time camera feeds. xCraft's UAVs will have the capability to respond more quickly to commands, even when working in crowded environments where communication avenues might otherwise be congested, and even in situations in which drone pilots are unable to maintain line of sight. This gives drones a greater effective range for carrying out critical functions. This technology also enables drones to operate in GPS-denied spaces by relying instead on camera information to accurately pinpoint where a drone is in real-time.

xCraft's partnership with T-Mobile carries tremendous promise for expanding the utility and reliability of xCraft drones for mapping, inspection, surveillance, and reconnaissance across a broad spectrum of industries.

OUR INNOVATIONS
Our products stand
out in major markets

Problem

There is a shortage of innovation and improvements in the drone industry that xCraft is revolutionizing. Drones expand the reach of the human race, enabling us to quickly deliver life-saving medications, search and rescue more efficiently, safely spot wildfires, and even communicate in areas without cellular reception. But, prior to xCraft, there was a gap in the market for high-quality UAV that fly extremely fast and far, while communicating with their counterparts.

THE PROBLEM
There is a shortage of
innovation and improvement

Solution

The solution is introducing our efficient, unique, and patented technology into the marketplace. xCraft's patented technologies are taking the drone industry to new heights. Our team provides valuable products to critical markets such as agriculture, defense, public safety, mining, and construction. xCraft's unique drones are designed to outperform our competitors. These technologies, among others still in development, will also be used in the Urban Air Mobility (UAM) market.

Business Model

We sell our products to various industries such as Public Safety, Surveying & Mapping, Defense, and Mining & Construction.

Public Safety

xCraft is committed to providing state-of-the-art technology to improve public safety. Our current solutions include the PANADRONE, SHADOW, MATRIX SE, and the NANO ONE.

These drones are becoming invaluable tools in firefighting, rescue services, and law enforcement. This incredible aerial imaging technology is being used in more industries every day, but its value as a safety tool is also starting to be widely recognized.

Whether employed in disaster response or as part of a search and rescue mission, the many benefits of using drones are clear. Models like the xCraft Panadrone can quickly scan wide areas, record threats using high-resolution imagery, and give first responders immediate data to work with when allocating personnel and resources.

Whether employed in disaster response or as part of a search and rescue mission, the many benefits of using drones are clear. Models like the xCraft Panadrone can quickly scan wide areas, record threats using high-resolution imagery, and give first responders immediate data to work with when allocating personnel and resources.

Combined with other technology such as thermal sensors, drones can also locate missing persons in remote locations in a fraction of the time it would take an on-the-ground search-and-rescue crew.

Surveying & Mapping

The geospatial industry is constantly looking for ways to improve data collection and accuracy. The addition of new UAV technology has become a mainstay factor adding to the speed of data collection and pinpoint accuracy.

xCraft technology harnesses the advancements of data collection sensors and the GNSS (Global Navigation Satellite System) to deliver high-quality mapping and surveying results. Our long-range, fully autonomous UAV platforms are pushing the edge of UAV technology in the Surveying and Mapping industry.

Defense

xCraft strives to support the military with low-cost, rugged, and simple drone operations to successfully support a large spectrum of conflict.

These operations can support:

1. ISR Intelligence
2. Surveillance
3. Reconnaissance
4. Target or Enemy Identification
5. Tracking
6. Counter-Explosive Hazards
7. Combat Support & Sustainment

In addition, we secure greater interoperability among system-controlled communications, data products, data links, and payloads/mission-equipped packages on UAVs.

xCraft UAV capabilities and new developments in technologies enable missions to be more effective with reduced risk. xCraft designs, implementation, and development of UAVs can significantly augment a mission's outcome. The reduction of casualties is our main focus; we have minimized the soldier's workload, vulnerability, and exposure to the enemy.

Mining & Construction

The use of mining drones has revolutionized the way large mine sites and quarries oversee their operations. Unlike traditional surveying methods, our drones are able to provide exceedingly quick and accurate data across a large territory. This dynamic, real-time data collection also facilitates communication between workers on the ground and management at other sites.

Our drones are equipped with downward-facing cameras that are able to capture highly detailed images of a mining site from a variety of angles. The resulting models and images allow precise calculation of stockpile values and the amount of material that can be moved. Additionally, these images help managers pinpoint safety concerns that might affect workers at any given work site.

