## THE COMPANY AND ITS BUSINESS

### *Description of Business*

The Company signed a Franchise Agreement with UBIF Franchising Co., a Florida corporation (the “Franchisor”) dated December 21, 2017 to become a franchisee of the Franchisor. The Franchisor and/or an affiliate of Franchisor owns certain proprietary and other property rights and interests in and to certain marks, including the “**UBREAKIFIX**” name and service mark.

The Franchisor has developed a comprehensive system for the operation of stores under the marks and in accordance with the Franchisor’s System Standards that principally offer and sell repair services relating to computers, smart phones, tablets, gaming consoles and other electronic equipment, as well as other related services and ancillary products, including offering the Franchisor’s Device Recommerce Program, which the Franchisor approves from time to time, to residential and small business customers at and from the Company’s location and on a limited mobile basis within the Company’s territory.

The Franchise Agreement is for a term of ten (10) years, ending on December 20, 2027 but provided that the Franchisor is then offering Franchises in the same state in which the Company’s store is located, at the expiration of the initial ten (10) year term, the Company shall have the right to enter into a new franchise agreement in the form then generally being offered to prospective “**UBREAKIFIX**” franchisees for a ten (10) year period (the “First Successor Term”). The successor Franchise Agreement shall likewise grant the Company the right to enter into one additional successor Franchise Agreement for a third ten (10) year period for a total of thirty (30) years.

In addition to the Franchise Agreement, the Company entered into an Area Development Agreement giving the Company the exclusive right to open **UBREAKIFIX™** stores in the Ft. Smith, Arkansas area, the Northwest Arkansas area (Fayetteville north through Bentonville), the Springfield, Missouri area and within the state of Oklahoma centered on the Tulsa and Oklahoma metropolitan areas. The Area Development Agreement calls for the Company to open one (1) location by June 1, 2018, a second location by December 18, 2018, a third location by April 1, 2019 and a fourth location by August 1, 2019.

By an Addendum to Area Development Agreement dated December 21, 2017 (the “Addendum”), the Company and the Franchisor agreed to permit the Company to potentially expand the Company’s development areas in St. Louis, Missouri to ten (10) locations, in Oklahoma City, Oklahoma to eight (8) locations, in Tulsa, Oklahoma to four (4) locations, in Jefferson City, Missouri, Joplin, Missouri and Columbia, Missouri to one (1) location each. Under this schedule a total of twenty-nine (29) stores are to be open by June 1, 2021.

Alternatively, the Addendum provides the Company a right of first refusal to expand the development area to include Kansas City, Missouri for thirteen (13) locations, Oklahoma City, Oklahoma for eight (8) locations, Tulsa, Oklahoma for four (4) locations, and Jefferson City, Missouri, Joplin, Missouri and Columbia, Missouri for one (1) location each. Under this alternative schedule a total of thirty-two (32) stores are to be open by June 1, 2021.

The Franchisor is to notify the Company whether it will offer the Kansas City, Missouri area. If the Franchisor offers the Kansas City alternative and the Company exercises the right of first refusal, the alternative development schedule described above will be substituted for the current Area Development Agreement. The terms of the Addendum required the payment by the Company of a total of Three Hundred Twelve Thousand Five Hundred Dollars (\$312,500) before March 14, 2018 if the first alternative is chosen and the payment of Three Hundred Fifty Thousand Dollars (\$350,000) if the second alternative is chosen. However, the Company negotiated an extension of the payment deadline to May 14, 2018. As of the date of this Circular, the Company has not been notified if the Kansas City alternative is available.

The Company has negotiated and signed a lease agreement for its first location in Springfield, Missouri. The location opened for business on April 30, 2018. As of the date of this Offering Circular, the Company has seven (7) employees, two (2) of whom are the President and Chief Operating Officer and five (5) of whom are slated to operate the initial Springfield, Missouri location. Three (3) of the seven (7) employees have completed the Franchisor’s intensive training in how to diagnose and repair computers, smart phones, tablets, gaming consoles and other electronic equipment. The remaining four (4) have received in-house training in these services. Two (2) of the employees who will be working at the first store in Springfield, Missouri will manage this location on a full time basis until the Company is ready to hire and train employees for the next store location. Before being hired by the Company, both of these individuals had prior experience in supervisory and management role with cell phone carriers. The Company’s plan is to utilize these individuals as internal trainers and development resources for new locations as they are developed.

The Company intends to open stores in accordance with the terms of the Area Development Agreement and operate each in accordance with the terms of the Franchise Agreement that will be associated with each location.

