## BUSINESS AND ANTICIPATED BUSINESS PLAN

- Describe in detail the business of the issuer and the anticipated business plan of the issuer.

## RAIDAtech - The Next Phase

RAIDAtech is the pioneer in the use of the patented RAIDA technology.

RAIDA stands for: Redundant Array of Independent Detection Agents

RAIDA is more scalable, faster, more secure, more affordable and more eco-friendly than certain blockchain technologies.

The company is focused on delivering next-generation technology solutions for various digital currencies and tokenization. The first phase of accomplishing this goal is to continue placing existing coins, like Cloudcoin, on various large scale exchanges. CloudCoin is now listed at BitMart in its native form. RAIDAtech will continue to list CloudCoin and other RAIDA-based assets on major exchanges.

## Several Major Exchanges Are Ready To Go

RAIDAtech has agreements with three large exchanges to sell Cloudcoins on their respective platforms. The exchanges are Bitcoin.com, HitBTC and Changelly. Bitcoin.com already listed a CloudCoin variant and RAIDAtech will work with them to list the native CloudCoin. Combined those 3 exchanges average approximately three billion dollars in daily trading. In addition those three exchanges possess lists totaling 3.5 million potential coin and token buyers. Lastly, these exchanges average roughly 6 million visitors to their sites each month.

RAIDAtech has already made history by listing a digital currency powered by an alternative technology like RAIDA, which does not use blockchain technology. RAIDAtech will continue to promote RAIDA-based assets to ensure they are broadly traded and promoted throughout the world.

## Massive Promotion Of CloudCoin

With access to 3.5 million prospects, through email marketing, and exposure to 6 million visitors a month CloudCoin will explode into the consciousness of millions across the globe. During the short history of crypto and digital currencies it is not uncommon to see the value of currencies skyrocket. Why? In many cases it comes down to circumstances whereby a currency gets massive and concentrated exposure. This is the plan for CloudCoin and the technology behind a breakthrough new currency--RAIDAtech.

## RAIDAtech Makes a Breakout

With the rise of CloudCoin as a new digital asset, eyes are turning to the underlying technology. RAIDAtch will be ready to broadly promote its obvious advantages over blockchain in terms of faster transaction speed, lower energy consumption and significant security advantages. All of these advantages can be reviewed by going to <https://raidatech.com>.

Licensing of the underlying technology for current or future digital assets will be a major focus for RAIDAtch actions going forward.

### RISK FACTORS

**A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

One should understand the risks inherent in the early stage of a startup company doing business in an explosive new industry. These risks include:

- Governmental organizations adopting regulatory rules and laws that hamper or even curtail the operations of RAIDAtch or customers that the company is working with
- Technologies that could be developed that are superior to RAIDAtch
- Insufficient capitalization of the company so as to restrict growth or impede it altogether
- Technology adjustments or refinements that are ineffective or that reduce the effectiveness and workability of the underlying technology.
- Changes in the business operations of exchanges that Cloudcoins will be placed in that restrict or even eliminate the trading of Cloudcoins on these exchanges
- The business failure of exchanges associated with RAIDAtch operations

An investment in the Company’s securities involves substantial risk. Prospective investors should consider carefully the factors referred to below as well as others associated with their investment. In addition, this Memorandum contains forward-looking statements regarding future events and the future financial performance of the Company that involve significant risks and uncertainties. Investors are cautioned that such statements are predictions and beliefs of the Company and the Company’s actual results may differ materially from those discussed herein. The discussion below includes some of the material risk factors that could cause future results to differ from those described or implied in the forward looking statements and other information appearing elsewhere in this Memorandum. If any of the following risks, or any additional risks and uncertainties not listed below and not presently known to us, actually occur, our business could be harmed or fail. In such case, you may lose all or part of your Investment.

