OUR STORY

In 2012 Justin Korby (owner and brewer) opened Stoneman Brewery LLC and started the first Beer CSA (Community Supported Agriculture) in the United States. Selling "Shares" of beer brewed with nearly 100% local and regionally sourced ingredients in every bottle, where the customer paid in advance for a case of beer once a month for a 3 to 6 month period to be picked up once a month.

On a rural Colrain hillside farm Justin and his family build the smallest commercial brewery in the North East licensed at a total of 360 square feet. Stoneman Brewery was only open to the public one day a month for both CSA members and the general public to buy beer on the farm.

In 2013 Stoneman Brewery started the "Beer Share" series where every month he collaborated with a different Massachusetts brewery to make a small batch of beer using 100% local / regional grown ingredients for a specific event or store/business.

By 2015 it became apparent that Stoneman Brewery had to expand in some way since he was running one of the smallest breweries in the North East, using a CSA model, self distributing to stores in the Western MA area completely by himself (minus the help of his once retired parents and a handful interns). He slowly ended the Beer CSA model (for now), started looking for a new location to expand and by 2016 started contract brewing to keep the brand alive expanding from producing one barrel batches to 50 barrel batches at a time.

In 2016 Stoneman Brewery worked with CISA to change the rules to be the first brewery to be able to put the Local Hero Sticker on every beer he produced. This signifies that over 50% of the cost of the raw ingredients were grown in Massachusetts and the surrounding North East.

In 2019 Stoneman Brewery won the "Good Food Award" (one of the most prestigious award in the packaging food industry) for the Tractor Ryed IPA and also was nominated for the Middleman IPA.

- If the Company reaches the Target Offering Amount before the Offering Deadline, it may close the offering early if it provides notice about the new Offering Deadline at least five business days before such new Offering Deadline, absent a material change that would require an extension of the offering and reconfirmation of the investment commitment.
- If an investor does not cancel an investment commitment before the 48-hour period before the Offering Deadline, the funds will be released to the Company upon closing of the offering and the investor will receive securities in exchange for his or her investment.

(K) Material Changes

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. A material change could be good or bad. If a material change occurs after you make an investment commitment but before the Offering closes, then

the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” Many of the terms of the Notes are set forth in a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	0.9 - 5.0% ²
Payment Deadline	2025-01-01
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.25 X 1.2 X
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	Thirty (30) days after the last day of the calendar quarter ending not less than Sixty (60) days after the sharing start date.
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	.99%

¹ as further defined in the note agreement

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 0.9% and a maximum rate of 5.0% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$20,000	0.9%
\$41,750	2.0%
\$63,500	3.0%
\$92,500	4.3%
\$107,000	5.0%

³ To reward early participation, the investors who contribute the first \$20,000.0 raised in the offering will receive a 1.25x cap. Investors who contribute after \$20,000.0 has been raised in the offering will receive a 1.2x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

The Company has no outstanding securities.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Justin Korby	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.

(P) Indebtedness of the Company

Creditor	Amount	Interest Rate	Maturity Date	Other Important Terms

(R) Transactions Between the Company and "Insiders"

The Company has not made any business transaction, including stock purchases, salaries, property rentals, consulting arrangements, guaranties, etc.

(S) The Company's Financial Condition

Has Other Debt/Equity

As of the date of this Form C, the Company has debt of \$78,500 outstanding. This debt is sourced primarily from a Greenfield Cooperative Bank line of credit and will be senior to any investment raised on MainVest. In addition to the Company's outstanding debt and the debt raised on MainVest, the Company may require additional funds from alternate sources at a later date.