The Franchisor was recently selected as the official repair facility for Samsung nationwide. Beginning March 15, 2018 the Korean electronics giant partnered with the

UBREAKIFIX™ repair service for one-day, in-person care of broken Galaxy devices. Samsung teamed up with electronics repair company UBREAKIFIX™ to offer same-day service to Galaxy phone owners in the U.S. Owners of phones needing repair can schedule appointments online or drop off their devices at one of the electronics repair service's more than three hundred (300) locations. Most repairs will be done within two (2) hours or less, Samsung says.

### *Competition*

The Company faces significant competition in the market for electronic repairs. Competitors offering franchise stores similar to UBREAKIFIX™ include LifeLine®, Batteries+Bulbs®, Device Pitstop, iDropped®, StayMobile®, iFixandrepair, Cellairis®, experimax, iCareRepair and others. In addition, independent repair facilities are present in most markets which may have reduced costs potentially leading to lower prices. See, Risk Factors below.

### *Liabilities and Litigation*

The Company's liabilities include obligations under a One Hundred Thousand Dollar (\$100,000) convertible note dated April 16, 2018 and certain lease obligations for its store locations. The Company is not currently involved in any litigation.

#### *Related Party Transactions*

The company has not conducted any related party transactions.

### **RISK FACTORS**

These are the principal risks that related to the Company and its business:

- **Competition** As noted above, the Company will compete with larger, established companies who currently operate in the electronic repair market. These competitors may have greater financial resources and marketing/sales and human resources than the Company. Competitors may succeed in opening and marketing competing repair facilities sooner than the Company in its areas of development. They may also complete partnerships, cooperative arrangements or manufacturer relationships that are superior to those developed by the Company or the Franchisor. There can be no assurance that competitors will not provide superior services at lower costs or enjoy other competitive advantages that render the services offered by the Company uncompetitive. It should further be assumed that that competition will intensify.
- **Key Personnel** The success of the business is heavily dependent on the work and leadership of key management personnel, specifically Mike Pierce, President, and Brad Reece, Chief Operating Office. If either of these individuals were to leave the Company, it would be difficult to replace them, and the business would be harmed. The Company will also need to retain additional highly skilled personnel if it is to achieve effective growth. Future success will depend upon our ability to identify, hire, develop, motivate, and retain these highly skilled individuals in all areas of the Company's organization. Competition in the electronic repair industry for qualified employees is intense, and the

Company anticipates that competitors may attempt to hire Company employees and officers, all of whom are at-will employees and not parties to employment agreements with the Company. In addition, the barriers to entry in this business are relatively low and there exists the possibility that Company employees may terminate their employment to open competing business locations.

- **Failure to Perform Under Franchise or Area Development Agreements** The operations of the Company are dependent upon the Company remaining a franchisee in the UBREAKIFIX™ system. Continuation as a franchisee requires compliance with the terms of the Franchise and Area Development Agreements, including meeting store opening requirements, payment of area development and franchise fees by dates certain and payment of royalties and other fees or assessments. To the extent the Company fails to raise sufficient funds to secure development rights under Area Development Agreements or fails to open stores according to the terms of the Franchise and Area Development Agreements, the Franchisor may declare a default of the Company to the terms of these agreements. If a default is declared, the Franchisor may have the right, among other remedies, to terminate the franchise relationship and demand return of all UBREAKIFIX™ trademarked items and materials. Loss of the UBREAKIFIX™ franchise relationship would be of such significance that the Company most likely would not be able to continue in business, leading to a complete loss of investment in the Company.

- **Subsequent Financing** The Company may need to engage in common equity, debt, or preferred stock financing in the future, which may reduce the value of the Company's Class A Preferred Stock. Interest on debt securities could increase costs and negatively impact operating results. Preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of the Company's Class A Preferred Stock. In addition, if the Company needs to raise additional equity capital from the sale of Class A Preferred Stock, institutional or other investors may negotiate terms at least as, and possibly more favorable than the terms offered in this offering, including the possibility of a lower purchase price.

- **Limited Transferability and Liquidity** Each Class A Preferred share will be acquired for investment purposes only and not with a view towards distribution. Certain conditions imposed by the Securities Act must be satisfied prior to any sale, transfer, conversion, or other disposition of the Company's Class A Preferred Stock. No public market exists for the Company's Class A Preferred Stock and no market is expected to develop.

- **Management Discretion as to Use of Proceeds** The Company's success will be substantially dependent upon the discretion and judgment of the management team with respect to the allocation of the proceeds of the offering. The use of proceeds described below is an estimate based on the current business plan. The Company, however, may find it necessary to re-allocate portions of the net proceeds reserved from one category to another, and management will have broad discretion in doing so.

