RISK FACTORS

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

We are early-stage company. We were originally formed as a California limited partnership on February 20, 2018 and later converted to a Delaware Corporation on February 2, 2021. Our proposed operations are subject to all business risks associated with new enterprises. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase for the near future. There can be no assurances that we will ever operate profitably. You should consider the Company's business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company.

We have a history of losses. If we do not become profitable or maintain profitability in the future, we may not be able to continue to operate.

We have not been profitable in the past. We have not generated any significant revenues to date. Before we are able to generate any material level of revenues, we will incur significant additional losses. We expect to substantially increase our research and development and sales and marketing and general and administrative expenses. As a result, we will need to generate significant revenues to achieve and maintain profitability in the future. We cannot assure you that we will achieve profitable operations or maintain them if achieved. Failure to achieve or maintain profitability will materially and adversely affect our business.

We need to continue as a going concern if our business is to succeed.

Because of our recurring losses and negative cash flows from operations, we may not be able to continue as a going concern in the future. Reasons for our possible failure to continue as a going concern include our historical net losses, limited working capital, requirement to repay short and long term indebtedness and the need for additional financing to implement our business plan. If we are not able to attain profitability in the near future our financial condition could deteriorate further, which would have a material adverse impact on our business and prospects and result in a significant or complete loss of your investment. If we are unable to continue as a going concern, we might have to liquidate our assets and the values we receive for our assets in liquidation or dissolution could be significantly lower than the values reflected in our financial statements.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. We face intense competition for personnel. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and

commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

The development and commercialization of our products is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include both small companies and major companies operating worldwide, including Halo Top, Ben & Jerry's, Rebel Creamery, and Oatly. Many of our competitors have significantly greater financial, technical, and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

We rely on other companies to provide basic ingredients for our products.

We depend on these suppliers and subcontractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or subcontractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide basic ingredients which meet required specifications and perform to our and our customers' expectations. Our suppliers may be less likely than us to be able to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two subcontractors or suppliers for a particular basic ingredient.

We depend on third-party service providers and outsource providers for a variety of services and we outsource a number of our non-core functions and operations.

In certain instances, we rely on single or limited service providers and outsourcing vendors because the relationship is advantageous due to quality, price, or lack of alternative sources. If production or service was interrupted and we were not able to find alternate third-party providers, we could experience disruptions in manufacturing and operations including product shortages, higher freight costs and re-engineering costs. If outsourcing services are interrupted or not performed or the performance is poor, this could impact our ability to process, record and report transactions with our customers and other constituents. Such interruptions in the provision of supplies and/or services could result in our inability to meet customer demand, damage our reputation and customer relationships and adversely affect our business.

Manufacturing or design defects, unanticipated use of our products, or inadequate disclosure of risks relating to the use of the products can lead to injury or other adverse events.

These events could lead to recalls or safety alerts relating to our products (either voluntary or required by governmental authorities) and could result, in certain cases, in the removal of a product from the market. Any recall could result in significant costs as well as negative publicity that could reduce demand for our products. Personal injuries relating to the use of our products can also result in product liability claims being brought against us. In some circumstances, such adverse events could also cause delays in new product approvals. Similarly, negligence in performing our services can lead to injury or other adverse events.

In general, demand for our products and services is highly correlated with general economic conditions.

A substantial portion of our revenue is derived from discretionary spending by individuals, which typically falls during times of economic instability. Declines in economic conditions in the U.S. or in other countries in which we operate may adversely impact our consolidated financial results. Because such declines in demand are difficult to predict, we or the industry may have increased excess capacity as a result. An increase in excess capacity may result in declines in prices for our products and services.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on George Haymaker who is the Founder, Chief Executive Officer and director of the Company since September 2018 and Jordan Parker who is the Director of Marketing of the Company since April 2019 and Operations Manager of the Company since June 2019. The Company has or intends to enter into employment agreements with George Haymaker and Jordan Parker although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of George Haymaker, Jordan Parker, and or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on George Haymaker and Jordan Parker in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of George Haymaker and Jordan Parker die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We rely on various intellectual property rights, including trademarks in order to operate our business.

Such intellectual property rights, however, may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive

advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights.

As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

From time to time, third parties may claim that one or more of our products or services infringe their intellectual property rights.

Any dispute or litigation regarding patents or other intellectual property could be costly and time-consuming due to [the complexity of our technology and] the uncertainty of intellectual property litigation and could divert our management and key personnel from our business operations. A claim of intellectual property infringement could force us to enter into a costly or restrictive license agreement, which might not be available under acceptable terms or at all, could require us to redesign our products, which would be costly and time-consuming, and/or could subject us to an injunction against development and sale of certain of our products or services. We may have to pay substantial damages, including damages for past infringement if it is ultimately determined that our products infringe on a third party's proprietary rights. Even if these claims are without merit, defending a lawsuit takes significant time, may be expensive and may divert management's attention from other business concerns. Any public announcements related to litigation or interference proceedings initiated or threatened against us could cause our business to be harmed. Our intellectual property portfolio may not be useful in asserting a counterclaim, or negotiating a license, in response to a claim of intellectual property infringement. In certain of our businesses we rely on third party intellectual property licenses and we cannot ensure that these licenses will be available to us in the future on favorable terms or at all.

The amount of capital the Company is attempting to raise in this Offering is not enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company will need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we will not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of his or her investment.

We have not prepared any audited financial statements.

Therefore, you have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision. If you feel the information provided is insufficient, you should not invest in the Company.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment [requirements for employees who receive tips, a reduction in the number of states that allow tips to be credited toward minimum wage requirements,] changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

The Company's business operations may be materially adversely affected by a pandemic such as the Coronavirus (COVID-19) outbreak.

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which spread throughout other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a "Public Health Emergency of International Concern." On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a "pandemic." COVID-19 resulted in a widespread health crisis that adversely affected the economies and financial markets worldwide. The Company's business could be materially and adversely affected. The extent to

which COVID-19 impacts the Company's business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, the Company's operations may be materially adversely affected.

We face risks related to health epidemics and other outbreaks, which could significantly disrupt the Company's operations and could have a material adverse impact on us.

The outbreak of pandemics and epidemics could materially and adversely affect the Company's business, financial condition, and results of operations. If a pandemic occurs in areas in which we have material operations or sales, the Company's business activities originating from affected areas, including sales, materials, and supply chain related activities, could be adversely affected. Disruptive activities could include the temporary closure of facilities used in the Company's supply chain processes, restrictions on the export or shipment of products necessary to run the Company's business, business closures in impacted areas, and restrictions on the Company's employees' or consultants' ability to travel and to meet with customers, vendors or other business relationships. The extent to which a pandemic or other health outbreak impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of a virus and the actions to contain it or treat its impact, among others. Pandemics can also result in social, economic, and labor instability which may adversely impact the Company's business.

