Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

THE COMPANY

1. Name of issuer:

Knockaway, Inc.

COMPANY ELIGIBILITY

2. Check this box to certify that all of the following statements are true for the issuer.

- Organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia.
- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding.
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

INSTRUCTION TO QUESTION 2: If any of these statements are not true, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

Yes No

DIRECTORS OF THE COMPANY

4. Provide the following information about each director (and any persons occupying a similar status or performing a similar function) of the issuer.

Director	Principal Occupation	Main Employer	Year Joined as Director
Sean Black	CEO	Knockaway, Inc.	2015
Jamie Glenn	COO	Knockaway, Inc.	2015
Jed Nachman	COO	Yelp	2019
Dave Garland	Managing Partner	Second Century Ventures	2023
Seth Levine	Co-Founder	Foundry	2018

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

OFFICERS OF THE COMPANY

5. Provide the following information about each officer (and any persons occupying a similar status or performing a similar function) of

the issuer.

Officer	Positions Held	Year Joined
Sean Black	CEO	2015
Jamie Glenn	COO	2015

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

INSTRUCTION TO QUESTION 5: For purposes of this Question 5, the term officer means a president, vice president, secretary, treasurer or principal financial officer, comptroller or principal accounting officer, and any person that routinely performing similar functions.

PRINCIPAL SECURITY HOLDERS

6. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power.

Name of Holder	No. and Class of Securities Now Held	% of Voting Power Prior to Offering
Foundry Group Next 2018, L.P.	75822405.0 Series AA & Common	32.65
Second Century Ventures, LLC	71482100.0 Series AA and Common	30.781

INSTRUCTION TO QUESTION 6: The above information must be provided as of a date that is no more than 120 days prior to the date of filing of this offering statement.

To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being “beneficially owned.” You should include an explanation of these circumstances in a footnote to the “Number of and Class of Securities Now Held.” To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

For a description of our business and our business plan, please refer to the attached [Appendix A, Business Description & Plan](#)

INSTRUCTION TO QUESTION 7: Wefunder will provide your company's Wefunder profile as an appendix (Appendix A) to the Form C in PDF format. The submission will include all Q&A items and “read more” links in an un-collapsed format. All videos will be transcribed.

*This means that any information provided in your Wefunder profile will be provided to the SEC in response to this question. As a result, your company will be potentially liable for misstatements and omissions in your profile under the Securities Act of 1933, which requires you to provide material information related to your business and anticipated business plan. **Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.***

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

We cannot predict our future operating results with any significant degree of accuracy and cannot assure you that we will ever become profitable or generate positive operating cash flows on a sustained basis.

Our primary source of funds since inception has been financing through the sale of our equity securities. We have not generated sufficient revenue from the commercial sale of our products and services to fund our business operations on an on-going basis. We have incurred significant operating losses and expect to incur significant losses for the foreseeable future. We expect to continue to spend substantial financial and other resources on developing and introducing our products, on our operating infrastructure and on our sales and marketing activities. There can be no guarantee that we will become profitable, and, even if we do become profitable, we may not be able to sustain or increase our profitability.

The Series AA Financing will be heavily dilutive to the equity incentives held by our employees and management, and we can make no assurances that we will be able to sufficiently compensate such persons to retain their services.

We rely heavily on our current management team and key personnel, many of whom are presently incentivized by

...and, many of them are presently exercisable by stock options that will be heavily diluted in connection with the Series AA Financing. We also anticipate hiring additional personnel and we anticipate that we will need to provide competitive compensation to hire such personnel. We will try to retain our team through various incentive mechanisms, including the new option pool reserve created as described above, but no assurances can be given that this will be successful.

The Restructuring resulted in the conversion of Preferred Stock into Common Stock.

If you were a holder of shares of the Company's preferred stock prior to the Restructuring Effective Time, all of your preferred stock was converted into common stock pursuant to the Restructuring, as further described above. Once your stock converted into common stock, you lost any associated preferred stockholder rights with respect to such converted shares, including without limitation the liquidation preference, preferred dividend rights, preferred protective provisions, rights of first refusal and co-sale and certain other voting rights that are set forth in the Restated Charter and Stockholder Agreements.

