

## Offering Statement for Gravity Power Inc. ("Gravity Power")

Gravity Power Inc. ("Gravity Power," the "Company," "we," or "us"), a Delaware C-Corp incorporated on July 21, 2023 (originally incorporated as an LLC on November 1, 2008), is holding the following offering:

*Gravity Power Inc. is offering securities in the form of Equity which provides investors with the right to Preferred B-2 Stock in the Company.*

**Target Offering:** \$9,999.75 | 13,333 Securities

**Maximum Offering Amount:** \$999,999.75 | 1,333,333 Securities

**Share Price:** \$0.75

**Type of Offering:** Equity

**Type of Security:** Preferred B-2 Stock

**Offering Deadline:** April 28, 2024

**Minimum Investment:** \$249.75

### **Bonuses:**

*Time-Based Incentives (Discount applied at time of investing):*

*Very Super Early Bird Bonus:* Invest at least \$249.75 by April 6, 2024, and receive a 37.5% discount on the share price.

*Super Early Bird Bonus:* Invest at least \$249.75 by April 14, 2024, and receive a 28.5% discount on the share price.

*Early Bird Bonus:* Invest at least \$249.75 by April 21, 2024, and receive a 16.5% discount on the share price.

*Last Chance Bonus:* Invest at least \$249.75 by April 28, 2024, and receive a 9.00% discount on the share price.

***Amount-Based Incentives (Bonus shares to be issued by the issuer after the raise has completed):***

Invest \$500+ and receive 5% Bonus Shares.

Invest \$1,000+ and receive 10% Bonus Shares.

Invest \$2,500+ and receive 15% Bonus Shares.

Invest \$5,000+ and receive 20% Bonus Shares.

Invest \$10,000+ and receive 30% Bonus Shares.

Invest \$20,000+ and receive 35% Bonus Shares.

Invest \$30,000+ and receive 40% Bonus Shares.

Invest \$40,000+ and receive 50% Bonus Shares.

\*Investors can receive one (1) time-based incentive and one (1) amount-based incentive per investment.

\*\*In order to receive perks from an investment, one must submit a single investment in the same offering that meets the minimum perk requirement. Bonus shares from perks will not be granted if an investor submits multiple investments that, when combined, meet the perk requirement. All perks occur when the offering is completed.

\*\*\*Crowdfunding investments made through a self-directed IRA cannot receive non-bonus share perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those non-bonus share perks because they would be receiving a benefit from their IRA account.

*The Minimum Individual Purchase Amount accepted under this Regulation CF Offering is \$249.75. The Company must reach its Target Offering Amount of \$9,999.75 by April 28, 2024 (the "Offering Deadline"). Unless the Company raises at least the Target Offering Amount of \$9,999.75 under the Regulation CF offering by the Offering Deadline, no securities will be sold in this Offering, investment commitments will be cancelled, and committed funds will be returned.*

This document is generated by PicMii Crowdfunding LLC ("PicMii"), which is not a registered broker-dealer. PicMii does not give investment advice, endorsement, analysis or recommendations with respect to any securities. All securities listed here are being offered by, and all information included in this document are the responsibility of, the applicable issuer of such securities. PicMii has not taken any steps to verify the adequacy, accuracy or completeness of any information. Neither PicMii nor any of its officers, directors, agents or employees makes any warranty, express or implied, of any kind whatsoever related to the adequacy, accuracy or completeness of any information in this document or the use of information in this document.

All regulation CF offerings are conducted through PicMii Crowdfunding LLC, a FINRA/SEC registered funding-portal. For inquiries related to Regulation CF securities, contact PicMii Crowdfunding LLC:

Chandler Kline: [chandler.kline@picmiicrowdfunding.com](mailto:chandler.kline@picmiicrowdfunding.com)

PicMii does not make investment recommendations and no communication through this website or in any other medium should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

### **Cautionary Note Concerning Forward-Looking Statements**

This Form C and any documents incorporated by reference herein contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C are forward-looking statements. Forward-looking statements give our current reasonable expectations and projections regarding our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "should," "can have," "likely," and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

The forward-looking statements contained in this Form C and any documents incorporated by reference herein are based on reasonable assumptions we have made in light of our industry experience, perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. As you read and consider this Form C, you should understand that these statements are not guarantees of performance or results. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual operating and financial performance and cause our performance to differ materially from the performance anticipated in the forward-looking statements. Should one or more of these risks or uncertainties materialize or should any of these assumptions prove incorrect or change, our actual operating and financial performance may vary in material respects from the performance projected in these forward-looking statements.

Investors are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements made in this Form C or any documents incorporated by reference herein is accurate only as of the date of those respective documents. Except as required by law, we undertake no obligation to publicly update any forward- looking statements for any reason after the date of this Form C or to conform these statements to actual results or to changes in our expectations.

## **About This Form C**

**In making an investment decision, investors must rely on their own examination of the Company and the terms of the Offering, including the merits and risks involved. These Securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.**

**The U.S. Securities and Exchange Commission does not pass upon the merits of any Securities offered or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.**

**These Securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these Securities are exempt from registration.**

THESE SECURITIES INVOLVE A HIGH DEGREE OF RISK THAT MAY NOT BE APPROPRIATE FOR ALL INVESTORS. THERE ARE ALSO SIGNIFICANT UNCERTAINTIES ASSOCIATED WITH AN INVESTMENT IN OUR COMPANY AND THE SECURITIES. THE SECURITIES OFFERED HEREBY ARE NOT PUBLICLY TRADED. THERE IS NO PUBLIC MARKET FOR THE SECURITIES AND ONE MAY NEVER DEVELOP. AN INVESTMENT IN OUR COMPANY IS HIGHLY SPECULATIVE. THE SECURITIES SHOULD NOT BE PURCHASED BY ANYONE WHO CANNOT BEAR THE FINANCIAL RISK OF THIS INVESTMENT FOR AN INDEFINITE PERIOD OF TIME AND WHO CANNOT AFFORD THE LOSS OF THEIR ENTIRE INVESTMENT. SEE THE SECTION OF THIS FORM C TITLED "RISK FACTORS".

THE SECURITIES OFFERED HEREBY WILL HAVE TRANSFER RESTRICTIONS. NO SECURITIES MAY BE PLEDGED, TRANSFERRED, RESOLD OR OTHERWISE DISPOSED OF BY ANY INVESTOR EXCEPT PURSUANT TO RULE 501 OF REGULATION CF. YOU SHOULD BE AWARE THAT YOU WILL BE REQUIRED TO BEAR THE FINANCIAL RISKS OF THIS INVESTMENT FOR AN INDEFINITE PERIOD OF TIME.

YOU ARE NOT TO CONSTRUE THE CONTENTS OF THIS FORM C AS LEGAL, ACCOUNTING OR TAX ADVICE OR AS INFORMATION NECESSARILY APPLICABLE TO YOUR PARTICULAR FINANCIAL SITUATION. EACH INVESTOR SHOULD CONSULT THEIR OWN FINANCIAL ADVISER, COUNSEL AND ACCOUNTANT AS TO LEGAL, TAX AND RELATED MATTERS CONCERNING THEIR INVESTMENT.

THIS OFFERING IS ONLY EXEMPT FROM REGISTRATION UNDER THE LAWS OF THE UNITED STATES AND ITS TERRITORIES. NO OFFER IS BEING MADE IN ANY JURISDICTION NOT LISTED ABOVE. PROSPECTIVE INVESTORS ARE SOLELY RESPONSIBLE FOR DETERMINING THE PERMISSIBILITY OF THEIR PARTICIPATING IN THIS OFFERING, INCLUDING OBSERVING ANY OTHER REQUIRED LEGAL FORMALITIES AND SEEKING CONSENT FROM THEIR LOCAL REGULATOR, IF NECESSARY. THE INTERMEDIARY FACILITATING THIS OFFERING IS LICENSED AND REGISTERED SOLELY IN THE UNITED STATES AND HAS NOT SECURED, AND HAS NOT SOUGHT TO SECURE, A LICENSE OR WAIVER OF THE NEED FOR SUCH LICENSE IN ANY OTHER JURISDICTION. THE COMPANY, THE ESCROW AGENT AND THE INTERMEDIARY, EACH RESERVE THE RIGHT TO REJECT ANY INVESTMENT COMMITMENT MADE BY ANY PROSPECTIVE INVESTOR, WHETHER FOREIGN OR DOMESTIC.

### **SPECIAL NOTICE TO FOREIGN INVESTORS**

IF YOU LIVE OUTSIDE THE UNITED STATES, IT IS YOUR RESPONSIBILITY TO FULLY OBSERVE THE LAWS OF ANY RELEVANT TERRITORY OR JURISDICTION OUTSIDE THE UNITED STATES IN CONNECTION WITH ANY PURCHASE OF THE SECURITIES, INCLUDING OBTAINING REQUIRED GOVERNMENTAL OR OTHER CONSENTS OR OBSERVING ANY OTHER REQUIRED LEGAL OR OTHER FORMALITIES. WE RESERVES THE RIGHT TO DENY THE PURCHASE OF THE SECURITIES BY ANY FOREIGN INVESTOR.

