BILLION VEGANS, INC.

Reviewed Financial Statements For The Years Ended December 31, 2018 and 2017

September 6, 2019

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To Management Billion Vegans, Inc. Menifee, CA

We have reviewed the accompanying financial statements of Billion Vegans, Inc. (a corporation), which comprise the balance sheet as of December 31, 2018 and 2017, and the related statements of income, changes in shareholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, We do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether We are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of Our procedures provide a reasonable basis for Our conclusion.

Accountant's Conclusion

Based on Our review, We are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note B, certain conditions raise an uncertainty about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note B. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our conclusion is not modified with respect to this matter.

Jason M. Tyra, CPA, PLLC

BILLION VEGANS, INC. NOTES TO FINANCIAL STATEMENTS (REVIEWED) DECEMBER 31, 2018 AND 2017

NOTE A- ORGANIZATION AND NATURE OF ACTIVITIES

Billionvegans, Inc. ("the Company") is a corporation organized under the laws of the State of Delaware. The Company operates an e-commerce marketplace that focuses on vegan products relating to food, health and fashion products. The Company has a wholly owned subsidiary that was incorporated in Israel in November 2016.

NOTE B- GOING CONCERN MATTERS

The financial statements have been prepared on the going concern basis, which assumes that the Company will continue in operation for the foreseeable future. However, management has identified the following conditions and events that created an uncertainty about the ability of the Company to continue as a going concern. The Company encountered negative liquidity in both years and may not generate enough cash to meet current liabilities.

The following describes management's plans that are intended to mitigate the conditions and events that raise substantial doubt about the Company's ability to continue as a going concern. The Company plans to raise funds to meet obligations through a Reg CF equity offering. The Company's ability to meet its obligations as they become due is dependent upon the success of management's plans, as described above.

These conditions and events create an uncertainty about the ability of the Company to continue as a going concern through September 6, 2020 (one year after the date that the financial statements are available to be issued). The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

NOTE C- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Consolidated Financial Statements

The financial statements represent the results of the Company and its wholly owned Israeli subsidiary. In preparing the statements, all significant transactions between the two entities have been eliminated. Additionally, the Company recognized an adjustment for currency conversion between the Israeli Shekel and the US Dollar.

Significant Risks and Uncertainties

The Company is subject to customary risks and uncertainties associated with dependence on key personnel, costs of services provided by third parties, the need to obtain additional financing, and limited operating history.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates inherent in the preparation of these financial statements include, but are not limited to, the prior period consolidating adjustments found on the financials.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Revenue

The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, or services have been rendered, the fee for the arrangement is fixed or determinable and collectability is reasonably assured.

Restricted Deposits

Deposits totaling \$9,607 are pledged to secure financial commitments with a bank.

Fixed Assets

The Company capitalizes assets with an expected useful life of one year or more, and an original purchase price of \$1,000 or more. Depreciation is calculated on a straight-line basis over management's estimate of each asset's useful life.

Income Taxes

The Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities. ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely than not" that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax filing requirements as a corporation in the federal jurisdiction of the United States. The Company sustained net operating losses during fiscal years 2016 and 2017. Net operating losses will be carried forward to reduce taxable income in future years. Due to management's uncertainty as to the timing and valuation of any benefits associated with the net operating loss carryforwards, the Company has elected to recognize an allowance to account for them in the financial statements, but has fully reserved it. Under current law, net operating losses may be carried forward indefinitely.

<u>.....</u>

The Company is subject to franchise and income tax filing requirements in the State of Delaware.

Functional Currency

The currency of the primary economic environment in which operation of the Company are conducted in the NIS ("Shekel"). Thus, the Shekel is the functional currency of the Company. Transactions and balances originally denominated in NIS are presented at their US dollar equivalent amounts.

Financial Statements Translated into U.S. Dollars

The financial statements of December 31, 2018 and 2017, and for the years then ended have been translated into Dollars using the representative exchange rate as of December 31, 2018 (\$1 = 3.748 N.1.5), and December 31, 2017 (\$1 = 3.467 N.1.5)

Recently Adopted Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board, or FASB, or other standard setting bodies and adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued standards that are not yet effective will not have a material impact on its financial position or results of operations upon adoption.

In November 2015, the FASB issued ASU (Accounting Standards Update) 2015-17, *Balance Sheet Classification of Deferred Taxes*, or ASU 2015-17. The guidance requires that all deferred tax assets and liabilities, along with any related valuation allowance, be classified as noncurrent on the balance sheet. For all entities other than public business entities, the guidance becomes effective for financial statements issued for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for all entities as of the beginning of an interim or annual reporting period. The adoption of ASU 2015-17 had no material impact on the Company's financial statements and related disclosures.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230), Restricted Cash, or ASU 2016-18. The amendments of ASU 2016-18 were issued to address the diversity in classification and presentation of changes in restricted cash and restricted cash equivalents on the statement of cash flows which is currently not addressed under Topic 230. ASU 2016-18 would require an entity to include amounts generally described as restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning of period and end of period total amounts on the statement of cash flows. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2018 for non-public entities. Early adoption is permitted, and the standard must be applied retrospectively. The adoption of ASU 2016-18 had no material impact on the Company's financial statements and related disclosures.

In May 2014, the FASB issued ASU, 2014-09—Revenue from Contracts with Customers (Topic 606), or ASU 2014-09, and further updated through ASU 2016-12, or ASU 2016-12, which amends the existing accounting standards for revenue recognition. ASU 2014-09 is based on principles that govern the recognition of revenue at an amount to which an entity expects to be entitled to when products are transferred to customers. This guidance is effective for annual reporting periods, and interim periods within those years, beginning December 15, 2018 for non-public entities. The new revenue standard may

be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of adoption. The adoption of ASU 2014-09 had no material impact on the Company's financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), or ASU 2016-02, which supersedes the guidance in ASC 840, Leases. The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. This guidance is effective for annual reporting periods beginning after December 15, 2019 for non-public entities. The adoption of ASU 2016-02 had no material impact on the Company's financial statements and related disclosures.