If the Company's employees or employees of any of the Company's vendors, suppliers or customers become ill or are quarantined and in either or both events are therefore unable to work, the Company's operations could be subject to disruption. The extent to which a pandemic affects the Company's results will depend on future developments that are highly uncertain and cannot be predicted.

We face risks relating to public health conditions such as the COVID-19 pandemic, which could adversely affect the Company's customers, business, and results of operations.

Our business and prospects could be materially adversely affected by the COVID-19 pandemic or recurrences of that or any other such disease in the future. Material adverse effects from COVID-19 and similar occurrences could result in numerous known and currently unknown ways including from quarantines and lockdowns which impair the Company's business. If the Company purchases materials from suppliers in affected areas, the Company may not be able to procure such products in a timely manner. The effects of a pandemic can place travel restrictions on key personnel which could have a material impact on the business. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could reduce the demand for the Company's products and impair the Company's business prospects including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

Growth rates higher than planned or the introduction of new products requiring special ingredients could create higher demand for ingredients greater than we can source.

Although we believe that there are alternative sources available for our key ingredients, there can be no assurance that we would be able to acquire such ingredients from substitute sources on a timely or cost effective basis in the event that current suppliers could not adequately fulfill orders, which would adversely affect our business and results of operations.

We are heavily dependent on our distributors.

In the United States we sell our products to independent distributors for distribution to on-premise locations such as bars, restaurants and sports venues, and for distribution to off-premise retail locations such as grocery and specialty stores. Although we currently have a large network of wholesale distributors, sustained growth will require us to maintain such relationships and enter into arrangements with additional distributors in new markets. No assurance can be given that we will be able to maintain our current distribution network or secure additional distributors on terms favorable to us, or at all.

Most of our distribution relationships are governed by state laws that in certain respects may supersede the terms of any contractual relationships.

Under most of these state laws, distribution agreements for beer can only be terminated by the supplier after the supplier shows some type of "cause" (usually an uncured deficiency in the distributor's operation) or upon payment of some sort of compensation to the distributor for the value of the distribution rights. State laws also may limit a beer supplier's right to object to proposed assignments of distribution rights and/or changes in distributor ownership. A minority of states have enacted similar laws governing distillery-distributor relationships. Therefore, while we have entered into contractual relationships with some of our distributors, state law in various jurisdictions may limit our exercising our contractual termination and enforcement rights. Additionally, our distribution relationships are susceptible to changes in state legislation that could significantly alter the competitive environment for the beer distribution industry, which could adversely affect the financial stability of distributors on which we rely.

The loss of our third-party distributors could impair our operations and substantially reduce our financial results.

We continually seek to expand distribution of our products by entering into distribution arrangements with regional bottlers or other direct store delivery distributors having established sales, marketing and distribution organizations. Many distributors are affiliated with and manufacture and/or distribute other beverage products. In many cases, such products compete directly with our products. The marketing efforts of our distributors are important for our success. If our brands prove to be less attractive to our existing distributors and/or if we fail to attract additional distributors and/or our distributors do not market and promote our products above the products of our competitors, our business, financial condition and results of operations could be adversely affected.

Our business is substantially dependent upon awareness and market acceptance of our products and brands.

Our business depends on acceptance by both our end consumers as well as our independent distributors of our brands as brands that have the potential to provide incremental sales growth rather than reduce distributors' existing beverage sales. We believe that the success of our product name brands will also be substantially dependent upon acceptance of our product name brands. Accordingly, any failure of our brands to maintain or increase acceptance or market penetration would likely have a material adverse affect on our revenues and financial results.

Reductions in sales of our products will have an adverse effect on our profitability and ability to generate cash to fund our business plan.

The following factors, among others, could affect continued market acceptance and profitability of our products:

- the introduction of competitive products;

- changes in consumer preferences among ice cream food products;
- changes in consumer eating and snacking habits, including trends away from certain categories, including major allergen-free, gluten-free and non-GMO products;
- changes in awareness of the social effects of farming and food production;
- changes in consumer perception about trendy snack products;
- changes in consumer perception regarding the healthfulness of our products;
- the level and effectiveness of our sales and marketing efforts;
- any unfavorable publicity regarding ice cream products or similar products;
- any unfavorable publicity regarding our brand;
- litigation or threats of litigation with respect to our products;
- the price of our products relative to other competing products;
- price increases resulting from rising commodity costs;
- any changes in government policies and practices related to our products, labeling and markets;
- regulatory developments affecting the manufacturing, labeling, marketing or use of our products;
- new science or research that disputes the healthfulness of our products; and
- adverse decisions or rulings limiting our ability to promote the benefits of popcorn products.

Adverse developments with respect to the sale of our products would significantly reduce our net sales and profitability and have a material adverse effect on our ability to maintain profitability and achieve our business plan.

We rely, in part, on our third-party co-manufacturers to maintain the quality of our products.

The failure or inability of these co-manufacturers to comply with the specifications and requirements of our products could result in product recall and could adversely affect our reputation. Our third-party co-manufacturers are required to maintain the quality of our products and to comply with our product specifications and requirements for certain certifications. Our third-party co-manufacturers are also required to comply with all federal, state and local laws with respect to food safety. Additionally, certain retail customers, require our third-party co-manufacturer to maintain minimum independent certifications, such as SQF Level 2 Certification or Hazard Analysis and Critical Control Points, or HACCP, certification. However, our third-party co-manufacturers may not continue to produce products that are consistent with our standards or that are in compliance with applicable laws, and we cannot guarantee that we will be able to identify instances in which our third-party co-manufacturer fails to comply with our standards or applicable laws. Any such failure, particularly if it is not identified by us, could

harm our brand and reputation as well as our customer relationships. We would have these same issues with any new co-manufacturer, and they may be exacerbated due to the newness of the relationship. The failure of any manufacturer to produce products that conform to our standards could materially and adversely affect our reputation in the marketplace and result in product recalls, product liability claims and severe economic loss.

As a food production company, all of our products must be compliant with regulations by the Food and Drug Administration (FDA).

We must comply with various FDA rules and regulations, including those regarding product manufacturing, food safety, required testing and appropriate labeling of our products. It is possible that regulations by the FDA and its interpretation thereof may change over time. As such, there is a risk that our products could become non-compliant with the FDA's regulations and any such non-compliance could harm our business.

We are subject to governmental regulations affecting food ingredients and their preparation.

Federal, state, and local laws and regulations govern the production and distribution and advertising of food ingredients and various other matters. Noncompliance with such laws and regulations may cause FDA or any particular state or jurisdiction may restrict our ability to conduct business, and result in the imposition of significant remediation costs or fines.

