RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Limited Team - Although I have 30+ years experience in cleaning chemicals, and I have decades of experience managing sales teams in service industries, I have been a solopreneur since the inception of SunState Labs. I have utilized contract and fractional employees to accomplish many of our milestones, while preserving my limited capital resources. To scale the business and achieve the market penetration required to make DAZZ a success, I will need to build an enthusiastic, highly capable team around me.

Consumer adoption. Customers may not be willing to give up the convenience they've become accustomed to with ready-to-use household cleaners.

Too broad of a consumer market focus. Unlike our competition, we are not limiting our marketing toward a particular consumer group (i.e. eco-friendly green shoppers). We are taking a broad approach to capture as many shopper segments as possible (i.e. value shoppers, green shoppers, performance shoppers, etc.). Some advertising experts have cautioned us against this "shotgun" approach.

Competition. Although it's unlikely, it is possible for a larger CPG company to step in with their own product and overwhelm the market with a huge advertising spend. Manufactures of established eco-brands (7th generation, Method, Ms. Meyers, etc.) may develop and begin offering concentrated refills of their successful brands.

Innovations in plastic waste disposal/processing that minimize this environmental concern. Our greatest point of differentiation is our sustainability feature. This is a big selling feature now because of the seriousness of plastic waste. If advancements in compostable/biodegradable plastics continue and our "plastic problem" is resolved (or at least minimized to the point of public acceptance, sustainable alternatives like DAZZ may lose some of it's appeal.

Direct to consumer approach. Less than 5% of household cleaner purchases occur online. We are betting that this is because of the high shipping cost to MSRP ratio for household cleaners, plus the issues with leaking bottles. DAZZ resolves both of these challenges and online sales will be our focus for the next 12-24 months. If consumers will not change their buying behavior and continue to buy in stores, DAZZ will struggle until it is able to secure retail distribution.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

- Investor Commitment.** The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.
- Acceptance of the Investment.** If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.
- Investor Transfer of Funds.** Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
- Prograss of the Offerina.** The Investor will receive periodic email updates on the prograss of the offerina, including total amounts raised at anv aiven time, and

will be notified by email and through the "My Investments" screen when the target offering amount is met.

5. **Closing/Original Deadline.** Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
6. **Early Closings.** If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
7. **Book Entry.** Investments may be in book entry form. This means that the Investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investors' "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Such independent appraiser shall be regularly engaged in the valuation of securities. The foregoing repurchase option terminates upon a Change of Control or Dissolution Event (each, as defined in the Subscription Agreement).

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

- Yes: No Voting Rights
 No

16. How may the terms of the securities being offered be modified?

This Agreement constitutes the entire agreement between the parties hereto with respect to the subject matter hereof and may be amended only by a writing executed by all parties.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Common Stock	1,000,000	1,000,000	Yes

Class of Security
Securities Reserved for Issuance upon Exercise or Conversion

Warrants: _____

Options: _____

Describe any other rights:

The company intends to authorize the Class A Preferred Stock that investors in this round are purchasing prior to the close of the round. Class A Preferred Stock will not have voting rights but will have liquidation preferences over common stock.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering or sale).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

None

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the shareholders may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common stock that take into account factors such as the following:

- unrelated third party valuations of our common stock;
- the price at which we sell other securities, such as convertible debt or preferred stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the lack of marketability of our common stock;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its

operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

We develop sustainable cleaning products in effervescent tablet form. Now consumers can make their own cleaner at home using plain tap water and the same bottle over-and-over again. DAZZ ends the use-and-discard cycle associated with traditional ready to use cleaners, and by eliminating the bottle & water, DAZZ has created a cleaning product that can easily be mailed; opening up a world of opportunity for direct to consumer / eCommerce sales.

We hope (although cannot guarantee) that DAZZ will be purchased by an international Consumer Packaged Goods (CPG) company that can scale DAZZ to become a global brand and a global solution to plastic waste. We're on-track with this goal as we have already begun distribution in South Africa and Singapore. We are currently in discussions with distributors from 16 additional foreign markets, eager to bring DAZZ to their countries. Additionally, we have interest from home shopping channels in Japan, Germany, and the UK.

Milestones

SunState Laboratories, Inc. was incorporated in the State of Colorado in January 2020. We were originally organized as SunState Laboratories, LLC in 2012. In 2020 the LLC was fully dissolved and the Corporation assumed all assets and liabilities.

Since 2012, we have:

- Disruptive new consumer brand that is changing the household cleaner industry.
- Strong team of seasoned professionals driven to build a successful, non-concessionary impact company.
- We believe we have a clear exit strategy in 3-5 years
- Support a creative new eco-brand that has a direct and measurable environmental impact.
- Rockies Venture Club (RVC) has committed to being our lead investor in our next round. RVC is the oldest Angel Club in America.
- Proof of Concept - sold 12,000 units in <11 minutes on the Home Shopping Network (U.S. home shopping channel).
- Award - Winning products. DAZZ was awarded a Global Innovation Award from the IHH Assoc, and an Addy award for our brand and packaging.

Liquidity & Capital Resources

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 9 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering.

Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

SunState Laboratories, Inc. cash in hand is \$7,900, as of January 2020. Over the last three months, revenues have averaged \$4,300/month, cost of goods sold has averaged \$1,032/month, and operational expenses have averaged \$4,395/month, for an average burn rate of \$1,127 per month. Our intent is to be profitable in 22 months.

For Sales, we've noticed a significant increase in Amazon and website sales since beginning our digital marketing campaign. Additionally, we have begun our wholesale distribution to South Africa and Singapore. For Expenses, we've entered a lease for our new office and manufacturing facility.

We anticipate significant increases in sales and expenses over the next 3-6 months. On the sales side, we're already seeing a 152% increase over December numbers. As we continue to grow our digital campaign, we believe this trend will continue to increase. We also plan to begin our retail distribution program starting with 130 Camping World Stores in March, which we hope will boost our revenue. With our plant expansion, we also plan on growing our international distribution to include Australia, New Zealand, France, Spain, and India in the next 6 months. And finally, our goal is to launch our next 3 products before 3rd quarter 2020. For expenses, we will be scaling our manufacturing capabilities with new equipment and packaging labor. We also plan on hiring 1 sales position, 1 admin, and 1 production person. Additionally, we will be refreshing the DAZZ brand, website, and packaging material.
