Netcapital and Portal do not make investment recommendations and no communication, through this website or in any other medium, should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Directors, Officers and Promoters of the Company

4. The following individuals (or entities) represent the company as a director, officer or promoter of the offering:

Name

Uganda Williams

Principal occupation and employment responsibilities during at least the last three (3) years with start and ending dates

3-year work experience: Foot Glove Performance Footwear Inc., CEO - 2014 - Present; Short Bio: Uganda M. Williams, Sr. - Founder & CEO Mr. Uganda Williams was exposed to the world of business ownership at an early age. His family owns and operates a third-generation masonry construction company, Emanuel Mason and Builders Inc. Mr. Williams joined the family business in 1994 while he was still in high school. For the next 12 years, Mr. Williams helped manage and operate the Company. Being the go-getter that he is, working for the family business was not enough for Mr. Williams; he wanted to carve a separate path and make his own success. For the next 7 years following his departure from the masonry business, Mr. Williams held various managerial positions. His first was with a large restaurant chain where his main duties included training other employees and resolving customer problems. After his stint in the restaurant industry, Mr. Williams joined Dollar General Corporation as a store manager. He was tasked with implementing local marketing strategies, improving operational processes, and increasing sales in a previously underperforming

store. It was his experience in the restaurant and retail industries that made Mr. Williams hyper-aware of the back and foot pain that comes from standing on your feet all day. Mr. Williams used his marketing research skills to understand the mechanisms behind the footwear manufacturing industry; he quickly noticed that it was lagging behind in the use of new technologies. This " ah-ha " moment spurred Mr. Williams to begin developing his own solution product, which led him to establishing Foot Glove Performance Footwear, Inc.

Name

Eric Jackson

His experience encompasses working with the introduction of specialty medical equipment, surgical implants, and devices used in clinical settings to promote the highest quality of patient care. He is currently managing EDI Medical, a small but growing medical supply company with an area of emphasis that caters directly to the needs of the podiatric customer. Mr. Jackson is a graduate of Indiana University and received his MBA from California Lutheran University.

Name

David Coatney

Principal occupation and employment responsibilities during at least the last three (3) years with start and ending dates

3-year work experience: Foot Glove Performance Footwear Inc., Executive Vice President - 2016 - Present Short Bio: Executive Vice President - David Allen Coatney , Mr. Coatney was exposed to success and motivation early in life by means of his family, many of whom had started their own businesses. Mr. Coatney developed the same determination to succeed and is now a serial entrepreneur who owns multiple successful businesses. During his time as owner/operator of these businesses, Mr. Coatney has had invitations to sit on company boards and is currently President for one and Vice President for a second. As an investor, Mr. Coatney is a visionary where finances are involved, knowing which investments would do well as opposed to those that would not. In his life, Mr. Coatney has learned how to focus his efforts and make "something out of nothing."