The Company operates in a dynamic industry, and accordingly, can be affected by a variety of factors. Management of the Company believes that changes in any of the following areas could have a significant negative impact on the Company in terms of its future financial position, results of operations, or cash flows:

- Ability to obtain additional financing;
- Advances and trends in new technologies and industry standards;
- Changes in certain strategic relationships or customer relationships;
- Market acceptance of the Company's products;
- Litigation or other claims against the Company;
- The hiring, training, and retention of key employees;
- New product introductions by competitors; and
- Prolonged economic downturn caused by COVID-19 or otherwise.

There is no public market for any shares of our capital stock and there are restrictions on the transferability of shares of our capital stock.

There is no public or other market for any shares of our capital stock, including the Series AA Shares, and it is not expected that such a market will develop in the near future and such a market may never develop. The Series AA Shares (and any shares into which the Series AA Shares may be convertible) must be held by the purchaser of such shares for an indefinite period of time and are subject to transfer restrictions set forth in the Investor Rights Agreement. In addition, the Series AA Shares may not be transferred in the absence of an effective registration statement under the Act and any applicable state securities laws unless we are furnished with an opinion of counsel acceptable to us and our counsel that such registration is not required.

We cannot predict our future operating results with any significant degree of accuracy and cannot assure you that we will ever become profitable or generate positive

operating cash flows on a sustained basis.

You may lose your entire investment.

You may lose your entire investment. Knockaway, Inc. is a company with limited resources and no public market for our securities. We face many challenges including obtaining financing, successfully developing and marketing our products, developing a sustainable business model, effectively managing our growth, recruiting and retaining members of management and other employees, and the other risks and challenges described in this disclosure statement. We may not succeed in addressing these challenges and risks and, if we are unable to do so, you may lose your entire investment.

We may have broad discretion over the use of the proceeds from this transaction and may apply the proceeds to uses that do not improve our operating results or the value of your securities.

We may have broad discretion to use the net proceeds to us from the Series AA Financing, and investors will be relying solely on the judgment of our Board and management regarding the application of these proceeds. Although we expect to use the net proceeds from the Series AA Financing for working capital, we have not allocated these net proceeds for specific purposes. Investors will not have the opportunity, as part of their investment decision, to assess whether the proceeds are being used appropriately. Our use of the proceeds may not improve our operating results or increase the value of the securities being offered.

The real estate industry can be volatile.

The Company's business relies on a robust real estate housing market. Current economic trends, such as inflation and rising interest rates, may negatively affect the performance of that market generally. If home purchase and sale activity slows, the Company's business may be impacted adversely. In addition, the Company operates in specific geographic markets. If home purchase and sale activity slows in those markets, then the Company could be more acutely impacted.

We rely on third-party real estate agents and loan officers.

The Company's success requires that real estate agents and loan officers adopt and consistently use the Company's products in their own businesses. While the Company has a sales channel to be connected with such agents and loan officers and to educate and interact with them about the Company's products, those agents and loan officers are not controlled in any way by the Company and make their own decisions about using the Company's products.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored

to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to raise funds in order to continue and extend business operations.

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: 95% towards product development
5% towards the Wefunder intermediary fee

If we raise: **\$4,799,765**

Use of Proceeds: 45% towards product development
25% towards marketing
25% towards hiring (particularly in sales)
5% towards the Wefunder intermediary fee

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by

make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle (“SPV”). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors’ interests in the investments will be recorded in each investor’s “Portfolio” page on the Wefunder platform. All references in this Form C to an Investor’s investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor’s investment commitment will be cancelled and the committed funds will be returned.

An Investor’s right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment

during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

Priced Round: \$20,574,809.00 pre-money valuation

See exact security attached as [Appendix B, Investor Contracts](#)

Knockaway, Inc. is offering up to 53,390,044 shares of Series AA Preferred Stock, at a price per share of \$0.08990.

The campaign maximum is \$4,799,765 and the campaign minimum is \$50,000.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV is formed concurrently with the filing of the Form C. Given this, the SPV does not have any financials to report. The SPV is managed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. The Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

Describe any other rights:

Series AA Preferred Stock Rights and Privileges. The below information is only intended as a summary and should not be relied upon as a substitute for reviewing the full rights and preferences of the Series AA Preferred Stock set forth in the attached Restated Charter before making any investment decision:

- o Liquidation Preference. In the event of any liquidation, dissolution, winding up or Deemed Liquidation Event (as defined in the Restated Charter), the holders of the Series AA Preferred are entitled to receive, prior and in preference to any distribution of any of the assets of the Company to the holders of the Series Preferred AA-1 Preferred Stock of the Company or Common Stock, an amount per share equal to Original Issue Price applicable thereto, plus any dividends declared but unpaid thereon.
- o Anti-Dilution Protection. The conversion price of the Series AA Preferred Stock will be subject to a weighted-average adjustment to reduce dilution in the event that the Company issues additional equity securities, subject to issuances considered Exempted Securities (as defined in the Restated Charter) and other issuances approved by the holders of a majority of shares of Series AA Preferred Stock from time to time. The conversion price will also be subject to proportional adjustment for stock splits, stock dividends, combinations, recapitalizations and the like.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering). These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents. To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or

of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the Articles of Incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. **The shareholders** have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability. In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as

the Investor's voting and/or economic rights in addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common stock that take into account factors such as the following:

1. unrelated third party valuations of our common stock;
2. the price at which we sell other securities, such as convertible debt or preferred Stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
3. our results of operations, financial position and capital resources;
4. current business conditions and projections;
5. the lack of marketability of our common stock;
6. the hiring of key personnel and the experience of our management;
7. the introduction of new products;
8. the risk inherent in the development and expansion of our products;
9. our stage of development and material risks related to our business;
10. the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
11. industry trends and competitive environment;
12. trends in consumer spending, including consumer confidence;
13. overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
14. the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company

concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

Loan

Lender	Trinity Capital, Inc.
Issue date	09/28/23
Amount	\$23,644,232.00
Outstanding principal plus interest	\$23,944,711.00 as of 04/29/24
Interest rate	15.25% per annum
Maturity date	09/01/28
Current with payments	Yes

Venture debt raised for general operational purposes. Interest only until November 2025. Interest rate is Prime + 6.75% with a floor of 15.25%. This loan was refinanced from previous term loan last refinanced on 11/10/2021.

INSTRUCTION TO QUESTION 24: Name the creator, amount owed, interest rate, maturity date, and any other material terms.

25. What other exempt offerings has the issuer conducted within the past three years?

Offering Date	Exemption	Security Type	Amount Sold	Use of Proceeds
4/2022	Section 4(a)(2)	Preferred stock	\$28,593,381	General operations
9/2023	Section 4(a)(2)	Preferred stock	\$10,624,970	General operations
4/2024	Regulation Crowdfunding	Priced Round	\$100,117	General operations
4/2024	Regulation Crowdfunding	Priced Round	\$79,800	General operations

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12- month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. any director or officer of the issuer;
2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
4. or any immediate family member of any of the foregoing persons.

- Yes
 No

For each transaction specify the person, relationship to issuer, nature of interest in transaction, and amount of interest.

The company issued Directors Sean Black and Jamie Glenn notes of \$464,661.34 and \$473,132.22 each respectively, secured by underlying pledge of the stock acquired through the exercise of options. The notes were entered into on 4/27/2022 with a 1.87% interest rate (the in effect mid-term Applicable Federal Rate) and maturity at 4/26/2031.

On 8/9/2023, the stock underlying the loans was repurchased by the Company (through a reduction in the loan amount owed) with the remaining amount of the loan and accrued interest forgiven by the Company in anticipation of the Series AA equity fundraising and recapitalization.

INSTRUCTIONS TO QUESTION 26: The term transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.

The term “member of the family” includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the person, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party’s interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

- Yes
 No

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Management’s Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the “Risk Factors” section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Knockaway, Inc. offers a technology platform for consumers and agents and unique pre-funding solutions that enable customers to buy their new home before selling their current home. Historical Results of Operations

- *Revenues & Gross Margin.* For the period ended December 31, 2023, the Company had revenues of \$9,271,490 compared to the year ended December 31, 2022, when the Company had revenues of \$15,104,951. Our gross margin was 51.47% in fiscal year 2023, compared to 64.63% in 2022.
- *Assets.* As of December 31, 2023, the Company had total assets of \$31,303,640, including \$6,871,036 in cash. As of December 31, 2022, the Company had \$51,121,851 in total assets, including \$7,755,525 in cash.
- *Net Loss.* The Company has had net losses of \$24,774,052 and net losses of \$30,433,269 for the fiscal years ended December 31, 2023 and December 31, 2022, respectively.
- *Liabilities.* The Company's liabilities totaled \$48,118,623 for the fiscal year ended December 31, 2023 and \$54,305,131 for the fiscal year ended December 31, 2022.