### **NOTICE REGARDING THE ESCROW AGENT**

ENTERPRISE BANK AND TRUST, THE ESCROW AGENT SERVICING THE OFFERING, HAS NOT INVESTIGATED THE DESIRABILITY OR ADVISABILITY OF AN INVESTMENT IN THIS OFFERING OR THE SECURITIES OFFERED HEREIN. THE ESCROW AGENT MAKES NO REPRESENTATIONS, WARRANTIES, ENDORSEMENTS, OR JUDGEMENT ON THE MERITS OF THE OFFERING OR THE SECURITIES OFFERED HEREIN. THE ESCROW AGENT'S CONNECTION TO THE OFFERING IS SOLELY FOR THE LIMITED PURPOSES OF ACTING AS A SERVICE PROVIDER.

## **Bad Actor Disclosure**

The Company is not subject to any bad actor disqualifications under any relevant U.S. securities laws.

## **Ongoing Reporting**

Following the first sale of the Securities, the Company will file a report electronically with the Securities and Exchange Commission annually and post the report on its website, no later than 120 days after the end of the Company's fiscal year.

Once posted, the annual report may be found on the Company's website as

<https://www.gravitypower.net>

The Company must continue to comply with the ongoing reporting requirements until:

1. the Company is required to file reports under Section 13(a) or Section 15(d) of the Exchange Act;
2. the Company has filed at least three annual reports pursuant to Regulation CF and has total assets that do not exceed \$10,000,000;
3. the Company has filed at least one annual report pursuant to Regulation CF and has fewer than 300 holders of record;
4. the Company or another party repurchases all of the Securities issued in reliance on Section 4(a)(6) of the Securities Act, including any payment in full of debt securities or any complete redemption of redeemable securities; or
5. the Company liquidates or dissolves its business in accordance with applicable state law.

# The Company

## 1. What is the name of the issuer?

Gravity Power Inc.

945 Ward Drive, #28, Santa Barbara, CA 93101

## Eligibility

### 2. The following are true for Gravity Power Inc.:

1. Organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia.
2. Not Subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
3. Not an investment company registered or required to be registered under the Investment Company Act of 1940.
4. Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding. (For more information about these disqualifications, see Question 30 of this Question and Answer Format).
5. Has filed with the Commission and provided investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
6. Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

### 3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

No.

# Directors, Officers and Promoters of the Company

**4. The following individuals (or entities) represent the company as a director, officer or promoter of the offering:**

## **Employee Name and Title**

Orlo James Fiske: CTO (Primary Position)

## **Employee Background**

Experienced in digital image processing hardware design, digital electronics, computer design, CAD software development, electro-mechanical system design, maglev transportation, energy storage, and low-cost space launch.

## **3-Year Work History**

**Position:** CTO

**Employer:** Gravity Power Inc. (primary position)

**Dates:** May, 2011 – Present

**Position:** Board Member

**Employer:** Gravity Power Inc.

**Dates:** Nov, 2008 – Present

**Position:** Co-Founder

**Employer:** Gravity Power Inc.

**Dates:** Nov, 2008 – Present

**Position:** Advisor

**Employer:** Auriga Space

**Dates:** September, 2022 -Present

## **Employee Name and Title**

Thomas R Mason: VP Engineering and Construction/Board Member (Primary Role)

## **Employee Background**

President of CalEnergy in mid 1990s and EVP of Calpine Corp and President of Calpine Power Company from 1999 to 2006. Constructed and acquired power plants through that period, operating 92 gas fired and geothermal power plants in 2006. Equity Compensation: 3,452,803 shares.

### **3-Year Work History**

**Position:** VP Engineering and Construction (Primary Position)

**Employer:** Gravity Power Inc.

**Date:** March, 2022 – Present

**Position:** Board Member

**Employer:** Gravity Power Inc.

**Date:** December, 2010 - Present

**Position:** Plant Manager

**Employer:** Greenleaf Power

**Date:** July, 2020 - January, 2021

**Position:** CEO

**Employer:** Gravity Power, LLC

**Date:** May, 2011 – March, 2022

### **Employee Name and Title**

William Stevens (Steve) Taber Jr: CEO and Chairman (Primary Position)

### **Employee Background**

A leading developer of energy efficiency and renewable energy projects throughout the world. Led the industry in numerous areas of innovation, including business models, renewable energy technologies, and financing techniques.

### **3-Year Work History**

**Position:** CEO

**Employer:** Gravity Power Inc. (primary position)

**Date:** March, 2022 – Present

**Position:** Chairman

**Employer:** Gravity Power Inc. (primary position)

**Date:** February, 2021 - Present

**Position:** CEO/Chairman

**Employee:** Princeton Energy Companies

**Date:** January, 1992 – Present

## **Employee Name and Title**

Dr. Robert B. Weisenmiller: Board Member

*Dr. Robert B. Weisenmiller's current primary role is with Robert Weisenmiller, LLC. Dr. Robert B. Weisenmiller currently services 1-4 hours per week in their role with the issuer.*

## **Employee Background**

Former Chair of the California Energy Commission and one of the world's leading voices on energy. Helped shape California's pioneering energy policies, Co-founded and managed MRW & Associates, to assist organizations in strategic planning, policy development, energy market analysis and regulation, power pricing for qualifying facility projects, marginal cost analysis, rate design, and implication of utility mergers.

## **3-Year Work History**

**Position:** Board Member

**Employer:** Gravity Power Inc.

**Date:** August, 2021 – Present

**Position:** Robert Weisenmiller, LLC (Primary Position)

**Employer:** Executive Director

**Date:** March, 2019 – Present

**Position:** Research Affiliate

**Employer:** California-China Climate Institute at UCB

**Date:** September, 2019 – Present

**Position:** Board Member

**Employer:** National Academy of Sciences, Board of Energy and Environmental Systems

**Date:** January, 2017 – Present

**Position:** Panels Member

**Employer:** Singapore's International Advisory Panel on Energy (IAP)

**Date:** January, 2019 – Present

# Principal Security Holders

**5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control - as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.**

## **Principal Security Holder Name**

O. James Fiske

## **Securities**

4,763,016

## **Security Class**

Common Stock

## **Voting Power**

29.922%

# Business and Anticipated Business Plan

## 6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

### Business Overview:

Gravity Power Inc. ("Gravity Power" or the "Company") is a pre-revenue Delaware corporation that offers technology for long-duration, grid-connected electrical energy storage. The Company's business model is projected to consist of licensing their technology and offering technical support focused on electric load-serving entities, independent power producers, transmission companies, and similar entities.

We intend to offer our technology across the globe through direct-to-business channels and through intermediaries, such as engineering companies. The Company believes that it is a favorable investment because of unbeatable customer value (we have what we believe is the only storage tech that is low-levelized cost, environmentally benign, high efficiency, and straightforward to site), broad patent protection (4 patents in 20 countries), an active investment climate for energy storage, and an attractive share price.

The Company's plants are projected to provide long-duration energy storage (4-16 hours, daily cycle). The long-duration energy storage segment is primarily for daily generation shifting. The main carbon-free generation resources (wind, solar, geothermal, and nuclear) cannot follow load. Therefore, grid decarbonization requires that energy be shifted within each day, that is, stored during hours of overgeneration (typically solar in the middle of the day, wind late at night, and base load plants, such as geothermal and nuclear, during periods of low demand), then delivered into the hours of peak demand (in the US usually late afternoon-evening and, to a lesser extent, the morning before the solar resource ramps up).

Solar generation is projected to be over half of the new US electrical generating capacity in 2023. To make that energy useful, the electrical grid will need to either (1) back up that supply with fossil-fuel-fired turbines or (2) store large portions of that energy to be supplied when it is useful. According to Allied Market Research, the global market for energy storage was 5188.S billion in 2020 and is projected to grow to \$435.4 billion in 2030.

We believe that the Gravity Power technology offers the only technology with the cardinal virtues for energy storage:(1) low levelized cost (2) minimal environmental impact (3) high round trip efficiency and (4) relative ease of siting and permitting. Gravity Power works by hydraulic lifting/descending of an underground piston, coupled with a conventional hydroelectric powerhouse, to store and re-generate electricity.

Gravity Power holds 4 key, competition-blocking patents on this technology, in 20 countries. Energy storage is essential to decarbonizing the grid; Gravity Power believes that it can capture much of the global market, estimated to be \$1 trillion by 2040, and make a sizable dent in climate change, all with a potentially capital-efficient, lucrative business model.

Gravity Power Inc. was created on November 17, 2008, as Launchpoint Innovations LLC, on September 29, 2009, the Company name was changed to Gravity Power, LLC, and eventually converted to a newly formed Delaware corporation on July 21 2023.

### **Gravity Power LLC Patent Summary**

As of March 2024, Gravity Power has patent protection in 20 countries covering the major world markets. Provisional patent applications were first filed by LaunchPoint Technologies in 2008. As part of the Series A investment that closed in early 2009, an exclusive license to all patents derived from these provisional patent applications was granted to LaunchPoint Innovations, later renamed Gravity Power LLC.