OUR INDUSTRY PARTNERS
We are disrupting industries
with unique design

Market Projection

The drone industry is an extremely fast-growing and multi-million dollar market. The global urban air mobility market is projected to reach USD \$86.83 Billion by 2035, while the commercial drone market size is projected to reach USD \$35.4 Billion by 2026. Meanwhile, the military drone market is expected to reach USD \$21.76 Billion by 2026.

Competition

There are several companies that build and sell competing UAS products. The most notable among them is Chinese-based, DJI. DJI's products serve mostly the consumer market but also several key verticals in the commercial space including public safety and cinematography. DJI has recently struggled to overcome a broad distrust, especially in the US and (Non-Chinese) government markets over security and privacy issues. We see this as an opportunity to capitalize since our products are developed and manufactured in the USA.

Another, more direct US competitor is Skydio. Skydio builds UAS products with advanced obstacle avoidance and image tracking capability. These vehicles serve a target niche in the consumer and public safety space. Other competitors include France-based Parrot, AeroVironment, and Birds Eye View Robotics.

The global unmanned aerial vehicle (UAV) market was valued at USD 18,857.47 million in 2018 and is expected to reach USD 36,661.34 million in 2026, growing at a CAGR of 8.59% during the forecast period.

Traction & Customers

xCraft appeared on Shark Tank and was approved by all five celebrity investors. Following our debut on the show, we were featured in multiple major press outlets including VentureBeat, Inc.com, Fortune, Business Insider, MarketWatch, UAS Magazine, Fast Company, and TechCrunch.

Here's a look at our product pipeline:

Matrix RTK

The innovative solution for surveying and mapping.

Everything you need to begin capturing high-res mapping images is included in the MATRIX RTK Package. We designed the MATRIX RTK to be a one-stop solution for surveyors and engineers. We have developed a GPS bay station to be used alongside the MATRIX RTK to achieve autonomous route precision down to centimeters.

We are currently developing an image stitching software that would allow high-res mapping images taken during a flight to be stitched and processed in a fraction of the time it takes currently.

Nano One

Bringing state-of-the-art surveillance to security and defense departments

Providing the modern foot soldier with an ultra-portable, immediately deployable EO and IR micro UAS for real-time situational awareness. The xCraft NANO ONE is a rugged, American-Made platform with extended 30-minute endurance and best-in-class wind and rain tolerance. Simple and intuitive operation in GPS or GPS-denied Environments, Auto Return, and Lost Link failsafe features preserve mission success when it matters most.

Shadow

xCraft's Shadow V2.0 is a portable, unmanned aerial system capable of 24hr+ tethered flight at altitudes of up to 100ft.

The UAS optionally integrates seamlessly with a secure Rajant Mesh communication network as a relay node and offers real-time streaming HD video, making it a valuable asset for any situation requiring secure pop-up surveillance and/or communication.

Set up is as easy as plugging in the 120/240VAC tether and sending the launch command through the controller. Pre-loaded flight stabilization software keeps the UAS hovering above the launch point at a fixed altitude, adjusting for wind (up to 30 knots or 34 mph) and light rain. When the mission is complete, a simple "land" command transmitted through the controller returns the UAS to the ground, where it can be unplugged, packed, and ready for transport in minutes. The system includes an emergency backup power system that will safely return the UAS to the ground in the event of a primary power system failure.

Matrix SE

Five Pound Payload. American-Made Workhorse.

The MATRIX SE is powerful and efficient. It comes with an SUI Controller and an Android tablet. Depending on what you need, the Matrix SE has options. Easily swap payloads to meet your desired outcome. 4K camera with 3.5X zoom, LIDAR, Thermal, IR, EO, and Multispectral payloads are available.

Maverick Mapper

Maximizing scouting efficiency and accuracy

For quick and thorough surveying and scouting, we recommend the Maverick Mapper. It can autonomously map a 40-acre area in a quick, 25-minute flight. The Mapper comes with a Skydroid controller that's compatible with any iOS or Android phone or tablet.