### Early Stage Company

This is a brand-new company. If you are investing in this company, it’s because you believe in the idea and the market opportunity, the quality of the team, and the direction of the business to date. As a new company we have a limited operating history. The Company was organized on August 5, 2018. We have a limited operating history upon which you may evaluate our business and prospects. We are in the early stages of our business. Accordingly, we are in the initial revenue phase, and our activities to date have involved research and development, business planning, market testing and efforts to raise startup capital. Our business and prospects must be considered in light of the risk, expense and difficulties frequently encountered by companies in early stages of development, particularly companies in highly competitive and evolving markets. If we are unable to effectively allocate our resources, manufacture our products, generate sales, or obtain and grow our customer base, our business operating results and financial condition would be adversely affected and we may be unable to execute our business plan, and our business could fail. Investors could therefore be at risk of losing their investment.

### Products and Services

<b>1,000,000 Shares of Common Stock at \$2.00 Per Share</b>			
	<i># Of Units</i>	<i>Total Proceeds</i>	<i>Net Proceeds</i>
<i>Target Offering</i>	<b>10,000</b>	<b>\$20,000</b>	<b>\$18,4000</b>
<i>Maximum Amount</i>	<b>1,000,000</b>	<b>\$2,000,000</b>	<b>\$1,840,000</b>

Will there be sufficient market for our products and at what price point? We will only succeed if there is sufficient demand for products and services.

### Competition

We compete with other companies. A number of competitors exist that either provide authentication, anti-counterfeiting, cybersecurity or related products and services. None, however, has a comparable security backbone to the patented RAIDA technology. Competitors and other companies may directly compete with us.

Many of our competitors have greater brand recognition and greater financial, marketing and other resources. This may place us at a disadvantage in responding to our competitors’ pricing strategies, technological advances, advertising campaigns, strategic alliances and other initiatives. Consequently, such competitors may be in a better position than the Company to take advantage of customer acquisition and business opportunities, and devote greater resources to marketing and sale of their product offerings. There cannot be any certainty that the Company will be able to compete successfully. If the Company cannot break through and compete successfully, investors may be at risk of losing their investment.

### Management/Team

We depend on a small management team and depend on their skill and experience. Each has a different skill set. Our ability to raise sufficient capital may have an impact on our ability to attract and hire the right talent. Our success is dependent on our key personnel. We believe that our success will depend on the continued employment of our senior management and key personnel. If one or more members of our senior management were unable or unwilling to continue in their present positions, our business and operations could be disrupted and this could put the overall business at risk, and therefore investors could be at risk of losing their investments.

We are controlled by our officers and directors. Our officers and directors currently hold the majority voting units, and at the conclusion of this offering will continue to hold a majority of the company’s units. Investors in this offering will not have the ability to control a vote the board of directors.

We may not effectively manage growth. The anticipated growth of the Company’s business will result in a corresponding growth in the demands on the Company’s management and its operating infrastructure and internal controls. While we are planning for managed growth, any future growth may strain resources and operational, financial, human and management information systems, which may not be adequate to support the Company’s operations and will require the Company to develop further management systems and procedures. There can be no guarantee that the Company will be able to develop such systems or procedures effectively on a timely basis. The failure to do so could have a material adverse effect upon the Company’s business, operating results and financial condition. Investors could therefore be at risk of losing their investments if growth is not managed effectively.

Our efficiency may be limited while our current employees and future employees are being integrated into our operations. In addition, we may be unable to find and hire additional qualified management and professional personnel to help lead us. There is competition for qualified personnel in the area of the Company’s activities, and there can be no assurance that the Company will be able to attract and retain qualified personnel necessary for the development of our business. If this business cannot effectively hire employees to help the company grow, the business could be at risk overall of not succeeding, and investors therefore may be at risk of losing their investment.

Management has broad discretion as to the use of proceeds.

The net proceeds from this Offering will be used for the purposes described under “USE OF PROCEEDS.” The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated, which it deems to be in the best interests of the Company in order to address changed circumstances or opportunities. This poses a risk to an investor should they be relying on current use of proceed forecasts for the investment as business conditions may require a change of the use of these funds.