LaunchPoint Technologies filed a full application with the World Intellectual Property Organization (WIPO) on February 5th, 2009 (International Publication WO 2009/100211 A2). This application included several implementations of gravitational potential energy storage systems and related designs. The first U.S. Patent (8,166,760) was issued on May 1, 2012. This primarily covers a multiple-piston version of the GPP. The related patent CN 103,321,850B was issued in China in 2016.

GP subsequently filed a divisional application in the U.S. to cover our current single-piston GPP design and amended our foreign applications to focus on this design as well. These all have the benefit of the same priority dates as the original 2008 provisional applications. This resulted in the award of U.S. patent 8,966,899 on March 3, 2015, and foreign patents 5441930 in Japan, 333713 in Mexico, 2713742 in Canada, 10-1,590,806 in South Korea, PI0907201-2 in Brazil and EP2263006B1 in Europe. The European patent is validated in nine countries.

On May 27, 2014, the USPTO issued patent 8,737,558 in response to GP's mechanical cable-based Divisional Application. Related patent CN 101,932,830B was issued in China in 2013.

In 2013 GP filed a provisional patent application to cover design improvements developed over the previous two years to make the GPP a more economic system with less technical complexity and risk. This was followed by both US (14/465,736) and international (PCT/US2014/052187) patent applications in August 2014. In February 2016, GP initiated National Phase filings for coverage in China, South Africa, Australia, Japan, and the European Patent Office. These applications resulted in the award of patent 9,869,291 in the US, CN105,556,112B in China, 2016/01739 in South Africa, AU2014308692 in Australia, JP6479806 in Japan and EP3036433 in Europe. The European patent is validated in Germany, the UK, France, Ireland, and Switzerland. In August of 2020 related patent AU2018236818 was issued in Australia.

In 2021 GP filed application PCT/US22/27578 covering GPP seal system maintenance, replacement, and seismic isolation. In 2022 GP filed provisional application 63/338,325 covering offshore installation of Gravity Power Plants. In 2023 GP filed Provisional 63/489,126 covering above-ground installation of Gravity Power Plants. In 2021, title to all Gravity Power IP was assigned to Gravity Power LLC.

Measures to protect B-2 shareholders from a pending licensing dispute with a third party. As of January 5, 2017, Gravity Power LLC (the predecessor entity to Gravity Power Inc) entered into a license agreement with GEAG of Germany, granting them the right to sell energy storage plants using the patented Gravity Power technology in parts of Europe, provided that GEAG pay to Gravity Power LLC regular license fees in amounts stipulated by the license agreement between the two companies. GEAG fell into default on the payment of license fees as of 31 December 2017. Gravity Power LLC permitted the license agreement to remain in effect for 26 months, to give GEAG ample opportunity to cure its default. Gravity Power LLC formally terminated the license agreement for uncured default on 28 February 2020.

GEAG has claimed the right to be reimbursed by Gravity Power Inc for certain costs, in the amount of €1,197,352.58, but has not provided evidence supporting this claim, despite Gravity Power LLC's request for it. Gravity Power Inc disputes this claim. Furthermore, even if GEAG's claim were sustained, Gravity Power Inc takes the position that that it is largely offset by past due license fees which GEAG owes Gravity Power Inc., in the amount of €1,050,000. Finally, GEAG's claim appears to be fully vitiated by the applicable Statute of Limitations. In light of these facts, Gravity Power Inc considers the GEAG claim to be baseless.

If an award to GEAG were compelled by a final adjudication, it would reduce the amount of cash available to Gravity Power Inc to fund its operations and may compel Gravity Power Inc to seek additional investment. The company wishes to protect the B-2 shareholders against dilution from such an event. As discussed above under Partial Anti-dilution Protection for Preferred B-2 Shareholders, Gravity Power has set aside shares to be used as performance incentives, which are on the founders' side of the cap table and do not dilute the B-2 shareholders. In the event, which we deem very unlikely, that Gravity Power Inc was compelled to remit funds to GEAG, Gravity Power Inc would either (1) issue additional shares pari passu to the B-2 shareholders, in the aggregate amount of the funds awarded to GEAG, or (2) extinguish a number of these founders'-side shares, equal to the amount of funds remitted to GEAG divided by the share offering price. Either such a share award or a founders'-side share extinguishment would mitigate for the B-2 shareholders the dilutive effect of an award to GEAG and/or of the injection of additional capital.

### **Competitors and Industry:**

The dominant legacy technology is pumped storage hydroelectric (PSH), with a 94% global market share. PSH offers low levelized cost, high efficiency, reliability, and grid stabilization, but it is environmentally damaging and controversial. As a result, PSH projects in advanced economies typically take a decade or more to secure approvals, and many are simply abandoned in the face of public opposition.

Lithium-ion batteries have gained some market share, but they are also environmentally damaging and too expensive for grid-connected energy storage at scale. Other technologies in the market or in the technology pipeline include chemical batteries, compressed air, chemical and batteries, mechanical lifting of weights, hydrogen, thermal, Energy Vault, HydroStore, Gravitricity, et al). We believe none offer the compelling value proposition that Gravity Power does.

We see the energy storage market in 3 segments: (1) short-duration energy storage (up to 4 hours), (2) long-duration energy storage (daily generation shifting, such as Gravity Power) and (3) very long-duration energy storage (multiple days or weeks cycle). The second segment (daily generation shifting) is the largest segment and the workhorse of grid decarbonization, where most of the energy throughput and therefore most of the potential for greenhouse gas mitigation lies.

We believe Gravity Power is projected to be strongly competitive in the first two segments, but not in the third, which is a better fit for low CapEx storage technologies such as hydrogen and flow (RedOx). These third-segment technologies often suffer from low round trip efficiency, but since the duty cycle is so long and the energy throughput is low, this is acceptable in order to take advantage of the low CapEx.

### **Current Stage:**

Gravity power has completed the basic engineering of the technology, developed preliminary component designs and construction methods, secured intellectual property protection, and engaged with numerous customers. The path forward is to complete the detailed engineering, proving seals and constructing a pilot plant, and executing commercial sales. Numerous electric utilities and end users are actively seeking to get off fossil fuels, so the market timing is propitious.

### **Future Roadmap**

The Company intends to offer plants capable of generating as little as 200MWh and as large as 10,000 MWh or more. The upper and lower limits are economical, not technical. The 200 MW to 400 MW rotating equipment provides optimal efficiency and \$/MW cost.

Multiple machines can operate on one power shaft. As a result, we believe plants ranging from 50 MW to 1,600 MW of capacity capable of generating for 4 to 16 hours a day will be economically superior to alternatives, with the small end being the least competitive.

The Company intends to focus on building a Business Development program to pursue projects in all of the major world markets. We intend that the plants will be engineered and constructed by world-class, deep pocket, financeable engineering and construction firms. The Company aims to have three commercial projects in construction in the next five years.

# Risk Factors

**Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.**

## **Risks Related to the Company's Business and Industry**

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters. The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

## **Global crises such as COVID-19 can have a significant effect on our business operations and revenue projections.**

There is an ongoing outbreak of a novel and highly contagious form of coronavirus ("COVID-19"), which the World Health Organization declared a global pandemic on March 11, 2020. The outbreak of COVID-19 has caused a worldwide public health emergency with a substantial number of hospitalizations and deaths and has significantly adversely impacted global commercial activity and contributed to both volatility and material declines in equity and debt markets. The global impact of the outbreak is rapidly evolving, and many national, state, and local governments have reacted by instituting mandatory or voluntary quarantines, travel prohibitions and restrictions, closures or reductions of offices, businesses, schools, retail stores, restaurants, and other public venues and/or cancellations, suspensions and/or postponements of certain events and activities, including certain non-essential government and regulatory activities. Businesses are also implementing their own precautionary measures, such as voluntary closures, temporary or permanent reductions in work force, remote working arrangements and emergency contingency plans.

Such measures, as well as the general uncertainty surrounding the dangers, duration, and impact of COVID-19, are creating significant disruption to supply chains and economic activity, impacting consumer confidence and contributing to significant market losses, including by having particularly adverse impacts on transportation, hospitality, healthcare, tourism, sports,

entertainment and other industries dependent upon physical presence. Technological infrastructure has, and will likely continue to be, strained for so long as mandatory or voluntary quarantines are instituted, which will change, and potentially disrupt, the operations of the Company. As COVID-19 continues to spread, potential additional adverse impacts, including a global, regional or other economic recession of indeterminate duration, are increasingly likely and difficult to assess and, if the spread of COVID-19 is prolonged, it could adversely affect many economies, global financial markets and the Company even after COVID-19 is contained.

The extent of the impact of COVID-19 on the Company's operational and financial performance will depend on many factors, all of which are highly uncertain and cannot be predicted. Those factors include the duration and scope of the resulting public health emergency; the extent of any related restrictions implemented; the impact of such public health emergency on overall supply and demand, goods and services, investor liquidity, consumer confidence and levels of economic activity; and the extent of its disruption to important global, regional and local supply chains and economic markets. The effects of the COVID-19 pandemic may materially and adversely impact the value, performance and liquidity of the Company.