Principal Security Holders

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Foot Glove Performance Footwear is a specialty footwear and apparel product development, e-commerce, wholesale, and retail product sales company. Our flagship product, a line of patented exclusive foam insole padded foot comfort-enhancing specialty socks is aiming to provide the missing link in solving the widespread foot pain problems plaguing America and the world today. Instead of relying just on innovation in shoe technology, our socks bond with shoes to create a uniform system that provides all-encompassing cushioning and superior foot comfort. Statement of market potential: Chronic foot pain afflicts tens of millions of Americans from age 25 to over the age of 30 and hundreds of millions more worldwide. Foot pain results from a variety of ailments stemming from injury, overuse, or conditions causing inflammation involving any of the bones, ligaments, or tendons in the foot. The Mayo Clinic lists 34 common causes of foot pain including arthritis, tendinitis, plantar fasciitis, metatarsalgia, stress fractures, flat feet, and diabetes. These problems, and many more, account for foot pain and discomfort among working and nonworking individuals, driving a multi-billion-dollar market for symptom relief. Daily work or recreation activities that involve long hours of standing and/or walking on concrete, wood, and other hardened surfaces common to urban life serve to further exacerbate pain sensation in feet. Footglove Performance Footwear provides a non-pharmaceutical, inexpensive, and effective treatment to many foot pain symptoms. Our company's Patented design places calibrated and contouring compression materials with a polyurethane foam insole inside a specially designed sock to evenly absorb and distribute pressure away from problem areas of the foot, thereby significantly reducing foot pain and discomfort and contributing to the improved overall wellbeing and quality of life of our individual product user. Our Footglove PF socks' value proposition is that it offers a superior solution to foot pain and discomfort symptom relief to tens of millions of people seeking non-curative relief. Current and historical remedies such as aftermarket insoles, ex. Dr. Scholl's, and pain relief medicines (NSAIDS), and shoes marketed as "comfort shoes" account for the majority of non-invasive symptom relief sales in the US. Our Footglove PF socks alternative provides better pressure distribution in a more convenient and cost-effective manner. Statement brief that includes parts of our business operations and strategy: Footglove Performance Footwear Inc. initiated design and development, as well as submitted a utility patent application, for our product in 2014 and took receipt of product inventory based on those initial designs in December 2016. Contemporary to the development and manufacturing, our company established internet retail relationships with The Grommet.com, Amazon, and established our own eCommerce platform. Additionally, our company created numerous marketing materials including videos for Grommet.com, by Kevin Harrington (Shark Tank) with physician and celebrity endorsements also another TV infomercial to use as product marketing tools. Our Patent was awarded to us in May of 2018. We plan to pursue Licensing Agreements through our contract with expert IP Licensing Negotiator Rand Brenner. Sales analysis from initial soft launch through TheGrommet.com: The initial launch of the product in 2017 generated over \$40,000 in sales from The Grommet website alone. This provided evidence for the marketability and sales potential, as well as a proof-of-concept for Footglove PF socks' unique and effective foot pain relief solution. Because it is in our company's best interest to optimize our product offering, our focus has for the most been on R&D and unfortunately not Sales as we want to provide only the best products for our valued customers. Although we are approaching our \$100,000 in sales milestone, our sales would be a lot higher if our products were manufactured better initially. Footglove Inc. has continued to innovate and evolve our product since the initial version was produced in 2016. In particular, we modified the design to remove the compression element from our version 1.0 product to turn it into a simpler and versatile product that is easier to put on and take off and is more comfortable for all-day wearing. Given a desire to shorten the production lead-time, reduce the minimum production quantity, and continually improve quality control, our company contracted with a domestic hosiery manufacturer in Tennessee for the production of the second-

generation version of our exclusive footwear products. V3. Officially Licensed Mossy Oak Camo Brand product production With the version 3.0 production pending, our company will soon be set to fully exploit and serve the market demand for foot pain and discomfort relief. The strategic initiatives for this venture include: Product placement on MossyOak.com and Mossy Oak's Social Media Sales Platforms such as Facebook, Instagram, etc. Relaunch of product V3.0 on Amazon.com and related e-commerce sites. "Our New launch" status will include front page exposure which is aimed at significantly boosting sales. Amazon sales accelerator. We aim to contract with industry Sales specialists for accelerating product sales through Amazon. The strategy involves proven sophisticated and high-power eCommerce marketing techniques that require professional expertise and experience. Brick and mortar retailer product placement. Retailers ranging from Bass Pro Shops, Cabela's to the independent shoe and work boot locations, mega national chains including sporting goods, housewares, and mass merchants (ex. Walmart) which represents the backbone of American retail for foot pain relief products. Traditional wholesale sales to such retailers, beginning with the local market and utilizing commission-based sales reps, will continue to bring sales growth as each new location is established. Corporate sales. Millions of individuals are employed in professions that require long hours on their feet. Workers in the retail industry, package delivery such as Amazon Fulfillment, Fed Ex, UPS, etc. Also, construction and manufacturing workers have access to personal protection equipment products in onsite vending machines and through their employers. Large volume sales to such employers could allow employees to buy a product like Footglove PF at a discount compared to retail. Our company plans to actively pursue sales leads through this channel. The corporate sales channel also opens the option for special makeup (SMU) products that feature the corporate logo or other design effects to distinguish the product from the normally available consumer version of our product.