Our products rely on independent certification that they are non-GMO, gluten-free or Kosher.

We rely on independent certification of our non-GMO, gluten-free and Kosher products and must comply with the requirements of independent organizations or certification authorities in order to label our products as such. Currently, the FDA does not directly regulate the labeling of Kosher or non-GMO products as such. The FDA has defined the term "gluten-free" and we must comply with the FDA's definition if we include this label on our products. Our products could lose their non-GMO and gluten-free certifications if our raw material suppliers lose their product certifications for those specified claims. We could also lose our Kosher product certification if a contract manufacturing plant is found to be in violation of required manufacturing or cleaning processes. The loss of any of these independent certifications, including for reasons outside of our control, could harm our business.

Certain of our raw material contracts have minimum purchase commitments that could require us to continue to purchase raw materials even if our sales have declined.

We are contractually obligated to purchase a certain amount of raw materials from our suppliers even if we do not have the customer demand to sustain such purchases. The purchase of raw materials, which we are not able to convert into finished products and sell to our customers would have a negative effect on our business and results of operations.

Our future business, results of operations and financial condition may be adversely affected by reduced availability of our core ingredients.

Our ability to ensure a continuing supply of our core ingredients at competitive prices depends on many factors beyond our control, such as the number and size of farms that grow crops, poor harvests, changes in national and world economic conditions and our ability to forecast our ingredient requirements. The [list main ingredient] and other ingredients used in our products are vulnerable to adverse weather conditions and natural disasters, such as floods, droughts, frosts, earthquakes, hurricanes and pestilences. Adverse weather conditions and natural disasters can lower crop yields and reduce crop size and quality, which in turn could reduce the available supply of our core ingredients. If supplies of our core ingredients are reduced or there is greater demand for such ingredients, from us and others, we may not be able to obtain sufficient supply

on favorable terms, or at all, which could impact our ability to supply products to distributors and retailers.

Failure by our transportation providers to deliver our products on time or at all could result in lost sales.

We currently rely upon third-party transportation providers for a significant portion of our product shipments. Our utilization of delivery services for shipments is subject to risks, including increases in fuel prices, which would increase our shipping costs, and employee strikes and inclement weather, which may impact the ability of providers to provide delivery services that adequately meet our shipping needs. We may, from time to time, change third-party transportation providers, and we could therefore face logistical difficulties that could adversely affect deliveries. We may not be able to obtain terms as favorable as those we receive from the third-party transportation providers that we currently use or may incur additional costs, which in turn would increase our costs and thereby adversely affect our operating results.

If our brand or reputation is damaged, the attractive characteristics that we offer retailers may diminish, which could diminish the value of our business.

We are currently an attractive brand for our customers because our products are high quality and generate a high level of retail sales at a premium margin relative to their shelf space. This is due to both our premium price point and our sales velocity. If our brand or reputation is damaged for any reason, consumers may no longer be willing to pay a premium price for our products and we may no longer be able to generate a high sales velocity at our then-current prices. If we no longer offer these characteristics, retailers may decrease their orders of our products and downgrade the in-store placement of our products, which could have an adverse effect on our business and results of operations.

The Company has indicated that it has engaged in certain transactions with related persons.

Please see the section of this Offering Statement entitled "Transactions with Related Persons and Conflicts of Interest" for further details.

Risks Related to the Securities

The Crowd Note will not be freely tradable until one year from the initial purchase date. Although the Crowd Note may be tradable under federal securities law, state securities regulations may apply, and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Crowd Note. Because the Crowd Note have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Crowd Note have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Crowd Note may also adversely affect the price that you might be able to obtain for the Crowd Note in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C/A and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A majority of the Company is owned by a small number of owners.

Prior to the Offering, the Company's current owners of 20% or more beneficially own up to 93.38% of the Company. Subject to any fiduciary duties owed to our other owners or investors under Delaware law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

Upon conversion of the Crowd Notes, Purchasers who are not "Major Investors" will grant a proxy to vote their underlying securities to the Intermediary or its affiliate, and, thus, will not have the right to vote on any matters coming before the shareholders of the Company for a vote. By granting this proxy you are giving up your right to vote on important matters, including significant corporate actions like mergers, amendments to our certificate of incorporation, a liquidation of our company and the election of our directors.

Upon conversion of the Crowd Notes and by virtue of a provision contained in the Crowd Notes, if you are not a Major Investor, that is, an investor who has purchased at least \$25,000 in principal amount of the Crowd Notes, you will grant a proxy to the intermediary or its affiliate to vote the underlying securities that you will acquire upon conversion on all matters coming before the shareholders for a vote. The intermediary does not have any fiduciary duty to you to vote shares in a manner that is in your best interests. Accordingly, the intermediary may vote its proxy in a manner that may not be in the best interests of you as a security holder. For example, the intermediary may vote the proxy in favor of an amendment to our charter that adversely affects the rights of the holders of your class of securities in order to allow for a new investment to occur where the new investor requires senior rights.

Purchasers will be unable to declare the Security in "default" and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any "default" provisions upon which the Purchasers will be able to demand repayment of their investment. With respect to Purchasers who invest less than \$25,000 in the Securities, the Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing

and such Purchasers have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may such Purchasers demand payment and even then, such payments will be limited to the amount of cash available to the Company.

You will not have a vote or influence on the management of the Company.

All decisions with respect to the management of the Company will be made exclusively by the officers, directors, managers or employees of the Company. You, as a Purchaser of Crowd Notes, will have no ability to vote on issues of Company management and will not have the right or power to take part in the management of the company and will not be represented on the board of directors or managers of the Company. Accordingly, no person should purchase a Security unless he or she is willing to entrust all aspects of management to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or, with respect to those Purchasers who invest less than \$25,000, elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Affiliates of the Company, including officers, directors and existing shareholders of the Company, may invest in this Offering and their funds will be counted toward the Company achieving the Minimum Amount.

There is no restriction on affiliates of the Company, including its officers, directors and existing shareholders, investing in the Offering. As a result, it is possible that if the Company has raised some funds, but not reached the Minimum Amount, affiliates can contribute the balance so that there will be a closing. The Minimum Amount is typically intended to be a protection for investors and gives investors confidence that other investors, along with them, are sufficiently interested in the Offering and the Company and its prospects to make an investment of at least the Minimum Amount. By permitting affiliates to invest in the offering and make up any shortfall between what non-affiliate investors have invested and the Minimum Amount, this protection is largely eliminated. Investors should be aware that no funds other than their own and those of affiliates investing along with them may be invested in this Offering.

