RISK FACTORS

Risks Related to the Company’s Business and Industry

The Company’s business operations may be materially adversely affected by a pandemic such as the Coronavirus (COVID-19) outbreak.

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which spread throughout other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a “Public Health Emergency of International Concern.” On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a “pandemic.” COVID-19 resulted in a widespread health crisis that adversely affected the economies and financial markets worldwide. The Company’s business could be materially and adversely affected. The extent to which COVID-19 impacts the Company’s business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact,

among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, the Company's operations may be materially adversely affected.

We have a history of losses and our future profitability is uncertain. If we do not become profitable or maintain profitability in the future, we may not be able to continue to operate.

We have incurred losses since we began our company and we will continue to have losses in the future as we incur additional expenses to execute our business plan, fuel our potential growth and conduct further research and development. We expect to make significant expenditures to commercialize our testing platform, further develop our business and make technology enhancements. We will have to begin to generate and sustain and increase revenues to achieve or maintain profitability. We may not generate sufficient revenues to achieve or maintain profitability in the future. We may incur significant losses in the future for a number of reasons, including those discussed in other risk factors and factors that we cannot foresee. We cannot assure you that we will achieve profitable operations or maintain them if achieved. Failure to achieve or maintain profitability will materially and adversely affect our business.

We are an early stage company with limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

We were organized as a California limited liability company on December 10, 2018. Accordingly, we have a limited history upon which an evaluation of our prospects and future performance can be made. Our proposed operations are subject to all business risks associated with new enterprises. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase for the near future. There can be no assurances that we will ever operate profitably. You should consider the Company's business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company.

We may not be able to manage future growth effectively.

If our business plan is successful, we may experience significant growth in a short period of time and potential scaling issues. Should we grow rapidly, our financial, management and operating resources may not expand sufficiently to adequately manage our growth. If we are unable to manage our growth, our costs may increase disproportionately, our future revenues may stop growing or decline and we may face dissatisfied customers. Our failure to manage our growth may adversely impact our business and the value of your investment.

We need to continue as a going concern if our business is to succeed.

Because of our recurring losses and negative cash flows from operations, we may not be able to continue as a going concern in the future. Reasons for our possible failure to continue as a going concern include our historical net losses, limited working capital, requirement to repay short and long term indebtedness and the need for additional financing to implement our business plan. If we are not able to attain profitability in the near future our financial condition could deteriorate further, which would have a material adverse impact on our business and prospects and result in a significant or complete loss of your investment. If we are unable to continue as a going concern, we might have to liquidate our assets and the values we receive for our assets in liquidation or dissolution could be significantly lower than the values reflected in our financial statements.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. We face intense competition for personnel. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

The development and commercialization of our products and services is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include both small and major companies worldwide, such as Tennessee Harvester, Treehouse Hemp, Green Machine Labs, ARSNL Labs and Centuria Remediation. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and services and thus may be better equipped than us to develop and commercialize our products and services. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products and services will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

We may plan to implement new lines of business or offer new products and services within existing lines of business.

There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients, or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Jason Burstein, Gabriel Mandell, Jesse Mandell, and Pablo Mitre who are CEO, CTO, COO, and CFO at the Company. The Company has or intends to enter into employment agreements with Jason Burstein, Gabriel Mandell, Jesse Mandell, and Pablo Mitre although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Jason Burstein, Gabriel Mandell, Jesse Mandell, and Pablo Mitre or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

The amount of capital the Company is attempting to raise in this Offering is not enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company will need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we will not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of his or her investment.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Jason Burstein, Gabriel Mandell, Jesse Mandell, and Pablo Mitre in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of Jason Burstein, Gabriel Mandell, Jesse Mandell, and Pablo Mitre die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S. and various foreign jurisdictions.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in qualification requirements, minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment, changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and

process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Cannabis remains illegal under federal law, and therefore, strict enforcement of federal laws regarding cannabis would prevent us from executing our business plan.

Cannabis is a Schedule I controlled substance under the Controlled Substance Act ("CSA"). Even in those jurisdictions in which the manufacture and use of medical cannabis has been legalized at the state level, the possession, use and cultivation all remain violations of federal law that are punishable by imprisonment and substantial fines. Moreover, individuals and entities may violate federal law if they intentionally aid and abet another in violating these federal controlled substance laws or conspire with another to violate them. In *United States v. Oakland Cannabis Buyers' Cooperative* and *Gonzales v. Raich*, the U.S. Supreme Court ruled that the federal government has the right to regulate and criminalize cannabis, even for medical purposes. We would be unable to execute our business plan if the federal government were to strictly enforce federal law regarding cannabis.

The U.S. Department of Justice, under the Obama administration, issued memoranda, including the so-called "Cole Memo" on August 29, 2013, characterizing enforcement of federal cannabis prohibitions under the CSA to prosecute those complying with state regulatory systems allowing the use, manufacture and distribution of medical cannabis as an inefficient use of federal investigative and prosecutorial resources when state regulatory and enforcement efforts are effective with respect to enumerated federal enforcement priorities under the CSA. In the Cole Memo, the U.S. Department of Justice provided guidance to all federal prosecutors indicating that federal enforcement of the CSA against cannabis-related conduct should be focused on eight priorities, which are to prevent: (1) distribution of cannabis to minors; (2) revenue from sale of cannabis to criminal enterprises, gangs and cartels; (3) transfer of cannabis from states where it is legal to states where it is illegal; (4) cannabis activity from being a pretext for trafficking of other illegal drugs or illegal activity; (5) violence or use of firearms in cannabis cultivation and distribution; (6) drugged driving and adverse public health consequences from cannabis use; (7) growth of cannabis on federal lands; and (8) cannabis possession or use on federal property.

In addition, Congress enacted an omnibus spending bill for fiscal year 2016 including a provision prohibiting the U.S. Department of Justice (which includes the DEA) from using funds appropriated by that bill to prevent states from implementing their medical-use cannabis laws. This provision, however, is effective only until April 28, 2017 and must be renewed by Congress. In *United States vs. McIntosh*, the United States Court of Appeals for the Ninth Circuit held that this provision prohibits the U.S. Department of Justice from spending funds from relevant appropriations acts to prosecute individuals who engage in conduct permitted by state medical-use cannabis laws and who strictly comply with such laws. However, the Ninth Circuit's opinion, which only applies to the states of Alaska, Arizona, California, Hawaii, and Idaho, also held that persons who do not strictly comply with all state laws and regulations regarding the distribution, possession and cultivation of medical-use cannabis have engaged in conduct that is unauthorized, and in such instances the U.S. Department of Justice may prosecute those individuals.

