Lee Cooper was my key contact providing my department with an array of learning solutions that positively impacted our performance.

Lee performed a needs analysis helping us identify our learning options, including brokering resources with other departments at JH. One of my managers attended Lee's leadership development program and she found it very effective. Lee's program helped her build skills to effectively influence and coach her direct reports. Overall I found Lee's ability and commitment to consult with me, finding innovative solutions that positively impacted my department, to be invaluable.