The Company has the right to extend the Offering deadline. The Company has the right to end the Offering early.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Amount even after the Offering deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering, if you choose to reconfirm your investment, your investment will simply be held until such time as the new Offering deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you. The Company may also end the Offering early; if the Offering reaches its target Offering amount after 30-calendar days but before the deadline, the Company can end the Offering with five business days' notice. This means your failure to participate in the Offering in a timely

manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

The Company has the right to conduct multiple closings during the Offering. If the Company meets certain terms and conditions an intermediate close of the Offering can occur, which will allow the Company to draw down on a portion of the proceeds of the offering committed and captured during the relevant period. The Company may choose to continue the Offering thereafter. Purchasers should be mindful that this means they can make multiple investment commitments in the offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Purchasers previously closed upon will not have the right to re-confirm their investment as it will be deemed completed.

There is no present market for the Securities, and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C/A AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

ReThink Ice Cream is a "better for you" ice cream brand that produces "tummy-friendly" decadent dairy ice cream, that's also low in sugar. Tummy-friendly because we use lactose-free A2/A2 dairy, do not use sugar alcohol to sweeten our ice cream, and use only a touch of organic agave. FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C/A and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit A.

Operations

The Company has been self-funded to date with owner's equity and an SBA loan. We are now seeking to raise capital primarily for marketing to grow sales. This new round of funding will be enough to fund the next year of operations at which time we project to be profitable. Our significant challenges have been to get our product formulation, brand positioning, messaging, and packaging exactly right, which we feel is behind us now.

New funds will be primarily and almost entirely in marketing. The number one priority for us and the quickest path to profitability is to grow sales.

Liquidity and Capital Resources

The Offering proceeds are essential to our operations. We plan to use the proceeds as set forth above under "use of proceeds", which is an indispensable element of our business strategy. The Offering proceeds will have a beneficial effect on our liquidity, as we currently have limited cash on hand which will be augmented by the Offering proceeds and used to execute our business strategy.

The Company does not have any additional sources of capital other than the proceeds from the Offering.

Capital Expenditures and Other Obligations

The Company does not intend to make any material capital expenditures in the future.

Material Changes and Other Information

Trends and Uncertainties

After reviewing the above discussion of the steps the Company intends to take, potential Purchasers should consider whether achievement of each step within the estimated time frame is realistic in their judgment. Potential Purchasers should also assess the consequences to the Company of any delays in taking these steps and whether the Company will need additional financing to accomplish them.

The financial statements are an important part of this Form C/A and should be reviewed in their entirety. The financial statements of the Company are attached hereto as Exhibit A.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 250,000 Crowd Notes for up to \$250,000.00 in principal amount. The Company is attempting to raise a minimum amount of \$25,000.00 in this Offering (the "Minimum Amount"). The Company must receive commitments from investors in an amount

totaling the Minimum Amount by October 18, 2021 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion. The Company will accept investments in excess of the Minimum Amount up to \$250,000.00 (the "Maximum Amount") and the additional Securities will be allocated on at the Company's discretion.

The price of the Securities does not necessarily bear any relationship to the Company's asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with Evolve Bank & Trust until the Minimum Amount of investments is reached. Purchasers may cancel an investment commitment until 48 hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers. If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled, and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Digital Registry in exchange for his or her investment as soon as practicable thereafter.

In the event that at least \$75,000 in investments is committed and received by the escrow agent and more than thirty (30) days remain before the Offering Deadline, the Company may, at the discretion of the Intermediary, conduct the first of multiple closings of the Offering (an "Intermediate Close") and withdraw funds from escrow, provided that all investors receive notice that an Intermediate Close will occur and funds will be released to the Company, at least five (5) business days prior to the Intermediate Close (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Investors who committed on or before such notice will have until 48 hours before the Intermediate Close to cancel their investment commitment.

Thereafter, the Company may, at the discretion of the Intermediary, only conduct another Intermediate Close before the Offering Deadline if (i) the amount of investment commitments made and received in escrow exceeds \$125,000 since the time of the last Intermediate Close, and (ii) more than thirty (30) days remain before the Offering Deadline.

If a Purchaser does not cancel an investment commitment before an Intermediate Close or before the Offering Deadline, the funds will be released to the Company upon closing of the Offering

and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing, and the Purchaser will receive Securities in exchange for his or her investment as soon as practicable thereafter.

The Company has agreed to return all funds to investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of any subsequent closes.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

The price of the Securities was determined arbitrarily. The minimum amount that a Purchaser may invest in the Offering is \$100.00.

The Offering is being made through MicroVenture Marketplace, Inc., the Intermediary. The following two fields below sets forth the compensation being paid in connection with the Offering.

Commission/Fees

At the conclusion of the Offering, the Issuer shall pay to the Intermediary a fee consisting of five percent (5%) commission based on the amount of investments raised in the Offering and paid upon distribution of funds from escrow at the time of closing.

Stock, Warrants and Other Compensation

The Intermediary will receive a number of Crowd Notes of the Issuer equal to two percent (2%) of the total number of Securities sold by the Issuer in the Offering.

Transfer Agent and Registrar

The Company will act as transfer agent and registrar for the Securities.

The Securities

We request that you please review our offering documents and the Crowd Note in conjunction with the following summary information.

Authorized Capitalization

See "CAPITALIZATION AND OWNERSHIP" above.

General

A Crowd Note is similar to a SAFE (Simple Agreement for Future Equity) security where an investor makes a cash investment in our company, but gets company stock at a later date in connection with a specific event. Although the security is called a Crowd Note, the Crowd Note

is not a debt instrument. It is intended to be an alternative to a convertible note that is beneficial for both our company and you as an investor.

Events Triggering Conversion of Crowd Notes

If you are a Major Investor, which is defined as an investor who invests at least \$25,000 in this offering, then the specified event upon which the Crowd Note would convert into capital stock of our company is (i) a Qualified Equity Financing, which we define below, or (ii) a Corporate Transaction, which we define below, if instead of receiving two times (2X) the outstanding principal of your Crowd Note, your Crowd Note is converted immediately prior to the closing of the Corporate Transaction.

If you are not a Major Investor, then the Crowd Note will only convert into capital stock of our company upon the earlier of (i) our company's election to convert your Crowd Note, including upon a Qualified Equity Financing if our company elects to convert your Crowd Note then, or (ii) a Corporate Transaction, if instead of receiving two times (2X) the outstanding principal of your Crowd Note, your Crowd Note is converted immediately prior to the closing of the Corporate Transaction.

Qualified Equity Financing

The Crowd Note defines "Qualified Equity Financing" as the first sale (or series of related sales) by us of our preferred stock following the closing of this Offering from which we receive gross proceeds of not less than \$1,000,000.00 (excluding the aggregate amount of securities converted into preferred stock in connection with such sale or series of related sales).

