Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved.

These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

The SEC requires that we identify risks that are specific to our business and financial condition. We are still subject to all the same risks that all companies in our business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). You should consider general risks as well as specific risks when deciding whether to invest.

Risks Relating to the Company and Its Business

We have a limited operating history.

We have only been in business since 2013. While in that time we have gone from concept to a few hundred thousand users, our operating history is limited and there can be no assurance that we will be able to undertake our business plan for the long term, or that we will be able to reach profitability, or that our results so far are indicative of the results that we may be able to achieve in the future.

We operate in a highly competitive space and competition presents an ongoing threat to the success of our business.

There have been many entrants trying to reach sub-segments of our target audience and provide similar services. Additionally, we recognize that the large ecommerce firms such as Amazon or eBay might move into our field, potentially disrupting the space. Those large platforms have access to greater financial, technical, and marketing resources, which we may not be able to contend with.

Our business depends on our ability to maintain and scale our technical infrastructure.

Our reputation and ability to attract, retain, and serve our users depend on the reliable performance of our site and its underlying technical infrastructure. Our systems may not be adequately designed with the necessary reliability and redundancy to avoid performance delays or outages that could be harmful to our business. If hobbyDB is unavailable when users attempt to access it, users may not continue using our services.

Computer malware, viruses, hacking, phishing attacks, and spamming could harm our business.

As social-network hosting information that may be used to identify users and their networks, we may be the subject of computer malware, viruses, hacking, phishing attacks, and spamming. Should we be unable to effectively manage these attacks and threats to user information, we may experience harm to our reputation and our ability to retain existing users and attract new users.

We have historically experienced net operating losses and may not be profitable for the foreseeable future.

We have experienced past net operating losses since inception of hobbyDB and we may continue to see such losses as we undertake our business plan. While we anticipate that we will eventually get to consistent profitability, we cannot guarantee that result and we do not have the operational history to support any assumption about future profitability.

The amount of capital we are attempting to raise in this offering under Regulation Crowdfunding may not be enough to sustain our business plan, and we intend to raise additional capital in the future.

In order to achieve our long-term goals, we may need to raise funds in addition to the amount raised in this offering under Regulation Crowdfunding. When it comes time to raise additional funds, there is no guarantee that we will be able to raise such funds on acceptable terms or at all. Or, if we do raise funds from equity offerings, those future investors may receive securities that are on more favorable terms than those offered to investors in this offering. If we are not able to raise sufficient capital in the future, we may not be able to execute on our long-term goals.

Our future plans rely upon assumption and analyses prepared by our management.

Our management has prepared assumptions and analyses that are driving our business plan. If these assumptions prove to be incorrect, or the analyses are applied incorrectly, our financial results may be negatively impacted. Whether actual operating results and business developments will be consistent with our management's assumptions and analyses depend on a number of factors, many of which are outside our control, including, but not limited to:

- Whether we can obtain sufficient capital to sustain and grow its business
- Our ability to manage the company's growth
- Whether we can manage relationships with key vendors that are needed to provide our services
- Competition
- Our ability to retain existing key management, to integrate future hires and to attract, retain and motivate qualified personnel
- The overall strength and stability of domestic and international economies
- Consumer spending habits

Changes to Legislation and Taxes

Various U.S. States had enacted marketplace facilitator laws and more states might do so. We will have to be compliant when relevant thresholds are met and are currently changing our business model so that we are not regulated by these marketplace facilitator laws.

You will not have significant influence on the management of the company.

The day to day management, as well as big-picture decisions, will be made exclusively by our executive officers and directors. You will have a very limited ability, if at all, to vote on issues of company management and will not have the right or power to take part in the management of the company and will not be represented on the board of directors of the company. Accordingly, no person should purchase our stock unless he or she is willing to entrust all aspects of management to our executive officers and directors.

An investment in our securities is speculative and there can be no assurance of any return on investment.

Investors will be subject to substantial risks involved in an investment in the company, including the risk of losing their entire investment. An investment in our securities is speculative and may not result in a positive return. Investors should only invest an amount that they are willing to lose entirely.

Our management has broad discretion with regards to the use of proceeds in this offering.