In addition, COVID-19 and the resulting changes to global businesses and economies likely will adversely impact the business and operations of the Company and therefore the business and operations of the Company. Certain businesses and activities may be temporarily or permanently halted as a result of government or other quarantine measures, voluntary and precautionary restrictions on travel or meetings and other factors, including the potential adverse impact of COVID-19 on the health of key personnel.

COVID-19 is only one example of a global crisis that may impact the investment. Another is war, which has recently affected energy markets in Europe and Middle East.

### **Regulatory changes and uncertainties.**

The Company operates in a highly regulated industry subject to substantial change. In addition, both its labor and customer base are licensed and regulated by local, state, and federal governments. Policies may be changed for several reasons including, but not limited to economic conditions, public safety, socio-political factors, and such. As policy changes are made by regulators, there is no guarantee that the company will be able to provide services in its current form, which may place a substantial hardship on operations, causing an Investor to lose all or a portion of their investment.

### **The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.**

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations may require a significant pivot in strategy and execution, which could cause an Investor to lose all or a portion of their investment.

## **We may face potential difficulties in obtaining capital**

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenue, as well as the inherent business risks associated with our Company and present and future market conditions.

## **The Company's success depends on the experience and skill of its manager and other key personnel.**

In particular, we are dependent on our managers. The loss of the Managers, the Principals or any other key personnel could harm the Company's business, financial condition, cash flow and performance. Accordingly, you should not invest in the Company unless you are willing to entrust all aspects of the management of the Company and the investment decisions we make on the behalf of the Company.

## **Damage to our reputation could negatively impact our business, financial condition and results of operations.**

Our reputation and the quality of our brand are critical to our business and success and will be critical to our success as we form and advise new markets. Any incident that erodes confidence in our brand could significantly reduce the Company's value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correct.

## **Risks Related to the Offering**

**The U.S. Securities and exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.**

*You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.*

**Neither the Offering nor the Securities have been registered under federal or state securities laws.**

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered Offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

**The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.**

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

**The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.**

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

**The Company has the right to extend the Offering Deadline.**

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Oversubscription Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

**The Company may also end the Offering early.**

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering. It also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

## **The Company has the right to conduct multiple closings during the Offering.**

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

## **Risks Related to the Securities**

**The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.**

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

**Although Investors will have no right to voluntarily withdraw capital from the Company or withdraw their Securities, in certain circumstances they may be forced to withdraw from the Company.**

An Investor may be forced to withdraw from the Company if the Company reasonably determines that it is necessary or desirable to do so in order to comply with applicable law or regulations, or to avoid a material adverse effect on the Company or the other holders of securities in the Company.

**Investors will have no right to control the Company's operations.**

The Investors will have no opportunity to control the day-to-day operations of the Company, including, without limitation, the investment and disposition decisions of the Portfolio Companies. In order to safeguard your limited liability for the liabilities and obligations of the Company, you must rely entirely on the Manager and Principals to conduct and manage the business affairs of the Company.

**Investors will not be entitled to any inspection or information rights other than those required by law.**

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

**The Company may never undergo a liquidity event and Investors may have to hold the Securities indefinitely.**

*The Company may never undergo a liquidity event such as a repurchase of the Securities by the Company, a sale of the Company or an initial public or coin offering. If a liquidity event does not occur, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities have no voting rights or ability to direct the Company or its actions.*

**The Securities may be significantly diluted as a consequence of subsequent equity financings.**

*The Company's equity securities will be subject to dilution. The Company may issue additional equity to third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's economic interests in the Company. The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.*

**The Securities may be substantially different from other equity securities offered or issued by the Company.**

*The Securities may be materially different from the other equity securities of the Company in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. The Securities may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.*

***In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.***

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred membership interests, have been paid in full. Neither holders of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

***There is no guarantee of a return on an Investor's investment.***

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

***These are the risks that relate to the Company:***

***Uncertain Risk***

An investment in the Company (also referred to as "we, "us, "our", or "Company") involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any of the Preferred B-2 shares should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should consider all of the information provided to such potential investor regarding the Company as well as the following risk factors, in addition to the other information listed in the Company's Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial and other risks inherent in the investment in the Company.

***Our business projections are only projections***

There can be no assurance that the Company will meet our projections. There can be no assurance that the Company will be able to find sufficient demand for our product, that people

think it's a better option than a competing product, or that we will be able to provide the service at a level that allows the Company to make a profit and still attract business.

***Any valuation at this stage is difficult to assess***

The valuation for the offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment.

***The transferability of the Securities you are buying is limited***

Any Preferred B-2 shares purchased through this crowdfunding campaign are subject to SEC limitations of transfer. This means that the stock/note that you purchase cannot be resold for a period of one year. The exception to this rule is if you are transferring the stock back to the Company, to an "accredited investor," as part of an offering registered with the Commission, to a member of your family, trust created for the benefit of your family, or in connection with your death or divorce.

***Your investment could be illiquid for a long time***

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment there will be restrictions on how you can resell the securities you receive. More importantly, there is no established market for these securities and there may never be one. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by an existing player in renewable energy or other synergistic industry. However, that may never happen, or it may happen at a price that results in you losing money on this investment.

***If the Company cannot raise sufficient funds, it will not succeed***

The Company is offering Preferred B-2 shares in the amount of up to \$999,999.75 in this offering and may close on any investments that are made. Even if the maximum amount is raised, the Company is likely to need additional funds in the future in order to grow, and if it cannot raise those funds for whatever reason, including reasons relating to the Company itself or the broader economy, it may slow development or not survive. If the Company manages to raise only the minimum amount of funds, sought, it will have to find other sources of funding for some of the plans outlined in "Use of Proceeds."

***We may not have enough capital as needed and may be required to raise more capital.***

We anticipate needing access to credit to support our working capital requirements as we grow. Although interest rates are lower than at certain times in the past, it is still a difficult environment for obtaining credit on favorable terms. If we cannot obtain credit when we need it, we could be forced to raise additional equity capital, modify our growth plans, or take some other action. Issuing more equity may require bringing on additional investors. Securing these additional investors could require pricing our equity below its current price. If so, your investment could

lose value as a result of this additional dilution. In addition, even if the equity is not priced lower, your ownership percentage would be decreased with the addition of more investors. If we are unable to find additional investors willing to provide capital, then it is possible that we will choose to cease our sales activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if we are not forced to cease our sales activity, the unavailability of credit could result in the Company performing below expectations, which could adversely impact the value of your investment.

### ***Terms of subsequent financings may adversely impact your investment***

We will likely need to engage in common equity, debt, or preferred stock financings in the future, which may reduce the value of your investment in the Preferred B-2 Stock. Interest on debt securities could increase costs and negatively impact operating results. Additional common or preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of Preferred B-2 Stock. In addition, if we need to raise more equity capital from the sale of Common Stock, institutional or other investors may negotiate terms that are likely to be more favorable than the terms of your investment, and possibly a lower purchase price per share.

### ***Management Discretion as to Use of Proceeds***

Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this Offering. The use of proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so.

### ***Projections: Forward Looking Information***

Any projections or forward-looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and will not and have not been reviewed by our independent accountants. These projections are based on assumptions which management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed.

The amount raised in this offering may include investments from company insiders or immediate family members Officers, directors, executives, and existing owners with a controlling stake in the company (or their immediate family members) may make investments in this offering. Any such investments will be included in the raised amount reflected on the campaign page.

### ***We are reliant on one main type of service***

All our current services are variants on one type of service, deploying proprietary technology for grid-connected energy storage. Our revenues are therefore dependent upon the market for grid-connected energy storage.

***We may never have an operational product or service***

It is possible that there may never be an operational Gravity Power plant or that the product may never be used to engage in transactions. It is possible that the failure to release the product is the result of a change in business model upon Company's making a determination that the business model, or some other factor, will not be in the best interest of Company and its stockholders/members/creditors.

***Developing new products and technologies entails significant risks and uncertainties***

We are currently in the research and development stage and have only manufactured a bench-test prototype for a Gravity Power plant. Delays or cost overruns in the development of our energy storage technology and failure of the product to meet our performance estimates may be caused by, among other things, unanticipated technological hurdles, difficulties in engineering and construction, changes to design and regulatory hurdles. Any of these events could materially and adversely affect our operating performance and results of operations.

***Minority Holder; Securities with No Voting Rights***

The Preferred B-2 shares that an investor is buying have no voting rights attached to them. This means that you will have no rights to dictate how the Company will be run. You are trusting in management discretion in making good business decisions that will grow your investments. Furthermore, in the event of a liquidation of our company, you will only be paid out if there is any cash remaining after all the creditors of our company have been paid out.

***You are trusting that management will make the best decision for the company***

You are trusting in management discretion. You are buying securities as a minority holder, and therefore must trust the management of the Company to make good business decisions that grow your investment.