If the Crowd Note converts into equity in connection with a Qualified Equity Financing, then we will convert the Crowd Note into shares of our preferred stock that are issued in connection with the Qualified Equity Financing, which we refer to as Conversion Shares, equal to the quotient obtained by dividing the outstanding principal amount of the Crowd Note by the Conversion Price, which is defined below. The issuance of Conversion Shares will be on the same terms and conditions applicable to the stock sold in the Qualified Equity Financing; provided, however, that if you are not a Major Investor, you will receive shares of a shadow series, as we describe below, with certain limited rights. The Conversion Price applicable to a Qualified Equity Financing is the lower of:

- (i) the product of (a) one minus any applicable Discount (which is 20%), and (b) the price paid per share for preferred stock by the investors in the Qualified Equity Financing, or
- (ii) the quotient resulting from dividing (a) the Valuation Cap (\$5 million) depending on whether the Purchaser is an early bird investor), as defined below by (b) the total number of our shares of capital stock that are outstanding on a fully diluted basis (assuming for this purpose the exercise, exchange or conversion of all securities exercisable or exchangeable for, or convertible into, our capital stock), immediately prior to the closing of the Qualified Equity Financing.

Any investor who is not a Major Investor will receive a shadow series of preferred stock upon conversion of such investor's Crowd Note. A shadow series is a series of our preferred stock that is identical in all respects to the shares of preferred stock issued in the Qualified Equity Financing (e.g., if the Company sells Series A Preferred Stock in the Qualified Equity Financing, the shadow series would be Series A-1 Preferred Stock), except that the liquidation preference

per share of the shadow series shall equal the Conversion Price and the following additional differences will apply:

(i) shadow series shareholders will grant their vote on any matter that is submitted to a vote or for the consent of the stockholders of our company (except for on matters required by law) by irrevocable proxy; and

(ii) shadow series shareholders will receive quarterly business updates from the Company through the Intermediary but will have no additional information or inspection rights (except with respect to such rights which are required by law).

Corporate Transaction and Corporate Transaction Payment

The Crowd Note defines “Corporate Transaction” as

(i) the closing of the sale, transfer or other disposition of all or substantially all of our assets,

(ii) the consummation of the merger or consolidation of our company with or into another entity (except a merger or consolidation in which the holders of capital stock of our company immediately prior to such merger or consolidation continue to hold at least 50% of the voting power of the capital stock of our company or the surviving or acquiring entity),

(iii) the closing of the transfer (whether by merger, consolidation or otherwise), in one transaction or a series of related transactions, to a person or group of affiliated persons (other than an underwriter of our securities), of securities of our company if, after such closing, such person or group of affiliated persons would hold 50% or more of the outstanding voting stock of our company (or the surviving or acquiring entity), or

(iv) the initial public offering, liquidation, dissolution or winding up of our company; provided, however, that a transaction shall not constitute a Corporate Transaction if its sole purpose is to change the state of our incorporation or to create a holding company that will be owned in substantially the same proportions by the persons who held our securities immediately prior to such transaction.

In the event of a Corporate Transaction (defined above), you will receive the higher of value (i) an amount equal to two times (2X) the price you paid for your Crowd Note (i.e., 2x your principal amount) or (ii) the number of shares of preferred stock of the Company calculated by (a) multiplying the price you paid for your Crowd Note by the total number of our shares of capital stock that are outstanding on a fully diluted basis (assuming for this purpose the exercise, exchange or conversion of all securities exercisable or exchangeable for, or convertible into, our capital stock), immediately prior to the closing of the Qualified Equity Financing, and (b) dividing the product of that calculation by the Valuation Cap.

Termination of Crowd Note

The Crowd Notes will terminate upon the earlier of: (i) a conversion of the entire purchase price under the Crowd Notes into Conversion Shares; or (ii) the payment of amounts due to the investor pursuant to a Corporate Transaction.

No Voting Rights, No Shareholders Agreement and No Anti-Dilution Rights

The Crowd Notes do not have any voting rights. Further, upon conversion of the Crowd Notes into Conversion Shares, shadow series shareholders shall grant their vote on any matter that is submitted to a vote or for the consent of the members of the Company (except for on matters required by law) by irrevocable proxy.

The Company does not have any shareholder/equity holder agreements in place.

The Securities do not have anti-dilution rights.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Purchaser of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities were transferred: i) to the Company, ii) to an accredited investor, as defined by Rule 501(d) of Regulation D of the Securities Act of 1933, as amended, iii) as part of an Offering registered with the SEC, or iv) to a member of the family of the Purchaser or the equivalent, to a trust controlled by the Purchaser, to a trust created for the benefit of a family member of the Purchaser or the equivalent, or in connection with the death or divorce of the Purchaser or other similar circumstances. “Member of the family” as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Remember that although you may legally be able to transfer the Securities, you may not be able to find another party willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Securities into which they are convertible, such transferring Purchaser must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

Additional Transfer Restrictions

The Purchaser may not transfer the Securities or any Securities into which they are convertible to any of the Company’s competitors, as determined by the Company in good faith.

IPO Lock Up

Upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be sold for up to 180 days following such IPO.

Other Material Terms

The Company does not have the right to repurchase the Crowd Notes.

NOTE 1 - NATURE OF BUSINESS

Organization and Nature of Business

Midgie's Good Cream, Inc. (dba ReThink Ice Cream (the "Company")) is a C-corporation incorporated in Delaware as of 02/02/2021 and is headquartered in Napa, CA. ReThink makes better for you dairy ice cream. We make revenue by selling our products in grocery stores and foodservice environments like hospitals.

The Company was incorporated in DE under the name Midgie's Good Cream, Inc. on 2/2/2021.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Company's fiscal year-end is December 31.

Revenue Recognition

The Company recognizes revenue only when all of the following criteria have been met.

- Delivery of products to the customer has occurred.

Sales/Income

Gross sales are reduced by distributor chargebacks, early payment discounts, retailer promotional discounts, activations fees, and spoilage allowances to arrive at net income/net sales.

Cost of Goods Sold

All costs of manufacturing including ingredients, packaging, manufacturing (tolling), transfer freight to storage, and storage costs are included in total Cost of Goods.

Inventory

Inventory is adjusted monthly, stated at cost, and is accounted for using the first-in-first-out method ("FIFO"). Drops in inventory increase cost of goods for the period, and increases in inventory reduce cost of goods for the period. The Company analyzes inventory for any potential obsolescence, and records impairment and obsolescence reserve against inventory as deemed necessary. At December 31, 2019 and 2020 the Company determined no such impairment charge necessary.

