Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

There is a risk that the products we develop will not sell as well as hoped in the marketplace.

We are reliant on consumers' tastes and therefore our ability to predict those tastes and changes in the market is key.

There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Costs of intrinsic materials needed in creating our products that are out of our control can go up.

Marketing costs to acquire new customers are constantly changing and can increase and offset profits and sales.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Investors are granting a proxy to vote their Units to the Board of Managers of the Company and, thus, will not have the right to vote on any matters coming before the members of the Company for a vote. By granting this proxy you are giving up your right to vote on important matters, including significant corporate actions like mergers, amendments to our operating agreement and articles of organization, a liquidation of our company and the election of our directors.

At the closing of this Offering, you will sign a proxy that gives our board of managers the right to vote the units that you are acquiring in this Offering on all matters coming before the holders of the units for a vote. The Board does not have any fiduciary duty to you to vote your units in a manner that is in your best interests. Accordingly, the Board may vote its proxy in a manner that may not be in the best interests of the holders of the Units. For example, the Board may vote the proxy in favor of an amendment to our operating agreement that adversely

affects the rights of the holders of the units in order to allow for a new investment to occur where the new investor requires senior rights. By granting a proxy to the Board, you will not have the right to vote your units on any matters, including the protective provisions contained in our operating agreement. As a result, you will have no say in any major corporate actions such as amendments to our operating agreement, the creation of securities that are senior to our the Units, mergers, the sale of all or substantially all of our assets, the election of board members, the liquidation or dissolution of our company and all other major corporate events.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,001**

Use of Proceeds: 60% towards Inventory, 32.5% towards digital marketing (google, FB), 7.5% towards Wefunder intermediary fee

If we raise: **\$499,999**

Use of Proceeds: 20% towards inventory, 30% towards digital marketing (google, FB) as well as other marketing channels, 42.5% towards business development, 7.5% towards Wefunder intermediary fee

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an investor's transaction and deliver securities to the investor.

- Investor Commitment.** The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the investor's electronic signature.
- Acceptance of the Investment.** If the Investor Agreement is complete, the investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.
- Investor Transfer of Funds.** Upon receiving confirmation that an investment has been accepted, the investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
- Progress of the Offering.** The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.
- Closing, Original Deadline.** Unless we meet the target offering amount early, investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
- Early Closings.** If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
- Book Entry.** Investments may be in book entry form. This means that the investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each investor's "My Investments" screen. The investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Reorganization into SPV. Each Investor Member hereby agrees to take any and all actions and sign such documents as may be necessary as determined by the Board in good faith to be advisable to reorganize the Investor Members into a special purpose vehicle (an "SPV"). Each Investor Member would receive a pro rata share of the SPV equity interests that is equal to the percentage of Series A Preferred Units that such Investor Member owns of the total outstanding Series A Preferred Units and the SPV would, in turn, own all of the Series A Preferred Units such that the Investor Member would then own its same percentage of Series A Preferred Units indirectly through its ownership interest in the SPV. Each Investor Member hereby constitutes and appoints each officer of the Company and the Company's successors and assigns, as investor member's true and lawful attorney, with full power of substitution, in the name and stead of the Investor Member, but on behalf of and for the benefit of the Company and its successors and assigns, to sign any and all documents necessary to establish the SPV and to cause the transfer of the Series A Preferred Units to the SPV and to take any other action necessary to comply with this Section 19, granting unto said attorneys-in-fact and agents, and each of them, full power and authority to do and perform each and every act and thing requisite and necessary to be done, as fully for all intents and purposes as such Investor Member might or could do in person, hereby ratifying and confirming all that each of said attorneys in fact and agents or their substitute or substitutes may lawfully do or cause to be done by virtue hereof.

the Company to register a class of its equity securities under the Securities Exchange Act of 1934, as amended, as required by Section 12(g) thereof, the Company shall have the option to repurchase the Series A Preferred Units from the Investor Members for a price equal to the greater of (i) the unpaid Stated Value of the Series A Preferred Unit, and (ii) the fair market value of the Series A Preferred Units, as determined by an independent appraiser of securities chosen by the Company (such repurchase, the "Repurchase," and such greater value, the "Repurchase Value").