## Projections and Assumptions

It is difficult for us to accurately predict our earnings potential. Because of our short operating history, it is more difficult to accurately assess growth rate and earnings potential. It is possible that our company will face many difficulties typical for early stage companies.

Projections are speculative and are based upon a number of assumptions. Any projected financial results prepared by or on behalf of the Company have not been independently reviewed, analyzed, or otherwise passed upon. Such “forward-looking” statements are based on various assumptions, which assumptions may prove to be incorrect. Such assumptions include, but are not limited to (i) the future status of local, regional and international economies, (ii) anticipated demand for our products, (iii) anticipated costs associated with the development, marketing, sales and distribution of our products, and

Accordingly, there can be no assurance that such projections, assumptions, and statements will accurately predict future events or actual performance. Any projections of cash flow should be considered speculative and are qualified in their entirety by the assumptions, information and risks disclosed in this Memorandum. Investors are advised to consult with their own independent tax and business advisors concerning the validity and reasonableness of the factual, accounting and tax assumptions. No representations or warranties whatsoever are made by the Company, its affiliates or any other person or entity as to the future profitability of the Company or the results of making an investment in the Shares. If our future projections end up being significantly different than currently projected, our business could be greatly impacted. Our business therefore may not be able to sustain itself without the projected future revenues. The business could be at risk of closing, and investors may therefore be at risk of losing their investments.

We expect our expenses to grow as the Company grows. Our expenses will increase as we build infrastructure to implement our business plan. For example, we may hire additional employees, expand our product offerings, and lease more space for our corporate offices. This poses a risk to the financial forecasts and current financial model of the Company.

The Company may not reach its sales goals. The Company has forecasted its capitalization requirements based on sales goals and cost containment measures; any reduction to these forecasts could make it difficult for the company to achieve its projected growth, which would affect available cash and working capital, ultimately affecting the Company’s financial condition. This could put the investor at risk of losing their investment.

## Financing

The Company may require additional financing to support working capital needs.

The Company may need to explore additional financing transactions that management determines are in the best interest of the Company, including, without limitation, commercial debt transactions, private offerings of debt or equity securities, a rights offering, and other strategic alternatives. Such additional financing may not be available to the Company, or, if available, the Company may be unable to undertake such additional financing on terms that are advantageous to the Company. If the Company fails to raise additional capital in such an offering, or through other fund raising efforts, such a failure could have a material adverse effect on the Company, and investors in this Offering could be at greater risk of losing their investments due to the inability of the business to proceed with enough working capital to effectively run the Company.

There is no minimum capitalization for this offering and investors’ subscription funds will be used by us as soon as they are received. There is no assurance that all or a significant number of units may be sold in this Offering. If only small portions of the units are placed, then we may not have sufficient capital to operate. There is no assurance that we could obtain additional financing or capital from any source, or that such financing or capital would be available to us on terms acceptable to us. Under such circumstances, the project would need to be scaled down, and would have a material adverse effect on our business.

## Technology

# OFFERING

# STATEMENT

<b>1,000,000 Shares of Common Stock at \$2.00 Per Share</b>			
	<i># Of Units</i>	<i>Total Proceeds</i>	<i>Net Proceeds</i>
<i>Target Offering</i>	<b>10,000</b>	<b>\$20,000</b>	<b>\$18,4000</b>
<i>Maximum Amount</i>	<b>1,000,000</b>	<b>\$2,000,000</b>	<b>\$1,840,000</b>

The general adoption of new technology cannot be assured. The Company’s products and services involve new technology and will be subject to social, economic, and technological adoption at the consumer, retail, and corporate level. The success of the Company will depend on the adoption of our products and services by all user groups, which will be dependent, long-term, on the bottom-up adoption cycle from customers vs. a top-down adoption from businesses. It is not possible to predict the adoption rate of the end customer due to the risk that our products will not be commercially or technologically adopted.

