#### RISK FACTORS

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Larger competitor may come with more aggressive price or larger offering including full service and operations. this will impact our forecasted sales. Our business plan rely mostly on keeping our largest customer which represents more than 2/3 of the sales.

Tariff with China may increase and lower the profit due to higher tax even if we still have the lowest cost in the industry

Additional certification may be needed to meet certain states requirement or environment regulation which may add delay and cost

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to elect the Company's officers.

direct the Company or its actions.

*INSTRUCTION TO QUESTION 8: Avoid generalised statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.*

### Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

#### Overview

We develop and distribute cutting edge micro-baking technology in the form of a unique vending machine that can be easily set up in a variety of high-traffic locations. The machine quickly delivers warm, fresh-baked products using French artisan recipes. Target markets include universities, corporate offices, hospitals, hotels, transportation hubs, and retailers who are looking to provide a gourmet alternative to standard packaged snacks.

We hope to be the leader in micro-baking vending technology and the best option for fast and convenient quality food. We hope to sell and manage over 10,000 vending machines in major retail outlets (7/11, Starbucks), universities, hotels, airports, and more.

#### Milestones

Le Bread Xpress, Inc. was incorporated in the State of California in June 2015.

Since then, we have:

- We are starting to generate revenue (\$130,000 in Q3 2019)
- 10 machines are on order, with contractual option to sell 65 additional machines within the next 6 months

- \$600,000 raised

#### Historical Results of Operations

#### Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

#### Liquidity & Capital Resources

To-date, the company has been financed with \$267,500 in debt and \$677,000 in SAFEs.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 18 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 18 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

#### Runway & Short/Mid Term Expenses

Le Bread Xpress, Inc. cash in hand is \$100,000, as of July 2019. Over the last three months, revenues have averaged \$25,000/month, cost of goods sold has averaged \$12,000/month, and operational expenses have averaged \$33,000/month, for an average burn rate of \$20,000 per month. Our intent is to be profitable in 6 months.

We have installed 10 machines in USA and 1 in UAE. We successfully completed the proof of concept development at Tesla.

However we had to Furlough our employees due to the Covid19 pandemic. This is to reduce payroll expense. We have completed the Wefunder raise (\$160 k)

We expect a new order from UAE foundation and Aswaaq supermarket in June for 9 machines (\$220 k revenue) We also expect \$5000 revenue per months from licensing of the machine

Expense are mostly Payroll (\$20k per month)

Wefunder proceeds from crowdfunding brought \$160k and then we plan to raise up to 5M later this year

*INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.*