Marketing Costs

The Company's marketing and advertising costs are expensed as incurred. Broker fees and free fills (product required to get placement on retailer shelves) are considered and recorded as marketing costs.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of 90 days or less to be cash equivalents. At December 31, 2018 and 2017, the cash equivalents that the Company had includes bank deposits. The Company maintains its cash in bank deposit accounts that may at times, exceed federal insured limits. No losses have been recognized as a result of these excess amounts.

Intangible Assets

Intangible assets consist of trademarks and patents, app development and design. These assets are purchased or developed by the Company and are recorded at cost. Amortization is recognized over the estimated useful life of the asset using the straight-line method for financial statement purposes. The Company reviews the recoverability of intangible assets, including the related useful lives, whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. No impairment was considered necessary at either 12/31/19 or 12/31/20.

Income Taxes

The Company accounts for income taxes based on the provisions promulgated by the Internal Revenue Service ("IRS"), which has a statute of limitation of three years from the due date of the return. As such, all tax years are open since the Company's inception.

The Company currently has a tax net operating loss of \$2,000,000 which it may receive future tax benefits. However, as of December 31, 2020 no such benefit is expected to be recognized in the near term, and therefore, a full valuation allowance has been assessed on any potential income tax benefit.

NOTE 3 -- GOING CONCERNS

Going Concern Matters

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business.

The Company has incurred losses from inception of approximately \$3,000,000 which, among other factors, raises substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent upon management's plans to raise additional capital from the issuance of debt or the sale of stock, its ability to commence profitable sales, and its ability to generate positive operational cash flow. The accompanying financial statements do not include any adjustments that might be required should the Company be unable to continue as a going concern.

Risks and Uncertainties

The Company is subject to customary risks and uncertainties associated with dependence on key personnel, costs of services provided by third parties, the need to obtain additional financing, limited operating history, manufacturing complexities and changes to consumers needs and tastes.

COMPANY SUMMARY

Opportunity

In the U.S., ice cream is among the most popular dessert options, with the average American consuming 23 pounds of ice cream per year.ⁱ Despite its popularity, many individuals cannot eat traditional ice cream due to lactose intolerance or other dietary restrictions imposed by diseases such as diabetes. It is estimated that approximately 65% of the human population has a reduced ability to digest lactoseⁱⁱ and that 463 million people between the ages of 20 and 79 live with diabetes.ⁱⁱⁱ For these individuals, substitutes such as alternative milk ice cream or low sugar ice cream are available but may lack the texture, consistency, or natural ingredients offered by traditional ice creams.

Founded in 2018, ReThink has created a dairy-based ice cream that is low sugar and tummy-friendly without skimping on flavor, texture, or ingredient integrity. ReThink uses lactose-free A2/A2, dairy which does not contain the A1 protein often attributed to dairy intolerance.^{iv} Made with no sugar alcohol, all-natural ingredients, collagen, whey protein isolate, and prebiotic fiber, ReThink Ice Cream hopes to offer a health-conscious treat that more individuals can enjoy.

Product

ReThink offers consumers diabetic and tummy-friendly ice cream that is intended to provide a healthier alternative to traditional ice cream without sacrificing flavor, texture, or consistency. All ReThink ice cream is lactose-free and made with A2/A2 dairy, which only contains the protein A2 beta-casein. According to studies, A1 beta-casein, found in regular milk alongside A2, is digested differently than A2 and is believed to be the main contributor to adverse gastrointestinal effects.^v

ReThink's line of ice creams is also infused with collagen and whey protein isolate, and prebiotic fiber to further promote potential health benefits. Additional features include:

- Low sugar
- No sugar alcohols (i.e., Erythritol)
- Gluten-free
- All-natural ingredients
- Keto-friendly

Currently, ReThink offers 10 flavors of ice cream, including:

- **Retailers** – ReThink pints retail for \$6.99 but are regularly put on sale for \$5.99. ReThink sells the pints for \$3.90 wholesale to distributors. ReThink 4 oz. cups retail for \$3.50 and are sold wholesale for \$2.00.
- **Online** – Customers can purchase pints for \$5.99 a pint. ReThink charges a flat shipping fee of \$14.99 for "West Coast" orders (CA, WA, OR, ID, NV, UT, AZ) with a four-pint minimum order. For states outside of the West Coast, ReThink charges a flat rate of \$65 to cover the costs of 2-day air shipping.

Each ReThink pint costs \$1.75 on average to produce, while 4 oz. cups cost \$0.95.

HISTORICAL FINANCIALS

In the first two months of 2021, ReThink generated revenue of \$40,374. In 2020, the company generated revenue of \$419,445, a 6% decrease from 2019, in which the company generated \$447,096. The company attributes the decrease to factors related to the pandemic, as well as a drop-off in marketing as it prepared for the recent reformulation and repackaging of the product. From January 2019 to February 2021, the company has generated revenue totaling \$906,915. In Q2 2019, ReThink generated record revenue of \$136,613, due primarily to increased wholesale revenues from distributor purchases.

In the first two months of 2021, ReThink incurred expenses of \$156,635. In 2020, the company incurred expenses of \$1,336,467, a 27% decrease from 2019, in which the company incurred expenses of \$1,839,377. From January 2019 to February 2021, the company incurred total expenses of \$3,332,478. ReThink's expenses have steadily declined since their launch. In August 2020, the company established a new co-packer relationship, lowering their tolling costs significantly while improving margins.

A detailed breakdown of ReThink’s expenses across 2020 and 2019 are as follows:

In the first two months of 2021, ReThink incurred a net loss of \$116,261. In 2020, the company incurred a net loss of \$917,022, an improvement from 2019, in which the company incurred a net loss of \$1,392,281. From January 2019 to February 2021, the company has incurred a total net loss of \$2,425,563. In 2020, ReThink averaged a monthly burn rate of \$57,374. As of March 2021, the company had roughly \$49,000 of cash on hand. As a result of low cash on hand, the founders anticipate funding the company until the conclusion of the crowdfunding raise.

