INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Stockholders

SFO84, Inc. F.K.A MisterBnB, Inc. and Pinklab 360

We have reviewed the accompanying combined financial statements of SFO84, Inc. and Pinklab 360 (collectively, the "Company") which comprise the combined balance sheets as of December 31, 2022, and the related Statement of operations and total comprehensive loss, Statements of changes in stockholders' equity (deficit), and cash flows for the year then ended, and the related notes to the combined financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the combined financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the combined financial statements for

them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying combined financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Going Concern

The accompanying combined financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 2 to the combined financial statements, the Company has an accumulated deficit, had recurring losses, but positive result for this year. Management's plan in regard to these matters are also described in Note 2. The Combined financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Notes to combined financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business activities

MisterBnB, Inc. was incorporated on March 25, 2014 in the state of Delaware and operates a travel and social networking platform that provides rented lodging and accommodations between individuals dedicated to the gay and gay-friendly community within the United States. On May 13, 2016, a certificate of amendment was filed to change the name to SF084, Inc.

Pinklab 360 was incorporated on November 9, 2015 in France and operates a travel and social networking platform that provides rented lodging and accommodations between individuals dedicated to the gay and gay-friendly community internationally, outside of the United States.

Principles of combination

The accompanying combined financial statements include the accounts of SF084, Inc. and Pinklab 360, collectively referred to as the "Company" which are both majority owned by the Mister B&B Group. The combined financial statements have been prepared on the accrual basis of accounting. Intercompany transactions consist of rental revenue and expense and temporary loans. All significant intercompany balances have been eliminated in combination.

Basis of presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of estimates

The preparation of combined financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Foreign currency translation

Pinklab 360 uses the Euro for its functional currency. Using historical and year-end exchange rates, Pinklab 360 converts its balances to U.S. Dollars and the differences are recognized as unrealized currency translation gains or losses. The impact of the currency valuation is a loss of \$44,248.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Revenue recognition

The Company recognizes revenue when it satisfies a performance obligation by transferring control over a product to a customer. Taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction, and that are collected by the Company from a customer, are excluded from revenue. Substantially all of the Company's revenues originate from contracts with customers with a single performance obligation to provide customer with a product at the point of sale for the Company's guest commissions and at over time for the Company's host commission. The Company recognizes host commissions after the check-in of guests and recognizes guest commissions at the time of booking. The Company recognizes advertising revenue as the services are provided. The Company's revenue is reported at the determinable transaction price, net of any sales tax collected from a customer.

The Company also recognizes subscription revenue related to the new application in service on March 2023 which allows users to communicate with each other.

The Company adopted ASC 606 effective January 1, 2019, using the modified retrospective transition method.

The Company elected to use the following transition practical expedients provided in ASC 606. ASC 606 was applied only to contracts that were not completed from January 1, 2019.

The measurement of the transaction price excludes all taxes assessed by government authority that are both imposed on and concurrent with specific revenue producing transaction and collect by the Company from a customer.

Accounts receivable

Accounts receivable is stated at the amount the Company expects to collect from balances outstanding at year-end. The Company uses the allowance method under generally accepted accounting principles for recording bad debts.

Property and equipment

Property and equipment are stated at cost. Major repairs and betterments are capitalized, and normal maintenance and repairs are charged to expense as incurred. Depreciation of property and equipment is computed using the straight-line method based upon the estimated useful lives of related assets, which is five years. Upon retirement or sale of an asset, the cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in operations.

Impairment test on long-lived assets

The Company will periodically review the long-lived assets for impairment as events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. If the carrying amounts of the long-lived assets exceed their respective fair values, additional impairment tests are performed to measure the amount of the impairment loss, if any. As of December 31, 2022, there has been no impairment of the long-lived assets.

