Justin Lee

Founder of Zeehaus Inc.
San Francisco, California, United States

Summary

Founder of Zeehaus.com with 20 years of combined experiences in data analytics, consulting, real estate & mortgage domain knowledge and technical background in system integration, data architecture & web technology. Licensed CA real estate agent with extensive flipping and real estate experiences, as well as finance background through experiences as a licensed general securities representative with Merrill Lynch and multiple large-scale ERP implementations. Prior to founding Zeehaus, Justin worked at BI & Data start-up in San Francisco. Graduated with a Bachelor of Science (BS) focused in Electrical Engineering from Cornell University.

Experience

Zeehaus Inc.
Founder
May 2018 - Present (5 years 1 month)
San Francisco Bay Area

Zeehaus is an innovative real estate platform with a focus on fractional ownership, helping buyers achieve homeownership by purchasing 5% equity & lower entry of barriers by sharing home equity and expenses with investors. We enable a new way to invest in rental investment properties entirely online by tokenizing each property on the blockchain, storing property title in a Delaware Trust, and providing a simple self-serve investing portal encompassing legal framework, digital platform, and fractional shares at \$100 increments with potential liquidity.

Our mission is to lower the barriers for homebuyers and lower monthly housing costs while enabling real estate investors to click-sign-purchase real estate fractional ownership, starting at \$100 of property value. Combining equity sharing ownership, the blockchain, and digital coins, we are here to help achieve homeownership for buyers and provide investors with liquid & transparent investment opportunities with low fees.

Deloitte

Manager

January 2016 - May 2018 (2 years 5 months)

San Francisco Bay Area

Collaborated with the Enterprise Data Architect to align BI solution with corporate strategy, outlining the BI reporting approach with supporting documentation.
