Executive Management

Angela Stockdall

Fractional CFO

Portland, Oregon Metropolitan Area

Summary

I began my finance career in Silicon Valley and have over 15 years of experience in the CFO seat. I've partnered with CEOs in various industries to develop and attain operational and strategic initiatives. These include mergers and acquisitions, divestitures, multiple ERP implementations and developing key drivers for success. In addition to understanding the story behind the financial statements, I'm an innovative problem solver and change manager. My overarching goal is to provide clarity and confidence to decision makers by utilizing data driven metrics.
