Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

We are working to develop and introduce new programs in a market with many competitors. Those programs may attract customers at a slower rate or in lower volume than expected.

As a result of the performance of our new programs, macroeconomic impacts, or other factors, we could fail to recruit a sufficient number of trainers needed to continue to grow the business.

Because our initiative is dependent on developing new software, technological complexities, inefficiencies, failure to achieve various deadlines, or other problems could occur that could delay the launch of one or more programs.

Our existing business and programs could decline as a result of changes in the competitive environment and competitive offerings, changes in the macroeconomic environment, or changes in consumer preferences.

Legal or regulatory issues could arise that may create financial difficulty or hardship for the company, that limit our ability to operate within certain states or locales; or that may require what business model we operate within certain states or locales. Such issues could include, but are not limited to, challenges to our intellectual property, tax rulings or unfavorable tax audits; lawsuits related to our programs, operations, or marketing practices; and evolving laws and regulations affecting independent contractor and "gig economy" business models.

Our Co-Founder and Co-CEO, Jeff Davidson, has been a restricted investment

Mr. Davidson has been a registered representative, adviser representative and wealth manager for 20 years. He continues to maintain an advisory practice and divides his time across both businesses. While it is our expectation that he will continue to devote as much of his business time to the management of the Company as is possible, it is possible that his external obligations could affect his availability for Company matters from time to time.

Additionally, Mr. Davidson's involvement in the securities industry has certain regulatory implications that could potentially affect the Company and the offering. Mr. Davidson served as a registered representative with Equitable Advisors ("EA") at the time of the Company's Series A financing. Although notice of the financing was provided to EA management, formal written approval for EA's involvement was not obtained prior to the commencement of the financing, which ultimately resulted in his being discharged from EA. FINRA subsequently made an inquiry related to the discharge, and Mr. Davidson has been working with FINRA to provide information related to the Series A financing over the past year. Potential actions that could result from the inquiry range widely, from no action, to a potential suspension or fine, and are unknown at this time. While the exact timing of FINRA's final determination is also unknown, it is possible that an adverse determination made prior to the completion of this offering could impact the Company's ability to raise the full offering amount.

In 2022, the Company experienced a decline in its outdoor business due to lingering impacts from the Covid-19 pandemic. While the Company's audited financials for 2022 are not yet complete, the Company anticipates that they will ultimately reflect a loss of approximately \$8 million in 2022. In response, the Company has significantly reduced operating expenses in order to reduce net losses going forward. The Company has also pivoted its business model and is offering new products and services that, should they succeed in gaining market traction, have the potential to further improve financial performance.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

INSTRUCTIONS TO QUESTIONS A: Avoid generalized statements and include only those factors that are unique to the issuer. Disclosures should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. A specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the Issuer intend to use the proceeds of this offering?

If we raise: **\$1,000,000**

Use of Proceeds: **25% Marketing (hiring two new employees), 25% New Product Development, 43.5% Software Development & Engineering (hiring three new engineers), 6.5% towards Wefunder intermediary fee.**

If we raise: **\$5,000,000**

Use of Proceeds: **Raising additional funds allows us to continue investing in product and engineering improvements we're making to the platform.**

30% Marketing, 30% New Product Development, 35% Software Development & Engineering (hiring 10 engineers), 5% towards Wefunder intermediary fees

INSTRUCTIONS TO QUESTION 10: An issuer must provide a reasonably detailed description of its intended use of proceeds, such that investors are given a clear and concise amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each possible use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will access proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating over-subscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of over-subscription. If you do not do so, you may later be required to cancel your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer: Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An investor's right to cancel. An investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered:

To view a copy of the SAFE you will purchase, please see [Appendix B, Investor Contracts](#). The main terms of the SAFEs are provided below.

The SAFEs. We are offering securities in the form of a Simple Agreement for Future Equity ("SAFE"), which provides Investors the right to **preferred units** in the Company ("Preferred Units"), when and if the Company sponsors an equity offering that involves **Preferred Units**, on the standard terms offered to other investors.

Conversion to Preferred Equity: Based on our SAFEs, when we engage in an offering of equity interests involving **preferred units**, **Investors will receive a number of units of preferred units** calculated using the method that results in the greater number of **preferred units**:

- i. the total value of the Investor's investment, divided by the price of **preferred units** issued to new Investors multiplied by the **discount rate** (80%), or
- ii. if the valuation for the company is more than **\$100,000,000.00** (the "Valuation Cap"), the amount invested by the investor divided by the quotient of:
 - (a) the Valuation Cap divided by
 - (b) the total amount of the Company's capitalization at that time.
- iii. for investors up to the first **\$1,750,000.00** of the securities, investors will receive a valuation cap of **\$75,000,000.00** and a discount rate of 75.0%.