***Insufficient Funds***

The company might not sell enough securities in this offering to meet its operating needs and fulfill its plans, in which case it will cease operating, and you will get nothing. Even if we sell all the stock we are offering now, the Company may need to raise more funds in the future, and if it can't get them, we may fail. Even if we do make a successful offering in the future, the terms of that offering might result in your investment in the company being worth less, because later investors might get better terms.

***This offering involves "rolling closings", which may mean that earlier investors may not have the benefit of information that later investors have.***

Once we meet our target amount for this offering, we may request that PicMii instruct the escrow agent to disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our investors. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans or prospects, sometimes on short notice. When such changes happen during the course of an offering, we must file an amendment to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our investors and will have no such right.

***Our new product could fail to achieve the sales projections we expected***

Our growth projections are based on an assumption that with an increased advertising, marketing and business development budget our products will be able to gain traction in the marketplace at a faster rate than our current products have. It is possible that our new products will fail to gain market acceptance for any number of reasons. If the new products fail to achieve significant sales and acceptance in the marketplace, this could materially and adversely impact the value of your investment.

***We face significant market competition***

We will compete with larger, more established companies who currently have products on the market and/or various respective product development programs. They may have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that competitors will render our technology or products obsolete or that the products developed by us will be preferred to any existing or newly developed technologies. It should further be assumed that competition will intensify.

***We are an early-stage company and have not yet generated any profits***

Gravity Power Inc was formed in July 2023; its predecessor company, Gravity Power LLC, was formed in 2008 but has not had the complete capitalization required to commercialize the product. Accordingly, the Company has a limited history upon which an evaluation of its performance and future prospects can be made. Our current and proposed operations are subject to all business risks associated with new enterprises. These include likely fluctuations in operating results as the Company reacts to developments in its market, managing its growth and the entry of competitors into the market. We will only be able to pay dividends on any shares once our directors determine that we are financially able and it is wise to do so. Gravity Power Inc has incurred a net loss and has had limited revenue generated since inception. There is no assurance that we will be profitable in the next 3 years or generate sufficient revenues to pay dividends to the holders of the shares.

***We are an early-stage company and have limited revenue and operating history***

The Company has few customers, and limited revenue. If you are investing in this company, it's because you think that grid-connected energy storage is a good idea, that the team will be able to successfully market, and sell the product or service, that we can price them right and sell enough of them to allow the Company to succeed. Further, we have never turned a profit and there is no assurance that we will ever be profitable.

***We have existing patents that we might not be able to protect properly***

One of the Company's most valuable assets is its intellectual property. The Company owns 4 patents and some trade secrets. We believe one of the most valuable components of the Company is our intellectual property portfolio. Due to the value, competitors may misappropriate or violate the rights owned by the Company. The Company intends to continue to protect its intellectual property portfolio from such violations. It is important to note that unforeseeable costs associated with such practices may invade the capital of the Company. The oldest of the patents have a priority date of 2008, so will expire in 2029.

***We have pending patent approval's that might be vulnerable***

One of the Company's most valuable assets is its intellectual property. The Company owns 4 patents and some trade secrets. We believe one of the most valuable components of the Company is our intellectual property portfolio. Due to the value, competitors may misappropriate or violate the rights owned by the Company. The Company intends to continue to protect its intellectual property portfolio from such violations. It is important to note that unforeseeable costs associated with such practices may invade the capital of the Company.

***Our trademarks, copyrights and other intellectual property could be unenforceable or ineffective***

Intellectual property is a complex field of law in which few things are certain. It is possible that competitors will be able to design around our intellectual property, find prior art to invalidate it, or render the patents unenforceable through some other mechanism. If competitors are able to bypass our trademark and copyright protection without obtaining a sublicense, it is likely that the Company's value will be materially and adversely impacted. This could also impair the Company's ability to compete in the marketplace. Moreover, if our trademarks and copyrights are deemed unenforceable, the Company will almost certainly lose any potential revenue it might be able to raise by entering into sublicenses. This would cut off a significant potential revenue stream for the Company.

***The cost of enforcing our trademarks and copyrights could prevent us from enforcing them***

Trademark and copyright litigation has become extremely expensive. Even if we believe that a competitor is infringing on one or more of our trademarks or copyrights, we might choose not to file suit because we lack the cash to successfully prosecute a multi-year litigation with an uncertain outcome; or because we believe that the cost of enforcing our trademark(s) or copyright(s) outweighs the value of winning the suit in light of the risks and consequences of losing it; or for some other reason. Choosing not to enforce our trademark(s) or copyright(s)

could have adverse consequences for the Company, including undermining the credibility of our intellectual property, reducing our ability to enter into sublicenses, and weakening our attempts to prevent competitors from entering the market. As a result, if we are unable to enforce our trademark(s) or copyright(s) because of the cost of enforcement, your investment in the Company could be significantly and adversely affected.

***The loss of one or more of our key personnel, or our failure to attract and retain other highly qualified personnel in the future, could harm our business***

To be successful, the Company requires capable people to run its day-to-day operations. As the Company grows, it will need to attract and hire additional employees in sales, marketing, research and development, design, business development, project management, operations, finance, legal, human resources and other areas. Depending on the economic environment and the Company's performance, we may not be able to locate or attract qualified individuals for such positions when we need them. We may also make hiring mistakes, which can be costly in terms of resources spent in recruiting, hiring and investing in the incorrect individual and in the time delay in locating the right employee fit. If we are unable to attract, hire and retain the right talent or make too many hiring mistakes, it is likely our business will suffer from not having the right employees in the right positions at the right time. This would likely adversely impact the value of your investment.

***Our ability to sell our product or service is dependent on outside government regulation which can be subject to change at any time***

Our ability to sell product is dependent on government regulation by agencies such as FERC (the Federal Energy Regulatory Commission) and other relevant government laws and regulations. The laws and regulations concerning the selling of product may be subject to change and if they do then the selling of product may no longer be in the best interest of the Company. At such point, the Company may no longer want to sell product and therefore your investment in the Company may be affected.

***We rely on third parties to provide services essential to the success of our business***

We rely on third parties to provide a variety of essential business functions for us, including engineering, construction, manufacturing, shipping, accounting, legal work, public relations and advertising. It is possible that some of these third parties will fail to perform their services or will perform them in an unacceptable manner. It is possible that we will experience delays, defects, errors, or other problems with their work that will materially impact our operations and we may have little or no recourse to recover damages for these losses. Disruption in these key or other suppliers' operations could materially and adversely affect our business. As a result, your investment could be adversely impacted by our reliance on third parties and their performance.

***Technological breakthrough by a competitor***

The inventor and investor interest in grid-connected energy storage is substantial, driven by the perceived need to decarbonize the electric grid. As a result, there is a lot of thinking and

resources going into energy storage technology. Although we believe, based on our knowledge of the technological landscape, that we have the best storage technology and the most compelling customer value proposition, it is always possible that a competitor will come up with a technology that is better. IOW, the fact that the market opportunity is so attractive also increases the risk that somebody may beat us.

### ***Capital intensity***

Gravity Power plants have what we believe to be a unique and powerful advantage: Other storage technologies scale arithmetically, that is, if you make a storage plant twice as big, it costs twice as much and stores twice as much. With Gravity Power, if you make a plant twice as deep, the cost is projected to increase by about 2x while the storage capacity increases by 4x. Therefore, it makes sense to build Gravity Power plants; at 2 or 3 GWh per plant, we project our best economics. That means that the most commercially competitive GP plants are projected to have high capital cost, in 9 figures. There is nothing inherently problematic with this; in the electric utility industry, companies write 9- and 10- figure checks all the time, including for pumped storage hydroelectric plants. However, it tends to increase the perceived risk for first and early adopters. As no detailed Gravity Power plant engineering has been completed and no binding construction bids secured, the plant capital costs estimated may turn out to be incorrect. If plants cost more than currently estimated, it may impact the value of your investment.

### ***Hydraulic seals***

The performance of a Gravity Power plant depends on the integrity of the hydraulic seals. The seals are projected to perform under operating conditions, including hydraulic pressure, similar to those under which other hydraulic seals operate and substantially less than some. However, the seals in a Gravity Power plant will be larger in diameter than other seals in operation. If the seals were to not function properly, the Gravity Power plant would not be able to hold energy in storage. If current leakage and friction rates for the seals are off by up to 100%, we project that it will have only a small impact on overall efficiency. The wear rate of seals is expected to be measured in years, and replacement of seals is expected to take approximately one week without removal of water. We intend to build a small demonstration plant with the proceeds of this offering to test the operation of the seals above full operating pressure.

### ***Our products are still in prototype phase and might never be operational products***

It is possible that there may never be an operational product or that the product may never be used to engage in transactions. It is possible that the failure to release the product is the result of a change in business model upon the Company's making a determination that the business model, or some other factor, will not be in the best interest of the Company and its stockholders.

### **Third-Party Licensing Dispute**

As discussed on Page 13 above (under "Measures to protect B-2 shareholders from a pending licensing dispute with a third party"), we have taken measures to protect B-2 shareholders from a pending licensing dispute with a third party. In the event, which we deem very unlikely, that

Gravity Power Inc was compelled by a final adjudication to remit funds pursuant to the dispute, Gravity Power Inc would either (1) issue additional shares pari passu to the B-2 shareholders, in the aggregate amount of the funds awarded to GEAG, or (2) extinguish a number of these founders'-side shares, equal to the amount of funds remitted to GEAG divided by the share offering price, so that the B-2 shareholders would not be diluted by the remittance. However, such a remittance would reduce the capital available for the Company's operations.