Risk Factors

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

7. Material factors that make an investment in Foot Glove Performance Footwear Inc. speculative or risky:

1. Our future business and results of operations depend in significant part upon the continued contributions of our CEO and founder. If we lose those services or if he fails to perform in his current position, or if we are not able to attract and retain skilled employees in addition to our CEO and the current team, this could adversely affect the development of our business plan and harm our business. In addition, the loss of any other member of the board of directors or executive officers could harm the Company's business, financial condition, cash flow and results of operations.
2. The Company's management anticipates it can use reasonable efforts to assess, predict and control costs and expenses. However, implementing our business plan may require more employees, capital equipment, supplies or other expenditure items than management has predicted. Likewise, the cost of compensating employees and consultants or other operating

- costs may be higher than management's estimates, which could lead to sustained losses.
3. Investing in early-stage companies is very risky, highly speculative, and should not be made by anyone who cannot afford to lose their entire investment. Unlike an investment in a mature business where there is a track record of revenue and income, the success of a startup or early-stage venture often relies on the development of a new product or service that may or may not find a market. Before investing, you should carefully consider the specific risks and disclosures related to both this offering type and the company.
 4. Our success also depends upon our ability to attract and retain numerous highly qualified employees. Our failure to attract and retain skilled management and employees may prevent or delay us from pursuing certain opportunities. If we fail to successfully fill many management roles, fail to fully integrate new members of our management team, lose the services of key personnel, or fail to attract additional qualified personnel, it will be significantly more difficult for us to achieve our growth strategies and success.
 5. The Company's management anticipates it can use reasonable efforts to assess, predict and control costs and expenses. However, implementing our business plan may require more employees, capital equipment, supplies or other expenditure items than management has predicted. Likewise, the cost of compensating employees and consultants or other operating costs may be higher than management's estimates, which could lead to sustained losses.
 6. Intense competition in the markets in which we compete could prevent us from generating or sustaining revenue growth and generating or maintaining profitability. Our business is competitive, and we expect it to become increasingly competitive in the future as more startups enter the industry. We may also face competition from large companies, any of which might have more capital than we have, and launch its own business that competes with us.
 7. Public health epidemics or outbreaks could adversely impact our business. In December 2019, a novel strain of coronavirus (COVID-19) emerged in Wuhan, Hubei Province, China. While initially the outbreak was largely concentrated in China and caused significant disruptions to its economy, it has now spread to several other countries and infections have been reported globally. The extent to which the coronavirus impacts our operations will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, new information which may emerge concerning the severity of the coronavirus and the actions to contain the coronavirus or treat its impact, among others. In particular, the continued spread of the coronavirus globally could adversely impact our operations, and could have an adverse impact on our business and our financial results.
 8. *The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.*

You should not rely on the fact that our Form C, and if applicable Form D is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering.

9. *Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.*

The securities being offered have not been registered under the Securities Act of 1933 (the "Securities Act"), in reliance on exemptive provisions of the Securities Act. Similar reliance has been placed on apparently available exemptions from securities registration or qualification requirements under applicable state securities laws. No assurance can be given that any offering currently qualifies or will continue to qualify under one or more of such exemptive provisions due to, among other things, the adequacy of disclosure and the manner of distribution, the existence of similar offerings in the past or in the future, or a change of any securities law or regulation that has retroactive effect. If, and to the extent that, claims or suits for rescission are brought and successfully concluded for failure to register any offering or other offerings or for acts or omissions constituting offenses under the Securities Act, the Securities Exchange Act of 1934, or applicable state securities laws, the Company could be materially adversely affected, jeopardizing the Company's ability to operate successfully. Furthermore, the human and capital resources of the Company could be adversely affected by the need to defend actions under these laws, even if the Company is ultimately successful in its defense.