On January 4, 2018, Attorney General Jeff Sessions issued a memorandum to all United States Attorneys concerning marijuana enforcement, stating "Given the Department's well-established general principles, previous nationwide guidance specific to marijuana enforcement [including the Cole Memo] is unnecessary and is rescinded, effective immediately". However, Donald Trump subsequently signaled that he would support congressional efforts to protect those states that had legalized marijuana. Sessions resigned as Attorney General on November 7, 2018.

In April 2019, the Strengthening the Tenth Amendment Through Entrusting States (“STATES”) Act was reintroduced in the United States Senate by a bipartisan group of lawmakers. The STATES Act would, in part, amend the federal Controlled Substances Act such that its provisions would not apply to any individual acting in accordance with state or tribal marijuana laws.

Furthermore, financial transactions involving proceeds generated by cannabis-related conduct can form the basis for prosecution under the federal money laundering statutes, unlicensed money transmitter statutes and the Bank Secrecy Act. However, supplemental guidance from the U.S. Department of Justice directed federal prosecutors to consider the federal enforcement priorities enumerated in the "Cole Memo" when determining whether to charge institutions or individuals with any of the financial crimes described above based upon cannabis-related activity. Accordingly, the Treasury Department’s Financial Crimes Enforcement Network (“FinCEN”) established suspicious activity reporting guidelines for those banks serving marijuana related businesses that complemented the Cole Memo’s eight priorities.

Sessions’ rescission of the Cole Memo has not resulted in an increase in financial crimes enforcement against cannabis-related businesses, likely because FinCEN did not rescind its marijuana banking guidance.

Federal prosecutors have significant discretion, and there is no guarantee that the federal prosecutor in those judicial districts in which we conduct business will not choose to strictly enforce federal laws governing cannabis production or distribution. At this time, it is unknown if the STATES Act will become law or if the Trump administration will change the federal government’s current enforcement posture with respect to state-licensed medical-use cannabis. Any such change in the federal government’s current enforcement posture with respect to state-licensed cultivation of medical-use cannabis would result in our inability to execute our business plan and we would suffer significant losses and be required to cease operations.

Any changes in state or local laws that reduce or eliminate the ability to cultivate and produce medical-use cannabis would have a material negative impact on our business.

Assets leased to cannabis businesses may be forfeited to the federal government.

Any assets used in conjunction with the violation of federal law are potentially subject to federal forfeiture, even in states where cannabis is legal. If the federal government decides to initiate forfeiture proceedings against cannabis businesses, we may lose all of our assets.

The SEC is monitoring the cannabis industry and may halt or prevent the Offering or sale of our securities due to the bad acts of others.

On May 16, 2014 and again on September 5, 2018, the SEC’s Office of Investor Education and Advocacy issued an Investor Alert to warn investors about potential risks involving investments in marijuana-related companies. The SEC has noted an increase in the number of investor complaints regarding marijuana-related investments and has issued temporary trading suspensions for the common stock of various different marijuana-related companies. Due to the stigma created by the bad acts of others in the industry, the SEC may halt trading and offerings in all marijuana-related companies which would have a material adverse effect on our ability to raise capital and our business.

Our ability to grow our business depends on state laws pertaining to the cannabis industry.

Continued development of the medical-use cannabis industry depends upon continued legislative authorization of cannabis at the state level. The status quo of, or progress in, the regulated medical-use cannabis industry is not assured and any number of factors could slow or halt further progress in this area. While there may be ample public support for legislative action permitting the manufacture and use of cannabis, numerous factors impact the legislative process. For example, states that voted to legalize medical and/or adult-use cannabis in the November 2016 election cycle have seen significant delays in the drafting and implementation of regulations related to the industry. In addition, burdensome regulation at the state level could slow or stop further development of the medical-use cannabis industry, such as limiting the medical conditions for which medical cannabis can be recommended by physicians for treatment, restricting the form in which medical cannabis can be consumed, imposing significant registration requirements on physicians and patients or imposing significant taxes on the growth, processing and/or retail sales of cannabis, which could have the impact of dampening growth of the cannabis industry and making it difficult for cannabis businesses to operate profitably in those states.

FDA regulation of medical-use cannabis and the possible registration of facilities where medical-use cannabis is grown could negatively affect the medical-use cannabis industry and our financial condition.

Should the federal government legalize cannabis for medical-use, it is possible that the U.S. Food and Drug Administration, or the FDA, would seek to regulate it under the Food, Drug and Cosmetics Act of 1938. Additionally, the FDA may issue rules and regulations including certified good manufacturing practices, or cGMPs, related to the growth, cultivation, harvesting and processing of medical cannabis. Clinical trials may be needed to verify efficacy and safety. It is also possible that the FDA would require that facilities where medical-use cannabis is grown register with the FDA and comply with certain federally prescribed regulations. In the event that some or all of these regulations are imposed, we do not know what the impact would be on the medical-use cannabis industry, including what costs, requirements and possible prohibitions may be enforced. If we are unable to comply with the regulations or registration as prescribed by the FDA, we may be unable to continue to operate.

We may have difficulty accessing the service of banks, which may make it difficult to contract for real estate needs.

Financial transactions involving proceeds generated by cannabis-related conduct can form the basis for prosecution under the federal money laundering statutes, unlicensed money transmitter statute and the Bank Secrecy Act. Recent guidance issued by FinCen, a division of the U.S. Department of the Treasury, clarifies how financial institutions can provide services to cannabis-related businesses consistent with their obligations under the Bank Secrecy Act. Furthermore, supplemental guidance from the U.S. Department of Justice directs federal prosecutors to consider the federal enforcement priorities enumerated in the "Cole Memo" when determining whether to charge institutions or individuals with any of the financial crimes described above based upon cannabis-related activity. Nevertheless, banks remain hesitant to offer banking services to cannabis-related businesses. Consequently, those businesses involved in the regulated medical-use cannabis industry continue to encounter difficulty establishing banking relationships. Our inability to maintain our current bank accounts would make it difficult for us to operate our business, increase our operating costs, and pose additional operational, logistical and security challenges and could result in our inability to implement our business plan.