## The Offering

<b>Minimum Amount of the Securities Offered</b>	13,333
<b>Total Amount of the Securities Outstanding After Offering (if Target Offering Amount Met)</b>	23,759,997
<b>Maximum Amount of the Securities Offered (Excluding Bonuses)</b>	1,333,333
<b>Total Amount of the Securities Outstanding after Offering (if Maximum Offering Amount is Met)</b>	25,079,997
<b>Price Per Security</b>	\$0.75
<b>Minimum Individual Purchase Amount</b>	\$249.75
<b>Offering Deadline</b>	April 28, 2024
<b>Use of Proceeds</b>	See Question 8
<b>Voting Power</b>	See Question 13

\*The Company reserves the right to amend the Minimum Individual Purchase Amount, in its sole discretion. In particular, the Company may elect to participate in one of the Intermediary's special investment programs and may offer alternative Minimum Individual Purchase Amounts to Investors participating in such programs without notice.

***Gravity Power Inc. ("Company") is offering securities under Regulation CF, through PicMii Crowdfunding LLC ("PicMii"). PicMii is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.90% of the value of the securities sold through Regulation CF and a \$2,500 upfront payment upon the commencement of the campaign. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.***

The Company plans to raise between \$9,999.75 and \$999,999.75 through an offering under Regulation CF. Specifically, if we reach the Minimum Raise Amount of \$9,999.75, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have not yet to be closed.

In the event The Company fails to reach the minimum offering amount of \$9,999.75, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

### **7. What is the purpose of this offering?**

If the maximum offering amount is raised, our anticipated use of proceeds is as follows in Question 8.

### **8. How does the issuer intend to use the proceeds of this offering?**

Add rows as necessary to account for all ways you intend to use the proceeds of this offering.

	<b>% of Capital if Target Offering Amount Raised</b>	<b>Amount if Target Offering Amount Raised</b>	<b>% of Capital if Maximum Offering Amount Raised</b>	<b>Amount if Maximum Offering Amount Raised</b>
<b>PicMii Portal Fee</b>	4.90%	\$489.99	4.90%	\$48,999.99
<b>R&amp;D</b>	50.00%	\$4,999.86	50.00%	\$499,999.88
<b>Operations</b>	45.10%	\$4,509.89	45.10%	\$450,999.89
<b>Total</b>	100%	\$9,999.75	100%	\$999,999.75

\*We reserve the right to change the above use of proceeds if management believes it is in the best interest of the Company.

### **9. How will the issuer complete the transaction and deliver securities to the investors?**

Manage Own Records - In entering into an agreement on PicMii Crowdfunding's Funding Portal to purchase securities, both investors and the Company must agree that a transfer agent, which keeps records of our outstanding Common Stock (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed) or that the Company is capable of maintaining investment records on their own. In this Case, they will be managing their records on their own. Stock ownership is recorded in the company's electronic books and records, which may be kept online if directed by the Board, with issuance and transfers of stock made electronically.

### **10. How can an investor cancel an investment commitment?**

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering. PicMii will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). PicMii Crowdfunding will notify investors when the target offering amount has been met. If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled, and the committed funds will be returned.

### **11. Can the company perform multiple closings or rolling closings for the offering?**

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct

additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

# Ownership and Capital Structure

## The Offering

### 12. Describe the terms of the securities being offered.

Gravity Power Inc. ("Gravity Power," the "Company," "we," or "us"), a Delaware C-Corp incorporated on July 21, 2023 (originally incorporated as an LLC on November 1, 2008), is holding the following offering:

*Gravity Power Inc. is offering securities in the form of Equity which provides investors with the right to Preferred B-2 Stock in the Company.*

**Target Offering:** \$9,999.75 | 13,333 Securities

**Maximum Offering Amount:** \$999,999.75 | 1,333,333 Securities

**Share Price:** \$0.75

**Type of Offering:** Equity

**Type of Security:** Preferred B-2 Stock

**Offering Deadline:** April 28, 2024

**Minimum Investment:** \$249.75

### **Bonuses:**

#### *Time-Based Incentives (Discount applied at time of investing) :*

*Very Super Early Bird Bonus:* Invest at least \$249.75 by April 6, 2024, and receive a 37.5% discount on the share price.

*Super Early Bird Bonus:* Invest at least \$249.75 by April 14, 2024, and receive a 28.5% discount on the share price.

*Early Bird Bonus:* Invest at least \$249.75 by April 21, 2024, and receive a 16.5% discount on the share price.

*Last Chance Bonus:* Invest at least \$249.75 by April 28, 2024, and receive a 9.00% discount on the share price.

#### *Amount-Based Incentives (Bonus shares to be issued by the issuer after the raise has completed):*

Invest \$500+ and receive 5% Bonus Shares.

Invest \$1,000+ and receive 10% Bonus Shares.

Invest \$2,500+ and receive 15% Bonus Shares.

Invest \$5,000+ and receive 20% Bonus Shares.

Invest \$10,000+ and receive 30% Bonus Shares.

Invest \$20,000+ and receive 35% Bonus Shares.

Invest \$30,000+ and receive 40% Bonus Shares.

Invest \$40,000+ and receive 50% Bonus Shares.

\*Investors can receive one (1) time-based incentive and one (1) amount-based incentive per investment.

\*\*In order to receive perks from an investment, one must submit a single investment in the same offering that meets the minimum perk requirement. Bonus shares from perks will not be granted if an investor submits multiple investments that, when combined, meet the perk requirement. All perks occur when the offering is completed.

\*\*\*Crowdfunding investments made through a self-directed IRA cannot receive non-bonus share perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those non-bonus share perks because they would be receiving a benefit from their IRA account.

*The Minimum Individual Purchase Amount accepted under this Regulation CF Offering is \$249.75. The Company must reach its Target Offering Amount of \$9,999.75 by April 28, 2024 (the "Offering Deadline"). Unless the Company raises at least the Target Offering Amount of \$9,999.75 under the Regulation CF offering by the Offering Deadline, no securities will be sold in this Offering, investment commitments will be cancelled, and committed funds will be returned.*

### **13. Do the securities offered have voting rights? Voting Rights and Proxy:**

Gravity Power are offering Preferred B-2 Stock in their company. There are no voting rights associated with Preferred B-2 Stock per the Certificate of Incorporation (See Exhibit D)

### **14. Are there any limitations on any voting or other rights identified above?**

See Question 13.

### **15. How may the terms of the securities being offered be modified?**

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be cancelled and your money will be returned to you.

## **Restrictions on Transfer of the Securities Offered**

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.
- The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person. The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

## Description of Issuer's Securities

### **16. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.**

The Company has authorized Common Stock, Series A Preferred Stock, Series A-1 Preferred Stock, Preferred B-1 Stock, Preferred B-2 Stock, and Convertible Notes. As part of the Regulation Crowdfunding raise, the Company will be offering up to 1,333,333 of Preferred B-2 Stock.

#### **Common Stock**

The amount of security authorized is 100,000,000 with a total of 12,946,894 outstanding.

Voting Rights:

1 vote per share.

Material Rights:

The total number of shares and warrants outstanding on a fully diluted basis, 33,612,321 shares, includes 23,213,139 shares of Common Stock, 2,337,149 shares of Series A Preferred Stock, 684,322 shares of Series A-1 Preferred Stock, 7,377,711 shares of Series B-1 Preferred Stock, and 400,588 shares of Series B-2 Preferred Stock. The total number of shares and warrants outstanding on a fully diluted basis includes 10,083,696 shares (hereinafter "Reserved Shares") which are reserved for (1) performance incentives for Gravity Power personnel, advisors, and service providers, and (2) conversion of debt which is outstanding as of the date of this offering, with the exception of short-term non-convertible debt as disclosed in the CPA report and incurred subsequently to the date of the CPA report. The effect of the Reserved Shares is to protect the Series B-2 shareholders from dilution by these performance incentives and debt conversion.

The voting, dividend and liquidation rights of the holders of Common Stock are subject to and qualified by the rights, powers and privileges of the holders of Preferred Stock set forth in this Restated Certificate.

The holders of Common Stock are entitled to one vote for each share of Common Stock held at all meetings of stockholders (and written consents in lieu of meetings).

Please refer to the Company's Certificate of Incorporation attached as Exhibit F for additional information regarding the securities' other material rights.

#### **Series A Preferred Stock**

The amount of security authorized is 2,337,149 with a total of 2,337,149 outstanding.

Voting Rights:

Series A Preferred Stock carries the same voting rights as Common Stock.

Material Rights:

Liquidation preference at par, pari passu with other Preferred Voting rights, at par with Common

Right to convert to Common at par.