We must continue to enhance the features and functionality of our technology and product offerings. The effective performance, reliability and availability of our technology and product offerings are critical to our reputation and our ability to attract and retain users and customers. If we do not continue to make investments in product development and, as a result, or due to other reasons, fail to attract new and retain existing customers and investors, this could significantly decrease the value of our products and services to all customers and stakeholders. There can be no assurance that we will be successful in developing, marketing and selling new products and services that meet changing demands, that we will not experience difficulties that could delay or prevent the successful development, introduction, and marketing of these products and services, or that any new products and services and their enhancements will adequately meet the demands of the marketplace and achieve market acceptance.

### General economic and market conditions

Other economic and public health conditions in the markets in which we operate, including rising commodity and fuel prices, higher labor costs, increased transportation costs, natural disasters, terrorist attacks, outbreaks of public health pandemics or other diseases, or third party conduct could negatively impact our business. Various economic and public health conditions can have a significant negative impact on our business. Significant increases in the costs of other products, which are required by consumers, such as gasoline, home heating fuels, or groceries, may reduce discretionary spending by our target market, which would negatively impact our business. Economic conditions may also be negatively impacted by terrorist attacks, wars and other conflicts, increases in critical commodity prices, or the prospect of such events. Such a weakened economic and business climate, as well as consumer uncertainty created by such a climate, could harm our revenues and profitability.

In addition to experiencing potentially lower or no revenues from our products during times of economic difficulty, in an effort to maintain sales during such times we may need to reduce the price of our products, increase our promotional spending, or take other steps to encourage consumer purchases of our products. Those steps may lower our net revenues, if any, decrease our operating margins, increase our costs and/or lower our profitability.

### Intellectual Property

We are developing proprietary technologies, processes, software, and products relating to the authenticity and security space. Although reasonable efforts will be taken to protect the rights to our intellectual property and patent, the complexity of international trade secret, copyright, trademark and patent law, coupled with our limited resources and the demands of quick delivery of products and services to market, create risk that our efforts will prove inadequate. Further, the nature of the business demands that considerable detail about our innovative products be exposed to competitors.

If we incur costly litigation and our personnel are not effectively deployed, the expenses and losses incurred may increase, and our business will suffer material adverse effects, or may fail.

### Regulation

We could become subject to regulation in various jurisdictions. The technology sector is ever-changing and so is the regulator environment. We cannot anticipate the time and expense it would take to manage compliance issues in a global marketplace.

We are relying on certain exemptions from registration. The units are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act and applicable state securities laws. If the sale of the units were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of the units. If a number of purchasers were

to obtain rescission, the Company would face significant financial demands, which could adversely affect the Company as a whole, as well as any non-rescinding purchasers.

The units are restricted securities and a market for such securities may never develop. Investors should be aware of the potentially long-term nature of their investment. Each purchaser of units will be required to represent that it is purchasing such securities for its own account for investment purposes and not with a view to resale or distribution. Purchasers may be required to bear the economic risks of the investment for an indefinite period of time. The Company has neither registered the Shares, nor any other securities under the Securities Act. Consequently, shareholders may not be able to sell or transfer their securities under applicable federal and state securities laws. Moreover, there is no current public market for the Company’s securities, such a market is not likely to develop prior to a registration undertaken by the Company for the public offering of its securities for its own account or the account of others, and there can be no assurance that the Company will ever have such a public offering of its securities. Ultimately, each investor’s risk with respect to this Offering includes the potential for a complete loss of his or her investment.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

### Additional unforeseen risks

In addition to the risks described herein and elsewhere, other risks not presently foreseeable could negatively impact our business, could disrupt our operations and could cause the Company to fail. Ultimately, each investor in the Shares bears the risk of a complete and total loss of his/her/its investment.

**We have used an arbitrary offering price.** The offering price per unit was arbitrarily determined by the Company and is unrelated to specific investment criteria, such as the assets or past results of the Company’s operations. In determining the offering price, the Company considered such factors as the prospects, if any, of similar companies, the previous experience of management, the Company’s anticipated results of operations, and the likelihood of acceptance of this offering. Please review any financial or other information contained in this offering with qualified persons to determine its suitability as an investment before purchasing any shares in this offering.