Subscription Agreement

xCraft Enterprises, Inc. Class B Common Stock Subscription Agreement

The undersigned ("**Subscriber**") hereby tenders this subscription ("**Subscription Agreement**") to xCraft Enterprises, Inc. a Delaware Corporation (the "**Company**"), on the terms and conditions set forth below:

1. **Subscription.** Subject to the terms and conditions of this Subscription Agreement, Subscriber hereby: (a) subscribes to purchase from the Company the number of shares of Class B Common Stock of the Company (the "**Class B Common Stock**") set forth on the signature page of this Subscription Agreement (the "**Shares**"); and (b) agrees to pay to the Company, upon Subscriber's execution of this Subscription Agreement, an amount equal to \$9.60 per Share (the "**Purchase Price**"), via check, wire transfer, ACH, or Debit/Credit Card to the Company.

a. By executing this Subscription agreement, Subscriber acknowledges that Subscriber has received this Subscription agreement, a copy of the Offering Statement filed with the SEC and any other information required by the Subscriber to make an investment decision.

b. The aggregate number of Securities sold shall not exceed 513,582 shares (the "Oversubscription Offering"). The Company may accept subscriptions until April 30th, 2023, (the "Offering Deadline"). Provided that subscriptions for 1,041 shares (\$10,000 in investments) are received (the "Target Offering Amount"), the Company may elect at any time to close all or any portion of this offering, on various dates at or prior to the Offering Deadline (each a "Closing Date").

2. **Acceptance.** The Company has the right to accept or reject Subscriber's subscription in its sole and absolute discretion. The subscription will be accepted only when the Company countersigns this Subscription Agreement. Subscriber understands and agrees that, if this Subscription Agreement is accepted, it may not be cancelled, revoked or withdrawn by Subscriber. If this offer to buy Shares is rejected by the Company or is withdrawn by Subscriber in writing prior to acceptance by the Company, such portion of the Purchase Price as has been received by the Company in connection with this Subscription Agreement will be returned to Subscriber without interest, and Subscriber will cease to have any interest in, or rights with respect to, the Shares.

3. **Purchase Procedure.**

a. **Payment.** The purchase price for the Securities shall be paid simultaneously with the execution and delivery to the Company of the signature page of this Subscription Agreement, which signature and delivery may take place through digital online means. Subscriber shall deliver a signed copy of this Subscription Agreement, along with payment for the aggregate purchase price of the Securities in accordance with the online payment process established by the intermediary.

b. **Escrow arrangements.** Payment for the Securities shall be received by Enterprise Bank & Trust (the "Escrow Agent") from the undersigned by transfer of immediately available funds or other means approved by the Company prior to the applicable closing. Upon such Closing, the

Escrow Agent shall release such funds to the Company. The undersigned shall receive notice upon Closing.

4. Representations, Warranties and Agreements. Subscriber makes the following representations, warranties, acknowledgments and agreements in order to induce the Company to accept this subscription:

(a) Authorization. Subscriber has full power and authority to enter into this Subscription Agreement, and when executed and delivered by Subscriber, will constitute valid and legally binding obligations of Subscriber, enforceable in accordance with their terms, except as limited by applicable bankruptcy, insolvency, reorganization, moratorium, fraudulent conveyance and any other laws of general application affecting enforcement of creditors' rights generally, and as limited by laws relating to the availability of specific performance, injunctive relief or other equitable remedies.

(b) Purchase Entirely for Own Account. This Subscription Agreement is made with Subscriber in reliance upon Subscriber's representation to the Company, which by Subscriber's execution of this Subscription Agreement, Subscriber hereby confirms, that the Shares to be acquired by Subscriber will be acquired for investment for Subscriber's own account, not as a nominee or agent, and not with a view to the resale or distribution of any part thereof, and that Subscriber has no present intention of selling, granting any participation in, or otherwise distributing the same in violation of applicable securities laws. By executing this Subscription Agreement, Subscriber further represents that Subscriber does not presently have any contract, undertaking, agreement or arrangement with any person or entity to sell, transfer or grant participations to such person or entity or to any third person or entity, with respect to any of the Shares. In an entity, Subscriber has not been formed for the specific purpose of acquiring the Shares.

(c) Disclosure of Information. Subscriber and his, her or its attorneys and/or advisors have had an opportunity to obtain information concerning the Company and have had an opportunity to ask questions of and receive answers from authorized representatives of the Company concerning the Company, the offering and sale of the Shares and any other relevant matters pertaining to this investment, and in all instances have been afforded the opportunity to obtain such additional information as necessary to verify the accuracy of the information that was otherwise provided.

Subscriber has read the Offering Statement. Subscriber understands that the Company is subject to all the risks that apply to early-stage companies, whether or not those risks are explicitly set out in the Offering Statement. Subscriber acknowledges that except as set forth herein, no representations or warranties have been made to Subscriber, or to Subscriber's advisors or representative, by the Company or others with respect to the business or prospects of the Company or its financial condition.

