Amendment No. 3 to Registration Statement on Form S-1

General

1. With a view toward disclosure, please tell us whether your sponsor is, is controlled by, or has substantial ties with a non-U.S. person. If so, also include risk factor disclosure that addresses how this fact could impact your ability to complete your initial business combination. For instance, discuss the risk to investors that you may not be able to complete an initial business combination with a U.S. target company should the transaction be subject to review by a U.S. government entity, such as the Committee on Foreign Investment in the United States (CFIUS), or ultimately prohibited. Disclose that as a result, the pool of potential targets with which you could complete an initial business combination may be limited. Further, disclose that the time necessary for government

review of the transaction or a decision to prohibit the transaction could prevent you from completing an initial business combination and require you to liquidate. Disclose the consequences of liquidation to investors, such as the losses of the investment opportunity in a target company, any price appreciation in the combined company, and the warrants, which would expire worthless.

Risk Factors

2. We note disclosure in your risk factor that your sponsor, officers, directors and affiliates may purchase shares from public holders for the purpose of voting those shares in favor of a proposed business combination, thereby increasing the likelihood of the completion of the combination. Please explain how such purchases would comply with the requirements of Rule 14e-5 under the Exchange Act. Refer to Tender Offer Rules and Schedules Compliance and Disclosure Interpretation 166.01 for guidance.
