Business Overview

C.A.S. Handmade Inc. established in 2013, and incorporated in 2014.

FORM C Offering Material for

C.A.S. Handmade Inc as Issuer

Now in our third full season, C.A.S. has evolved from sewing in our basement to a 2400 square foot studio store in Hudson, Mass. This year we are now carried in over 100 stores nationally, and carry 32 American made Artists in our store that is above our working studio where each handbag is made start to finish. We have 4 main sources of income – Wholesale – Retail operation/ store - Online store – Retail trade shows. We have already reached last year's total sales of 205k and are currently at 250k with 70k in open purchase orders, and the busiest season approaching. We grew over 200% in one year and it is time to raise capital to go into 2018 with a goal of 10-20% growth and become a \$500,000 a year company. This \$50,000 capital we are looking for is the first step to a very well thought out plan for 2018, which we will look to obtain a 10-20% growth. Our biggest hurdle is capital, and with such growth we need to purchase more cutting dyes that will speed up our production, a new machine, hire two more employees, and purchase our materials for this spring, along with our show fees for 2018. We are an established american made company that invested everything we had to build our brand, and we are not slowing down. With this capital we will be able to grow, create jobs, and become one of the best high end american made bag companies in the USA.

With over 200% growth in 2017, we are raising capital to grow, speed up efficiency with new equipment, purchase materials in bulk to save money, and focus on bottom line for 2018. This capital will put us in a great position with a very well thought out 2018 plan and CFA to support this.

Business Plan

Please refer to the copy of the Company's business plan which is attached as Exhibit A hereto.

C.A.S. is a high-quality bag company located in Hudson, Massachusetts. Each bag is designed, developed, and sewn by Cara DesJardins and a small team of leather crafts people. Each bag is made of full-grain leather and 100 percent linen.

We only use the highest-quality materials in our handbag construction. A natural material, leather often presents minor marks and variations inherent to the hide. While mass-produced or high-end bags try to eliminate those imperfections, we see them as part of the unique character of the material. We believe it is possible to make bags that are beautiful without supporting the wastefulness of the handbag industry.

We also have a retail store above our studio carrying our bags along with the wonderful Art of 35 American made Artists. Products you will not find anywhere else.

CROWDFUNDING RISK FACTORS

An investment in the Company's securities involves substantial risk. Prospective investors should carefully consider the risk factors referred to in this Material. An investor should not invest any funds in the Offering unless he or she can afford to lose his or her entire investment. In making an investment decision, investors must rely on their own examination of the Company and the terms of the Offering, including the merits and risks involved. The Shares have not been recommended or reviewed by any federal or state securities commission or regulatory authority. There is no ready market for the sale of the Shares and it may be difficult or impossible for an investor to sell or otherwise dispose of the Shares.

Risks from Relying on Issuer Supplied Information

There is the risk that some of the information supplied by the Company may be inaccurate. The management of the Company has provided all of the information stated in this Material without any third party verifying or investigating such information. The Company makes no express or implied representation or warranty as to the completeness of this information or, in the case of projections, estimates, future plans, or forward looking assumptions or statements, as to their attainability or the accuracy and completeness of the assumptions from which they are derived. It is expected that each prospective investor will pursue their own independent investigation. Forward-looking statements are subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those projected.

Risks as a Minority Holder

Purchasers of a minority ownership have risks relating to limited control, limited information and limited rights. Minority owners have no control over the marketability and value of their purchased securities and they may be required to hold onto their minority ownership position for an indefinite period. Additionally, minority owners must address the following risks:

Minority owners have no right to participate in any management decisions of the Company or the day-to-day operations. There is the risk that the majority owners make decisions or

FORM C Offering Material for

C.A.S. Handmade Inc as Issuer

take actions that a minority owner thinks is bad for the Company. A minority owner has limited ability to influence the governance and operations of a Company.

Minority owners have limited rights to information beyond those filings that are required by law to be made available. There is the risk that minority owners may be denied immediate information about the Company's performance or corporate affairs.

Minority owners have limited rights, if any, to demand current distributions from an operating business. Majority owners likely have the right and power to avoid making any distributions of profits at their discretion. There is also the risk that the management of the Company pursues a spending plan that causes the Company not to generate any profits to be distributed.

Minority owners have limited rights, if any, to have their interest bought out. There is the risk that a minority owner will want to sell their interest and they will have no right to force the Company to buy them out. There will also be liquidity risk if there is no secondary market for the Company's securities.

Minority owners have limited input into fundamental corporate changes such as sale of the Company. There is a risk that a sale could be structured in a way to avoid certain payouts to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.