Liquidity & Capital Resources

In the last three years, the company has been financed with \$23,644,232 in debt, \$39,318,468 in equity, and \$39,725,000 in convertibles.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 2 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 1 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not

uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Knockaway, Inc. cash in hand is \$2,700,000, as of April 2024. Over the last three months, revenues have averaged \$484,000/month, cost of goods sold has averaged \$93,000/month, and operational expenses have averaged \$1,130,000/month, for an average burn rate of \$739,000 per month. Our intent is to be profitable in 2 months.

During Q1 2023, the Company added national mortgage lenders to its real estate agent partner network. These lenders work with agents to originate mortgages for consumers to buy a new home. This enabled Knock to focus on what it does best, the bridge loan that makes Buy Before You Sell possible. This resulted in a short term decrease in top-line revenue from 2022 to 2023 as Knock stopped originating mortgages and, therefore, stopped realizing the gain-on-sale revenue of those mortgages. This shift allowed the Company to streamline operations and focus on directly working with lending partners, instead of competing with them, which resulted in gross margins growing to 80%. From 2022 to 2023, excluding the effect of home sales and purchases, our cost of revenue and operating expenses in total decreased by \$20,200,000 (47%) as a result of a significant reduction in expenses in marketing, technology, and personnel resulting from the shift to B2B2C. In 2024, the Company continues to capitalize on this lower-cost operating model, growing its sales funnel through agents and lending partners focusing solely on the Company's bridge loan product. From December 2023 to April 2024 top of funnel growth has increased significantly with leads and applications rising over 120% and 83%, respectively. The revenue for the first three months of the year is lower on average due to the seasonality of home sales, yet monthly revenue still increased over 40% from December 2023 to April 2024 with continued increases expected in Q2. We have accelerated the expansion of our relationship with large lending partners, and we have started integrating Knock's technology into our lending partners' loan originating systems to be able to programatically qualify customers for the Knock bridge loan directly within the lending partners' normal mortgage origination workflow.

Average revenue from the last 3 months (from February to April 2024) was \$484,000 with April having the highest monthly revenue so far this year at \$664,000. As we realize increases from our lending partner integrations and

continued rollouts our Average revenue for the next 6 months is expected to increase almost 3x to over \$1,200,000 per month with an average operating cash burn of \$170k generating positive operating cash flow by September 2024. Further, we expect gross margins to increase from an average of 79% for the last 3 months (from February to April 2024) to an average of 89% over the next 6 months.

We are not yet profitable, but we expect to be EBITDA positive by June 2024 and operating cash flow positive by September 2024. We estimate we currently need \$4,000,000 in equity funding to generate positive operating cash flow by September 2024. To maintain sustainable free cash flow we need to raise an additional \$7,000,000 through the end of 2025.

The Company closed on the first \$10,700,000 of the current round and continues to use a combination of equity capital and revenue to fund operations. Knock also has \$30,000,000 in funding facilities that provide nearly all of the capital for Knock Bridge Loans to customers and the Company expects to close on another potential \$100,000,000 funding facility in May or June 2024 that will provide Knock Bridge Loan capacity through 2025.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

Yes No
- ii. Section 5 of the Securities Act? Yes No

(6) Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade?

Yes No

(7) Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued?

Yes No

(8) Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to

a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations?

Yes No

If you would have answered “Yes” to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

INSTRUCTIONS TO QUESTION 30: Final order means a written directive or declaratory statement issued by a federal or state agency, described in Rule 503(a)(3) of Regulation Crowdfunding, under applicable statutory authority that provides for notice and an opportunity for hearing, which constitutes a final disposition or action by that federal or state agency.

No matters are required to be disclosed with respect to events relating to any affiliated issuer that occurred before the affiliation arose if the affiliated entity is not (i) in control of the issuer or (ii) under common control with the issuer by a third party that was in control of the affiliated entity at the time of such events.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the “Proxy”). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors’ behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the

Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund (“Fund”) for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company’s offerings and may potentially be compensated for some of its services, the Lead Investor’s goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor’s interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor’s interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor’s taxpayer identification number (“TIN”) (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV’s reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor’s failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable

document format, the issuer should include:

- (a) a description of the material content of such information;
- (b) a description of the format in which such disclosure is presented; and
- (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<https://www.knock.com//invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