Additional Terms of the Valuation Cap: For purposes of option (ii) above, the Company's capitalization calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Units basis):

- Includes all units of Capital Units issued and outstanding;
- Includes all Converting Securities;
- Includes all (i) issued and outstanding Options and (ii) Promised Options; and
- Includes the Unissued Option Pool, except that any increase to the Unissued Option Pool in connection with the Equity Financing shall only be included to the extent that the number of Promised Options exceeds the Unissued Option Pool prior to such increase.

Liquidity Events: If the Company has an initial public offering or is acquired by, merged with, or otherwise taken over by another company or new owners prior to Investors in the SAFEs receiving **preferred units**, investors will receive

- proceeds equal to the greater of (i) the Purchase Amount (the "Cash-Out Amount") or (ii) the amount payable on the number of units of Common Units equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount").

Liquidity Priority: In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard nonparticipating Preferred Units. The Investor's right to receive its Cash-Out Amount is:

1. Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Units);
2. On par with payments for other Safes and/or Preferred Units, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Units, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Units in proportion to the full payments that would otherwise be due; and
3. Senior to payments for Common Units.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to Investors. The SPV has been formed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert state and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. The Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy, if the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

Any provision of this Safe may be amended, waived or modified by written consent of the Company and either:

- i. the Investor or
- ii. the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii):
 - A. the Purchase Amount may not be amended, waived or modified in this manner;
 - B. the consent of the Investor and each holder of such Safes must be solicited

(even if not obtained), and

C. such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase Amount of all of such applicable group of Safes.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and
- B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- 1. to the issuer;
- 2. to an accredited investor;
- 3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
- 4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Describe any other rights:

Investors in the SAFE, if converted as part of an equity financing, will receive preferred units. Preferred units have a liquidation preference over common units.

The **Series A Preferred Units** have liquidation preferences that entitle these unitholders to receive, as part of a qualifying transaction and prior and in preference to holders of the Company's Common Units, liquidation preference amounts less any aggregate amounts already distributed. The Series A liquidation preference is an amount equal to (i) until the fifth anniversary of the original Series A issue date, 1.5 times the original Series A issue price, (ii) on or after the fifth anniversary of the original Series A issue date, 2 times the original Series A issue price; and (iii) on or after the tenth anniversary of the original Series A issue date, 2.5 times the original Series A issue price. After the Series A liquidation preference is paid, the holders of the Common Units will receive an aggregate amount equal to the product of (a) the unpaid Series

A liquidation preference distribution amount and Common Units distribution amount times (b) such Common Unitholders' percentage interest. Thereafter, the holders of the Preferred Units and Common Units will share pro rata in any remaining proceeds, after allocation on a pro rata basis to the Company's Long Term Incentive Plan award holders, in proportion to their relative percentage interests. At December 31, 2021, the Series A Preferred Units had a liquidation preference of \$14,790,000. Holders of the Preferred Units have the right to one vote for each unit held. Following the tenth anniversary of the original issuance of the Series A Preferred Units, on an annual basis during the period May 4th to June 3rd, the holders of a majority of the Series A Preferred Units then outstanding can request that the Company distribute to each holder of Series A Preferred Units an amount equal to such holder's unpaid liquidation preference as discussed above. The distribution would be required to be made within one year from the date the request is made and would not affect the amount of units held. Due to the fact that the distribution can be triggered at the option of the Series A Preferred Unit holders, the Company is accruing the amount of the potential future distribution over a ten year period, which represents the time from the original issuance date to the date of earliest distribution. The amount accrued as of December 31, 2021 is included in Accrued future distribution right on the accompanying consolidated balance sheet.