Our management is entrusted to make decisions in the best interest of the company. That includes using their discretion when applying the proceeds of this offering to our operations. While we state what our intended uses might be, changed circumstances and the emergence of opportunities may result in uses of proceeds that differ from what is disclosed here.

Coronavirus. We do not know the impact the pandemic will have on our business but assume that with people confined to their home we will benefit from more traffic and attention to hobbies.

We depend on the efforts of our small management team.

Our future success depends on the efforts of a small management team. The loss of services of any member of the management team may have an adverse effect on the Company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$20,000**

Use of

Proceeds: 5.5% Wefunder intermediary fee, the remainder of the funds (94.5%) will be used to finance the company's operations.

If we raise: **\$260,000**

Use of Proceeds: 5.5% Wefunder intermediary fee, 30,000 (~11%) would be used to build an app and the remainder of the funds (83.5%) will be used to finance the company's operations.

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Use of XX Investments LLC as Transfer Agent and Custodian. Investments will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of our transfer agent, XX Investments LLC. XX Investments LLC will act as custodian and hold legal title to the investments for investors that enter into a Custodial and Voting Agreement with XX Investments LLC and will keep track of those investors' beneficial interests in the investments. In addition, investors' interests in the investments will be recorded in each investor's "My Investments" screen. The investor will also be emailed again the Investor Agreement and, if applicable, the Custodial and Voting Agreement. The Investor Agreement and, if applicable, the Custodial and Voting Agreement will also be available on the "My Investments" screen.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in

Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by Investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Purchaser accordingly acknowledges that, except as expressly set forth above, Purchaser's rights hereunder may be amended, modified, terminated, or waived, and this Agreement may be rescinded, without Purchaser's individual consent. Upon any amendment, modification, termination, rescission, or waiver in accordance with this Section 10(i), the Company shall promptly give written notice thereof to the record holders of the Series Seed Preferred who have not previously consented thereto in writing.

4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Common Stock	23,000,000	5,681,289	Yes <input type="button" value="v"/>
Preferred Stock	18,000,000	10,136,009	Yes <input type="button" value="v"/>

Class of Security	Securities Reserved for Issuance upon Exercise or Conversion
Warrants:	56,117
Options:	555,556

Describe any other rights:

Preferred Stock has a one-time liquidation preference and as a class the right to one board seat and certain veto rights, Common Stock does not.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

None

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the Articles of Incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. **The shareholders** have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability. In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common stock that take into account factors such as the following:

- unrelated third party valuations of our common stock;
- the price at which we sell other securities, such as convertible debt or preferred stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the lack of marketability of our common stock;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

INSTRUCTIONS TO QUESTION 26: The term transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.

The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

With our user base growing fast and \$911m worth of items in their collections already, we're well on our way. These projections cannot be guaranteed.

- *Assets.* As of December 31, 2019, the Company had total assets of \$369,077, including \$103,068 in cash. As of December 31, 2018, the Company had \$428,277 in total assets, including \$155,950 in cash.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$336,839 in debt and \$4,296,406 in equity.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 24 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in

the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Hobbydb Corp cash in hand is \$123,000, as of September 2020. Over the last three months, revenues have averaged \$42,300/month, cost of goods sold has averaged \$7,800/month, and operational expenses have averaged \$45,600/month, for an average burn rate of \$11,100 per month.

Since the start of 2020, we have significantly reduced our cost base by half by further integrating our 3 main websites and building tools that allow our contributors to maintain many more parts of the site. We are continuing on this path and this crowdfunding is part of this strategy (we want the site to be owned by the people that build the hobbyDB database).

We have almost reached our ongoing cost basis (we still need to migrate the hosting of one of our sites) and expect to now focus on traffic growth (which automatically increases revenues through advertising and affiliate income) and serve more commercial seller and brands through our Shopify integration and data offerings.