(d) Restricted Securities. Subscriber understands that the Shares have not been, and will not be, registered under the Securities Act, by reason of a specific exemption from the registration provisions of the Securities Act which depends upon, among other things, the bona fide nature of the investment intent and the accuracy of Subscriber's representations as expressed herein.

Subscriber understands that the Shares are “restricted securities” under applicable U.S. federal and state securities laws and that, pursuant to these laws, Subscriber must hold the Shares indefinitely unless they are registered with the Securities and Exchange Commission and qualified by state authorities, or an exemption from such registration and qualification requirements is available. Subscriber acknowledges that the Company has no obligation to register or qualify the Shares for resale. Subscriber further acknowledges that if an exemption from registration or qualification is available, it may be conditioned on various requirements including, but not limited to, the time and manner of sale, the holding period for the Shares, and on requirements relating to the Company which are outside of Subscriber’s control, and which the Company is under no obligation and may not be able to satisfy.

(e) Illiquidity and Continued Economic Risk. Subscriber acknowledges and agrees that there is no ready public market for the Securities and that there is no guarantee that a market for their resale will ever exist. Subscriber must bear the economic risk of this investment indefinitely and the Company has no obligation to list the Securities on any market or take any steps (including registration under the Securities Act or the Securities Exchange Act of 1934, as amended) with respect to facilitating trading or resale of the Securities. Subscriber acknowledges that Subscriber is able to bear the economic risk of losing Subscriber’s entire investment in the Securities. Subscriber also understands that an investment in the Company involves significant risks and has taken full cognizance of and understands all of the risk factors relating to the purchase of Securities.

Subscriber is aware of the adoption of Rule 144 by the Securities and Exchange Commission under the Securities Act, which permits limited public resales of securities acquired in a non-public offering, subject to the satisfaction of certain conditions, including (without limitation) the availability of certain current public information about the issuer, the resale occurring only after the holding period required by Rule 144 has been satisfied, the sale occurring through an unsolicited "broker's transaction," and the amount of securities being sold during any three-month period not exceeding specified limitations. Subscriber acknowledges and understands that the conditions for resale set forth in Rule 144 have not been satisfied and that the Company has no plans to satisfy these conditions in the foreseeable future.

Subscriber agrees that during the one-year period beginning on the date on which it acquired Securities pursuant to this Subscription Agreement, it shall not transfer such Securities except:

- (i) To the Company;
- (ii) To an “accredited investor” within the meaning of Rule 501 of Regulation D under the Securities Act
- (iii) As a part of an offering registered under the Securities Act with the SEC; or
- (iv) To a member of the Subscriber’s family or the equivalent, to a trust controlled by the Subscriber, to a trust created for the benefit of a member of the family of the Subscriber or equivalent, or in connection with the death or divorce of the Subscriber or other similar circumstance.

(f) No Violations. Subscriber will not sell, transfer, or otherwise dispose of the Shares in violation of this Subscription Agreement, the Securities Act, the Securities Exchange Act of 1934, or the rules promulgated thereunder, including Rule 144 under the Securities Act.

(g) Securities Law Restrictions. Regardless of whether the offering and sale of Shares under this Subscription Agreement have been registered under the Securities Act or have been registered or qualified under the securities laws of any state, the Company at its discretion may impose restrictions upon the sale, pledge or other transfer of the Shares (including the placement of appropriate legends on stock certificates, if any, or the imposition of stop-transfer instructions) if, in the judgment of the Company, such restrictions are necessary or desirable in order to achieve compliance with the Securities Act, the securities laws of any state or any other law.

(h) Rights of the Company. The Company shall not be required to (i) transfer on its books any Shares that have been sold or transferred in contravention of this Subscription Agreement or (ii) treat as the owner of Shares, or otherwise to accord voting, dividend or liquidation rights to, any transferee to whom Shares have been transferred in contravention of this Subscription Agreement.

(i) No Public Market. Subscriber understands that no public market now exists for the Shares, and that the Company has made no assurances that a public market will ever exist for the Shares.