The Internal Revenue Code provides a higher tax rate for cannabis industry businesses.

Internal Revenue Code section 280E prohibits medical-marijuana businesses from deducting their ordinary and necessary business expenses, forcing them to contend with higher effective federal tax rates than similar companies in other industries. Our effective tax rate depends on how large our ratio of nondeductible expenses is to our total revenues, but it can be as high as 90%. This relatively higher tax rate will affect our future profitability and could cause us to perform worse than investments in different industries.

Laws and regulations affecting the regulated cannabis industry are constantly changing, which could materially adversely affect our proposed operations, and we cannot predict the impact that future regulations may have on us.

Local, state and federal cannabis laws and regulations are broad in scope and subject to evolving interpretations, which could require us to incur substantial costs associated with compliance or alter our business plan. In addition, violations of these laws, or allegations of such violations, could disrupt our business and result in a material adverse effect on our operations. It is also possible that regulations may be enacted in the future that will be directly applicable to our proposed business. We cannot predict the nature of any future laws, regulations, interpretations or applications, nor can we determine what effect additional governmental regulations or administrative policies and procedures, when and if promulgated, could have on our business.

We plan to implement new lines of business or offer new products and services within existing lines of business.

There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients, or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

In general, demand for our products and services is highly correlated with general economic conditions.

A substantial portion of our revenue is derived from discretionary spending by individuals, which typically falls during times of economic instability. Declines in economic conditions in the U.S. or in other countries in which we operate may adversely impact our financial results. Because such declines in demand are difficult to predict, we or the industry may have increased excess capacity as a result. An increase in excess capacity may result in declines in prices for our products and services.

Demand for and pricing of our products are subject to economic conditions and other factors present in the various markets where the products are sold.

Demand for our products is subject to the level of consumer demand for cannabis. The level of new cannabis purchases is cyclical, affected by such factors as general economic conditions, interest rates and availability of credit, consumer confidence, and patterns of consumer spending. Consumer preferences also impact the demand for new cannabis purchases. A decrease in demand due to any of these factors would have a negative effect on our business and operations.

Failure to develop new products and production technologies or to implement productivity and cost reduction initiatives successfully may harm our competitive position.

We depend significantly on the development of commercially viable new products, product grades and applications, as well as process technologies, free of any legal restrictions. If we are unsuccessful in developing new products, applications and production processes in the future, our competitive position and results of operations may be negatively affected. However, as we invest in new technology, we face the risk of unanticipated operational or commercialization difficulties, including an inability to obtain necessary permits or governmental approvals, the development of competing technologies, failure of facilities or processes to operate in accordance with specifications or expectations, construction delays, cost over-runs, the unavailability of financing, required materials or equipment and various other factors. Likewise, we have undertaken and are continuing to undertake initiatives to improve productivity and performance and to generate cost savings. These initiatives may not be completed or beneficial or the estimated cost savings from such activities may not be realized.

Product liability claims could adversely impact our business and reputation.

Our business exposes us to potential product liability risk, as well as warranty and recall claims that are inherent in the design, manufacture, sale and use of our products. We sell products in the licensed cannabis industry where the impact of product liability risk is high. In the event our products actually or allegedly fail to perform as expected and we are subject to such claims above the amount of insurance coverage, outside the scope of our coverage, or for which we do not have coverage, our results of operations, as well as our reputation, could be adversely affected. Our products may be subject to recall for performance or safety-related issues. Product recalls subject us to harm to our reputation, loss of current and future customers, reduced revenue and product recall costs. Product recall costs are incurred when we, either voluntarily or involuntarily, recall a product through a formal campaign to solicit the return of specific products due to a known or suspected performance issue. Any significant product recalls could have an adverse effect on our business and results of operations.

We may be subject to litigation despite compliance with regulations and industry standards.

We spend substantial resources ensuring that we comply with governmental safety regulations on both a state and local level. Compliance with governmental standards, however, does not necessarily prevent individual or class actions, which can entail significant cost and risk. Litigation also is inherently expensive and uncertain, and we could experience significant adverse results, including negative public opinion.

A majority of the Company is owned by a small number of owners.

Prior to the Offering the Company's current owners of 20% or more beneficially own up to 84.94% of the Company. Subject to any fiduciary duties owed to our other owners or investors under Delaware law, these owners will be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

The Company has indicated that it has engaged in certain transactions with related persons.

Please see the section of this Memorandum entitled "Transactions with Related Persons and Conflicts of Interest" for further details.

Risks Related to the Securities

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C/A/A and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

Upon conversion of the Crowd Notes, Purchasers who are not "Major Investors" will grant a proxy to vote their underlying securities to the intermediary or its affiliate, and, thus, will not have the right to vote on any matters coming before the shareholders of the Company for a vote. By granting this proxy you are giving up your right to vote on important matters, including significant corporate actions like mergers, amendments to our certificate of incorporation, a liquidation of our company and the election of our directors.

Upon conversion of the Crowd Notes and by virtue of a provision contained in the Crowd Notes, if you are not a Major Investor, that is, an investor who has purchased at least \$25,000 in principal amount of the Crowd Notes, you will grant a proxy to the intermediary or its affiliate to vote the underlying securities that you will acquire upon conversion on all matters coming before the shareholders for a vote. The intermediary does not have any fiduciary duty to you to vote in a manner that is in your best interests. Accordingly, the intermediary may vote its proxy in a manner that may not be in the best interests of you as a security holder. For example, the intermediary may vote the proxy in favor of an amendment to our charter that adversely affects the rights of the holders of your class of securities in order to allow for a new investment to occur where the new investor requires senior rights.

The Crowd Note will not be freely tradable until one year from the initial purchase date. Although the Crowd Note may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Crowd Note. Because the Crowd Note have not been registered under the Securities Act of 1933, as amended (the "Securities Act") or under the securities laws of any state or non-United States jurisdiction, the Crowd Note have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Crowd Note may also adversely affect the price that you might be able to obtain for the Crowd Note in a private sale. Purchasers should be aware of the long-term

nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

You will not have a vote or influence on the management of the Company.