Intangible assets

Intangible assets consist of software development costs and a trade name. Research and development costs for software are charged to expense as incurred. However, the costs incurred for the development of software that will be sold, leased, or otherwise marketed are capitalized when technological feasibility has been established. These capitalized costs are subject to an ongoing assessment of recoverability based on anticipated future revenues and changes in hardware and software technologies.

Amortization of capitalized software development costs begins when the product is available for general release to customers. Amortization is computed on the straight-line method over the estimated economic life of the product. Unamortized capitalized software development costs determined to be in excess of net realizable value of the product are expensed immediately.

The Company capitalized product development costs of \$134,586 during 2022.

The trade name is considered to be an indefinite-lived intangible asset and not subject to amortization, however, the Company performs an annual evaluation or more frequently if circumstances indicate that the asset may be impaired, to ascertain whether there has been an impairment. No impairment occurred in 2022.

Stock-based compensation

The Company follows FASB guidance related to share-based payments, which requires that share-based compensation transactions be accounted for using a fair-value based method and recognized as expense in the combined statement of operations. Stock-based compensation is recognized and amortized to compensation expense over the applicable requisite service or vesting period.

Advertising

Advertising costs are expensed as incurred and aggregated \$318,305 for the year ended December 31, 2022.

Income taxes

The Company's deferred income taxes are provided on temporary differences between financial statement and income tax reporting. Temporary differences are differences between the amounts of assets and liabilities reported for financial statement purposes and their tax basis. Deferred tax assets are recognized for temporary differences that will be deductible in future years' tax returns and for operating loss and tax credit carryforwards. Deferred tax assets are reduced by a valuation allowance if it is deemed more likely than not that some or all of the deferred tax assets will not be realized. Deferred tax liabilities are recognized for temporary differences that will be taxable in future years' tax returns. The Company recognizes and measures its unrecognized tax benefits in accordance with the guidance found in the FASB's Accounting Standards Codification ("ASC") 740, *Income Taxes*. Under that guidance, the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change. Management has evaluated the effect of guidance surrounding uncertain income tax positions and concluded that the Company has no significant combined financial statement exposure to uncertain income tax positions on December 31, 2022. The Company is not currently under audit by any tax jurisdiction.

Deferred tax

The tax provision for a given year as computed under ASC 740 represents not only the amounts currently due, but also the change in the cumulative future tax consequences of items that have been reported for financial reporting purposes in one year and taxable income purposes in another year (i.e., deferred tax). Under ASC 740, the current and deferred tax amounts are computed separately, and the sum of the two equals the total provision.

In ASC 740, the computation of the tax provision focuses on the balance sheet. A temporary difference is created when an item has been treated differently for financial reporting purposes and for tax purposes in the same period, and when it is expected to reverse in a future period and create a tax consequence. The tax effect of these differences, referred to as deferred taxes, have been accounted for in the intervening periods.

This asset and liability method, required by ASC 740, measures the deferred tax liability or asset that is implicit in the balance sheet; it is assumed that assets will be realized, and liabilities will be settled at their carrying amounts. If the carrying amounts of assets and liabilities differ from their tax bases, implicit future tax effects will result from reversals of the book-and tax-basis differences.

	<u>Amount recognized</u>
Pinklab	\$ 330,698
SFO	\$ 342,848
Total	\$ 673,546

Subsequent events

In accordance with FASB ASC 855, *Subsequent Events*, the Company has evaluated subsequent events through April 21, 2022, the date on which these combined financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these combined financial statements.

NOTE 2. PROPERTY AND EQUIPMENT

Furniture & equipment	\$	24,947
Computers and hardware	\$	17,792
Total	\$	38,683
<hr/>		
Less accumulated depreciations	\$	(33,877)
Total	\$	8,862

NOTE 3. INTANGIBLES, NET

Intangibles, net consisted of the following on December 31, 2022:

	Acquisition cost	Accumulated Amortization	Net carrying amount
Trade name	\$ 187,185		\$ 187,185
Software development costs	\$ 1,835,515	\$ (1,350,013)	\$ 485,502
	\$ 2,022,700	\$ (1,350,013)	\$ 672,687

NOTE 4. CONCENTRATION OF CREDIT RISK

The Company maintains cash balances with a financial institution. At times, such amounts may exceed the federally insured limit.