- **Reliance on Franchisor** The Company will be dependent upon UBIF Franchising, Co. for successful national and regional marketing campaigns to potential customers, and an effective PR campaign to raise the Company profile. In addition, the Franchisor will provide business systems and training that will affect the operations of the Company. Finally, the Company's Franchise and Area Development Agreements give the Franchisor certain rights with respect to the ownership and operation of the franchise stores of the Company. To the extent the Company loses its franchises, it may not be able to generate enough business to continue operations, leading to a potential complete loss of investment.
- **Expansion and Retention of Management Team** The successful completion of store openings and marketing goals is contingent on the expansion of the management team, in particular with regard to store management and technical repair capabilities. Failure to acquire and retain these key personnel could adversely affect operations, and cause a delay in meeting the Company's financial and expansion goals.
- **Status as a Minority Shareholder.** As a minority holder of Class A Preferred Stock, an investor will have limited ability, if at all, to influence Company policies or any other corporate matter, including the election of directors, changes to the Company's governance documents, additional issuances of securities, Company repurchases of securities, a sale of the Company or of assets of the Company, or transactions with related parties.

In addition, there is the potential for dilution. Assuming the sale of the Maximum, two hundred thousand (200,000) Class A Preferred Shares would be sold, leaving an additional two hundred thousand (200,000) authorized but unissued Class A Preferred Shares available for another round of stock sales. If additional Shares are sold, each investor's ownership percentage in the Company would be diluted. In other words, when the Company issues more Shares, the percentage of the Company that an existing shareholder owns will decrease, even though the value of the Company may increase. This increase in number of Shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round or angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible notes, preferred shares or warrants) into stock.

If the Company decides to issue more Shares, an investor could experience value dilution, with each Share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per Share. The type of dilution that hurts early-stage investors mostly occurs when the Company sells more shares in a "down round," meaning at a lower valuation than in earlier offerings.

Any investor making an investment expecting to own a certain percentage of the Company or expecting each Share to hold a certain amount of value, must realize how the value of Shares can decrease by actions taken by the Company. Dilution can make drastic changes to the value of each Share, ownership percentage, voting control, and earnings per Share.

The combination of the Class A Preferred Shares and the Class A Common Shares shall at all times, and irrespective of any future issuance of Shares of any class, constitute thirty-five percent (35%) of the voting Shares of the Company. Class A Preferred Shares are entitled to a dividend preference and a liquidation preference as set forth below. Upon the date that the cumulative dividend distributions made to each Class A Preferred shareholder equals the initial purchase price of the Class A Preferred Share when issued by the Company, the Class A Preferred Share shall be automatically converted to a Class A Common Share. Upon the date that all four hundred thousand (400,000) Class A Preferred Shares have been converted to Class A Common Shares, no further Class A Preferred Shares shall be issued.

Class C Non-voting Common Shares shall be restricted to employees of the Company and issued by the Board of Directors on such terms and conditions as the Board of Directors deems appropriate in its sole discretion, including vesting or forfeiture schedules determined on an individual, case-by-case basis. Class C Non-voting Common Shares outstanding (including both vested and unvested Class C Non-voting Common Shares) may not at any time exceed ten percent (10%) of the total Class A Shares (Preferred and Common), Class B Common Shares and Class C Non-voting Common Shares outstanding at such time (which shall be equitably adjusted to give effect to any Share split, reverse split or similar reclassification of the Shares). Class C Non-voting Common Shares shall be non-voting Shares, except as may be reserved under Arkansas law.

Class A Preferred Shares, Class A Common Shares, Class B Common Shares and Class C Non-voting Common Shares together shall constitute all of the equity interests in the Company and Class A Shares (Preferred and Common) combined with Class B Common Shares shall constitute one hundred percent (100%) of the voting Shares. Equity interests and voting interests shall be allocated among the holders of Class A Shares (Preferred and Common), Class B Common Shares and Class C Non-voting Common Shares consistent with the provisions of paragraph 2 of the Articles of Incorporation of the Company.

## **DIVIDEND AND LIQUIDATION RIGHTS**

The Company may, but is not required to, distribute dividends on the Shares from time to time. Any dividend, or any disbursement due to liquidation, shall comply with the following:

- (a) Dividends shall be distributed as follows:
  - (i) First, until the shareholders owning Class A Preferred Shares have received cumulative distributions under subsection (A) below equal to their initial purchase price of the Class A Preferred Shares when issued by the Company (“**Basis**”):
    - (A) Seventy percent (70%) to shareholders owning Class A Preferred Shares pro rata in proportion to each shareholder’s ownership of Class A Preferred Shares to the total of all outstanding Class A Preferred Shares; and
    - (B) Thirty percent (30%) to common shareholders pro rata in proportion to each shareholder’s ownership of Class A Common Shares, Class B Common Shares and/or Class C Non-voting Common Shares to the total of all outstanding Class A Common, Class B Common and Class C Non-voting Common Shares.
  - (ii) After all shareholders owning Class A Preferred Shares have received cumulative distributions equal to their Basis and each Class A Preferred Share has been converted to a Class A Common Share, dividends shall be distributed to the

shareholders owning Class A Common Shares, Class B Common Shares and Class C Non-voting Common Shares in proportion to the shareholders' ownership of Class A Common Shares, Class B Common Shares and Class C Non-voting Common Shares to the total number of Class A Common Shares, Class B Common Shares and Class C Non-voting Common Shares outstanding, as adjusted from time to time. For the purposes of this section, only vested Class C Non-voting Common Shares shall be counted among Shares outstanding.

(b) Upon dissolution of the Company (i) an accounting shall be made by the Company's accountants of the accounts of the Company and of the Company's assets, liabilities and operations, from the date of the last previous accounting until the date of dissolution, and (ii) the Board of Directors shall proceed to wind up and liquidate the Company's assets (except to the extent the Board of Directors may determine to distribute any assets to the shareholders in kind), discharge the Company's obligations, and wind up the Company's business and affairs as promptly as is consistent, in the Board of Directors' sole judgment, with obtaining the fair value thereof. The proceeds of liquidation belonging to the Company, to the extent sufficient, shall be applied and distributed as follows:

- (i) First, to the payment and discharge of all of the Company's debts and liabilities to third parties except those owing to shareholders in general or to the establishment of any reasonable reserves for contingent or unliquidated debts and liabilities of the Company, as appropriate;
- (ii) Second, to the payment of any debts and liabilities owing to the shareholders;
- (iii) Third, to the shareholders holding Class A Preferred Shares the amount of their unreturned Basis;
- (iv) Fourth, subject to the ten percent (10%) limitation applicable to Class C Non-voting Common Shares as set forth in Section 2(d) of the Articles of Incorporation, to the shareholders in proportion to their ownership of Shares.

(c) Any assets distributed in kind shall be both (i) valued for this purpose at their net fair market value, and (ii) deemed to have been sold as of the date of dissolution. Fair market value of the Company's assets shall be determined by the Board of Directors; provided, however, that the Board of Directors may engage another person, at the expense of the Company to advise the Board of Directors with respect to the determination of fair market value.

(d) Upon completion of the winding up, liquidation and distribution of the assets, the Company shall be deemed terminated, and the Board of Directors shall (i) file Articles of Dissolution with respect to the Company with the Arkansas Secretary of State and (ii) comply with any requirements of applicable law pertaining to the winding up of the affairs of the Company and the final distribution of its assets.

### *Financial Statements*

Audited financial statements can be found attached to this document. The audit covers the period ending 12-31-2017.

### *Financial Condition; Results of Operations*

As of the date of this Circular, the Company has begun generating operating revenue upon opening of the first store located in Springfield, Missouri on April 30, 2018. Management believes that it will be a significant period before positive cash flow is generated.

The company will spend a majority of the funds raised on franchise and area development fees, capital expenses in opening new stores, and ongoing operating expenses.

### *Liquidity and Capital Resources*

The Company is currently generating operating losses and requires the continued infusion of new capital to continue business operations. If the Company is successful in this offering, it will likely seek to continue to raise capital under crowdfunding offerings, equity or debt issuances, or any other method available to the Company. Management believes that if the Company raises the Maximum, it will be able to sustain the business by controlling the pace at which new locations are opened. If the Company does not reach the Maximum, it will seek to raise additional capital on an expedited basis and adjust its schedule for opening new locations.

*Indebtedness*

The Company's material indebtedness consists of a convertible note as follows:

<u>Amount</u>	<u>Interest Rate</u>	<u>Maturity Date</u>	<u>Conversion Feature</u>
\$100,000	6% per annum	Upon ninety (90) days demand or April 16, 2020	Principal and accrued interest for Class A Preferred Shares at Five Dollars (\$5.00) Per Share

*Recent offerings of securities*

The Company offered its convertible note under Rule 506(b) of Regulation D. Up to an additional One Hundred Fifty Thousand Dollars (\$150,000) may be offered to Accredited Investors.

*Valuation*

\$9,511,111 as a pre-offering valuation based upon the sale of the Maximum yielding an eleven and twenty-five one hundredths percent (11.25%) of the equity of the Company without consideration of the conversion of the convertible note or additional sales of convertible notes but with full issuance of Class C Non-voting Common Stock to a total of ten percent (10%) of the equity of the Company to employees. The Company has not undertaken an independent valuation of the Company. The price of the Shares reflects the opinion of the Directors as to what would be fair market value.