All decisions with respect to the management of the Company will be made exclusively by the officers, directors, managers or employees of the Company. You, as a Purchaser of Crowd Notes, will have no ability to vote on issues of Company management and will not have the right or power to take part in the management of the company and will not be represented on the board of directors or managers of the Company. Accordingly, no person should purchase a Security unless he or she is willing to entrust all aspects of management to the Company.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

The Company has the right to end the Offering early.

The Company may also end the Offering early; if the Offering reaches its target Offering amount after 30-calendar days but before the deadline, the Company can end the Offering with five business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

There is no present market for the Securities, and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

Purchasers will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which the Purchasers will be able to demand repayment of their investment. With respect to Purchasers who invest less than \$25,000 in the Securities, the Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and such Purchasers have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Such Purchasers demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or, with respect to those Purchasers who invest less than \$25,000, elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could

be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Affiliates of the Company, including officers, directors and existing shareholders of the Company, may invest in this Offering and their funds will be counted toward the Company achieving the Minimum Amount.

There is no restriction on affiliates of the Company, including its officers, directors and existing shareholders, investing in the Offering. As a result, it is possible that if the Company has raised some funds, but not reached the Minimum Amount, affiliates can contribute the balance so that there will be a closing. The Minimum Amount is typically intended to be a protection for investors and gives investors confidence that other investors, along with them, are sufficiently interested in the Offering and the Company and its prospects to make an investment of at least the Minimum Amount. By permitting affiliates to invest in the offering and make up any shortfall between what non-affiliate investors have invested and the Minimum Amount, this protection is largely eliminated. Investors should be aware that no funds other than their own and those of affiliates investing along with them may be invested in this Offering.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, and more than thirty (30) days remain before the Offering Deadline, an intermediate close of the Offering can occur, which will allow the Company to draw down on the first \$75,000 of the proceeds of the offering committed and captured during the relevant period, as well as every \$125,000 raised after. The Company may choose to continue the Offering thereafter. Purchasers should be mindful that this means they can make multiple investment commitments in the offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Purchasers previously closed upon will not have the right to re-confirm their investment as it will be deemed completed.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether it will successfully effectuate its current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other things, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C/A AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

BUSINESS

Description of the Business

Remedy is a research and development-based cannabis company focused on the separation, isolation, and remediation of pure cannabis compounds from Cannabis Sativa L (“hemp” and “cannabis”). Our primary focus is removing the THC (remediation) from hemp concentrates for the legal sale of hemp-derived products (including CBD). We charge a fee for our services which our clients pay upon receipt of our services.

Business Plan

Our strategy is to continue increasing our THC remediation capacity to serve both our 3rd party THC remediation services and build up our premium concentrates wholesale division. While we believe there to be an excess of demand for quality THC remediation services, we believe it is being commoditized. To mitigate this risk, we are focused on decreasing our processing costs and gradually allocating more processing capacity and R&D resources to develop better, custom formulated premium concentrates. As we intend on increasing our processing capacity, we plan on also strengthening relationships with our suppliers to assure quality supply and utilize the least amount of working capital for starting raw material as we scale. Looking a couple years ahead, we hope to have a recognizable premium concentrates brand that we believe will facilitate for us being a key partner for suppliers, manufacturers, and brands. It could possibly also open the door to other business opportunities like financing our own suppliers and developing our own retail brands.

FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C/A and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit A.

Operations

The Company has been funded directly from investments from the partners, a loan, and revenue generated. Following the Offering, we hope to have enough liquidity to execute our business plan until Q2 2022. We aim to be profitable by the end of Q2 2021. Our significant challenges are to scale our current processing capacity so as to begin accepting larger clients, as well as developing and marketing new viable premium concentrates in a competitive environment and sourcing consistent third party quality suppliers to ensure we have sufficient and high quality material when necessary.

The Company hopes to achieve profitability within the next 12 months by increasing our production capacity, driving down processing costs per gram, acquiring additional wholesale clients, and launching five new custom formulated concentrates.

Liquidity and Capital Resources

The Offering proceeds are important to our operations. While not dependent on the Offering proceeds, the influx of capital will assist in the achievement of our next milestones and expedite the realization of our business plan, specifically increasing our processing capacity and allow us to open up to the market segment with large processing contracts. The Offering proceeds will have a beneficial effect on our liquidity, as of October 2020, we had \$12,658 in cash on hand. The Company expects to increase its cash on hand in December 2020, as it expects to close on the \$500,000 investment before the end of the year.

The Company does not have any additional sources of capital other than the proceeds from the Offering.

Capital Expenditures and Other Obligations

The Company does not intend to make any material capital expenditures in the short term.

Material Changes and Other Information

Trends and Uncertainties

After reviewing the above discussion of the steps the Company intends to take, potential Purchasers should consider whether achievement of each step within the estimated time frame is realistic in their judgment. Potential Purchasers should also assess the consequences to the Company of any delays in taking these steps and whether the Company will need additional financing to accomplish them.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to \$250,000.00 in principal amount of Crowd Notes. The Company is attempting to raise a minimum amount of \$25,000.00 in this Offering (the "Minimum Amount"). The Company must receive commitments from investors in an amount totaling the Minimum Amount by April 19, 2021 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion. The Company will accept investments in excess of the Minimum Amount up to \$250,000.00 (the "Maximum Amount") and the additional Securities will be allocated on at the Company's discretion.

The price of the Securities does not necessarily bear any relationship to the Company's asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with Evolve Bank & Trust until the Minimum Amount of investments is reached. Purchasers may cancel an investment commitment until 48 hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers. If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled, and the committed funds will be returned without interest or deductions.

In the event that \$75,000 in investments is committed and received by the escrow agent and more than thirty (30) days remain before the Offering Deadline, the Company may conduct the first of multiple closings of the Offering (an "Intermediate Close"), provided all investors receive notice that an Intermediate Close will occur and funds will be released to the Company, at least five (5) business days prior to the Intermediate Close (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Investors who committed on or before such notice will have until 48 hours before the Intermediate Close to cancel their investment commitment.