Protective Provisions requiring approval to (a) alter the rights, powers or privileges of the Preferred Stock set forth in the Restated Certificate or Bylaws, as then in effect, in a way that adversely affects the Preferred Stock; (b) increase or decrease the authorized number of shares of any class or series of capital stock; (c) authorize or create (by reclassification or otherwise) any new class or series of capital stock having rights, powers, or privileges set forth in the certificate of incorporation of the Corporation, as then in effect, that are senior to or on a parity with any series of Preferred A Stock; (d) redeem or repurchase any shares of Common Stock or Preferred A Stock (other than pursuant to employee or consultant agreements giving the Corporation the right to repurchase shares upon the termination of services pursuant to the terms of the applicable agreement at no greater than original cost); (e) declare or pay any dividend or otherwise make a distribution to holders of Preferred Stock or Common Stock; (I) increase or decrease the number of directors of the Corporation; OR (g) liquidate, dissolve, or wind-up the business and affairs of the Corporation, effect any Deemed Liquidation Event. Please refer to the Company's Certificate of Incorporation attached as Exhibit F for additional information regarding the securities- other material rights.

### **Series A-1 Preferred Stock**

The amount of security authorized is 684,322 with a total of 684,322 outstanding.

Voting Rights:

Series A-1 Preferred Stock carries the same voting rights as Common Stock.

Material Rights:

Liquidation preference at par, pari passu with other Preferred Voting rights, at par with Common

Right to convert to Common at par.

Protective Provisions requiring approval to (a) alter the rights, powers or privileges of the Preferred Stock set forth in the Restated Certificate or Bylaws, as then in effect, in a way that adversely affects the Preferred Stock; (b) increase or decrease the authorized number of shares of any class or series of capital stock; (c) authorize or create (by reclassification or otherwise) any new class or series of capital stock having rights, powers, or privileges set forth in the certificate of incorporation of the Corporation, as then in effect, that are senior to or on a parity with any

series of Preferred A Stock; (d) redeem or repurchase any shares of Common Stock or Preferred A Stock (other than pursuant to employee or consultant agreements giving the Corporation the right to repurchase shares upon the termination of services pursuant to the terms of the applicable agreement at no greater than original cost); (e) declare or pay any dividend or otherwise make a distribution to holders of Preferred Stock or Common Stock; (I) increase or decrease the number of directors of the Corporation; OR (g) liquidate, dissolve, or wind-up the business and affairs of the Corporation, effect any Deemed Liquidation Event.

Please refer to the Company's Certificate of Incorporation attached as Exhibit F for additional information regarding the securities' other material rights.

### **Preferred B-1 Stock**

The amount of security authorized is 25,000,000 with a total of 7,377,711 outstanding.

Voting Rights:

There are no voting rights associated with Preferred B-1 Stock .

Material Rights:

Liquidation preference at par, pari passu with other Preferred Right to convert to Common at par

Please refer to the Company's Certificate of Incorporation attached as Exhibit F for additional information regarding the securities' other material rights.

### **Preferred B-2 Stock**

The amount of security authorized is 50,000,000 with a total of 400,588 outstanding.

Voting Rights:

There are no voting rights associated with Preferred B-2 Stock.

Material Rights:

Liquidation preference at par, pari passu with other Preferred Right to convert to Common at par.

Please refer to the Company's Certificate of Incorporation attached as Exhibit F for additional information regarding the securities' other material rights.

## **Options, Warrants and Other Rights**

**17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?**

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the company)

**18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?**

The Company has authorized Common Stock, Series A Preferred Stock, Series A-1 Preferred Stock, Preferred B-1 Stock, Preferred B-2 Stock, and Convertible Note. As part of the Regulation Crowdfunding raise, the Company will be offering up to 1,333,333 of Preferred B-2 Stock.

Preferred B-1 Stock and Preferred B-2 Stock do not have voting rights, all other securities in the company have voting rights.

Additionally, Preferred Stock has a higher liquidation preference than Common Stock per the Certificate of Incorporation (See Exhibit D). In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Corporation or Deemed Liquidation Event, before any payment is made to the holders of Common Stock by reason of their ownership thereof, the holders of shares of Preferred Stock then outstanding must be paid out of the funds and assets available for distribution to its stockholders, an amount per share equal to the greater of (a) the Original Issue Price for such share of Preferred Stock, plus any dividends declared but unpaid thereon, or (b) such amount per share as would have been payable had all shares of Preferred Stock been converted into Common Stock.

**19. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?**

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

**20. How are the securities being offered valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.**

Pre-Money Valuation: \$25,547,181.8

The securities being offered are valued at the issuer's discretion. An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the company. When the company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your shares than earlier investors did for theirs.

There are several reasons why we consider the pre-money valuation to be a bargain for investors:

Value uplift from the prior round. The current valuation of Gravity Power, post-money from the prior round, is a bit over \$10M. That round supported:

1. Technical work to optimize the design of the Gravity Power system
2. Third party analyses of the Gravity Power technology to develop cost models and technical feasibility study/fatal flaws analysis
3. 4 patents in 20 countries
4. Strategic alliances with Stantec, Computerized Analysis and Simulation Ltd (Israel), Bab Eng (Germany)

Furthermore, since that round, demand for grid-connected energy storage has burgeoned, with projections of a \$1 trillion market through 2040 by McKinsey, Bloomberg, and several government and university teams.

There are several ways to value a company, and none of them is perfect and all of them involve a certain degree of guesswork. Any of these methods, plus others, may be used to determine valuation in the future:

**Liquidation Value** - The amount for which the assets of the company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early-stage companies do not have many assets.

**Book Value** - This is based on analysis of the company's financial statements, usually looking at the company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or

trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach - This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically, liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based on many assumptions about the future, while liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the company) may value the company differently. They may use a different valuation method, or different assumptions about the company's business and its market. Different valuations may mean that the value assigned to your investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the company at a lower price than the initial investors did. If this happens, the value of the investment would go down.

## **21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?**

The company's Articles of Incorporation or Bylaws can be amended by the holders of a majority of the issued and outstanding shares of the Company. As minority owners, the crowdfunding investors are subject to the decisions made by the majority owners. The issued and outstanding shares of common stock give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as, among other things: (a) the liquidation, dissolution or winding up of the company, or effecting any merger or consolidation; (b) amendment of any provision of the Certificate of Incorporation or Bylaws; (c) creation and issuance of other securities having rights, preferences or privileges senior to the common stock sold to the crowdfunding investors, or increasing the authorized number of shares of stock of the company; or (d) creation of any debt security.

## **22. What are the risks to purchasers associated with corporate actions including:**

1. Additional issuances of securities
2. Issuer repurchases of securities
3. A sale of the issuer or of assets of the issuer
4. Transactions with related parties

The authorization and issuance of additional shares of the company's common stock will dilute the ownership of the crowdfunding investors. As a result, if the company achieves profitable operations in the future, its net income per share will be reduced because of dilution, and the market price of the company's common stock, if there is a market price, could decline as a result

of the additional issuances of securities. If the company repurchases securities, so that the above risk is mitigated, and there are fewer shares of common stock outstanding, the company may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our securities would decline. A sale of the company or of all of the assets of the company may result in an entire loss of your investment. We cannot predict the market value of the company or its assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms.

### **23. Describe the material terms of any indebtedness of the issuer:**

Creditor: Convertible notes

Amount Owed as of 31 December 2023: \$205,362.87; Interest Rate: 7.0%

The conversion of these loans into equity will not affect the investors in this Reg CF offering, that is, the conversion will dilute the pre-Reg CF shareholders but will not dilute the Reg CF shareholders. In addition, the Company has reserved \$15,000 in equity to defray obligations to related parties that are expected but not currently due.

Material Terms: The Company had previously entered into several convertible note agreements for the purposes of funding operations with founders, CEO, as well as other various related parties. All these notes have been converted to equity, with the following exceptions:

- A note to a third party for \$94,011.17, which will be subject to mandatory conversion to equity at a 20% discount to the current offering share price but otherwise on the same terms, as of a cumulative raise of \$4,000,000 or more.
- A note to the CEO with a balance as of 31 December 2023 of \$111,351.70, which is subject to mandatory conversion to equity at a 20% discount to the current offering share price but otherwise on the same terms as the current offering, without conditions precedent.

The conversion of these loans into equity will not affect the investors in this Reg CF offering; that is, the conversion will dilute the previous shareholders, but will not dilute the Reg CF shareholders.

*Related Party Transactions:*

Relationship to Company: Officer

Nature/Amount of interest in the transaction: Convertible Note

Material Terms: The Company follows ASC 850, "Related Party Disclosures," for the identification of related parties and disclosure of related party transactions. See above.

**24. What other exempt offerings has the Company conducted within the past three years?**

- **Name: Preferred B-2 Stock sold on December 10th, 2023**

Type of Security Sold: Preferred B-2 Stock

Final Amount Sold: \$232,624.69

Number of Securities Sold: 400,588

Use of Proceeds: The net proceeds were used for Research and Development and Operations purposes.