**Management has broad discretion as to the use of proceeds.** The net proceeds from this Securities Offering will be used for the purposes described under “USE OF PROCEEDS.” The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated, which it deems to be in the best interests of the Company in order to address changed circumstances or opportunities. This poses a risk to an investor should they be relying on current use of proceeds forecasts for the investment as business conditions may require a change of the use of these funds.

**Public health epidemics or outbreaks could adversely impact our business.** In December 2019, a novel strain of coronavirus (COVID-19) emerged in Wuhan, Hubei Province, China. While initially the outbreak was largely concentrated in China and caused significant disruptions to its economy, it has now spread to several other countries and infections have been reported globally. The extent to which the coronavirus impacts our operations will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, new information which may emerge concerning the severity of the coronavirus and the actions to contain the coronavirus or treat its impact, among others. In particular, the continued spread of the coronavirus globally could adversely impact our operations, and could have an adverse impact on our business and our financial results.

**If we make mistakes or have unforeseen things happen to us, our suppliers, partners, vendors, etc, or the world, we can make little or no profit and can be driven out of business.**

11. How will the issuer complete the transaction and deliver securities to the investors?

After the Target Offering Proceeds, have been reached, and upon close of the offerings at the expiration the open period, the company will engage a Stock Transfer Agent to transfer the Securities to the newly acquired security holders.

12. How can an investor cancel an investment commitment?

**NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.**

**The intermediary will notify investors when the target offering amount has been met.**

**If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).**

					Specify:	

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?
- None
19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?  Yes  No
20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?
- None
21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The valuation of the company has been performed based on the issuers' qualitative and financial information, including but not limited to: 1. the quality, size and experience of the management team; 2. - the market of reference and business model; 3. the product/service and customers' feedback; 4. - the presence of strategic partnerships as well as external investors; 5. - the presence of relevant IP and/or legal risks; 6. - the current financial performance of the company; 7. - the projected financial performance of the company.

This information is combined with market-industry data, provided by a comprehensive valuation software, to come up with a comprehensive valuation estimate based on 5 different valuation models, 2 based on a qualitative assessment (named Scorecard and Check-List) and 3 based financial projections (namely: VC method, Discounted Cash Flows with Multiples, and Discounted Cash Flows with Long-Term Growth).

These methods are combined in a weighted average that applies the weights (see above image) according to the stage of development of the company (assessed by the valuation software), giving more emphasis on the 2 qualitative methods for early-stage businesses, and vice versa.

The valuation was calculated at pre money **\$89,219,325**.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

**The right to demand current distributions from an operating business is limited.** A majority owner, if she is committed to avoiding any distributions to a minority owner, can usually avoid making any distributions of profits. By establishing generous reserves for future expenses, paying a salary to herself or her relatives at the high range of what is reasonable, pre-paying expenses, investing in new business or new equipment, leasing expensive cars, etc., a majority owner can spend enough that there are rarely any profits to be distributed. So long as the expenses are not grossly unreasonable, the investor, probably, won't be able to force the company to allow you to share in any of the current income of the company.

**No right to participate in any management decisions of the company.** The majority owner may make a decision that the investor think is bad and puts your interest in the company at risk. The investor may see the majority owner running the company into the ground. The investor can try to convince him that it is the wrong decision, but he doesn't have to take your calls.

**The investor has limited rights, if any, to have your interest bought out.** You may want to cash out your interest and do other things with the money. State law may give you the right to force the company to buy you out, but these rights are limited.

While the investor would be entitled to a share of any profits on sale of the entire business, a sale can be structured in a way to avoid any payout to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.

