Neel Shah
IT Analyst at Tata
Consultancy Services
July 6, 2018, Mark managed
Neel directly

Neel is an excellent web developer. I had the pleasure of working with him for over 2 years at Alliance Network Services. Where he developed a wide variety of LAMP based website, primarily working with drupal and wordpress websites. He could jump in on any project we needed help on, even outside that skillset he was hired for, with enthusiasm. He was always a positive influence, a pleasure to work with, and worked to ensure the customers were happy with the services provided. He will be a valuable asset to any company that has the opportunity to hire him.

Mahmoud Fawzy
PHP Developer at
Leadingcourses.com
July 6, 2018, Mark managed
Mahmoud directly

Mahmoud is extremely motivated and a highly talented developer. I hold him as a developer in the highest regard. I had the pleasure of working with him for 3 and a half years at Alliance Network Services. Where he developed a wide variety of LAMP based websites for many different industries and projects under my direct supervision. He worked tirelessly to ensure the highest of client satisfaction. Increasing his skill set during those three years prior to moving on to bigger projects and work experiences. As his project manager during that time, he continuously made my job easier, and his impact directly made our company better on a daily basis. He was always a positive influence, a pleasure to work with, and inspired those around him to be better at their jobs. A leader in that regard. He will be a valuable asset to any company that has the opportunity to hire him. If you have the opportunity to hire him, don't hesitate to do so.