Grant of Proxy to Board of Company. The undersigned subscriber, and any successors or assigns of the undersigned (the "Grantor") (to the fullest extent permitted by applicable law) appoints the board of directors of the Company (such person, the "Proxy"), or any other designee of Proxy, as the sole and exclusive attorney and proxy of Grantor, with full power of substitution and resubstitution, to vote and exercise all voting and related rights (to the fullest extent that Grantor is entitled to do so) with respect to all of the Units of the Company that now are or hereafter may be beneficially owned by Grantor, and any and all other Units or securities of the Company issued or issuable in respect thereof on or after the date hereof (collectively, the "Proxy Units") in accordance with the terms of this Section 10. The Proxy Units beneficially owned by Grantor as of the date hereof constitute the Units being acquired under this Agreement. Upon Grantor's execution of this Agreement, any and all prior proxies (other than the proxy granted in this Section 10) given by Grantor with respect to the Proxy Units are hereby revoked and Grantor agrees not to grant any subsequent proxies with respect to the Proxy Units or enter into any agreement or understanding with any person to vote or give instructions with respect to such subject matter in any manner inconsistent with the terms of this Agreement as long as the Proxy Units are outstanding. The proxy granted under this Section 10 is irrevocable (to the fullest extent permitted by applicable law), is coupled with an interest sufficient in law to support an irrevocable proxy, is granted pursuant to this Agreement. The attorney and Proxy named above is hereby authorized and empowered by Proxy, at any time, to act as Grantor's attorney and proxy to vote the Proxy Units, and to exercise all voting and other rights of Grantor with respect to the Proxy Units, at every annual, special or adjourned meeting of the unitholders of the Company and in every written consent in lieu of such meeting. All authority herein conferred shall survive the death or incapacity of Grantor and any obligation of Grantor hereunder shall be binding upon the heirs, personal representatives, successors and assigns of Grantor. The proxy granted in this Section 10 is coupled with an interest as aforesaid and is irrevocable. This irrevocable proxy may not be amended or otherwise modified without the prior written consent of the Grantor and the Proxy.

16. How may the terms of the securities being offered be modified?

This Agreement may be amended by the Members at any time and from time to time by written amendment executed by a Majority of Common Members; provided, however, that any amendment to this agreement that materially adversely affects the rights of the holders of Series A Preferred Units, shall also require the consent of a Majority of the Series A Members.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;

4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

Describe any other rights:

While Preferred Units hold some voting rights, investors in this round will have their voting rights proxy'd to the CEO. The company intends to authorize additional preferred and common units at the closing of the campaign.

Distributions; Conversion of Series A Preferred Units. The Board from time to time may determine the amount of cash and other property of the Company that is not reasonably necessary for the operation of the Company and is available for distribution to the Members ("Distributable Cash") and, except as otherwise provided in this Agreement or governing law and to the extent not otherwise prohibited pursuant to instruments or agreements of the Company relating to indebtedness for borrowed money, the Company shall make distributions of Distributable Cash Flow, as determined (with respect to Sections 9.2 through 9.4 of the Amended Operating Agreement) by the Board, to the Members in the following priority:

9.1. first, the Board is required to and shall cause to be distributed within five (5) days prior to each April 15, June 15, September 15 and January 15 of the succeeding year, to the Members, in proportion to their respective allocations of estimated taxable income of the Company for the taxable year in question, an amount necessary to provide liquidity for the payment of taxes arising from allocations of profits to Members to the extent of such tax payment obligation at the highest applicable marginal tax rate, and such tax distributions shall reduce dollar for dollar, distributions subsequently to be made to such Member under Section 9.2 through 9.4);

9.2. second, to the Members holding Series A Preferred Units (the "Series A Members"), pro rata in accordance with the number of Series A Preferred Units held, up to an amount equal to the Series A Stated Value per Unit (for purposes of this Agreement, the "Series A Stated Value per Unit" is equal to \$1.25 per Series A Preferred Unit);

9.3. third, to the Common Members, pro rata in accordance with the number of Common Units held, up to an amount equal to the total Capital Contribution made by such Common Members;

9.4. fourth, to all of the Members pro rata in accordance with the Members' relative Unit holdings.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering or sale).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

None

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the **unitholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the unitholders may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The unitholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The unitholders have the right to redeem their securities at any time. Unitholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common units that take into account factors such as the following:

- unrelated third party valuations of our common units;
- the price at which we sell other securities, such as convertible debt or preferred units, in light of the rights, preferences and privileges of our those securities relative to those of our common units;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the lack of marketability of our common units;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$219,000 in debt.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 12 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Indy Brand Clothing, LLC cash in hand is \$3,616, as of February 2020. Over the last three months, revenues have averaged \$98,569/month, cost of goods sold has averaged \$48,429/month, and operational expenses have averaged \$53,389/month, for an average burn rate of \$3,249 per month. Our intent is to be profitable in 3 months.

We hope that our revenues will start to see an even steeper up curve in the next few months especially with the new capital from this raise. 6 months following the raise we expect our revenues to be about 150K-250K per month. We expect expenses to be about equal to that during that time. We do have access to other sources of capital if we need them (personal sources and or loans offered by shopify, quickbooks and others). If needed, those can be used to fund short-term operations.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