Maximum Amount	1,000,000	\$2,000,000	\$1,840,000

23. What are the risks to purchasers associated with corporate actions including:

- **Additional issuances of securities:**

Following the investor’s investment in the Company, the Company may sell interest to additional investors, which will dilute the percentage interest of the investor in the Company. The Investor might have the opportunity to increase its investment in the Company in such transaction, but such opportunity cannot be assured. The amount of additional capital needed by the Company, if any, will depend upon the maturity and the objectives of the Company.

- **Issuer repurchases of securities:**

The company may have the authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the investor to sell its securities to the Company concurrently.

- **A sale of the issuer or of assets of the issuer:**

As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders.

- **Transactions with related parties:**

The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and the Board of Directors of the Company will be guided by their good faith judgement as to the Company’s best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm’s-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the company, the investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

Creditor Name(s)	Amount Outstanding	Interest Rate	Maturity Date	Other Material Terms
Convertible Bond Loan Payable	\$527,205	9%	Aug 2022- Nov 2022	Option to convert to shares
Sean Worthington	\$3,767.58	no interest loan	12/31/2022

**INDEPENDENT AUDITORS' REPORT**

The Board of Directors  
RaidAQ LLC dba RAIDatech  
485 Notre Dame Blvd, Suite 370-11  
Chico CA 95928

**REPORT ON FINANCIAL STATEMENTS**

I have audited the accompanying balance sheets of RaidAQ LLC as of December 31, 2020 and 2021 and the related statements of operations, changes in owner's equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management.

**MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

**AUDITOR'S RESPONSIBILITY**

My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with generally accepted auditing standards as accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, I express no such opinion.

An audit also includes evaluating appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as

evaluating the overall presentation of the financial statements. Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements.

An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

**OPINION**

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of RaidAQ LLC as of December 31, 2020 and 2021, and the results of operations, changes in owner’s equity and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

**EMPHASIS OF MATTER PARAGRAPH**

The accompanying financial statements have been prepared assuming that the company will continue as going concern. As discussed in note 2 the company has operating losses and has accumulated deficit that raises substantial doubt about the company’s ability to continue as going concern. Management plans also are explained in note 2. Our opinion is not modified with respect to this matter.

RAIDAQ, LLC, (the Company) is a development stage Wyoming LLC. RAIDAQ LLC dba RAIDatech is a research, technology and Solutions with Services (SwS) company with exclusive license to develop applications for the patented RAIDA technology, a quantum-safe, self-healing, simple, fast and reliable global system for counterfeit detection and authentication, including a post-blockchain protocol for digital currencies.

The Company is developing a wide range of applications for RAIDA technology including secure cloud-based solutions for personal communications, financial services, information technology, business operations, education, healthcare and other fields. The Company is working with leading digital currency exchanges so that RAIDA-based assets are available on those exchanges.

**NOTE 2 – BASIS OF PRESENTATION AND GOING CONCERN**

Basis of Presentation

The Company has earned no revenues from limited principal operations. Accordingly, the Company’s activities have been accounted for as those of a “Development Stage Enterprise” as set forth in Financial Accounting Standards Board Statement No. 7 (“SFAS 7”). Among the disclosures required by SFAS 7 are that the Company’s financial statements be identified as those of a development stage company, and that the statements of operations, stockholders’ equity (deficit) and cash flows disclose activity since the date of the Company’s inception.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Going Concern

The company is a start-up and funding its operational expenses from the financing activities in addition to the operating revenues. Management plans to include plans to raise additional equity financing. However, there can be no assurance that the Company will be successful in obtaining sufficient equity financing on acceptable terms, if at all.

Failure to generate sufficient revenues, achieve planned gross margins, control operating costs or raise sufficient additional financing may require the Company to modify, delay or abandon some of its planned future expenditures, which could have material adverse effect on the company’s business, operating results, financial condition and ability to achieve its intended business objectives. These circumstances raise substantial doubt about the Company’s ability to continue as going concern for a reasonable period of time.

### Notes to the Financial Statements (continued):

As of 31 December 2021

#### NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Management evaluates the estimates and assumptions based on historical experience and believes that those estimates and assumptions are reasonable based upon information available to them.