NOTE 5. STOCKHOLDERS' EQUITY

Pursuant to its articles of incorporation, SF084, Inc. is authorized to issue up to 7,500,000 shares of class A common stock at \$0.001 par value per share as of December 31, 2022. SF084, Inc. has issued and outstanding 6,962,950 shares

of class A common stock as of December 31, 2022. The holder of each share of class A common stock is entitled to one vote.

Pursuant to its articles of incorporation, SF084, Inc. is authorized to issue up to 30,000,000 shares of class B common stock at \$0.001 par value per share as of December 31, 2022. SF084 Inc. has issued and outstanding 2,038,386 shares of class B common stock as of December 31, 2022. The holder of each share of class B common stock is entitled to one vote.

SF084, Inc. has issued up to 17,166,191 shares of preferred stock at \$0.001 par value per share as of December 31, 22. SF084, Inc. had issued and outstanding 2,556,251 shares of preferred stock as of December 31, 2022. The preferred stock has a noncumulative dividend preference in the amount of 8% of the original issue price per share and liquidation preference over common stock. The preferred stock is automatically convertible to common B stock at a ratio of 1:1 upon either the occurrence of an initial public offering or upon majority approval of the preferred shareholders. The preferred stock is nonredeemable and has voting rights equal to the number of whole shares of class B common stock into which the preferred stock could be converted.

NOTE 6. CONVERTIBLE NOTES

The Company entered a series of convertible note agreements with various investors through a combination of Regulation Crowdfunding and Regulation D, 506 C with the funding portal Wefunder for the amount of \$2,798,721. The Convertible note requires yearly capitalization of interest and were converted in stock at maturity date in 2022. The Company has no convertible note outstanding as of December 31, 22.

NOTE 7. DUE FROM RELATED PARTY

The Company has amounts due from related parties amounting to \$693 as of December 31, 2022. There are no terms of agreement for the balance concerning timing of repayment or interest rate to be applied. As no repayments

have occurred or are planned to occur during 2022, the amount due to the related parties is reported as noncurrent on the accompanying combined balance sheet.

NOTE 8. COMMITMENTS AND CONTINGENCIES

From time to time, the Company may be involved in claims and legal actions arising in the ordinary course of business. The Company is not presently involved in any legal proceedings which management expects individually or in the aggregate to have a material adverse effect on its combined financial condition or results of operations or cash flows.

NOTE 9. EQUITY INCENTIVE PLAN

During 2016 and 2017, the Company granted options to certain employees and nonemployees pursuant to the terms of the 2015 Equity Incentive Plan. The maximum number of shares available to be granted under this plan is 4,380,000 shares. As of December 31, 2021, there were 1,626,399 shares available for future issuance. Options become vested over various terms ranging from vesting ratably over a three-year vesting term, to being 100% vested upon the grant date, to being 100% vested upon certain equity raise thresholds.

The Company follows FASB guidance, related to share-based payments, which requires that share-based compensation transactions be accounted for using a fair-value-based method and recognized as expenses in the combined statement of operations. The Company uses the Black-Scholes pricing model to value options.

The Company has 1,626,399 share options outstanding with a weighted average exercise price of \$0.26 at December 31, 2022. There were no stock options issued or exercised during 2022.

The following table summarizes additional information about share options outstanding and exercisable at December 31, 2022:

Range of exercise Prices	Share options Outstanding	Share options Exercisable	Weighted Average Life (in Months)
\$ 0.14 - 0.26	1,626,399	1,447,988	4.81

NOTE 10. OPERATING LEASES

The Company has no lease obligation as of December 31st 2022. The Company rent a coworking space.