INDUSTRY AND MARKET ANALYSIS

ReThink produces tummy-friendly, low-sugar ice cream products. According to IBISWorld, the ice cream production industry was projected to reach revenues totaling \$8.1 billion in 2021. In 2021, the industry is expected to grow 3.6% relative to 2020. From 2016 to 2021, however, the industry has declined 1.8%. Given that milk is the primary ingredient used to produce ice cream, the research firm notes an increase in milk prices will likely raise input costs and revenue for producers. Typically, producers can pass on input price increases to consumers; however, if prices remain high for long periods, demand for specific products may weaken, ultimately harming industry revenue. The price of milk was expected to increase in 2020, representing a potential opportunity for the industry.^{ix}

ReThink hopes to provide a tummy and diabetes-friendly alternative to traditional ice creams. According to the International Diabetes Federation (IDF), it is estimated that roughly 9.3% of adults aged 20–79 years, or 463 million people, are living with diabetes. In addition to these 463 million people, 1.1 million children and adolescents under the age of 20 live with Type 1 diabetes. Projections from the federation anticipate steady increases in the number of individuals with diabetes, with an estimated 578 million adults living with the disease by 2030 and 700 million by 2045.^x

In the U.S. specifically, it is estimated that 34.2 million people—or 10.5% of the U.S. population—have diabetes. Of the 34.2 million, 26.9 million are diagnosed, and 7.3 million (21.4% of total individuals with diabetes) are undiagnosed, according to numbers from the Center for Disease Control and Prevention (CDC). Further, the CDC notes that 88 million Americans (34.5% of the U.S. adult population) have prediabetes.^{xi}

ReThink also targets those who are lactose and milk protein intolerant. Lactose intolerance is an impaired ability to digest lactose, a sugar found in milk and other dairy products. Lactose is normally broken down by an enzyme called lactase, which is produced by cells in the lining of the small intestine. Approximately 65% of the human population has a reduced ability to digest lactose.^{xii}

MICROVENTURES

The company competes broadly within the food products industry. In 2020, the food products industry received \$8.02 billion in venture capital across 1,184 deals, a 32% increase over 2019 in which the industry received \$6.06 billion of investment. Other notable industry investment information includes:^{xiii}

Consequently, the undersigned understands that the undersigned must bear the economic risks of the investment in the Securities for an indefinite period of time.
- iii. The undersigned agrees: (A) that the undersigned will not sell, assign, pledge, give, transfer or otherwise dispose of the Securities or any interest therein, or make any offer or attempt to do any of the foregoing, except pursuant to Rule 501 of Regulation CF.

7. Conditions to Obligations of the Undersigned and the Company. The obligations of the undersigned to purchase and pay for the Securities specified on the signature page hereto and of the Company to sell the Securities are subject to the satisfaction at or prior to the Closing of the following conditions precedent: the representations and warranties of the Company contained in Section 5 hereof and of the undersigned contained in Section 6 hereof shall be true and correct as of the Closing in all respects with the same effect as though such representations and warranties had been made as of the Closing.

8. Obligations Irrevocable. Following the Closing, the obligations of the undersigned shall be irrevocable.

9. Legend. The certificates, book entry or other form of notation representing the Securities sold pursuant to this Subscription Agreement will be notated with a legend or designation, which communicates in some manner that the Securities were issued pursuant to Section 4(a)(6) of the Securities Act and may only be resold pursuant to Rule 501 of Regulation CF.

10. Waiver, Amendment. Neither this Subscription Agreement nor any provisions hereof shall be modified, changed, discharged or terminated except by an instrument in writing, signed by the party against whom any waiver, change, discharge or termination is sought.

11. Assignability. Neither this Subscription Agreement nor any right, remedy, obligation or liability arising hereunder or by reason hereof shall be assignable by either the Company or the undersigned without the prior written consent of the other party.

12. Waiver of Jury Trial. THE UNDERSIGNED IRREVOCABLY WAIVES ANY AND ALL RIGHT TO TRIAL BY JURY WITH RESPECT TO ANY LEGAL PROCEEDING ARISING

OUT OF THE TRANSACTIONS CONTEMPLATED BY THIS SUBSCRIPTION AGREEMENT.

13. Dispute Resolution.

a) General Rule. Any dispute under this Subscription Agreement will be resolved through arbitration, not through the court system. All arbitration will be conducted in the state where the executive office of the Company is located at such time, unless both parties agree otherwise in writing in a specific case. All arbitration will be conducted before a single arbitrator in following the rules of the American Arbitration Association. Except as required by law, neither a party nor the arbitrator may disclose the existence, content or results of any arbitration without the prior written consent of the other parties.

b) Appeal of Award. Within thirty days of a final award by the single arbitrator, either party may appeal the award for reconsideration by a three-arbitrator panel. If there is an appeal, the other party may cross-appeal within thirty days after notice of the appeal. The panel will reconsider all aspects of the initial award that are appealed, including related findings of fact.

c) Effect of Award. Any award by the individual arbitrator that is not subject to appeal, and any panel award on appeal, shall be final and binding, except for any appeal right under the Federal Arbitration Act, and may be entered as a judgment in any court of competent jurisdiction.

d) No Class Action Claims. NO ARBITRATION SHALL PROCEED ON A CLASS, REPRESENTATIVE, OR COLLECTIVE BASIS. No party may join, consolidate, or otherwise bring claims for or on behalf of two or more individuals or unrelated corporate entities in the same arbitration unless those persons are parties to a single transaction. An award in arbitration shall determine the rights and obligations of the named parties only, and only with respect to the claims in arbitration, and shall not (i) determine the rights, obligations, or interests of anyone other than a named party, or resolve any claim of anyone other than a named party, or (ii) make an award for the benefit of, or against, anyone other than a named party. No administrator or arbitrator shall have the power or authority to waive, modify, or fail to enforce this paragraph, and any attempt to do so, whether by rule, policy, and arbitration decision or otherwise, shall be invalid and unenforceable. Any challenge to the validity of this paragraph shall be determined exclusively by a court and not by the administrator or any arbitrator. If this paragraph shall be deemed unenforceable, then any proceeding in the nature of a class action shall be handled in court, not in arbitration.

14. Governing Law. This Subscription Agreement shall be governed by and construed in accordance with the laws of the State of Delaware, without regard to conflict of law principles thereof.

15. Section and Other Headings. The section and other headings contained in this Subscription Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Subscription Agreement.

16. Counterparts. This Subscription Agreement may be executed in any number of counterparts, each of which when so executed and delivered shall be deemed to be an original and all of which together shall be deemed to be one and the same agreement.

17. Notices. All notices and other communications provided for herein shall be in writing and shall be deemed to have been duly given if delivered personally or sent by registered or certified mail, return receipt requested, postage prepaid or email to the following addresses (or such other address as either party shall have specified by notice in writing to the other):

If to the Purchaser:	[PURCHASER ADDRESS] [E-MAIL ADDRESS]

18. Binding Effect. The provisions of this Subscription Agreement shall be binding upon and accrue to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns.

19. Survival. All representations, warranties and covenants contained in this Subscription Agreement shall survive (i) the acceptance of the subscription by the Company, (ii) changes in the transactions, documents and instruments described in the Form C/A which are not material or which are to the benefit of the undersigned and (iii) the death or disability of the undersigned.

20. Notification of Changes. The undersigned hereby covenants and agrees to notify the Company upon the occurrence of any event prior to the closing of the purchase of the Securities pursuant to this Subscription Agreement, which would cause any representation, warranty, or covenant of the undersigned contained in this Subscription Agreement to be false or incorrect.