In the event the Company does conduct the first of multiple closes, the Company agrees to only withdraw \$75,000 from escrow and will only conduct the Intermediate Close if more than thirty (30) days remain before the Offering Deadline. The Company may only conduct another Intermediate Close before the Offering Deadline if: (i) the amount of investment commitments made and received in escrow exceeds \$125,000 since the time of the last Intermediate Close; and (ii) more than thirty (30) days remain before the Offering Deadline.

If a Purchaser does not cancel an investment commitment before an Intermediate Close or before the Offering Deadline, the funds will be released to the Company upon closing of the Offering, and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing, and the Purchaser will receive Securities in exchange for his or her investment as soon as practicable thereafter.

The Company has agreed to return all funds to investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of any subsequent closes.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

The price of the Securities was determined arbitrarily. The minimum amount that a Purchaser may invest in the Offering is \$100.00.

The Offering is being made through MicroVenture Marketplace, Inc., the Intermediary. The following two fields set forth the compensation being paid in connection with the Offering.

Commission/Fees

The Company shall pay to the Intermediary at the conclusion of the Offering a fee consisting of five percent (5%) commission based on the amount of investments raised in the offering and paid upon disbursement of funds from escrow at the time of closing.

Stock, Warrants and Other Compensation

The intermediary will receive a number of Crowd Notes of the issuer that is equal to two percent (2%) of the total number of Crowd Notes sold by the issuer in the Offering.

Transfer Agent and Registrar

The Company will act as transfer agent and registrar for the Securities.

The Securities

We request that you please review our offering materials and the Crowd Note in conjunction with the following summary information.

Authorized Capitalization

See “CAPITALIZATION AND OWNERSHIP” above.

General

A Crowd Note is similar to a SAFE (Simple Agreement for Future Equity) security where an investor makes a cash investment in our company, but gets company equity at a later date in connection with a specific event. Although the security is called a Crowd Note, the Crowd Note is not a debt instrument. It is intended to be an alternative to a convertible note that is beneficial for both our company and you as an investor.

Events Triggering Conversion of Crowd Notes

If you are a Major Investor, which is defined as an investor who invests at least \$25,000 in this offering, then the specified event upon which the Crowd Notes would convert into capital interests of our company is (i) a Qualified Equity Financing, which we define below, or (ii) a Corporate Transaction, which we define below, if instead of receiving two times (2X) the outstanding principal of your Crowd Note, your Crowd Note is converted immediately prior to the closing of the Corporate Transaction.

If you are not a Major Investor, then the Crowd Notes will only convert into capital interests of our company upon the earlier of (i) our company’s election to convert your Crowd Notes, including upon a Qualified Equity Financing if our company elects to convert your Crowd Note then, or (ii)

a Corporate Transaction, if instead of receiving two times (2X) the outstanding principal of your Crowd Note, your Crowd Note is converted immediately prior to the closing of the Corporate Transaction.

Qualified Equity Financing

The Crowd Note defines “Qualified Equity Financing” as the first sale (or series of related sales) by us of our preferred membership interests following the closing of this offering from which we receive gross proceeds of not less than \$1,000,000.00 (excluding the aggregate amount of securities converted into preferred membership interests in connection with such sale (or series of related sales)).

If the Crowd Note converts into equity in connection with a Qualified Equity Financing, then we will convert the Crowd Note into units of our preferred membership interests that are issued in connection with the Qualified Equity Financing, which we refer to as Conversion Interests, equal to the quotient obtained by dividing the outstanding principal amount of the Crowd Note by the Conversion Price, which is defined below. The issuance of Conversion Interests will be on the same terms and conditions applicable to the membership interests sold in the Qualified Equity Financing; provided, however, that if you are not a Major Investor, you will receive units of a shadow series, as we describe below, with certain limited rights. The Conversion Price applicable to a Qualified Equity Financing is the lower of:

- (i) the product of (a) one minus any applicable Discount (which is 20%), and (b) the price paid per share for preferred membership interests by the investors in the Qualified Equity Financing, or
- (ii) the quotient resulting from dividing (a) the Valuation Cap (\$4.25 million or \$5.5 million, depending on whether the Purchaser is an early bird investor), as defined below by (b) the total number of our units of capital interests that are outstanding on a fully diluted basis (assuming for this purpose the exercise, exchange or conversion of all securities exercisable or exchangeable for, or convertible into, our capital interests), immediately prior to the closing of the Qualified Equity Financing.

Any investor who is not a Major Investor will receive a shadow series of preferred membership interests upon conversion of such investor’s Crowd Note. A shadow series is a series of our preferred membership interests that is identical in all respects to the units of preferred membership interests issued in the Qualified Equity Financing (e.g., if the Company sells Series A Preferred Membership Interests in the Qualified Equity Financing, the shadow series would be Series A-1 Preferred Membership Interests), except that the liquidation preference per share of the shadow series shall equal the Conversion Price and the following additional differences will apply:

- (i) shadow series shareholders will grant their vote on any matter that is submitted to a vote or for the consent of the unitholders of our company (except for on matters required by law) by irrevocable proxy; and
- (ii) shadow series unitholders will receive quarterly business updates from the company through the Platform but will have no additional information or inspection rights (except with respect to such rights which are required by law).

Corporate Transaction and Corporate Transaction Payment

The Crowd Note defines “Corporate Transaction” as

- (i) the closing of the sale, transfer or other disposition of all or substantially all of our assets,
- (ii) the consummation of the merger or consolidation of our company with or into another entity (except a merger or consolidation in which the holders of capital interests of our company immediately prior to such merger or consolidation continue to hold at least 50% of the voting power of the capital interests of our company or the surviving or acquiring entity),
- (iii) the closing of the transfer (whether by merger, consolidation or otherwise), in one transaction or a series of related transactions, to a person or group of affiliated persons (other than an underwriter of our securities), of securities of our company if, after such closing, such person or group of affiliated persons would hold 50% or more of the outstanding voting membership interests of our company (or the surviving or acquiring entity), or
- (iv) the initial public offering, liquidation, dissolution or winding up of our company; provided, however, that a transaction shall not constitute a Corporate Transaction if its sole purpose is to change the state of our incorporation or to create a holding company that will be owned in substantially the same proportions by the persons who held our securities immediately prior to such transaction.