In March 2016, the FASB issued ASU 2016-09, *Improvements to Employee Share-based Payment Accounting*, or ASU 2016-09. ASU 2016-09 simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas of simplification apply only to non-public companies. This guidance was effective on December 31, 2016 for public entities. For entities other than public business entities, the amendments are effective for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for an entity in any interim or annual period for which financial statements have not been issued or made available for issuance. An entity that elects early adoption must adopt all amendments in the same period. The adoption of ASU 2016-09 had no material impact on the Company's financial statements and related disclosures.

In May 2017, the FASB issued ASU 2017-09, *Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting*, or ASU 2017-09, which clarifies when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2017, for both public entities and non-public entities. Early adoption is permitted. The adoption of ASU 2017-09 had no material impact on the Company's financial statements and related disclosures.

NOTE D- DEBT

In 2017 & 2018, the company issued a series of notes payable in exchange for cash for the purpose of continuing operations ("the Notes Payable"). The loans do not accrue interest and are payable at a future date to be determined by management.

During the year ended December 31, 2018, the Company issued Simple Agreements for Future Equity ("SAFE"). The SAFE agreements have no maturity date and bear no interest. The SAFE agreements provide a right to the holder to future equity in the Company in the form of SAFE Preferred Stock. SAFE Preferred Stock are shares of a series of Preferred Stock issued to the investor in an equity financing, having identical rights, privileges, preferences and restrictions as the shares of standard Preferred Stock offered to non-holders of SAFE agreements other than with respect to: (i) the per share liquidation preference and the

conversion price for purposes of price-based anti-dilution protection, which will equal the conversion price; and (ii) the basis for any dividend rights, which will be based on the conversion price. The number of shares issued to the holder is determined by either (1) the face value of the SAFE agreement divided by the price per share of the standard preferred stock issued, if the pre-money valuation is less than or equal to the valuation cap; or (2) a number of shares of SAFE Preferred Stock equal to the face value of the SAFE agreement divided by the price per share equal to the valuation cap divided by the total capitalization of the company immediately prior to an equity financing event. Total capitalization of the company includes all shares of capital stock issued and outstanding and outstanding vested and unvested options as if converted.

If there is a liquidity event (as defined in the SAFE agreements), the investor will, at their option, either (i) receive a cash payment equal to the face value of the SAFE agreement ("Purchase Amount") or (ii) automatically receive from the Company a number of shares of common stock equal to the Purchase Amount divided by the price per share equal to the valuation cap divided by the Liquidity Capitalization ("Liquidity Price") (as defined in the SAFE agreements). If there are not enough funds to pay the holders of SAFE agreements in full, then all of the Company's available funds will be distributed with equal priority and pro-rata among the SAFE agreement holders in proportion to their Purchase Amounts and they will automatically receive the number of shares of common stock equal to the remaining unpaid Purchase Amount divided by the Liquidity Price.

If there is a dissolution event (as defined in the SAFE agreements), the Company will pay an amount equal to the Purchase Amount, due and payable to the investor immediately prior to, or concurrent with, the consummation of the dissolution event. The Purchase Amount will be paid prior and in preference to any distribution of any of the assets of the Company to holders of outstanding capital stock. If immediately prior to the consummation of the dissolution event, the assets of the Company legally available for distribution to all SAFE holders, are insufficient to permit the payment to their respective Purchase Amounts, then all of the assets of the Company legally available for distribution will be distributed with equal priority and pro-rata among the SAFE holders as a single class.

The SAFE agreements will expire and terminate upon either (i) the issuance of shares to the investor pursuant to an equity financing event or (ii) the payment, or setting aside for payment, of amounts due to the investor pursuant to a liquidity or dissolution event.

As of December 31, 2018, no SAFE agreements had been converted into equity, nor had any terminated or expired based on the terms of the agreements.

As of December 31, 2018, the Company had \$294,404 of SAFE obligations outstanding, with a valuation cap of \$5,000,000 and a discount rate of 80%.

The Company accounts for the SAFE agreements under ASC 480 (Distinguishing Liabilities from Equity), which requires that they be recorded at fair value as of the balance sheet date. Any changes in fair value are to be recorded in the statement of income. The Company has determined that the fair value at the date of issuance, and as of December 31, 2017 are both consistent with the proceeds received at issuance, and therefore there is no mark-to-market fair value adjustments required, or reflected in income for the year ended December 31, 2017.

NOTE E- FAIR VALUE MEASUREMENTS

Fair value is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants based on the highest and best use of the asset or liability. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The Company uses valuation techniques to measure fair value that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized as follows:

Level 1 - Observable inputs, such as quoted prices for identical assets or liabilities in active markets; Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly, such as quoted prices for similar assets or liabilities, or market-corroborated inputs; and Level 3 - Unobservable inputs for which there is little or no market data which require the reporting entity to develop its own assumptions about how market participants would price the assets or liabilities.

The valuation techniques that may be used to measure fair value are as follows:

Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Income approach - Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about those future amounts, including present value techniques, option-pricing models, and excess earnings method.

Cost approach - Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost).

NOTE F- CONCENTRATIONS OF RISK

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents. The Company places its cash and cash equivalents with a limited number of high-quality financial institutions and at times may exceed the amount of insurance provided on such deposits.

NOTE G- SUBSEQUENT EVENTS

Management considered events subsequent to the end of the period but before September 6, 2019, the date that the financial statements were available to be issued.