Our assumption is that we do not need to raise further funding but will continue to do so as this is part of our vision of being owned by our most important users, our contributors. We now have 682 shareholders that we could approach in the case need to (we have a very loyal shareholder following as you can see from our past fundraising history further above). We hope to reach break even in Q1 2021, with about \$170k in monthly revenues and expenses.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Company is using the services of XX as part of its offering. XX is comprised of XX Investments, LLC, XX Team LLC, and the Lead Investors who provide services on behalf of XX Team LLC. The services of XX are available to companies that offer securities through Wefunder Portal LLC and to investors who invest in such companies through Wefunder Portal, but XX is not affiliated with Wefunder Portal or its affiliates.

XX Investments is the Company's transfer agent and also acts as custodian, paying agent, and proxy agent on behalf of all investors that enter into the Custodial and Voting Agreement with XX Investments through the Wefunder Portal website ("Investors"). XX Investments holds legal title to the securities the Company issues through Wefunder Portal (which are uncertificated) on behalf of Investors. Investors, in turn, hold the beneficial interests in the Company's securities. XX Investments keeps track of each Investor's beneficial ownership

interest and makes any distributions to the Investors (or other parties, as directed by the Investors).

In addition to the above services, at the direction of XX Team, XX Investments votes the securities and take any other actions in connection with such voting on behalf of the Investors. XX Investments acts at the direction of XX Team, because XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. XX Investments will not charge Investors for its services. XX Investments does charge the Company \$1,000/year for services; however, those fees may be paid by Wefunder Inc. on behalf of the Company.

As noted, XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. Pursuant to the power of attorney, XX Team will make voting decisions and then direct XX Investments to vote and take any other actions in connection with the voting on Investors' behalf. XX Team will act, with respect to the Company, through our Lead Investor, who is a representative of XX Team. As compensation for its voting services, each Investor authorizes XX Investments to distribute to XX Team 10% of any distributions the Investor would otherwise receive from the Company. XX Team will share its compensation with our Lead Investor. XX Team, through our Lead Investor, may also provide consulting services to the Company and may be compensated for these services by the Company; although, fees owed by the Company may be paid by Wefunder Inc. XX Team will share its consulting compensation with our Lead Investor.

The Lead Investor is an experienced investor that we choose to act in the role of Lead Investor, both on behalf of the Company and on behalf of Investors. As noted, the Lead Investor will be a representative of XX Team and will share in compensation that XX Team receives from the Company (or Wefunder Inc. on the Company behalf) or from Investors. The Lead Investor will be chosen by the Company and approved by Wefunder Inc., and the identity of the Lead Investor must be disclosed to Investors before Investors make a final investment decision to purchase the Company's securities. Investors will receive disclosure regarding all fees that may be received by the Lead Investor. In addition to the fees described above, the Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a special purpose vehicle ("SPV") for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that SPV (and as a supervised person of Wefunder Advisors) and may be compensated through that role. Although the Lead Investor may act in multiple roles and be compensated from multiple parties, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of the Company's securities. As a result, the Lead Investor's interests should always be aligned with those of the Investors.

Investors that wish to purchase the Company's securities through Wefunder Portal must agree to (1) hire XX Investments to serve as custodian, paying agent, and proxy agent with respect to the Company's securities; (2) give a power of attorney to XX Team to make all voting decisions with respect to the Company's securities; and (3) direct XX Investments to share 10% of the Investor's distribution from the Company with XX Team. The Company may waive these requirements for certain investors with whom the Company has a pre-existing relationship.

The XX arrangement described above is intended to benefit the Company by allowing the Company to reflect one investor of its capitalization table (XX Investments) and by simplifying the voting process with respect to the Company's securities by having one entity (XX Team), through one person (the Lead Investor), make all voting decisions and having one entity (XX Investments) carry out XX Team's voting instruments and any take any related actions. The XX arrangement also is intended to benefit Investors by providing the services of an experienced Lead Investor (acting on behalf of XX Team) who is expected to make value-maximizing decisions regarding Investors' securities. XX Team (acting through the Lead Investor) may further benefit both the Company and Investors by providing consulting services to the Company that are intended to maximize both the value of the Company's business and also the value of its securities.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:

- (a) a description of the material content of such information;*
- (b) a description of the format in which such disclosure is presented; and*
- (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.*

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

33. Once posted, the annual report may be found on the issuer's website at:
