Natural Machines

ESADE Business School

### About

Natural Machines: Based in Barcelona (Spain), New York City (USA) and Milan/Turin (Italy). 30+ awards. VC backed.

We want to inspire individuals to lead more sustainable lifestyles and contribute to a healthier, more sustainable planet... both for the inhabitants and the environment. Our goal is to produce a full range of innovative kitchen solutions improving the quality and enjoyment of food, making it easier to be in full control of all your foods and have a positive environmental impact by lessening food loss/waste. We further the advancement of UN Sustainable Development Goals, Goal 12: responsible consumption and production.

Our first released product is Foodini: a 3D food printing kitchen appliance, using REAL food to print. Foodini is a 3D food printing kitchen appliance that enables you to personalize food, eat healthier, improve kitchen efficiency and lower food waste. Print using your own real, natural, fresh ingredients – customize foods, nutrition, and presentation, printing the amount you need and nothing more. All via next generation Internet of Things/IoT 3D food printers with Artificial Intelligence/AI.

Named entrepreneur of the week by IEEE N3XT.

Speaker at:

- \* TEDxMadrid - <https://www.youtube.com/watch?v=FgVuQDgVkbk>
- \* Web Summit - Where the Tech World Meets; 20,000 attendees
- \* 3D print show 2014, Moscow
- \* Basque Culinary Centre
- \* Inside 3D Printing conference & expo

### Experience

**Co-founder & CEO**

Natural Machines

May 2012 – Present · 7 yrs 10 mos

We are creating a full range of innovative kitchen solutions improving the quality and enjoyment of food, making it easier to be in full control of all your foods and have a positive environmental impact by lessening food loss/waste.

We are backed by Closed Loop, a venture fund that invests in sustainable consumer goods, advance recycling technologies and services related to the circular economy.
