Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. ### RISK FACTORS

**A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.**

**In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.**

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

The SEC requires that we identify risks that are specific to our business and financial condition. We are still subject to all the same risks that all companies in our business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). You should consider general risks as well as specific risks when deciding whether to invest.

Risks Relating to the Company and Its Business

We have a limited operating history.

We have only been in business since 2013. While in that time we have gone from concept to a few hundred thousand users, our operating history is limited and there can be no assurance that we will be able to undertake our business plan for the long term, or that we will be able to reach profitability, or that our results so far are indicative of the results that we may be able to achieve in the future.

We operate in a highly competitive space and competition presents an ongoing threat to the success of our business.

There have been many entrants trying to reach sub-segments of our target audience and provide similar services. Additionally, we recognize that the large e-commerce firms such as Amazon or eBay might move into our field, potentially disrupting the space. Those large platforms have access to greater financial, technical, and marketing resources, which we may not be able to contend with.

Our business depends on our ability to maintain and scale our technical infrastructure.

Our reputation and ability to attract, retain, and serve our users depend on the reliable performance of our site and its underlying technical infrastructure. Our systems may not be adequately designed with the necessary reliability and redundancy to avoid performance delays or outages that could be harmful to our business. If hobbyDB is unavailable when users attempt to access it, users may not continue using our services.

Computer malware, viruses, hacking, phishing attacks, and spamming could harm our business.

As social-network hosting information that may be used to identify users and their networks, we may be the subject of computer malware, viruses, hacking, phishing attacks, and spamming. Should we be unable to effectively manage these attacks and threats to user information, we may experience harm to our reputation and our ability to retain existing users and attract new users.

We have historically experienced net operating losses and may not be profitable for the foreseeable future.

We have experienced past net operating losses since inception of hobbyDB and we may continue to see such losses as we undertake our business plan. While we anticipate that we will eventually get to consistent profitability, we cannot guarantee that result and we do not have the operational history to support any assumption about future profitability.

The amount of capital we are attempting to raise in this offering under Regulation Crowdfunding may not be enough to sustain our business plan, and we intend to raise additional capital in the future.

In order to achieve our long-term goals, we may need to raise funds in addition to the amount raised in this offering under Regulation Crowdfunding. When it comes time to raise additional funds, there is no guarantee that we will be able to raise such funds on acceptable terms or at all. Or, if we do raise funds from equity offerings, those future investors may receive securities that are on more favorable terms than those offered to investors in this offering. If we are not able to raise sufficient capital in the future, we may not be able to execute on our long-term goals.

Our future plans rely upon assumption and analyses prepared by our management.

Our management has prepared assumptions and analyses that are driving our business plan. If these assumptions prove to be incorrect, or the analyses are applied incorrectly, our financial results may be negatively impacted. Whether actual operating results and business developments will be consistent with our management's assumptions and analyses depend on a number of factors, many of which are outside our control, including, but not limited to:

- Whether we can obtain sufficient capital to sustain and grow its business
- Our ability to manage the company's growth
- Whether we can manage relationships with key vendors that are needed to provide our services
- Competition
- Our ability to retain existing key management, to integrate future hires and to attract, retain and motivate qualified personnel
- The overall strength and stability of domestic and international economies
- Consumer spending habits

Changes to Legislation and Taxes

Various U.S. States had enacted marketplace facilitator laws and more states might do so. We will have to be compliant when relevant thresholds are met and are currently changing our business model so that we are not regulated by these marketplace facilitator laws.

You may not have significant influence on the decisions of the company.

The day to day management, as well as big-picture decisions, will be made exclusively by our executive officers and directors. You will have a very limited ability, if at all, to vote on issues of company management and will not have the right or power to take part in the management of the company and will not be represented on the board of directors of the company. Accordingly, no person should purchase our stock unless he or she is willing to entrust all aspects of management to our executive officers and directors.

An investment in our securities is speculative and there can be no assurance of any return on investment.

Investors will be subject to substantial risks involved in an investment in the issuer, including the risk of losing their entire investment. An investment in our securities is speculative and may not result in a positive return. Investors should only invest an amount that they are willing to lose entirely.

Our management has broad discretion with regards to the use of proceeds in this offering.

Our management is entrusted to make decisions in the best interest of the company. That includes using their discretion when applying the proceeds of this offering to our operations. While we state what our intended uses might be, changed circumstances and the emergence of opportunities may result in uses of proceeds that differ from what is disclosed here.

Coronavirus. We do not know the impact the pandemic will have on our business but assume that with people confined to their home we will benefit from more traffic and attention to hobbies.

We depend on the efforts of our small management team.

Our future success depends on the efforts of a small management team. The loss of services of any member of the management team may have an adverse effect on the Company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

**NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.**

**The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).**

**If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.**

**If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.**

**An investor's right to cancel. An investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.**

**If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is entitled to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be required to allow for a period of five business days for the investor to reconfirm.**

**If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.**

**Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.**

**The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.**

**If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.**

**In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are accredited into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by investors were received, or other criteria at the discretion of the Company, before the offering deadline.**