10. *The Company has the right to extend the Offering Deadline, conduct multiple closings, or end the Offering early.*

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment up to 48 hours before an Offering Deadline, if you choose to not cancel your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you. If the Company reaches the target offering amount prior to the Offering Deadline, they may conduct the first of multiple closings of the Offering prior to the Offering Deadline, provided that the Company gives notice to the investors of the closing at least five business days prior to the closing (absent a material change that would require an extension of the Offering and reconfirmation of the investment commitment). Thereafter, the Company may conduct additional closings until the Offering Deadline. The Company may also end the Offering early; if the Offering reaches its target offering amount after 21-calendar days but before the deadline, the Company can end the Offering with 5 business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

11. *The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.*

Despite that the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the allocation of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

12. *The Securities issued by the Company will not be freely tradable until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with his or her attorney.*

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Securities. Because the Securities offered in this Offering have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the shares of Securities may also adversely affect the price that you might be able to obtain for the shares of Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Investors in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

13. *Investors will not be entitled to any inspection or information rights other than those required by Regulation CF.*

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information – there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders.

14. *The shares of Securities acquired upon the Offering may be significantly diluted as a consequence of subsequent financings.*

Company equity securities will be subject to dilution. Company intends to issue additional equity to future employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence, holders of Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the purchaser's economic interests in the Company.

15. The amount of additional financing needed by Company will depend upon several contingencies not foreseen at the time of this Offering. Each such round of financing (whether from the Company or other investors) is typically intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds are not sufficient, Company may have to raise additional capital at a price unfavorable to the existing investors. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to predict accurately the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain such financing on favorable terms could dilute or otherwise severely impair the value of the investor's Company securities.

16. *There is no present public market for these Securities and we have arbitrarily set the price.*

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

17. In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Investor is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

18. THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS OFFERING STATEMENT AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

The Offering

Foot Glove Performance Footwear Inc. ("Company") is offering securities under Regulation CF, through Netcapital Funding Portal Inc. ("Portal"). Portal is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.9% of the value of the securities sold through Regulation CF. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$10,000 and \$500,000 through an offering under Regulation CF. Specifically, if we reach the target offering amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be

allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

In the event The Company fails to reach the offering target of \$10,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

8. What is the purpose of this offering?

This key potential \$500,000 dollar capital raise will allow us to optimally deliver our products to the mass market primarily by increasing our manufacturing capabilities. It will also allow us to expand our product offerings and invest in marketing to the point of reaching upwards to \$2,000,000 in sales within the next 18 months. Specific funding allocation is as follows: \$195,000 to inventory, \$155,000 to marketing, \$126,000 to Operations and \$24,000 to product design enhancements.

9. How does the issuer intend to use the proceeds of this offering?

Uses	If Target Offering Amount Sold	If Maximum Amount Sold
Intermediary Fees	\$490	\$24,500
Inventory	\$5,000	\$195,000
Marketing	\$4,510	\$155,000
Operations	\$0	\$101,500
Product design	\$0	\$24,000
Total Use of Proceeds	\$10,000	\$500,000

10. How will the issuer complete the transaction and deliver securities to the investors?

In entering into an agreement on the Netcapital Funding Portal to purchase securities, both investors and Foot Glove Performance Footwear Inc. must agree that a transfer agent, which keeps records of our outstanding Common Stock (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed). Similar to other online investment accounts, the transfer agent will give investors access to a web site to see the number of Securities that they own in our company. These Securities will be issued to investors after the deadline date for investing has passed, as long as the targeted offering amount has been reached. The transfer agent will record the issuance when we have received the purchase proceeds from the escrow agent who is holding your investment commitment.

11. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering by logging in to your account with Netcapital, browsing to the Investments screen, and clicking to cancel your investment commitment. Netcapital will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

12. Can the Company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least

five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

13. Describe the terms of the securities being offered.

We are issuing Securities at an offering price of \$1.30 per share.

14. Do the securities offered have voting rights?

The Securities are being issued with voting rights. However, so that the crowdfunding community has the opportunity to act together and cast a vote as a group when a voting matter arises, a custodian will cast your vote for you. Please refer to the custodian agreement that you sign before your purchase is complete.

15. Are there any limitations on any voting or other rights identified above?

You are giving your voting rights to the custodian, who will vote the Securities on behalf of all investors who purchased Securities on the Netcapital crowdfunding portal.

16. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be canceled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a

relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Securities

Class of Security	Amount Authorized	Amount Outstanding	Voting Rights	Other Rights
Common Stock	10,000,000	3,145,473	Yes	

Options, Warrants and Other Rights

Type	Description	Reserved Securities
Options Pool		500,000

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?

The existing convertible debt is subject to conversion into equity under certain circumstances, and if they convert you will be diluted by that conversion.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?

The Company's bylaws can be amended by the shareholders of the Company, and directors can be added or removed by shareholder vote. As minority owners, you are subject to the decisions made by the majority owners. The issued and outstanding common stock gives management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as the issuance of additional shares, or the sale of debt, convertible debt or assets of the company.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

At the issuer's discretion.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

As the holder of a majority of the voting rights in the company, our majority shareholders may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholders may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

23. What are the risks to purchasers associated with corporate actions including:

- additional issuances of securities,
- issuer repurchases of securities,
- a sale of the issuer or of assets of the issuer or
- transactions with related parties?

The issuance of additional shares of our common stock will dilute your ownership. As a result, if we achieve profitable operations in the future, our net income per share will be reduced because of dilution, and the market price of our common stock, if there is a market price, could decline as a result of the additional issuances of securities. If we repurchase securities, so that the above risk is mitigated, and there are fewer shares of common stock outstanding, we may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our stock would decline. A sale of our company or of the assets of our company may result in an entire loss of your investment. We cannot predict the market value of our company or our assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. In addition to the payment of wages and expense reimbursements, we may need to engage in transactions with officers, directors, or affiliates. By acquiring an interest in the Company, you will be deemed to have acknowledged the existence of any such actual or potential related party transactions and waived any claim with respect to any liability arising from a perceived or actual conflict of interest. In some instances, we may deem it necessary to seek a loan from related parties. Such financing may not be available when needed. Even if such financing is available, it may be on terms that are materially averse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. If we are unable to obtain financing on reasonable terms, we could be forced to discontinue our operations. We anticipate that any transactions with related parties will be vetted and approved by executives(s) unaffiliated with the related parties.

 2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
 3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer; or
 4. any immediate family member of any of the foregoing persons.

No.

Financial Condition of the Issuer

27. Does the issuer have an operating history?

Yes.

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Foot Glove Performance Footwear Inc. is a new company with nominal revenues. We had revenues of \$10,823 and \$5,122 in the years ended December 31, 2019 and 2018, respectively. Our average monthly burn rate is approximately \$3,000, with an average allocation of 90% for general and administrative expenses. We currently have metrics around the user base. With this raise, we plan to allocate a higher percentage to operations, as well as to product design and marketing. We believe these activities will result in the traction we will need to court venture capital funding. We intend to raise a \$500,000 round in 2021. We currently have \$14,000 in the bank and \$222,000 in convertible notes payable. In 2020 the company issued \$25,000 in a convertible note of which \$10,000 still remains to be funded, while \$15,000 is currently outstanding. We will continue to keep a tight rein on expenses in order to keep a secure runway for the duration of the time it will take to raise this round. Our expenses for the year ended on December 31, 2019, amounted to \$55,343, which resulted in a \$55,343 loss. Our expenses for the year ended on December 31, 2018, amounted to \$39,031, which resulted in a \$39,031 loss.
