Management's Discussion and Analysis of Financial Condition and Results of Operations

Key Factors Affecting Our Results Of Operations, page 73

8. You refer to your global portfolio of mobile applications with a user base across 240 countries and your continued focus on global expansion throughout the filing. Considering the majority of your revenues, to date, were generated from the U.S and PRC, please provide a breakdown of your DAUs and MAUs by geographic region and, at a minimum, include these two regions or explain why you believe this is not necessary.
9. You state that your advertising revenue is primarily generated from performance-based advertisements in which customers are charged based on the number of valid clicks,

conversions or some other measurable actions. Please tell us whether you consider the number of clicks and price per click to be a key indicator of your performance-based advertising revenue. If so, revise to provide a quantitative discussion of these measures or percentage change in these measures for each quarter or explain why you do not consider these to be key performance indicators in analyzing your advertising revenues. See Section III.B of SEC Release No. 33-8350.

10. You provide the year-over-year percentage increase in the effective price per impression and the number of average daily impressions delivered. Please clarify how you calculate the effective price per impression. Also, considering your advertising revenues are directly impacted by these measures, disclose the number of impressions you delivered each quarter and the average price per impression, or the quarter-over-quarter changes, to provide greater insight into the trends in such measures. We refer you to Section III.B of SEC Release No. 33-8350.
11. You state that advertising revenue from your TouchPal Smart Input accounted for approximately 55% and 49% of total advertising revenue in fiscal 2016 and 2017, respectively, while other global portfolio products accounted for nil and 20%. Please clarify what comprised the remaining advertising revenues as these disclosures appear to account for only 55% and 69% of total advertising revenue in fiscal 2016 and 2017, respectively.
12. Please disclose the number of DAUs and MAUs for your TouchPal Phonebook application for each quarter presented in the table or tell us why you do not believe this disclosure is material to investors.

Results of Operations

Net Revenues, page 80

13. Given the direct impact of impressions, valid clicks and pricing on your advertising revenues please include a quantified discussion of how these measures impacted your net revenues. In this regard, we note your discussion of the trends in daily average users, however, it appears that these other measures would have a more direct impact on your revenue growth. Refer to Section III.D of Release No. 33-6835.

Liquidity and Capital Resources, page 82

14. Given the significant increase in your accounts receivable, please expand your discussion on page 83 to more fully explain the reasons for such increase. In this regard, we note your accounts receivable balance has increased at a greater rate than your revenues. Include an analysis of days sales outstanding at each balance sheet date and provide the payment terms typically stipulated in your contracts. Refer to Section IV.B.1 of SEC Release No. 33-8350.