Minority owners may have interests that are different than shareholder-officers or shareholders that are part of the management team of the Company. There is the risk that minority owners perceive a conflict of interest if, for example, the managers that are shareholders receive a significant raise. Additionally, there is the risk that a minority owner will want to remove a manager or board member but have no independent power to do so.

Risks Regarding Corporate Actions

The Company may take certain corporate actions that could impact investors that purchase the Shares.

Regarding the additional issuances of securities, there is the risk that an investor has their ownership percentage diluted if, for example, the Company decides to raise additional amounts in the future. There is also the risk that an investor is excluded from the opportunity to participate in future fund-raising so that they are unable to maintain their ownership percentage.

Regarding the authorization of new securities with different rights, there is the risk that a future investor is able to obtain rights that are superior to the rights afforded to the purchasers of the security available in this offering.

To the extent that there is ever an offer to repurchase the Shares by the Company, there is the risk that investors may feel pressured to sell their Shares to the Company without fully participating in or capturing the potential increase in value of such Shares.

FORM C Offering Material for

C.A.S. Handmade Inc as Issuer

Regarding a sale of the Company or of assets of the Company, there is the risk that any such transaction fails to maximize the value of the Company's securities. The investor will be required to rely on the business judgement of the management team and the Board of Directors of the Company so there can be no guarantee that the investor will receive the full market value of their Shares

Regarding transactions with related parties, there is the risk that the Company is placed in a position that creates the possibility of a conflict of interest. The Company may choose to participate in transactions with affiliates and related persons, with limited disclosure required to investors.

Risks from an Investment in Securities

This Offering is being made on a conditional basis with no minimum number of Shares guaranteed to be sold. The Company has not engaged the services of an underwriter with respect to the Offering, and there is no guarantee that the minimum required amount of proceeds will be realized by the Company.

The Shares are not guaranteed or insured by any government agency or by any private party. The amount of earnings is not guaranteed and can vary with market conditions. The return of all or any portion of capital invested in the Shares is not guaranteed, and the Shares could become worthless.

Investors should be aware of the potentially long-term nature of their investment. Each purchaser of Shares will be required to represent that it is purchasing such securities for its own account for investment purposes and not with an intention to resell or distribute. Purchasers may be required to bear the economic risks of the investment for an indefinite period of time. There is currently no public market for the Company's securities. Ultimately, each investor's risk with respect to this Offering includes the potential for a complete loss of their investment.

Risks from Uncertain Capital Needs

The Company believes that the net proceeds of the Offering will be sufficient to fund the implementation of the Company's business plan, operations and growth for the foreseeable future. Nevertheless, in the event that additional capital is required, no assurance can be given that additional financing will be available at all or on terms favorable to the Company. If adequate funds were not available to satisfy either short or long-term capital requirements, the Company may be unable to continue in business, with a resulting loss of all or part of investments made by the Company's investors. Moreover, if additional equity securities are issued in connection with future financings, the ownership percentages of

FORM C Offering Material for

C.A.S. Handmade Inc as Issuer

then shareholders could be diluted. Dilution of ownership percentages may also occur as a result of equity securities issued pursuant to possible sales or grants to existing shareholders, officers, managers, consultants, advisors, and/or employees.

Risks from Relying on an Exemption from Registration

The Shares are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act and applicable state securities laws. If the sale of the Shares were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of the Shares. If a number of purchasers were to obtain rescission, the Company would face significant financial demands, which could adversely affect the Company as a whole, as well as any non-rescinding purchasers.

ISSUER-SPECIFIC RISK FACTORS**MARKET AND CUSTOMER RISK FACTORS**

There is a limited market for the Company's product or services.

The market for American made good is growing tremendously year after year. Not only are we American made, We personally make each handbag that is Designed by Cara DesJardins and her team of craftsmen and and craftswomen. Everyone that works for C.A.S. is fully trained by Cara to her specifications and expectations creating only the highest quality products. We feel our demand is growing tremendously to a point we are unable to keep up with the demand. This equity we are selling allows us to provide and train more team members, purchase more equipment, improve our packaging, and continue to grow. In 2017 we are experiencing 200% growth providing us with the stability and customer base entering 2018. We feel that this risk factor is very low for investors with the way the brand of C.A.S. has been developed and now is a nationally known brand.

We must correctly predict, identify, and interpret changes in consumer preferences and demand, offer new products to meet those changes, and respond to competitive innovation.

C.A.S. Handmade Inc as Issuer

Staying fresh is key to our growth, which involves product development. With this equity we are able to hire more seamstresses/ seamsters to take some of the work load off of designer/Owner Cara DesJardins. This will allow us to stay ahead of trends and develop more accessories created by Cara and her team and offer our customers more of a selection. Our store only carries the top artists in the country. We are very lucky to be attending the top shows in the country and have the access to all the top artists in the country. We are always staying ahead of the trends and bringing in new products that are not found anywhere else. Our eclectic inventory of American made goods is top notch and will remain that way with our high standards.