In the event of a Corporate Transaction (defined above) that, you will receive the higher of (i) an amount equal to two times (2X) the price you paid for your Crowd Note (i.e., 2x your principal amount) or (ii) the number of units of preferred membership interests of the Company calculated by (a) multiplying the price you paid for your Crowd Note by the total number of our interests of capital membership interests that are outstanding on a fully diluted basis (assuming for this purpose the exercise, exchange or conversion of all securities exercisable or exchangeable for, or convertible into, our capital membership interests), immediately prior to the closing of the Qualified Equity Financing, and (b) dividing the product of that calculation by the Valuation Cap.

If there are not enough funds to pay you and other Crowd Note investors in full, then proceeds from the respective transaction will be distributed with equal priority and pro rata among the Crowd Note investors in proportion to their Purchase Price.

Termination of Crowd Note

The Crowd Notes will terminate upon the earlier of: (i) a conversion of the entire purchase price under the Crowd Notes into Conversion Interests; or (ii) the payment of amounts due to the investor pursuant to a Corporate Transaction.

No Voting Rights, No Shareholders Agreement and No Anti-Dilution Rights

The Crowd Notes do not have any voting rights. Further, upon conversion of the Crowd Notes into Conversion Interests, shadow series unitholders shall grant their vote on any matter that is submitted to a vote or for the consent of the members of the Company (except for on matters required by law) by irrevocable proxy.

The Company does not have any unitholder/equity holder agreements in place.

The Securities do not have anti-dilution rights.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Purchaser of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (i) to the Company, (ii) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act, (iii) as part of an IPO or (iv) to a member of the family of the Investor or the equivalent, to a trust controlled by the Purchaser, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother / father / daughter / son / sister / brother-in-law, and includes adoptive relationships. Remember that although you may legally be able to transfer the Securities, you may not be able to find another party willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Securities into which they are convertible, such transferring Purchaser must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

In addition, the Purchaser may not transfer the Securities or any Securities into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital interests into which the Securities are converted will be subject to a lock-up period and may not be sold for up to 180 days following such IPO.

Additional Transfer Restrictions

You may not transfer the Crowd Notes or any securities into which they are convertible to any of our competitors, as determined by us in good faith.

IPO Lock Up

Upon the event of an initial public offering, the equity interest into which the Crowd Notes are converted will be subject to a lock-up period and may not be sold for up to 180 days following such initial public offering.

Other Material Terms

The Company does not have the right to repurchase the Securities.

COMPANY SUMMARY

Opportunity

The U.S. Farm Bill designated hemp as an agricultural crop and made it legal to farm nationwide in 2018.ⁱ In conjunction with this regulatory change, consumer interest in hemp and CBD products has created a market opportunity for entrants looking to satisfy consumer demands for hemp-derived products.ⁱⁱ

Marijuana is grown by selectively breeding for high concentrations of the psychoactive tetrahydrocannabinol (THC), whereas hemp is cultivated for high concentrations of cannabidiol (CBD). According to the Farm Bill, hemp is legal provided that it contains no more than 0.3% THC.ⁱⁱⁱ

Remedy Processors is a startup that provides a range of services around cannabinoids, including remediation, separation, isolation, and formulation. The company serves both businesses – through custom formulations, THC remediation, and white-label services – as well as consumers – through Remedy Processors-branded products. The company has spent the last two years in research and development to develop scalable processes to repeatedly and accurately remove THC, without diluting the quality of the hemp concentrates, so it can serve the greater cannabis and hemp market effectively.

Product

Remedy Processors offers a range of services in the cannabis industry. Those services and products are:

- Remediation
- Custom formulations
- Remedy Processors'-branded Canna Complexes

Remediation

Remedy Processors offers processing services to businesses that are looking to remove THC from hemp-derived concentrates. Remedy Processors leverages chromatography to remove the THC, a process that the company believes is adaptable into targeting and isolating other compounds in hemp concentrates. Remedy Processor's THC remediation service lowers the THC concentration below 0.3%, so the material maintains its cannabinoid profile, while staying compliant.

Additionally, Remedy Processors offers remediation for cannabis from several pesticides. The company currently offers this service through partners while it waits for a regulatory license.

Custom Formulations

MICROVENTURES

The company isolates specific cannabinoids from a concentration so that a client customer can create custom formulations. Remedy Processors can isolate CBD, CBG, CBC, and CBN. In practice, this enables clients to make a lotion, a tincture, or a concentrate, with a specific amount of each cannabinoid in each mix. Clients can either choose the mix or allow Remedy Processors to provide recommendations.

Remedy Processors'-branded Canna Complexes

Remedy's beauty and personal care products all start with its Canna Complexes. The company leverages the potential of nature's cannabinoids, each product starting with a broad spectrum. From there, Remedy Processors adds select minor cannabinoids depending on the desired mix. The company develops products that are targeted and focused for specific applications.

Remedy Processors currently has three products ready for distribution, both private label and white label.

Product Roadmap

Remedy Processors has multiple planned services, product, and business expansions throughout the next two years. Highlights from the product and business potential strategy for the next two years include:

2021

- Continue THC remediation for 3rd parties, however, continuously allocate more capacity to the development of in-house premium concentrates
- Branded products (concentrates) to be sold at the wholesale level for several, additional specific applications
- Develop new products (wholesale creams, lotions, serums, etc.) with additional active ingredients (beyond cannabinoids)
- Earn pesticide remediation license to remove pesticides from the cannabis extracts
- Lower production cost per gram to below \$.10 per gram

MICROVENTURES

2022

- Begin exploring retail opportunities in specific niches for new products the company believes can have outsized impact
- Finance material suppliers with assets who can guarantee quantity and quality of starting raw material for the company's products and services. Remedy Processors will not purchase the raw material, but rather aims to charge suppliers a fee for processing and commercializing the material under its brand.

Business Model

Remedy Processors primarily generates revenue in two ways, THC remediation and the wholesale of premium concentrates it develops.

- **THC Remediation:** For THC remediation services, the company charges clients a fee per output gram processed.
 - In October 2020, for example, the average output price per gram was \$0.45. This output cost Remedy Processors \$0.22 to develop.
- **Wholesale of Premium Concentrates:** The company would create custom, formulated concentrates to wholesalers for purchase. This process involves purchasing raw material, processing it, and then selling it to customers.
 - In October 2020, for example, the average output price per gram was \$1.80. This output cost Remedy Processors \$1.07 to develop.