Regulatory Exemption: Regulation Crowdfunding

**25. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:**

- 1. Any director or officer of the issuer;**
- 2. Any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;**
- 3. If the issuer was incorporated or organized within the past three years, any promoter of the issuer; or**
- 4. Any immediate family members of any of the foregoing persons.**

Related Party Transactions:

Relationship to Company: Officer

Nature/Amount of interest in the transaction: Convertible Note

Material Terms: Material Terms: The Company follows ASC 850, "Related Party Disclosures," for the identification of related parties and disclosure of related party transactions.

- A note to the CEO with a balance as of 31 December 2023 of \$111,351.70, which is subject to mandatory conversion to equity at a 20% discount to the current offering share price but otherwise on the same terms as the current offering, without conditions precedent.

The conversion of these loans into equity will not affect the investors in this Reg CF offering; that is, the conversion will dilute the previous shareholders, but will not dilute the Reg CF shareholders.

## Financial Condition of the Issuer

### 26. Does the issuer have an operating history?

*How long can the business operate without revenue:*

The Company is presently in "survival mode", and we could operate by compensating our team members largely with equity and by limiting our expenses to patent maintenance, required government filings, bookkeeping, and other must-do payments. With the full proceeds of this raise, we project that the Company could operate in this mode for a few years.

*Foreseeable major expenses based on projections:*

We expect to use the proceeds of this raise to complete the commercialization of the GP tech, which is projected to bridge us to revenues. An important likely step is the construction of a proof-of-concept plant (PoC), which is projected to cost approximately \$10m to \$12m. We intend to fund it with a combination of the proceeds of this Reg CF raise, a "refundable tax credit" (i.e., a direct payment, as authorized by the Inflation Reduction Act of 2022) from the federal government (approximately 40% of the total CapEx), public sector grants/loan guarantees, and private sector partner contributions.

*Future operational challenges:*

There are many challenges ahead, among them:

- Completing the engineering of a template Gravity Power plant
- Field-demonstrating operational feasibility in a proof-of-concept plant.
- Overcoming "FOAK" (first of a kind) friction in the electric utility industry to sell the first few plants. The industry tends to be conservative.
- Advancing the Gravity Power technology fast enough to stay ahead of the competition.

*Future challenges related to capital resources:*

We will need capital resources beyond the current Reg CF raise to demonstrate the Gravity Power technology and acquire market share. We intend to acquire these resources, to the greatest extent practical, through strategic partnerships and to limit the dilution of the existing and Preferred S-2 shareholders.

*Future milestones and events:*

Among the future milestones and events toward which we are working are:

- Construction of a proof-of-concept plant in the US.
- Commercial operation date of the concept plant in the US.
- Construction of a proof-of-concept plant in China.
- Commercial operation date of the concept plant in China.
- Sale of a full-scale commercial plant (at least 400 MWh storage capacity)
- Commercial operation date of the full-scale commercial plant.

**27. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.**

*What capital resources are currently available to the Company? (Cash on hand, existing lines of credit, shareholder loans, etc...)*

As of June 2023, the Company has no capital resources available in the form of a line of credit, and \$12,375 in its US Bank account.

On February 27, 2023, the Company won a DOE contest and was designated an Innovations Champion with a \$50,000 prize. Those funds were deposited in March 2023.

*How do the funds of this campaign factor into your financial resources? (Are these funds critical to your company operations? Or do you have other funds or capital resources available?)*

We believe the funds of this campaign are important, but not critical, to our company operations. We have other paths that we believe we can take to capitalize on the company.

*Are the funds from this campaign necessary to the viability of the company? (Of the total funds that your company has, how much of that will be made up of funds raised from the crowdfunding campaign?)*

As stated above, we believe that the funds of this campaign are important, but not critical, to our company operations, since we believe that we have other paths that we believe that we can take to capitalize the company. Of the total funds that our Company has, between 10% and 90+% of the funds available to the Company going forward are projected to be made up of funds raised from the crowdfunding campaign if it raises its maximum funding goal.

*How long will you be able to operate the company if you raise your minimum? What expenses is this estimate based on?*

If the Company raises the minimum offering amount, we anticipate the Company will be able to operate for approximately 6 months. This is based on a current monthly burn rate of approximately \$8,000 for "survival mode" expenses related to patent maintenance, required government filings, bookkeeping, and other must-do payments and based on currently available cash in the Company.

*How long will you be able to operate the company if you raise your maximum funding goal?*

If the Company raises the maximum offering amount, we anticipate the Company will be able to operate for approximately 2 years if we ramp up to full operations. This is based on a projected monthly burn rate of appr. \$ 200,000 for expenses related to patent maintenance, required

government filings, G&A, engineering, and sales marketing. If we put a portion of the proceeds of this raise into the PoC plant, that is likely to shorten the runway.

*Are there any additional future sources of capital available to your company? (Required capital contributions, lines of credit, contemplated future capital raises, etc...)*

Future potential sources of capital:

- State and federal grants
- US Department of Energy Loan Guarantee Program Federal investment tax credit (refundable)
- In-kind contributions from strategic partners
- Additional capital raise

Currently, the Company has contemplated additional future sources of capital including the items listed above, but is not conducting or contemplating any concurrent offerings.

**28. Include the financial information specified by regulation, covering the two most recently completed fiscal years or the period(s) since inception if shorter.**

See Exhibit A

**29. With respect to the issuer, any predecessor of the issuer, any affiliated issuer, any director, officer, general partner or managing member of the issuer, any beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated in the same form as described in Question 6 of this Question and Answer format, any promoter connected with the issuer in any capacity at the time of such sale, any person that has been or will be paid (directly or indirectly) remuneration for solicitation of purchasers in connection with such sale of securities, or any general partner, director, officer or managing member of any such solicitor, prior to May 16, 2016:**

1. **Has any such person been convicted, within 10 years (or five years, in the case of issuers, their predecessors and affiliated issuers) before the filing of this offering statement, of any felony or misdemeanor:**
  - i. **In connection with the purchase or sale of securities?**
  - ii. **Involving the making of any false filing with the commission?**
  - iii. **Arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment advisor, funding portal or paid solicitor of purchasers of securities?**
2. **Is any such person subject to any order, judgment or decree of any court of competent jurisdiction, entered within five years before the filing of the information required by Section 4A(b) of the Securities Act that, at the time of filing of this offering statement, restrains or enjoins such person from engaging or continuing to engage in any conduct or practice:**
  - i. **In connection with the purchase or sale of any security?**
  - ii. **Involving the making of any false filing with the Commission?**
  - iii. **Arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment advisor, funding portal or paid solicitor of purchasers of securities?**

- 3. Is any such person subject to a final order of a state securities commission (or an agency or officer of a state performing like functions); a state authority that supervises or examines banks, savings associations or credit unions; a state insurance commission (or an agency or officer of a state performing like functions); an appropriate federal banking agency; the U.S. Commodity Futures Trading Commission; or the National Credit Union Administration that:**
  - i. At the time of the filing this offering statement bars the person from:**
    - 1. Association with an entity regulated by such commission, authority, agency or officer?**
    - 2. Engaging in business of securities, insurance, or banking?**
    - 3. Engaging in savings association or credit union activities?**
  - ii. constitutes a final order based on a violation of any law or regulation that prohibits fraudulent, manipulative or deceptive conduct and for which the order was entered within the 10-year period ending on the date of the filing of this offering statement?**
- 4. Is any such person subject to an order of the Commission entered pursuant to Section 15(b) or 15B(c) of the Exchange Act or Section 203(e) or (f) of the Investment Advisers Act of 1940 that, at the time of the filing of this offering statement:**
  - i. Suspends or revokes such person's registration as a broker, dealer, municipal securities dealer, investment advisor or funding portal?**
  - ii. Places limitations on the activities, functions or operations of such person?**
  - iii. Bars such person from being associated with any entity or from participating in the offering of any penny stock?**
- 5. Is any such person subject to any order of the Commission entered within five years before the filing of this offering statement that, at the time of the filing of this offering statement, orders the person to cease and desist from committing or causing a violation or future violation of:**
  - i. Any scienter-based anti-fraud provision of the federal securities laws, including without limitation Section 17(a)(1) of the Securities Act, Section 10(b) of the Exchange Act, Section 15(c)(1) of the Exchange Act and Section 206(1) of the Investment Advisers Act of 1940 or any other rule or regulation thereunder?**
  - ii. Section 5 of the Securities Act?**
- 6. Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade?**
- 7. Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued?**

- 8. Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations?**

Gravity Power Inc. answers 'NO' to all of the above questions.

## **Other Material Information**

**30. In addition to the information expressly required to be included in this Form, include: any other material information presented to investors; and such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading. The following documents are being submitted as part of this offering:**

**Financials:** See Exhibit A

**Offering Page:** See Exhibit B

**Subscription Agreement:** See Exhibit C

**Articles of Incorporation:** Exhibit D

**Bylaws:** Exhibit E

## **Exhibit A**

*Financial Statements I hereby certify that the financial statements provided for Gravity Power Inc. and notes thereto for the periods provided included in this Form C Offering Statement are true and complete in all material aspects and that the information below reflects accurately the information stated on our Federal Income Tax Returns for this time period.*