(j) Legends. Subscriber understands that the Shares are issued and issuable in uncertificated form, but that the Board of Directors of the Company may authorize the issuance of stock certificates at any time, and if so authorized, such stock certificates representing the Shares will bear such legend as the Board of Directors of the Company then determines appropriate, including the following example legend:

"THE SHARES REPRESENTED BY THIS CERTIFICATE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933 AND HAVE BEEN ACQUIRED FOR INVESTMENT AND NOT WITH A VIEW TO, OR IN CONNECTION WITH, THE SALE OR DISTRIBUTION THEREOF. NO SUCH TRANSFER MAY BE EFFECTED WITHOUT AN EFFECTIVE REGISTRATION STATEMENT RELATED THERETO OR AN OPINION OF COUNSEL IN A FORM SATISFACTORY TO THE COMPANY THAT SUCH REGISTRATION IS NOT REQUIRED UNDER THE SECURITIES ACT OF 1933."

(k) Investor Limits. Subscriber is either an accredited investor as defined in Rule 501(a) of Regulation D promulgated under the Securities Act or is investing within their investor limits as defined in 4(a)(6) of Regulation CF.

(l) Speculative Investment. Subscriber is aware that an investment in the Shares is highly speculative and Subscriber could lose his, her or its entire investment and Subscriber's financial condition is such that Subscriber is able to bear the economic risks of investment in the Shares, including the risk of loss of Subscriber's entire investment in the Shares should the Shares become worthless, taking into consideration the limitations on resale of the Shares.

(m) Financial Experience. Subscriber, by reason of his, her or its business or financial experience or by reason of the business or financial experience of his, her or its 4 financial advisor is capable of evaluating the risks and merits of an investment in the Shares and of protecting his, her or its own interests in connection with this investment.

(n) Residence. If Subscriber is an individual, then Subscriber resides in the state identified in the address of Subscriber set forth on the signature page of this Subscription Agreement; if Subscriber is a partnership, corporation, limited liability company or other entity, then the office or offices of Subscriber in which its principal place of business is identified in the address or addresses of Subscriber set forth on the signature page of this Subscription Agreement.

(o) Indemnification. Subscriber agrees to indemnify, defend and hold harmless the Company and its shareholders, directors, officers, employees, agents and representatives from and against all damages, losses, costs and expenses (including reasonable attorneys' fees) which they may incur by reason of the failure of Subscriber to fulfill any of the terms or conditions of this Subscription Agreement, or by reason of or attributable to any breach of the representations and warranties made by Subscriber herein, or in any document provided by Subscriber to the Company or the fact that any of such representations and warranties or acknowledgments and understandings set forth herein or therein are untrue or without adequate factual basis to be considered true and not misleading.

(p) Choice of Law. This Subscription Agreement, its construction and the determination of any rights, duties or remedies of the parties arising out of, or relating to, this Subscription Agreement shall be governed by the internal laws of the State of Delaware.

(q) Entire Agreement. The terms of this Subscription Agreement are intended by the parties as the final expression of their agreement with respect to the terms included in this Subscription Agreement and may not be contradicted by evidence of any prior or contemporaneous agreement, arrangement, understanding, representations, warranties, covenants, or negotiations (whether oral or written).

(r) No Waiver. No waiver or modification of any of the terms of this Subscription Agreement shall be valid unless in writing. No waiver of a breach of, or default under, any provision of this Subscription Agreement shall be deemed a waiver of such provision or of any subsequent breach or default of the same or similar nature or of any other provision or condition of this Subscription Agreement.

(s) Counterparts. This Subscription Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

(t) Electronic Execution. A signed copy of this Subscription Agreement, including in Portable Digital Format (.pdf) or other digital format, delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Subscription Agreement.

(u) Expenses. Each party shall pay all of the costs and expenses that it incurs with respect to the negotiation, execution, delivery, and performance of this Subscription Agreement.

(v) Survival. All representations, warranties and covenants contained in this Subscription Agreement shall survive acceptance of the subscription.

(w) Gender and Number. Terms used in this Subscription Agreement in any gender or in the singular or plural include other genders and the plural or singular, as the context may require. If Subscriber is an entity, all reference to "him" and "his" or "her" and "hers" shall be deemed to include "it" or "its" and vice versa.

(x) Foreign Investors. If Subscriber is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), Subscriber hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation to subscribe for the Securities or any use of this Subscription Agreement, including (i) the legal requirements within its jurisdiction for the purchase of the Securities, (ii) any foreign exchange restrictions applicable to such purchase, (iii) any governmental or other consents that may need to be obtained, and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, redemption, sale, or transfer of Securities. Subscriber's subscription and payment for and continued beneficial ownership of the Securities will not violate any applicable securities or other laws of the Subscriber's jurisdiction.

Subscriber maintains Subscriber's domicile (and is not a transient or temporary resident) at the address shown on the signature page.