INDUSTRY AND MARKET ANALYSIS

The global legal marijuana market was valued at \$17.7 billion in 2019 by Grandview Research, with the industry projected to grow by an 18.1% compound annual growth rate (CAGR) until 2027. Growth is projected to be driven by legalization of marijuana in various countries, as well as the momentum of medical cannabis usage. With legalization, countries decrease the black market for cannabis, in addition to earning tax revenues. California, for instance, collected \$345 million in cannabis tax revenues in 2018.^{iv}

MICROVENTURES

The medical cannabis segment earned about 71% of revenue share in 2019. However, by 2027, Grandview Research estimates that recreational cannabis usage will emerge as the fastest-growing segment. Among products, the buds segment is the largest, with \$9.1 billion in revenue in 2019. The oils segment is forecast to grow the fastest during the research period with many individuals using it to improve the treatment of cancer and nausea, as well as improving sleep and alleviate stress and anxiety.^v

In 2018, the U.S. Farm Bill designated hemp as an agricultural crop and made it legal to farm nationwide.^{vi} Increasing consumer interest in hemp and CBD is driving new market entrants to fill shelves with hemp-derived products to meet the growing demand in an evolving regulatory environment.^{vii} Marijuana is grown by selectively breeding for high concentrations of the psychoactive tetrahydrocannabinol (THC), whereas hemp is cultivated for high concentrations of cannabidiol (CBD). According to the Farm Bill, hemp is legal provided that it contains no more than 0.3% THC.^{viii} According to an article at Harvard Health Publishing, CBD is commonly used to address health issues such as anxiety, insomnia, and chronic pain. The strongest scientific evidence for CBD's treatment of health issues is its effectiveness in fighting childhood epilepsy syndromes such as Dravet Syndrome and Lennox-Gastaut syndrome (LGS).^{ix}

Although the Farm Bill changed the federal government's position on hemp farming and the production of CBD oils, individual states have not responded in-kind and the debate on the substance's legality is still murky. Also, in testimony before Congress, former FDA commissioner Scott Gottlieb suggested that potent CBD products be regulated as a pharmaceutical product requiring FDA approval, while low-dose products continue to be allowed to stay on the shelves of CBD merchants.^x Currently, the FDA maintains that it is a prohibited act to introduce into interstate commerce any food to which CBD or THC has been added and that both CBD and THC are excluded from the definition of "dietary supplement" and cannot be marketed or sold as such.^{xi}

In 2019, venture capital financings in cannabis companies surpassed \$2.8 billion, a record high, and a 77.5% increase from 2018. Deal count in 2019 was also record-setting, with 391 venture financings. 2018 also saw significant growth in funding towards cannabis companies, with nearly \$1.60 billion invested, a 199% year-over-year increase across 270 total deals. Deal count surpassed 100 total deals for the first time in 2015, with 128 such venture financings, a 106% increase from 2014. Between 2009 and 2019, there has been \$5.69 billion invested across 1,257 venture capital deals in cannabis companies. Over 77% of capital invested from 2009 to 2019 occurred in 2018 and 2019.^{xii}

upon the representations and agreements contained in this Subscription Agreement (and any supplemental information) for the purpose of determining whether this transaction meets the requirements for such exemptions.

ii. The undersigned understands that the Securities are restricted from transfer for a period of time under applicable federal securities laws and that the Securities Act and the rules of the U.S. Securities and Exchange Commission (the "Commission") provide in substance that the undersigned may dispose of the Securities only pursuant to an effective registration statement under the Securities Act, an exemption therefrom or as further described in Rule 501 of Regulation CF, after which certain state restrictions may apply. The undersigned understands that the Company has no obligation or intention to register any of the Securities, or to take action so as to permit sales pursuant to the Securities Act. Even when the Securities become freely transferrable, a secondary market in the Securities may not develop. Consequently, the undersigned understands that the undersigned must bear the economic risks of the investment in the Securities for an indefinite period of time.

iii. The undersigned agrees: (A) that the undersigned will not sell, assign, pledge, give, transfer or otherwise dispose of the Securities or any interest therein, or make any offer or attempt to do any of the foregoing, except pursuant to Rule 501 of Regulation CF.

7. Conditions to Obligations of the Undersigned and the Company. The obligations of the undersigned to purchase and pay for the Securities specified on the signature page hereto and of the Company to sell the Securities are subject to the satisfaction at or prior to the Closing of the following conditions precedent: the representations and warranties of the Company contained in Section 5 hereof and of the undersigned contained in Section 6 hereof shall be true and correct as of the Closing in all respects with the same effect as though such representations and warranties had been made as of the Closing.

8. Obligations Irrevocable. Following the Closing, the obligations of the undersigned shall be irrevocable.

9. Legend. The certificates, book entry or other form of notation representing the Securities sold pursuant to this Subscription Agreement will be notated with a legend or designation, which communicates in some manner that the Securities were issued pursuant to Section 4(a)(6) of the Securities Act and may only be resold pursuant to Rule 501 of Regulation CF.

10. Waiver, Amendment. Neither this Subscription Agreement nor any provisions hereof shall be modified, changed, discharged or terminated except by an instrument in writing, signed by the party against whom any waiver, change, discharge or termination is sought.

11. Assignability. Neither this Subscription Agreement nor any right, remedy, obligation or liability arising hereunder or by reason hereof shall be assignable by either the Company or the undersigned without the prior written consent of the other party.

12. Waiver of Jury Trial. THE UNDERSIGNED IRREVOCABLY WAIVES ANY AND ALL RIGHT TO TRIAL BY JURY WITH RESPECT TO ANY LEGAL PROCEEDING ARISING OUT OF THE TRANSACTIONS CONTEMPLATED BY THIS SUBSCRIPTION AGREEMENT.

13. Dispute Resolution.

a) General Rule.