We may be adversely affected by cyclical, volatility or an extended downturn in the United States or worldwide economy, or in the industries we serve.

Our operating results, business and financial condition could be significantly harmed by an extended economic downturn or future downturns, especially in regions or industries where our operations are heavily concentrated. Further, we may face increased pricing pressures during such periods as customers seek to use lower cost or fee services, which may adversely affect our financial condition and results of operations. With that being said we are carried in over 100 accounts nationally spreading out nationally limits this risk with natural disasters ect. For example our southern stores have been affected by the series of hurricanes this year, which they will bounce back and are all ready ordering for 2018.

Failure to obtain new clients or renew client contracts on favorable terms could adversely affect results of operations.

We have a fantastic sales team, with two rep firms and our internal sales for the Northeast. We attend all the top shows in the nation and we stay very focused on opening new accounts and being aggressive with promotions and retaining our customer base by rewards, discounts, and incentives to buy.

Our business and results of operations may be adversely affected if we are unable to maintain our customer experience or provide high quality customer service.

We also have created a stock purchase program that guarantees S corp distributions along with your original investment guaranteed in two years with the option to stretch it to another two year non guaranteed with revenue sharing for your percentage of company.

FINANCIAL RISK FACTORS

The amount of capital the Company is attempting to raise in the Offering is not enough to sustain the Company's current business plan.

The amount of money we are raising is enough to sustain us through 2018. However we are selling a small amount of equity 8% while providing us with options as we grow.

Our company may need additional funding in the future, which may not be available.

We have plenty of equity available along with the assets and worth of company has grown tremendously over the past 4 years. We also will be obtaining a line of credit to protect us from any unforeseen issues or downturns.

Our company may be required to take on debt which could result in limitations on our business.

Our company is working on decreasing debt and with this equity buy in and our line of credit we will be in a perfect position entering 2018 to be a profitable company with a projection of over 100k.

The Company has prepared only unaudited financial statements in connection with this offering, which may not be reliable.

In addition to the unaudited financial statement presented, we expect to prepare financial statements on a periodic basis. The financial data presented has not been audited or reviewed. In preparing the financial statements, we have made certain assumptions concerning our business and the market which may not be accurate. Investors are encouraged to review any statements with an independent accountant and should not invest if they believe that they have insufficient information. We also provide quarter reports to all of our investors with accurate numbers. our forecast for next year is a modest 10-15% growth.

The Company's future revenue goals are unpredictable and may fluctuate.

With four full years we are able to have a grasp on or projections. 2017 was a very top line heavy year, with our focus for 2018 on the bottom line. We spent a lot of money this year on our growth and we have spent many hours on our forecast for 2018.

Our operating costs are unpredictable and our operating results may fluctuate due to factors that are difficult to forecast and not within our control.

In addition to general economic conditions and market fluctuations, significant operating cost increases could adversely affect us due to numerous factors, many of which are beyond our control. Increases in operating costs would likely negatively impact our operating income. With that being experienced this year with our tremendous growth. Now with our team, new store and studio and accurate numbers to go by from this year we are able to have a reasonable accurate projection of operating expenses.

OPERATIONAL RISK FACTORS

If the Company fails to achieve certain operational goals it may incur significant losses and there can be no assurance that the Company will become a profitable business.

FORM C Offering Material for

C.A.S. Handmade Inc as Issuer

Our biggest hurdle is capital. We started and funded our company ourselves. With this extra capital we are able to escape that hurdle and hire additional equipment and staff to maintain the demand we are feeling.

Incidents of hacking, identity theft, cyberterrorism or climate change may adversely impact our operations.

As any other company this is always a risk and does happen. We use very safe technology and only the highest quality POS and credit card services.

Certain future relationships have not been established and existing relationships are not guaranteed to endure.

We have developed a great clientele with independent stores like our own that buy three to four times a year. Over the past years we have had major accounts that do come and go. With the personal touch of Customer service and high quality product it is our independent stores that stable our income.

We may experience defects and system failures which would harm our business and reputation and expose us to potential liability.

We have very low risk of liability of our product. If our product is defective or has an issue it replaced or repaired with in a week of receiving it.

Our advertising and marketing efforts may be costly and may not achieve desired results.

We do not spend a lot of money on advertising and marketing. We are hands on. We spend our money on wholesale and retail shows where customers can touch and feel our product.

COMPETITIVE RISK FACTORS