21. Severability. If any term or provision of this Subscription Agreement is invalid, illegal or unenforceable in any jurisdiction, such invalidity, illegality or unenforceability shall not affect any other term or provision of this Subscription Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction.

The "Offering Deadline" is October 18, 2021

1. Definitions.

- a. "Conversion Shares" shall mean with respect to a conversion pursuant to Section 2, shares of the Company's preferred stock issued in the Qualified Equity Financing.
- b. "Conversion Price" with respect to a conversion pursuant to Section 2 shall equal the lower of (A) the product of (1) one minus any applicable Discount and (2) the price paid per share for preferred stock by the investors in the Qualified Equity Financing, or (B) the quotient resulting from dividing (1) the Valuation Cap by (2) the Fully-Diluted Capitalization immediately prior to the closing of the Qualified Equity Financing.
- c. "Corporate Transaction" shall mean:
 - i. the closing of the sale, transfer or other disposition of all or substantially all of the Company's assets,
 - ii. the consummation of the merger or consolidation of the Company with or into another entity (except a merger or consolidation in which the holders of capital stock of the Company immediately prior to such merger or consolidation continue to hold at least 50% of the voting power of the capital stock of the Company or the surviving or acquiring entity),

- iii. the closing of the transfer (whether by merger, consolidation or otherwise), in one transaction or a series of related transactions, to a person or group of affiliated persons (other than an underwriter of the Company's securities), of the Company's securities if, after such closing, such person or group of affiliated persons would hold 50% or more of the outstanding voting stock of the Company (or the surviving or acquiring entity), or
 - iv. the IPO, liquidation, dissolution or winding up of the Company; provided, however, that a transaction shall not constitute a Corporate Transaction if its sole purpose is to change the state of the Company's incorporation or to create a holding company that will be owned in substantially the same proportions by the persons who held the Company's securities immediately prior to such transaction.
- d. **"Corporate Transaction Payment"** shall mean an amount equal to two times (2X) the Purchase Price.  - l. **"Shadow Series"** shall mean shares of a series of the Company's preferred stock that is identical in all respects to the shares of preferred stock issued in the Qualified Equity Financing (e.g., if the Company sells Series A Preferred Stock in the Qualified Equity Financing, the Shadow Series would be Series A-1 Preferred Stock), except that the

THE PROBLEM

ReThink
ICE CREAM

TOO MUCH SUGAR

People want and need less sugar in their diets.¹

DAIRY INTOLERANCE

People with dairy intolerance migrate to plant-based frozen dessert because they have limited options.

TASTE + TEXTURE

“Healthier” ice creams don’t often deliver on taste & texture!

PRODUCT POSITIONING

ReThink
ICE CREAM

Decadent, “better for you” ice cream that is tummy-friendly,* low in sugar, and diabetic-friendly

*Tummy-friendly means using A2/A2 dairy, making it lactose-free, being low sugar and not using sugar alcohol. Re:Think resolves the aversion to lactose (milk sugar) and the A1 protein that is found in conventional milk today (due to cow mutation). Either one can cause stomach discomfort. Sugar alcohol can cause nausea.

ReThink

WHAT'S THE
DIFFERENCE
BETWEEN
A1 AND A2
ANYWAY?

DO YOU
EXPERIENCE
STOMACH
UPSET
FROM DAIRY?

*Here's
why!*

MOST PEOPLE THINK THEY SUFFER FROM LACTOSE INTOLERANCE. This is when the body doesn't have enough lactase enzyme to convert the milk sugar (lactose) into glucose in order to digest it.

WE USE
LACTOSE-FREE
A2 / A2 DAIRY
BECAUSE WE WANT
EVERYONE TO ENJOY
AN INDULGENT
ICE CREAM
WITHOUT THE
DISCOMFORT THAT
MANY OF US
EXPERIENCE FROM
TODAY'S DAIRY.

*What
is A1?*

MORE LIKELY IT IS AN INTOLERANCE TO THE A1 CASEIN PROTEIN FOUND IN MOST DAIRY TODAY. This A1 protein chain was introduced to dairy cows about 30 years ago as ranchers started crossbreeding cows. In our evolution, the human body had never digested the A1 protein. Today, many people have trouble digesting it which causes indigestion and cramping.

*Yay for
A2!*

THAT'S WHY **ReThink** ICE CREAM IS DIGESTIBLE WITHOUT DISCOMFORT! We source A2/A2 Dairy from cows that don't have the A1 protein chain. We then convert the lactose into glucose — so if you are lactose-intolerant we've taken care of it for you!

@RETHINKICECREAM

ReThink
ICE CREAM

LACTOSE-FREE A2/A2 DAIRY

We source our dairy from A2 cows because it is "tummy-friendly" and the treatment of the A2 cow is more humane than with conventional dairy cows. A2 cows are absent of the A1 protein that is the source of stomach discomfort in so many people.

Hello! I'm George Haymaker, the founder of ReThink Ice Cream. We make low sugar, tummy-friendly, dairy ice cream that's both decadent and delicious.

Our customers love us because we deliver the full experience of what ice cream should taste like, but without all that sugar and without the stomachache many people experience from dairy.

[Text Overlay: I love that it has collagen @Mahya]

[Text Overlay: I love your product so much @April]

[Text Overlay: Your ice cream is delicious! @lagirl818]

[Text Overlay: Responsible, tummy-friendly dairy ice cream that doesn't sacrifice on the experience.]

It's our mission to bring the joy and comfort we all get from a bowl of ice cream but do so in a way that's more responsible to our health. Responsible, tummy-friendly dairy ice cream that doesn't sacrifice on the experience. That's ReThink.

[Rethink has launched an investment crowdfunding campaign. Anyone can invest (even if you don't like ice cream).

Millions of people are intolerant to either the sugar or proteins found in most dairy today¹²³⁴. Our dairy comes from a special type of cow, it's called A2/A2 dairy. This dairy is free from the proteins that can bother the stomach. We then treat the sugar in the dairy to make it stomach-friendly. That's our secret! Best of all, while our ice cream has some amazing health benefits, it's just as delicious and creamy as your favorite brand, unlike some other better for you ice creams that can taste, well, artificial.

[Text overlay: A2/A2 dairy]

That's a big reason to like ReThink. Another is our business model. It's lean, low overhead and very scalable. Our model allows us to grow quickly through our established relationships with national distributors and retailers. As we scale, our goal is to generate more and more cashflow that can be reinvested in marketing.

[Text overlay: We've recently updated our branding and packaging. Looks pretty good, right?]

New investment will be used primarily for marketing to reach our target customers, activate them to trail our product, hopefully turning them into loyal customers.

Our plan is to be the leader in this new tummy-friendly ice cream category. The big difference? Our ice cream tastes great! Come be a part of this next great ice cream growth story!