Revenue Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, control has been transferred, the fee is fixed or determinable, and collectability is reasonably assured. In instances where final acceptance of the product is specified by the customer, revenue is deferred until all acceptance criteria have been met. In the event the Company is able to raise enough operational funds, its primary sources of revenue will be its live show ticket and merchandise sales. The Company applies the following five steps in order to determine the appropriate amount of revenue to be recognized as it fulfills its obligations under each of its arrangements: (1) Identify the contract with a customer, (2) Identify the performance obligations in the contract, (3) Determine the transaction price, (4) Allocate the transaction price to performance obligations in the contract, and (5) Recognize revenue as the performance obligation is satisfied.

Income Taxes

The Company accounts for income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Risks and Uncertainties

Conditions in the U.S. and worldwide along with local, state, and federal governmental policy decisions. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include: all the risks inherent in a new business, unfavorable publicity, infringement claims, unable to introduce new solutions or products on schedule, or consumer perception of their products or any similar products distributed by other companies could have a material adverse effect on their business and financial condition.

10. Add § 240.12g-6 to read as follows:

### § 240.12g-6 Exemption for securities issued pursuant to section 4(a)(6) of the Securities Act of 1933.

(a) For purposes of determining whether an issuer is required to register a security with the Commission pursuant to Section 12(g)(1) of the Act (15 U.S.C. 78l(g)(1)), the definition of held of record shall not include securities issued pursuant to the offering exemption under section 4(a)(6) of the Securities Act (15 U.S.C. 77d(a)(6)) by an issuer that:

- (1) Is current in filing its ongoing annual reports required pursuant to § 227.202 of this chapter;
- (2) Has total assets not in excess of \$25 million as of the end of its most recently completed fiscal year; and
- (3) Has engaged a transfer agent registered pursuant to Section 17A(c) of the Act to perform the function of a transfer agent with respect to such securities.

(b) An issuer that would be required to register a class of securities under Section 12(g) of the Act as a result of exceeding the asset threshold in paragraph (2) may continue to exclude the relevant securities from the definition of “held of record” for a transition period ending on the penultimate day of the fiscal year two years after the date it became ineligible. The transition period terminates immediately upon the failure of an issuer to timely file any periodic report due pursuant to § 227.202 at which time the issuer must file a registration statement that registers that class of securities under the Act within 120 days

Ladies and Gentlemen:

I commit and subscribe to purchase from RAIDATECH INC, a Wyoming Corporation (the "Company") "Common Stocks" in the dollar amount set forth below and upon the terms and conditions set forth herein.

I understand that this Subscription Agreement is conditioned upon Company's acceptance of subscriptions. If this Subscription Agreement has been accepted, the Common Stocks subscribed to hereby shall be issued to me in the form of s.

With respect to such purchase, I hereby represent and warrant to you that:

1 Residence.

I am a bona fide resident of (or, if an entity, the entity is domiciled in) the state set forth on my signature page.

2 Subscription.

- a. I hereby subscribe to purchase the number of Common Stocks set forth below, and to make capital contributions to the Company in the amounts set forth below, representing the purchase price for the Common Stocks subscribed.
Principal Amount of Common Stocks ..... (1)

(1) A minimum purchase of \$500, is required for individual investors. Amounts may be subscribed for in \$500 increments.

- b. I have funded my purchase via ACH, wire transfer or I am enclosing a check made payable to "RAIDATECH INC" in an amount equal to 100% of my total subscription amount.

### 3 Representations of Investor.

In connection with the sale of the Common Stocks to me, I hereby acknowledge and represent to the Company as follows: I hereby acknowledge receipt of a copy of the Confidential Private Placement Memorandum of the Company, dated on or about 2022-10-15 00:00:00, (the "Memorandum"), relating to the offering of the Common Stock.