Any dispute under this Subscription Agreement will be resolved through arbitration, not through the court system. All arbitration will be conducted in the state in which the executive office of the Company is located unless both parties agree otherwise in writing in a specific case. All arbitration will be conducted before a single arbitrator in following the rules of the American Arbitration Association. Except as required by law, neither a party nor the arbitrator may disclose the existence, content or results of any arbitration without the prior written consent of the other parties.

b) Appeal of Award.

Within thirty days of a final award by the single arbitrator, either party may appeal the award for reconsideration by a three-arbitrator panel. If there is an appeal, the other party may cross-appeal within

thirty days after notice of the appeal. The panel will reconsider all aspects of the initial award that are appealed, including related findings of fact.

c) Effect of Award.

Any award by the individual arbitrator that is not subject to appeal, and any panel award on appeal, shall be final and binding, except for any appeal right under the Federal Arbitration Act, and may be entered as a judgment in any court of competent jurisdiction.

d) No Class Action Claims.

NO ARBITRATION SHALL PROCEED ON A CLASS, REPRESENTATIVE, OR COLLECTIVE BASIS. No party may join, consolidate, or otherwise bring claims for or on behalf of two or more individuals or unrelated corporate entities in the same arbitration unless those persons are parties to a single transaction. An award in arbitration shall determine the rights and obligations of the named parties only, and only with respect to the claims in arbitration, and shall not (i) determine the rights, obligations, or interests of anyone other than a named party, or resolve any claim of anyone other than a named party, or (ii) make an award for the benefit of, or against, anyone other than a named party. No administrator or arbitrator shall have the power or authority to waive, modify, or fail to enforce this paragraph, and any attempt to do so, whether by rule, policy, and arbitration decision or otherwise, shall be invalid and unenforceable. Any challenge to the validity of this paragraph shall be determined exclusively by a court and not by the administrator or any arbitrator. If this paragraph shall be deemed unenforceable, then any proceeding in the nature of a class action shall be handled in court, not in arbitration.

14. Governing Law. This Subscription Agreement shall be governed by and construed in accordance with the laws of the State of California, without regard to conflict of law principles thereof.

15. Section and Other Headings. The section and other headings contained in this Subscription Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Subscription Agreement.

16. Counterparts. This Subscription Agreement may be executed in any number of counterparts, each of which when so executed and delivered shall be deemed to be an original and all of which together shall be deemed to be one and the same agreement.

18. Binding Effect. The provisions of this Subscription Agreement shall be binding upon and accrue to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns.

19. Survival. All representations, warranties and covenants contained in this Subscription Agreement shall survive (i) the acceptance of the subscription by the Company, (ii) changes in the transactions, documents and instruments described in the Form C/A which are not material or which are to the benefit of the undersigned and (iii) the death or disability of the undersigned.

20. Notification of Changes. The undersigned hereby covenants and agrees to notify the Company upon the occurrence of any event prior to the closing of the purchase of the Securities pursuant to this Subscription Agreement, which would cause any representation, warranty, or covenant of the undersigned contained in this Subscription Agreement to be false or incorrect.

21. Severability. Problem

Extracted hemp concentrates cannot be sold until the THC is removed

1

2018 Federal U.S. Farm Bill

Federally legalized hemp

2

Legal hemp MUST not be over 0.3% THC¹

Excess THC must be mitigated

3

THC levels tend to rise above legal limit during extraction of oils and concentrates¹

THC removal is required

Source: <https://wp.nyu.edu/dispatch/the-truth-about-cbd-concentrates/>

- We believe there is a window of opportunity for niche players:
 - Edibles, topicals, pharmaceuticals, sublingual, inhalables, and pet care hemp products all start with raw extracts.
 - We believe there is value in niche opportunities and in essential adjacent services such as the removal of THC from hemp derived oils and custom formulated concentrates.

Timing is now...

THC Remediation

Remove THC without removing the valuable compounds in hemp concentrate

1

Removing THC in a cost effective, scalable method is extremely challenging. Remedy's trade secrets are designed to repeatedly and accurately remove THC without diluting the quality of the extract.

2

After 1.5 years of R&D, we believe we offer high quality services that are differentiated in the market.

High quality = best yield + great cannabinoid potency. Due to data tracking, we improve with every gram we process.

This is in our lab ↑

THC Remediation Technology

Our technology leverages chromatography to remove THC from hemp-derived concentrates.

Chromatography is adaptable, allowing us to target and isolate any compound in the hemp concentrates.

Leveraging this technology, we can allocate our processing capacity to different services and potential new revenue streams at no additional cost.

Our Perceived Competitive Differentiation

Flexibility

Our trade secrets and processes are designed to allow us to lower risk and quickly adapt to new market trends in an ever-evolving market.

Low Cost

Cost-effective process that enables us to be competitive on pricing in the market.

Quality

We aim to deliver outsized mass and cannabinoid potency yields. We hope this focus on maintaining such quality (cosmetic and pharma-grade) will set us apart and help us enter long-standing relationships with clients.

Speed

Quick turnaround with processes that are refined with every new client.

Traction

Remedy started in January 2019, then developed trade secrets to remediate pesticides from cannabis.

In May 2019, the company pivoted to THC remediation.

Production Capacity: From 0 to 30 kgs per week

Phase 1: THC Remediation & Wholesale of Premium Concentrates (Current)

- THC Remediation requires zero inventory, we charge per output gram processed
- Wholesale Premium Concentrates with specific applications (luxury eye-creams, serums, etc.), we charge per gram sold. By leveraging our quick turnaround and relationships with suppliers, everything is made to order.
- Through JVs and consulting projects, we are figuring out the optimal applications of different custom formulated hemp concentrates which will be branded and commercialized for such specific applications.

Business model:

Phase 2: Branded concentrates phase (2nd half 2021)

- Continue THC remediation for 3rd parties, while allocating more capacity to the development of our premium concentrates.
- Branded products (concentrates) to be sold at the wholesale level for several specific applications.
- Develop new products (wholesale creams, lotions, serums, etc.) with other beneficial active ingredients.

Business model:

Phase 3: Finance suppliers, process material, and commercialize our products both wholesale and retail (2022+)

- Finance suppliers with assets who can guarantee us quantity and quality of starting raw material
- We do not purchase the raw material; we charge suppliers a fee for processing and commercializing the material under our brand. The remainder we give back to the suppliers.
- Possibly begin exploring retail opportunities in niches that are underserved.