Effective October 15, 2021, the Company adopted the CG Consolidated, LLC Long Term Incentive Plan (the "Plan"). The Plan provides for the issuance of Phantom Equity Units ("PEUs") to employees of the Company. The Company has authorized up to 10,000,000 PEUs for issuance under the Plan. PEUs vest based on years of service according to a four-year vesting schedule, with 25% of the units vesting on each anniversary, unless a different vesting schedule is specified for a given PEU issuance. Following any distributions made to Preferred or Common Unit holders either from available cash, except for tax distributions made to Members or other distributions that are explicitly excluded from Plan participation at the time by the Company's Board of Managers, or distributions made upon a deemed liquidation of the Company as described in the Plan document, the Company shall pay the PEU holders an amount equal to 10% of the total distribution made, and such total distribution includes the distribution to the PEU holders and to the Preferred and Common Unit holders. Individual PEU holders will receive a pro rata portion of that distribution according to their total vested PEUs, relative to the total vested PEUs in the Plan. As the Company does not plan to pay distributions in the near future, nor is a deemed liquidation event probable, no compensation expense has been recorded related to these awards. At December 31, 2021, of the total units authorized, 5,065,000 units were available for issuance under the Plan. As of December 31, 2021, the Company has 4,935,000 PEUs outstanding, of which 4,468,750 were vested based on the contractual vesting schedules.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an investor's interests in the Company may be diluted. This means that the pro rata portion of the Company represented by the investor's securities will decrease, which could also diminish the investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an investor's interest will typically also be diluted.

Based on the risk that an investor's rights could be limited, diluted or otherwise qualified, the investor could lose all or part of his or her investment in the securities in this offering and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?
No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the **unitholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the investor's securities in the Company, and the Investor will have no recourse to change these decisions. The investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the **unitholders** may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The **unitholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The **unitholders** have the right to redeem their securities at any time. **Unitholders** could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of units. As discussed in Question 13, when we engage in an offering of equity interests involving **Preferred Units**, investors may receive a number of **Preferred Units** calculated as either (i) the total value of the investor's investment, divided by the price of the **Preferred Unit** being issued to new investors, or (ii) if the valuation for the company is more than the Valuation Cap, the amount invested divided by the quotient of (a) the Valuation Cap divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the **Preferred Units** that investors will receive, and/or the total value of the Company's capitalization, will be determined by our management. Among the factors we may consider in determining the price of **Preferred Units** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our units that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the

Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgment as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Liquidity & Capital Resources

To-date, the company has been financed with \$5,346,900 in debt and \$10,210,000 in equity.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 36 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 18 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

CG Consolidated, LLC cash in hand is \$3,640,000, as of January 2023. Over the last three months, revenues have averaged \$3,074,134/month, cost of goods sold has averaged \$2,165,659/month, and operational expenses have averaged \$1,587,792/month, for an average burn rate of \$689,517 per month. Our intent is to be profitable in 12 months.

Since the date our financials cover (and due to COVID), in-person fitness activities declined, resulting in customer churn and slower acquisition of new customers. From an expense perspective, we have acquired the assets of two entities and we invested significantly in a new nutrition coaching product offering. However, our operating expense run rate has also declined in recent months as we have simplified and reorganized business operations, including an exit from a large facility lease.

We expect our monthly revenues to average \$2.6 to \$2.8 million in the coming 3-6 months. We expect to see about \$3M to \$3.2M in expenses during the same period.

We believe we can be profitable on a go-forward monthly run rate basis by the end of 2023 with a fundraise of \$4-5 million. This will allow us to build critical technology infrastructure to roll out "CG 2.0" with multiple new programs, continue to drive strong trainer recruiting, and grow customer awareness of our newest offerings leading to new program subscriptions.

Our current cash balance is sufficient to cover short-term burn throughout the campaign. Our other sources of capital include our existing cash and potential capital available from our existing pool of private equity investors.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial outcomes and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical risks and cash flows are representative of what issuers should expect in the future. Take into account the proceeds of the offering and any other sources or pending sources of capital. Disclose how the proceeds from the offering will affect liquidity, whether working capital and any other additional funds necessary to the stability of the business, and how quickly the issuer anticipates being profitable or cash flow positive. Disclose the other material sources of capital to the business, such as the issuer's secured commitments by shareholders. References to the issuer in this Question 28 and these descriptions refer to the issuer and its predecessors, if any.

INSTRUCTIONS TO QUESTION 8: Final sales agent's written disclosure or derivative statement issued by a federal or state agency, described in Rule 503(a)(2) of Regulation Crowdfunding, under applicable, sensitive authorizer law provisions, for notice and an opportunity for hearing, which constitutes a final disposition or action by that federal or state agency.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (i) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to investors before investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of investors. It is, however, possible in some limited circumstances the Lead Investor's interests could diverge from the interests of investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead investor is replaced, the investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

The Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 31: If information is presented in a form, media or other source not able to be reflected in text or portable document format, the issuer should include:
(a) a description of the material nature of such information;
(b) a description of the format in which such disclosure is presented; and
(c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:
<https://campgladiator.com/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