- a. I have carefully read the Memorandum, including the section entitled "Risks Factors", and have relied solely upon the Memorandum and investigations made by me or my representatives in making the decision to invest in the Company. I have not relied on any other statement or printed material given or made by any person associated with the offering of the Common Stocks.
- b. I have been given access to full and complete information regarding the Company (including the opportunity to meet with the CEO of the Company and review all the documents described in the Memorandum and such other documents as I may have requested in writing) and have utilized such access to my satisfaction for the purpose of obtaining information in addition to, or verifying information included in, the Memorandum.
- c. I am experienced and knowledgeable in financial and business matters, capable of evaluating the merits and risks of investing in the Common Stocks, and do not need or desire the assistance of a knowledgeable representative to aid in the evaluation of such risks (or, in the alternative, I have used a knowledgeable representative in connection with my decision to purchase the Common Stocks).
- d. I understand that an investment in the Common Stocks is highly speculative and involves a high degree of risk. I believe the investment is suitable for me based on my investment objectives and financial needs. I have adequate means for providing for my current financial needs and personal contingencies and have no need for liquidity of investment with respect to the Common Stocks. I can bear the economic risk of an investment in the Common Stocks for an indefinite period of time and can afford a complete loss of such investment.
- e. I understand that there may be no market for the Common Stocks, that there are significant restrictions on the transferability of the Common Stocks and that for these and other reasons, I may not be able to liquidate an investment in the Common Stocks for an indefinite period of time.
- f. I have been advised that the Common Stocks have not been registered under the Securities Act of 1933, as amended ("Securities Act"), or under applicable state securities laws ("State Laws"), and are offered pursuant to exemptions from registration under the Securities Act and the State Laws. I understand that the Company's reliance on such exemptions is predicated in part on my representations to the Company contained herein.
- g. I understand that I am not entitled to cancel, terminate or revoke this subscription, my capital commitment or any agreements hereunder and that the subscription and agreements shall survive my death, incapacity, bankruptcy, dissolution or termination.
- h. I understand that capital contributions to the Company will not be returned after they are paid.

I understand that (i) there may be no market for the Common Stocks, (ii) the purchase of the Common Stocks is a long-term investment, (iii) the transferability of the Common Stocks is restricted, (iv) the Common Stocks may be sold by me only pursuant to registration under the Securities Act and State Laws, or an opinion of counsel that such registration is not required, and (v) the Company does not have any obligation to register the Common Stocks.
- b. I represent and warrant that I am purchasing the Common Stocks for my own account, for long term investment, and without the intention of reselling or redistributing the Common Stocks. The Common Stocks are being purchased by me in my name solely for my own beneficial interest and not as nominee for, on behalf of, for the beneficial interest of, or with the intention to transfer to, any other person, trust, or organization, and I have made no agreement with others regarding any of the Common Stocks. My financial condition is such that it is not likely that it will be necessary for me to dispose of any of the Common Stocks in the foreseeable future.
- c. I am aware that, in the view of the Securities and Exchange Commission, a purchase of securities with an intent to resell by reason of any foreseeable specific contingency or anticipated change in market values, or any change in the condition of the Company or its business, or in connection with a contemplated liquidation or settlement of any loan obtained for the acquisition of any of the Common Stocks and for which the Common Stocks were or may be pledged as security would represent an intent inconsistent with the investment representations set forth above.
- d. I understand that any sale, transfer, pledge or other disposition of the Common Stocks by me (i) may require the consent of the CEO of the Company, (ii) will require conformity with the restrictions contained in this Section 4, and (iii) may be further restricted by a legend placed on the instruments or certificate(s) representing the securities containing substantially the following language:

"The securities represented by this certificate have not been registered under the Securities Act of 1933, as amended, or applicable state securities laws and may not be sold, offered for sale, or transferred except pursuant to either an effective registration statement under the Securities Act of 1933, as amended, and under the applicable state securities laws, or an opinion of counsel for the Company that such transaction is exempt from registration under the Securities Act of 1933, as amended, and under the applicable state securities laws. The transfer or encumbrance of the securities represented by this certificate is subject to substantial restrictions."
